16	10/30/18 ⁵	Excerpts of Originally Adopted and Approved LAUSD 2017-18 LCAP (Prior to Unilateral Staff Modifications)

¹ The first 20 exhibits for appeal are the same 20 exhibits that were attached to the complaint.

² This draft version of the LCAP was released on or around 6/6/18 and, as of this filing, is posted on LAUSD's website as the official 2017-18 LCAP. The actual operative and final LAUSD 2018-19 LCAP approved by LACOE (Exh. 4) is not posted by LAUSD. See LAUSD LCAP Home, <https://achieve.lausd.net/lcap>.

³ LAUSD posted this version of the LCAP for public review and comment prior to approval; this same version was adopted by the School Board on June 18, 2019 at a public meeting. Subsequently, LAUSD unilaterally revised its 2019-20 LCAP and made substantial changes. This annotated version of the operative LCAP is highlighted to show what has been deleted in the revised LCAP.

⁴ As noted, LAUSD posted a revised version of its 2019-20 LCAP after it adopted the 6/18 version. The changes have been highlighted in this annotated version.

⁵ These excerpts are from the adopted and approved version of the 2017-18 LAUSD LCAP that internet archives show was posted on LAUSD's website as late as October 30, 2018. A revised 2017-18 LCAP was subsequently posted (see Exh. 2) that made substantive changes to various answers to LCAP template prompts.

LAUSD's new \$7.8 billion budget for next year impacts the district in many ways. Here are some examples

By [LA SCHOOL REPORT](#) |

PUBLISHED: June 24, 2019 at 1:23 pm | UPDATED: June 25, 2019 at 9:09 am

By **Taylor Swaak** | LA School Report

L.A. Unified board members passed the 2019-20 budget and accountability plan last week — but not before acknowledging that they are “unintelligible” documents that provide little insight into specific program and funding changes as the district looks to the next school year.

“None of the documents add up to anything you can count on,” board member Jackie Goldberg said, noting that she’d read “virtually every page” on three different occasions. “We need a new budget document that is useful, not only for us, but all of the public.”

The \$7.8 billion operating budget and Local Control and Accountability Plan (LCAP) — a three-year plan updated annually that outlines the district’s goals and actions for improving student outcomes — have to be adopted by July 1, per state law. Because of the looming deadline, board members said they’d approve both documents now and spend this year exploring ways to improve them. The board’s approval came one week after parents blasted district leaders for the documents’ lack of transparency.

Board member Scott Schmerelson cast the sole “no” vote on the budget.

L.A. Unified struggled to get its fiscal house in order this year, receiving threats of a possible fiscal takeover by the county because of its shaky finances. The approved budget now shows L.A. Unified operating in the black for three years — a sharp departure from a March budget update that estimated the district’s ending balance in 2021-22 would fall \$749 million short of required reserve levels if new revenues, such as a hoped-for parcel tax, didn’t materialize. Voters resoundingly defeated the tax earlier this month.

Before casting those votes during the marathon eight-hour session, the board also voted 4-3 to sunset the district’s contentious random student search policy by July 2020, following more than an hour of passionate testimony from parents, students and the community. Members approved a resolution as well opposing the California State University system’s recent proposal to add a fourth year of math or quantitative learning to admissions requirements. Speakers backing the resolution said CSU’s proposals would further limit college access to high-needs students.

Board member Richard Vladovic said moving forward, there should be multiple sessions scheduled during the year to parse the upcoming year's budget. L.A. Unified should "look at the outcomes we want in the district, and then we plan backwards," he said.

LA School Report reviewed the budget, LCAP and other sources to try and discern what's changing or staying the same from 2018-19 to 2019-20. Here's what we know — and don't know — about what to expect next year for high-needs students, teacher contract promises, lowest-performing schools and parent engagement efforts.

Funding and programs for high-needs students

Some key highlights:

Student Equity Needs Index (SENI) 2.0

The district budget has set aside \$262 million in 2019-20 to distribute funding to schools based on their rank in L.A. Unified's revised Student Equity Needs Index, or "SENI 2.0." The index considers school type — elementary, middle or high school — and factors such as asthma rates and injuries from gun violence, rather than just academic performance or income levels, when deciding where to channel the most money. Next year's SENI 2.0 allotment marks a sizable jump from the \$25 million that was appropriated using the updated index in 2018-19. It's not necessarily new money, however: the district told KPCC last year that it was distributing more than \$240 million to schools using its old equity index.

How different factors are weighted in the SENI 2.0 index (L.A. Unified)

All district schools except early education centers and those for adult education will get funding through SENI, with schools ranking higher on the index receiving more. For example, an elementary school determined to be in the "lowest" SENI rank category could receive up to \$386 extra per pupil, while a "highest" rank school could get \$725 per pupil.

Breakdown of SENI funding based on school level and rank (L.A. Unified)

The district's LCAP confirms that no schools in 2019-20 will receive "less funding" through SENI 2.0 than they did in 2018-19. Schools next year will also have more flexibility over how they spend their SENI funds, so they can better "address locally determined needs" for their most vulnerable students, such as English learners.

English learners

The district will continue to implement its Master Plan, which includes growing its dual-language programs, expanding the state Seal of Biliteracy award to the fifth and eighth grades, and “providing targeted supports for newcomers,” district spokeswoman Barbara Jones wrote in an email. L.A. Unified recently implemented a strategy to develop individualized reclassification plans for English learners, with the hope of switching them to a “Fluent English Proficient” categorization before they enter middle school.

The goal is to have 22 percent of English learners reclassify in 2019-20 — the same goal as in 2018-19. About a quarter of L.A. Unified’s roughly 486,000 students are English learners.

See which schools offer dual language programs [here](#). New programs are marked.

Special education students

It was unclear to LA School Report from the budget and LCAP how programs and services are changing for special education students. A hearing on L.A. Unified’s special education plan and budget— which increased from \$994 million to \$1.03 billion for 2019-20 — was one of the last items on the agenda for Tuesday’s meeting, and generated no board discussion. The district serves more than 60,000 special-needs students.

Jones said four new schools — Vernon City, San Antonio and Hope elementary schools and Gage Middle School — are joining a pilot program that’s testing “inclusive practices,” which “means that students with disabilities are educated with their non-disabled peers to the maximum extent possible,” she said. The program started in 2014-15 and had 50 school sites participating by 2018-19, according to the LCAP.

January’s teacher’s contract also called for the creation of a task force to study special education teacher caseloads, though a start date wasn’t included.

Foster youth

L.A. Unified is “not changing the Foster Youth Achievement program” in 2019-20, Jones said. The program focuses on boosting foster youth’s academic performance, largely through employing foster youth counselors. She added that, “the goal for next year is to provide local, integrated, specialized support services” and ensure “that our students in foster care continue to be served effectively and consistently.”

The 2019-20 budget allocated about \$15 million toward the program— a slight bump from the roughly \$14.1 million in 2018-19. The district has more than 7,000 foster students.

Various local and state advocacy organizations are disputing the program's status, however. At least six groups, such as Advancement Project California and Children's Defense Fund — California, claimed at two board meetings this month that a "restructuring" of the Foster Youth Achievement Program in 2019-20 will drastically increase the number of students assigned to each counselor. The organizations were in the process of getting documentation for LA School Report at the time of publication. Any further information will be included in an update.

Funding from one lawsuit ends — and another is in its last year

The Reed Investment Schools Program is "discontinued" as of June, according to the LCAP. The program — based on a 2014 settlement — has provided 37 middle schools and high schools across the district (listed here) additional supports to improve staff retention and student outcomes, such as assistant principals, extra counselors, mentor teachers, special education support providers and "unique" professional staff development opportunities.

In 2019-20, Reed schools will be "receiving SENI 2.0 funding instead of receiving staffing and professional development," Jones said. So while those positions will no longer be mandated, school leaders will have "flexibility" to utilize that SENI funding to retain staff hired through the Reed program if they choose to do so.

Meanwhile, 50 high-needs "innovation schools" (a list can be found here) will receive their last year of mandated extra funding following a 2015 lawsuit against the district. L.A. Unified has given about \$50 million a year to these schools since 2017-18 to support new and expanded programs and services for low-income, English learner and foster students. ACLU of Southern California has noted, however, that only 38 percent of the \$50 million allocated in 2018-19 was used. L.A. Unified will reabsorb any money that isn't spent by June 30, 2020.

Miscellaneous and districtwide

The district is lowering the minimum student enrollment required to receive a middle school assistant principal for counseling services. In 2019-20, middle schools with 700 or more students enrolled will get that assistant principal, compared to the 800-student threshold in 2018-19. There is no change at the elementary and high school levels.

Arts programs, such as dance, general music and film, also appear to be unchanged going into 2019-20. See the programs offered at each L.A. Unified school here.

Teacher contract promises

The latest teacher's contract, which was signed after the January strike and runs through 2021-22, is fully covered in the 2019-20 budget. Here are the additions expected:

- Average class sizes in grades 4 through 12 will be reduced by one student, bringing them back down to 2014-17 teachers contract levels. Average class sizes will be further reduced by an additional two students at 75 “targeted high needs” elementary schools and 15 middle schools. English and math classes in middle and high schools are also now capped at 39 students, per the contract. The cap pre-strike was 46 students, the teachers union has said.
- 150 new nurse positions. Where these nurses are placed will depend, for example, on how many students at a given school have diabetes or other “health-related issues,” Jones said. She added that campuses with athletic teams may also qualify for a school nurse based on the programs’ size.
- 41 new library positions in secondary schools. There won’t be a full-time librarian at every secondary school with a library this year, but the goal is to have one in each by the start of the 2020-21 year, Jones said.
- 17 new counselor positions. Their placements will be determined to “maintain a secondary school counseling services ratio of 500:1,” Jones said.

A list of specific school sites receiving these support staff does not appear available yet.

There are no raises scheduled for 2019-20. Under the contract, teachers received a 3 percent raise retroactive to 2017-18 and another 3 percent in 2018-19.

Supports for lowest-performing schools

The district states in its LCAP that the following resources are being provided this summer and during the 2019-20 school year for “Comprehensive Support & Improvement (CSI)” schools — the 110 schools within L.A. Unified boundaries that were identified by the state early this year as struggling to adequately serve students.

Summer programs. The district is offering a four-week program that includes “focused academic intervention in English Language Arts or mathematics for academically at-risk students in grades K-8,” according to the LCAP. There is also a 24-day summer program for high schoolers running currently from June 19 to July 24 to “recover credits and make progress toward graduation.”

Title I Intervention Program

School sites will receive per pupil funding from the federal program that benefits high-poverty schools, allowing them flexibility to focus on math, English language arts or credit recovery based on students' individual needs.

Social-emotional learning

L.A. Unified advisors or staff will identify and grow “age-appropriate” programs that — among other things — help students manage their emotions, establish positive relationships and set goals. Of the 110 identified schools, 88 are district schools and 22 are charters. You can search for your school here or within this EdSource database.

Parent engagement efforts

Responding to a question about parent frustration over the current budget and LCAP, Jones said the district has “committed to ... a more transparent process for the next school year.” She added later that Superintendent Beutner plans to meet with central parent committees such as the District English Learner Advisory Committee and Parent Advisory Committee quarterly “at a minimum” in 2019-20.

He’s met with them three times since becoming superintendent in May 2018, she noted.

For parents interested in getting more involved, 2019-20 also marks the first full year that parents can volunteer at a school without paying a \$56 fee for fingerprinting and background checks after the board voted to waive the fee last November. More information available here.

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF.

This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population. The District will continue to enhance school level autonomy by increasing available Targeted Student Population (TSP) funding to support low-income, english learner and foster youth students and will continue to grow the expanded transitional kindergarten program which builds upon the District's investment in early intervention and learning efforts for targeted students.

1. Goal #1, Action #5: Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index. Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

2. Goal #2, Action #6: Expanded Transitional Kindergarten - A fundamental building block for the implementation of the early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low income children who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.

3. Goal #2, Action #9: Early Literacy and Language Program (ELLP) - The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement.

BUDGET SUMMARY

Complete the table below. LEAs may include additional information or more detail, including graphics.

DESCRIPTION

AMOUNT

Total General Fund Budget Expenditures for LCAP Year

\$7,531,043,342

Total Funds Budgeted for Planned Actions/Services to Meet the Goals in the LCAP for LCAP Year

\$5,123,171,633

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

General Fund (GF) expenditures not in the LCAP account for \$2.4 Billion budgeted resources:

Education Protection Account, Lottery and unrestricted GF resources supporting teacher and school-site positions - \$856.1 million

Title 1, Resources to schools and summer programs - \$345.2 million

Title 1, School Improvement Grant - \$15.8 million

Title 2 Resources for professional development and quality educator improvement - \$36.2 million

Title 3 Resources supporting English Learner coaching and other efforts - \$17.9 million

Title 4 Part B, 21st Century Community Learning Centers Program - \$18.5 million

Educator Effectiveness Grant - \$24.9 million

Special Education IDEA Support, Alternative Dispute Resolution, Mental Health resources - \$612.7 million

Workforce, Vocational Education and Transition Partnership programs - \$7.8 million

	Services and Other Operating Expenditures \$0 Capital Outlay \$0	Services and Other Operating Expenditures \$8,370 Capital Outlay \$5,358

receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

An unallocated amount of \$245 million will be set aside as a result of a recent California Department of Education finding. The allocation is currently undetermined and will be revisited pending LAUSD's submittal of reconsideration.

The process for updating the LCAP in 2016-17 will assist in determining the identification and/or use of the unallocated \$245 million. Please see Section 3B for more information.

received an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds were distributed utilizing the District's student equity-based index via a position resource or through a direct funding allocation.

Services and positions supported by these resources were aligned with the District's investments and consistent strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there was a focus on the outcomes the District determined for low-income, English learner and Foster Youth students. Each school provided a justification for how the funds were targeted to unduplicated pupils through a plan, known as a Targeted Student Population (TSP) plan.

Specifically, these resources supported:

- Enhancements in school-climate by providing additional Psychiatric Social Workers, PSA counselors, and nurses.
- Additionally, resources were targeted by school type via the student equity-based index to provide enhanced academic supports and college & career counseling.
- Academic planning and instructional interventions
 - Class size reduction efforts to increase focused interventions for unduplicated pupils
- Campus safety and school maintenance
 - Campus aides
 - Additional building and grounds staff
- Registration and clerical supports
 - Provided supports to offer more services to families at schools ranking higher on the student equity-based index

In regards to the \$245 million identified for the 2016-17 school year. The district developed a process by which these resources were identified for supplemental and concentration purposes. Please see the description in the analysis section of GOAL #1

Expenditures

BUDGETED

Total: \$500.8 million (Supplemental/Concentration LCFF funds) Cert Salaries \$136,757,335 Class Salaries \$34,227,740 Emp. Benefits \$61,087,721 Books/Supplies \$15,400,070 Services and Other Operating Expenditures 7,537,693 Capital Outlay \$0 Undetermined \$245,769,897

ESTIMATED ACTUAL

Actions/Services

PLANNED

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

ACTUAL

In 2016-17, approximately 16,000 students were served by the District's Options programs. With 56 education options sites throughout LAUSD, students were provided an opportunity to learn in smaller, more personalized educational settings staffed by knowledgeable, supportive educators. These schools' continue to demonstrate that their focus on individualized, rigorous and open entry instruction has a significant impact on many of our vulnerable youth.

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The implementation of actions/services were completed throughout the school year. Local Districts utilized A-G intervention resources to provide credit recovery programs and support for students not on-track to complete the A-G graduation requirements. In addition, our schools supported by the Reed investment agreement were sustained by an additional year of funding to allow schools to plan for future interventions. Middle and High schools implemented and were supported by the A-G Diploma program/project to engage students who are not on track to meeting the A-G requirements for graduation by working with all stakeholders to implement interventions with the vision of graduation and college and career readiness for all students. The A-G Diploma Program provided early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

The District's all hands on deck approach to graduation has effectively increased outcomes for students district-wide. Comprehensively, the offering of after-school programs, credit recovery,

alternative school options, and greater autonomy on budgeting for appropriate interventions for students at the school-site has proven we are progressing towards 100% graduation. The all student metric and subgroup performance grew in every measured area under the 100% graduation goal. This growth provides one layer of evidence that the listed actions/services are making an impact on the outcomes students.

- LAUSD reached a 99% completion rate on Individualized Graduation Plans (IGP) for students in secondary schools.
- 43% completed all A-G courses with a "C" or better from the Class of 2016 and currently 56% have completed all A-G courses with a "C" or better from the Class of 2017. These are students who started their senior year with LAUSD.
- 77% cohort graduation rate for Class of 2016
- Currently 81% of the Class of 2017 on-track for A-G

In preparation for expectations set in the 3 year LCAP, LAUSD and LACCD reached a historic agreement in the offering and concurrent enrollment of college classes on the signing of the College and Career Access Pathways Partnership Agreement (AB 288).

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-site level.

In Action 5, school autonomy reflect an augmentation due to a process by which the District re-identified resources for supplemental and concentration purposes.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Specifically, the graduation target has been increased to reflect the 4% growth seen in 2015-16. Out-year targets have been adjusted to sustain the District's focus on a positive growth trend in graduation. In addition, the A-G intervention resources are maintained at \$15 million annually to ensure credit recovery and close monitoring efforts are available for local districts and the schools they serve.

For purposes of planning for the 2018-19 school year, it is recommended the LCAP for the following year be updated to include expected outcomes to reflect state changes. For example, SBAC or EAP targets should be changed from percent meeting/exceeding to scale score progress towards "level 3/meeting"; local measures changed to incorporate state guidelines. In order to provide greater coherence between local, state and federal accountability, metrics not required by CDE should be considered for removal (example: The number of 12th grade students completing the FAFSA).

It is important to note there are several points in the LCAP where the District in 2016-17 re-evaluated base and supplemental programs to better address the needs of low-income, English learner and/or foster youth students. This process has been described as the "Realignment Process", which required staff to assess whether existing programs or services

were directly benefiting low-income, English learner and/or Foster youth students and whether existing programs could be redesigned to directly benefit our low-income, English learner and/or Foster youth students. As a result of this process under Goal #1 several base funded resources were re-identified or redesigned to adhere to the supplemental and concentration expenditure requirements. Specifically, assistant principals, counselors and librarians were identified as base funded programs that would be modified to better serve and directly benefit low-income, English learner and foster youth students and are considered positions under Goal 1, Action 5, as school retain the discretion to hire and retain these personnel.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year

2017-18

2018-19

2019-20

Estimated Supplemental and Concentration Grant Funds:

\$1,134,420,996

Percentage to Increase or Improve Services:

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF.

This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services

are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Libraries/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)

- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- **Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies,

agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.

- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these

students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.

- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus

initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LAUSD) is a district focused on ensuring all students are prepared for college, career and life. We are a district that serves over 587,592 Pre-K thru Adult Education students, of which approximately 85% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, it is essential we ensure resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LAUSD is informed by our diverse population where nearly 94 languages other than English are spoken and 74% of our student population is Latino, 9.8% is White, 8.4% is African American and 6.04% is Asian/Pacific Islander. The District embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 60,000 employees, consisting of teachers, administrators and classified personnel that are instrumental in helping LAUSD achieve the goals and objectives for improving student outcomes.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

The Los Angeles Unified School District continues to foster programs and services aimed at providing necessary supports to our highest need schools that are determined by several Student Equity-Based indices focused on concentrating resources and services to our neediest students. Specifically, the District's plan continues to sustain essential programs and has designed programs that better support our low-income, English learners and foster youth under the following District goals:

Goal #1 - 100% Graduation: Ten LCAP actions that aim to increase the District's graduation rate and ensure students graduate college and career ready.

- Expands funding flexibility for the use of resources at school-sites to better serve our targeted student populations. Counseling and Assistant Principal positions are provided professional development and guidance for effectively supporting English learners and foster youth. The professional development will focus on our Targeted Student Population (TSP) to support building a student-centered master schedule that provides equitable access and maintains a comprehensive, instructionally effective and compliant instructional program that fosters the academic achievement of English Learners, low income and foster youth. (Goal 1, Action 5)
- Provide resources to 50 identified secondary schools to support innovative practices that are intended to improve academic and school climate outcomes. Schools are investing in professional development focused on ELA and Math strategies catering to the needs identified at each school. In addition, a restorative justice position plus other student support personnel are a minimum staffing requirement for these schools. (Goal 1, Action 10)

Goal #2 - Proficiency for All: Twelve LCAP actions are focused on attaining grade-level academic proficiency for all students.

- Sustains commitments for Foster youth through the continued funding of the Foster Youth Achievement Program (Goal 2, Action 1)
- Implement a coordinated professional development framework which focuses on designing professional development courses to identify & service targeted student population (Goal 2 Action 2)
- Revamped Accelerated Academic Literacy program directed towards tier II/tier III interventions for the middle schools students (Goal 2, Action 9)

Goal #3 - 100% Attendance: Four District supported actions to effectively engage and foster growth in school attendance for students

- Provide student support personnel that engage students and families on the importance of attending school everyday. (Goal 3, Action 2)

Goal #4 - Parent, Community and Student Engagement: LCAP actions support schools in enhancing partnerships and collaboration between parents, students, teachers and community members which specifically aim to develop and empower students to reach their full potential.

- Strengthen actions to decentralize parent and community engagement strategies and supports for schools (Goal 4, Action 2)

Goal #5 - Ensure School Safety: Create safe and orderly school environments where students and staff feel safe, cared for, connected and respected which is conducive to learning for all students.

- Support commitments for the District's Restorative Justice program (Goal 5, Action 1)

Goal #6 - Basic Services: Essential to maintaining effective staff, clean and welcoming schools and ensuring students receive equitable access to basic services throughout the District.

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

The Los Angeles Unified School District is proud of the heroic efforts by our teachers, counselors, parents, administrators and classified staff who rally around our students every day. We also thank our education leaders and partners who work with us to understand our challenges and celebrate our gains year after year.

1 – LAUSD reached its highest graduation rate of 80%* increasing by 8% over the last 3 years. Not only an increase but a demonstration that students are now completing the college required sequence of courses as part of their graduation requirement. The continued investments in credit recovery, graduation counseling and planning and furthering the culture change in our schools and amongst our families to set their sights on graduation, college and career through the District's Pre-k thru 12th grade continuum will ensure our success continues.

2 – LAUSD continues to demonstrate a great focus on addressing discipline through positive practices. The District continues to be a leader on decreasing the number of student suspensions with only .5% of our students being suspended in the 2016-17 school year. The District remains focused on implementing the school climate bill of rights and the discipline foundation policy while rolling out a 4 year strategy to train all schools with restorative practices and positive behavior and intervention supports for youth. LAUSD is proud of the significant decrease in suspensions we have seen over the last 6 years which is a product of the policies and people leading the way in this work.

3 – The District's English learner reclassification rate reached a record height of 20% for the 2017-18, a 9% increase in two years. In a district that serves over 120,000 English learners this is significant progress. A continued focus on monitoring English learner progress at school-sites and establishing a foundation of culturally and linguistically responsive practices is resulting in greater progress for English Learners. With the passage of Proposition 58 and the transition to the LPAC, the District is developing strategies to support an expansion of opportunities for English learners and their families.

**80% is a preliminary estimate based on prior year California Department of Education graduation calculation rules. We expect this estimate to change due to changes in the calculation by the California Department of Education*

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

There are two identified "orange" indicators in ELA and Math performance for "all students that need significant improvement. Specifically, a review of the District's performance found:

#1) The LAUSD is identified as having "low" status in English Language Arts Assessments, specifically having an average student performance of 39.6 points below level 3.

The Division of Instruction continues to support local district and schools to implement the new state standards in English Language Arts. The district implemented new instructional materials in English Language Arts courses aligned with the standards in the 2016-17 school year. The Division of Instruction is committed to providing a multi-tiered system of support to address the needs of all students. The Division of Instruction continues to invest in targeted support and intervention programs to meet the instructional needs of at-risk students at all grade levels, including English learners, Standard English learners and students with disabilities. The Division of Instruction continues to support Mastery Learning and Grading training district-wide to improve teachers' instructional and assessment practices. Social-emotional learning and culturally and linguistically responsive teaching strategies are also areas of focused professional development for teachers.

LA Unified Early Language and Literacy Plan (ELLP) seeks to ensure that, by the end of second grade, students are able to read, write, speak and listen with proficiency. The ELLP course of study for collaborative school teams includes phonemic awareness and phonics instruction along the continuum, small group reading instruction and effective use of data. ELLP schools are provided strategies for conducting in depth analyses of Dynamic Indicators or Early Literacy Skills (DIBELS) data and are encouraged to conduct supplemental diagnostic assessments in order to provide effective differentiated literacy instruction for students. Schools also receive professional development to support the consistent progress monitoring of students and the frequent adjustment of instructional groupings to ensure students meet and exceed literacy targets.

Based on the middle grades Framework for Action, students in grades 5-9 may demonstrate more success when offered more engaging courses aligned with real-world and personal connections. The Division of Instruction has expanded efforts to develop new, more engaging courses at the high school level including:

- Working with the Get Lit program to strengthen student skills around analysis in literature and non-fiction and

provide a variety of opportunities to build presentation and speaking skills.

- Expository Reading and Writing Course designed to provide students with reading and writing experiences and skills to be prepared for college level English courses.

A key to aligning English Language Arts instruction with the new standards is for teachers to understand how assessments must be adapted to allow students to demonstrate their proficiency. The Division of Instruction continues to invest in teacher professional development aligned with Building Educator Assessment Literacy (BEAL) so teachers can understand the expectations of the new Smarter Balanced Assessment and how to align their classroom assessments with these new expectations.

A wide array of high school credit recovery courses are offered to students needing to make up classes for A-G completion. These courses comprise virtual or blended models in the Edgenuity platform. In addition, the Performance Assessment Student Support (PASS) program was developed by the district to allow teachers raise student grades by differentiating learning opportunities so students can demonstrate mastery of course objectives in English 9, 10, 11, and 12A courses. Schools also provide additional instructional time beyond the semester where students have the opportunity to raise their grades in the STAR-17 program, to better prepare students to be competitive in making college applications. Literacy intervention is provided for students needing tier 2 and tier 3 support, giving students a support course within the school day.

Leaders of English Language Arts district-wide are also incorporating concepts from Academic Language Development by Kate Kinsella into professional development for teachers. These strategies are aligned with social-emotional learning practices that focus teachers and students on the power of consistent instructional routines for academic vocabulary, discussion, writing and supporting growth mindset in students. Also incorporating best practices from Kelly Gallagher on 180 day planning, and Catlin Tucker on blended learning in English Language Arts.

#2) The LAUSD is identified as having “low” status in Math Assessments, specifically having an average student performance of 59.7 points below level 3.

The Division of Instruction continues to support local district and schools to implement the new state standards in mathematics. The district implemented new instructional materials in core math courses aligned with the standards in the 2015-16 school year and will adopt additional instructional materials in the advanced and elective mathematics courses in the 2018-19 school year. The Division of Instruction is committed to providing a multi-tiered system of support to address the needs of all students. The Division of Instruction is also continuing to invest in targeted support and intervention programs to meet the instructional needs of at-risk students at all grade levels, including English learners, Standard English learners and students with disabilities. The Division of Instruction continues to support Mastery Learning and Grading training district-wide to improve teachers’ instructional and assessment practices. Social-emotional learning and culturally and linguistically responsive teaching strategies are also areas of focused professional development for teachers.

At the elementary school level, the Division of Instruction continues to provide professional development and resources to enhance teachers’ ability to implement our focus on mathematical strategies, Three-Phase Problem Solving, Number Talks and Talk moves. Three-Phase Problem-Solving is a protocol for presenting and solving a rigorous task, with specific moves for the Before, During and After phases, which promotes student discourse and sense-making in mathematics. Number Talks are the short, ten-fifteen-minute mental math opportunities at the beginning of a lesson that support student discourse and fluency in math. Talk Moves are the teacher and student classroom moves, such as Re-phrasing, Re-voicing, Wait Time, Revising Thinking, etc., that support student discourse. Additionally, we continue to partner with UCLA on our Cognitively Guided Instruction (CGI) initiative that supports access and equity for all students by providing many entry points, personalizing tasks to engage students, and an individual approach to assist children through a trajectory of learning in which math makes sense.

During the 2015-2016 school year, all elementary teachers received common core standards aligned mathematics materials for the first time through our district-wide adoption of the MyMath curriculum. MyMath provides ELD Resources to support integrated ELD. In addition, there are supplemental professional development modules on the LAUSD elementary math PD website that support mathematical development of ELs, including work with UC San Diego (English Learner Strategies for Math: with Dr. Santa Cruz, Grades 2-3) and San Diego State University (English Learner Strategies for Math: Daily Oral Language and Cognitively Guided Instruction, Grades 2-3).

Finally, there is the Building Educator Assessment Literacy (BEAL) project, which started in 2015. In partnership with the Los Angeles County Office of Education (LACOE), BEAL trained 120 elementary and secondary educators in the first year. BEAL builds the capacity of educators to develop common core aligned performance tasks in mathematics. In designing the performance tasks, teachers use Universal Design for Learning (UDL) to address the multiple learning needs of students such as English learners, ensuring that task involve multiple forms of representation, expression and engagement.

Based on the middle grades Framework for Action, students in grades 5-9 may demonstrate more success when offered more engaging courses aligned with real-world and personal connections. The Division of Instruction has expanded efforts

to develop new, more engaging courses at the high school level including:

- Financial Algebra 1 and 2 that focus on teaching algebra concepts through finance and business applications
- Introduction to Data Science that engages students in using participatory sensing devices to collect data as well as analyze the data using analysis software
- Transition to College Mathematics and Statistics designed to provide students with quantitative reasoning experiences and skills to be prepared for college level mathematics courses.

A key to aligning mathematics instruction with the new standards is for teachers to understand how assessments must be adapted to allow students to demonstrate their proficiency. The Division of Instruction continues to invest in teacher professional development aligned with Building Educator Assessment Literacy (BEAL) so teachers can understand the expectations of the new Smarter Balanced Assessment and how to align their classroom assessments with these new expectations.

To support students in achieving success in Algebra 1, advisors from the Division of Instruction A-G team have collaborated with local district coordinators and central office secondary math staff in the design of a fully integrated Algebra 1 Intervention Program. The program is intended for flexible implementation in upper secondary grades using a mastery-based practices, integrated within the classroom as a co-requisite or in an additional math lab setting. Students may enter the intervention setting as determined by their teacher, counselor, or by their own request and they continue in the program for as long as needed. The program comprises all elements needed to support students in mastering the concepts and skills required to pass Algebra 1.

A wide array of high school credit recovery courses are offered to students needing to make up classes for A-G completion. These courses comprise virtual or blended models in the Edgenuity platform. In addition, the Performance Assessment Student Support (PASS) program was developed by the district to allow teachers raise student grades by differentiating learning opportunities so students can demonstrate mastery of course objectives in Algebra 1, Algebra 2 A/B, and Geometry A/B. Schools also provide additional instructional time beyond the semester where students have the opportunity to raise their grades in the STAR-17 program, to better prepare students to be competitive in making college applications.

Leaders of mathematics district-wide are also incorporating concepts from Mathematical Mindsets by Jo Boaler into professional development for teachers. These strategies are aligned with social-emotional learning practices that focus teachers and students on the power of mistakes and struggle, the development of rich mathematical tasks and supporting growth mindset in students.

3) The District's overall chronic absenteeism grew by 1% although there was progress in particular student groups.

The District Chronic Absence Rate grew from 14% to 15% which has resulted in the district identifying new strategies to improve the availability of actionable Local District and school site attendance data and tools to support attendance improvement efforts district-wide. We are also developing online tools to train school site and district staff on attendance taking procedures, processes, and interventions. The district continues to invest in targeted support and interventions, focusing on schools with the highest chronic absence rates for TK/Kinder and 9th grade levels, as research supports that chronic absence in these grades are strong predictors of student academic failure and dropout.

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

Based on a review of the Fall 2017 California School Dashboard results, the LAUSD had identified performance gaps in the state's Graduation indicator. Specifically, English Learners, Foster Youth, Student with Disabilities, and American Indian students were identified as having existing performance gaps in graduation outcomes.

The Los Angeles Unified School District has developed a Multi-Tiered System of Supports (MTSS) framework as part of a strategic effort to meet the needs of the district's diverse student population. This system of supports is connected to the district's Local Control and Accountability Plan (LCAP) and key initiatives for improving outcomes for students in early education centers, elementary and secondary schools. Through a coherent process involving multiple district departments, districtwide initiatives have been aligned to provide direct supports to schools to enable them to make progress towards meeting the district's LCAP goals, and more importantly achieving 100% Graduation.

All schools, including Early Education Centers, are required to use MTSS for the early identification and delivery of supports to students who are struggling academically, linguistically and/or behaviorally and are underachieving. This support system helps P-12 schools respond to the needs of all student subgroups, including English Learners (EL), Standard English Learners (SEL), students with disabilities, expelled students, students in foster care and/or experiencing homelessness, students who have socio-economic disadvantages as well as students identified as

gifted/talented.

Through MTSS, all students have access to a layered continuum of supports, regardless of achievement level. It is expected that in Tier 1, all students receive high-quality, culturally and linguistically responsive core instruction as well as ongoing assessments and intervention for academic, linguistic, behavioral, and social emotional learning as a school-wide foundation. In Tier 2, students not making adequate progress receive focused intervention that corresponds with their level of performance and rate of progress. Tier 3 intervention is provided to a small number of students who require highly targeted and intensive interventions. Students at the Tier 3 level of support require daily intervention, in addition to what is provided in Tiers 1 and 2.

As part of the district's efforts to capacitate all P-12 schools with a coherent plan to provide excellence in instruction, opportunity, and access to each student, a pre-referral system, the Student Support and Progress Team (SSPT), was developed and is being implemented district-wide. This team is school-based and composed primarily of general educators and counselors. The SSPT requires all schools to implement an MTSS for the early identification and provision of supports to students who are struggling and/or underachieving academically, linguistically and/or behaviorally in the general education setting. Through this process, school teams conduct universal screening, provide evidence-based interventions for underachieving students, collect progress monitoring data, and ensure accountability for the implementation of such activities. The SSPT also support the instruction, progress monitoring and reclassification/re-designation of ELs and SELs in accordance with the district EL/SEL Master Plan.

An "All Hands On Deck" approach has allowed LAUSD to implement the A-G graduation requirements while continuing to grow the number of students graduating over the last 4 years. We continue to implement various strategies to close performance gaps while accommodating options for select student groups to waive graduation requirements or extend their ability to complete course requirements beyond their fourth high school year. As demonstrated in the LCAP, the District's A-G Intervention and Support and Access, Equity and Acceleration units are building upon the MTSS framework to ensure there are differentiated supports for our diverse student population.

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

The District's 2017-2020 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to invest an additional \$50 million in targeted student population funds to 50 high need high schools and middle schools to address academic and school climate needs. In addition, the District will grow its investment in the expanded transitional kindergarten program to support 20 new additional sites which primarily target low-income students in the District. One modification to the LCAP actions includes redesigning the Accelerated Academic Literacy program to more effectively utilize resources in our middle schools to address the academic literacy needs of our students. The District will continue to enhance school level autonomy by increasing available Targeted Student Population (TSP) funding to support low-income, English learner and foster youth students.

**Increased
or
Improved
Services**

1. Goal #1, Action #10: Invest in a School Innovation Fund program which targets an allocation of resources based on the number of unduplicated students enrolled at the school-site. The schools were selected via criteria that heavily weighted foster and homeless youth enrollment, suspension rates and math performance. For the next 2 years, schools will be required to implement a restorative practices model that utilizes a restorative justice teacher advisor to build capacity and inform the implementation of the District's discipline foundation policy. In addition, 10% of the allocation must be used on professional development focused on improving ELA and Math outcomes. After meeting the minimum requirements, schools will have discretion to determine how additional resources will be used to serve unduplicated students at the school-site.

2. Goal #2, Action #6: Expanded Transitional Kindergarten - A fundamental building block for the implementation of the early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low income children who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.

3. Goals #2, Actions 9 :

The Division of Instruction is proposing to use Accelerated Academic Literacy (AAL) funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—would support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups that are defined as homeless, English learner, foster youth, and low-income, are

struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.

Budget Summary

Complete the table below. LEAs may include additional information or more detail, including graphics.

DESCRIPTION	AMOUNT
Total General Fund Budget Expenditures for LCAP Year	\$7,425,371,709
Total Funds Budgeted for Planned Actions/Services to Meet the Goals in the LCAP for LCAP Year	\$5,364,950,681

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

General Fund (GF) expenditures not in the LCAP account for \$2.15 Billion budgeted resources:

Education Protection Account, Lottery and unrestricted GF resources supporting teacher and school-site positions - **\$1.03 Billion**

Title 1, Resources to schools and summer programs - **\$303.6 million**

Title 2 Resources for professional development and quality educator improvement - **\$27.1 million**

Title 3 Resources supporting English Learner coaching and other efforts - **\$14.5 million**

Title 4 Part B, 21st Century Community Learning Centers Program - **\$16.4 million**

Educator Effectiveness Grant - **\$.925 million**

Special Education IDEA Support, Alternative Dispute Resolution, Mental Health resources - **\$538.9 million**

Workforce, Vocational Education and Transition Partnership programs - **\$6.1 million**

California Clean Energy Jobs Act - **\$1.2 million**

College and Career Pathways Trust - **\$2 million**

College Readiness Block Grant - **\$11.6 million**

Medi-Cal Billing Program and FEMA Assistance - **\$16.3 million**

After School Education and Safety (ASES) program - **\$44.6 million**

Additional State funded after school, adult education and pending grants - **\$40.9 million**

Federal Funding for After-school, Reserve and Student Health & Human Support Personnel - **\$42.9 million**

Instructional Materials supported by the Lottery - **\$23.1 million**

State Teacher Retirement System (STRS) on-behalf pension contributions - **\$202.5 million**

Additional Major Maintenance Account fund - **\$14.2 million**

Limited English Proficient and English Language Acquisition Program, Teacher Training and Student Assistance - **\$.0125 million**

Other Locally funded program - **\$12 million**

Total Projected LCFF Revenues for LCAP Year	\$5,273,700,000

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supported and expanded our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

The Los Angeles Unified School District provided a broad system of supports for all students. For 2017-18, the District continued the various interventions that ensure students are academically and social-emotionally prepared. The Linked learning programs supported by the general fund and Career Technical Education Incentive Grant were

work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;
- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the

implemented as planned.

Linked learning served as both an academic enhancement for students seeking greater engagement in their education and skill development.

new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;

- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,
- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the

Common Core and Linked Learning,

- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked

<p>Learning certified pathways and found:</p> <ul style="list-style-type: none"> Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs. Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

upcoming)

- A-Basis Principal with Incentive Stipend (\$10,000)
- Additional Assistant Principal (A-Basis)
- Additional Secondary/PSA/PSW Counselor (B-Basis)
- Saved Teacher Position (schools with reduced student enrollment only per ECAST data and norm day results)
- Special Education Support Provider (B-Basis) [For school meeting criteria only] Specifically, schools with a disproportionate enrollment of students with IEPs with academic needs.
- Onsite Mentor Teachers (1 mentor : 4 non-permanent teachers)
- Extra Conference Period for Non-Permanent Teachers
- Substitute Days for Mentor-Teacher Support (25/35/45 days per school)
- Preferred Substitute

Extended Pay (1 or 2 per school)

The student cohort graduation rates at the Reed Investment Schools have increased from 77.8% to 83.2% between 2013-2014 and 2015-2016, a rate that is *6.2% higher* than the District average.

A review of the voluntary teacher turnover data (*i.e.*, resignations and teacher initiated transfers) shows that the turnover rates for all teachers have decreased between 2013-2014 and 2016-2017 at the Reed Investment schools from 8% to 7%. Additionally, the teacher turnover rates for new teachers at Reed Investments have decreased from 7% to 6% whereas the District average increased from 5% to 6%. There are anomalies for individual schools, however. Four schools that continued to have high turnover rates beginning in 2013-14, showed improvement this year. Conversely, six schools experienced a remarkable increase over the four year period.

The principals and Reed assistant principals, as well as the mentor teachers were surveyed and the supports they indicated as the most effective to meeting the goal of teacher stability are listed below.

Most Effective Supports Per Administrators

- Additional A-Basis Assistant Principal 94%

	<ul style="list-style-type: none"> • A-Basis Principal Assignment (with Incentive Stipend) 80% • Additional Counselor 80% • Saved Teacher Position 70% • Special Education Support Provider / Mentor Teachers 55% each <p>Most Effective Supports Per Mentor Teachers</p> <ul style="list-style-type: none"> • Mentor Teachers 79% • Saved Teacher Position 53% • Additional A-Basis Assistant Principal 44% • RIF Skipping Criteria 42%

<p>Location: All Schools</p> <p><u>School Autonomy</u></p> <p>Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index. Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.</p> <ul style="list-style-type: none"> • Enhances school-climate <ul style="list-style-type: none"> ◦ Nursing Services ◦ Counselors (PSA, PSW) ◦ Campus aides ◦ Clerical ◦ Community Representatives ◦ Building and Grounds Maintenance • Supports academic planning and 	<p>Location: All Schools</p> <p>LAUSD's decentralization efforts continue to evolve and inform practices at the school site that are localized and respond to the particular needs a school community.</p> <p>The positions provided this year allowed for schools to fully flex resources that speaks to the District's LCAP goals. A TSP plan was prepared and submitted with the school's Single Plan For Student Achievement. Positions and Resources provided to the schools were determined as District investment priorities via a district-wide allocation or through a defined index that distributed A-G supports, clerical, campus aides and other positions to school sites. School plans for federal categorical programs and LCFF supplemental resources provided through the Targeted Student Population fund accounts are available on the District's school-finder site. In addition, counselors and assistant principal received additional professional development training to onboard staff with the needs of English Learners, Foster Youth and Low-income students. The</p>	<p>\$178,118,725 4000-4999 Books and Supplies - LCFF: \$17,074,971 5000-5999 Services and Other Operating Expenses - LCFF: \$7,911,399 6000-6999 Capital Outlay - LCFF: \$50,000</p>	<p>\$173,384,142 4000-4999 Books and Supplies - LCFF: \$30,174,835 5000-5999 Services and Other Operating Expenses - LCFF: \$14,135,866 6000-6999 Capital Outlay - LCFF: \$142,594</p>

instructional interventions

- Assistant Principals
(Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
- Class Size Reduction positions
- Elective Teacher Positions
- Professional Development X-Time and Professional Services
- Tutoring supports
- Librarian and Library Aide
- A-G supports, i.e. credit recovery programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

alignment of this professional development with the updated schedule of professional development for teacher's banked time is essential. Staff focused on culturally and linguistically responsive strategies to support the needs of targeted students throughout the school year.

The implementation of the school autonomy action aligned with numerous state priority areas under the local control funding formula. Specifically, positions and resources helped meet these priorities by offering the following positions:

School Climate

Psychiatric Social Worker
Pupil Services and
Attendance Counselor
Campus Aides

Parent Involvement

Parent Representative
Supplies

Student Achievement & State Standards

Assistant Principals
Instructional Coordinator
Class Size Reduction
Teacher Librarians
Professional
Development
Counselors

Student Engagement

Pupil Services and
Attendance Counselor
Tutoring Services
Psychiatric Social Worker
Nurses

Specifically for the various grade spans in the L.A. Unified, students targeted by the LCFF benefited from the cadre of support and autonomy provided to school leaders to support their academic achievement and engagement at the school site.

Additional instructional materials and supplies were acquired to advance the learning of students and provide workshop and training material to parents and community members at school sites. Staff noted below also utilized additional materials to develop academic and attendance reports to inform students on their progress.

Elementary School Autonomy

Schools implemented a cadre of services ranging from class size reduction to partnership services aimed at highest need students

- The cadre of services described

above included:

- Schools hired psychiatric social workers and pupil services attendance counselors that were utilized to outreach to students with chronic absence and trauma related issues.
- Library aides aimed in improving the literacy and academic progress of targeted students.
- Campus aides provided additional supervision and safety for students, helping schools create a safe and welcoming environment that is engaging for families and youth.
- At single administrator school sites, assistant principals were selected to help with instructional needs of students. Leveraging recent professional

development, they assisted with the instructional program of a school by bringing a greater focus on the needs of English learners, low-income and foster youth students.

- As noted in the expenditure report, services in partnerships that provide tutoring, enrichment and after school learning were acquired to support targeted LCFF students. The need for additional intervention and afterschool engagement is clear and schools used these services to improve attendance and academic progress.

Middle School Autonomy

- Middle schools received academic and student support positions focused on improving the

outcomes of targeted student populations (English Learners, Foster Youth and Lowincome students).

- The District has directed resources that help mitigate the impact of life trauma, poverty, access to healthcare and other barriers to fully engaging in a students education. Pupil Service and Attendance counselors, psychiatric social workers, nurses, additional academic and college counselors all provided a space for students to feel supported and guided through their academic experience. LCFF students were the primary target of these interventions and were identified for additional

support.

- 8th grade Math and ELA teacher auxiliaries were provided to all middle schools aimed at providing class size reduction in core courses. Students benefit from additional support in the classroom and help schools modify calendar schedules to provide courses sought by students.
- Librarian and instructional coordinator positions were utilized to heighten a schools literacy and reclassification progress of English learners.

High School Autonomy

- High schools utilized their autonomy over

resources to bring on staff noted below to address the needs of targeted student populations.

- Counseling services focused on college preparation and course completion at the secondary level helped targeted students stay on track to graduate and in many instances provided an avenue to target time and resources to students who were behind on credits and course requirements for A-G. Combined with other resources, such as the A-G Intervention action (1.9), this service enhanced services for students with high need.
- Similar to middle schools and elementary schools,

Assistant principals assisted in leading the instructional program at a school site. A primary area of focus was to improve the academic success and college and career readiness of English learners and foster youth through intentional interventions and guided staff planning time.

- 9th grade auxiliary periods were offered to targeted high schools for the purpose of reducing class size in core subjects however in certain circumstances, schools elected to utilize this additional resource for substitute time and professional development for staff. We anticipate the additional training will strengthen the

academic content
and delivery of
instruction which is
intended to benefit
targeted students.

**Below is a summary description of
how these actions are reflected in
our school investments by
full-time equivalent.**

- School Discretionary
resources are funds
and/or positions in
which schools receive
an allocation and a
school principal has
discretion on how
those funds will be
utilized to serve
targeted LCFF
students.
- Other School Based
resources are targeted
positions centrally
provided to schools
however schools may
opt out of designated
positions. There are
central staff that help

administer these programs and coordinate services.

- Districtwide programs, such as our library aide investments in elementary schools, are positions determined for all students which must be principally directed with the intent to improve the learning of targeted LCFF students. These resources have a central administration to ensure coherence and continuity in learning for students.

A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: Options Schools</p> <p>There are six different alternative education options at 55 sites across the District:</p> <ul style="list-style-type: none"> • Continuation Schools • Independent Study • Opportunity Schools • Community Day Schools • Schools for Pregnant/Parenting Minors • Home/Hospital School <p>Each alternative provides a unique learning environment to meet the needs of the learners that were not reaching educational goals in the traditional setting. LCFF funds have been used at these sites to enhance the personalized learning experiences of the young people. Expenditure of the funds was focused on the following five areas:</p> <ul style="list-style-type: none"> • Designing Instruction • Early Literacy to Disciplinary Literacy • Access and Acceleration for Learning 	<p>1000-1999 Certificated Salaries - LCFF: \$25,237,613</p> <p>2000-2999 Classified Salaries - LCFF: \$3,507,326</p> <p>3000-3999 Employee Benefits - LCFF: \$13,060,331</p> <p>4000-4999 Books and Supplies - LCFF: \$7,680,255</p> <p>5000-5999 Services and Other Operating Expenses - LCFF: \$483,400</p>	<p>1000-1999 Certificated Salaries - LCFF: \$23,794,334</p> <p>2000-2999 Classified Salaries - LCFF: \$3,552,520</p> <p>3000-3999 Employee Benefits - LCFF: \$12,207,170</p> <p>4000-4999 Books and Supplies - LCFF: \$431,925</p> <p>5000-5999 Services and Other Operating Expenses - LCFF: \$588,336</p>

- Assessment in a Learning Culture
- Optimizing Choice Pathways

In support of 100% graduation:

- Students have greater access to virtual and blended learning courses allowing for more opportunities to recover credits and be able to graduate on time.
- Students given additional classtime in the evenings and weekends has accelerated credit recovery efforts.
- Students are able to get elective credits through partnerships with community-based organizations.

The chart below shows success of credit recovery efforts:

Class of 2018:

Number of Courses Behind To Be on Track To Graduate	Number of Students Fall 2017	Percentage of Students Fall 2017	Number of Students March 2018	Percentage of Students March 2018
5 or more	1660	72%	1259	58%
3 or 4	228	10%	261	12%
1 or 2	249	11%	319	15%
Students on Track	157	7%	315	15%

We have been able to double the number of students on track to graduate while reducing the number of students missing five or more courses by 25%.

2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning-Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

of the platform. Blended courses are self-paced and students may also log in to work on assignments beyond the school day. In the Virtual model, a teacher acts as mentor in the classroom and provides accessing elements of the platform, in support of the online teacher.

Mastery-Based-Online Learning- Year Long Intervention

Mastery Learning and Grading Coaches provided trainings at Local District and school sites for teams of teachers. Implementation supports are offered to school sites by request to support sustainability and the scaling-up of MLG best practices. The summer 2018 UnConferences on June 13-14 and June 18-19 for certified MLG educators are a forum for collaboration, sharing resources around learning targets, and unit/lesson planning for the upcoming school year.

During the school day

The majority of students recover credits during the school day by re-enrolling in a class needed for graduation as part of their regular schedule. Some teachers are teach an Auxiliary class, if the master schedule allows, to provide a credit recovery option.

Recovery + Intervention = Graduation (RIG) is a partnership between a comprehensive high school and its neighboring continuation site. Students can be enrolled in up to 2 credit recovery classes at the continuation site while remaining in full-time enrollment at their school.

Before and After-school and Saturday credit recovery

High schools in all Local Districts operate a menu of credit recovery opportunities scheduled beyond the school day. These include: PASS, Independent Study, and Local Design Courses. Students may also opt to re-take courses needed for graduation through the Adult School office at their site, or at another high school site.

Extended learning option: STAR

17

Students

Taking Action for Readiness (STAR-17) is an extended learning program that offers extra time at the end of the semester for students to demonstrate deeper proficiency, and raise an existing passing grade. The additional hours are outlined in a contract that students engage in with the teacher of record, their parent/guardian, and the school counselor.

	<p>Tutorial Services for A-G Coursework Provided by Beyond the Bell, CORE school sites provide struggling students with tutoring and academic assistance outside the school day. Credentialed teachers work with small groups of students to reinforce and remediate skills in math and ELA.</p> <p>Tiered interventions for A-G ELA/Math Coursework The Algebra 1 Intervention Pathway Program was piloted at two sites during Summer Term 2017, and launched district-wide at the start of the 2017-2018 school year. Trainings have taken place for math faculty at all Local District offices and ongoing site-based supports are provided by the A-G Math Advisors by request. Soon to be released are the intervention programs for Geometry, and Algebra 2 and ELA for 9th-10th grades.</p> <p>A-G Training for all Teachers According to MEM-5788.6, all teachers are required to view the graduation requirements video, that explains the A-G course sequence, as part of their Professional Development banked time day. Principals certify that the course has been completed by November 3rd.</p> <p>Parent Engagement and Support <i>Parent and Community Engagement (PACE) provides workshops for families on A-G course sequence requirements, and on college readiness for elementary, middle, and high school families. The PACE team can provide resources and tools that schools can use to provide presentations to families, and for students to monitor their progress towards graduation. PACE provides all options in several languages to best support all school communities.</i></p>		
--	---	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The implementation of actions/services were completed throughout the school year. Local Districts utilized A-G intervention resources to provide credit recovery programs and support for students not on-track to complete the A-G graduation requirements. In addition,

our schools supported by the Reed investment agreement were sustained by an additional year of funding to allow schools to plan for future interventions. Middle and High schools implemented and were supported by the A-G Diploma program/project to engage students who are not on track to meeting the A-G requirements for graduation by working with all stakeholders to implement interventions with the vision of graduation and college and career readiness for all students. The A-G Diploma Program provided early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Comprehensively, the offering of after-school programs, credit recovery, alternative school options, and greater autonomy on budgeting for appropriate interventions for students at the school-site has proven we are progressing towards 100% graduation. The all student metric and subgroup performance grew in every measured area under the 100% graduation goal. This growth provides one layer of evidence that the listed actions/services are making an impact on the outcomes students yet more remains to be evaluated to prove longer range efficacy of programs supporting students.

- LAUSD continued to sustain a 99% completion rate on Individualized Graduation Plans (IGP) for students in secondary schools.
- 55% of the graduating class of 2017 completed all A-G courses with a C or better. These are students who started their senior year with LAUSD.
- 80%* cohort graduation rate for the Class of 2017

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-site level.

An additional action was added for the 2017-18 school year which will be reflected for the 2018-19 LCAP update. Approximately \$50 million were allocated to 20 high schools and 30 middle schools to support high needs students. Specifically these schools were selected due to their higher enrollment of foster youth and homeless youth coupled with historically low performance in mathematics. These resources will be provided until 2019-2020 school year to fund school climate and academic improvements.

There are three actions which had variances in expenditures. Action 1.4 was a result of less professional development hours provided to teachers. The program was structured to provide a minimum set of professional development hours. Action 1.6 had planned for additional instructional material which was not needed for the 2017-18 school year. Action 1.9 incorporated changes in A-G intervention programming which included additional credit recovery programs and teacher staff time at the local district level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

As noted in the 2017-18 Annual Update, the District has revised several metric definitions to align with the California School Dashboard accountability outcomes. For this particular Goal of 100% Graduation, the A-G completion will now look at the graduating cohort completion rate rather than on-track status for all high school grades. In addition, the Advanced Placement measure will now

look at students scoring a 3 or higher in two or more courses which will inform instructional quality and access to college coursework.

In the 2017-18 school year, an additional \$50 million in supplemental resources were provided to 50 middle and high schools to support strategies intended to improve socio-emotional and academic outcomes for students. As such, the LCAP for 2018-19 and 2019-20 will reflect this action as Action Item 10 under Goal #1. These resources are primarily available to secondary schools that will be utilizing their discretion to implement efforts focused on college and career readiness. Efforts may be aligned with actions captured under Goals 2,3,4 and 5.

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Local Priorities:

Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

records including recovering partial credits

- Decreased chronic absences and increase school attendance
- Worked with biological parents, caregivers, and foster parents to enhance involvement in the educational process
- Ensured that students enroll in appropriate classes and monitor educational progress
- Connected families with district and community resources
- Provided group and individual counseling
- Advocated for the educational rights of foster youth

Positive Outcomes

- Graduation rates increased from 43% to 48% between the 2015 and 2016 school years
- Suspension events decreased from 99 to 67 between the 2015-2016 and 2017-2017 school years
- SBAC scores for English Language Arts foster youth have demonstrated growth - 2015 (17%), 2016 (19%), and 2017 (21%) of the students either met or exceeded the standards
- SBAC scores for mathematics foster youth have demonstrated growth 2015 (11%), 2016 (12%), and 2017 (14%) of the students either met or exceeded the standards

- 71% of long term foster youth improved (moved up) or maintained their attendance at Basic or 96+ of all long term foster youth showed improvement in their attendance
- 56% of both elementary and Latino males showed improvement in their attendance
- 63% of first graders showed improvement in their attendance
- There was a 5% increase in the number of students who have proficient and advance attendance
- In addition, community partners serving this population are reporting that communication and collaboration have improved exponentially due to the connection with a Foster Youth Counselor at all LAUSD schools. We are confident that our focused intervention will ultimately and dramatically improve outcomes for foster youth in their education, preparation for college and career, and a bright future.

Over the past 2 years, the Los Angeles Unified School District has been successful in increasing school stability from 83% to 85% between the 15-16 and 16-17 school years. This means that 85% of our long term

	foster youth did not experience a school change; despite the fact that there could have been a residential change.

after December 2

- lower the dropout rate and increase high school graduation rates by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task
- improve student success in A-G requirements by setting a strong language and literacy foundation for our youngest students

The TK Expansion program is a full day, 180 school day program following the same time schedule as other elementary classrooms. The program is a transitional kindergarten program that prepares children for Kindergarten. Kindergarten skills and benchmarks are inappropriate measures in this program. Only students who qualify for the Free/ Reduced Meal program are eligible to enroll in the program.

trainings held for Teachers participating in the Early Education Dual Language programs.

In addition, every early education program was given a social emotional curriculum kit and provided with professional development opportunities to implement the programs in their classrooms.

Early Education Dual language programs were implemented in 13 schools across the district.

There are 620 early education programs in 448 schools across the district providing services through the districts 4 Infant Centers, 316 ETK classrooms, 124 Preschool Collaborative Classrooms, 86 Early Education Centers, and 90 California State Preschool Programs.

- For 2017-18: Overall articulated effectiveness of the actions/services.

As measured by Californias Quality Rating and Improvement System (QRIS), center-based programs made dramatic increases since their initial QRIS scores in 2015-2016. California has set a standard that all early education programs should be at QRIS Tier 3 or above.

Year	Tier 1	Tier 2	Tier 3	Tier 4	Tier 5
# of Schools in each tier Rating 15-16	0	67	12	2	0

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades K-5</p> <p>Support integrating Special Education students into General Education (Grade-Span Support): The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with 80%-100% unduplicated pupils.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades K-5</p> <p>Local District support teams (SPED and GE) collaborated with school site personnel to identify those K-5 program SPED programs that needed additional program(s) to reduce grade spans. Prior to Norm Day, teams visited sites, reviewed data, spoke with school site leadership, and adjusted caseloads accordingly. Given the LAUSDs high transiency rate, requests and adjustments were made periodically throughout the school year to ensure the necessary supports were in place.</p> <p>The District feels confident that our process to reduce grade spans over the last few years has been successful. This success results from having a strong identification process that utilized newly developed tools (e.g., MISIS Adhoc, Budget Norm Tool, Focus Dashboard) to streamline the process. These items have been instrumental in allowing school teams and support staffs to track and analyze data on a frequent basis.</p> <p>As we successfully implemented the decrease of grade spans in our K-15 settings, the Division of Special</p>	<p>1000-1999 Certificated Salaries - LCFF: \$6,773,875</p> <p>2000-2999 Classified Salaries - LCFF: \$6,241,400</p> <p>3000-3999 Employee Benefits - LCFF: \$9,348,184</p> <p>5000-5999 Services and Other Operating Expenses - LCFF: \$0</p>	<p>1000-1999 Certificated Salaries - LCFF: \$7,159,552</p> <p>2000-2999 Classified Salaries - LCFF: \$5,980,373</p> <p>3000-3999 Employee Benefits - LCFF: \$7,989,124</p> <p>5000-5999 Services and Other Operating Expenses - LCFF: \$570</p>
--	--	---	---

	Education (DSE) is proposing that it shift its focus towards integrating SWDs that are typically supported in core special day programs on the core curriculum pathway into general education. For the 18-19 school year, DSE identified 18 school sites that will support and service all SWDs on the core in general education.

component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

- Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the

- ELs who reclassify as Fluent English Proficient to 20.7%

We will include the implementation of the new EL and SEL Master Plan beginning in 2018-19 and a revised definition of LTELs (An EL student in grades 6-12 enrolled in US schools for 6 or more years as an EL.)

Accelerated Academic Literacy efforts did not exhaust budgeted allocations for the program.

- Standard English Learner support program (AEMP) Academic English Mastery Program was provided as a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporated into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students. This program was only offered at select school sites due to current budget constraints.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. During the 2017-18 school year, the District revisited the implementation of the District's English Learner Master Plan. Stakeholders were convened to redesign the District's delivery model and will begin to be implemented for the 2018-19 school year.

- Supports for transitioning out of high school for EL students and Foster youth who also have an IEP. Using a

communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used

multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. Scope of Service: LEA-wide

Location: All Schools

Targeted Instructional Support

Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes.

Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an

Scope of Service: LEA-wide

Location: All Schools

Targeted Instructional Support

For the 2017-18 school year, all high school, middle school and sites with grades 4-6 were provided an additional teacher position to assist with class size reduction and offer additional enrichment courses Specifically, the positions were used to support class size reductions in physical education and/or to asset in the offering of elective courses, and/or courses activities such as AVID, MESA and Leadership.

Early Language and Literacy Program

ELLP participation was expanded to include 185 more schools in cohorts 3 and 4. These schools received on-going support in analyzing early literacy data (DIBELS), establishing an ELLP leadership team and implementation plan as well as professional development on effective foundational skills instruction.

Continued professional development, data analysis protocols and small group differentiated foundational skills planning support was provided to the 265 ELLP cohort 1 and 2 schools.

As of the Middle of Year 2017-18 DIBELS administration:

51% of kindergartners scored Benchmark and above, an 8% increase from BOY scores.

28% of kindergartners scored Well Below benchmark, a 12 decrease from BOY scores.

53% of first graders scored Benchmark and above, an 11% increase from BOY scores.

<p>emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures</p>	<p>35% of first graders scored Well Below benchmark, an 8 decrease from BOY scores.</p> <p>39% of second graders scored Benchmark and above, a 5 % increase from BOY scores.</p> <p>47% of second graders scored Well Below benchmark, a 5 decrease from BOY scores.</p> <p>Even more growth is projected for EOY test administrations, with second grade projected to exceed the 70% scoring Benchmark and above reached in 2016-17 at EOY.</p> <p>Teacher and administer evaluation responses and comments showed that participants feel ELLP professional development and support has been a benefit to instruction.</p>

<p>students are used to populate the arts equity index.</p> <p>The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.</p>	<p>taken to provide more equity of arts resources, and to ensure that all students have appropriate arts access and instruction.</p> <p>Specifically, the expansion of LAUSD Arts through the AEI has provided allocations to school-sites throughout the district to support itinerant arts staff and instructional materials.</p>		
--	---	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Overall, the instructional actions/services outlined in the LCAP have been implemented with fidelity. The Arts Program continues to expand and provide additional resources to schools with arts deficits as identified in the Districts Arts Equity Index. The expansion of the arts included more offering of arts integration classes to include advanced levels and community/cultural partners to serve nearly 2,000 teachers annually. There was also a restoration of the Arts Community Network that includes 42 community arts partners who serve 181 underserved schools, complimenting the art instruction being accomplished by our certificated arts teachers who are in every school in the district.

Furthermore, the expanded transitional kindergarten program has been implemented in many areas throughout the District, providing an early education and intervention platform for 4-year-old students entering the District and preparing them for kindergarten. In addition, the instructional core has been supported by professional development efforts focused on improving instructional strategies for low-income, English Learner and Foster Youth students. Several points to highlight was the expansion of Dual Language programs from 87 to 101 and the increase of Biliteracy awards granted grew from 1664 to 3004 students.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Successful growth in Math and ELA SBAC performance district-wide and a closure of performance gaps continues to demonstrate progress towards greater proficiency for students.

Although growth in academic indicators did not reflect the 4-6% growth seen in the prior year, by all measures, academic progress for the district grew by 1%. The reclassification rate for the District showed significant progress, reaching 20.7% for the 2017-18 school year and early literacy reached 70% for all 2nd grade students in the 2016-17 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences in budgeted versus estimated expenditures are a result of salary increases included in the District's process to re-identify supplemental and concentration resources.

For actions 2.3 (Curriculum), 2.6 (Early Childhood Education) and 2.8 (Special Education Services), differences in funding are a result of staffing level changes due to variances in enrollment projections, service level costs, and continued efforts to reduce costs associated with the special education program.

For action 2.9, budget variance is informed by changes in local district discretion over English learner investments and strategic efforts to hone in efforts in particular school sites. In addition, centralized resources were utilized to assist in the rewrite of the District's English Learner master plan.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Based on input from stakeholders, greater alignment in the District's LCAP to the California State Dashboard is an area that continues to be advocated for in the District. The LCAP will be revised to include state assessment targets that reflect the new measure of growth and accountability for schools. For these reasons, the new metrics will look at the average distance from "3" and will also include a breakdown by grades 3-5, 6-8, and 11th grade to ensure schools has a clearer comparison of their performance to District average.

In addition, the special education metrics previously included in the LCAP related to non-public school participation will be eliminated and replaced by metrics that track the delivery of services and supports for students with disabilities.

As noted in the LCAP summary, the Accelerated Academic Literacy program will reinvest \$4 million into a tiered intervention model for secondary students. This action can be found under Goal #2, Action 9.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

As is noted in the actions, the District provides a comprehensive array of services that support student achievement and positive outcomes for youth. Together, these actions play an important role in reducing barriers to success for students by ensuring their health physically, mentally and emotionally. Collectively, these actions have provided opportunities to supplement instruction to create a safe and welcoming environment for the districts children to learn and grow. Particularly, the implementation of the foster youth achievement and homeless youth programs has progressed throughout the District and is supported by a collective staff effort working

alongside a collaborative of partners to ensure there is continuous feedback for these programs. Furthermore, attendance and pupil engagement efforts have been bolstered by the student engagement unit, which has developed the ongoing mentorship and facilitation of student voice through numerous settings of engagement.

In addition, the District utilized this year to assess strategies that may bolster attendance and it will revisit the scaling of these strategies for the upcoming school year.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

As measured by the tiered attendance bands defined by the Districts Student Health and Human Services Division (SHHS), 69% of students attended school 96% or more out of the 180-day school year. Although this was a slight decline in the Districts top tier attendance rate, targeted student group performance improved. Specifically, the Foster Youth student group experienced a 7 percent increase in the top tier while also reducing their chronic absenteeism rate by 4 percentage points. Overall there remains a heightened focus to increase the all student rates in both areas of measurement.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Changes in the estimated actual expenditures as compared to the budgeted resources are a result of change health and welfare benefits, a shift of personnel funded outside of LCFF resources as well changes in staff.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

The Districts goal of 100% Attendance is sustained however performance targets and definitions of how the District measures proficient and chronic attendance will be modified to reflect greater alignment to the California School Dashboard. Specifically, chronic absence will now look at students attending 90% of the school year or less rather than 91%. The intent is to establish a shared understanding of accountability that is reported via the LCAP or the California School Dashboard and reduce confusion in schools. For all attendance metrics, students must be enrolled at least 30 days in order to be counted as part of the attendance metric.

Goal 4

PARENT, COMMUNITY AND STUDENT ENGAGEMENT

State and/or Local Priorities Addressed by this goal:

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Annual Measurable Outcomes

Expected		Actual
Percentage of Students Who Feel 2017-18 a Part of Their School (Question on School Experience Survey)	All Students 87%	All Students 69% (SY 2017-18)

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The District continues to provide parent engagement resources to help cover staff and supply costs for parent centers and related staff who engage parents at the school-site level. Over the course of the last 2 years, the LCAP's accountability of 4 parent workshops provided at each school-site has been implemented. Two of the workshops are limited to the required topics of the A-G graduation requirement and the California School Dashboard results. There are numerous topics that may be covered in the other 2 workshops in which schools have the discretion to select from modules developed by Parent and Community Services. The school experience survey continues to be a centralized survey administered at all schools that provides a venue to collect opinions regarding engagement, perception and areas of need at a school-site.

In connection with the minimum workshop requirement for schools, the District implemented a minimum of 24 participants in each workshop in order for schools to count it towards their minimum of 4 workshops offered at the school. This requirement was informed by parents who felt the workshops were not attended well and the data was masking the non-participation of parents.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

As is reported in the LCAP, all measures of engagement increased as compared to the 2016-17 LCAP targets and actual outcomes. Specifically, the increase of schools completing a minimum of 4 workshops is now at 92% with the expectation to reach 100% within the next 3 years. Parent sentiment on the school experience regarding resources to support their child's education reached 84% and the survey participation has increased to 58% as compared to 31% three years ago. We are seeing steady progress in this area and it is reinforced by one-on-one and group engagement that took place as part of the LCAP process. Parents overwhelmingly responded that they had seen increased engagement at schools and more concerted efforts by staff to engage parents however the feedback also noted there is room for growth in this area.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Expenditures in the parent engagement line item are expected to exceed the amount budgeted for 2017-18. Increases in health and welfare costs as well as additional hours provided at school-sites has resulted in an additional \$800,000 allocation to these services.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There are currently no changes planned for the existing targets established in the LCAP. Current growth is on track to meet expected targets in the various areas being measured for parent, community and student engagement.

Goal 5

ENSURE SCHOOL SAFETY

Additionally, six Local District RJ Advisers and two RJ Specialists provide professional development and support to schools. School staff receive training on empathy and team building, strategies to defuse disruptive behavior, and RJ practices, which all promote community building and methods to resolve conflict in a school.</p>	<p>1000-1999 Certificated Salaries - LCFF: \$6,474,803</p> <p>2000-2999 Classified Salaries - LCFF: \$159,666</p> <p>3000-3999 Employee Benefits - LCFF: \$2,812,468</p> <p>4000-4999 Books and Supplies - LCFF: \$639,121</p> <p>5000-5999 Services and Other Operating Expenses - LCFF: \$941,041</p>	<p>1000-1999 Certificated Salaries - LCFF: \$6,045,856</p> <p>2000-2999 Classified Salaries - LCFF: \$180,217</p> <p>3000-3999 Employee Benefits - LCFF: \$2,584,045</p> <p>4000-4999 Books and Supplies - LCFF: \$41,976</p> <p>5000-5999 Services and Other Operating Expenses - LCFF: \$164,078</p>

teacher advisors will be provided to school sites for purposes of building positive practices and school culture to address student behavior and conflict.

Conducted training for 147 schools on Tier I Restorative Justice Community Building Circles and 182 schools on Tier II and III - RJ Repairing the Harm/Re-entry Circles. Participants include principals, teachers, deans, coordinators, school psychologist, psychiatric social workers, foster care and homeless counselors, and other school support staff. The trainings are presented in two days for six hours each day. They cover how to plan and implement Restorative Justice practices. Embedded in the training are lessons that deepen the participants' understanding of the importance of empathy and team building, how to defuse disruptive behavior, and addressing harm and reintegrating students into school communities after misconduct has occurred. These restorative practices assist with building community and relationships among all students and adult members of the school community.

The Rubric of Implementation (ROI) is used to measure the level of implementation of the Discipline Foundation Policy (DFP):

School-Wide Positive Behavior Intervention and Support (SWPBIS) in schools. As part of the annual monitoring process, an independent auditor randomly selects 30 schools to visit. The auditor utilizes a separate protocol aligned with the ROI to gather information and conduct interviews. The findings are presented to the Superintendent of schools.

The School-Wide Positive Behavior Intervention and Support (SWPBIS) Task Force consisting of parents, teachers, principals, community based organizations, and District personnel meet monthly. The Task Force members review discipline data, visit school sites, and hear from schools implementing School-Wide Positive Behavior Intervention and Support and Restorative practices. Task Force members share accommodations and recommendations that promote climates that focus on safety, teaching and learning, interpersonal relationships, and the institutional environment that influence student learning and well-being.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Division of Student Health and Human Services (SHHS), Restorative Justice Department leads the implementation of various strategies and initiatives related to development and implementation of School-wide Positive Behavior Intervention and Support (SWPBIS) and Restorative Justice in support of the Local Control and Accountability Plan and District goals. These include:

- Facilitating the revision of and on-going training and communications for stakeholders, including parents/families, students, school and district leadership regarding the School Climate Bill of Rights, and the Districts Discipline Foundation Policy (DFP)
- Manage and monitor the Districts on-line Discipline Foundation Policy (DFP) system and Local District assessment of SWPBIS implementation, Tier 1 strategies, as measured by the Rubric of Implementation (ROI).
 - The Spring 2018 Rubric of Implementation (ROI) results indicate 92% of schools are fully implementing the Discipline Foundation Policy: School-Wide Positive Behavior Intervention and Support (DFP-SWPBIS, Tier 1) as measured by the ROI, exceeding the Districts 88% LCAP goal.
 - Continued to work with the independent auditor, Educational Resource Consultants (ERC), to visit 30 randomly selected

schools and to score the ROI and monitor the implementation of the DFP in schools.

- Assigned and provide on-going training, supervision, and technical support for 6 Restorative Justice Advisers to ensure support for all Local Districts and schools with SWPBIS and use of Restorative Practices
- Assigned and provide on-going training and technical support for 45 Restorative Justice Teachers who are assigned to identified, high-need schools to train and support staff with implementing the DFP: SWPBIS and restorative practices.
- Analyzed and provide monthly data reports identifying trends including days lost to suspension, suspensions rates, expulsion rates, and number/percentage of disproportionate suspensions of African American students and students with disabilities to support Local District School Operations and Restorative Justice staff with monitoring and supporting school site efforts.
- Provided monthly on-line Student Discipline data reports published on the District website.
- Trained 147 cohort 3 schools in Tier I Restorative Justice Community Building circle practices.
Trained 184 cohort 4 schools in Restorative Justice Repairing the Harm and Re-entry Tier II/III circle practices.
Established a training module (trauma-informed schools, conflict resolution skills, and restorative practices) in collaboration with other SHHS Departments, as well as the Parent Community Services (PCS) for local district staff to support schools with increasing communication and strengthening relationships between schools and parents.
- Leading integration of efforts and capacity building by providing training to staff within Student Health and Human Services.
- Continued to work with the SWPBIS Task Force committee members through monthly meetings and various District divisions, including Los Angeles School Police, Charter School Division, community, business and philanthropic partners, to monitor the full implementation of the May 2013 Board Resolution: School Discipline and School Climate Bill of Rights.
- Ongoing MiSiS student support/discipline module data monitoring and analysis for Local District leadership in support of SWBIS, alternatives to suspension/formal discipline, and implementation of Community Building and Restorative Justice practices district-wide.

The Los Angeles School Police Department deploys 386 sworn personnel 24 hours/7 days a week in a variety of ranks. In addition to our sworn personnel, the LASPD deploys 109 non-sworn school personnel covering campuses, safe passages, traffic safety, and specialized assignments.

Patrol officers have responded to a wide variety of calls for service from schools and District facilities, participate in before and after

school safe passages duties and respond to countless priority incidents. Last year, the LASPD responded to nearly 131,000 calls for service.

The LASPD Safe School Passage works closely with patrol units and outside law enforcement agencies and contributes significantly to the safety of students. Additionally, campus and patrol officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in various student mentoring programs, lecture to students at Police Magnet Schools, partake in study sessions with at-risk students, participate in anti-gang, anti-bullying, anger management and LGBTQ lectures/seminars, promote Restorative Justice, Counseling and Intervention, and Suicide Prevention programs, as well as other behavioral intervention and support programs. Campus and patrol officers participate in student threat-assessments, and ensure for the safety of students on campus, and to and from school. Additionally, campus and patrol officers review and participate in the Integrated Safe School Plan, provide school site assessments and vulnerability evaluations, and provide training to school staff on school lockdowns and Active Shooter Rapid Relocation.

Currently, the LASPD deploys 112 (41%) police officers and senior police officers to its high school campuses, as well as 6 (3%) police officers to its middle school campuses. Additionally, the Department also deploys 46 (57%) school safety officers to its middle school campuses, and 7 (9%) school safety officers to its high school campuses.

In addition, the LASPD deploys 87 (32%) police officers and senior police officers to its safe passage patrol to support the campus based police officers and senior police officers and to patrol the unstaffed early education centers, elementary schools, and District offices.

In summary, the LASPD deploys a total of 205 police officers and senior police officers to its campuses and safe passage patrol reflecting a 76% of sworn police officers and senior police officers committed to providing policing services to schools during instructional time. The LASPD deploys a total of 61 school safety officers to its campuses reflecting a 75% of school safety officers committed to providing safety services to schools during instructional time.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

As of January 31, 2018, 80% of schools are fully implementing the DFP policy as measured by the Rubric of Implementation (ROI). The District is on target to meet the LCAP goal of 88% of schools fully implementing the Discipline Foundation Policy. We are on track to meet the goal.

The Districtwide implementation of best practices with regards to the Discipline Foundation Policy, alternatives to suspension, and Restorative Justice practices has consistently decreased the number of instructional days lost to suspension. The LCAP goal is 5,667 instructional days lost to suspension. As of January 31, 2018 the number of instructional days lost to suspension is 2,642. We are on target to meet the goal.

The out-of-school suspensions continue to decrease. The LCAP single-student suspension rate goal is 0.35%. As of January 31, 2018 the single-student suspension rate is at 0.26%. We are on target to meet the goal.

The LCAP goal for the percentage of students expelled during the school year is 0.01%. As of January 31, 2018 the expulsion rate is 0.01%. We are monitoring the goal.

The District-wide percentage of student perception of school safety as measured by the School Experience Survey LCAP goal is 80%. The 2016-2017 survey results indicated 85% of students feel safe at school. We are monitoring the goal.

In addition to the efforts led by the Student Health and Human Services Division, the Los Angeles School Police Department (LASPD) has measured success in supporting students is through the ability of addressing students who commit minor violations of the law while being able to keep them in the educational setting and out of the juvenile justice system. Through this process, a student receives counseling services that have no impact on the students ability to attend school.

During the 2016/17 school year the LASPD issued 408 arrest diversion referrals to juveniles who would otherwise been introduced into the juvenile justice system. Out of the 408 juveniles, 281 (over 68%) successfully completed the arrest diversion program by receiving counseling or other services that directly addressed the root cause of the behavior through a referral from a Pupil Services & Attendance (PSA) Counselor.

Since the implementation of the Arrest Diversion Program, 1208 juveniles have been referred to the diversion program (as of July 2017). Out of those diverted, only 12% have been forwarded to Los Angeles County Probation Department for adjudication within the juvenile justice system. Since the beginning of the arrest diversion program, in the 2014/15 school year, there have been only 74 (6.1 %) incidents of recidivism.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees.

For action 5.2, expenditures exceeding the budgeted amounts for school police funding represent changes in salaries, benefits and additional over-time hours for staff. Events and community occurrences throughout the year dictated an additional need for school police presence around school-sites.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Based on the input from staff and parent representatives, the Suspension metric will be updated to reflect both in and out of school suspensions in order to align with the California School Dashboard. For the 2019-20 school year, the District will evaluate whether to include out-of-classroom referrals to inform school-level discipline practices.

Goal 6**BASIC SERVICES**

State and/or Local Priorities Addressed by this goal:

State Priorities: 1. Basic

Local Priorities:

Annual Measurable Outcomes

Expected		Actual
Percentage of Teachers that are Appropriately Credentialed for the Students They are Assigned to Teach	2017-18 All Teachers 100%	All Teachers 99% (SY 2016-17)
Percentage of Early Education Center and Pre-K through 12 Classroom Teachers who have a final Educator Development and Support: Teacher (EDST) performance evaluation by the end of the school year	2017-18 All Teachers 25%	All Teachers 27% (SY 2016-17)
Percentage of Schools Providing Students with Standards-Based Instructional Materials by Meeting Williams Act Requirements	2017-18 All Schools 100%	All Schools 100% (SY 2016-17)
Percentage of Facilities that are in Good Repair	2017-18 All Facilities 100%	All Facilities 99% (SY 2016-17)

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All outcomes measured under the basic services goal meet and align with the Williams sufficiency reporting requirements. These actions are carried out with fidelity and ensure basic cleanliness, materials and staff alignments are provided to schools throughout the District. Specifically, targeted resources have focused on work performed by Facilities Strike Teams is scheduled in advance with the Principals of high need schools. The Complex Project Manager (CPM) meets with the Principal to prioritize work needed at each school site prior to the Strike Team visit. Work at the sites consists generally of additional cleaning support and gardening assistance or making repairs. Work is summarized to show items completed and items still outstanding after the Strike Team leaves the site and evaluated through an exit interview with the principal.

This year, the Chief Facilities Executive provided a one-on-one update to the District parent committees on the multiple efforts being lead by the Facilities Division. We will continue this dialogue and update process as part of the yearly LCAP update.

LAUSD has fully implemented its Breakfast in the Classroom service to 95% of District schools providing meals for students in the first minutes of the school day.

Teacher evaluations continue utilizing the growth and development cycle, which for the 2016-17 school year will exceed 27% of the roster-carrying teacher workforce.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All targets were met or nearly met consistent with the statutory requirements that govern teacher assignments, instructional material availability and facilities conditions.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. In addition, an expenditure was added to 2016-17 to acknowledge a nutrition program for low-income students.

For action 6.2, budgeted amounts versus expenditures identified vary due to the volatility of operational costs, such as utility usage and rates, telecom and fleet maintenance, etc.

Vacancies for 6.1 are a result of ongoing vacancies and changes in staffing levels throughout the year.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

A change in an action reflects supplemental and concentration resources contributing to the District's expansion of the Breakfast in the Classroom and Supper programs. These nutrition-related programs emphasize the need to provide additional meals beyond lunch to low-income students in the District.

Stakeholder Engagement

LCAP Year: 2018-19

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LAUSD utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District. Special priority was made to meet with representatives of the targeted student populations served through the LCAP, including the students themselves. The District made a conscious effort to expand the timeline of engagement in the prior school year in order to better utilize community feedback in the development of the LCAP.

The District's engagement efforts began in October, collaborating on partnership opportunities for community organizations to sponsor LCAP "Input Sessions." A total of 15 meetings were held from October through June by the District to engage community stakeholders in the development of the LCAP. A survey to solicit feedback from the community, which included teachers, principals, support staff, parents and students on the priorities of the LCAP and the District's goals was utilized to gather additional input from stakeholders. For the 2018-19 LCAP, the School Experience Survey results informed school perceptions and needs for students, parents and staff.

A total of 15 Input Sessions were held across the District from October to December to gather feedback from stakeholders on the existing goals and targets of the LCAP. Stakeholders were also asked to provide strategies that will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth. Additional parent advisory group meetings and LCAP investment meetings were also held throughout the school year. A full list of the LCAP meetings are noted in this section below.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources: <http://lcff.lausd.net> and <http://Achieve.lausd.net/budget>

As part of the LCAP Input Sessions and informational meetings, the Los Angeles Unified School District presented an overview to stakeholders of the LCFF, the goals and metrics included in the District's Local Control Accountability Scorecard, as well as investment areas of the LCAP.

In addition to the Input Sessions, meetings were held with both the DELAC and the PAC as part of a Parent Leadership Development schedule. District personnel provided updates on a number of programs highlighted by the LAUSD's LCAP. In particular, they focused on key programs funded by new and ongoing investments made in 2017-18 and provided progress updates on targets and strategies established in the 2018-17 LCAP. In addition, the District's parent committees were able to review year-end data from 2014-15 and any available current year data. Additional non-LCAP metrics were also used to provide context for growth or identify potential

challenges in meeting the District's set targets. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

New for 2017-18 was a new school-level requirement for each school to provide parents with a review of the California School Dashboard (replacing the LAUSD School Report Card) to assess student progress towards the California's accountability metrics. Each school held a workshop with parents and community stakeholders to discuss the progress of the school on the pertinent metrics, based on grade level.

Permissible within the CA Education Code, the LAUSD District English Learner Advisory Committee (DELAC) is serving in place of the English Learner Parent Advisory Committee (ELPAC). The Parent Advisory Committee (PAC) continued in its third year with elected governing officers. In 2017, members on the PAC were elected from each of the five LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Ten guardians representing Foster Youth were also elected as a whole group from across the District. The parents representing English Learners were elected from amongst the members of DELAC by their regional representatives. The parents of Low-Income students and the parents At-Large elected their representatives, respectively. Guardians of foster youth were elected at a regional convening by other Foster Youth guardians to represent these stakeholders. Seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 50 members of the DELAC and 47 members of the PAC.

The Superintendent provided written responses to the both the PAC and DELAC comments that were developed throughout the 2017-18 school year and submitted to the Superintendent in May 2018. Response were provided to each committee.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

After conducting 48 community meetings over the course of the 2016-17 and 2017-18 school years focused on LCFF and LCAP, the District has identified 8 recurring themes to support the educational achievement of LAUSD students. These themes are reflected in sustaining the goals, services, and investments of the District's LCAP for the 2018-19 school year. Below are demographics and a high-level summary of survey responses.

Demographics:

- 59% of respondents identified as parents
- 18% of respondents identified as students
- 78% of respondents identified as Hispanic or Latino
- 58% of respondents identified as receiving/their child receiving Free or Reduced Lunch
- 38% of respondents identified as English learners (students or parents/guardians of ELs)
- 10% of respondents identified as Foster Youth (students or guardians of FY)

Common themes from the quantitative survey questions covering our high-need students (with relevance to LCAP goals):

- Increase support for struggling students
- Provide appropriate interventions for English learners who are not meeting benchmarks
- Improve parent/family engagement opportunities
- Focus on academic proficiency for low-income students
- Support teachers with additional professional development and support staff (including reducing class sizes)

The eight most frequently cited themes in relation to Student Achievement from the qualitative, open response sections of the survey and community discussions included:

- Provide interventions and students supports
- Improve parent/family engagement opportunities
- Provide support for students in which English is their second language
- Ensure student engagement/involvement in their schools
- Support teachers with additional professional development and support staff (including reducing class sizes)
- Monitor school and student achievement to ensure adequate progress is being made
- Ensure students are college and career ready (including access to academic and college counseling)
- Ensure safety in schools and focus on discipline and behavior management

The priorities identified above are included in the District's budget. Investments for Foster Youth, English learners, and Low-Income students are identified on subsequent pages of this document. The LCFF investment priorities reflect the feedback received from stakeholders and student data, and are tied to the academic data and needs of our students. Investments are further detailed in subsequent pages.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEAs goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Modified Goal

Goal 1

100% GRADUATION

**State and/or Local
Priorities Addressed
by this goal:**

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access
Local Priorities:

Identified Need:

- To monitor and support high school attainment.
- To increase number of students who successfully complete high school college and career ready
- To monitor and reduce drop-out rates for middle and high school pupils.
- Ensure that 12th graders have access to the financial aid and opportunities to attend universities, community colleges and/or vocational schools.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20

Programs & Interventions

Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs

target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant

(CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways

completed more college preparatory courses compared with similar peers in traditional high school programs.

· Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

<p><u>A-G Diploma Program</u></p> <p>The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.</p>		

2018-19

Select from New Action, Modified Action, or Unchanged Action:

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.

The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.

- Tier 2 reflects a student who is 3-4 classes off-track
- Tier 3 reflects a student who is 5 or more classes off-track

Modified Goal

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes
Local Priorities:

Identified Need:

- To increase the number of students who score Proficient or above in English Language Arts on the SBAC assessment
- To increase the number of students who score Proficient or above in grade level and higher level mathematics on the SBAC assessment
- To monitor and increase early literacy rates of pupils
- To increase the number of English Learners who achieve full English language proficiency
- To increase the number of English learners demonstrating readiness to participate in a core English language arts curriculum.
- To decrease the number of Long Term English Learners
- To monitor and support Foster Youth middle and high school attainment.
- To monitor and increase the number of Student with Disabilities participating in General Education Settings.

2018-19

Select from New Action, Modified Action, or Unchanged Action:

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Foster Youth Support Plan and Family Source Centers

Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (i.e., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP)
Pupil Services and Attendance (PSA)
Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state's priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional

Increase in resources to expand professional development efforts consistent with the actions below.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department

Development improving instructional capacity in all content areas.

- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

Assessment

Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of

enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.

- Graduation checks
- California High School Exit Exam (CaHSEE) assessments
- Algebra EOC (End Of Course assessment)
- Math Placement Assessment
- Literacy intervention assessment
- K-2 assessments in foundational reading and math
- Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS)
- Progress monitoring assessment tools
- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

- A literacy intervention course with an additional language development component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

- Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school.

(AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. - Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are

The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program

low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

implementation.

engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into

the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

School Climate and Restorative Justice Program

Promote School Climate and Student Engagement at campuses of highest need, based on unduplicated student concentrations.

And effort to develop and maintain:

- Holistic, safe and healthy school environments
- Effective positive behavior support and interventions
- Commitment to a District-wide culture of positive and humanistic approach to working with students, staff and parents.

Funds are prioritized utilizing the District's equity index and through the identification of sites with high incidences of conflict and suspensions. The index is described in Section 3a.

Restorative Justice counselors and teacher advisors will be provided to school sites for purposes of building positive practices and school culture to address student behavior and conflict.

On-going Major Maintenance

Targeted maintenance to school sites with greatest need.

Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a

week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2018-19**

Estimated Supplemental and Concentration Grant Funds:

\$1,164,261,199

Percentage to Increase or Improve Services: **32.60%**

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2018-19, the LAUSD will budget \$1.16 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. These funds represent a concerted effort to continue and realign current expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to expand early learning interventions and supports for our youngest learners, refocus our secondary ELA interventions, and drive innovation in our neediest schools. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity

for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.

- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998)
- **Accelerated Academic Literacy (Goal#2, Action #9):** The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- *Assistant Principal:* All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- *Counselor (High School Only):* All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
- The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- *School Libraries/Librarians:* Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity

index. (Identified in Goal 1, Action #5)

- *Services for Elementary Schools:* Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
- **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
- **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English

Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.

- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **School Innovation Fund Program (Goal #1, Action #10):** Invest in the highest need secondary schools in LAUSD which have comprehensive need to support foster youth, homeless youth, math outcomes and school climate outcomes. The resources at these schools are guided by a clear expectation that schools define their root causes, develop and assess school-based strategies, and collaborate with a student support team focused on addressing the mental health, life and academic needs of students. The coherence-making model is focused on developing a sustainable practice on ongoing inquiry and improvement lead by the school leadership team and supported by District staff.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at

schools with **80%-100% unduplicated** pupils.

- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities for academic enrichment in this area of study.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP

students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. 85% of our students qualify as an LCFF unduplicated pupil. Building parent capacity district-wide is essential to supporting the academic achievement of unduplicated pupils in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #9):** Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Estimated Supplemental and Concentration Grant Funds:

\$1,134,420,996

Percentage to Increase or Improve Services:

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF. This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Libraries/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched

offering of arts courses and additional administrative support at elementary school-sites.

- *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post- secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
 - **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified

employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.

- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)** Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a

number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Expenditure Summary

Expenditures by Budget Category

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Los Angeles Unified School District

CDS Code: 19 64733

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: 333 S. Beaudry Ave., Los Angeles, CA 90017, www.lausd.net, (213) 241-1000

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

This chart shows the total general purpose revenue Los Angeles Unified School District expects to receive in the coming year from all sources.

The total revenue projected for Los Angeles Unified School District is \$7,390,987,416.00, of which \$5,587,376,601.00 is Local Control Funding Formula (LCFF), \$873,459,191.00 is other state funds, \$162,358,623.00 is local funds, and \$767,793,001.00 is federal funds. Of the \$5,587,376,601.00 in LCFF Funds, \$1,137,221,279.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

LCFF Budget Overview for Parents

This chart provides a quick summary of how much Los Angeles Unified School District plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Los Angeles Unified School District plans to spend \$8,545,363,815.00 for the 2019-20 school year. Of that amount, \$5,587,376,601.00 is tied to actions/services in the LCAP and \$2,957,987,214.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Any General Fund Budget Expenditures not included in the LCAP are utilizing carryover funds, federal funds, other state funds and local funds.

Increased or Improved Services for High Needs Students in 2019-20

In 2019-20, Los Angeles Unified School District is projecting it will receive \$1,137,221,279.00 based on the enrollment of foster youth, English learner, and low-income students. Los Angeles Unified School District must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Los Angeles Unified School District plans to spend \$1,137,221,279.00 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Los Angeles Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Los Angeles Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Los Angeles Unified School District's LCAP budgeted \$1,173,147,912.00 for planned actions to increase or improve services for high needs students. Los Angeles Unified School District estimates that it will actually spend \$1,182,063,670.00 for actions to increase or improve services for high needs students in 2018-19.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LA Unified) is focused on ensuring all students are prepared for college, career and life. We are a district that serves over 694,096 Pre-K thru Adult Education students, including independent charter and affiliated charter schools. Approximately 85% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, it is essential we ensure resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LA Unified is informed by our diverse population where 157,619 students are learning to speak English proficiently and 73.4% of our student population is Latino, 10.5% is White, 8.2% is African American and 6.3% is Asian/Pacific Islander. LA Unified embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 63,576 employees, consisting of teachers, administrators and classified personnel who are instrumental in helping LA Unified achieve the goals and objectives for improving student outcomes. Additional information about the district may be accessed at <https://achieve.lausd.net/facts>.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

LA Unified continues to expand the implementation of multi-tiered systems of support to ensure that all students are ready for college, career and life. In addition to academic, behavioral and social-emotional initiatives, LA Unified is focused on increasing school-based resources and staffing district-wide and ensuring equity in the distribution of those resources. Schools and Local Districts have been provided additional flexibility in the use of supplemental funds because of the diverse needs of school communities and the belief that those closest to students know best how to allocate staffing and resources.

Goal #1 - 100% Graduation: Ten LCAP actions aim to increase graduation rates and ensure students graduate college and career ready.

- Additional funding has been allocated for class size reduction teachers and counselors. Schools have also received increased budget autonomy so that local decision-makers can determine how best to utilize funding to be most aligned with the needs of their students. The Student Equity Needs Index funding has increased and now provides schools with greater autonomy over how those funds may be spent (Goal 1, Action 5).
- Options schools funding has been moved from supplemental to base funding to recognize the student populations these schools serve and to provide these schools with additional flexibility to determine allocations of resources and staffing (Goal 1, Action 6).
- A-G Immediate Intervention continues to expand resources for schools to provide Tier 2 and 3 academic supports for students to improve proficiency levels and to increase graduation rates. Local Districts are also provided additional flexibility in the use of supplemental funds to identify staffing and resources needed to support their schools in improving Tier 2 and 3 strategies for student graduation progress (Goal 1, Action 9).

Goal #2 - Proficiency for All: Twelve LCAP actions concentrate on continuing gains in grade-level academic proficiency for all students, and particularly for student groups that perform below the district average.

- The Foster Youth Support Plan and Family Source Centers will receive increased funding to ensure that the district continues to focus on the success of these students (Goal 2, Action 1).
- The integration of students with disabilities into general education programs has been moved from supplemental to the base funding for special education. This acknowledges the importance of this integration initiative for all students as full inclusion programs are expanded to additional schools in the upcoming school year (Goal 2, Action 8).
- The Division of Instruction continues to focus on improving literacy outcomes for the district. This has included the implementation of the English Learner Master Plan to integrate English Language Development across the Tier 1 curriculum and to support secondary literacy Tier 2 and Tier 3 strategies in middle and high schools (Goal 2, Action 9).

Goal #3 - 100% Attendance: Four LCAP actions are focused on supporting the health, behavior and social-emotional learning of students across the district and with homeless and foster youth.

- Increased funding is allocated for these actions to improve student engagement and supports at campuses with the highest need. These actions include increases in staffing for nurses and counselors.

Goal #4 - Parent, Community and Student Engagement: Two LCAP actions support initiatives to strengthen the partnerships and collaboration between school staff, parents, students and community members to support student success.

- Targeted Parental Involvement funding has been reallocated to School Autonomy in order to provide schools with additional funding flexibility in how these funds are utilized at the school level (Goal 4, Action 1).
- Ongoing parental involvement funding will continue to engage staff and parents in ways to provide input on district progress and initiatives (Goal 4, Action 2).

Goal #5 - Ensure School Safety: These two LCAP actions continue to improve the strategies in schools to foster positive school climates and to ensure that schools are safe spaces that are conducive to learning for all students.

- As the Restorative Justice training has been implemented in all district schools, funding for school climate and restorative justice has been reallocated to the School Autonomy action in order to provide schools with greater flexibility (Goal 5, Action 1).

Goal #6 - Basic Services: Five LCAP actions support schools with maintenance and student nutrition needs in addition to providing administrative support through Local Districts and the Central Office.

- Funding is sustained for maintenance and access to meals (Goal 6, Actions 4 and 5).

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the **LCFF Evaluation Rubrics**, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

LA Unified is proud of our community of parents, teachers, counselors, administrators and classified staff who are focused every day on improving student performance. We also greatly appreciate our community and university partners that have advocated for continued improvements to our practices and share in the progress of our students.

1 - Graduation Rate - The LA Unified graduation rate on the California school dashboard continues to show growth year-over-year by increasing to 82.7% in 2018 compared to 81% in 2017. The district's continued focus on developing and implementing Tier 2 and 3 supports in high schools such as credit recovery and graduation counseling is resulting in more students graduating and meeting a-g coursework requirements.

2 - English Language Arts (ELA) - The increase in ELA performance district-wide (+5.6 points) reflects improvements in multi-tiered systems of support implementation in curriculum and instruction during the 2017-18 school year. The implementation of new Tier 1 ELA curriculum across all elementary schools in addition to the implementation of the new district English Learner and Standard English Learner Master Plan have now provided the resources and instruction that students need to demonstrate proficiency on the state assessments.

3 - Mathematics - District-wide mathematics performance improved +3.3 points, demonstrating that additional professional development and formative assessment strategies are supporting student achievement. Schools are also increasing their use of Smarter Balanced interim assessments to support teacher calibration of student performance expectations.

4 - Suspension Rate - Our LA Unified suspension rate maintained a low level (0.5%) similar to the prior year rate. District schools continue implementation of restorative justice practices through professional development and discipline policies.

Referring to the **LCFF Evaluation Rubrics**, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The district's implementation of multi-tiered systems of support continues to focus on the areas of greatest need in the district. While overall district performance on the state dashboard only identifies one area, chronic absenteeism, as "Orange," we recognize that overall student performance in additional dashboard areas remains low (e.g., English Language Arts, mathematics).

1 - Chronic Absenteeism - The district's chronic absenteeism rate was maintained year-over-year at about 10.3%, with most student groups performing at the same level as the prior year. The district continues to develop additional resources and dashboards for schools to track their chronic absenteeism rates during the school year. Schools will also have increased funding and flexibility to add Pupil Services and Attendance (PSA) counselors to engage students and families.

2 - College/Career Readiness - While the overall district performance is "Yellow," we recognize that only 38.2% of students in the cohort were identified as "prepared." Examination of the criteria for being "prepared," LA Unified continues to expand and implement Career Technical Education pathways, as exemplified by our Linked Learning high schools. In addition, the district is improving its tracking systems for identifying students who have completed college coursework.

3 - English Language Arts and Mathematics - Both district-wide distance from standard met scores for ELA (-29.2) and mathematics (-59.4) indicate the majority of students are still not performing at the state-identified proficiency level. Continued investments in lowering class sizes, improving curriculum and instruction for all students, and focusing supports for English Learners and foster youth are intended to result in improvements in performance in these areas.

Referring to the **LCFF Evaluation Rubrics**, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

1 - Graduation Rate - English learners and foster youth are both at the "red" performance level compared to the district all student "green" performance level. In addition, the following three student groups are at the "orange" performance level: homeless, Native Hawaiian or Pacific Islander, and two or more races. The district continues to implement Tier 2 and 3 strategies to provide greater opportunities for students to reach proficiency and recover course credits during and outside the school day. Counselors continue to receive resources and training in tracking and advising students on their progress and how to ensure foster youth receive their credits earned and are permitted to meet the permitted state minimum graduation requirements. For English learners and Standard English learners, the district continues to identify additional courses that meet a-g course graduation requirements and to implement the English Learner and Standard English Learner Master Plan to support improvements in content area Tier 1 instruction and the incorporation of more integrated English Language Development instruction and culturally responsive instruction in content courses.

2 - Suspension Rate - One student group, American Indian or Alaska Natives, are at the "yellow" performance level compared to the district "blue" performance level. Of note is that only two other student groups, African American and foster youth, are at the "green" performance level. All other student groups are at the "blue" performance level. The district continues to implement restorative justice practices across all schools. The expansion of culturally responsive instruction through the Access, Equity and Acceleration team should increase student engagement and ensure inclusion of all students in classroom instruction.

3 - College/Career - One student group, students with disabilities, is performing at the "red" performance level compared to the all students performance at the "yellow" level. The district is increasing the implementation of full inclusion programs in schools as a Tier 1 strategy, integrating students with disabilities into general education classes. Full inclusion practices require extensive professional development and planning for school site staff members and provide students with disabilities with greater access to a-g courses in high school. The district continues to provide funding and budget flexibility for Local Districts and schools to support students with disabilities in their progress toward graduation. Data systems like progress monitoring dashboards implemented over the past several years continue to provide schools and Local Districts with information to respond to students with disabilities who might need additional supports.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

The California Department of Education identified 47 schools as Comprehensive Support and Improvement (CSI) within LA Unified. The following 25 of LA Unified's CSI schools were identified for low-graduation based on the 2-year average rate. Schools with Dashboard Alternative School Status (DASS) are annotated:

- Angelou Community High School
- Belmont High School
- Central High School (DASS)
- Early College Academy
- McAlister High School (DASS)
- Newmark High School (DASS)
- RFK School for the Visual Arts and Humanities
- Monterey High School (DASS)
- Perez Special Education Center (DASS)
- Earhart High School (DASS)
- Evergreen High School (DASS)
- London High School (DASS)
- Rogers High School (DASS)
- Addams High School (DASS)
- Independence High School (DASS)
- Owensmouth High School (DASS)
- Thoreau High School (DASS)
- Wooden High School (DASS)
- Avalon High School (DASS)
- Willenberg Special Education Center (DASS)
- Bernstein High School
- CDS Alonzo (DASS)
- View Park Continuation (DASS)
- Carlson Home Hospital
- City of Angels (DASS)

The following 22 of LA Unified's CSI schools were identified for low performance based on 2018 Dashboard results:

- Kahlo High School (DASS)
- Manual Arts High School
- Boyle Heights STEM
- Holmes Ave Elementary School
- Odyssey High School (DASS)
- Lowman Special Education Center (DASS)
- Panorama High School
- Van Nuys Middle School
- Lokrantz Special Education Center (DASS)
- Miller Career and Transition Center (DASS)
- Mulholland Middle School
- Dymally High School
- Markham Middle School
- Youth Opportunities Unlimited Alternative High School (DASS)
- Audubon Middle School
- Brentwood Science Magnet
- Century Park Elementary School
- Bret Harte Preparatory Middle School
- Augustus Hawkins Community Health Advocates School
- Washington Preparatory High School
- WESM Health/Sports Medicine High School
- Secondary CDS (DASS)

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LA Unified has built a system of support such that CSI schools are able to effectively complete all the requirements related to their Every Student Succeeds Act (ESSA) status, including conducting a comprehensive needs assessment, engaging stakeholders in planning, selecting evidence-based interventions and identifying resource inequities. Going beyond the requirements of ESSA, LA Unified aligned additional resources to provide supplemental supports and resources to CSI schools to support ongoing improvement and student achievement.

In anticipation of the identification of CSI schools, LA Unified created a CSI Addendum to the online School Plan for Student Achievement (SPSA) to address new plan components, provided trainings for principals and their Local District (LD) support staff, provided ongoing guidance and support to schools as they began their planning process, and aligned additional resources (beyond the State CSI funds) for schools to support improvement efforts. The District's CSI Addendum template was approved by California Department of Education (CDE) staff in January 2019.

Comprehensive Needs Assessment: The LA Unified's SPSA template includes questions to address the requirement that CSI schools complete a comprehensive needs assessment. Schools must not only describe what occurred during their comprehensive needs assessment, who participated, and when it occurred, but also must describe

the findings from their needs assessment and the alignment of their findings to strategic actions. Schools analyze a variety of data, including the state indicators on the California School Dashboard.

Resource Inequities Review: LA Unified defined the goal of a Resource Inequities Review as follows: *To ensure that all students have equitable supports and access to various resources such as programs, rigorous curriculum, interventions, effective teachers, etc., such that all students can achieve at high levels.* To achieve this goal, LA Unified regards the Resource Inequities Review process as the application of an equity lens during the comprehensive needs assessment. While schools must respond to four prompts on the CSI Addendum that describe the identified inequities and strategies to address them, LA Unified also provided reflection questions that cover a range of areas where inequities may exist to support school teams as they seek to identify ways in which resources may or may not be used equitably. Each completed CSI section of the SPSA includes a description of the actionable inequities identified, the inequities that will be prioritized at the school site, and the strategies to address the inequities.

Evidence-Based Interventions: To ensure that CSI schools are able to select and implement evidence-based interventions, LA Unified provided guidance and training at multiple levels of the organization and developed an optional bench contract with pre-vetted vendors that support evidence-based interventions. As school teams identify their needs during their resource inequities review and comprehensive needs assessment, they will determine data-based focus areas. Once the focus areas have been identified, school teams have resources to identify and select evidence-based interventions such as evidenceforssa.org, What Works Clearinghouse, LA Unified's Evidence-Based Interventions Bench, and other links to identify interventions, programs or activities that align to student need. As an added layer of support, LD staff (who are among those who provide approval signatures on the plans) have been trained in using those resources and others to support schools in selecting interventions that meet the federal criteria.

Trainings for Principals and Local District Staff and Ongoing Guidance: The CDE released the statewide list of CSI schools on January 31, 2019, and LA Unified completed trainings for all principals of CSI schools by February 27, 2019. The trainings addressed the State's CSI identification criteria, CSI requirements, and the resources and supports to implement the requirements. Each principal received a toolkit to provide background information, communication tools to support efforts to inform and engage stakeholders, and resources to support schools in completing the CSI Addendum. The trainings also provided contact information for various district departments, and schools have been accessing those contacts for additional support and guidance for planning. In addition to the formal principal trainings, LA Unified staff have provided ongoing training to LD support staff to go in further depth on evidence-based interventions, resource inequities reviews and the CSI Addendum to ensure common understandings and to have a continuous line of communication about ongoing areas of need.

Additional Resources: The State will be allocating roughly \$7.6 million to LA Unified to support CSI school improvement efforts. Those funds were allocated directly to CSI schools to support locally-determined improvement efforts based on a base-grant model of \$100,000 plus a per pupil allocation. The only exception is Washington Preparatory High School, which receives School Improvement Grant (SIG) funds in lieu of the State CSI allocation. In partnership with stakeholders (via School Site Council) schools will determine the best use of their improvement funds within the SPSA CSI Addendum based on the comprehensive needs assessment findings. To support ongoing improvement efforts, LA Unified set aside additional local Title I funds for lower-performing schools (including, but not limited to CSI). LA Unified is providing the following additional Tier 2/Tier 3 resources to support student learning opportunities for students attending CSI schools in Summer 2019 or during the 2019-20 school year:

- **Summer Learning:** To create ongoing learning opportunities for at-risk students over the summer, LA UNIFIED offers several programs that CSI schools can implement:
 - **Extended Learning Opportunities, Summer (ELOS):** CSI elementary and middle schools are able to offer a standardized summer program administered by Beyond the Bell. This four-week program includes focused academic intervention in English Language Arts or mathematics for academically at-risk students in grades K-8. The program includes an instructional field trip aligned with leveled-reading texts, opportunities for activity-based projects, social emotional learning lessons and reader's theater.
 - **Summer Reading Program:** For CSI schools with low enrollment, LA Unified offers a summer reading program in lieu of ELOS. The program involves providing high-interest reading materials for students to access over the summer.
 - **Summer Term:** All at-risk students attending any LA Unified high school, including CSI schools can attend a 24-day summer program to recover credits and make progress toward graduation.
 - **Summer Bridge:** CSI comprehensive high schools are all eligible to offer a summer bridge program to support the transition from 8th to 9th grade. The curriculum includes English Language Arts, culturally authentic and responsive pedagogy, STEAM text-based collaborative lessons and activities, and Naviance online high school and college readiness curriculum. Students earn five elective credits upon successful completion.
- Additional supports that CSI schools will be eligible to receive during the 2019-20 school year include:
 - **Title I Intervention Program:** All CSI elementary, middle and comprehensive high schools are eligible to participate in the Title I Intervention program. This program is administered by Beyond the Bell. School sites receive a per pupil allocation to offer site-designed interventions to meet student need during the school year, and have flexibility to focus on math, English Language Arts or credit recovery.
 - **Social-Emotional Learning:** LA UNIFIED's Social Emotional Teacher Advisors will identify and support age-appropriate social-emotional learning programs (e.g., Second Step) or develop trainings for CSI schools.

LA Unified may identify additional resources and supports to meet the needs of CSI schools based on an ongoing review of data.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Below is a description of how LA Unified will monitor and evaluate the implementation of effectiveness of the CSI plans:

- Local District staff will monitor and support the implementation of CSI plans. The online SPSA now includes a space for LDs to describe the way in which they are providing additional support and monitoring to the CSI schools. The support and monitoring may vary depending on school context and needs and will be described in the Monitoring section of the school's SPSA.
- CSI school teams will formally evaluate school plans alongside Local District support staff annually. School teams will review whether they have met the measurable objectives stated in the plan and reflect on implementation. While the measurable objectives and data points may vary by school, the objectives are aligned to state indicators on the California School Dashboard. Because the SPSA is online, LA Unified can aggregate school-level evaluative data across the system to determine how many CSI schools have met their measurable objectives.
- CSI schools will review the progress of their plan implementation after the first semester alongside district staff.
- LA Unified collects a robust set of data that aligns to the California School Dashboard to support district and school staff in monitoring and evaluating implementation, including, but not limited to:
 - Attendance- Schools and district staff can monitor student level attendance and "performance bands" of attendance to determine which students are at-risk of chronic absenteeism and identify trends. Our Focus data system updates attendance daily for frequent monitoring and adjustments.
 - Suspensions- Schools and district staff can monitor student level suspensions, including the reason for the suspension. These reports on our MyData platform are updated weekly.
 - English Language Arts (ELA)- Schools and district staff can review and analyze Smarter Balanced Assessments (SBA) for ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in ELA, and can analyze scores at least twice a year.
 - Math- Schools and district staff can review and analyze SBA ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in math, and can analyze scores at least twice a year.
 - A-G Progress- To support schools in monitoring progress toward graduation, schools and district staff have access to reports noting A-G progress, including information about whether the student is on-track to graduate or how many credits they are missing to be considered on-track. Our Focus data system tracks A-G with a D or better, A-G with a C or better, and all academic requirements met for the current and future graduating classes.

- o At-Risk Reports- LA Unified collects and provides reports that schools and district staff can use to identify at-risk students based on multiple factors such as attendance, suspensions and academic grades (i.e., marks).
- o School Experience Survey- LA Unified administers an annual district-wide survey to students, staff and families. Data reports are provided annually, and include response rates and results at multiple levels, include category, content area, and individual question. Categories include Academics, School Climate, and Social Emotional Learning. Content areas include Academic Focus, Cognitive Engagement, Future Orientation, Bullying, Connectedness, Expectations for Behavior, Opportunities for Participation, Safety, Growth Mindset, Self-Efficacy, Self-Management and Social Awareness.

The MyData system and School Experience Survey data provide longitudinal information, which can help schools and the district see patterns and trends overtime, while the Focus platform generally supports ongoing progress monitoring throughout the year. LA Unified has an ongoing commitment to improve its data system to support schools and district staff in monitoring and strategic planning.

Annual Update

LCAP Year Reviewed: 2018-19

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access
Local Priorities:

Annual Measurable Outcomes

Expected		Actual	
Four-Year Cohort Graduation Rate 2018-19		2017-18 Actual	
All Students 80%		All Students 77.3%	
Low-income 80%		Low-income 77.7%

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Goal 1, Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.</p> <p><u>Academic Interventions</u></p> <ul style="list-style-type: none"> English Language Arts, English Language Development, and Math Interventions AVID (Advancement Via Individual Determination) International Baccalaureate Dual Language/Bilingual Programs 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Academic Interventions (MMED)</u></p> <ul style="list-style-type: none"> Designated and Integrated ELD Dual Language/Bilingual Education Programs Long-Term English Learner (LTEL) courses (Advanced ELD and Literacy and Language for ELs) Before school/after school ELD and/or academic intervention Bridge-to-Reclassification Academies <ul style="list-style-type: none"> Foundational Literacy Intervention and/or Reading Comprehension Intervention for PLTEL or ULTEL students <p><u>College and Career Ready</u></p> <p>The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing Career Technical Education (CTE) pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.</p>	<p>\$14,869,259 - LCFF - 1000-1999 Certificated Salaries \$2,517,905 - LCFF - 2000-2999 Classified Salaries \$8,113,117 - LCFF - 3000-3999 Employee Benefits \$8,264,632 - LCFF - 4000-4999 Books and Supplies \$11,024,471 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,714 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$16,035,498 - LCFF - 1000-1999 Certificated Salaries \$2,826,121 - LCFF - 2000-2999 Classified Salaries \$7,984,326 - LCFF - 3000-3999 Employee Benefits \$1,756,052 - LCFF - 4000-4999 Books and Supplies \$3,719,163 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,687 - LCFF - 6000-6999 Capital Outlay</p>

- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;
- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1-3 funds currently support over 411 CTE pathways across the district.

Through this funding, LA Unified is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces, medical simulation labs;
- Developing a continuum of industry sector-aligned Work Based Learning opportunities for students, both in the classroom and in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LA Unified, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LA Unified/Los Angeles Community College District AB 288 dual credit MOU. In 2017-18 students earned 5,364 industry-aligned certifications.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LA Unified to implement Linked Learning at 72 pathways across the District, an increase in 24 pathways over the last three years. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,
- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;

- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,

- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,

- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.

- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college

- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LA Unified school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LA Unified has 14 gold certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.
- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

LA Unified Linked Learning high school pathways are outperforming non-Linked Learning high schools in graduation rates, a-g on track/completion, SBAC English and SBAC math while Linked Learning pathways have 16.4% EL students compared to 9.5% EL students in district non-Linked Learning pathways.

Additional information about LA Unified Linked Learning pathways may be accessed at: <https://achieve.lausd.net/Page/524>.

preparatory courses compared with similar peers in traditional high school programs.

· Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

students. Supports include staffing, professional development augmentations and recruitment and retention enhancements. Also includes new teacher support and assistance (BTSA).

Impact of resources will be assessed by the metrics listed in Goals #1 and Goals #2.

Administrators of Los Angeles (AALA) was not a party to the litigation, AALA also participated in the settlement discussions. The settlement agreement was unanimously approved by the Board of Education, and was subsequently approved the Court as well.

The settlement agreement provided for a robust set of administrative and other support at 37 schools, which were selected based on their API 1-3 ranking, high teacher turnover rate, and four of those schools had the highest student dropout rates. These schools have great concentrations of students who are English learners, foster youth and/or from low income families. Eighteen percent of the students at these schools were born outside of the United States (i.e., immigrants). The Reed Investment Schools received the following:

1. 1 Additional Assistant Principal
2. 1 Additional PSA Counselor, Psychiatric Social Worker or Secondary Counselor
 - o For the 2018-19 school year the following were allocated:
 - PSA - 13
 - PSW - 4
 - Guidance Counselors - 20
3. A-Basis for Principal and Reed Assistant Principal
4. 1-4 Mentor Teachers: Reed supports 91 mentors that provide ongoing support to over 370 non-permanent teachers at all 37 Reed sites.
5. 1-2 Special Education Support Providers (for schools with at least 15% of the student population with special needs)
6. Unique Professional Development - Reduction in Force Protection
 - o 40 hours of paid professional development training provided to all teachers and non-administrative certificated staff at the Reed schools.
 - o For the 2018-19 school year, 397 staff members in Reed schools received specialized training for a total of 11,751.795 hours.
7. Reed Mentor Professional Development
 - o 6 sessions provided for the 2018-19 school year
 - o 2018-19 focus: Standard 6.1 through 6.4 of the continuum of mentoring practice.
8. Recruitment and Retention Incentives
9. 1 Saved Position of math or English Language Arts teacher (in event of displacement due to decline in enrollment)
 - o For the 2018-19 school year, a total of 14 math or English Language Arts teacher positions were funded by the Reed program to prevent the teacher from being displaced.
10. Extra Conference Periods (for non-permanent teachers)
 - o As outlined in the final settlement agreement, "every non-permanent teacher receives an additional conference period" in order to provide time to meet with mentor teachers, observe experienced teachers, and plan instruction.
11. Long Term Substitute Funding
12. School Site Support Visits
 - o 2018-19 - 16 Reed schools visited
 - Goal: Review of Reed professional

	<p>development and implementation</p> <ul style="list-style-type: none"> ■ Habits of Mind ■ Reed Investment Engagement Strategies ■ Teaching and Learning Framework ■ Teacher Retention Supports (Reed Mentors) ■ School wide PD goals ■ School experience survey <p>The three year Reed Investment School Program was scheduled to end on June 30, 2017 (after commencing in 2014) pursuant to the original settlement agreement and court order. The District voluntarily extended the program through June 30, 2018, an additional year beyond what was required under the court order. The Reed Investment School Program will discontinue June 30, 2019.</p>

Goal 1, Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>School Autonomy</u></p> <p>Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index. Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>For the 2018-19 school year, the Student Equity Needs Index continued to distribute funding based on the identified needs of school communities. In collaboration with community organizations, the index was revised to include additional indicators of student need including academic indicators, school climate indicators, community indicators (i.e., childhood asthma and gun violence) and new demographic indicators. These indicators align with the new state dashboard. The school rankings were separated by school levels (i.e., elementary, middle and high), with some indicators given greater weight within each school level based on the district's areas of focus in the strategic plan. Specifically, college readiness is prioritized for high schools, school climate and safety are prioritized for middle schools, and math and literacy scores are prioritized for elementary schools.</p> <p>Schools received their allocations and were required to support their decision-making on the use of funds in the school's single plan for student achievement to ensure alignment with district goals. A menu of recommended professional development and supports that are aligned with the district's goals were offered to schools. In addition, schools were allocated positions to support TSP students such as nurses, counselors, campus aides, clerical staff, assistant principals and class size reduction teachers. The expectation is that schools were utilizing these resources to complement their plans to improve their results on the state dashboard.</p> <p>At the recommendation of the board of education, district staff engaged stakeholder</p>	<p>\$466,137,200 - LCFF - 1000-1999 Certificated Salaries \$58,799,461 - LCFF - 2000-2999 Classified Salaries \$192,126,369 - LCFF - 3000-3999 Employee Benefits \$8,358,997 - LCFF - 4000-4999 Books and Supplies \$12,608,616 - LCFF - 5000-5999 Services and Other Operating Expenses - Grant Set-Aside \$960,453 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$472,051,024 - LCFF - 1000-1999 Certificated Salaries \$59,133,699 - LCFF - 2000-2999 Classified Salaries \$191,966,226 - LCFF - 3000-3999 Employee Benefits \$36,605,689 - LCFF - 4000-4999 Books and Supplies \$15,156,399 - LCFF - 5000-5999 Services and Other Operating Expenses \$948,453 - LCFF - 6000-6999 Capital Outlay</p>

- Enhances school-climate
- Nursing Services
- Counselors (PSA, PSW)
- Campus aides
- Clerical
- Community Representatives
- Building and Grounds Maintenance
- Supports academic planning and instructional interventions
- Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
- Class Size Reduction positions
- Elective Teacher Positions
- Professional Development X-Time and Professional Services
- Tutoring supports
- Librarian and Library Aide
- A-G supports, i.e. credit recovery programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

For 2018-19 additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.
- Grant Set-Aside

groups during Fall 2018 to review the current implementation of the Student Equity Needs Index and to receive feedback and recommendations on its continued implementation in the 2019-20 school year. Eight stakeholder meetings were held with parent, student and community representatives to provide feedback on the current index and allocations. This provided input on the next steps with the Student Equity Needs Index implementation for the 2019-20 school year.

Options Program Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.	Funding was provided on a per-pupil allocation to all options schools. Funds were utilized to support completion of a-g coursework through personalized interventions including credit recovery, tutoring after school and on weekends, greater access to technology, and social emotional supports. In addition, all options schools received access to a literacy screener to support implementation of multi-tiered systems of support as a diagnostic tool to inform English Language Arts instruction.		

Goal 1, Action 7

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
For Actions/Services included as contributing to meeting Increased or Improved Services Requirement Students to be Served: English Learners, Foster Youth, Low Income Scope of Service: LEA-wide Location: All Schools Realigned After-School Program Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.	For Actions/Services included as contributing to meeting Increased or Improved Services Requirement Students to be Served: English Learners, Foster Youth, Low Income Scope of Service: LEA-wide Location: All Schools The Beyond the Bell Division implemented this action as follows: <ul style="list-style-type: none"> • Refined how the District evaluates the effectiveness of programs in supporting student needs • Use evaluations to guide after school program personnel to develop activities that better target higher risk populations for increased participation and increased outcomes. • Implementation of Social Emotional Learning programs inclusive Student Voice and continuing activities to support Growth Mindset especially for underrepresented student communities inclusive of homeless and foster youth as well as English Learners. • Staff trainings to bring awareness to staff based on student needs i.e. Foster Youth, English Learners, Students with Disabilities and Emotional and Behavior needs. • Learning activities that support daily school programs through project-based activities promoting social emotional wellness for all student groupings. • Daily activities that support and promote student safety and success especially youth who are homeless, living in Foster care, and students who are adjusting to life in America. • Refugee Educational Support Program provides support for English Learners, as needed. • Summer Term (credit recovery) • Extended Learning Opportunities for Summer (academic intervention) • Language in Action Program (for English Learners) • The Migrant Education Program provides support for English Learners, as needed. 	\$6,320,443 - LCFF - 2000-2999 Classified Salaries \$1,000,699 - LCFF - 3000-3999 Employee Benefits	\$9,225,880 - LCFF - 2000-2999 Classified Salaries \$1,184,863 - LCFF - 3000-3999 Employee Benefits \$27,199 - LCFF - 5000-5999 Services and Other Operating Expenses

Local Districts and schools utilized the menu of resources available through the Division of Instruction to improve graduation rates and a-g course completion in schools. The Division of Instruction describes the menu of resources available to support Local District and school plans as follows:</p> <ul style="list-style-type: none"> • Adult Education Partnership: At selected sites, students can retake courses at DACE sites after the school day or on 	<p>\$3,745,061 - LCFF - 1000-1999 Certificated Salaries \$1,491,189 - LCFF - 3000-3999 Employee Benefits \$8,789,363 - LCFF - 4000-4999 Books and Supplies \$1,028,584 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$8,052,342 - LCFF - 1000-1999 Certificated Salaries \$2,859,174 - LCFF - 3000-3999 Employee Benefits \$1,858,912 - LCFF - 4000-4999 Books and Supplies \$2,640,758 - LCFF - 5000-5999 Services and Other Operating Expenses \$224,296 - LCFF - 2000-2999 Classified Salaries</p>

sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning-Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

Saturdays. Small class sizes and flexible pacing support success.

- **Auxiliaries:** Provides opportunities within the school day for students retaking failed courses. The number of courses and time frame will depend on room in each school's master schedule to add auxiliary periods. Credit recovery opportunities may also be offered in a zero period.
- **Edgenuity Virtual and Blended Programs:** Students can be programmed into either option, depending on need and school resources. In the Blended model, classes are led by a subject-credentialed teacher who provides differentiated teaching and support. The Virtual model class is led by a credentialed teacher who assists students with platform access, time management, study skills supports, etc.
- **Independent Study:** Students enter into a written agreement/contract stipulating the manner of assignments granted, frequency of assignments, and the time frame to meet with the teacher for additional instructional support. This program provides students in employment or other obligations with another opportunity to retake classes, and reduce the potential for dropping out.
- **Performance Assessment Student Support (PASS):** These modular programs are designed for students who have previously failed a Math or ELA course required for graduation. PASS courses are self-paced, modular, teacher directed, and administered to small groups outside of the regular school day. They are ideal for students who need personalized teaching to gain mastery of skills and standards.
- **Recovery + Intervention = Graduation (RIG):** This unique option is a collaborative arrangement between a comprehensive high school and a neighboring continuation school using the pass-through system. Students in RIG remain enrolled in their high school while taking one to two classes at the continuation school during the day or after school.
- **Winter Break and Spring Break:** Schools can schedule intensive credit recovery programs using a block scheduling model so that students can maximize time to recover needed credits while off track. During these sessions, students can complete a class already started or begin a new course. Typically of five or six days' duration, students can take one or two classes during the day. Schools offer successive Saturday sessions for students needing additional time to complete and pass their class.

Additional school-wide programs targeting high school student success in graduation and the state College/Career indicator on the dashboard included:

- **Algebra I Intervention Pathway Program and Geometry Intervention Program:** These programs are designed to provide intervention in a timely manner as failure prevention. These intervention resources, available in Schoology, are designed to be personalized and accessible for students and teachers. Materials and resources can be used for direct instruction,

project-based learning and assigned for independent practice. Students receive instruction, complete assigned work, and are assessed on a particular learning target from units where they need additional support. The intervention is offered within the Algebra I or Geometry class, before or after school, or through a math tutorial lab class. Students can stop attending once they no longer need the support.

- **Mastery Learning and Grading:** The Division of Instruction provides Mastery Learning and Grading professional development series, that includes salary point classes to interested teachers, administrators and staff. Mastery Learning and Grading is a growth-mindset RTI Tier 1 approach to teaching and learning offering an alternative to traditional instruction and grading. By refocusing classroom grading and assessment on clear learning targets and by implementing research-based instructional practices that honor individual students' variables necessary for learning, Mastery Learning and Grading allows more students to succeed academically and take charge of their own learning. Administrators, teachers and staff can be certified through the MLG Salary Point Class or the MLG PD series (six 2 hour, in-person workshops and 8 hours of online learning). Once participants have completed the training, they work on creating Mastery Learning and Grading classroom materials such as standards-based learning targets, syllabi to communicate MLG practices to students and parents, rubrics to make clear what proficiency in each learning target entails, and tiered assessments of learning targets to provide multiple opportunities for students to reach proficiency. There are two Mastery Learning and Grading Coaches in each local district, one focusing on the Humanities and one that focuses on STEAM.
- **Pre-AP/AP Summer Institute (Advanced Learning Options):** Advanced Learning Options offers a two-day professional learning opportunity, funded with the College Readiness Grant, to discuss course-specific/discipline-specific content, instructional strategies, course organization and methods for promoting increased participation and success of diverse learners in A-G courses, including Advanced Placement (AP) and Honors. Sessions are led by College-Board endorsed subject experts.
- **AP Readiness Program (APR):** Supplemental instructional support for students and teachers is available through the AP Readiness Program at UCLA Center X. All District high school students enrolled in an Advanced Placement course, and their teachers, are invited to participate. There are two strands of AP Readiness: STEM and Humanities. The Humanities strand includes English Language, English Literature, Psychology, Spanish, U.S. Government, U.S. History, and World History. In addition to providing instructional support to students, the APR program offers comprehensive and high level professional development for

current and potential teachers of AP courses in STEM and Humanities areas with University professors. Students meet once month at UCLA from September through April, transportation from school sites and materials are provided. Participants in APR are a dedicated community of learners who continue to forge friendly and professional connections throughout LA Unified.

- **AB 288 Concurrent Enrollment:** High schools in each Local District have partnered with local community colleges to offer college credit courses to high school students with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness.
- **Expository Reading and Writing Course (ERWC)** is a rigorous, rhetorically based, full-year college preparatory English course for high school seniors designed to support college-readiness in English. Training for this course, which enables students to be prepared for college level reading and writing, has been completed. Teacher training is currently being offered.
- **SAT Practice All In Challenge: Local District Khan Academy Workshops:** Teachers will receive training teachers to use PSAT results to create targeted instruction to prepare for the SAT exam. At these workshops, which will be held in each local district, designated high school certificated staff will learn how to: create a teacher/coach Khan Academy account, access the teacher/coach dashboard and coaching tools, link student accounts and monitor student practice and progress. The number of participants from each high school is dependent on 10th grade enrollment and must include the PSAT coordinator.
- **Transition to College Mathematics and Statistics (TCMS):** 34 schools are currently offering this 4th year mathematics course available to ensure college readiness for students who have passed Algebra 2 but have scored at Standard Not Met or Nearly Met. 1,700 students are enrolled in the 58 sections being offered.
- **College Access Teacher Training (CATT) 2017 & 2018:** Over 75 LA Unified educators completed a course at Cal State LA led by Dr. Rebecca Joseph to develop capacity in the area of college advisement. Participants learned best practices from experts in the field of college readiness and developed projects to strengthen the college-going culture at each of their schools. CATT is a rigorous, high quality PD that prepares teachers and counselors to become college and career advocates in their current positions. Up to seven salary points may be earned upon the completion of the coursework and practicum school-based projects that are due at the end of the program.
- **College Access Network (CAN):** This professional development series, created by the College Counseling Collaborative and known as College Access Network (CAN), comprises 5 full

days of college readiness training for school personnel. Following their initial offering during the 2017-18 academic year, all modules were updated to reflect changes in the college access/admission landscape and the revised CAN trainings are in session this year. The series was offered on a flexible schedule; each module was offered three times including on Saturdays to avoid disrupting school schedules.

- **College Palooza:** The district-wide college and career event, held at LA Trade Tech College, took place on March 16th 2019. The event was open to all district staff, educators, families and students. Ranjit Sidhu of the National Council for Community and Education Partnerships (NCCEP) was the keynote speaker. There were 20 workshops for families and 10 for educators in a 3-period schedule. To accommodate groups bused in from secondary schools, there were several sessions tailored for students only and campus tours led by Trade Tech scholars. Also there was a college and community resource fair with admission reps from public and private institutions, with local business and non-profit partners.
- **College Café:** A series of pre-recorded Power Point presentations is in development. Known as College Café, the series is designed as a narrated "click and play" option for parent centers, informal school events, etc. Each episode comprises 15 slides focusing on one specific aspect of college knowledge, for example the CSU system, private college applications, and financial aid. By capturing important need-to-know facts in a short format, College Café is easily digestible while building postsecondary empowerment in our families.
- **The Quaglia Institute Parent and Family Seminars:** In February 2018 Dr. Russ Quaglia presented two evening events at Chatsworth and Huntington Park High Schools: *"Inspiring My Child Today for a Bright and Successful Future."* Open to all LA Unified families, the presentations covered ways to engage and encourage students, and gave families practical strategies to communicate better, inspire with purpose, and support their children through the challenges and successes of being a student.

Additional programs were developed for middle and elementary schools to better prepare students prior to enrolling in high school.

- **Middle School Intervention STAR 8:** A new intervention programs for 8th grade Math and ELA has been created. The program consists of 8-day modular curricula, aimed to raise students' academic achievement, ready them for a success in A-G courses, and culminate middle school in good standing. Each program provides a wealth of materials that review, reinforce and increase mastery of key standards and skills.
- **Middle School Intervention PASS:** A new PASS program has been created to support 8th grade students in Math and ELA and training for interested school site teachers will be occurring in May, 2019. PASS programs for 8th grade

Math and ELA: both are flexible, modular interventions designed for use during the semester. Students can be enrolled into middle school PASS in or outside the school day to receive extra support and differentiated teaching.

- **Edgenuity Intervention Programs for grades K-8:** Licenses have been renewed for the Pathblazer (grades K-6) and My Path (for grades 7 -8). Both interventions have screening features for immediate placement in Math and Reading lessons, with students receiving auto-prescribed content based on mastery. To facilitate effective use of the programs there will be two full-time Specialists continuing to support school sites, Quick Start guides, an LA Unified Resource Landing Page, a reporting feature that allows for tracking of student time on task, progress, and grades, a helpline, and tech support. This intervention support helps ready students for success in A-G courses.
- **Middle School College and Career Coaches (MSCCC):** These educators provide support for at-risk students targeted with early warning indicators (attendance, behavior, and low/failing grades in Math and ELA). As credentialed ELA teachers, they also support all teachers with integrating strategies to increase academic literacy. Coaches serve all Title 1 middle schools in full or half-time positions. They collaborate with stakeholders to ensure data-driven, results-based support services and programs are provided for all at-risk students. College and Career Coaches are primarily responsible for identifying achievement gaps, utilizing multiple data points for early alert data to inform intervention and support, assisting the roll-out of ELA/ELD, integrating instructional technology and providing a bridge of support as at-risk students transition into high school. Middle School College and Career Coaches have participated in Naviance training to support implementation at the middle schools.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the [LCFF Evaluation Rubrics](#), as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified implemented the actions as described during the 2018-19 school year. Some of the highlights of the implementation this year include:

- Support for over 411 Career Technical Education pathways across the district
- Implementation of 72 Linked Learning pathways that provide students with college and career awareness and experiences, including 14 Gold Certified Pathways
- Continued investments in 37 Reed schools to support staffing and additional professional development in these schools serving high concentrations of students who are English learners, foster youth and/or low income
- Utilization of Student Equity Needs Index funds in schools to support decision-making by staff closest to students
- Implementation of personalized learning funds in options schools to support completion of A-G coursework through credit recovery, tutoring, technology and social emotional learning supports
- Continued implementation of Diploma Counselors to support Tier II and III students identified at risk of not meeting graduation requirements
- Expansion of available Tier II and III resources for student interventions in content areas identified as high needs for students who are not on track for graduation
- Utilization of School Innovation funds in 50 identified high needs schools to support LCAP targets for student achievement and graduation

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

College and career readiness remain a central focus of all schools in LA Unified. The four year cohort graduation rate continues to increase year-over-year, and the percentage of graduating cohort students completing A-G requirements with a "C" or better was 47.9% for the 2017-18 school year. In addition, 10.4% of the grading cohort received a qualifying score of "3" or higher on at least 2 Advanced Placement exams. The percentages of students meeting the 11th grade Early Assessment Program (EAP) college readiness level in English Language Arts and mathematics were below the targets.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Due to the change in business rules for the state calculation of the graduation rate, the targets for the graduation rate metric have been adjusted to be aligned with attainable district targets. In addition, the metric for the percentage of the graduating cohort completing A-G with a "C" or better have been adjusted because the original 2018-19 target of 46% was met in the 2017-18 school year (47.9%).

In an effort to increase school decision-making autonomy, funding for Goal 1 Action 5 School Autonomy has now included funding from several other Actions in other Goals as a means of expanding the Student Equity Needs Index.

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes
Local Priorities:

The district also implemented new high school history/social studies instructional materials in the 2018-19 school year and is planning on purchasing and implementing new elementary history/social studies instructional materials in 2019-20. The district has begun planning for science instructional materials adoptions in the coming school years. District processes for selecting new instructional materials focus on the needs of students in the district, particularly English learners, and require integration with district-wide technology and the learning management system.</p> <p>District-wide investments in this action focused on ensuring appropriate textbooks and instructional materials are available in the following areas:</p> <ul style="list-style-type: none"> Core instructional programs and online courses-credit recovery Supplemental curriculum and materials supporting state standards Summer School Dual Language/Bilingual Programs Alignment with the district English Learner and Standard English Learner Master Plan Advanced Learning curricula (Advanced Placement, AVID, International Baccalaureate, SpringBoard, Honors courses) 	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$60,651,198 - LCFF - 2000-2999 Classified Salaries \$2,498,410 - LCFF - 3000-3999 Employee Benefits \$95,009,693 - LCFF - 4000-4999 Books and Supplies \$0 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$0 - LCFF - 3000-3999 Employee Benefits \$18,472,531 - LCFF - 4000-4999 Books and Supplies \$0 - LCFF - 6000-6999 Capital Outlay</p>

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>Instruction</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>As noted in previous annual updates, a significant portion of the District's base local</p>	<p>\$1,051,238,886 - LCFF - 1000-1999 Certificated Salaries \$601,886,560 - LCFF - 2000-2999 Classified Salaries \$135,478,615 - LCFF - 3000-3999 Employee Benefits \$207,795,137 - LCFF - 4000-4999 Books and Supplies \$4,750,234 - LCFF - 5000-</p>	<p>\$1,276,039,076 - LCFF - 1000-1999 Certificated Salaries \$130,111,000 - LCFF - 2000-2999 Classified Salaries \$550,922,450 - LCFF - 3000-3999 Employee Benefits \$32,683,224 - LCFF - 4000-4999 Books and Supplies \$11,774,786 - LCFF - 5000-</p>

<p>The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a student's ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the District's curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the greatest impact and learning gains by all of our students.</p> <ul style="list-style-type: none"> Teachers and instructional staff Implementation of shifts in Mathematics and ELA Interdisciplinary instruction English Language Development (ELD) Standards Phase-In Plan Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative Contracts to support effective Common Core State Standards instruction Design lessons Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards. Arts integration 	<p>control funding formula fund were aimed at supporting the instructional core of the District's programming. As such, school-sites were normed teaching staff and other personnel to carry-out the instructional program while also providing necessary tools to improve the quality of instruction.</p> <p>Instructional practices continue to focus on implementation of multi-tiered systems of support that provide differentiation and personalization for all students. One area of focus district-wide has been in the alignment of instruction with expectations on the state Smarter Balanced English Language Arts and mathematics assessments. School-site implementation of the Smarter Balanced interim assessment blocks has increased district-wide over the past three years, especially as the tools for teachers and administrators to use the results to inform instruction have improved in the Smarter Balanced Digital Library.</p> <p>Dual language programs - the district continued to invest in the expansion of these programs in schools during the 2018-19 school year. The 137 programs across the district include target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic. Schools transitioning to these programs need additional professional development and instructional supports to ensure that effective instruction is implemented in English and in the target language. At the elementary level, students have a minimum of 50% of each instructional day in the target language. At the secondary level, students have a minimum of two periods in a six period day that are taught 100% in the target language. These programs support district goals for academic achievement and support bilingualism and biliteracy as well as sociocultural competence.</p>	<p>5999 Services and Other Operating Expenses \$155,567 - LCFF - 6000-6999 Capital Outlay</p>	<p>5999 Services and Other Operating Expenses \$922,152 - LCFF - 6000-6999 Capital Outlay</p>

Goal 2, Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>Assessment</p> <p>Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.</p> <ul style="list-style-type: none"> Graduation checks California High School Exit Exam (CaHSEE) assessments Algebra EOC (End Of Course assessment) Math Placement Assessment Literacy intervention assessment K-2 assessments in foundational reading and math 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>Assessment</p> <p>For the 2018-19 school year, LA Unified continued implementation of district-wide assessments to inform curriculum and instruction as well as to monitor the performance of student groups and schools. These assessments are closely aligned with the state dashboard indicators and are intended to ensure student readiness for college, career and life. These assessments also align with the district's implementation of multi-tiered systems of support to inform decisions on student Tier 2 and 3 supports. Some examples of these assessments include:</p> <ul style="list-style-type: none"> Literacy - Elementary schools continue to focus on early literacy success for all students by expanding implementation of the Early Language and Literacy Plan (ELLP) which utilizes the diagnostic assessment Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment as a tool for supporting differentiated instruction for students. Additional professional development and data dialogues were implemented to support ELLP in elementary schools. At the secondary level, the Division of Instruction identified an appropriate literacy diagnostic assessment to begin 	<p>\$810,467 - LCFF - 1000-1999 Certificated Salaries \$4,127,696 - LCFF - 2000-2999 Classified Salaries \$2,251,501 - LCFF - 3000-3999 Employee Benefits \$2,823,303 - LCFF - 5000-5999 Services and Other Operating Expenses \$65,846 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$34,807 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$7,197 - LCFF - 3000-3999 Employee Benefits \$1,255,397 - LCFF - 5000-5999 Services and Other Operating Expenses \$0 - LCFF - 6000-6999 Capital Outlay</p>

<ul style="list-style-type: none"> Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS) Progress monitoring assessment tools English language development assessment tools Interim assessments aligned to the Common Core State Standards in ELA and Math California English Language Development Test Proficiency and progress Technology 	<p>being utilized in schools to inform identification of students and their skill levels.</p> <ul style="list-style-type: none"> English Learners - The Multilingual, Multicultural Education Department continued professional development on and analysis of English Language Proficiency Assessment for California (ELPAC) results and how to support integrated English Language development across the content areas. In addition, the Access, Equity and Acceleration team continued to support schools with the implementation of Language Assessment Scales (LAS) Links to identify probable standard English learners and to monitor progress of standard English learners in schools. Mathematics - District-wide implementation of the Smarter Balanced interim assessment blocks and comprehensive assessments continued to increase for English Language arts and mathematics. Recommended interim assessment blocks, including selected response and performance tasks, were identified in Fall and Spring testing windows to allow for calibration of student progress. Local Districts and the Division of Instruction continued professional development in schools on the alignment of classroom assessments with the levels of rigor expected on the Smarter Balanced assessments. Dual Language - These programs continued to utilize language literacy assessments (e.g., IDEL-Spanish Language Literacy, Korean Language Test, Mandarin Language Test) in target languages to monitor student progress and to inform curriculum and instruction. College Readiness - The Advanced Learning Options team continued to support district-wide implementation of the PSAT/NMSQT in October each year for all Grade 10 students as well as Advanced Placement and International Baccalaureate assessments for eligible high school students across the district. New for 2018-19 was the district-wide implementation of in-school SAT administration for all Grade 11 students in March 2019.

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades K-5</p> <p>Support integrating Special Education students into General Education (Grade-Span Support): The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: Identified schools implementing inclusive practices</p> <p>The Division of Special Education (DSE) worked diligently in ensuring wide grade spans (more than two grade levels) were limited across the District. There were instances where lowering the grade span was not feasible due to low student counts but our overall expectations for special day classes on core curriculum was to limit the number of grade levels assigned to teachers. These activities were monitored in our ECAS and Norm Day processes.</p> <p>In addition, LAUSD expanded the number of school sites implementing inclusive practices. The pilot has been in effect since 2014-15</p>	<p>\$6,237,112 - LCFF - 1000-1999 Certificated Salaries \$6,149,979 - LCFF - 2000-2999 Classified Salaries \$9,842,909 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$7,159,552 - LCFF - 1000-1999 Certificated Salaries \$5,980,373 - LCFF - 2000-2999 Classified Salaries \$7,989,124 - LCFF - 3000-3999 Employee Benefits \$570 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.

growing from 32 schools its first year to 50 schools in SY 18-19. While the pilot has been relatively organic in years past, this year the DSE has provided additional oversight and support through a dedicated team called "AEIO" (Access, Equity, Inclusion, Outcome).

The AEIO team focuses on providing professional development in four performance areas: Family partnership, Quality Individualized Education Program (IEP), Staff capacity and Engagement, and Planning for Inclusive Student Experience. In the Fall on 2018, the Division of Special Education conducted a kick-off meeting for school site leaders and their inclusion teams that set the tone and communicated the suggested deliverables. Each of the new schools were assigned support personnel to help them implement the work.

Goal 2, Action 9

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p>English Learner Supports</p> <p>Implementation of the English Learner Master Plan supporting English Learners and Standard English Learners. Services provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive of reclassified fluent English proficient students (RFEPS)</p> <p>-Provide for EL/SEL Instructional Coaches</p> <p>- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.</p> <p>- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum</p> <p>-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p>English Learner Supports</p> <p>The following action steps/services were implemented to support English Learner's English Language Development and academic achievement:</p> <ol style="list-style-type: none"> 1. Implemented adopted Master Plan programs and services under the 2018 Master Plan for ELs and SELs 2. Developed and provided 2018 Master Plan training for teachers, administrators and parents 3. Provided a Master Plan Institute for all EL Designees 4. Promoted the expansion of Two-Way or One-Way Dual Language Education programs 5. Provided professional development on the ELD standards; Designated/Integrated ELD; Dual Language Education; Constructive Conversation Skills (Create, Clarify, Fortify and Negotiate); High Impact Practices (Fostering Academic Interactions, Using Complex Text, Fortifying Complex Output); EL Instruction Approaches (Active Listening, Extended Communications, Oral Summarizing); Academic Conversations and ELPAC Task Types 6. Multi-funded EL Instructional Coaches (149 positions) to support teachers of English learners in planning, implementing, and assessing Integrated and Designated ELD and implementation of adopted High Impact Practices/EL Instructional Approaches. EL instructional coaches engaged teachers of ELs in coaching cycles, modeled, co-taught and provided actionable feedback. <p>Pre-school for All (PAL)/Pre-school collaborative (PSC): This year continued the embedding of Speech & Language Pathology support into</p>	<p>\$13,136,954 - LCFF - 1000-1999 Certificated Salaries \$873,846 - LCFF - 2000-2999 Classified Salaries \$4,950,171 - LCFF - 3000-3999 Employee Benefits \$15,145,650 - LCFF - 4000-4999 Books and Supplies \$144,075 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$12,199,808 - LCFF - 1000-1999 Certificated Salaries \$1,358,092 - LCFF - 2000-2999 Classified Salaries \$4,928,239 - LCFF - 3000-3999 Employee Benefits \$1,183,377 - LCFF - 4000-4999 Books and Supplies \$891,376 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth.

- Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

existing PAL & PSC classes supports early identification and language development for english learners. A significant portion of PAL students are low-income and English learner students needing additional speech and language pathology support to prepare them for general education integration in kindergarten and/or in the early primary years.

Accelerated Academic Literacy funding is now allocated to purchase instructional materials and services and fund professional development for schools and teachers that are implementing Tier II and/or Tier III intervention programs administered by the Division of Instruction.

The Division of Instruction has purchased licenses and services for the Renaissance Star Reading Assessment, a nationally recognized research-based assessment that measures students reading levels, skills, and their mastery of the state English language arts standards. Beginning in 2019-20, middle and high schools (up to 40) that implement the ELA Tier II intervention program will have access to this assessment to use for universal screening and progress monitoring. Middle schools will be able to assess all students (grades 6-8); high schools will be able to assess all grade 9 and 10 students.

In 2018-19, a new Tier II intervention curriculum was implemented in the following high schools: Sotomayor Arts and Sciences Academies, Torres HS-East Los Angeles Performing Arts Magnet, Jordan HS, and Wooden Continuation HS. This intervention program is grounded in a poetry-based program—Get Lit/Words Ignite—and provides students with more targeted instruction on reading skills (literary analysis), academic vocabulary, speaking and listening skills, writing (poetry, expository, and narrative) and social emotional learning skills. Plans are to expand the program in 2019-20 to 15 more schools.

In 2019-20, a new Tier II intervention curriculum will be implemented for 20 middle schools. This program is grounded in the Reading Apprenticeship Framework and will use instructional models that provide multiple opportunities for students to actively collaborate, integrate technology, engage in independent reading, and build their reading, writing, and speaking and listening skills.

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

Goal 2, Action 10

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Instructional Technology Support</u></p> <p>Ensure school-sites receive the support to enhance and utilize technology available at their site as well as provide PD to teachers on utilizing tools to enhance instruction.</p> <p>Allocates information technology resources and support to areas in the District that have deficits in tech support.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>The District Instructional Technology Initiative team (https://achieve.lausd.net/iti) provided the following Models of Support to schools along a continuum to meet learners where they are:</p> <ul style="list-style-type: none"> Instructional Leadership Cohorts: <ul style="list-style-type: none"> Opportunities for learning together as an Instructional Leadership Team. Teacher Leader Network: 	<p>\$2,250,987 - LCFF - 1000-1999 Certificated Salaries \$7,120,262 - LCFF - 2000-2999 Classified Salaries \$5,302,219 - LCFF - 3000-3999 Employee Benefits \$10,280 - LCFF - 4000-4999 Books and Supplies \$0 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$2,096,152 - LCFF - 1000-1999 Certificated Salaries \$7,577,843 - LCFF - 2000-2999 Classified Salaries \$5,241,687 - LCFF - 3000-3999 Employee Benefits \$629,239 - LCFF - 4000-4999 Books and Supplies \$252,716 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

- Semester-long job-embedded individual learning opportunities for instructional technology integration.
- ISTE Student Standards Suite:
 - In-depth hands-on learning sessions to practice and implement rigorous and robust lessons.
- Practioner School Model:
 - Learning together as a school community with the daily support of an Instructional Technology Facilitator
- Digital Citizenship:
 - Opportunities for school communities and educators to become Digital Citizenship Certified.
- Computer Science Education:
 - Expansion of Computer Science Education in grades P-5 with the development of rigorous and relevant courses in middle grade and pathways in grades 9-12.

Direct onsite technical support has been provided to schools to assure computers, tablets, and other classroom related technology is operational for use by students, teachers, and staff in schools. This supports the instructional program as students and teachers access online digital resources, computer based assessments, as well as use a variety of technology for collaboration and student projects.

Goal 2, Action 11

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes.</p> <p>Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.</p> <p>Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index</p> <p><u>Early Language and Literacy Program</u></p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>For the 2018-19 school year, all high school, middle school and sites with grades 4-6 were provided an additional teacher position to assist with class size reduction and offer additional enrichment courses. Specifically, the positions were used to support class size reductions in physical education and/or to assist in the offering of elective courses, and/or courses activities such as AVID, MESA and Leadership.</p> <p><u>Early Language and Literacy Program (ELLP)</u></p> <p>This program was expanded to include 520 elementary schools district-wide with its fourth cohort in 2018-19. Over 2,500 teachers have been trained in elementary schools across the district. On-going professional development and monitoring of implementation was provided by the Division of Instruction and Local Districts. Implementation support was the focus for cohort 3 and 4 schools, and differentiated support was provided to cohort 1 and 2 schools that were trained in the 2015-16 and 2016-17 school years. Professional development concentrated on the use of data from the Dynamic Indicators of Basic Literacy Skills (DIBELS) early literacy assessment and differentiation of instruction to meet the specific instructional needs of students. These assessments are administered three times per year to monitor student progress and</p>	<p>\$12,736,848 - LCFF - 1000-1999 Certificated Salaries \$5,802,364 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$11,427,796 - LCFF - 1000-1999 Certificated Salaries \$5,101,462 - LCFF - 3000-3999 Employee Benefits</p>

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

to inform professional development and teacher instructional planning. This year, the Division of Instruction has increased focus on kindergarteners scoring Above Benchmark on the end-of-year DIBELS assessment because findings show that 90% of kindergarteners who scored at that level maintained Benchmark or above through the end of 3rd grade. Additional information about the Early Language and Literacy Program and more recent data reports may be found on the Division of Instruction Elementary English Language Arts website at: <https://achieve.lausd.net/Page/5223>.

Goal 2, Action 12

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the **LCFF Evaluation Rubrics**, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

For 2018-19, LA Unified implemented the actions for this goal with fidelity. Some highlights of the implementation of these actions include:

- Served over 7,000 foster youth through counselors in the Foster Youth Support Plan
- Implemented adopted programs and services under the 2018 Master Plan for English learners and Standard English learners
- Delivered mandatory professional development for all elementary through high school teachers the programs and instruction described in the Master Plan

- Revised secondary literacy intervention program to include a diagnostic assessment to identify students in grades 6-10 that may need additional Tier II intervention
- Implemented new Tier II literacy intervention curriculum in four high schools focused on targeted instruction on reading skills, academic vocabulary, speaking and listening skills, writing and social emotional learning skills, with plans to expand to 15 more schools in 2019-20
- Expanded dual language programs to 137 across the district including target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic
- Expanded 8 California state part-day preschool programs to full day with plans to add three more in the next year
- Increased the number of schools implementing inclusive practices for students with disabilities to 50 schools in 2018-19
- Provided additional teacher position to assist with class size reduction and offer additional enrichment courses in all middle and high schools and sites with grades 4-6
- Continued implementation of the Arts Equity Index to support programming gaps in high needs schools

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

LA Unified demonstrated incremental student performance growth on the English Language Arts and mathematics Smarter Balanced summative assessments in the 2017-18 school year, with both showing increases in the distance from standard met measure and yellow performance levels for both. The focus on implementing standards-aligned curricula in these content areas as well as continued investments in professional development for early literacy and secondary literacy interventions should continue this positive trend. Schools continue to utilize the Smarter Balanced interim assessment blocks to align the rigor of classroom instruction with the expectations of the state assessments. The DIBELS early literacy assessment continues to be a focus of elementary schools as teachers are trained in the use of those results to inform instructional practices through the Early Language and Literacy plan.

The performance of English learners continue to be a focus of schools as the 21% reclassification rate was a higher rate than the 2017-18 target of 20%. The percentage of English learners who did not reclassify within five years was 17%, meeting the target of 17% for the 2017-18 school year. The Multilingual, Multicultural Education Department continues to implement the English Learner and Standard English Learner Master Plan (accessible at: <https://achieve.lausd.net/Page/14743>) to ensure effective instruction for these students.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

LA Unified received approximately \$12 million through the Low Performing Student Block Grant to address the achievement of students who were not meeting academic achievement standards on the state assessments. The district has developed a plan to provide per pupil allocations to schools with four or more identified students in order to allow them to develop a plan for how to serve these students. A menu of recommended services will be provided to all schools to guide their decisions. Schools with three or fewer identified students will receive support from their Local Districts to utilize data from interim assessments to improve interventions and supports.

Goal 3

100% ATTENDANCE

State and/or Local Priorities Addressed by this goal:

State Priorities: 5. Pupil engagement
Local Priorities:

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified continues to implement a variety of actions to strive for 100% attendance across schools. The district has developed data dashboards for school and Local District leaders to monitor student attendance throughout the year, and school and district investments have been made to support programs that recognize students for positive attendance outcomes and to support students and families that have data that indicate challenges with attendance. The comprehensive array of physical, social emotional and mental health service supports and resources continue to be provided to address the needs of the district's most vulnerable low income and foster youth. About 24,700 immunizations and 75,384 medications have been administered by staff, and staff enrolled 2,917 students and family members in no-cost health insurance plans. Wellness Clinics serve as school-based hubs for clinical mental health services, and at mid-year about 1,947 students had received services and 21,704 counseling hours were provided at these Clinics.

The Homeless Youth Program supported PSA counselors in providing training to over 2,000 designated school stie homeless liaisons this year. The LA Unified School Enrollment Placement and Assessment (SEPA) Center provides support to all families and to newly arriving families to assist with the school enrollment process, access to medical and mental health services, housing, linkages to legal services, and other district and community resources. LA Unified also implemented a "We Are One" campaign to support undocumented students and families.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

For 2017-18, the overall district performance on the metrics for this goal were positive. With 66.9% of students attending school 96% or more (172-180 school days), a measure of positive attendance that the district monitors and provides school leaders with data dashboards to track throughout the school year. The district performance on chronic absenteeism rates was orange on the state dashboard, with 10.3% of students in grades K-8 chronically absent which was similar to the rate in 2016-17. Staff attendance rates, another measure of school climate, was 78.0% for staff attending 96% or above, meeting the target for the 2017-18 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Goal 4

PARENT, COMMUNITY AND STUDENT ENGAGEMENT

State and/or Local Priorities Addressed by this goal:

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Annual Measurable Outcomes

Expected	Actual
Percentage of Students Who Feel a 2018-19 Part of Their School (Question on School Experience Survey) All Students 89%	All Students 68.0%
Parent/Caregiver Participation on 2018-19 School Experience Survey All Parents 64%	All Parents 46.0%
Percentage of Schools Training 2018-19 Parents on Academic Initiatives by Providing a Minimum of Four Workshops Annually All Schools 98%	All Schools 76.4%
Percentage of Parents Who State: 2018-19 My school provides resources to help me support my child's education. All Parents 95%	All Parents 90.0%

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Goal 4, Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
For Actions/Services included as contributing to meeting Increased or Improved Services Requirement Students to be Served: English Learners, Foster Youth, Low Income Scope of Service: LEA-wide Location: All Schools Targeted Parental Involvement Provide parent training, learning opportunities and workshops: Supporting Common Core State Standards reinforcement at home, EL reclassification and progress monitoring, graduation requirements and college-readiness, importance of school experience survey, and social-emotional support. 10% of Common Core State Standards funds are provided for parent involvement in the implementation of the Common Core State Standards. Provide more resources to support parent engagement at the local level: Increase parental engagement, training, and workshops across the district. Resources are distributed to school-sites through a prioritization methodology utilizing	For Actions/Services included as contributing to meeting Increased or Improved Services Requirement Students to be Served: English Learners, Foster Youth, Low Income Scope of Service: LEA-wide Location: All Schools The Office of Parent and Community Services (PCS) partnered with the Local District Parent and Community Engagement (PACE) units to provide parent engagement activities to families throughout the District. Multiple parent workshops were offered at various school sites with a focus on sharing Common Core instructional strategies, showing parents how the standards build upon each other as students move from one grade level to the next. Parents were also taught how to apply Common Core Standards in every day activities with their children. In addition, parents learned about college preparedness for students and Linked Learning programs, digital platforms like Power My Learning, and the California Assessment of Student Performance and Progress (CAASPP). Workshops also included the following: Math Practices, Fun with Multiplication, Fun with Fractions, DIBELS, EL Reclassification, A-G Graduation Requirements, and the Importance of the School Experience Survey. Parents also received training on supporting English Learners and Standard English Learners through sessions on the 2018 EL and SEL Master Plan. The Local	\$517,496 - LCFF - 1000-1999 Certificated Salaries \$2,199,755 - LCFF - 2000-2999 Classified Salaries \$529,457 - LCFF - 3000-3999 Employee Benefits \$4,378,212 - LCFF - 4000-4999 Books and Supplies \$290,176 - LCFF - 5000-5999 Services and Other Operating Expenses	\$533,071 - LCFF - 1000-1999 Certificated Salaries \$2,038,714 - LCFF - 2000-2999 Classified Salaries \$426,821 - LCFF - 3000-3999 Employee Benefits \$992,199 - LCFF - 4000-4999 Books and Supplies \$268,422 - LCFF - 5000-5999 Services and Other Operating Expenses

the District's school equity index	District Parent and Community Engagement (PACE) units collaborated with the Local District Math, English Language Arts, English Learner and Next Generation Science Standards Coordinators to present workshops at monthly Parent and Family Center Staff meetings at various school sites. Parents and school Parent and Family Center Staff were trained on the Parent Portal and Schoology to monitor their children's achievement, leading to a better understanding of students' progress through the A-G requirements.

Goal 4, Action 2

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Parental Involvement</u></p> <p>Provide parent training, learning opportunities and workshops:</p> <p>Central staffing at the Parent, Community and Student Services. Provide materials and training to Parent and Family Center Staff to support parents of special needs and other subgroups of students.</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>The Office of Parent and Community Services (PCS) provided guidance and training monthly to the Local District Parent and Community Engagement (PACE) units. The Local District PACE Units provided materials and training to Parent and Family Center Staff to engage parents of students with special needs and other student groups. In addition, PCS provided instructional materials and training to certificated staff who support Parent and Family Center Staff in order for the parent centers to be inclusive of all families, particularly families of students with special needs and English learners and Standard English learner students. PCS provided mandatory training schools that participated in the Parent and Family Center Improvement Program. The parent center staff received training on using bilingual reading materials with parents, strategies for developing parent leadership through conversation, parenting resources, and materials to support a college-going culture. Additionally, participating schools were provided with instructional materials for preschool aged children who can be engaged in instructional activities while family members participate in workshops in the Parent and Family Center.</p> <p>PCS and the Local District PACE teams hosted Local District study groups to engage and support parents. The English Learner Advisory Committee (ELAC) Study Group, Local Control and Accountability Plan (LCAP) Study Group and the Title I Study Group were offered quarterly and/or monthly throughout the Local Districts. The ELAC Study Groups focused on supporting the parents of English learners. The LCAP Study Groups focused on seeking input from parents regarding the six LCAP goals. The Title I Study Groups provided parents with training on state, federal and local parent engagement strategies and opportunities to provide input on the Title I mandates. In addition, the Local District PACE units offered Modified Consent Decree Parent Training Sessions at the Local Districts and provided parents of students with special needs with academic and social-emotional support workshops at their school sites. The PACE units led Parent Portal training sessions so parents of students with special needs could access their students' Individualized Education Plans online.</p>	<p>\$40,488 - LCFF - 1000-1999 Certificated Salaries \$71,774 - LCFF - 2000-2999 Classified Salaries \$57,315 - LCFF - 3000-3999 Employee Benefits \$21,070 - LCFF - 4000-4999 Books and Supplies \$12,034 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified values the partnership with parents, community and students and continues to engage these stakeholders in supporting the success of students. For the 2018-19 school year, all schools were required to facilitate four Local Control and Accountability Plan parent workshops and five English Learner Advisory Committee parent workshops. The LCAP workshops addressed graduation requirements (A-G course requirements), attendance best practices, and two instructional workshops that schools could select from a menu on the Parent and Community Services website that included math practices, English Learner Development standards, high frequency words, language development, reading comprehension, supporting home learning for all students, the English Learner Master Plan, and the DIBELS early literacy assessment for grades K-2, college and career readiness in elementary/middle schools, and social-emotional learning and behavior. The ELAC parent workshops included the Master Plan, attendance best practices, comprehensive needs assessment, the single plan for student achievement, and the language census.

This year, the district also engaged Local Districts in convening 41 stakeholder study groups that facilitated parents and community members in reviewing the district Local Control and Accountability Plan and providing feedback to support revisions and development of the 2019-20 LCAP. Two additional meetings were held with community-based organizations in May to capture input from the community on the priorities of the LCAP and the District's goals. Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were also held from January to June to provide comments to and receive responses from the Superintendent on the LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

2017-18 results district-wide on parent, community and student engagement metrics showed a continuing need for improvements in parent engagement. The percentage of parents who stated "my school provides resources to help me support my child's education" was 90.0% in 2017-18, just below the target of 93%. For 2018-19, the School Experience Survey had 83% of high school parents, 85% of middle school parents, and 89% of elementary school parents agreed. Parent response rates on the School Experience Survey were 39% for high schools, 46% for middle schools, and 53% for elementary schools. While only 68.0% of students felt a part of their school on the School Experience Survey in 2017-18, the 2018-19 results show improvements with 81% of elementary students, 68% of middle school students, and 61% of high school students agreeing with that statement. The district continues to provide greater flexibility and supports for schools to achieve the target of having parents trained on academic initiatives with a minimum of four workshops annually.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

The funding for Goal 4 Action 1 Targeted Parental Involvement has been reallocated to Goal 1 Action 5 School Autonomy under the Student Equity Needs Index to allow for greater flexibility for schools to utilize these supplemental and concentration funds to support school site needs. The metrics for this goal have not changed.

Goal 5

ENSURE SCHOOL SAFETY

State and/or Local Priorities Addressed by this goal:

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Restorative Justice Unit continued the training plan that began in 2014-15 and will lead to district-wide full implementation of Restorative Justice in schools by 2020. Since 2014-15, 783 schools have been trained in Restorative Justice community building circles, empathy and team building, defusing disruptive behavior and repairing the harm and re-entry circles. During the 2018-19 school year, 162 cohort 4 schools were trained in Tier II and II practices as well as repairing the harm and re-entry circles. During this year, 142 cohort 5 were trained in Tier I practices including community building circles, empathy and team building and defusing disruptive behavior. The 65 Restorative Justice teacher advisors supported schools directly in implementation of these practices to improve the culture and climate in classrooms. Six Local District Restorative Justice advisers provided professional development and support to school staff and leaders. Additional information about the Restorative Justice Unit may be found at: <https://achieve.lausd.net/restorativejustice>.

The Los Angeles School Police Department (LASPD) assisted students, teachers, administrators and the community in providing a safe environment for learning in schools. Officers were assigned to school campuses and patrolled the surrounding areas, and School Safety Officers were also assigned to school campuses and parking enforcement. The LASPD shares jurisdiction and interacted with over 13 municipal and county law enforcement and emergency services agencies during the school year. Campus officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in student mentoring programs, partake in study sessions with at-risk students, participate in anti-gang lecture/seminars, and ensure for the safety of students. Furthermore, the LASPD has a robust youth services component that includes the Police Explorers and Police Academy Magnet Schools (PAMS). Officers receive training on Restorative Justice, Behavior Safety Emergency Training (B-SET) and Implicit Bias. Officers interact with students on a daily basis during arrival and dismissal, nutrition and lunch as well as the numerous special events with Anger Management Program for Students (AMPS) and Ready and Able for Middle School (RAMS). Additional information about the LASPD may be found at: <https://achieve.lausd.net/laspd>.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

District-wide performance on the metrics for School Safety showed that the district is meeting or nearly meeting most targets. The single student suspension rate (in and out of school) was 0.47% in 2017-18, and the target for 2018-19 is 0.4%. Instructional days lost to suspension remains low at 4,636 for 2017-18, well below the target of 5,667 for that year. The percentage of students who feel safe at school was 84% in 2017-18, and target for 2017-18 was 80%. For the 2018-19 School Experience survey:

- 90% of high school students felt safe on school grounds during the school day
- 91% of middle school students felt safe on school grounds during the school day
- 92% of elementary school students felt safe on school grounds during the school day

These results may be contrasted with the extent to which students felt safe in the neighborhood around their schools, which ranged from 77% to 79% for students in the same schools. Within schools, the total number of referrals for 2017-18 was 62,878 compared to 56,196 in 2018-19 as of June 1. The expulsion rate remains low at 0.02% in 2017-18 compared to the target of 0.01% in 2017-18 and 2018-19.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees. For Goal 5 Action 2, expenditures exceeding the budgeted amounts for school police funding represent changes in salaries, benefits and additional overtime hours for staff. Events and community occurrences throughout the year dictated an additional need for school police presence around school sites.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Goal 6

BASIC SERVICES

State and/or Local Priorities Addressed by this goal:

State Priorities: 1. Basic
Local Priorities:

Annual Measurable Outcomes

Expected	Actual
Percentage of Teachers that are Appropriately Credentialed for the Students They are Assigned to Teach 2018-19 All Teachers 100%	All Teachers 99.3%
Percentage of Early Education Center and Pre-K through 12 Classroom Teachers who have a final Educator Development and 2018-19 All Teachers 25%	All Teachers 31%

Support: Teacher (EDST) performance evaluation by the end of the school year		
Percentage of Schools Providing Students with Standards-Based Instructional Materials by Meeting Williams Act Requirements	2018-19 All Schools 100%	All Schools 100%
Percentage of Facilities that are in Good Repair	2018-19 All Facilities 100%	All Facilities 100%
Percentage of children whose eligibility for special education services were determined within 60 days of guidelines	2018-19 88%	99.96%
Students with disabilities receive services specified in their Individualized Education Programs (IEPs)	2018-19 90%	92.5%

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Goal 6, Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>School Personnel</u></p> <p>Implementation and delivery of services for students. The identification, recruitment, placement, and training of employees to carry out the work of the District. This includes both the staffing and the methods for staffing and selection. Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

Building on the plan from last year, M&O utilized newly created teams to provide additional support at LCAP schools. The Tiger Teams, comprised primarily of custodians, provided additional cleaning and other services over the weekend. Strike Teams, which include various craftworkers, performed repair and renovation projects. This past year, the Tiger Teams visited approximately 650 LCAP school sites to address areas specifically requested by the principal. Strike Teams performed work at approximately 200 LCAP schools. They can work several days and up to two weeks, depending on the school size and type, to address outstanding service calls and other needed repairs.

This coming school year, M&O will be expanding the Strike Teams to 42 community complexes with dedicated journeymen and gardeners assigned to each complex. The team will be managed by a Complex Project Manager and journeymen and gardeners will be supervised by a Maintenance Supervisor. CPM will be working closely with site administrators to ensure repairs are prioritized and campuses are well maintained.

Goal 6, Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Expanded Access to Meals</u></p> <ul style="list-style-type: none"> Expansion of the breakfast in the classroom program Supper offerings 	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>The District served Breakfast in the Classroom at 96% of our schools which provided the opportunity for every student at the sites to eat breakfast at no charge. At the other sites the District served breakfast before the bell or at nutrition break in coordination with the school schedules. School administration and teacher support for the programs has been critical for the program to be in compliance.</p> <p>Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge, however to be in compliance, no meals can be taken off campus. Beyond the Bell staff works in coordination with Food Services to monitor the program and school administrator support will help encourage more students to participate and keep the program in compliance. With over 18,500 students in a homeless situation, 23,500 foster kids and more than 79% of students qualifying for free/reduced meals, many students face food insecurity and encouraging them to participate in the program available to them continues to be a goal of the district.</p>	<p>\$1,600,000 - LCFF - 4000-4999 Books and Supplies</p>	<p>\$1,647,148 - LCFF - 4000-4999 Books and Supplies \$292,091 - LCFF - 1000-1999 Certificated Salaries \$47,786 - LCFF - 2000-2999 Classified Salaries \$45,871 - LCFF - 3000-3999 Employee Benefits \$59,950 - LCFF - 5000-5999 Services and Other Operating Expenses \$5,200 - LCFF - 6000-6999 Capital Outlay</p>

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the **LCFF Evaluation Rubrics**, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All actions for this goal were implemented as described. The Human Resources division continues to increase the diversity of the teaching staff district-wide to reflect the diversity of the students served in schools. The 2018-19 new hire LA Unified teacher cohort includes 46% Hispanic/Latinx, 11% Asian, 9% Black, 3% Filipino compared to the LA County teacher demographics of 32% Hispanic/Latinx, 8% Asian, 8% Black, 2% Filipino. In addition, approximately 31% of teachers were evaluated by a school leader by the end of the 2018-19 school year.

LA Unified continues to provide additional maintenance and operations support to schools, with Tiger Teams comprised primarily of custodians providing additional cleaning and other services over the weekend at approximately 650 sites. Strike Teams, which include various craftworkers, performed repair and renovation projects at approximately 200 schools.

Breakfast in the Classroom was served at 96% of schools, providing an opportunity for every student at sites to eat breakfast at no charge. Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All targets were met or nearly met consistent with the statutory requirements that govern teacher assignments, instructional material availability and facilities conditions. The Human Resources Division continues to strive for 100% of teachers are appropriately credentialed for the students they are assigned to teach, with 99.3% in 2017-18. For the District's support for students with disabilities, the percentage of children whose eligibility for special education services were determined within the 60 days in the guidelines was 99.96%, far exceeding the targeted 89% of 2019-20. In addition, 92.5% of students with disabilities received services as specified in their Individualized Education Plans (IEPs) compared to the 2018-19 target of 90%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. For Goal 6 Action 3, budgeted amounts versus expenditures identified vary due to the volatility of operational costs, such as utility usage and rates, telecom and fleet maintenance, etc.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal or actions.

Stakeholder Engagement

LCAP Year: **2019-20**

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LA Unified utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District. Special priority was made to meet a broader base of parents of the targeted student populations served through the LCAP, and to provide these parents with a deeper understanding of the plan. The District made a conscious effort to expand the timeline of engagement in the prior school year in order to better utilize parent feedback in the development of the LCAP.

The District's engagement efforts began in October, with District staff collaborating to present the expenditures, actions and services. A total of 41 meetings were held from October through February by the District with a focus on capturing feedback for the development of the LCAP. Two additional meetings were held with community based organizations in May to capture input from the community on the priorities of the LCAP and the District's goals. For the 2018-19 LCAP, the School Experience Survey results informed school perceptions and needs for students, parents and staff.

At these engagement sessions, stakeholders were also asked to provide strategies that would strengthen the plan and will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth. Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were held from January to June.

District personnel provided updates on a number of programs highlighted by the LA Unified's LCAP at the advisory committee meetings. In particular, they focused on key programs funded by new and ongoing investments made in 2018-19 and, in some cases, provided progress updates on targets and strategies established in the 2017-18 LCAP. In addition, the District's parent committees were able to review year-end data from 2015-16 and any available current year data. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources: <http://lcff.lausd.net> and <http://Achieve.lausd.net/budget>

Permissible within the CA Education Code, the LAUSD DELAC is serving in place of the English Learner Parent Advisory Committee (ELPAC). The DELAC is comprised of 48 school English Learner Advisory Committee Chairpersons who are elected from their peers. They serve on staggered two-year terms.

The PAC continued in its fifth year with elected governing officers. In 2018, members on the PAC were elected from each of the six LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Two guardians representing Foster Youth were also elected from each region across the District. The parents of English Learner, Foster Youth, Low-Income students and the parents At-Large elected their representatives, respectively. In addition to these groups of parents, seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 55 members of the PAC serving on staggered two-year terms.

The Superintendent provided written responses to the both the PAC and DELAC comments that were developed throughout the 2018-19 school year and submitted to the Superintendent in May of 2019. Responses were reviewed by each committee.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

The 41 Local District LCAP study groups offered the opportunity for parents and community members to engage in deeper dives into the actual LCAP goals and actions and to provide feedback. Themes from the feedback from these study groups included:

- Continued focus on college and career readiness for all students
- Requests for additional focus on struggling students and closing achievement gaps for low performing student groups
- Recommendations to continue implementation of the English Learner Mastery Plan to improve reclassification rates and English learner performance
- Increase engagement of parents as partners through trainings on topics most relevant to student needs (e.g., technology training)
- Improve services and supports for students with disabilities to ensure their success

The Parent Advisory Committee and District English Learner Advisory Committee comments to the Superintendent had some of the same themes in common with the Local District study groups. The comments spanned all six district LCAP goals. Some of the highlights of these comments included:

- Requests for increasing college readiness supports for middle and high school students, particularly around the use of Naviance and supports for PSAT and SAT preparation
- Recommendations to increase social-emotional learning supports district-wide
- Concern for the performance of special education students and the systems implemented for their success
- Increase the number of counselors in schools to support college and career readiness as well as reduce chronic absenteeism
- Recommendations to continue restorative justice program and supports for effective school implementation
- Support for continued school safety supports and recommendations for building positive relationships between school police and school communities
- Recommendations to have the district monitor and evaluate the effectiveness of programs implemented in the LCAP

The comments above were also echoed by the community organizations in the two meetings held with representatives from those groups. Additional recommendations from the community organizations included:

- Continue funding and implementation of Foster Youth Achievement program
- Provide evaluations on the progress of implementation and effectiveness of district programs
- Continue funding Student Equity Needs Index and seek ways to minimize the impact of changes in school allocations
- Ensure adequate investments for targeted student populations are monitored and transparent

The priorities identified in the recommendations above are included in the District's budget. Investments for English learners, foster youth and low income students are identified in subsequent pages of this document. The LCFF investment priorities reflect this feedback as well as the data analysis of District teams in order to align with target outcomes.

Goals, Actions, & Services

Modified Action

Programs & Interventions

Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery

The Options Program has been integrated into this action in recognition that options schools serve students through the district's multi-tiered systems of support at a Tier 3 level.

into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;
- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,
- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,

- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.

- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.

- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

School Autonomy

Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index. Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

For 2019-20, the funding provided through the student equity needs index has been modified to allow for greater budget flexibility for school sites to support unduplicated students. Whereas past resources were provided to schools in the form of positions, schools now have the budget flexibility to reallocate funds for positions to other positions and/or resources that the school deems necessary. The student equity needs index prioritizes schools based on various community and school indicators. Stakeholder groups were engaged through fall 2019 to provide input on those indicators and the distribution of funding. For the 2019-20 school year, all schools were held harmless with regards to the student equity needs index funding, meaning that no schools received less funding than the 2018-19 school year. Examples of funding use at schools sites include:

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

- o Elective Teacher Positions
- o Professional Development X-Time and Professional Services
- o Tutoring supports
- o Librarian and Library Aide
- o A-G supports, i.e. credit recovery programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

The majority of this funding has been moved to Goal 1 Action 1 Programs & Interventions in recognition that options schools are a Tier 3 intervention within the district's multi-tiered systems of support for high school students. The remaining funds are intended for options schools to support their targeted student populations with personalized learning strategies.

A-G Diploma Program

The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies.

This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.

The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.

- Tier 2 reflects a student who is 3-4 classes off-track
- Tier 3 reflects a student who is 5 or more classes off-track

Planned Actions / Services

Complete a copy of the following table for each of the LEA's Actions/Services. Duplicate the table, including Budgeted Expenditures, as needed.

Goal 2, Action 1

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Foster Youth, Low Income

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

LEA-wide

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

All Schools

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Foster Youth Support Plan and Family Source Centers

Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (i.e., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Augmentations will be made to support services personnel, including pupil services & attendance counselors, psychiatric social workers and pupil services & attendance counselor aides supporting foster youth to provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (e.g., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability
- Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure and identify baseline data necessary to minimize foster youth transfer rate

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors will conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LA Unified support services and other community agencies. PSA Counselors will provide parent engagement through classes and outreach to schools and community agencies. FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc. FSPP coordinates with the DCFS to offer linkages to support services for Voluntary Family Maintenance youth and families.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

Transitional Kindergarten Expansion Plan**Early Childhood Education**

- CAL-Safe
- Early Childhood Development Program

Transitional Kindergarten Expansion Plan

- provide quality preschool seats for low income children who turn 5 after December 2
- lower the dropout rate and increase high school graduation rates by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task
- improve student success in A-G requirements by setting a strong language and literacy foundation for our youngest students

The TK Expansion program is a full day, 180 school day program following the same time schedule as other elementary classrooms. The program is a transitional kindergarten program that prepares children for Kindergarten. Kindergarten skills and benchmarks are inappropriate measures in this program. Only students who qualify for the Free/ Reduced Meal program are eligible to enroll in the program.

Support integrating Special Education students into General Education (Grade-Span Support): The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying

the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.

English Learner Supports

Implementation of the English Learner Master Plan supporting English Learners and Standard English Learners. Services provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers,

English Learner Supports

Implementation of the English Learner Master Plan supporting English Learners and Standard English Learners. Services provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive

inclusive of reclassified fluent English proficient students (RFEPS)

-Provide for EL/SEL Instructional Coaches

-Accelerated Academic Literacy Program
- A literacy intervention course with an additional language development component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

These funds for elective teachers are now incorporated in the Student Equity Needs Index funding in Goal 1 Action 5 School Autonomy.

activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

Homeless Youth ProgramSchool Mental Health Support for Homeless Students at *9th St. ES located in Skid Row*:

1 PSW – Requested to support 9th Street school because of high numbers of mental health issues and traumatic events (school is located in skid row, and has a high concentration of homeless students)

Pupil Services, Homeless Education Program:

10 B basis PSA Counselors and 6 PSA Aides to provide support in each of the local districts to serve as district liaisons for homeless students and families as required by law. Support proper identification of homeless students in compliance with the McKinney Vento Act. Provide services and supports to identified students to ensure timely enrollment, advocate for school stability, and provide supplemental services and resources as needed.

District-wide Student Engagement Plan

Support the implementation of a district-wide expansion of best practices and training to develop strong student leadership and voice in the District. - Create multiple pathways and opportunities for student engagement, leadership development, and purposeful collaboration.

- Develop a Student Leadership, Engagement and Empowerment Plan to be included in the Single Plan for Student Achievement

- Ensure that student leaders participate and engage in District-wide student engagement efforts

- Create a process that allows all students to review and comment on the implementation of school plans, budgets and programs and develop a process that allows students to review and provide input on Local and Central District initiatives, programs, policies, budgets and goals.

- Provide student leadership training and learning opportunities through participation in workshops, conferences, advisory councils, committees and focus groups.

- Provide opportunities for elementary, middle and high school leadership advisors to collaborate, share best practices and develop a leadership curriculum to support student leadership and engagement.

- School, Enrollment, Assessment and Placement Center (SEPA) support resources

Targeted Parental Involvement

Provide parent training, learning opportunities and workshops:

Supporting Common Core State Standards reinforcement at home, EL reclassification and progress monitoring, graduation requirements and college-readiness, importance of school experience survey, and social-emotional support. 10% of Common Core State Standards funds are provided for parent involvement in the implementation of the Common Core State Standards.

Provide more resources to support parent engagement at the local level: Increase parental engagement, training, and workshops across the district.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

These funds have been moved to Goal 1 Action 5 School Autonomy in order to allow for school sites to have budget flexibility on how best to increase parent engagement in their schools.

School Climate and Restorative Justice Program

Promote School Climate and Student Engagement at campuses of highest need, based on unduplicated student concentrations.

And effort to develop and maintain:

- Holistic, safe and healthy school environments
- Effective positive behavior support and interventions
- Commitment to a District-wide culture of positive and humanistic approach to working with students, staff and parents.

Funds are prioritized utilizing the District's equity index and through the identification of sites with high incidences of conflict and suspensions. The index is described in Section 3a.

Restorative Justice counselors and teacher advisors will be provided to school sites for purposes of building positive practices and school culture to address student behavior and conflict.

The majority of these funds have been moved to be included in the Student Equity Needs Index in Goal 1 Action 5 School Autonomy to allow schools to be able to make decisions on how to reduce suspensions and discipline issues within their schools.

<p><u>On-going Major Maintenance</u></p> <p>Targeted maintenance to school sites with greatest need.</p> <p>Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.</p>

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and Concentration Grant Funds:

\$1,137,221,279

Percentage to Increase or Improve Services:

32.35%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2019-20, LA Unified will budget **\$1.18 billion** in supplemental and concentration funds for continued support and increased services for low income, English learners and foster youth. The District is committed to closing the achievement gaps that currently exist for these students. District-wide goals and targets guide the LCAP to strategically align resources and initiatives to support the success of targeted student populations. In addition, the input from the multiple stakeholder groups including the

Parent Advisory Committee and the District English Learner Advisory Committee has been used to inform the decisions on initiatives and expenditures for the upcoming school year. The District targets provide guidance to schools as they plan their programs and calibrate the work of the central office and Local Districts to monitor and support school progress during the school year.

To ensure that all students are prepared for success in college, career and life, LA Unified has focused on offering a cohesive delivery of services that is aligned with multi-tiered systems of support (MTSS). Schools have received professional development on implementation of MTSS, and the Central Office and Local Districts have been supporting the identification of diagnostics and the development of interventions. By placing students at the center of the work ahead, District initiatives will focus on empowering principals, supporting teachers and engaging families and communities in the coming year by:

- Reducing class size
- Adding counselors, nurses, librarians and support staff to work with teachers
- Developing personalized pathways for all students
- Improving services for students with disabilities
- Increasing funding targeted toward high-needs students
- Aligning Local District supports to communities of schools
- Reducing operational demands on principals so they can focus on instruction
- Building the capacity of school leaders
- Increasing budget flexibilities
- Providing more complete information to families and organizations about each school
- Developing opportunities for direct family engagement in Local Districts
- Delivering more wraparound services through the "All In for Public Education" campaign

Brief descriptions of the Actions aligned with services for unduplicated pupils are described below:

- Goal 1 Action 3 Adult and Career Education for Targeted Youth - This program offers opportunities for students to enroll in A-G approved courses to return on-track for graduation during the school year and during winter recess, spring recess and on Saturdays.
- Goal 1 Action 5 School Autonomy - The Student Equity Needs Index distributes funding based on a formula that includes indicators of student and community need. Schools have autonomy to develop a plan to utilize these funds to support district goals. Examples of expenditures for schools include nurses, counselors, class size reduction teachers, and additional professional development.
- Goal 1 Action 6 Options Program - The personalized learning funding to Options schools provide the opportunity for schools to increase student on-track graduation rates by offering credit recovery, tutoring after school and on weekends, improved access to technology, and additional social-emotional learning supports.
- Goal 1 Action 7 Realigned After-School Program - The District sought to bring greater cohesiveness between the after-school program and regular school day efforts by implementing social-emotional learning programs, increasing training for staff on the needs of foster youth, English learners and students with disabilities, and offering summer term credit recovery and extended learning opportunities for the summer.
- Goal 1 Action 8 A-G Diploma Program - Diploma Counselors were provided to schools to support Tier II and III students who are identified as being at-risk of not graduating. These counselors provided personalized supports to students by meeting with individual students, collaborating with academic counselors, and monitoring student progress.
- Goal 1 Action 9 A-G Immediate Intervention Plan - Local Districts were allocated funds and developed plans to improve graduation rates and A-G course completion. The Division of Instruction supported Local Districts and schools by providing a variety of resources for credit recovery and college readiness.
- Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers - This Action provides counselors to support the over 7,000 foster youth across the district with academic support, case management, access to tutoring, and advocacy for student educational rights and school stability. The FamilySource Partnership Program supports students and families with referrals and linkages to support services and community agencies.
- Goal 2 Action 6 Early Childhood Education/Transitional Kindergarten Expansion Plan - The expansion of early childhood programs from part-day to full-day programs as well as the increase in number of Expanded Transitional Kindergarten (ETK) programs are designed to support low income students with high quality early foundational education in order to place students on the track toward early literacy and academic success.
- Goal 2 Action 8 Support Integrating Students with Disabilities into General Education - The Division of Special Education will continue to support the transition of schools sites to more inclusive practices and having students with disabilities incorporated into general education classrooms. The Access, Equity, Inclusion, Outcome (AEIO) team in the Division of Special Education will continue to develop resources and supports for these schools.
- Goal 2 Action 9 English Learner Supports - The funding of English learner instructional coaches across schools with high percentages of English learners will continue supporting the district-wide implementation of the English Learner/Standard English Learner Master Plan. The Division of Instruction will also continue the roll-out of MTSS secondary literacy resources such as the diagnostic assessment and Tier II and III curricula.
- Goal 2 Action 10 Instructional Technology Support - The Instructional Technology Initiative team will continue to provide models of support to schools serving high numbers of low income students in order to increase one-to-one technology access for students. Supports for direct onsite technical support will continue to be provided to ensure that the instructional program at schools is unimpeded.
- Goal 2 Action 11 Targeted Instructional Support/Early Language and Literacy Program - The funds for class size reduction teachers are moved to Goal 1 Action 5 School Autonomy.
- Goal 2 Action 12 Arts Program - The Arts Education Branch will continue to implement a targeted Arts program that utilizes the District's Arts Equity Index to provide additional resources to schools with high populations of low income students.
- Goal 3 Action 2 Targeted Supports to Increase Student Engagement at Campuses of Highest Need - The District will continue to fund additional Pupil Services & Attendance (PSA) counselors, psychiatric social works and student health and human services support personnel to support schools with high percentages of low income, English learners and foster youth.
- Goal 3 Action 3 Homeless Youth Program - This program will continue to fund PSA counselors and resources for students identified as homeless in order to ensure timely enrollment, advocacy for school stability, and academic and personal resources and community-based referrals.
- Goal 3 Action 4 District-wide Student Engagement Plan - School Enrollment, Placement and Assessment Centers (SEPA's) provide supports to all families, particularly newly arriving families, to assist with the school enrollment process, access to medical and mental health services and referrals, housing, and linkages to legal services and other district and community resources.
- Goal 5 Action 1 School Climate and Restorative Justice - Restorative Justice implementation district-wide will be entering its final year indicating full implementation of these practices across the district. Continued professional development with schools and funding of support staff will ensure sustainability of these practices in reducing suspensions and expulsions of students.
- Goal 6 Action 4 On-going Major Maintenance - Strike Teams, consisting of various craftworkers, will be expanded to 42 community complexes with dedicated journeymen and gardeners to perform repair and renovation projects based on prioritized needs.
- Goal 6 Action 5 Expanded Access to Meals - The district will continue serving Breakfast in the Classroom at schools, as well as hot and cold supper, to ensure access to healthy meals for low income and homeless youth who may face food insecurity.

LCAP Year: **2018-19**

Estimated Supplemental and Concentration Grant Funds:

\$1,164,261,199

Percentage to Increase or Improve Services:

32.60%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds
([see instructions](#)).

For FY 2018-19, the LAUSD will budget \$1.16 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. These funds represent a concerted effort to continue and realign current expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to expand early learning interventions and supports for our youngest learners, refocus our secondary ELA interventions, and drive innovation in our neediest schools. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Accelerated Academic Literacy (Goal#2, Action #9):** The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
- The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Libraries/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In

addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.

- **Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
- **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
- **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post- secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **School Innovation Fund Program (Goal #1, Action #10):** Invest in the highest need secondary schools in LAUSD which have comprehensive need to support foster youth, homeless youth, math outcomes and school climate outcomes. The resources at these schools are guided by a clear expectation that schools define their root causes, develop and assess school-based strategies, and collaborate with a student support team focused on addressing the mental health, life and academic needs of students. The coherence-making model is focused on developing a sustainable practice on ongoing inquiry and improvement lead by the school leadership team and supported by District staff.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated pupils**.

- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)** Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)** Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)** Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities for academic enrichment in this area of study.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)** Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. 85% of our students qualify as an LCFF unduplicated pupil. Building parent capacity district-wide is essential to supporting the academic achievement of unduplicated pupils in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #9):** Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621). Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Estimated Supplemental and Concentration Grant Funds:

Percentage to Increase or Improve Services:

\$1,134,420,996

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF. This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Librarians/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1,

Action #5)

- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- **Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post- secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
 - **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
 - **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated pupils**.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth

in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.

- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)** Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)** Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)** Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)** Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621). Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Expenditure Summary

Expenditures by Budget Category

Budget Category	2018 Annual Update Budgeted	2018 Annual Update Estimated Actual	2019
All Budget Categories	\$5,364,950,681	\$5,246,528,081	\$5,302,958,459
1000-1999 Certificated Salaries	2,105,587,978	2,363,885,184	2,157,718,410

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Los Angeles Unified School District

CDS Code: 19 64733

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: 333 S. Beaudry Ave., Los Angeles, CA 90017, www.lausd.net, (213) 241-1000

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

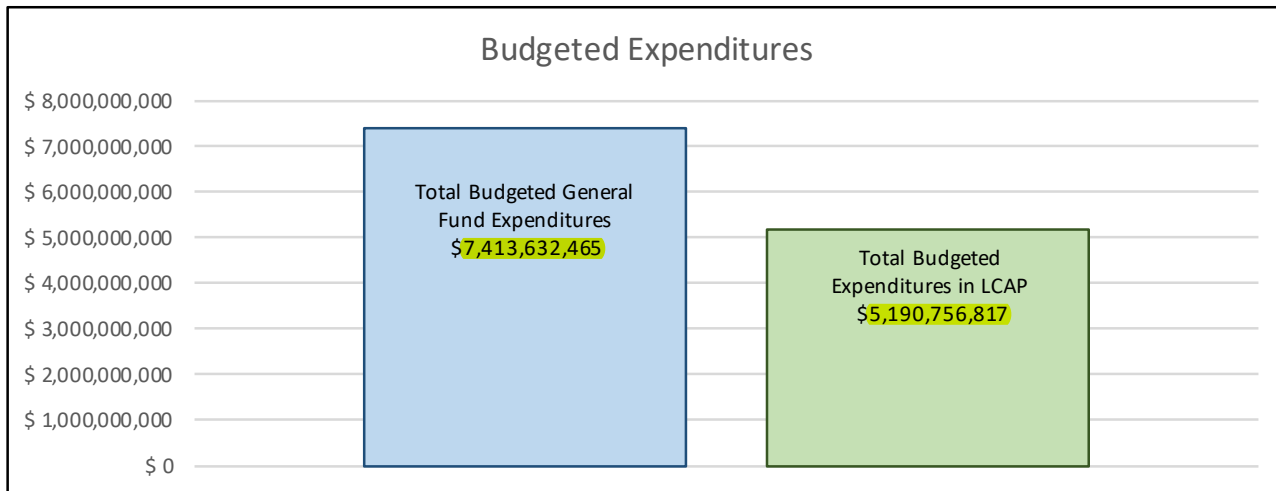

This chart shows the total general purpose revenue Los Angeles Unified School District expects to receive in the coming year from all sources.

The total revenue projected for Los Angeles Unified School District is \$6,974,367,632.00, of which \$5,190,756,817.00 is Local Control Funding Formula (LCFF), \$873,459,191.00 is other state funds, \$142,358,623.00 is local funds, and \$767,793,001.00 is federal funds. Of the \$5,190,756,817.00 in LCFF Funds, \$1,137,257,754.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

LCFF Budget Overview for Parents

This chart provides a quick summary of how much Los Angeles Unified School District plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Los Angeles Unified School District plans to spend \$7,413,632,464.88 for the 2019-20 school year. Of that amount, \$5,190,756,817.00 is tied to actions/services in the LCAP and \$2,222,875,647.88 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

LA Unified has a structural deficit which is a result of on-going expenditures exceeding on-going revenues. The 2019-20 budget incorporates the 2018-19 unassigned ending balance reserve. Differences between this budget overview and the district Standardized Account Code Structure (SACS) district report are due to the exclusion of LA Unified affiliated charter schools from this budget overview.

Increased or Improved Services for High Needs Students in 2019-20

In 2019-20, Los Angeles Unified School District is projecting it will receive \$1,137,257,754.00 based on the enrollment of foster youth, English learner, and low-income students. Los Angeles Unified School District must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Los Angeles Unified School District plans to spend \$1,140,015,110.00 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Los Angeles Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Los Angeles Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Los Angeles Unified School District's LCAP budgeted \$1,221,361,505.00 for planned actions to increase or improve services for high needs students. Los Angeles Unified School District estimates that it will actually spend \$1,238,493,727.00 for actions to increase or improve services for high needs students in 2018-19.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LA Unified) is focused on ensuring all students are prepared for college, career and life. We are a district that serves over 694,096 Pre-K thru Adult Education students, including independent charter and affiliated charter schools. Approximately 85% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, it is essential we ensure resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LA Unified is informed by our diverse population where 157,619 students are learning to speak English proficiently and 73.4% of our student population is Latino, 10.5% is White, 8.2% is African American and 6.3% is Asian/Pacific Islander. LA Unified embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 63,576 employees, consisting of teachers, administrators and classified personnel who are instrumental in helping LA Unified achieve the goals and objectives for improving student outcomes. Additional information about the district may be accessed at <https://achieve.lausd.net/facts>.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

LA Unified continues to expand the implementation of multi-tiered systems of support to ensure that all students are ready for college, career and life. In addition to academic, behavioral and social-emotional initiatives, LA Unified is focused on increasing school-based resources and staffing district-wide and ensuring equity in the distribution of those resources. Schools and Local Districts have been provided additional flexibility in the use of supplemental funds because of the diverse needs of school communities and the belief that those closest to students know best how to allocate staffing and resources.

Goal #1 - 100% Graduation: Ten LCAP actions aim to increase graduation rates and ensure students graduate college and career ready.

- Additional funding has been allocated for class size reduction teachers and counselors. Schools have also received increased budget autonomy so that local decision-makers can determine how best to utilize funding to be most aligned with the needs of their students. The Student Equity Needs Index funding has increased and now provides schools with greater autonomy over how those funds may be spent (Goal 1, Action 5).
- Options schools funding has been moved from supplemental to base funding to recognize the student populations these schools serve and to provide these schools with additional flexibility to determine allocations of resources and staffing (Goal 1, Action 6).
- A-G Immediate Intervention continues to expand resources for schools to provide Tier 2 and 3 academic supports for students to improve proficiency levels and to increase graduation rates. Local Districts are also provided additional flexibility in the use of supplemental funds to identify staffing and resources needed to support their schools in improving Tier 2 and 3 strategies for student graduation progress (Goal 1, Action 9).

Goal #2 - Proficiency for All: Twelve LCAP actions concentrate on continuing gains in grade-level academic proficiency for all students, and particularly for student groups that perform below the district average.

- The Foster Youth Support Plan and Family Source Centers will receive increased funding to ensure that the district continues to focus on the success of these students (Goal 2, Action 1).
- The integration of students with disabilities into general education programs has been moved from supplemental to the base funding for special education. This acknowledges the importance of this integration initiative for all students as full inclusion programs are expanded to additional schools in the upcoming school year (Goal 2, Action 8).
- The Division of Instruction continues to focus on improving literacy outcomes for the district. This has included the implementation of the English Learner Master Plan to integrate English Language Development across the Tier 1 curriculum and to support secondary literacy Tier 2 and Tier 3 strategies in middle and high schools (Goal 2, Action 9).

Goal #3 - 100% Attendance: Four LCAP actions are focused on supporting the health, behavior and social-emotional learning of students across the district and with homeless and foster youth.

- Increased funding is allocated for these actions to improve student engagement and supports at campuses with the highest need. These actions include increases in staffing for nurses and counselors.

Goal #4 - Parent, Community and Student Engagement: Two LCAP actions support initiatives to strengthen the partnerships and collaboration between school staff, parents, students and community members to support student success.

- Targeted Parental Involvement funding has been reallocated to School Autonomy in order to provide schools with additional funding flexibility in how these funds are utilized at the school level (Goal 4, Action 1).
- Ongoing parental involvement funding will continue to engage staff and parents in ways to provide input on district progress and initiatives (Goal 4, Action 2).

Goal #5 - Ensure School Safety: These two LCAP actions continue to improve the strategies in schools to foster positive school climates and to ensure that schools are safe spaces that are conducive to learning for all students.

- As the Restorative Justice training has been implemented in all district schools, funding for school climate and restorative justice has been reallocated to the School Autonomy action in order to provide schools with greater flexibility (Goal 5, Action 1).

Goal #6 - Basic Services: Five LCAP actions support schools with maintenance and student nutrition needs in addition to providing administrative support through Local Districts and the Central Office.

- Funding is sustained for maintenance and access to meals (Goal 6, Actions 4 and 5).

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the [California School Dashboard](#), progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

LA Unified is proud of our community of parents, teachers, counselors, administrators and classified staff who are focused every day on improving student performance. We also greatly appreciate our community and university partners that have advocated for continued improvements to our practices and share in the progress of our students.

1 - Graduation Rate - The LA Unified graduation rate on the California school dashboard continues to show growth year-over-year by increasing to 82.7% in 2018 compared to 81% in 2017. The district's continued focus on developing and implementing Tier 2 and 3 supports in high schools such as credit recovery and graduation counseling is resulting in more students

graduating and meeting a-g coursework requirements.

2 - English Language Arts (ELA) - The increase in ELA performance district-wide (+5.6 points) reflects improvements in multi-tiered systems of support implementation in curriculum and instruction during the 2017-18 school year. The implementation of new Tier 1 ELA curriculum across all elementary schools in addition to the implementation of the new district English Learner and Standard English Learner Master Plan have now provided the resources and instruction that students need to demonstrate proficiency on the state assessments.

3 - Mathematics - District-wide mathematics performance improved +3.3 points, demonstrating that additional professional development and formative assessment strategies are supporting student achievement. Schools are also increasing their use of Smarter Balanced interim assessments to support teacher calibration of student performance expectations.

4 - Suspension Rate - Our LA Unified suspension rate maintained a low level (0.5%) similar to the prior year rate. District schools continue implementation of restorative justice practices through professional development and discipline policies.

Referring to the [California School Dashboard](#), identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The district's implementation of multi-tiered systems of support continues to focus on the areas of greatest need in the district. While overall district performance on the state dashboard only identifies one area, chronic absenteeism, as "Orange," we recognize that overall student performance in additional dashboard areas remains low (e.g., English Language Arts, mathematics).

1 - Chronic Absenteeism - The district's chronic absenteeism rate was maintained year-over-year at about 10.3%, with most student groups performing at the same level as the prior year. The district continues to develop additional resources and dashboards for schools to track their chronic absenteeism rates during the school year. Schools will also have increased funding and flexibility to add Pupil Services and Attendance (PSA) counselors to engage students and families.

2 - College/Career Readiness - While the overall district performance is "Yellow," we recognize that only 38.2% of students in the cohort were identified as "prepared." Examination of the criteria for being "prepared," LA Unified continues to expand and implement Career Technical Education pathways, as exemplified by our Linked Learning high schools. In addition, the district is improving its tracking systems for identifying students who have completed college coursework.

3 - English Language Arts and Mathematics - Both district-wide distance from standard met scores for ELA (-29.2) and mathematics (-59.4) indicate the majority of students are still not performing at the state-identified proficiency level. Continued investments in lowering class sizes, improving curriculum and instruction for all students, and focusing supports for English Learners and foster youth are intended to result in improvements in performance in these areas.

Referring to the [California School Dashboard](#), identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

1 - Graduation Rate - English learners and foster youth are both at the "red" performance level compared to the district all student "green" performance level. In addition, the following three student groups are at the "orange" performance level: homeless, Native Hawaiian or Pacific Islander, and two or more races. The district continues to implement Tier 2 and 3 strategies to provide greater opportunities for students to reach proficiency and recover course credits during and outside the school day. Counselors continue to receive resources and training in tracking and advising students on their progress and how to ensure foster youth receive their credits earned and are permitted to meet the permitted state minimum graduation requirements. For English learners and Standard English learners, the district continues to identify additional courses that meet a-g course graduation requirements and to implement the English Learner and Standard English Learner Master Plan to support improvements in content area Tier 1 instruction and the incorporation of more integrated English Language Development instruction and culturally responsive instruction in content courses.

2 - Suspension Rate - One student group, American Indian or Alaska Natives, are at the "yellow" performance level compared to the district "blue" performance level. Of note is that only two other student groups, African American and foster youth, are at the "green" performance level. All other student groups are at the "blue" performance level. The district continues to implement restorative justice practices across all schools. The expansion of culturally responsive instruction through the Access, Equity and Acceleration team should increase student engagement and ensure inclusion of all students in classroom instruction.

3 - College/Career - One student group, students with disabilities, is performing at the "red" performance level compared to the all students performance at the "yellow" level. The district is increasing the implementation of full inclusion programs in schools as a Tier 1 strategy, integrating students with disabilities into general education classes. Full inclusion practices require extensive professional development and planning for school site staff members and provide students with disabilities with greater access to a-g courses in high school. The district continues to provide funding and budget flexibility for Local Districts and schools to support students with disabilities in their progress toward graduation. Data systems like progress monitoring dashboards implemented over the past several years continue to provide schools and Local Districts with information to respond to students with disabilities who might need additional supports.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

The California Department of Education identified 47 schools as Comprehensive Support and Improvement (CSI) within LA Unified. The following 25 of LA Unified's CSI schools were identified for low-graduation based on the 2-year average rate. Schools with Dashboard Alternative School Status (DASS) are annotated:

- Angelou Community High School
- Belmont High School
- Central High School (DASS)
- Early College Academy
- McAlister High School (DASS)
- Newmark High School (DASS)
- RFK School for the Visual Arts and Humanities
- Monterey High School (DASS)
- Perez Special Education Center (DASS)
- Earhart High School (DASS)
- Evergreen High School (DASS)
- London High School (DASS)
- Rogers High School (DASS)

- Addams High School (DASS)
- Independence High School (DASS)
- Owensmouth High School (DASS)
- Thoreau High School (DASS)
- Wooden High School (DASS)
- Avalon High School (DASS)
- Willenberg Special Education Center (DASS)
- Bernstein High School
- CDS Alonzo (DASS)
- View Park Continuation (DASS)
- Carlson Home Hospital
- City of Angels (DASS)

The following 22 of LA Unified's CSI schools were identified for low performance based on 2018 Dashboard results:

- Kahlo High School (DASS)
- Manual Arts High School
- Boyle Heights STEM
- Holmes Ave Elementary School
- Odyssey High School (DASS)
- Lowman Special Education Center (DASS)
- Panorama High School
- Van Nuys Middle School

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LA Unified has built a system of support such that CSI schools are able to effectively complete all the requirements related to their Every Student Succeeds Act (ESSA) status, including conducting a comprehensive needs assessment, engaging stakeholders in planning, selecting evidence-based interventions and identifying resource inequities. Going beyond the requirements of ESSA, LA Unified aligned additional resources to provide supplemental supports and resources to CSI schools to support ongoing improvement and student achievement.

In anticipation of the identification of CSI schools, LA Unified created a CSI Addendum to the online School Plan for Student Achievement (SPSA) to address new plan components, provided trainings for principals and their Local District (LD) support staff, provided ongoing guidance and support to schools as they began their planning process, and aligned additional resources (beyond the State CSI funds) for schools to support improvement efforts. The District's CSI Addendum template was approved by California Department of Education (CDE) staff in January 2019.

Comprehensive Needs Assessment: The LA Unified's SPSA template includes questions to address the requirement that CSI schools complete a comprehensive needs assessment. Schools must not only describe what occurred during their comprehensive needs assessment, who participated, and when it occurred, but also must describe the findings from their needs assessment and the alignment of their findings to strategic actions. Schools analyze a variety of data, including the state indicators on the California School Dashboard.

Resource Inequities Review: LA Unified defined the goal of a Resource Inequities Review as follows: *To ensure that all students have equitable supports and access to various resources such as programs, rigorous curriculum, interventions, effective teachers, etc., such that all students can achieve at high levels.* To achieve this goal, LA Unified regards the Resource Inequities Review process as the application of an equity lens during the comprehensive needs assessment. While schools must respond to four prompts on the CSI Addendum that describe the identified inequities and strategies to address them, LA Unified also provided reflection questions that cover a range of areas where inequities may exist to support school teams as they seek to identify ways in which resources may or may not be used equitably. Each completed CSI section of the SPSA includes a description of the actionable inequities identified, the inequities that will be prioritized at the school site, and the strategies to address the inequities.

Evidence-Based Interventions: To ensure that CSI schools are able to select and implement evidence-based interventions, LA Unified provided guidance and training at multiple levels of the organization and developed an optional bench contract with pre-vetted vendors that support evidence-based interventions. As school teams identify their needs during their resource inequities review and comprehensive needs assessment, they will determine data-based focus areas. Once the focus areas have been identified, school teams have resources to identify and select evidence-based interventions such as evidenceforessa.org, What Works Clearinghouse, LA Unified's Evidence-Based Interventions Bench, and other links to identify interventions, programs or activities that align to student need. As an added layer of support, LD staff (who are among those who provide approval signatures on the plans) have been trained in using those resources and others to support schools in selecting interventions that meet the federal criteria.

Trainings for Principals and Local District Staff and Ongoing Guidance: The CDE released the statewide list of CSI schools on January 31, 2019, and LA Unified completed trainings for all principals of CSI schools by February 27, 2019. The trainings addressed the State's CSI identification criteria, CSI requirements, and the resources and supports to implement the requirements. Each principal received a toolkit to provide background information, communication tools to support efforts to inform and engage stakeholders, and resources to support schools in completing the CSI Addendum. The trainings also provided contact information for various district departments, and schools have been accessing those contacts for additional support and guidance for planning. In addition to the formal principal trainings, LA Unified staff have provided ongoing training to LD support staff to go in further depth on evidence-based interventions, resource inequities reviews and the CSI Addendum to ensure common understandings and to have a continuous line of communication about ongoing areas of need.

Additional Resources: The State will be allocating roughly \$7.6 million to LA Unified to support CSI school improvement efforts. Those funds were allocated directly to CSI schools to support locally-determined improvement efforts based on a base-grant model of \$100,000 plus a per pupil allocation. The only exception is Washington Preparatory High School, which receives School Improvement Grant (SIG) funds in lieu of the State CSI allocation. In partnership with stakeholders (via School Site Council) schools will determine the best use of their improvement funds within the SPSA CSI Addendum based on the comprehensive needs assessment findings. To support ongoing improvement efforts, LA Unified set aside additional local Title I funds for lower-performing schools (including, but not limited to CSI). LA Unified is providing the following additional Tier 2/Tier 3 resources to support student learning opportunities for students attending CSI schools in Summer 2019 or during the 2019-20 school year:

- **Summer Learning:** To create ongoing learning opportunities for at-risk students over the summer, LA UNIFIED offers several programs that CSI schools can implement:
 - **Extended Learning Opportunities, Summer (ELOS):** CSI elementary and middle schools are able to offer a standardized summer program administered by Beyond the Bell. This four-week program includes focused academic intervention in English Language Arts or mathematics for academically at-risk students in grades K-8. The program includes an instructional field trip aligned with leveled-reading texts, opportunities for activity-based projects, social emotional learning lessons and reader's theater.
 - **Summer Reading Program:** For CSI schools with low enrollment, LA Unified offers a summer reading program in lieu of ELOS. The program involves providing high-interest reading materials for students to access over the summer.
 - **Summer Term:** All at-risk students attending any LA Unified high school, including CSI schools can attend a 24-day summer program to recover credits and make progress toward graduation.
 - **Summer Bridge:** CSI comprehensive high schools are all eligible to offer a summer bridge program to support the transition from 8th to 9th grade. The curriculum includes English Language Arts, culturally authentic and responsive pedagogy, STEAM text-based collaborative lessons and activities, and *Naviance* online high school and college readiness curriculum. Students earn five elective credits upon successful completion.
- Additional supports that CSI schools will be eligible to receive during the 2019-20 school year include:
 - **Title I Intervention Program:** All CSI elementary, middle and comprehensive high schools are eligible to participate in the Title I Intervention program. This program is administered by Beyond the Bell. School sites receive a per pupil allocation to offer site-designed interventions to meet student need during the school year, and have flexibility to focus on math, English Language Arts or credit recovery.
 - **Social-Emotional Learning:** LA UNIFIED's Social Emotional Teacher Advisors will identify and support age-appropriate social-emotional learning programs (e.g., Second Step) or develop trainings for CSI schools.

LA Unified may identify additional resources and supports to meet the needs of CSI schools based on an ongoing review of data.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Below is a description of how LA Unified will monitor and evaluate the implementation of effectiveness of the CSI plans:

- Local District staff will monitor and support the implementation of CSI plans. The online SPSA now includes a space for LDs to describe the way in which they are providing additional support and monitoring to the CSI schools. The support and monitoring may vary depending on school context and needs and will be described in the Monitoring section of the school's SPSA.
- CSI school teams will formally evaluate school plans alongside Local District support staff annually. School teams will review whether they have met the measurable objectives stated in the plan and reflect on implementation. While the measurable objectives and data points may vary by school, the objectives are aligned to state indicators on the California School Dashboard. Because the SPSA is online, LA Unified can aggregate school-level evaluative data across the system to determine how many CSI schools have met their measurable objectives.
- CSI schools will review the progress of their plan implementation after the first semester alongside district staff.
- LA Unified collects a robust set of data that aligns to the California School Dashboard to support district and school staff in monitoring and evaluating implementation, including, but not limited to:
 - **Attendance-** Schools and district staff can monitor student level attendance and "performance bands" of attendance to determine which students are at-risk of chronic absenteeism and identify trends. Our Focus data system updates attendance daily for frequent monitoring and adjustments.
 - **Suspensions-** Schools and district staff can monitor student level suspensions, including the reason for the suspension. These reports on our MyData platform are updated weekly.
 - **English Language Arts (ELA)-** Schools and district staff can review and analyze Smarter Balanced Assessments (SBA) for ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in ELA, and can analyze scores at least twice a year.
 - **Math-** Schools and district staff can review and analyze SBA ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in math, and can analyze scores at least twice a year.
 - **A-G Progress-** To support schools in monitoring progress toward graduation, schools and district staff have access to reports noting A-G progress, including information about whether the student is on-track to graduate or how many credits they are missing to be considered on-track. Our Focus data system tracks A-G with a D or better, A-G with a C or better, and all academic requirements met for the current and future graduating classes.
 - **At-Risk Reports-** LA Unified collects and provides reports that schools and district staff can use to identify at-risk students based on multiple factors such as attendance, suspensions and academic grades (i.e., marks).
 - **School Experience Survey-** LA Unified administers an annual district-wide survey to students, staff and families. Data reports are provided annually, and include response rates and results at multiple levels, include category, content area, and individual question. Categories include Academics, School Climate, and Social Emotional Learning. Content areas include Academic Focus, Cognitive Engagement, Future Orientation, Bullying, Connectedness, Expectations for Behavior, Opportunities for Participation, Safety, Growth Mindset, Self-Efficacy, Self-Management and Social Awareness.

The MyData system and School Experience Survey data provide longitudinal information, which can help schools and the district see patterns and trends overtime, while the Focus platform generally supports ongoing progress monitoring throughout the year. LA Unified has an ongoing commitment to improve its data system to support schools and district staff in monitoring and strategic planning.

Annual Update

LCAP Year Reviewed: 2018-19

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.</p> <p><u>Academic Interventions</u></p> <ul style="list-style-type: none"> • English Language Arts, English Language Development, and Math Interventions • AVID (Advancement Via Individual Determination) • International Baccalaureate • Dual Language/Bilingual Programs 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Implementation of various programs and interventions were targeted to support student achievement. The largest expenditure was to support Options Programs (Community Day schools, Continuation schools, Independent Study and Opportunity schools) through \$24.8 million to fund certificated and classified staff across these schools. Arts program central office supports were also funded at \$1.15 million to support district-wide arts programs and to oversee arts itinerant teachers. Summer school credit recovery instructional materials were also funded with \$1.8 million to support high school students in need of additional courses to meet graduation requirements. District science centers were also funded to support the continued implementation of new state science standards by providing instructional materials and resources to schools. Additional enrichment programs such as academic decathlon, afterschool programs, and all city marching band were also funded to support student engagement.</p> <p><u>College and Career Ready</u></p> <p>The Career Technical Education Incentive Grant (CTEIG) supported and expanded our existing Career Technical Education (CTE) pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.</p>	<p>\$14,869,259 - LCFF - 1000-1999 Certificated Salaries \$2,517,905 - LCFF - 2000-2999 Classified Salaries \$8,113,117 - LCFF - 3000-3999 Employee Benefits \$8,264,632 - LCFF - 4000-4999 Books and Supplies \$11,024,471 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,714 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$16,035,498 - LCFF - 1000-1999 Certificated Salaries \$2,826,121 - LCFF - 2000-2999 Classified Salaries \$7,984,326 - LCFF - 3000-3999 Employee Benefits \$1,756,052 - LCFF - 4000-4999 Books and Supplies \$3,719,163 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,687 - LCFF - 6000-6999 Capital Outlay</p>

- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provided opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1-3 funds supported over 411 CTE pathways across the district.

Through this funding, LA Unified has:

- **Implemented** cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- **Changed** the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces, medical simulation labs;
- **Developed** a continuum of industry sector-aligned Work Based Learning opportunities for students, both in the classroom and in the industry sector workplace;
- **Grown** the number of CTE-credentialed teachers at LA Unified, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- **Articulated** CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LA

work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;

Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;

Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;

Unified/Los Angeles Community College District AB 288 dual credit MOU. In 2017-18 students earned 5,364 industry-aligned certifications.

Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LA Unified to implement Linked Learning at 72 pathways across the District, an increase in 24 pathways over the last three years. This funding:

- **Provided** seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- **Funded** the development of interdisciplinary real-world projects aligned with the pathway industry theme,
- **Provided** funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- **Made** teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- **Funded** Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- **Funded** a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or

Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,

Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high

credential, without a cost to our schools or students, during the LA Unified school day. These innovative options increased awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provided students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LA Unified has 14 gold certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.
- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

LA Unified Linked Learning high school pathways outperformed non-Linked Learning high schools in graduation rates, a-g on track/completion, SBA English and SBA math while Linked Learning pathways have 16.4% English Learner students compared to 9.5% English Learner students in district non-Linked Learning pathways.

Additional information about LA Unified Linked Learning pathways may be accessed at: <https://achieve.lausd.net/Page/524>.

<p>school pathways,</p> <p>Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.</p> <p>Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.</p> <p>These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. Action 4

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed Schools</p> <p><u>Teacher Retention and Support Program (REED)</u></p> <p>Increase Support to Sites with High Turnover and high concentrations of unduplicated students. Supports include staffing, professional development augmentations and recruitment and retention enhancements. Also includes new teacher support and assistance (BTSA).</p> <p>Impact of resources will be assessed by the metrics listed in Goals #1 and Goals #2.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed Schools</p> <p>In Spring 2014, a settlement agreement was reached between the District and Plaintiffs who are represented by American Civil Liberties Union (ACLU), Public Counsel, and Morrison Foerster, as well as UTLA, and Partnership for Los Angeles (PLAS). Although Associated Administrators of Los Angeles (AALA) was not a party to the litigation, AALA also participated in the settlement discussions. The settlement agreement was unanimously approved by the Board of Education, and was subsequently approved the Court as well.</p> <p>The settlement agreement provided for a robust set of administrative and other support at 37 schools, which were selected based on their API 1-3 ranking, high teacher turnover rate, and four of those schools had the highest student dropout rates. These schools have great concentrations of students who are English learners, foster youth and/or from low income families. Eighteen percent of the students at these schools were born outside of the United States (i.e., immigrants). The Reed Investment Schools received the following:</p>	<p>\$21,581,417 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$7,239,969 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$15,811,945 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,318,878 - LCFF - 3000-3999 Employee Benefits</p> <p>\$253,235 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

1. 1 Additional Assistant Principal
2. 1 Additional PSA Counselor, Psychiatric Social Worker or Secondary Counselor
 - For the 2018-19 school year the following were allocated:
 - PSA - 13
 - PSW - 4
 - Guidance Counselors - 20
3. A-Basis for Principal and Reed Assistant Principal
4. 1-4 Mentor Teachers: Reed supports 91 mentors that provide ongoing support to over 370 non-permanent teachers at all 37 Reed sites.
5. 1-2 Special Education Support Providers (for schools with at least 15% of the student population with special needs)
6. Unique Professional Development - Reduction in Force Protection
 - 40 hours of additional paid professional development training provided to all teachers and non-administrative certificated staff at the Reed schools.
 - For the 2018-19 school year, 397 staff members in Reed schools received additional specialized training for a total of 11,751.795 hours.
7. Reed Mentor Professional Development
 - 6 sessions provided for the 2018-19 school year
 - 2018-19 focus: Standard 6.1 through 6.4 of the continuum of mentoring practice.
8. Recruitment and Retention Incentives
9. 1 Saved Position of math or English Language Arts teacher (in event of displacement due to decline in enrollment)
 - For the 2018-19 school year, a total of 14 math or English Language Arts teacher positions were funded by the Reed program to prevent the teacher from being displaced.
10. Extra Conference Periods (for non-permanent teachers)

- As outlined in the final settlement agreement, "every non-permanent teacher receives an additional conference period" in order to provide time to meet with mentor teachers, observe experienced teachers, and plan instruction.

11. Long Term Substitute Funding

12. School Site Support Visits

- 2018-19 - 16 Reed schools visited

- Goal: Review of Reed professional development and implementation
 - Habits of Mind
 - Reed Investment Engagement Strategies
 - Teaching and Learning Framework
 - Teacher Retention Supports (Reed Mentors)
 - School wide PD goals
 - School experience survey

The three year Reed Investment School Program was scheduled to end on June 30, 2017 (after commencing in 2014) pursuant to the original settlement agreement and court order. The District voluntarily extended the program through June 2019, an additional year beyond what was required under the court order. The Reed Investment School Program will discontinue June 2019.

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>School Autonomy</u></p> <p>Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the Districts student equity-based index. Services and positions supported by this resource are to be aligned with the Districts investments and strategies outlined in the District LCAP and a schools single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the Districts LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>For the 2018-19 school year, the Student Equity Needs Index continued to distribute funding based on the identified needs of school communities. In collaboration with community organizations, the index was revised to include additional indicators of student need including academic indicators, school climate indicators, community indicators (i.e., childhood asthma and gun violence) and new demographic indicators. These indicators align with the new state dashboard. The school rankings were separated by school levels (i.e., elementary, middle and high), with some indicators given greater weight within each school level based on the districts areas of focus in the strategic plan. Specifically, college readiness is prioritized for high schools, school climate and safety are prioritized for middle schools, and math and literacy scores are prioritized for elementary schools.</p> <p>Schools received their allocations and were required to support their decision-making on the use of funds in the schools Targeted Student Population (TSP) Plan to ensure alignment with district goals. A menu of recommended professional development and supports that are aligned with the districts goals were offered to schools. Detailed information about each school TSP Plan is accessible at schooldirectory.lausd.net. Over 80% of these funds were utilized to purchase additional certificated staff including part or full-time additional assistant principals, intervention support coordinators, arts teachers, class size reduction teachers, Psychiatric Social Work counselors and Pupil Services and Attendance counselors.</p> <p>In addition, schools were allocated positions to</p>	<p>\$466,137,200 - LCFF - 1000-1999 Certificated Salaries \$58,799,461 - LCFF - 2000-2999 Classified Salaries \$192,126,369 - LCFF - 3000-3999 Employee Benefits \$8,358,997 - LCFF - 4000-4999 Books and Supplies \$12,608,616 - LCFF - 5000-5999 Services and Other Operating Expenses - Grant Set-Aside \$960,453 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$472,051,024 - LCFF - 1000-1999 Certificated Salaries \$59,133,699 - LCFF - 2000-2999 Classified Salaries \$191,966,226 - LCFF - 3000-3999 Employee Benefits \$36,605,689 - LCFF - 4000-4999 Books and Supplies \$15,156,399 - LCFF - 5000-5999 Services and Other Operating Expenses \$948,453 - LCFF - 6000-6999 Capital Outlay</p>

aligning the services with the Districts LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

support TSP students such as nurses, counselors, campus aides, clerical staff, assistant principals and class size reduction teachers. Schools utilized these resources to complement their plans to improve their results on the state dashboard.

At the recommendation of the board of education, district staff engaged stakeholder groups during Fall 2018 to review the current implementation of the Student Equity Needs Index and to receive feedback and recommendations on its continued implementation in the 2019-20 school year. Eight stakeholder meetings were held with parent, student and community representatives to provide feedback on the current index and allocations. This provided input on the next steps with the Student Equity Needs Index implementation for the 2019-20 school year.

Additional positions not listed may be approved by the District.

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades 9-12</p> <p><u>A-G Immediate Intervention Plan</u></p> <p>Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: All high schools, select elementary and middle schools; Specific Grade Spans: Grades K-12</p> <p>Local Districts were allocated funds and developed plans to best support the needs of schools in their areas. Local Districts and schools utilized the menu of resources available through the Division of Instruction to improve graduation rates and a-g course completion in schools. The Division of Instruction describes the menu of resources available to support Local District and school plans as follows:</p> <ul style="list-style-type: none"> • Adult Education Partnership: At selected sites, students can retake courses at DACE sites after the school day or on Saturdays. Small class sizes and flexible pacing support success. • Auxiliaries: Provides opportunities within the school day for students retaking failed courses. The number of courses and time frame will depend on room in each schools 	<p>\$3,745,061 - LCFF - 1000-1999 Certificated Salaries \$1,491,189 - LCFF - 3000-3999 Employee Benefits \$8,789,363 - LCFF - 4000-4999 Books and Supplies \$1,028,584 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$8,052,342 - LCFF - 1000-1999 Certificated Salaries \$2,859,174 - LCFF - 3000-3999 Employee Benefits \$1,858,912 - LCFF - 4000-4999 Books and Supplies \$2,640,758 - LCFF - 5000-5999 Services and Other Operating Expenses \$224,296 - LCFF - 2000-2999 Classified Salaries</p>

semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning-Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

master schedule to add auxiliary periods. Credit recovery opportunities may also be offered in a zero period.

- Edgenuity Virtual and Blended Programs: Students can be programmed into either option, depending on need and school resources. In the Blended model, classes are led by a subject-credentialed teacher who provides differentiated teaching and support. The Virtual model class is led by a credentialed teacher who assists students with platform access, time management, study skills supports, etc.
- Independent Study: Students enter into a written agreement/contract stipulating the manner of assignments granted, frequency of assignments, and the time frame to meet with the teacher for additional instructional support. This program provides students in employment or other obligations with another opportunity to retake classes, and reduce the potential for dropping out.
- Performance Assessment Student Support (PASS): These modular programs are designed for students who have previously failed a Math or ELA course required for graduation. PASS courses are self-paced, modular, teacher directed, and administered to small groups outside of the regular school day. They are ideal for students who need personalized teaching to gain mastery of skills and standards.
- Recovery + Intervention = Graduation (RIG): This unique option is a collaborative arrangement between a comprehensive high school and a neighboring continuation school using the pass-through system. Students in RIG remain enrolled in their high school while taking one to two classes at the continuation school during the day or after school.
- Winter Break and Spring Break: Schools can schedule intensive credit recovery programs using a block scheduling model so that students can maximize time to recover needed credits while off track. During these sessions, students can complete a class already started or begin a new course. Typically of five or six days duration, students can take one or two classes during the day.

Schools offer successive Saturday sessions for students needing additional time to complete and pass their class.

Additional school-wide programs targeting high school student success in graduation and the state College/Career indicator on the dashboard included:

- **Algebra I Intervention Pathway Program and Geometry Intervention Program:**

These programs are designed to provide intervention in a timely manner as failure prevention. These intervention resources, available in Schoology, are designed to be personalized and accessible for students and teachers. Materials and resources can be used for direct instruction, project-based learning and assigned for independent practice. Students receive instruction, complete assigned work, and are assessed on a particular learning target from units where they need additional support. The intervention is offered within the Algebra I or Geometry class, before or after school, or through a math tutorial lab class. Students can stop attending once they no longer need the support.

- **Mastery Learning and Grading:** The Division of Instruction provides Mastery Learning and Grading professional development series, that includes salary point classes to interested teachers, administrators and staff. Mastery Learning and Grading is a growth-mindset RTI Tier 1 approach to teaching and learning offering an alternative to traditional instruction and grading. By refocusing classroom grading and assessment on clear learning targets and by implementing research-based instructional practices that honor individual students variables necessary for learning, Mastery Learning and Grading allows more students to succeed academically and take charge of their own learning. Administrators, teachers and staff can be certified through the MLG Salary Point Class or the MLG PD series (six 2 hour, in-person workshops and 8 hours of online learning). Once participants have completed the training, they work on creating Mastery Learning and Grading classroom materials

such as standards-based learning targets, syllabi to communicate MLG practices to students and parents, rubrics to make clear what proficiency in each learning target entails, and tiered assessments of learning targets to provide multiple opportunities for students to reach proficiency. There are two Mastery Learning and Grading Coaches in each local district, one focusing on the Humanities and one that focuses on STEAM.

- **Pre-AP/AP Summer Institute (Advanced Learning Options):** Advanced Learning Options offers a two-day professional learning opportunity, funded with the College Readiness Grant, to discuss course-specific/discipline-specific content, instructional strategies, course organization and methods for promoting increased participation and success of diverse learners in A-G courses, including Advanced Placement (AP) and Honors. Sessions are led by College-Board endorsed subject experts.
- **AP Readiness Program (APR):** Supplemental instructional support for students and teachers is available through the AP Readiness Program at UCLA Center X. All District high school students enrolled in an Advanced Placement course, and their teachers, are invited to participate. There are two strands of AP Readiness: STEM and Humanities. The Humanities strand includes English Language, English Literature, Psychology, Spanish, U.S. Government, U.S. History, and World History. In addition to providing instructional support to students, the APR program offers comprehensive and high level professional development for current and potential teachers of AP courses in STEM and Humanities areas with University professors. Students meet once month at UCLA from September through April, transportation from school sites and materials are provided. Participants in APR are a dedicated community of learners who continue to forge friendly and professional connections throughout LA Unified.
- **AB 288 Concurrent Enrollment:** High schools in each Local District have partnered with local community colleges to

offer college credit courses to high school students with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness.

- **Expository Reading and Writing Course (ERWC)** is a rigorous, rhetorically based, full-year college preparatory English course for high school seniors designed to support college-readiness in English. Training for this course, which enables students to be prepared for college level reading and writing, has been completed. Teacher training is currently being offered.
- **SAT Practice All In Challenge: Local District Khan Academy Workshops:** Teachers will receive training teachers to use PSAT results to create targeted instruction to prepare for the SAT exam. At these workshops, which will be held in each local district, designated high school certificated staff will learn how to: create a teacher/coach Khan Academy account, access the teacher/coach dashboard and coaching tools, link student accounts and monitor student practice and progress. The number of participants from each high school is dependent on 10th grade enrollment and must include the PSAT coordinator.
- **Transition to College Mathematics and Statistics (TCMS):** 34 schools are currently offering this 4th year mathematics course available to ensure college readiness for students who have passed Algebra 2 but have scored at Standard Not Met or Nearly Met. 1,700 students are enrolled in the 58 sections being offered.
- **College Access Teacher Training (CATT) 2017 & 2018:** Over 75 LA Unified educators completed a course at Cal State LA led by Dr. Rebecca Joseph to develop capacity in the area of college advisement. Participants learned best practices from experts in the field of college readiness and developed projects to strengthen the college-going culture at each of their schools. CATT is a rigorous, high quality PD that prepares

teachers and counselors to become college and career advocates in their current positions. Up to seven salary points may be earned upon the completion of the coursework and practicum school-based projects that are due at the end of the program.

- **College Access Network (CAN):** This professional development series, created by the College Counseling Collaborative and known as College Access Network (CAN), comprises 5 full days of college readiness training for school personnel. Following their initial offering during the 2017-18 academic year, all modules were updated to reflect changes in the college access/admission landscape and the revised CAN trainings are in session this year. The series was offered on a flexible schedule; each module was offered three times including on Saturdays to avoid disrupting school schedules.
- **College Palooza:** The district-wide college and career event, held at LA Trade Tech College, took place on March 16th 2019. The event was open to all district staff, educators, families and students. Ranjit Sidhu of the National Council for Community and Education Partnerships (NCCEP) was the keynote speaker. There were 20 workshops for families and 10 for educators in a 3-period schedule. To accommodate groups bused in from secondary schools, there were several sessions tailored for students only and campus tours led by Trade Tech scholars. Also there was a college and community resource fair with admission reps from public and private institutions, with local business and non-profit partners.
- **College Caf:** A series of pre-recorded Power Point presentations is in development. Known as College Caf, the series is designed as a narrated click and play option for parent centers, informal school events, etc. Each episode comprises 15 slides focusing on one specific aspect of college knowledge, for example the CSU system, private college applications, and financial aid. By capturing important need-to-know facts in a short format, College Caf is easily digestible while building postsecondary

empowerment in our families.

- **The Quaglia Institute Parent and Family**

Seminars: In February 2018 Dr. Russ Quaglia presented two evening events at Chatsworth and Huntington Park High Schools: *Inspiring My Child Today for a Bright and Successful Future*. Open to all LA Unified families, the presentations covered ways to engage and encourage students, and gave families practical strategies to communicate better, inspire with purpose, and support their children through the challenges and successes of being a student.

Additional programs were developed for middle and elementary schools to better prepare students prior to enrolling in high school.

- **Middle School Intervention STAR 8:** A new intervention programs for 8th grade Math and ELA has been created. The program consists of 8-day modular curricula, aimed to raise students academic achievement, ready them for a success in A-G courses, and culminate middle school in good standing. Each program provides a wealth of materials that review, reinforce and increase mastery of key standards and skills.
- **Middle School Intervention PASS:** A new PASS program has been created to support 8th grade students in Math and ELA and training for interested school site teachers will be occurring in May, 2019. PASS programs for 8th grade Math and ELA: both are flexible, modular interventions designed for use during the semester. Students can be enrolled into middle school PASS in or outside the school day to receive extra support and differentiated teaching.
- **Edgenuity Intervention Programs for grades K-8:** Licenses have been renewed for the Pathblazer (grades K-6) and My Path (for grades 7 -8). Both interventions have screening features for immediate placement in Math and Reading lessons, with students receiving auto-prescribed content based on mastery. To facilitate effective use of the programs there will be two full-time Specialists continuing to support school

	<p>sites, Quick Start guides, an LA Unified Resource Landing Page, a reporting feature that allows for tracking of student time on task, progress, and grades, a helpline, and tech support. This intervention support helps ready students for success in A-G courses.</p> <ul style="list-style-type: none"> Middle School College and Career Coaches (MSCCC): These educators provide support for at-risk students targeted with early warning indicators (attendance, behavior, and low/failing grades in Math and ELA). As credentialed ELA teachers, they also support all teachers with integrating strategies to increase academic literacy. Coaches serve all Title 1 middle schools in full or half-time positions. They collaborate with stakeholders to ensure data-driven, results-based support services and programs are provided for all at-risk students. College and Career Coaches are primarily responsible for identifying achievement gaps, utilizing multiple data points for early alert data to inform intervention and support, assisting the roll-out of ELA/ELD, integrating instructional technology and providing a bridge of support as at-risk students transition into high school. Middle School College and Career Coaches have participated in Naviance training to support implementation at the middle schools.

<p>School Innovation Funds are provided to a subset of secondary schools to improve outcomes for targeted student populations. These targeted funds must be aligned to District Goals as described in the LCAP, and must be expended on services that support one or more of the following areas:</p> <ul style="list-style-type: none"> • Significant increases in investment in high need schools, including academic support and mental health, social and emotional support • Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery • Linked Learning • School climate initiatives including Restorative Justice • High school graduation and student recovery from dropout prevention for high need students • Parent and community engagement, particularly for those from high need communities 	<p>Schools were allocated funds to utilize on a selected menu of services or personnel identified by the Central Office as being the most high leverage to improve student performance. Local Districts supported schools in identifying support providers to improve student English Language Arts and mathematics performance through the use of formative assessment strategies as method of developing the assessment literacy of teachers. Local Districts supported schools in utilizing improvement science principles to engage in cycles of continuous improvement throughout the year to strive for improved performance on the state dashboard indicators. The difference in the budgeted expenditures compared to the actual expenditures was largely due to the timing of budget development and personnel recruitment and hiring. The majority of funding for these schools was allocated to staff to support high need students such as assistant principals, coordinators, academic coaches, counselors and teachers.</p>	<p>4000-4999 Books and Supplies \$961,578 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>4000-4999 Books and Supplies \$5,123,334 - LCFF - 5000-5999 Services and Other Operating Expenses \$53,215 - LCFF - 6000-6999 Capital Outlay</p>

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the [California School Dashboard](#), as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified implemented the actions as described during the 2018-19 school year. Some of the highlights of the implementation this year include:

- Support for over 411 Career Technical Education pathways across the district
- Implementation of 72 Linked Learning pathways that provide students with college and career awareness and experiences, including 14 Gold Certified Pathways
- Continued investments in 37 Reed schools to support staffing and additional professional development in these schools serving high concentrations of students who are English learners, foster youth and/or low income
- Utilization of Student Equity Needs Index funds in schools to support decision-making by staff closest to students. Approximately 80.5% of these funds were expended on certificated salaries and benefits, demonstrating that schools utilized these funds for site-based staffing such as teachers, administrators, and counselors to support high needs students.
- Implementation of personalized learning funds in options schools to support completion of A-G coursework through credit recovery, tutoring, technology and social emotional learning supports
- Continued implementation of Diploma Counselors to support Tier II and III students identified at risk of not meeting graduation requirements
- Expansion of available Tier II and III resources for student interventions in content areas identified as high needs for students who are not on track for graduation
- Utilization of School Innovation funds in 50 identified high needs schools to support LCAP targets for student achievement and graduation

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

College and career readiness remain a central focus of all schools in LA Unified. The four year cohort graduation rate continues to increase year-over-year, and the percentage of graduating cohort students completing A-G requirements with a C or better was 47.9% for the 2017-18 school year. In addition, 10.4% of the grading cohort received a qualifying score of 3 or higher on at least 2 Advanced Placement exams. The percentages of students meeting the 11th grade Early Assessment Program (EAP) college readiness level in English Language Arts and mathematics were below the targets. Feedback from leaders at school sites and Local Districts indicated that the investments from this goal continue to result in positive outcomes for students. Investments in staffing are increasing the personalization of supports for students who may not be on track for graduation. Targeted resources such as A-G counselors at the district level as well as school-determined initiatives utilizing the Student Equity Needs Index funds have improved services to students. In response to input from elementary and middle school leaders, the District has increased its monitoring of student progress toward graduation and has begun to direct some resources to elementary and middle schools in an effort to better prepare students for success in high school.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

For Goal 1 Action 9, shifts in allocations from books and supplies were made to staffing in order to provide additional supports to Local Districts and schools in the form of counselors and staffing to monitor student progress toward graduation and to provide supports for credit recovery.

For Goal 1 Action 10, shifts in allocations were due to the timing of informing identified schools of these School Innovation Funds. The timing was after budget development for schools in Spring 2018, so funds that were budgeted for books and supplies were shifted to staff once schools were able to hire for those positions in Fall 2018.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Due to the change in business rules for the state calculation of the graduation rate, the targets for the graduation rate metric have been adjusted to be aligned with attainable district targets. In addition, the metric for the percentage of the graduating cohort completing A-G with a C or better have been adjusted because the original 2018-19 target of 46% was met in the 2017-18 school year (47.9%).

Changes to the Actions in this Goal include:

- Goal 1 Action 1 now includes a percentage of options program funding that is now showing as base funding that was previously identified as supplemental in Goal 1 Action 6.
- In an effort to increase school decision-making autonomy, funding for Goal 1 Action 5 School Autonomy has now included funding from Actions 1.4, 1.10, 4.1, 5.1 as a means of expanding the Student Equity Needs Index.
- Goal 1 Action 9 A-G Immediate Intervention Plan initiatives now incorporate elementary and middle school supports in response to feedback from Local Districts and schools that improved supports for elementary and middle school students would better prepare students for high school and result in fewer students needing remediation in 9th grade.
- Goal 1 Action 10 School Innovation Funds are now integrated with the funding for Goal 1 Action 5 School Autonomy to provide a pool of targeted funds to support school services for high needs students.

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p>	<p>\$5,536,166 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$537,429 - LCFF - 2000-2999 Classified Salaries</p> <p>\$2,385,295 - LCFF -</p>	<p>\$5,695,281 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$538,752 - LCFF - 2000-2999 Classified Salaries</p> <p>\$2,301,089 - LCFF -</p>

<p>Increase in resources to expand professional development efforts consistent with the actions below.</p> <p><u>Professional Development</u></p> <p>Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:</p> <ul style="list-style-type: none"> • Standards-Focused Professional Development improving instructional capacity in all content areas. • Alternatives to suspension • Positive Behavior Support Systems • Student placement of EL, SEL, and LTEL students • Long Term English Learners (LTEL) Courses and LTEL Designees. • Common Core State Standards English Language Arts shifts, mathematics and supplemental programs • Response to Instruction and Intervention (RtI) • Effective use of technology in the classroom for teaching and learning • Assessment of student progress • Writing, speaking, and listening standards • Content standards integration • Integration of the Arts • Teacher Growth and Development Cycle • Strategies for students with 	<p><u>Professional Development</u></p> <p>The two primary initiatives funded through this Action included the Beginning Teacher Growth and Development Induction and the STEP UP and Teach paraprofessional teacher training program. Both programs professional development of these staff members supporting the implementation of state standards and the priority topics in the LCAP regarding the Teacher Growth and Development Cycle, the English Learner/Standard English Learner Master Plan, strategies for students with disabilities in General Education settings, and mastery of the California Standards for the Teaching Profession.</p> <p>The Beginning Teacher Growth and Development Induction (BTGDI) is a two-year job-embedded teacher induction program accredited by the California Commission on Teacher Credentialing and supports beginning teachers holding a Preliminary Multiple Subject or Single Subject Credential. BTGDI is committed to accelerating teacher growth and development as professional educators, leading to a California Clear Teaching Credential. The induction journey includes on-going individualized professional development and support, development of an Individualized Learning Plan, mentoring on classroom instruction, and active participation from site administrators. In the 2018-19 school year, 756 teachers were served by mentors and district staff. 320 of those teachers were in the year 1 cohort and 456 were in the year 2 cohort. Of those teachers, 213 were earning their multiple subject credential and 444 were earning their single subject credential. This program plays a critical role in ensuring the district continues to have highly qualified teachers serving students. Additional information about this program may be found at https://achieve.lausd.net/Page/354.</p> <p>The STEP UP and Teach program provides guidance and support to LA Unified paraeducators who desire to become teachers. The different cohorts focus on different high need teaching areas such as special education and multilingual/multicultural (bilingual) education. The program provides mentoring regarding academic pathways, credential requirements and teacher preparation programs. Participants must engage in a Review of Instructional Standards Experience (RISE) designed to provide them with an opportunity to develop their teaching skills with the guidance of a practicing teacher. RISE is aligned with the Teaching and Learning Framework</p>	<p>3000-3999 Employee Benefits \$1,643,327 - LCFF - 4000-4999 Books and Supplies \$30,631 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>3000-3999 Employee Benefits \$25,067 - LCFF - 4000-4999 Books and Supplies \$46,355 - LCFF - 5000-5999 Services and Other Operating Expenses \$17,287 - LCFF - 6000-6999 Capital Outlay</p>

Action 4

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Instruction</u></p> <p>The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a students ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the Districts curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the greatest impact and learning gains by all of our students.</p> <ul style="list-style-type: none"> • Teachers and instructional staff • Implementation of shifts in Mathematics and ELA • Interdisciplinary instruction • English Language Development (ELD) Standards Phase-In Plan • Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative • Contracts to support effective Common Core State Standards instruction • Design lessons • Digital curriculum aligned to the Common Core State Standards via 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>As noted in previous annual updates, a significant portion of the District's base local control funding formula fund were aimed at supporting the instructional core of the District's programming. As such, school-sites were normed teaching staff and other personnel to carry-out the instructional program while also providing necessary tools to improve the quality of instruction.</p> <p>Instructional practices continue to focus on implementation of multi-tiered systems of support that provide differentiation and personalization for all students. One area of focus district-wide has been in the alignment of instruction with expectations on the state Smarter Balanced English Language Arts and mathematics assessments. School-site implementation of the Smarter Balanced interim assessment blocks has increased district-wide over the past three years, especially as the tools for teachers and administrators to use the results to inform instruction have improved in the Smarter Balanced Digital Library.</p> <p>Dual language programs - the district continued to invest in the expansion of these programs in schools during the 2018-19 school year. The 137 programs across the district include target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic. Schools transitioning to these programs need additional professional development and instructional supports to ensure that effective instruction is implemented in English and in the target language. At the elementary level, students have a minimum of 50% of each instructional day in the target language. At the secondary level, students have a minimum of two periods in a six period day that are taught 100% in the target language. These programs support district goals for academic achievement and support bilingualism and biliteracy as well as sociocultural</p>	<p>\$1,051,238,886 - LCFF - 1000-1999 Certificated Salaries \$601,886,560 - LCFF - 2000-2999 Classified Salaries \$135,478,615 - LCFF - 3000-3999 Employee Benefits \$207,795,137 - LCFF - 4000-4999 Books and Supplies \$4,750,234 - LCFF - 5000-5999 Services and Other Operating Expenses \$155,567 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$1,276,039,076 - LCFF - 1000-1999 Certificated Salaries \$130,111,000 - LCFF - 2000-2999 Classified Salaries \$550,922,450 - LCFF - 3000-3999 Employee Benefits \$32,683,224 - LCFF - 4000-4999 Books and Supplies \$11,774,786 - LCFF - 5000-5999 Services and Other Operating Expenses \$922,152 - LCFF - 6000-6999 Capital Outlay</p>

the Instructional Technology Initiative <ul style="list-style-type: none"> • Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards. • Arts integration 	competence.

- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

- schools. At the secondary level, the Division of Instruction identified an appropriate literacy diagnostic assessment to begin being utilized in schools to inform identification of students and their skill levels.
- English Learners - The Multilingual, Multicultural Education Department continued professional development on and analysis of English Language Proficiency Assessment for California (ELPAC) results and how to support integrated English Language development across the content areas. In addition, the Access, Equity and Acceleration team continued to support schools with the implementation of Language Assessment Scales (LAS) Links to identify probable standard English learners and to monitor progress of standard English learners in schools.
 - Mathematics - District-wide implementation of the Smarter Balanced interim assessment blocks and comprehensive assessments continued to increase for English Language arts and mathematics. Recommended interim assessment blocks, including selected response and performance tasks, were identified in Fall and Spring testing windows to allow for calibration of student progress. Local Districts and the Division of Instruction continued professional development in schools on the alignment of classroom assessments with the levels of rigor expected on the Smarter Balanced assessments.
 - Dual Language - These programs continued to utilize language literacy assessments (e.g., IDEL-Spanish Language Literacy, Korean Language Test, Mandarin Language Test) in target languages to monitor student progress and to inform curriculum and instruction.
 - College Readiness - The Advanced Learning Options team continued to support district-wide implementation of the PSAT/NMSQT in October each year for all Grade 10 students as well as Advanced Placement and International Baccalaureate assessments for eligible high school students across the district. New for 2018-19 was the district-wide implementation of in-school SAT

administration for all Grade 11 students in March 2019.

Please note that classified and certificated salaries and benefits were shifted to the Central Office (Goal 6 Action 3) to more accurately represent the work these staff were engaged in to support data use district-wide.

The District is also committed to increasing positive outcomes for students with disabilities at an accelerated pace. Across the nation, academic outcomes for students in special education are typically below expectations. The critical factor for increasing student outcomes is to provide students with disabilities high-quality instruction in the general education setting.

Listed below are actions items that speak to increasing outcomes for students with disabilities:

- Reduced the number of special day programs that offered a grade span of 2 or more grade levels
- The duration rate of services provided for all students IEP services for all IEP services categories exceeded 90% measured at the end of the 17-18 school year.
- Delivered professional development to various stakeholder groups on myriad of topics, including but not limited to:

1. Inclusion - (Family engagement, quality IEP, staff capacity and engagement, and planning for inclusive student experience)
2. Reclassification of English language learners
3. Building substantially compliant special education systems
4. Supports for students with Dyslexia
5. Academic language development
6. Reading/Mathematics
7. Student Support and Progress Teams (SSPT)
8. Multi-Tiered System of Support (MTSS)
9. Positive Behavior Intervention Supports (PBIS)

Listed below are performance levels for some of the districts Modified Consent Decree Outcomes (Data as of 5/15/19 source: Welligent)

Outcome #	Description	Target	Current

5	Long Term Suspensions	8.6%	.098%
6	Placement of students with SLI and SLD in General Education	73%	87%
14	Parent Participation	75%	84%
10	Timely completion of Assessments with in 60 Days	90%	80%

There were instances where lowering the grade span was not feasible due to low student counts but our</p>	<p>\$6,237,112 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$6,149,979 - LCFF - 2000-2999 Classified Salaries</p> <p>\$9,842,909 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$7,159,552 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,980,373 - LCFF - 2000-2999 Classified Salaries</p> <p>\$7,989,124 - LCFF - 3000-3999 Employee Benefits</p> <p>\$570 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

<p>meeting the Districts core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with 80%-100% unduplicated pupils.</p>	<p>overall expectations for special day classes on core curriculum was to limit the number of grade levels assigned to teachers. These activities were monitored in our ECAST and Norm Day processes.</p> <p>In addition, LAUSD expanded the number of school sites implementing inclusive practices. The pilot has been in effect since 2014-15 growing from 32 schools its first year to 50 schools in SY 18-19. While the pilot has been relatively organic in years past, this year the DSE has provided additional oversight and support through a dedicated team called AEIO (Access, Equity, Inclusion, Outcome).</p> <p>The AEIO team focuses on providing professional development in four performance areas: Family partnership, Quality Individualized Education Program (IEP), Staff capacity and Engagement, and Planning for Inclusive Student Experience. In the Fall on 2018, the Division of Special Education conducted a kick-off meeting for school site leaders and their inclusion teams that set the tone and communicated the suggested deliverables. Each of the new schools were assigned support personnel to help them implement the work.</p>

provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive of reclassified fluent English proficient students (RFEPS)

-Provide for EL/SEL Instructional Coaches

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the Districts English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and

1. Implemented adopted Master Plan programs and services under the 2018 Master Plan for ELs and SELs
2. Developed and provided 2018 Master Plan training for teachers, administrators and parents
3. Provided a Master Plan Institute for all EL Designees
4. Promoted the expansion of Two-Way or One-Way Dual Language Education programs
5. Provided professional development on the ELD standards; Designated/Integrated ELD; Dual Language Education; Constructive Conversation Skills (Create, Clarify, Fortify and Negotiate); High Impact Practices (Fostering Academic Interactions, Using Complex Text, Fortifying Complex Output); EL Instruction Approaches (Active Listening, Extended Communications, Oral Summarizing); Academic Conversations and ELPAC Task Types
6. Multi-funded EL Instructional Coaches (149 positions) to support teachers of English learners in planning, implementing, and assessing Integrated and Designated ELD and implementation of adopted High Impact Practices/EL Instructional Approaches. EL instructional coaches engaged teachers of ELs in coaching cycles, modeled, co-taught and provided actionable feedback.

Pre-school for All (PAL)/Pre-school collaborative (PSC): This year continued the embedding of Speech & Language Pathology support into existing PAL & PSC classes supports early identification and language development for english learners. A significant portion of PAL students are low-income and English learner students needing additional speech and language pathology support to prepare them for general education integration in kindergarten and/or in the early primary years.

Accelerated Academic Literacy funding is now allocated to purchase instructional materials and services and fund professional development for schools and teachers that are implementing Tier II and/or Tier III intervention programs administered by the Division of Instruction.

<p>Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth.</p> <ul style="list-style-type: none"> - Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years. - Fellowships, and professional development. - Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low 	<p>The Division of Instruction has purchased licenses and services for the Renaissance Star Reading Assessment, a nationally recognized research-based assessment that measures students reading levels, skills, and their mastery of the state English language arts standards. Beginning in 2019-20, middle and high schools (up to 40) that implement the ELA Tier II intervention program will have access to this assessment to use for universal screening and progress monitoring. Middle schools will be able to assess all students (grades 6-8); high schools will be able to assess all grade 9 and 10 students.</p> <p>In 2018-19, a new Tier II intervention curriculum was implemented in the following high schools: Sotomayor Arts and Sciences Academies, Torres HS-East Los Angeles Performing Arts Magnet, Jordan HS, and Wooden Continuation HS. This intervention program is grounded in a poetry-based programGet Lit/Words Igniteand provides students with more targeted instruction on reading skills (literary analysis), academic vocabulary, speaking and listening skills, writing (poetry, expository, and narrative) and social emotional learning skills. Plans are to expand the program in 2019-20 to 15 more schools.</p> <p>In 2019-20, a new Tier II intervention curriculum will be implemented for 20 middle schools. This program is grounded in the Reading Apprenticeship Framework and will use instructional models that provide multiple opportunities for students to actively collaborate, integrate technology, engage in independent reading, and build their reading, writing, and speaking and listening skills.</p>		
--	---	--	--

income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The

absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology

capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>For the 2018-19 school year. all high school, middle school and sites with grades 4-6 were provided an additional teacher position to assist with class size</p>	<p>\$12,736,848 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,802,364 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$11,427,796 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,101,462 - LCFF - 3000-3999 Employee Benefits</p>

comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes.

Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the Districts school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for

reduction and offer additional enrichment courses. Specifically, the positions were used to support class size reductions in physical education and/or to asset in the offering of elective courses, and/or courses activities such as AVID, MESA and Leadership.

Early Language and Literacy Program (ELLP)

This program was expanded to include 520 elementary schools district-wide with its fourth cohort in 2018-19. Over 2,500 teachers have been trained in elementary schools across the district. On-going professional development and monitoring of implementation was provided by the Division of Instruction and Local Districts. Implementation support was the focus for cohort 3 and 4 schools, and differentiated support was provided to cohort 1 and 2 schools that were trained in the 2015-16 and 2016-17 school years. Professional development concentrated on the use of data from the Dynamic Indicators of Basic Literacy Skills (DIBELS) early literacy assessment and differentiation of instruction to meet the specific instructional needs of students. These assessments are administered three times per year to monitor student progress and to inform professional development and teacher instructional planning. This year, the Division of Instruction has increased focus on kindergarteners scoring Above Benchmark on the end-of-year DIBELS assessment because findings show that 90% of kindergarteners who scored at that level maintained Benchmark or above through the end of 3rd grade. Additional information about the Early Language and Literacy Program and more recent data reports may be found on the Division of Instruction Elementary English Language Arts website at: <https://achieve.lausd.net/Page/5223>.

students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

Every school in the district provided arts classes from highly qualified certificated teachers. The list of programs at every school are listed in the LA Unified Arts Programs 2019 document that may be downloaded at the following website: <https://achieve.lausd.net/Page/13308>.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the [California School Dashboard](#), as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

For 2018-19, LA Unified implemented the actions for this goal with fidelity. Some highlights of the implementation of these actions include:

- Served over 7,000 foster youth through counselors in the Foster Youth Support Plan
- Implemented adopted programs and services under the 2018 Master Plan for English learners and Standard English learners
- Delivered mandatory professional development for all elementary through high school teachers the programs and instruction described in the Master Plan
- Revised secondary literacy intervention program to include a diagnostic assessment to identify students in grades 6-10 that may need additional Tier II intervention
- Implemented new Tier II literacy intervention curriculum in four high schools focused on targeted instruction on reading skills, academic vocabulary, speaking and listening skills, writing and social emotional learning skills, with plans to expand to 15 more schools in 2019-20
- Expanded dual language programs to 137 across the district including target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic
- Expanded 8 California state part-day preschool programs to full day with plans to add three more in the next year
- Increased the number of schools implementing inclusive practices for students with disabilities to 50 schools in 2018-19
- Provided additional teacher position to assist with class size reduction and offer additional enrichment courses in all middle and high schools and sites with grades 4-6
- Continued implementation of the Arts Equity Index to support programming gaps in high needs schools

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

LA Unified demonstrated incremental student performance growth on the English Language Arts and mathematics Smarter Balanced summative assessments in the 2017-18 school year, with both showing increases in the distance from standard met measure and yellow performance levels for both. The focus on implementing standards-aligned curricula in these content areas as well as continued investments in professional development for early literacy and secondary literacy interventions should continue this positive trend. Schools continue to utilize the Smarter Balanced interim assessment blocks to align the rigor of classroom instruction with the expectations of the state assessments. [Local Districts and schools have provided feedback on ways to improve reporting on the results of interim assessments, and the District has continued to work with state assessment staff to improve the reporting features. Based on initial feedback from schools implementing Cognitively Guided Instruction \(CGI\) to improve math performance in the elementary grades, the Division of Instruction began increasing supports for implementing CGI practices in schools during the 2018-19 school year through professional development and partnerships with CGI experts. Feedback from teachers on CGI implementation and professional development indicate the positive impacts on math instruction and alignment with state assessment expectations.](#)

The DIBELS early literacy assessment continues to be a focus of elementary schools as teachers are trained in the use of those results to inform instructional practices through the Early Language and Literacy plan (ELLP). [Feedback from Local District and school leaders on the ELLP indicate a continued need to improve school-wide implementation of these practices, so the District will continue to support professional development for school teams and teachers to ensure teachers have the resources and understanding to utilize DIBELS results to differentiate instruction for students.](#)

The performance of English learners continue to be a focus of schools as the 21% reclassification rate was a higher rate than the 2017-18 target of 20%. The percentage of English learners who did not reclassify within five years was 17%, meeting the target of 17% for the 2017-18 school year. The Multilingual, Multicultural Education Department (MMED) continues to implement the English Learner and Standard English Learner Master Plan (accessible at: <https://achieve.lausd.net/Page/14743>) to ensure effective instruction for these students. Based on feedback from Local District English learner administrators and school site coaches, MMED continues to refine its supports and professional development offerings to improve school site implementation of Master Plan elements, particularly integrated English Language Development supports.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 2 Action 4 Reed Investment Schools will be ending effective June 2019 - funds for these schools will be folded into Goal 2 Action 5 School Autonomy through the Student Equity Needs Index, allowing schools to have greater flexibility in allocating funds for school-determined needs.

Goal 2 Action 8 Supporting Integrating Special Education Students into General Education - this program was expanded from the identified schools in the prior year to additional elementary through high schools in the 2018-19 school year. Recognizing that these inclusive practices are valuable for improving the achievement of students with disabilities, this program will be expanded to more schools in the 2019-20 school year and will be folded into Goal 2 Action 7 Special Education.

LA Unified received approximately \$12 million through the Low Performing Student Block Grant to address the achievement of students who were not meeting academic achievement standards on the state assessments. The district has developed a plan to provide per pupil allocations to schools with four or more identified students in order to allow them to develop a plan for how to serve these students. A menu of recommended services will be provided to all schools to guide their decisions. Schools with three or fewer identified students will receive support from their Local Districts to utilize data from interim assessments to improve interventions and supports.

Goal 3

100% ATTENDANCE

State and/or Local Priorities Addressed by this goal:

State Priorities: 5. Pupil engagement

board member was integral in supporting changes to the District dress code policy. The Unit also convened Student Conferences for Young Women and Young Men of Color to offer strategies to students that will lead to improve student achievement and increased readiness for college.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified continues to implement a variety of actions to strive for 100% attendance across schools. The district has developed data dashboards for school and Local District leaders to monitor student attendance throughout the year, and school and district investments have been made to support programs that recognize students for positive attendance outcomes and to support students and families that have data that indicate challenges with attendance. The comprehensive array of physical, social emotional and mental health service supports and resources continue to be provided to address the needs of the districts most vulnerable low income and foster youth. About 24,700 immunizations and 75,384 medications have been administered by staff, and staff enrolled 2,917 students and family members in no-cost health insurance plans. Wellness Clinics serve as school-based hubs for clinical mental health services, and at mid-year about 1,947 students had received services and 21,704 counseling hours were provided at these Clinics.

The Homeless Youth Program supported PSA counselors in providing training to over 2,000 designated school stie homeless liaisons this year. The LA Unified School Enrollment Placement and Assessment (SEPA) Center provides support to all families and to newly arriving families to assist with the school enrollment process, access to medical and mental health services, housing, linkages to legal services, and other district and community resources. LA Unified also implemented a We Are One campaign to support undocumented students and families.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

For 2017-18, the overall district performance on the metrics for this goal were positive. With 66.9% of students attending school 96% or more (172-180 school days), a measure of positive attendance that the district monitors and provides school leaders with data dashboards to track throughout the school year. Feedback from school and Local District leaders indicate that investments in supports through this Goal will continue to be important to support specific student populations (e.g., foster youth) as well as overall attendance. The district performance on chronic absenteeism rates was orange on the state dashboard, with 10.3% of students in grades K-8 chronically absent which was similar to the rate in 2016-17. Staff attendance rates, another measure of school climate, was 78.0% for staff attending 96% or above, meeting the target for the 2017-18 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Goal 4

PARENT, COMMUNITY AND STUDENT ENGAGEMENT

State and/or Local Priorities Addressed by this goal:

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Annual Measurable Outcomes

The Local District PACE Units provided materials and training to Parent and Family Center Staff to engage parents of students with special needs and other student groups. In addition, PCS provided instructional materials and training to certificated staff who support Parent and Family Center Staff in order for the parent centers to be inclusive of all families, particularly families of students with special needs and English learners and Standard English learner students. PCS provided mandatory training schools that participated in the Parent and Family Center Improvement Program. The parent center staff received training on using bilingual reading materials with parents, strategies for developing parent leadership through conversation, parenting resources, and materials to support a college-going culture. Additionally, participating schools were provided with instructional materials for preschool aged children who can be engaged in instructional activities while family members participate in workshops in the Parent and Family Center.</p>	<p>\$40,488 - LCFF - 1000-1999 Certificated Salaries \$71,774 - LCFF - 2000-2999 Classified Salaries \$57,315 - LCFF - 3000-3999 Employee Benefits \$21,070 - LCFF - 4000-4999 Books and Supplies \$12,034 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$55,455 - LCFF - 1000-1999 Certificated Salaries \$71,894 - LCFF - 2000-2999 Classified Salaries \$56,008 - LCFF - 3000-3999 Employee Benefits \$13,917 - LCFF - 4000-4999 Books and Supplies \$10,299 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

PCS and the Local District PACE teams hosted Local District study groups to engage and support parents. The English Learner Advisory Committee (ELAC) Study Group, Local Control and Accountability Plan (LCAP) Study Group and the Title I Study Group were offered quarterly and/or monthly throughout the Local Districts. The ELAC Study Groups focused on supporting the parents of English learners. The LCAP Study Groups focused on seeking input from parents regarding the six LCAP goals. The Title I Study Groups provided parents with training on state, federal and local parent engagement strategies and opportunities to provide input on the Title I mandates. In addition, the Local District PACE units offered Modified Consent Decree Parent Training Sessions at the Local Districts and provided parents of students with special needs with academic and social-emotional support workshops at their school sites. The PACE units led Parent Portal training sessions so parents of students with special needs could access their students Individualized Education Plans online.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified values the partnership with parents, community and students and continues to engage these stakeholders in supporting the success of students. For the 2018-19 school year, all schools were required to facilitate four Local Control and Accountability Plan parent workshops and five English Learner Advisory Committee parent workshops. The LCAP workshops addressed graduation requirements (A-G course requirements), attendance best practices, and two instructional workshops that schools could select from a menu on the Parent and Community Services website that included math practices, English Learner Development standards, high frequency words, language development, reading comprehension, supporting home learning for all students, the English Learner Master Plan, and the DIBELS early literacy assessment for grades K-2, college and career readiness in elementary/middle schools, and social-emotional learning and behavior. The ELAC parent workshops included the Master Plan, attendance best practices, comprehensive needs assessment, the single plan for student achievement, and the language census.

This year, the district also engaged Local Districts in convening 41 stakeholder study groups that facilitated parents and community members in reviewing the district Local Control and Accountability Plan and providing feedback to support revisions and development of the 2019-20 LCAP. Two additional meetings were held with community-based organizations in May to capture input from the community on the priorities of the LCAP and the Districts goals. Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were also held from January to June to provide comments to and receive responses from the Superintendent on the LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

2017-18 results district-wide on parent, community and student engagement metrics showed a continuing need for improvements in parent engagement. The percentage of parents who stated my school provides resources to help me support my child's education was 90.0% in 2017-18, just below the target of 93%. For 2018-19, the School Experience Survey had 83% of high school parents, 85% of middle school parents, and 89% of elementary school parents agreed. Parent response rates on the School Experience Survey were 39% for high schools, 46% for

middle schools, and 53% for elementary schools. While only 68.0% of students felt a part of their school on the School Experience Survey in 2017-18, the 2018-19 results show improvements with 81% of elementary students, 68% of middle school students, and 61% of high school students agreeing with that statement. This difference may have been the result of changing the timeline for completion of the survey in 2017-18. The district continues to provide greater flexibility and supports for schools to achieve the target of having parents trained on academic initiatives with a minimum of four workshops annually.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

The funding for Goal 4 Action 1 Targeted Parental Involvement has been reallocated to Goal 1 Action 5 School Autonomy under the Student Equity Needs Index to allow for greater flexibility for schools to utilize these supplemental and concentration funds to support school site needs. The metrics for this goal have not changed.

Goal 5

ENSURE SCHOOL SAFETY

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Restorative Justice Unit continued the training plan that began in 2014-15 and will lead to district-wide full implementation of Restorative Justice in schools by 2020. Since 2014-15, 783 schools have been trained in Restorative Justice community building circles, empathy and team building, defusing disruptive behavior and repairing the harm and re-entry circles. During the 2018-19 school year, 162 cohort 4 schools were trained in Tier II and II practices as well as repairing the harm and re-entry circles. During this year, 142 cohort 5 were trained in Tier I practices including community building circles, empathy and team building and defusing disruptive behavior. The 65 Restorative Justice teacher advisors supported schools directly in implementation of these practices to improve the culture and climate in classrooms. Six Local District Restorative Justice advisers provided professional development and support to school staff and leaders. Additional information about the Restorative Justice Unit may be found at: <https://achieve.lausd.net/restorativejustice>.

The Los Angeles School Police Department (LASPD) assisted students, teachers, administrators and the community in providing a safe environment for learning in schools. Officers were

assigned to school campuses and patrolled the surrounding areas, and School Safety Officers were also assigned to school campuses and parking enforcement. The LASPD shares jurisdiction and interacted with over 13 municipal and county law enforcement and emergency services agencies during the school year. Campus officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in student mentoring programs, partake in study sessions with at-risk students, participate in anti-gang lecture/seminars, and ensure for the safety of students. Furthermore, the LASPD has a robust youth services component that includes the Police Explorers and Police Academy Magnet Schools (PAMS). Officers receive training on Restorative Justice, Behavior Safety Emergency Training (B-SET) and Implicit Bias. Officers interact with students on a daily basis during arrival and dismissal, nutrition and lunch as well as the numerous special events with Anger Management Program for Students (AMPS) and Ready and Able for Middle School (RAMs). Additional information about the LASPD may be found at: <https://achieve.lausd.net/laspd>.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

District-wide performance on the metrics for School Safety showed that the district is meeting or nearly meeting most targets. The single student suspension rate (in and out of school) was 0.47% in 2017-18, and the target for 2018-19 is 0.4%. Instructional days lost to suspension remains low at 4,636 for 2017-18, well below the target of 5,667 for that year. Input from school site staff and Local Districts indicates that the expansion of Restorative Justice implementation has contributed to alternative approaches to student discipline practices.

The percentage of students who feel safe at school was 84% in 2017-18, and target for 2017-18 was 80%. For the 2018-19 School Experience survey:

- 90% of high school students felt safe on school grounds during the school day
- 91% of middle school students felt safe on school grounds during the school day
- 92% of elementary school students felt safe on school grounds during the school day

These results may be contrasted with the extent to which students felt safe in the neighborhood around their schools, which ranged from 77% to 79% for students in the same schools. Within schools, the total number of referrals for 2017-18 was 62,878 compared to 56,196 in 2018-19 as of June 1. The expulsion rate remains low at 0.02% in 2017-18 compared to the target of 0.01% in 2017-18 and 2018-19.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees. For Goal 5 Action 2, expenditures exceeding the budgeted amounts for school police funding represent changes in salaries, benefits and additional overtime hours for staff. Events and community occurrences throughout the year dictated an additional need for school police presence around school sites.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the [California School Dashboard](#), as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All actions for this goal were implemented as described. The Human Resources division continues to increase the diversity of the teaching staff district-wide to reflect the diversity of the students served in schools. The 2018-19 new hire LA Unified teacher cohort includes 46% Hispanic/Latinx, 11% Asian, 9% Black, 3% Filipino compared to the LA County teacher demographics of 32% Hispanic/Latinx, 8% Asian, 8% Black, 2% Filipino. In addition, approximately 31% of teachers were evaluated by a school leader by the end of the 2018-19 school year.

LA Unified continues to provide additional maintenance and operations support to schools, with Tiger Teams comprised primarily of custodians providing additional cleaning and other services over the weekend at approximately 650 sites. Strike Teams, which include various craftworkers, performed repair and renovation projects at approximately 200 schools.

Breakfast in the Classroom was served at 96% of schools, providing an opportunity for every student at sites to eat breakfast at no charge. Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All targets were met or nearly met consistent with the statutory requirements that govern teacher assignments, instructional material availability and facilities conditions. The Human Resources Division continues to strive for 100% of teachers are appropriately credentialed for the students they are assigned to teach, with 99.3% in 2017-18. For the Districts support for students with disabilities, the percentage of children whose eligibility for special education services were determined within the 60 days in the guidelines was 99.96%, far exceeding the targeted 89% of 2019-20. In addition, 92.5% of students with disabilities received services as specified in their Individualized Education Plans (IEPs) compared to the 2018-19 target of 90%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. For Goal 6 Action 3, budgeted amounts versus expenditures identified vary due to the volatility of operational costs, such as utility usage and rates, telecom and fleet maintenance, etc.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal or actions.

Stakeholder Engagement

LCAP Year: 2019-20

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LA Unified utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District.

During the Fall and Winter of the 2018-19 school year, the District engaged in extensive stakeholder engagement meetings in communities around the district to receive feedback on current district progress and recommendations on how to improve outcomes for students. This community engagement included 3,000+ families, teachers including representatives from bargaining units, principals, other school site administrators and personnel, classified staff, students and community members participating in 150+ focus groups across the district. Feedback from these groups was categorized into three broad themes of supporting teachers, empowering principals and engaging families and communities. Some examples of specific recommendations included reducing class size, adding counselors, nurses, librarians and support staff to work with teachers, increase dollars targeted toward high need students, matching local district support to communities of schools, building the capacity of school leaders, moving toward greater budget flexibilities, removing barriers for family engagement, and meaningful engagement with parents as partners.

Special priority was made this year to meet with a broader base of parents of the targeted student populations served through the LCAP, and to provide these parents with a deeper understanding of the plan. The District made a conscious effort to expand the timeline of engagement in the prior school year in order to better utilize parent feedback in the development of the LCAP. The District's engagement efforts began in October, with District staff collaborating to present the expenditures, actions and services. A total of 41 meetings were held from October through February by the District with a focus on capturing feedback for the development of the LCAP. Participants included representatives from school site councils and English Learner Advisory Councils across each Local District.

Two additional meetings were held with community based organizations in May to capture input from the community on the priorities of the LCAP and the District's goals. Community-based organizations included various groups representing student and staff stakeholders including Public Counsel, Youth Policy Institute, Partnership for Los Angeles Schools, Leaders for Educational Equity, CHIRLA, Educators for Excellence - Los Angeles, Asian Americans Advancing Justice, Children's Defense Fund - Los Angeles, CARECEN, Advancement Project, UCLA Center X, MALDEF, United Way of Greater Los Angeles. At these engagement sessions, stakeholders were also asked to provide strategies that would strengthen the plan and will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth.

Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were held from January to June. District personnel provided updates on a number of programs highlighted by the LA Unified's LCAP at the advisory committee meetings. In particular, they focused on key programs funded by new and ongoing investments made in 2018-19 and, in some cases, provided progress updates on targets and strategies established in the 2017-18 LCAP. In addition, the District's parent committees were able to review year-end data from 2017-18 and any available current year data. For the 2018-19 LCAP, the School Experience Survey results also informed school perceptions and needs for students, parents and staff. The annual student School Experience Survey continues to be a main source of student engagement and feedback on the effectiveness of district-wide initiatives and focus areas. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources: lcff.lausd.net and achieve.lausd.net/budget.

Permissible within the CA Education Code, the LAUSD DELAC is serving in place of the English Learner Parent Advisory Committee (ELPAC). The DELAC is comprised of 48 school English Learner Advisory Committee Chairpersons who are elected from their peers. They serve on staggered two-year terms.

The PAC continued in its fifth year with elected governing officers. In 2018, members on the PAC were elected from each of the six LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Two guardians representing Foster Youth were also elected from each region across the District. The parents of English Learner, Foster Youth, Low-Income students and the parents At-Large elected their representatives, respectively. In addition to these groups of parents, seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 55 members of the PAC serving on staggered two-year terms.

The Superintendent provided written responses to the both the PAC and DELAC comments that were developed throughout the 2018-19 school year and submitted to the Superintendent in

The Board of Education held a public hearing for the LCAP on Tuesday, June 11 and the Board adopted the LCAP on June 18, 2019.

All parent comments and Superintendent responses may be found at www.achieve.lausd.net/lcap.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

The 41 Local District LCAP study groups offered the opportunity for parents and community members to engage in deeper dives into the actual LCAP goals and actions and to provide feedback. Themes from the feedback from these study groups included:

- Continued focus on college and career readiness for all students
- Requests for additional focus on struggling students and closing achievement gaps for low performing student groups
- Recommendations to continue implementation of the English Learner Mastery Plan to improve reclassification rates and English learner performance
- Increase engagement of parents as partners through trainings on topics most relevant to student needs (e.g., technology training)
- Improve services and supports for students with disabilities to ensure their success

The Parent Advisory Committee and District English Learner Advisory Committee comments to the Superintendent had some of the same themes in common with the Local District study groups. The comments spanned all six district LCAP goals. Some of the highlights of these comments included:

- Requests for increasing college readiness supports for middle and high school students, particularly around the use of Naviance and supports for PSAT and SAT preparation
- Recommendations to increase social-emotional learning supports district-wide
- Concern for the performance of special education students and the systems implemented for their success
- Increase the number of counselors in schools to support college and career readiness as well as reduce chronic absenteeism
- Recommendations to continue restorative justice program and supports for effective school implementation
- Support for continued school safety supports and recommendations for building positive relationships between school police and school communities
- Recommendations to have the district monitor and evaluate the effectiveness of programs implemented in the LCAP

The comments above were also echoed by the community organizations in the two meetings held with representatives from those groups. Additional recommendations from the community organizations included:

- Continue funding and implementation of Foster Youth Achievement program
- Provide evaluations on the progress of implementation and effectiveness of district programs
- Continue funding Student Equity Needs Index and seek ways to minimize the impact of changes in school allocations
- Ensure adequate investments for targeted student populations are monitored and transparent

The priorities identified in the recommendations above are included in the District's budget. Investments for English learners, foster youth and low income students are identified in subsequent pages of this document. The LCFF investment priorities reflect this feedback as well as the data analysis of District teams in order to align with target outcomes. **Some examples of the impact of this feedback on the LCAP are as follows:**

- **Goal 1 Action 5 School Autonomy** - Expansion of this Action in 2019-20 focuses on providing additional funding and flexibility for schools to determine how best to improve outcomes for students. This includes expansion of the Student Equity Needs Index and maintaining funding levels for all schools in 2019-20. Schools have primarily directed these resources toward increasing staffing to reduce class sizes and to improve support services for students (e.g., counselors, nurses, and librarians/library aides).
- **Goal 1 Action 9 A-G Immediate Intervention Plan** - Maintenance of this program to support continued improvements in graduation rates and A-G completion in schools. Some funding for this Action was shifted to Local Districts to provide more tailored supports to schools.
- **Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers** - Continued investment in services for foster youth and site-based supports for high needs students.
- **Goal 2 Action 7 Special Education** - Expansion of supports for integrating students with disabilities into general education by moving this funding to base funding and expanding the

number of schools receiving supports and training on inclusive practices for general education teachers and administrators.

- Goal 5 Action 1 School Climate and Restorative Justice - Shifting of these funds to Goal 1 Action 5 provides schools with additional flexibility in how to implement Restorative Justice practices.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEAs goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Unchanged Goal

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access

Local Priorities:

Identified Need:

- To monitor and support high school attainment
- To increase number of students who successfully complete high school college and career ready
- To monitor and reduce drop-out rates for middle and high school students
- To ensure that 12th grade students have access to the financial aid and opportunities to attend universities, community colleges and/or vocational schools

Expected Annual Measurable Outcomes

Programs & Interventions

Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral,

The Options Program has been integrated into this action in recognition that options schools serve students through the district's multi-tiered systems of support at a Tier 3 level. In 2018-19, a port of the Options program (\$48 million) was covered by supplemental funding. In 2019-20, the full Options program will be covered by base funding, moving funding from

mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE

Goal 1 Action 6 to this Action.

pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways

completed more college preparatory courses compared with similar peers in traditional high school programs.		
· Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

For 2019-20, the funding provided through the student equity needs index has been modified to allow for greater budget flexibility for school sites to support unduplicated students. Whereas past resources were provided to schools in the form of positions, schools now have the budget flexibility to reallocate funds for positions to other positions and/or resources that the school deems necessary. The student equity needs index prioritizes schools based on various community and school indicators. Stakeholder groups were engaged through fall 2019 to provide input on those indicators and the distribution of funding. For the 2019-20 school year, all schools were held harmless with regards to the student equity needs index funding, meaning that no schools received less funding than the 2018-19 school year.

single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

strategies outlined in the District LCAP and a schools single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the Districts LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the Districts LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services

 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery

Examples of funding use at schools sites include:

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

Principals continue to be required to attest that input from stakeholders including school councils and committees was sought to determine the Targeted Student Populations plan for the school. Guidance and allowable expenditures is provided in the 2019-20 Budget Handbook.

Other Actions merged with Goal 1 Action 5 include:

- Goal 2 Action 11 Targeted Instructional Support - funding for elective class size reduction teachers are now part of Goal 1 Action 5
- Goal 4 Action 1 Targeted Parental Involvement - funding for parent engagement at school sites (e.g., parent representatives) are now part of Goal 1 Action 5
- Goal 5 Action 1 School Climate and Restorative Justice - funding to support Restorative Justice implementation (e.g., coordinators or school-site leads) are now part of Goal 1 Action 5

The majority of this funding has been moved to Goal 1 Action 1 Programs & Interventions in recognition that options schools are a Tier 3 intervention within the district's multi-tiered systems of support for high school students. The remaining funds are intended for options schools to support their targeted student populations with personalized learning strategies. These funds are allocated on a per pupil basis for schools to submit justifications for how they plan to improve personalized

learning strategies in their schools such as increasing the availability of technology, professional development for teachers on Mastery Learning and Grading strategies, or the implementation of online literacy resources.

A-G Diploma Program

The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.

The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.

- Tier 2 reflects a student who is 3-4 classes off-track
- Tier 3 reflects a student who is 5 or more classes off-track

A-G Immediate Intervention Plan

Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind

several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning- Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

Action 10

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

English Learners, Foster Youth, Low Income

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

LEA-wide

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Specific Schools: 30 High Schools, 20 Middle Schools

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

2018-19

Select from New Action, Modified Action, or Unchanged Action:

New Action

School Innovation Funds are provided to a subset of secondary schools to improve outcomes for targeted student populations. These targeted funds must be aligned to District Goals as described in the LCAP, and must be expended on services that support one or more of the following areas:

- Significant increases in investment in high need schools, including academic support and mental health, social and emotional support
- Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Funds for Goal 1 Action 10 School Innovation Funds are shifted to Goal 1 Action 5 School Autonomy because these funds are aligned with the objectives for Goal 1 Action 5 to provide school sites with additional funding to support Targeted Student Populations.

- Linked Learning
- School climate initiatives including Restorative Justice
- High school graduation and student recovery from dropout prevention for high need students
- Parent and community engagement, particularly for those from high need communities

Unchanged Goal

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- To increase the percentage of students who score met or exceed on the English Language Arts Smarter Balanced summative assessment
- To increase the percentage of students who score met or exceed on the mathematics Smarter Balanced summative assessment
- To monitor and increase student early literacy rates
- To increase the percentage of English Learners who achieve full English language proficiency
- To increase the number of English Learners demonstrating readiness to participate in a core English Language Arts curriculum
- To decrease the number of Long Term English Learners
- To monitor and support Foster Youth academic attainment
- To monitor and increase the percentage of students with disabilities participating in general education settings

Expected Annual Measurable Outcomes

Planned Actions / Services

Complete a copy of the following table for each of the LEAs Actions/Services. Duplicate the table, including Budgeted Expenditures, as needed.

Action 1

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Foster Youth Support Plan and Family Source Centers

Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:

2018-19

Select from New Action, Modified Action, or Unchanged Action:

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Beginning in the 2019-20 school year, the District will aim to provide local, integrated, specialized support services for targeted student populations, ensuring that students in foster care continue to be served effectively and consistently, while strategically increasing support for students experiencing homelessness and/or involved in the juvenile justice system. This new model of support services personnel will include Pupil Services and Attendance (PSA) Counselors and Psychiatrist Social Workers (PSW), Pupil Services and Attendance Counselor aides, healthy start coordinators and

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (i.e., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

navigators, and additional support staff. This integration model will reduce duplication and maximize personalization of support for students and schools. Staff will generally serve in smaller geographic areas. This will reduce the time spent driving and increase time to provide direct support and build relationships with students, families, and staff. In addition, this will allow the increased opportunity to build adult capacity and systems and structures to meet the needs of students.

Staff will continue to receive supervision, training, and support from Student Health and Human Services administrators. Foundational and differentiated training will be provided prior to and throughout the school year. The District is committed to continuing to gather input from students, families, staff and community partners (i.e. Department of Children and Family Services, Probation, etc.) to ensure that best practices are leveraged and expertise is shared across programs as the District works toward implementation in Fall of 2019.

PSA and PSW will continue to support foster youth and provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (e.g., tutoring, post-secondary opportunities, and career pathways)
- Promote school stability
- Advocate for the educational rights of foster youth
- District-wide initiatives (e.g. Foster Youth Shadow Day, Pathways to College Celebration, etc.)

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors will conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LA Unified support services and other community agencies. PSA Counselors will provide parent engagement through classes and outreach to schools and community agencies. FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc. FSPP coordinates with the DCFS to offer linkages to support services for Voluntary Family Maintenance youth and families.

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state's priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Increase in resources to expand professional development efforts consistent with the actions below.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Development improving instructional capacity in all content areas.

- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

Curriculum

The design and implementation of curriculum is a critical component of the alignment of content and instruction to the Common Core State Standards, as well as development of multiple channels, pathways and models assisting students in completing the standards-aligned content.

- Online courses-credit recovery and core programs
- Supplemental curriculum and materials

The allocated increase in certificated salaries for this Action is for salary raises for District-represented certificated employees that will be implemented in 2019-20. The amount will be shifted to the actual positions and the appropriate Actions once they are implemented.

Instruction

The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a student's ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the District's curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the

greatest impact and learning gains by all of our students.

- Teachers and instructional staff
- Implementation of shifts in Mathematics and ELA
- Interdisciplinary instruction
- English Language Development (ELD) Standards Phase-In Plan
- Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative
- Contracts to support effective Common Core State Standards instruction
- Design lessons
- Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative
- Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards.
- Arts integration

Assessment

Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of

enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.

- Graduation checks
- California High School Exit Exam (CaHSEE) assessments
- Algebra EOC (End Of Course assessment)
- Math Placement Assessment
- Literacy intervention assessment
- K-2 assessments in foundational reading and math
- Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS)
- Progress monitoring assessment tools
- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

- A literacy intervention course with an additional language development component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school.

The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan

engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into

the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

Targeted Instructional Support

Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an

These funds for elective teachers are now incorporated in the Student Equity Needs Index funding in Goal 1 Action 5 School Autonomy.

additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

Arts Program

Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index.

The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts

programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.

Unchanged Goal

Goal 5**ENSURE SCHOOL SAFETY****State and/or Local Priorities Addressed by this goal:**

State Priorities: 6. School climate; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- To sustain the low percentage of student suspensions while providing for targeted reductions in student groups
- To sustain the low number of instructional days lost to suspension while providing for targeted reductions in student groups
- To reduce or maintain the low percentage of expulsions
- To maintain safe and positive school environments

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Single-Student Suspension Rate	All students 0.5% SY 16-17	All students .35%	All students .45%	All students .4%
	Low-income 0.6% SY 16-17	Low-income .45%	Low-income .45%	Low-income .4%

Unchanged Action

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

The majority of these funds have been moved to be included in the Student Equity Needs Index in Goal 1 Action 5 School Autonomy to allow schools to be able to make decisions on how to reduce suspensions and discipline issues within their schools. **Remaining funding is allocated to support Central Office and Local District staffing and professional development costs to continue assisting schools in implementing Restorative Justice practices.**

- Holistic, safe and healthy school environments
- Effective positive behavior support and interventions
- Commitment to a District-wide culture of positive and humanistic approach to working with students, staff and parents.

Funds are prioritized utilizing the District's equity index and through the identification of sites with high incidences of conflict and suspensions. The index is described in Section 3a.

Restorative Justice counselors and teacher advisors will be provided to school sites for purposes of building positive practices and school culture to address student behavior and conflict.

Unchanged Goal

Goal 6

BASIC SERVICES

State and/or Local Priorities Addressed by this goal:

State Priorities: 1. Basic

Local Priorities:

Identified Need:

- To increase the percentage of teachers that are appropriately credentialed for the students they are assigned to teach
- To maintain a high percentage of teachers completing the Educator Growth and Development Cycle
- To increase the percentage of school-based staff attendance to 96% or above
- To maintain a high percentage of schools providing students with standards-based instructional materials by meeting Williams Act requirements
- To maintain a high percentage of facilities that are in good repair

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Percentage of Teachers that are Appropriately Credentialed for the Students They are Assigned to Teach	All Teachers 99% SY 16-17	All Teachers 100%	All Teachers 100%	All Teachers 100%

On-going Major Maintenance

Targeted maintenance to school sites with greatest need.

Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a

week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and Concentration Grant Funds:

\$1,137,257,754

Percentage to Increase or Improve Services:

32.35%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2019-20, LA Unified will budget **\$1.14 billion** in supplemental and concentration funds for continued support and increased services for low income, English learners and foster youth. The District is committed to closing the achievement gaps that currently exist for these students. District-wide goals and targets guide the LCAP to strategically align resources and initiatives to support the success of targeted student populations. In addition, the input from the multiple stakeholder groups including the Parent Advisory Committee and the District English Learner Advisory Committee has been used to inform the decisions on initiatives and expenditures for the upcoming school year. The District targets provide guidance to schools as they plan their programs and calibrate the work of the central office and Local Districts to monitor and support school progress during the school year.

To ensure that all students are prepared for success in college, career and life, LA Unified has focused on offering a cohesive delivery of services that is aligned with multi-tiered systems of support (MTSS). Schools have received professional development on implementation of MTSS, and the Central Office and Local Districts have been supporting the identification of diagnostics and the development of interventions. By placing students at the center of the work ahead, District initiatives will focus on empowering principals, supporting teachers and engaging families and communities in the coming year by:

- Reducing class size
- Adding counselors, nurses, librarians and support staff to work with teachers
- Developing personalized pathways for all students
- Improving services for students with disabilities
- Increasing funding targeted toward high-needs students
- Aligning Local District supports to communities of schools
- Reducing operational demands on principals so they can focus on instruction
- Building the capacity of school leaders
- Increasing budget flexibilities
- Providing more complete information to families and organizations about each school
- Developing opportunities for direct family engagement in Local Districts
- Delivering more wraparound services through the "All In for Public Education" campaign

Brief descriptions of the Actions aligned with services for unduplicated pupils are described below:

- Goal 1 Action 3 Adult and Career Education for Targeted Youth - This program offers opportunities for students to enroll in A-G approved courses to return on-track for graduation during the school year and during winter recess, spring recess and on Saturdays. **A significant portion of these students are low income, English learners and foster youth needing additional supports. This LEA-wide service aims to improve the graduation rate for these student groups.**
- Goal 1 Action 5 School Autonomy - The Student Equity Needs Index distributes funding based on a formula that includes indicators of student and community need. Schools have autonomy to develop a plan to utilize these funds to support district goals, **and school leaders are provided guidance through the District Budget Handbook on allowable expenditures**

- aligned to support high needs students. Each school must provide justification for how these funds are targeting unduplicated students while aligning services with the District's LCAP and the school's strategic goals. Examples of expenditures for schools include nurses, counselors, class size reduction teachers, and additional professional development.
- Assistant Principals: All Assistant Principal roles are aligned with school strategic goals and the District's LCAP outcomes to support low income, English learner and foster youth students.
 - Counselor (High School Only): All high school counselors are provided additional professional development and resources to support the tracking and support of high needs students toward graduation and college/career readiness.
 - School Librarians: These positions are designed to improve literacy outcomes for students across all schools by providing access to text and additional instructional support to students, particularly unduplicated students who may have less access to literacy materials at home.
 - Nurses: Nurses are supported through this Action in order to provide support to students - particularly unduplicated students - who may be in greater need of health care supports as a means of improving student attendance and engagement in class.
- Goal 1 Action 6 Options Program - The personalized learning funding to Options schools provides the opportunity for schools to increase student on-track graduation rates by offering credit recovery, tutoring after school and on weekends, improved access to technology, and additional social-emotional learning supports. A majority of youth that participate in the District's Options schools are low income and English learners. Investments in personalizing instruction for these schools provide additional Tier 3 supports for students in the district's multi-tiered system of support.
 - Goal 1 Action 7 Realigned After-School Program - The District sought to bring greater cohesiveness between the after-school program and regular school day efforts by implementing social-emotional learning programs, increasing training for staff on the needs of foster youth, English learners and students with disabilities, and offering summer term credit recovery and extended learning opportunities for the summer. The majority of students participating in these programs are unduplicated pupils who benefit from participating in these programs which provide academic enrichment and support for students who may not have access to these resources at home.
 - Goal 1 Action 8 A-G Diploma Program - Diploma Counselors were provided to schools to support Tier II and III students who are identified as being at-risk of not graduating. These counselors provided personalized supports to students by meeting with individual students, collaborating with academic counselors, and monitoring student progress. The majority of these students are unduplicated students who may need additional support and assistance, so they receive access to Diploma Counselors who may advocate to teachers on their behalf and provide individualized tracking and guidance to these students.
 - Goal 1 Action 9 A-G Immediate Intervention Plan - Local Districts were allocated funds and developed plans to improve graduation rates and A-G course completion. The Division of Instruction supported Local Districts and schools by providing a variety of resources for credit recovery and college readiness. The majority of students who participate in credit recovery courses are unduplicated students, particularly English learners and low income students, so this Action funds resources such as online and in-person credit recovery opportunities as well as staffing to support schools with implementation of these opportunities.
 - Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers - This Action provides counselors to support the over 7,000 foster youth across the district with academic support, case management, access to tutoring, and advocacy for student educational rights and school stability. The FamilySource Partnership Program supports students and families with referrals and linkages to support services and community agencies.
 - Goal 2 Action 6 Early Childhood Education/Transitional Kindergarten Expansion Plan - The expansion of early childhood programs from part-day to full-day programs as well as the increase in number of Expanded Transitional Kindergarten (ETK) programs are designed to support low income students with high quality early foundational education in order to place students on the track toward early literacy and academic success.
 - Goal 2 Action 9 English Learner Supports - The funding of English learner instructional coaches across schools with high percentages of English learners will continue supporting the district-wide implementation of the English Learner/Standard English Learner Master Plan. The Division of Instruction will also continue the roll-out of MTSS secondary literacy resources such as the diagnostic assessment and Tier II and III curricula. These resources will particularly benefit English learners and low income students at the secondary level who may be falling behind grade level literacy standards.
 - Goal 2 Action 10 Instructional Technology Support - The Instructional Technology Initiative team will continue to provide models of support to schools serving high numbers of low income students in order to increase one-to-one technology access for students. Supports for direct onsite technical support will continue to be provided to ensure that the instructional program at schools is unimpeded. This Action support schools in implementing one-on-one devices in schools in order to bridge the digital divide that exists between households based on income.
 - Goal 2 Action 12 Arts Program - The Arts Education Branch will continue to implement a targeted Arts program that utilizes the District's Arts Equity Index to provide additional resources to schools with high populations of unduplicated students. The Arts equity index utilizes the LCFF targeted populations of low income, foster youth and English learners to identify high needs schools, in addition to identifying arts programming gaps across schools. The intent is to increase the level of arts programming beyond minimum state requirements and to bring parity to school-sites that may not historically have had access to broad arts curricula and programs.
 - Goal 3 Action 2 Targeted Supports to Increase Student Engagement at Campuses of Highest Need - The District will continue to fund additional Pupil Services & Attendance (PSA) counselors, psychiatric social works and student health and human services support personnel to support schools with high percentages of low income, English learners and foster youth. Student engagement, particularly including low income, English learner and foster youth, will continue to occur district-wide in order to receive authentic feedback from students on district-wide policies and to provide opportunities for students to propose suggestions on new district policies.

- Goal 3 Action 3 Homeless Youth Program - This program will continue to fund PSA counselors and resources for students identified as homeless in order to ensure timely enrollment, advocacy for school stability, and academic and personal resources and community-based referrals.
- Goal 3 Action 4 District-wide Student Engagement Plan - School Enrollment, Placement and Assessment Centers (SEPA)s provide supports to all families, particularly newly arriving families, to assist with the school enrollment process, access to medical and mental health services and referrals, housing, and linkages to legal services and other district and community resources. **The majorities of families served by SEPA)s have unduplicated students who will benefit from access to these supports.**
- Goal 5 Action 1 School Climate and Restorative Justice - Restorative Justice implementation district-wide will be entering its final year indicating full implementation of these practices across the district. Continued professional development with schools and funding of support staff will ensure sustainability of these practices in reducing suspensions and expulsions of students. **This Action will continue to benefit unduplicated students the most since they are the student groups that are most disproportionately subjected to disciplinary actions.**
- Goal 6 Action 4 On-going Major Maintenance - Strike Teams, consisting of various craftworkers, will be expanded to 42 community complexes with dedicated journeymen and gardeners to perform repair and renovation projects based on prioritized needs. **This expansion will be directed toward schools with high percentages of unduplicated pupils in order to improve their school environments which should support improvements in attendance and academic outcomes.**
- Goal 6 Action 5 Expanded Access to Meals - The district will continue serving Breakfast in the Classroom at schools, as well as hot and cold supper, to ensure access to healthy meals for low income and homeless youth who may face food insecurity.

LCAP Year: 2018-19

Estimated Supplemental and Concentration Grant Funds:

\$1,164,261,199

Percentage to Increase or Improve Services:

32.60%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2018-19, the LAUSD will budget \$1.16 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. These funds represent a concerted effort to continue and realign current expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to expand early learning interventions and supports for our youngest learners, refocus our secondary ELA interventions, and drive innovation in our neediest schools. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that

ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998)
- **Accelerated Academic Literacy (Goal#2, Action #9):** The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.

- *Assistant Principal:* All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- *Counselor (High School Only):* All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
- The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- *School Libraries/Librarians:* Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
- *Services for Elementary Schools:* Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.

- **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
- **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **School Innovation Fund Program (Goal #1, Action #10):** Invest in the highest need secondary schools in LAUSD which have comprehensive need to support foster youth, homeless youth, math outcomes and school climate outcomes. The resources at these

schools are guided by a clear expectation that schools define their root causes, develop and assess school-based strategies, and collaborate with a student support team focused on addressing the mental health, life and academic needs of students. The coherence-making model is focused on developing a sustainable practice on ongoing inquiry and improvement lead by the school leadership team and supported by District staff.

- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities for academic enrichment in this area of study.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to

assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.

- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. 85% of our students qualify as an LCFF unduplicated pupil. Building parent capacity district-wide is essential to supporting the academic achievement of unduplicated pupils in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #9):** Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required

additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

LCAP Year: **2017-18**

Estimated Supplemental and Concentration Grant Funds:

\$1,134,420,996

Percentage to Increase or Improve Services:

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF. This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that

ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Libraries/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity

index. (Identified in Goal 1, Action #5)

- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- **Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports

that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post- secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.

- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
 - **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high

schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.

- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous,

research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Expenditure Summary

Expenditures by Budget Category			
Budget Category	2018 Annual Update Budgeted	2018 Annual Update Estimated Actual	2019
All Budget Categories	\$5,364,950,681	\$5,246,735,654	\$5,190,756,819
1000-1999 Certificated Salaries	2,105,587,978	2,363,940,639	2,153,313,971

LEA-wide (high schools) 13. LEA-wide (no discussion in DIISUP) 14. LEA-wide (no discussion in DIISUP)

¹ Amended LAUSD LCAP 2018-19 at pp. 123-24 (Budgeted Expenditures).

² LAUSD LCAP 2019-20 at p. 12 (Estimated Actual Expenditures).

³ Amended LAUSD LCAP 2018-19 at pp. 121-23 (Goals, Actions, Services)

⁴ PSA counselors and PSW are combined under one overarching "counselors" label in the GAS and DIISUP section but should actually be separated because they have two different purposes. Amended LAUSD LCAP 2018-19 at pp. 122, 224.

⁵ *Id.*

⁶ See *infra* note 13 (possibly the same as #17 – administrative support).

⁷ All Assistant Principals receive targeted supports through professional development framework for high need students. Amended LAUSD LCAP 2018-19 at pp. 122.

⁸ GAS mentions class size reduction teachers in general, but the DIISUP clarifies the different targeted grade spans. Amended LAUSD LCAP 2018-19 at pp. 122, 225.

⁹ GAS mentions elective teachers in general, see LAUSD LCAP 2018-19 at p. 122, but the DIISUP separates the elective teachers by middle school and high school, *id.* at p. 224-25.

¹⁰ GAS mentions class size reduction teachers in general, but the DIISUP clarifies the different targeted grade spans. Amended LAUSD LCAP 2018-19 at pp. 122, 225

¹¹ *Id.*

¹⁴ This is a districtwide action at the high school level. See Amended LAUSD LCAP 2018-19 at p. 224 ("All High School Counselors are provided additional professional development and directives to support targeted student populations."). It is unclear whether it is targeted to high need students because LAUSD does not specify whether the expenditures are only for the additional professional development and percentage of time newly dedicated to serving high need students or for the entire salary of counselors. (The size of the expenditure suggests it may be the latter, an amount and action not justified in the DIISUP section. See Exh.____, Table ____ 2018-19 DIISUP.)

¹⁵ *Id.*

¹⁶ This is a districtwide action. See Amended LAUSD LCAP 2018-19 at p. 224 ("All Assistant Principals supported through enhanced professional development and focused on improving targeted student populations.") Although some targeting of high needs students is referenced in the DIISUP, it is not clear whether the allocated expenditures are only for the additional professional development and percentage of time newly dedicated to serving high need students or for the entire salary of Assistant Principals. (The size of the expenditure suggests it may be the latter, an amount and action not justified in the DIISUP section. See Exh.____, Table ____ 2018-19 DIISUP.)

¹⁶ *Id.*

¹⁷ The term "high need" is used to refer to any instance where the LCAP specifies schools with "high concentrations of unduplicated students" or when LAUSD refers to schools that rank high on "the District's student equity index."

Although this term may be the same as schools that are ranked high on the district's student equity index

	15. Librarian/ library aide 16. A-G supports - credit recovery <i>Additional Actions listed in DIISUP:</i> ¹² 17. Administrative support ¹³ 18. Redesigned arts program 19. Optional educational settings (alternative to high schools)	15. <i>High need schools</i> (possibly limited to middle schools) ¹⁸ 16. LEA-wide (high school) ¹⁹ 17. <i>High need</i> Elementary schools 18. <i>High need</i> Elementary schools 19. LEA-wide (high school)
--	--	---

¹² See Amended LAUSD LCAP 2018-19 at pp. 223-28. According to the [LCAP Template Instructions](#), all planned actions should be listed in the GAS section and certain districtwide or schoolwide actions designed to increase or improve services for unduplicated pupils should be listed in the DIISUP section. However, LAUSD lists additional services in the DISSUP section that are not mentioned anywhere in the GAS section. See Amended LAUSD LCAP 2018-19 at p. 223-24. The 2018-19 Annual Update also mentions that SENI schools received a “menu of recommended professional development and supports,” which presumably include the actions identified in the GAS. See LAUSD LCAP 2019-20 at p. 12.

¹³ The GAS section mentions clerical (#5), see Amended LAUSD LCAP 2018-19 at p. 122, but the DIISUP section reference administrative support for elementary schools. *id.* at p. 225.

¹⁸ The DIISUP section admits that it is reclassifying \$6 million of its librarian base money to S+C. See LAUSD LCAP 2018-19 at pp. 224-25. It is unclear if this allocation is limited to Middle Schools. The “Services for Middle Schools” section specifically references librarian positions, whereas the “Services for Elementary Schools” and “Services for High Schools” sections do not. *Id.* at 225.

¹⁹ Amended LAUSD LCAP 2018-19 at p. 225 (“This allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery.... The campuses offering credit recovery courses have high concentrations of unduplicated pupils.”)

LAUSD PROPOSED ACTION	DISCRETE ACTIONS/SERVICES COMBINED UNDER A SINGLE "ACTION"	SCOPE OF ACTIONS/SERVICES &/OR LOCATIONS
<p>Goal 1, Action 9</p> <p>A-G IMMEDIATE INTERVENTION PLAN</p> <p><i>Proposed Expenditure:</i> \$15,054,197²⁰</p> <p><i>Actual Expenditure:</i> \$15,635,482²¹</p>	<p><i>Actions/Services Listed in GAS²²:</i></p> <ol style="list-style-type: none"> 1. Credit recovery by all means necessary, including: <ul style="list-style-type: none"> • Summer school offerings + winter/spring break²³ • On-line Credit Recovery for A-G Courses²⁴ • Mastery-Based-Online Learning-Year Long Intervention • After-school credit recovery²⁵ • Auxiliaries (credit recovery courses during the school day)²⁶ • Independent study²⁷ • Recovery + Intervention = Graduation (RIG)²⁸ 2. Tutorial Services for A-G Coursework 3. Tiered interventions for A-G ELA Coursework 4. Tiered interventions for A-G Math Coursework²⁹ 5. A-G Training for all Teachers³⁰ 6. Parent Engagement and Support³¹ 	<ol style="list-style-type: none"> 1. LEA-wide (high school)³⁴ 2. LEA-wide (high school) 3. LEA-wide (high school) 4. LEA-wide (high school) 5. LEA-wide (high school) 6. LEA-wide

²⁰ Amended LAUSD LCAP 2018-19 at 133-34 (Budgeted Expenditures).

²¹ LAUSD LCAP 2019-20 at 15 (Estimated Actual Expenditures).

²² Amended LAUSD LCAP 2018-19 at 132-33 (Goals, Actions and Services). These services were unchanged from the 2017-18 Actions/Services column.

²³ The GAS section only mentions summer school offerings for credit recovery, but the Annual Update mentions intensive credit recovery offerings during spring and winter break. See LAUSD LCAP 2019-20 at p. 16. Since all of these actions involve using off-track time to recover credits, they are combined.

²⁴ This action appears to refer to the Edgenuity Virtual and Blended program, which allows for on-line credit recovery and provides other support online and/or in collaboration with a class. See LAUSD 2019-20 LCAP at p. 16.

²⁵ According to the 2018-19 Annual Update, students can retake courses at adult schools after the school day or on Saturdays. LAUSD 2019-20 LCAP at p. 15-16. In addition, students can participate in Performance Assessment Student Support (PASS) modules that are self-paced, teacher directed, and administered to small groups outside of the regular school day. *Id.* at 16.

²⁶ GAS mentions the aforementioned credit recovery strategies, but the Annual Update adds additional strategies that were not discussed in the GAS. LAUSD LCAP 2019-20 at p. 16.

²⁷ *Id.*

²⁸ RIG is a collaborative arrangement between a comprehensive high school and a continuation school whereby students remained enrolled in their high school and take 1-2 classes at the continuation school during the day or after school. See LAUSD LCAP 2019-20 at p. 16. Although this is a special program, it is ultimately another credit recovery action.

²⁹ The Annual Update describes the Algebra I Intervention Path Program and Geometry Intervention Program, which are offered concurrently with the Algebra I or Geometry class and is designed to prevent students from failing these classes. LAUSD LCAP 2019-20 at pp. 16-17.

³⁰ The Annual Update specifies the Advanced Learning Options professional development series, which focuses on increasing participation and success of diverse learners in A-G courses, including AP and Honors. See 2019-20 LCAP at p. 17.

³¹ The Annual Update references the Quaglia Institute Parent and Family Seminars and the College Café resource for parent centers. See LAUSD LCAP 2019-20 at p. 19. In addition, the College Palooza (#21) falls into this bucket, but not exclusively because it is also a resource for educators, so it is broken out separately below.

³⁴ The DIISUP section improperly bundles multiple separate actions (that are themselves improperly bundled) into the same justification. The only reference to the actions and services under Goal 1, Action 9 is "support A-G intervention efforts to increase graduation rates." Although the DIISUP states that the purpose of these bundled expenditures is to "improve school climate and student engagement at schools with the highest concentration of unduplicated pupils," see Amended LAUSD LCAP 2018-19 at p. 227, the Annual Update clarifies that all high schools are served by this action. LAUSD LCAP 2019-20 at p. 15. The text of the Annual Update explains that Local Districts were allocated funds and

	<p><i>Additional Actions Listed in Annual Update³²</i></p> <ol style="list-style-type: none"> 7. Mastery Learning and Grading (professional development on teaching/grading alternatives)³³ 8. AP Readiness Program (supplemental instructional program for students and teachers through UCLA) 9. AB 288 Concurrent Enrollment (community college and high school) 10. Expository Reading and Writing Course 11. Local District Khan Academy Workshops (SAT preparation) 12. Transition to College Mathematics and Statistics (college readiness for students who have passed Algebra 2 but have low test scores). 13. College Access Teacher Training (college advisement and projects to strengthen college-going culture at each of their schools). 14. College Access Network (professional development on college readiness) 15. College Palooza (district-wide college/career event open to all staff, educators, families, and students that provided workshops for both families and educators, as well as a college and community resource fair). 16. Middle School Intervention STAR 8 (prepare 8th graders for success in A-G classes) 17. Middle School Intervention PASS (extra support in or outside of the school day) 18. Edgenuity Intervention Programs Grades K-8 (prepare K-8 students for A-G success) 19. Middle School College and Career Coaches (support for at-risk students and teachers, including identifying students with early warning indicators and integrating strategies) 	<ol style="list-style-type: none"> 7. LEA-wide (high school) 8. LEA-wide (high school) 9. LEA-wide (high school) 10. LEA-wide (high school seniors) 11. LEA-wide (high school) 12. 34 high schools (unspecified) 13. 75+ educators (unspecified schools) 14. LEA-wide 15. Districtwide event 16. LEA-wide (middle school)³⁵ 17. LEA-wide (middle school) 18. LEA-wide (K-8) 19. <i>High need</i> middle schools (Title I)
--	---	--

provided a menu of resources to develop plans to best support the needs of schools in their areas. *Id.* Therefore, it seems most likely that these services are provided on a districtwide basis, although different schools may offer different options and some of the services may occur at adult schools or continuation schools instead of comprehensive high schools.

³² According to the [LCAP Template Instructions](#), any changes to the actions/services described in the GAS section should be identified in the Annual Update and explained. LAUSD helpfully provides a thorough list of the actual actions and services that it provided under this item in its Annual Update (see LAUSD LCAP 2019-20 at pp. 15-20), but it fails to identify how its ***actual*** actions/services differed from its ***planned*** actions/services and why. Therefore, it is difficult to ascertain what LAUSD is doing, why it is doing it, and whether its actions/services are effective.

³³ The Mastery Learning and Grading professional development appears to have a different purpose than the A-G training that is identified in the GAS section because it focuses on alternative methods of grading and assessment. See LAUSD LCAP 2019-20 at p. 17.

³⁵ The Annual Update specifies that the actions in this item are located at “select middle schools,” but the description of STAR 8 does not limit it to any type or number of schools – i.e. high need schools. *Compare* LAUSD LCAP 2019-20 at p. 15 (location of actions/services) *with* p. 19 (description of Middle School Intervention Star 8).

<p>Goal 2, Action 9</p> <p>ENGLISH LEARNER SUPPORTS</p> <p><i>Proposed Expenditure:</i> \$34,250,696³⁶</p> <p><i>Actual Expenditure:</i> \$20,560,892³⁷</p>	<p>Actions/Services Listed in GAS³⁸:</p> <ol style="list-style-type: none"> 1. Implementation of English Learner Master plan³⁹ 2. EL/SEL Instructional Coaches 3. Standard English Learner Support Program Academic English Mastery Program (AEMP) 4. Transition services for low-income students with disabilities⁴⁰ 5. Transition services for English Learners 6. Foster youth transition services 7. Preschool for all (PAL/Preschool collaborative (PSC): Embedding Speech and Language Pathology services into existing PAL and PSC classes 8. Fellowships and Professional Development⁴¹ 9. Coordinated Professional Development Framework⁴² 10. Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan⁴³ 11. LEA-wide (not discussed in DIISUP) 18. EL 19. EL 20. EL 21. Unspecified specific schools
---	--	---

³⁶ LAUSD LCAP2018-19 at 170-71 (Budgeted Expenditures).

³⁷ LAUSD LCAP 2019-20 at 31 (Estimated Actual Expenditures).

³⁸ Amended LAUSD LCAP 2018-19 at 166-170 (Goals, Actions, and Services).

³⁹ This may be a double-counted item to the extent that it refers to many, but not all, of the other actions below. To the extent the action references independent expenditures, e.g., administrative support to implement the Master Plan like central office staff – it is appropriately listed as a separate action.

⁴⁰ The GAS section bundles transition services for all high need students into one sub-action. See Amended LAUSD LCAP 2018-19 at 79. However, the DIISUP section makes clear that different supports are offered for each high need group (low-income, EL, Foster Youth) based on a tier system. *Id.* at 225-26. Therefore, each tier should be a separate action.

⁴¹ The 2018-19 Annual Update specifies several professional development modules on ELD standards. LAUSD LCAP 2019-20 at p. 31.

⁴² This action may be a sub-set of #8 – fellowships and professional development.

⁴³ #9-12 are combined under English Learner Supports but are defined within it as "Local Accountability Plan Support" services. The DIISUP refers to all four with a single sentence. ("In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.") Amended LAUSD LCAP 2018-19 at 225.

⁴⁷ Amended LAUSD LCAP 2018-19 at 224 ("The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6-10").

⁴⁸ The Annual Update specifies that new Tier II intervention curriculum was implemented at 4 high schools, but it is not clear whether other Tier II/Tier III intervention curriculum was used in other schools. See LAUSD LCAP 2019-20 at p. 33.

	<p>Assessment⁴⁴</p> <p>16. Tier II/Tier III Intervention Curriculum in Multi-Tiered System of Support (MTSS)</p> <p>17. Unspecified specific schools using school equity index</p> <p>6. Unspecified specific schools using school equity index</p> <p>7. Foster youth</p> <p>8. LEA-wide</p>

⁴⁴ Specifically, the GAS section says that there is an "absence of a universal reading assessment in secondary ELA." Amended LAUSD LCAP 2018-19 at 169 The Annual Update explains that LAUSD purchased the Renaissance Star Reading Assessment to use in 19-20 at middle school and high school levels. LAUSD LCAP 2019-20 at p. 32.

⁴⁵ See Amended LAUSD LCAP 2018-19 at pp. 223-28. According to the [LCAP Template Instructions](#), all planned actions should be listed in the GAS section and certain districtwide or schoolwide actions designed to increase or improve services for unduplicated pupils should be listed in the DIISUP section. However, LAUSD lists additional services in the DISSUP section that are not mentioned anywhere in the GAS section.

⁴⁶ According to the [LCAP Template Instructions](#), any changes to the actions/services described in the GAS section should be identified in the Annual Update and explained. According to the 2018-19 LCAP, LAUSD implemented additional and/or different actions than planned. See LAUSD LCAP 2019-20 at pp. 31-33), but it did not explain these changes. Therefore, it is difficult to ascertain what LAUSD is doing, why it is doing it, and whether its actions/services are effective.

⁴⁹ Amended LAUSD LCAP 2018-19 at p. 186 (Budgeted Expenditures).

⁵⁰ LAUSD LCAP 2019-20 at 67 (Estimated Actual Expenditures).

⁵¹ Amended LAUSD LCAP 2018-19 at 185-87 (Goals, Actions, and Services).

Exhibit 9

TABLE 2: Bundled Services in LAUSD 2019-20 LCAP

LAUSD PROPOSED ACTION	DISCRETE ACTIONS/SERVICES COMBINED UNDER A SINGLE "ACTION"	SCOPE OF ACTIONS/SERVICES &/OR LOCATIONS ¹
<p>Goal 1, Action 5</p> <p>SCHOOL AUTONOMY</p> <p><i>Proposed Expenditure:</i> \$880,374,630²</p> <p><i>Change in spending over 18-19 actuals:</i> + \$104,513,140³</p>	<p><i>Actions/Services Listed in GAS:</i>⁴</p> <ol style="list-style-type: none"> *Nursing services *Counselors-PSA⁵ *Counselors -PSW⁶ Campus aides Clerical Community representatives Building/ground maintenance Assistant Principals⁷ *Class size reduction positions – MS Elective teacher positions – MS *Class size reduction positions - HS Elective teacher positions - HS *Professional development Tutoring supports Librarian/ Library aide A-G supports - credit recovery <p><i>Possible Actions/Services Identified in 2018-19 LCAP That May be Continuing</i></p> <ol style="list-style-type: none"> Administrative support⁸ Redesigned arts program Optional educational settings <p><i>Previously Separate Actions Rolled Into School Autonomy Action</i></p> <ol style="list-style-type: none"> Targeted Instructional Support (Goal 2, Action 11) – elective/ class reduction teachers⁹ 	<p>According to the LCAP, school autonomy is a districtwide action to provide school sites with local control to determine which resources and staff are needed to support unduplicated pupils at their school site. Unlike the 2018-19 LCAP, the 2019-20 LCAP does not provide more information about how some services are targeted in the DIISUP. Instead the DIISUP section mentions a few of the services listed in the GAS as examples of expenditures (noted by an asterisk in the left column),but provides even less transparency about how these funds are used.</p>

¹ According to the LCAP, School Autonomy is a districtwide action to provide school sites with local control to determine which resources and staff are needed to support unduplicated pupils at their school site. However, certain discrete services appear to be mandated by the district (i.e. "all Assistant Principals") whereas others appear to be targeted to particular types of schools (i.e. "elementary school-sites with high concentrations of unduplicated pupils). The GAS section of the LCAP identifies all services as LEA-wide, but the DIISUP sections provides more information about how some services may be targeted only to certain subsets of schools. (The DIISUP section is silent on other services, in violation of 5 CCR 15396(b).) Because there is no indication in the LCAP that the central-office-determined services under School Autonomy from prior years (see Ex. 4, LAUSD 2018-19 LCAP at pp. 22-33 and *id.* at pp. 122-23) are coming to a halt in 2019-20, these services are presumed to continue. Note, though the 2019-20 LCAP refers to increasing the discretion of school sites to reallocate district-designated funds (Ex. 5, LAUSD 2019-20 LCAP at 57), this remark concerns the use of SENI funds which constitute only \$290 million of the \$880 million School Autonomy budgeted expenditures. See Ex. 7, Attachment I (sum of "Student Equity Needs Index" and "Student Equity Needs Index – Transitional").

² Ex. 5, LAUSD LCAP 2019-20 at pp. 58-59 (Budgeted Expenditures for 2019-20).

³ This was calculated by subtracting the proposed expenditure for 2019-20 from the Estimated Actual Expenditures for 2018-19. See Ex. 5, LAUSD LCAP 2019-20 at pp. 12, 58-59.

⁴ Ex. 5, LAUSD LCAP 2019-20 at pp. 57-59 (Goals, Actions, Services)

⁵ PSA counselors and PSW are combined under one overarching "counselors" label in the GAS and DIISUP section but should actually be separated because they have two distinct natures and serve two different sets of needs.

⁶ See *supra* note 5.

⁷ All Assistant Principals receive targeted supports through professional development framework for high need students.

⁸ As noted in Table 1 (Bundled Services in Amended LAUSD for 2018-19 LCAP), this may be the same as Clerical.

⁹ In the 2019-20 LCAP, LAUSD incorporates the targeted instructional support action (Goal 2.11) into Goal 1.5 (School Autonomy). See Ex. 5, LAUSD LCAP 2019-20 at pp. 82, 103. Although this action involved adding teachers to reduce class sizes and increase electives, similar to the services already listed under School Autonomy, the scope of the services may be different. The Goal 1.5 class size reduction was for math and

	<p>21. Targeted Parental Involvement (Goal 4, Action 1) – parent training and workshops¹⁰</p> <ul style="list-style-type: none"> • Sharing Common Core instructional strategies and at-home activities • College preparedness (Linked Learning, Power My Learning, CAASPP) • Math workshops • DIBELS Workshop • Supporting English Learners and Standard English Learners (EL Reclassification, sessions on EL and SEL Mast Plans) <p>22. School climate and restorative justice program (Goal 5, Action 1)¹¹</p> <ul style="list-style-type: none"> • Restorative Justice trainings for school sites • Restorative Justice Advisers and Teacher advisers <p><i>Additional Previously Separate Actions Rolled into School Autonomy in invalid 6/28/19 LCAP</i></p> <p>23. School Innovation Funds (Goal 1, Action 10) – targeted funds to a subset of secondary schools that must be expended to increase A-G and AP access and completion for high need students, school climate, dropout prevention, and parent and community engagement for those from high need communities¹²</p>	
<p>Goal 1, Action 9</p> <p>A-G IMMEDIATE INTERVENTION PLAN</p> <p><i>Proposed Expenditure:</i> \$10,236,592¹³</p> <p><i>Change in spending over 18-19 actuals: -\$5,398,890¹⁴</i></p>	<p>The GAS section states that there are no changes from 2018-19,¹⁵ yet the Annual Update for 2018-19 added an additional 12 actions/services.¹⁶ We can assume that the same 19 actions/services will be provided in 2019-20.</p>	<p>See Ex. 8, Table 1.</p>

ELA at high need middle schools and 9th graders, whereas the Goal 2.11 class reduction was for PE and to provide enrichment activities like AVID, MESA, and Leadership. See LAUSD LCAP 2019-20 at pp. 82-83. The 2019-20 LCAP also fails to clarify whether the Early Language and Literacy Program (ELLP), which had been part of Goal 2.11, is also now rolled into Goal 1.5 along with the elective/class size reduction teachers. According to the 2018-19 update, ELLP had just been expanded. See LAUSD LCAP 2019-20 at pp. 34-35.

¹⁰ LAUSD also incorporates all of the targeted parental involvement programs into the School Autonomy action. See Ex. 5, LAUSD LCAP 2019-20 at pp. 90-92. The targeted parental involvement programs are themselves bundled.

¹¹ LAUSD incorporates all of its school climate and restorative justice program programs into the School Autonomy action. See Ex. 5, LAUSD LCAP 2019-20 at pp. 94-95. The school climate and restorative justice programs are themselves bundled.

¹² As discussed in the complaint, LAUSD posted a revised LCAP with material changes after it had been approved by the Board along with the budget without providing an opportunity for the public to comment and that has not been approved by the Board on or before July 1. See Ex. 6 (Revised LAUSD LCAP 2019-20). This LCAP is void, but one of the material changes was an additional rollover of the \$72.4 million in Goal 1, Action 10 into Goal 1, Action 5 without increasing expenditures. See Ex. 5, LAUSD LCAP 2019-20 at p. 64. In fact, total expenditures for 1.5 decreased by \$31 million in this invalid revised LCAP. See Ex. 6, Revised LAUSD LCAP 2019-20 at p. 111-12.

¹³ Ex. 5, LAUSD LCAP 2019-20 at p. 63 (Budgeted Expenditures for 2019-20).

¹⁴ This was calculated by subtracting the proposed expenditure for 2019-20 from the Estimated Actual Expenditures for 2018-19. See Ex. 5, LAUSD LCAP 2019-20 at pp. 15, 63.

¹⁵ Ex. 5, LAUSD LCAP 2019-20 at p. 62.

¹⁶ See Ex. 8, Table 1 (Bundled Services in Amended LAUSD 2018-19 LCAP) at pp. 2-3.

<p>Goal 2, Action 9</p> <p>ENGLISH LEARNER SUPPORTS</p> <p><i>Proposed Expenditure:</i> \$19,488,291¹⁷</p> <p><i>Change in spending over 18-19 actuals:</i> - \$1,072,601¹⁸</p>	<p>The GAS section states that there are no changes from 2018-19,¹⁹ yet the DIISUP for 2018-19 added an additional action (bilingual differential) and the Annual Update for 2018-19 added an additional 3 actions/services,²⁰ and referenced a number of changes for 2019-20.²¹ We can assume that the same 21 actions/services will be provided in 2019-20, and possibly additional actions will be rolled out.</p>	<p>See Ex. 8, Table 1.</p>
<p>Goal 3, Action 2</p> <p>TARGETED SUPPORTS TO INCREASE STUDENT ENGAGEMENT AT CAMPUSES OF HIGHEST NEED</p> <p><i>Proposed Expenditure:</i> \$32,258,894²²</p> <p><i>Change in spending over 18-19 Actuals:</i> +\$1,210,367</p>	<p>The 2019-20 GAS section states that there are no changes from 2018-19,²³ which bundled at least 6 discrete actions into 3.2, yet the DIISUP references discrete actions that were not identified in the 2018-19 LCAP. These actions include psychiatric social workers and student health and human services support personnel.</p>	<p>See Ex. 8, Table 1.</p>

¹⁷ Ex. 5, LAUSD LCAP 2019-20 at p. 81 (Budgeted Expenditures for 2019-20).

¹⁸ ¹⁸ This was calculated by subtracting the proposed expenditure for 2019-20 from the Estimated Actual Expenditures for 2018-19. See Ex. 5, LAUSD LCAP 2019-20 at pp. 31, 81.

Exhibit 10

ANALYSIS OF LAUSD DIISUP VIOLATIONS – 2018-19 LCAP

Demonstration of Increased/Improved Services for Unduplicated Pupils (DIISUP) Section

Asserted Action	Description of Increased/Improved Services for Unduplicated students v. all students	Principally directed towards unduplicated pupil goals	Effective in meeting unduplicated pupil goals
Goal 1, Action 4: Increase Staff Levels and Retention efforts for targeted School-Sites:	“Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today’s teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.”	<p>Item appears to consist of 3 distinct actions:</p> <ul style="list-style-type: none"> -improved staffing levels at select high concentration school sites; -stipends for teachers and school leadership at high concentration school sites; -“Habits of Mind” professional development for all staff. <p>The item fails to establish it is “principally directed” because:</p> <ul style="list-style-type: none"> • It relies primarily (as to the first 2 actions) on the fact that the recipient schools have high concentrations of high need students. As CDE determinations indicate, this showing by itself does not establish an action is principally directed. <i>See</i> Ex. 17, Fresno CDE Determination at 7; Ex. 19, Klamath I CDE Determination at 8. • It does not identify which specific schools receive the services or discuss the needs there; as such, the item fails to address the needs, 	<p>This item fails to establish effectiveness. An unsupported conclusory assertion is made that the stipend action establishes staff stability. Not only is there no explanation of the link between proposed stipends (of unspecified amounts) to the outcome of staff stability (of unspecified degree), but “staff stability” is not even an expected outcome associated with Goal 1 in the District’s LCAP.</p> <p>Otherwise, the item utterly fails to offer any explanation of how LAUSD believes the action(s) will help to achieve one or more of the expected annual measurable outcomes for Goal 1, as required to demonstrate effectiveness.</p>

		<p>conditions and circumstances of the high need student recipients in anything other than the most conclusory way (e.g., all high need students need better habits of mind) and does not discuss “how the service takes these factors into consideration (such as, for example, by the service’s design, content, methods, or location).” <i>See</i> Ex. 19, Klamath I CDE Determination at 7-8; Ex. 18, Fresno CDE Determination at 6.</p> <ul style="list-style-type: none"> Also, the “Habits of Mind” professional development appears to be a service delivered to all new staff in support of all pupils and is not pursued to address principally the needs of students based on their status as low-income, English learners or foster youth. 	<p><i>See</i> Ex. 19, Klamath I CDE Determination at 8-9: “An LEA meets th[e DIISUP’s effectiveness] requirement by providing in the LCAP an explanation of how it believes the action/service will help achieve one or more of the expected outcomes for the goal. Conclusory statements that an action/service will help achieve an expected outcome for the goal, without further explanation as to how, are not sufficient.</p> <p>....the actions/services described in the Demonstration section are not discussed in relation to one or more expected annual measurable outcomes. As a result, the District has failed to explain how the actions/services will be effective in meeting the LCAP goals for its unduplicated students.”</p>
Goal 2, Action 11: Early Language	“The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and	This item appears to be for all students and is not directed toward unduplicated pupils based on their status as low-income, English Learner or foster youth (albeit	The item does explain why the District believes the program will be effective but effective for all pupils

<p>and Literacy Program</p>	<p>literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the</p>	<p>there is mention that the program can be personalized for all students based on their particular needs). Accordingly, the item fails to address the needs, conditions and circumstances of the high need student recipients and does not discuss “how the service takes these factors into consideration (such as, for example, by the service’s design, content, methods, or location).” <i>See</i> Ex. 19, CDE Klamath I Determination at 7-8; Ex. 18, CDE Fresno Determination at 6.</p>	<p>not, as required, effective for moving unduplicated pupils toward one or more annual measurable outcomes (AMOs) related to Goal 2.</p>
------------------------------------	---	--	---

	<p>primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998)”</p>		
<p>Goal 2, Action 9: Accelerated Academic Literacy</p>	<p>“The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a</p>	<p>The item is one action among several bundled by the District as “English Learner Supports.”</p> <p>Coupled with the more complete description at the tail end of Action 2.9 in the GAS section (at 169-70), the District may be close to establishing the program is principally directed toward improving literacy outcomes for low-income, homeless and foster youth pupils. However, it ultimately remains unclear if the program is primarily targeted toward unduplicated pupils or if the capture of high need students in it is a byproduct of a more generic approach.</p>	<p>The item ultimately fails as it does not explain why the program will help achieve the expected outcomes for high need students. Although the District explains the need, it does not describe how this action is designed to improve outcomes for high need students. “Conclusory statements that an action/service will help achieve an expected outcome for the goal, without further explanation as to how, are not sufficient.” <i>See</i> Ex. 19, Klamath I CDE Determination at 9.</p>

	large number of the TSP students from succeeding in school.”		
Goal 1, Action 5: Support School Autonomy	”Services and positions supported by this resource are to be aligned with the District’s investments and strategies outlined in the District LCAP and a school’s single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District’s LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District’s LCAP and school’s strategic goals.”	<p>The School Autonomy item fails to establish it is principally directed and effective because it fails to identify and separately justify the numerous specific actions undertaken with the \$775 million of S&C funds. <i>See generally</i> Ex. 8 & Ex. 9 (discussion of impermissible bundling).</p> <p>The District fails to demonstrate that the portion of \$775 million actually allocated to school sites for site-level-determined use (which is only a fraction of the \$775 million total) is principally directed or effective as no specific actions are identified in the LCAP as being undertaken at any specific school. Accordingly, no attempt is made to justify any particular use as required. <i>See generally</i> Ex. 11 & Ex. 12 (discussion of improper school level allocations).</p>	(See preceding column.)
“	“ <i>Assistant Principal:</i> All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal.”	This item does not establish 100% of all APs in the district now work toward unduplicated pupil goals, certainly not just because of a professional development training. APs serve a variety of needs and functions that serve all pupils; the item fails to establish that any more than a fraction of the AP job is now directed toward increased service to unduplicated pupils. Moreover, the fraction will be	The item is not justified as effective because it lacks an explanation of how the reworked portion of the AP job will help high need students achieve any AMO.

		smaller in schools with smaller unduplicated pupil populations.	
“	“ <i>Counselor (High School Only)</i> : All High School Counselors are provided additional professional development and directives to support targeted student populations. The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.”	This item fails for the same reason that the AP item fails as discussed above.	This item fails for the same reason that the AP item fails as discussed above.
“	“ <i>School Libraries/Librarians</i> : Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index”.	The only justification for this action is that librarian positions are allocated to schools with a high position on SENI, which is helpful, but not sufficient to meet the principally directed requirement because there is no connection between the specific .. needs, conditions, and circumstances of high need students at those schools and the decision to provide more librarians.	The District makes no attempt to establish effectiveness. It fails to offer any explanation of how increased library services will help unduplicated pupils achieve 1 or more AMOs associated with Goal 1.
“	“ <i>Services for Elementary Schools</i> : Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of	This item is an improper sub-bundling of actions including, at a minimum, two very distinct ones: (1) administrative support for principals; and (2) a redesigned arts program.	The item fails to establish effectiveness for both the administrative support positions and the art program. Neither explain how those efforts will help unduplicated pupils achieve

	<p>education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites."</p>	<p>The District does not justify the administrative support item as principally directed; it only mentions that this support is provided selectively to schools with high concentrations of unduplicated pupils, which is not sufficient by itself. The arts program may be sufficiently targeted because it is made available at schools with both a high concentration of unduplicated pupils <i>and</i> a low degree of art offerings.</p>	<p>1 or more AMOs associated with the goal.</p>
“	<p><i>“Services for Middle Schools:</i> Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased</p>	<p>Again, this item improperly sub-bundles actions within an already improperly bundled Action 1.5. At least three specific and distinct actions are identified here: (1) provision of librarians; (2) class size reduction for math and English Language Arts; and (3) increased elective offerings such as in arts and P.E..</p> <p>The District attempts to demonstrate that these services are principally directed to high need students by focusing on schools with a high concentration of unduplicated pupils. As discussed above, this is not sufficient without a discussion of the particular needs, conditions, circumstances at the particular middle schools and how</p>	<p>This item fails to establish effectiveness because it only includes conclusory statements that unduplicated pupils will benefit, but lacks an explanation of how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.</p>

	proficiency in reading and mathematics as is delineated in the District's LCAP."	the chosen services will address those unduplicated pupil needs.	
"	<p><i>"Services for High Schools:</i> Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and</p>	<p>Again, this item improperly sub-bundles actions within an already improperly bundled Action 1.5. At least four specific and distinct actions are identified here: (1) 9th grade math and ELA class size reduction; (2) increased elective offerings such as in arts and P.E.; (3) optional alternative high school settings; and (4) Adult Education enrollment of high school students for credit recovery purposes.</p> <p>The District fails to demonstrate how any of these sub-actions are principally directed to serve high need students. Unlike the elementary and middle school services discussed above, there is no prioritization of the services based on the high concentration of unduplicated pupils. Apparently, all high schools and high school students are recipients of or eligible for the identified actions. Accordingly, they appear to be generic services directed toward all pupils and not unduplicated pupil goals in particular. This assumption arises from the fact that there is no discussion, as required, of the particular needs, conditions, circumstances of high need students at the particular high schools receiving the services or of the general unduplicated high school population and</p>	<p>Beyond the insufficient conclusory statement that these actions will help students (in general, not specifically unduplicated pupils) achieve the 100% graduation and 100% proficiency goal, there is no analysis of effectiveness, including how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the LCAP goals.</p>

	Proficiency for All Goals, as indicated in the District’s LCAP.”	how the chosen services will address those unduplicated pupil needs.	
Goal 2, Action 9: Accelerated Academic Literacy	“Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.”	<p>This item also improperly sub-bundles actions in an already impermissibly bundled action into two buckets: (1) targeted English Learner supports; and (2) LCAP administrative support</p> <p>The District assumes the existence of English learner needs without directly discussing and establishing those needs as to the several actions related to Targeted English Learner Supports. As to those actions, the LCAP reasonably establishes these services are principally directed toward EL students.</p> <p>As to the LCAP Administrative Supports, the item fails to establish how it is principally directed toward high need pupil goals. The LCAP is for the benefit of all pupils and their families in the District not only or primarily for high need students.</p>	The District makes no attempt to establish effectiveness for either bucket of actions. Accordingly, it does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.
Goal 2, Action 9: Speech and Language Pathology Services for Pre-School for All/Pre-School Collaborative	“Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.”	The LCAP reasonably establishes that this action is principally directed toward EL students because it focuses on the need of low-income and EL preschoolers to receive additional speech and language pathology services to prepare them for future success.	However, the District makes no attempt to establish effectiveness. Accordingly, the LCAP does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal, and therefore fails.

<p>Goal 2, Action 9: Enhanced Transition Services for Targeted Student Populations</p>	<p>“Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decisionmaking and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English 225 Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside</p>	<p>The LCAP reasonably establishes that this action is principally directed toward high need students because the professional development and transition services are targeted to the needs of each high need group.</p>	<p>The District only makes an insufficient conclusory statement that unduplicated pupils will benefit and does not make any attempt to establish effectiveness. Accordingly, it does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.</p>
---	--	---	---

	agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for postsecondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.”		
Goal 2, Action 9: Fiscal Specialist	“Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.”	<p>A principally directed showing is not established. The LCAP generally, and fiscal specialists in particular, serve all pupils. Only 25% of LAUSD’s LCFF overall funds are supplemental and concentration funds.</p> <p>Indeed, the item provides no discussion, as required, of the particular needs, conditions, circumstances among unduplicated pupils for fiscal specialists and how the fiscal staff will address those unmet unduplicated pupil needs.</p>	The District makes no attempt to establish effectiveness. Accordingly, it does not explain how the fiscal specialists will help unduplicated pupils achieve 1 or more AMOs associated with the 100% graduation goal.
Goal 2, Action 8: Support Integrating Special Education students into General	“The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District’s core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and	A principally directed showing is not well-established. The description claims the action is aimed at modifying the instructional environment for unduplicated pupils with disabilities but there is no explanation of how the service is so structured and delivered other than the fact that the investments are offered	No attempt is made to establish effectiveness beyond an insufficient conclusory assertion that the services “are effective in meeting the District’s [] goals.” The item does not explain how the special

Education – Grade-Span Support	students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at 226 schools with 80%-100% unduplicated pupils.”	“predominantly” (not exclusively even) at schools with high concentrations of unduplicated pupils. As noted, the focus on high concentration schools, by itself, is not sufficient to establish the service is principally directed. Missing is any analysis of what the particular needs are of the unduplicated pupils with disabilities at high concentration schools or how the services chosen are designed to address those needs. Absent that analysis, this service appears to be a generic additional investment in special education services, but not one necessarily principally directed at low-income, EL, or FY special education students. Given the past <i>CoCo v. LAUSD</i> litigation successfully challenging a similar practice with special education funding, this item seems particularly suspect.	education integration services will help unduplicated pupils achieve 1 or more AMOs associated with the Proficiency for All goal.
Goal 1, Actions 8 and 9; Goal 3, Action 3; Goal 5, Action 1: Enhance Graduation Efforts and School Climate Efforts	“Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of	7 different distinct actions are improperly bundled here into 1 proposed DIISUP action: --additional afterschool services; --A-G intervention efforts; --campus safety improvement efforts; --increased academic counseling supports; --increased mental health counseling supports; --targeted Restorative Justice program; --homeless youth support program.	None of the seven actions attempt to establish effectiveness. Accordingly, the item does not explain how seven actions will help unduplicated pupils achieve 1 or more AMOs associated with the 100% graduation.

	<p>a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.”</p>	<p>None of the seven actions are properly justified as being both principally directed and effective.</p> <p>Only the Restorative Justice program demonstrates it is principally directed by being directed to schools with high suspension rates and high unduplicated pupil concentrations. The homeless youth program comes close also in suggesting it is responding to a low-income population with high risk factors.</p> <p>Otherwise, none of the actions demonstrate that they are responding to any demonstrated need, condition or circumstance.</p>	
Goal 1, Action 3: Graduation and Credit Recovery Efforts	<p>“The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.”</p>	<p>Principally-directness is not established. The credit recovery and G.E.D. efforts are generically addressed to the eligible population in need. Other than the insufficient reference to the high use of credit recovery options by unduplicated pupils, there is no effort to demonstrate these services are in response to particular needs, conditions or circumstances of unduplicated pupils.</p>	<p>No attempt to establish effectiveness. Accordingly, the LCAP does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.</p>
Goal 1, Action 6: Options Program	<p>“Support at-risk youth with option educational settings. A majority of youth that participate in the District’s options program are low-income and English learners. By providing an optional</p>	<p>Principally directness is not established. The fact that a high number of unduplicated pupils are served by Options program is not sufficient by itself to demonstrate the service is principally</p>	<p>No attempt is made to establish effectiveness. Accordingly, the item does not explain how the chosen services will help</p>

	educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.”	directed. There is no demonstration that these services are in response to particular needs, conditions or circumstances of unduplicated pupils.	unduplicated pupils achieve 1 or more AMOs associated with the goal.
Goal 1, Action 7: After-School Programs	“Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District’s prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.”	The item suggests it may be principally directed but ultimately does not provide sufficient detail to demonstrate how the services’ “design, content, methods or location” are better serving high need pupils.	No attempt is made to establish effectiveness. Accordingly, the item does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.
Goal 2, Action 12: Expand Arts Program	“Establish a targeted Arts program that utilizes the District’s Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities	The LCAP reasonably establishes that this action is principally directed toward high need students because it focuses on providing equitable access to arts education for the schools with high concentrations of high need students which have historically lacked art access.	Only a conclusory statement is made that high need pupils will benefit. No attempt is made to establish effectiveness. As such, the item does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.

	for academic enrichment in this area of study.”		
Goal 3, Actions 2 & 4: Improve School Environments and Student Engagement	<p>“Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In additional, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.”</p>	<p>7 different and distinct actions are improperly bundled here into 1 proposed DIISUP action. Six services are to be allocated to schoolsites utilizing the equity index:</p> <ul style="list-style-type: none"> --clerical support services; --building and grounds services; --psychiatric social workers; --pupil services counselors; --attendance counselors; and --other engagement personnel. <p>A seventh service will be centralized at the District office:</p> <ul style="list-style-type: none"> --promoting inclusion of student voice in the LCAP’s development. <p>None of the seven actions are properly justified as being either principally directed and effective.</p> <p>All seven schoolsite and central office actions and services address needs for all students generally. Indeed, the item fails to address the needs, conditions and circumstances of the high need student recipients and, further, does not discuss “how the service takes these factors into consideration (such as, for example, by the service’s design, content, methods, or location).” Ex. 19, CDE Klamath I Determination at 7-8; Ex. 18, CDE Fresno Determination at 6. Accordingly, the</p>	<p>No attempt is made to establish effectiveness. Accordingly, the item does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.</p>

		actions and services are not demonstrated as directed toward unduplicated pupils based on their status as low-income, EL or foster youth.	
Goal 2, Action 11: Elective Class Size Reduction teachers for High School, Middle Schools and Grades 4-5	“Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.”	The elective teachers are being provided to all schools across the District; as such, the actions are addressing needs for all students generally. Indeed, the item fails to identify or discuss the needs, conditions and circumstances of the high need student recipients at all. Accordingly, the actions are not demonstrated as directed toward unduplicated pupils based on their status as low-income, EL or foster youth.	A conclusory statement is made with respect to P.E. teachers only and their link to improved health outcomes. That outcome is not related to any AMO for goal 2. No other attempt is made to establish effectiveness. Accordingly, the item does not explain how the chosen teacher services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.
Goal 2, Action 9: Coordinated Professional Development (PD) Framework	“Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that	This action largely seems to address generic professional development needs that serve “all students in order to prepare them to [succeed]”. There is insufficient discussion of the particular needs of unduplicated pupils that are being addressed or of how the services are being adapted to suit those needs. Accordingly, the required demonstration of principally directedness is absent. It may be the case that, with additional information, some portion of the	No attempt is made to establish effectiveness. Accordingly, the item does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.

	<p>staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.”</p>	<p>referenced PD program could be demonstrated as principally directed toward high need pupil goals. However, in its current form, bundled together with multiple other actions in Goal 2, Action 9, we have no idea what the specific budgeted expenditure being claimed for this action is and accordingly cannot assess if the District’s claimed portion as an increased or improved service for high need pupils is justified.</p>	
<p>Goal 2, Action 10: IT Support Technician</p>	<p>“Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.”</p>	<p>The LCAP reasonably establishes that this action is principally directed toward high need students because it focuses on the specific need for technology resources at schools with high concentrations of high need students.</p>	<p>No attempt is made to establish effectiveness. Accordingly, the item does not explain how the chosen services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.</p>
<p>Goal 6, Action 5: Breakfast Program</p>	<p>“Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621).</p>	<p>The LCAP appears to reasonably establish that this action is principally directed toward high need students because it focuses on providing access to food for</p>	<p>Effectiveness is assumed but not established. Accordingly, the item does not explain how the chosen</p>

	<p>Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.”</p>	<p>low-income students in schools with the highest concentration of need for such a service.</p>	<p>services will help unduplicated pupils achieve 1 or more AMOs associated with the goal.</p>

Downey, California 90242

Concerns Re: LAUSD's 2017-2018 and 2018-2019 LCAP & Its Adverse Impact on Increased/Improved Services Due High-Needs Students

Dear Superintendent Duardo:

On behalf of Public Advocates, Veronica Gonzalez and Elvira Velasco, we write to raise serious concerns regarding Los Angeles Unified School District's (LAUSD) 2017-2018 and 2018-2019 Local Control Accountability Plans (LCAP). Public Advocates has identified several issues in the 2017-2018 LCAP that continue in the 2018-2019 LCAP resulting in a lack of transparency, significant neglect of community engagement principles, and direct harm to high-needs students due to an underinvestment in the required proportional increase or improvement in services for those students. We request that the County obtain a satisfactory explanation and correction to each of the issues raised here before approving LAUSD's 2018-2019 LCAP.

LCAP Problems: Past and Present.

1. 2017-2018 LCAP Problems

During the 2017-2018 academic year, LAUSD amended its 2017-2018 LCAP's Annual Update to reclassify a number of 2016-2017 past expenditures – traditionally funded by base grant funds¹ - without notice to the public and without seeking community input through public hearings and without providing a proper justification for retroactively crediting itself the expenditure of supplemental and concentration funds². Moreover, LAUSD failed to submit the substantial, material changes to its LCAP, first reflected in its 2017-18 LCAP's 2016-17 Annual Update, for formal county approval. Though we take issue with all past expense reclassifications, of particular concern is LAUSD's reclassification of \$340 million of past expenditures under Goal 1, Action 5, also known as "School Autonomy".

As a result of LAUSD's failure to ever justify its reclassification of \$340 million in past expenditures as either principally directed or effective in meeting high need student goals, LAUSD is unable to meet

¹ *E.g.*, LAUSD reclassification changed funding for assistant principals, librarians, counselors, and nurses, from a base grant to supplemental and concentration grants.

² Under 5 C.C.R. § 15496(a)(2), an LEA may only count as prior year expenditures "funds expended . . . on services for unduplicated pupils that is in addition to what was expended on services provided for all pupils." LAUSD has not followed these regulations. Instead of counting only services for unduplicated pupils, LAUSD has included expenses that appear to be for all pupils.

statutory or regulatory requirements for applying these funds toward its proportionality obligation. The LCAP requires districts to “describe how services provided for unduplicated pupils are increased or improved...”³ and regulations require LAUSD to justify how expenditures are “principally directed” to and “effective”⁴ in meeting its goals for high-needs students. Without adequately justifying the use of supplemental and concentration funds to support the \$340 million of “School Autonomy” services first identified in its 2016-2017 Annual Update, LAUSD improperly carried those funds forward into the 2017-2018 and now the 2018-19 LCAPs as allowable prior year expenditures, thereby denying the District’s neediest students a significant amount of increased and/or improved services by reducing the amount of LCFF funds (and the corresponding proportional increase in the MPP) LAUSD needs to invest in subsequent years.

Additionally, the reclassification of over a fifth of the District’s budget did not meet any of the transparency or the legal requirements associated with supplemental and concentration expenditures. The District was required to “identify each action/service” being funded and to justify each use according to LCFF regulations.⁵ In the 2017-2018 LCAP Goals, Actions, and Services section, LAUSD bundled multiple separate actions and services and their associated expenditures into very general and vague descriptions, preventing a clear and accurate understanding of the District’s LCFF spending plan. This improper bundling has been carried forward and expanding in the 2019-18 LCAP.

Moreover, the District included within its 2017-18 uber “School Autonomy” action tens of millions of dollars of services that unquestionably fail to meet legal requirements for serving high need pupils over and above the general student population. These include assistant principals, librarians, counselors and nurses. These expenditures were never sufficiently justified as “principally directed” and “effective” should never have been approved last year and should not be allowed to be carried forward into the 2018-19 LCAP.

In short, the Los Angeles County Office of Education should never have approved such a transparent-less reporting and justification of supplemental and concentration actions that violates LCFF requirements last year and should not allow these transgressions to be perpetuated in the proposed 2018-19 LCAP.

2. Persistent 2017-2018 LCAP Problems in LAUSD’s 2018-2019 LCAP

The 2017-2018 LCAP violations of the improper inclusion of prior year supplemental and concentration expenditures, the failure to justify supplemental and concentration expenditures and thereby the failure to meet the minimum proportionality obligation, and the lack of transparency and improper bundling under “School Autonomy” persist in the District’s 2018-2019 LCAP. In fact, in its 2018-2019 LCAP, LAUSD further constricts revealing the “School Autonomy” services it aims to fund with supplemental and concentration funds and provides fewer details about “School Autonomy” merely providing bullet points of distinct actions such as:

- Enhances School Climate
- Support academic planning and instructional intervention

³ See LCAP template instructions at <https://www.cde.ca.gov/re/lc/templateinstructions.asp#Demonstration>.

⁴ See 5 C.C.R. 15496(b).

⁵ Id. at (b)(A).

- Campus safety and school maintenance
- Registration and clerical supports
- Grant Set-Aside⁶

Moreover, the District summarily explains \$739 million of supplemental and concentration expenditure – more than half of its \$1.1 billion annual proportionality obligation – as a single “School Autonomy” action, rather than separately describing each districtwide or schoolwide use of funds and separately justifying how each individual action and their expenditures are “principally directed” and “effective” to achieve its goals for high-needs students. By failing to separately identify specific uses of supplemental and concentration funds, the public cannot determine if the District is providing increase or improved services to high-needs students.

The County Superintendent Is Responsible for Ensuring LAUSD Properly Calculates and Expends Its Supplemental and Concentration Funds

The County Superintendent is responsible for ensuring the District adheres to the template adopted by the state board and that it properly calculates its proportionality obligation. To approve the LCAP, the county must determine that the plan “adheres to the expenditure requirements adopted pursuant to [Ed. Code § 42238.07].”⁷ Indeed, the California County Superintendents Education Services Association (CCSESA) instructs counties that “Adherence to SBE Expenditure Regulations,” including verification of the proportionality percentage calculation, is one of three key criteria for LCAP approval.⁸ Thus, prior to approving the district LCAP and budget, the county must ensure that the district has done its proportionality calculation correctly, including the underlying step of estimating its prior year expenditures on services for unduplicated pupils.

Conclusion

Accordingly, based on the aforementioned 2017-2018 and 2018-2019 LCAP violations, we urge the county to refrain from approving LAUSD’s 2018-2019 LCAP at this time. Further, we urge the county to seek further clarification from the District and, prior to approval, to require the District:

- To remove from its proportionality calculation the \$340 million of improperly reclassified supplemental and concentration expenditures added for the first time in the 2017-18 LCAP’s 2016-17 Annual Update;
- To identify each unique and separate action to support unduplicated pupil goals and the related expenditures currently bundled under one “School Autonomy” action;
- To separately justify each unique and separate such action as “principally directed” toward and “effective” in meeting its goals for high-needs students, as compared to all students;
- To cease counting expenditures toward its proportionality obligation towards high need students those supplemental and concentration funds spent on general education

⁶ 2018-2019 LCAP at 86.

⁷ See Ed. Code § 52070(d).

⁸ See CCSESA LCAP Approval Manual (2014-15 Ed.), at pp. 2, 33.

actions and services that support all students such as 100% of the salaries of administrators, high school counselors, nurses and librarians; and

- To recalculate its prior year and current year supplemental and concentration expenditures to comply with the LCFF expenditure regulations, including by addressing the foregoing concerns and to adjust its 2018-2019 proportionality obligation accordingly.

I am available to answer any questions you may have. I can be reached directly at 415.625.8461.

Respectfully,

Hans I. Moore

RECOMMENDATIONS AND ASSURANCES

The School Site Council recommends this school plan and its proposed expenditures to the district governing board for approval and assures the board of the following:

- 1. School Site Council has developed and approved, and will monitor the plan, to be known as the *Single Plan for Student Achievement* for schools participating in programs funded through the consolidated application process.
- 2. School plan was developed “with the review, certification, and advice of any applicable school advisory committees.”

The School Site Council sought and considered all recommendations from the following groups or committees before adopting this plan. **Signatures** are requested for those advisory committees/groups providing input in the development of this plan.

Committees	Date(s) of recommendation	Chairperson	
		Typed Name	Signature
English Learner Advisory Committee (ELAC) <input type="checkbox"/> ELAC has delegated authority to SSC <input type="checkbox"/> Not applicable (if a school has less than 21 English learners, ELAC is not required)	04/06/2018	Brenda Rendon	<i>Please sign here</i>

- 3. The content of the plan is aligned with school goals for improving student achievement.
- 4. The plan is reviewed annually and updated, including proposed categorical expenditures of funds allocated to the school through the consolidated application, by the School Site Council.
- 5. Plans are reviewed and approved by the governing board of the local educational agency “whenever there are material changes that affect the academic programs for students covered by programs” funded through the consolidated application.
- 6. The school minimizes the removal of identified children during regular school hours for supplemental Title I instruction (Targeted Assistance Schools only).

This school plan was adopted by the School Site Council on the following date: 04/06/2018
School plan approval appears in SSC Minutes. _____

2018-2019 FUNDING ALLOCATED TO THIS SCHOOL

The following categorical funds were allocated to this school through the Consolidated Application and Reporting System (“CARS”). Additional funds were allocated to this school through the Local Control Funding Formula. Funds (listed under “Other”) may be allocated to the school in accordance with District policy. **If the school is operating as a Schoolwide Program (SWP), the following programs are consolidated in this plan:**

Federal Programs

Elementary and Secondary Education Act:

<input checked="" type="checkbox"/> Title I: Schoolwide Program (7S046)	Amount: \$	166,581
Purpose: To upgrade the entire educational program of the school.		
<input type="checkbox"/> Title I: Coll&Career Coach [Cent Funds] (7T124)	Amount: \$	0
Purpose: 7T124 IS REFERING HERE		
<input checked="" type="checkbox"/> Title I: Parent Involvement Allocation (7E046)	Amount: \$	2,739
Purpose: To promote family literacy, parenting skills, and parent involvement activities.		
<input checked="" type="checkbox"/> Title III: English Language Development (7T197)	Amount: \$	0
Purpose: 7T197		
Total amount of categorical funds allocated to this school: \$		169,320

District Mission Statement

The teachers, administrators, and staff of the Los Angeles Unified School District believe in the equal worth and dignity of all students and are committed to educate all students to their maximum potential.

Local Educational Agency (LEA) Plan Goals

The LEA plan serves as the instructional plan for the District and is measured through the Performance Meter and aligned to the following academic goals:

Goal 1: English/Language Arts and Mathematics—Proficiency for All

Increasing literacy skills through the implementation of the California Standards in K-12 ELA, K-12 mathematics, and literacy in secondary History/Social Sciences, Science, and Technical Subjects

Increasing the number of students meeting or exceeding standard in grades 3-8 and grade 11 on the California Assessment of Student Performance and Progress in mathematics

Implementing a multi-tiered system of support to provide targeted instruction and intervention to K-12 students based on English/language arts and mathematics data

Goal 2: English Learners—Proficiency for All

Increasing English Language Development through implementation of the California English Language Development Standards

Providing and administering K-12 Instructional Programs for English Learners (ELs) that include:

- Structured English Immersion
- Mainstream English Instructional Program
- Dual Language Two-Way Immersion
- Transitional Bilingual Education Program
- Maintenance Bilingual Education Program
- Accelerated Learning Program for Long Term English Learner Program
- Secondary English Learner Newcomer Program

Using Title III funds to help ELs meet the State's annual measurable achievement objectives and build teacher capacity in meeting the academic and linguistic needs of students in the core subject areas including English Language Development

Meeting the District's expectation for ELs to advance in English language proficiency through Designated and Integrated English Language Development (ELD) and reclassify after five years of instruction

Promoting parent and family involvement in EL programs at the central, Local District, and school site level

Enhancing the quality of language instruction in the District's EL programs

Planning and developing the tools necessary to implement high-quality comprehensive professional development designed to improve the instruction and assessment of ELs

Supporting and monitoring the continued academic success of Reclassified Fluent English Proficient speakers (RFEPs)

Goal 3: All students will be taught by highly qualified teachers.

Placing teachers in schools, classrooms and subject areas based on teacher credentialing (Highly Qualified)

Providing effective professional development to teachers in Focus, Priority and Reward schools

Providing professional development to teachers on the California Standards in ELA, mathematics, History/Social Sciences, Science, Technical Subjects, and English Language Development

Providing professional development to teachers on textbook and curriculum adoptions that align with the California Standards

Providing professional development for teachers and administrators to improve instruction for English learners (ELs) and Students with Disabilities (SWDs)

Regularly assessing the effectiveness of professional development delivered throughout the District

Supporting professional needs of teachers of English Learners through Title III support coaches

Using the research base to design professional development topics and implementation

Building teacher capacity to use technology to plan and strengthen instruction, and to improve student understanding and use of technology for learning

Goal 4: All students will be educated in learning environments that are safe, drug-free, and conducive to learning

The California Department of Education no longer requires that this goal be addressed in the LEA plan

Goal 5: All Students will Graduate from High School—100% Graduation

Providing ongoing professional development, designed specifically towards accurate student placement and construction of the master schedule

Monitoring individual graduation plans to ensure all students have access to a high-quality course of study that builds toward college and career readiness

Offering differentiated, evidence-based instructional support and professional development that address the unique learning needs of the District's diverse learners, including at-risk students, and, as appropriate, provide interventions that respond to factors that may negatively impact student learning and achievement and impede their graduating from high school college-prepared and career-ready

2016-17 District Professional Development Priorities:

1. Implementation of the California Standards in ELA, mathematics, History/Social Sciences, Science, Technical Subjects, and English Language Development
2. Improve instruction through the implementation of the English Learner (EL) Master Plan
3. Use of the Teaching and Learning Framework Rubrics to improve teaching and learning across the district
4. Use of benchmark, progress monitoring, and diagnostic assessments (SBAC and district-developed interim assessments) to drive instruction and intervention in ELA, mathematics, science, history and ELD

District Core Program for All Students:

The District's core program is built on the California Standards in ELA, math and ELD, and in all other subjects, grounded in evidence-based pedagogy for effective instruction. In the 2016-2017 school year the District will continue full implementation of the California Standards in all grade levels. The District focus will revolve around the alignment of curriculum, instruction, and assessment ensuring successful outcomes for all students.

Curriculum focus-2016/2017

- Implementation of the California Standards in ELA and math using the District adopted texts, including digital text, effectively
- Implementation of the California English Language Development Standards for English Learners
- Anchoring reading and writing instruction in evidence from the text using a variety of increasingly complex texts.
- Writing across genres, with a focus on argument
 - Providing rigorous mathematics instruction that focuses deeply on the mathematics standards for the grade-level and provides a coherent transition from one topic to another and one grade to another

Instructional focus-2016/2017

- Use of close reading and quality text dependent questions to support students in reading and writing instruction.
- Emphasis on the Standards for Mathematical Practices
- Stronger emphasis on the use of project-based learning and performance tasks to drive instruction.

Assessment focus-2016/2017

- Use of a multi-tiered system of support (MTSS) based on ongoing data analysis, to inform instruction and intervention.
- Use of MyData, a web-based tool that increases availability and usability of student data for LAUSD educators, in order to improve teaching and learning.
- Use of benchmark, progress monitoring, and diagnostic assessments (SBAC, district-developed interim assessments, and assessments of English language development) to drive instruction and intervention.
- Use of *School Quality Improvement Index* to evaluate school performance in terms of student achievement using a variety of measures, both status and growth related.

Schools are expected to frame their banked Tuesday professional development in 2016-2017 around the District priorities using a Plan-Deliver-Reflect-Revise model or Cycle of Inquiry and/or problem-solving process to improve outcomes for all students. The analysis of student data and work samples is used as the anchor for building professional practice.

The District will continue to support teachers and staff in the effective use of student achievement data in all subject areas. The District will further integrate the use of Performance Management both at the District and school levels in order to meet Performance Meter targets.

The District has adopted six culturally responsive and linguistically appropriate instructional strategies that are threaded throughout all PreK-12 content instruction. Instructional strategies include the use of advanced graphic organizers, explicit instruction in academic language, use of cooperative communal learning strategies, instructional conversations, contrastive analysis and making cultural connections by creating optimal learning environments.

The District will effectively implement the English Learner Master Plan for educating English Learners, Standard English Learners, and English Learners with disabilities. This plan focuses on the effective use of standards-based differentiated Designated and Integrated ELD instruction specifically designed for ELs, and standards-based instruction using SDAIE to ensure full access to the core curriculum, to meet the needs of all students including gifted and talented students, students with disabilities, and English learners.

Strong classroom management as outlined in the District's Discipline Foundation Policy frames the instructional program. Maximum use of academic engaged time is accomplished through planning resulting in clear expectations, preparing for transitions, and developing instruction that engages students in learning.

SCHOOL VISION, MISSION, AND PROFILE DESCRIPTION

School Vision

Directions: State your school's vision. (Describe what your school intends to become in the future.)

The mission of Charnock Road is to develop life long scholars who are curious, persistent and tenacious problem solvers. Charnock alumni are independent and collaborative learners able to critically evaluate and monitor their own knowledge. Our pupils are able to effectively critique information and present/defend their position with facts. Charnock alumni are global citizens who have a strong moral framework and view themselves as change agents within their own communities. Charnock Road is an institution where educators' instructional practices are aligned with proven research (i.e.-John Dewey, Cathy Fosnot, Marilyn Burns and Dr. Scott Baker).

School Mission

Directions: State your school's mission. (What is your school's purpose, i.e., why does the school exist and what is it here to do?)

Our vision is to create a learning environment that is based on students' construction of their own knowledge. Students will engage in real life problem solving and have access to the global learning community through the use of technology. Our learning environment will provide for differentiation, the infusion of the arts throughout the curriculum and multi-tiered intervention. Charnock strives to be an educational institution where parents are equal partners in the education of their children and our local business community and universities is actively involved.

School Profile Description

Directions: Provide a brief description of your school community (the boxes below expand as needed).

1. Describe your school's geographical, demographic, educational and economic community base:

The following websites contain useful data: <http://www.census.gov/> , <http://www.zip-codes.com/> , <http://www.city-data.com/>

Charnock Road Elementary School is located in the Palms neighborhood of West Los Angeles. Upon culmination, Charnock students typically feed into Webster or Palms Middle Schools.

2. Indicate grade levels and, if applicable, school configuration (e.g., Continuation School, Sp. Ed. Center, etc.):

Charnock Road is a elementary school servicing grades Expanded Transitional Kindergarten through fifth grade along with 2 Autistic classes and a primary and upper grade Specific Learning Disability Classes.

3. Indicate student enrollment figures:

Our enrollment has shown a slight decrease in the last years numbers. In 2016-2017, enrollment was 364 students. In 2015-2016, enrollment dropped slightly (333 students). We had a slight increase this school year. Currently in 2016-2017, enrollment is at 359 students.

4. Indicate poverty level (i.e., percentage of low-income students identified on the Title I ranking):

The percentage of low-income students identified on the Title I ranking is 83%

5. Identify language, racial and ethnic make-up of the student body:

The school has the following demographic composition: 60% Latino, 14% African American, 13% Asian, 2% Filipino, and 11% White. There are 17 different languages spoken by our students in addition to English, and 44% of our students are classified as English Learners. We are school-wide, Title I school with 83% of our student population receiving free or reduced-priced lunch.

6. Provide a description of how the school will share individual student academic assessment results in a language the parents understand, including an interpretation of those results:

Charnock offers two orientation sessions for parents to assist them in understanding the grade level Common Core Standards; student assessment results and report card marks in the parents' primary language as appropriate. The Categorical Program advisor also conducts individual or small group meetings to cover these issues by using the primary language of the majority of parents. Teachers also review this information during regular parent conferences with primary language translation.

7. Describe other important characteristics of the school (e.g., SLC, PLC):

Directions: Check the box(es) next to the program(s) in which your school participates.

<input checked="" type="checkbox"/>	Title I Schoolwide Program (SWP)
<input type="checkbox"/>	Title I Targeted Assistance School (TAS)
<input type="checkbox"/>	Title III English Language Acquisition, Language Enhancement, and Academic Achievement
<input type="checkbox"/>	Extended School-Based Management Model (ESBMM)
<input type="checkbox"/>	Local Initiative School (LIS)
<input type="checkbox"/>	Pilot School
<input type="checkbox"/>	Public School Choice (PSC)
<input type="checkbox"/>	Partnership for Los Angeles Schools (PLAS)
<input type="checkbox"/>	L.A.'s Promise
<input type="checkbox"/>	Reed
<input type="checkbox"/>	Professional Learning Community (PLC)
<input type="checkbox"/>	Small Learning Community (SLC)

Other important characteristics of the school:

N/A

COMPREHENSIVE NEEDS ASSESSMENT

A comprehensive needs assessment incorporates several components, including data analysis related to student achievement, professional development, school-family relationships, school culture/climate, attendance, suspensions/expulsions, and non-cognitive skills. Recommendations derived from the SPSA Evaluation, LAUSD School Review Process(es), and review and analysis of the data below comprise the LAUSD Comprehensive Needs Assessment for the SPSA.

Directions: Review and analyze the data below, along with the SPSA Evaluation results, and determine actions that will help improve teaching and increase student achievement.

- LAUSD School Review Process Recommendations (if applicable)
- School Accountability Report Card
- School Experience Survey
- School Quality Improvement Index (SQII) Report Card
- School Report Card
- Smarter Balanced Assessment Criteria (SBAC) Examination

COMPREHENSIVE NEEDS ASSESSMENT / SELF-REVIEW PROCESS

DIRECTIONS: Check the groups or committees that participated in the plan writing process. *Who* was involved in the self-review/needs assessment process (e.g., SSC, teachers, advisory committees, parents, students)? Describe the school's process for identifying areas in need of improvement and determining actions, strategies, and interventions to be implemented, i.e., *what happened* during the process (analysis of data, review of intervention results, examination of research-based strategies)? *When* did the process occur (dates)?

Who was involved?	What happened?	Date(s)
<input checked="" type="checkbox"/> School Site Council	Reviewed data, identified issues and challenges, provided feedback and recommendations to the development of the SPSA	02/23/2018, 02/26/2018, 04/06/2018
<input checked="" type="checkbox"/> English Learner Advisory Committee	Reviewed data, identified issues and challenges, provided feedback and recommendations to the development of the SPSA	12/01/2017, 01/26/2018, 04/06/2018
<input checked="" type="checkbox"/> Other: Local School Leadership Committee	Reviewed data, identified issues and challenges, provided feedback and recommendations to the development of the SPSA	03/07/2018

**Los Angeles Unified School District
2018-2019 Single Plan for Student Achievement**

ACADEMIC GOAL — 100% GRADUATION

LAUSD Goal: All students will graduate from high school. Indicate all data reviewed to address this Academic Goal:

1. List key findings related to school's graduation rate based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.). ***Required**

After reviewing our data from the end of the 2016-2017 school year, we can conclude that roughly 35% of our students were on track to meet future college and career ready graduation goals, with an additional 21% almost meeting the standards according to the end of year summative Smarter Balanced Assessment Consortium (SBAC) mathematics and language arts grades 3 through 5 assessments.

When the data is broken down by subject, in the area of mathematics, we can see that 11% of our grades 3-5 students scored at the 'exceeds standard' level, 24% scored at the 'standard met' level, 25% scored at the 'standard nearly met' level, and 40% scored at the 'standard not met' level. This indicates that if our students continue on the path they are now, at least 60% of our students will be college and career ready in math by the time they graduate high school.

In the area of language arts, we can see that 12% of our grades 3-5 students scored at the 'exceeds standard' level, 39% scored at the 'standard met' level, 20% scored at the 'standard nearly met' level, and 29% scored at the 'standard not met' level. This indicates that if our students continue on the path they are now, at least 71% of our students will be college and career ready in language arts by the time they graduate high school.

For grades kindergarten through second (K-2) there is no summative Smarter Balanced assessment data to analyze, so instead we turn to Amplify and their Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment to get a snapshot of how our students are doing by the end of the year. 25% of our students in grades K-2 scored at the level of "Benchmark", and 42% of our students in grades K-2 scored at the level of "Above Benchmark". That puts 67% of our students in grades (K-2) scoring at the level of "Benchmark" or "Above Benchmark".

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. ***Required**

Math issues/needs of improvement
There is a large discrepancy when it comes to how our fluent English students (FEP) perform on the math portion of the summative SBAC assessment compared to how our limited English proficient (LEP) students perform. 91% of our LEP students scored at the "standard not met" level, compared to only 29% of our FEP students. In addition only 9% of LEP students scored above standard in Problem Solving. LEP students are having trouble identifying what is being asked of them due to their lack of reading skills. We need to focus on making sure that LEP students have a better understanding of what is being asked of them so that they can better understand what they need to do in the problem. The use of the "Three Reads" protocol and the "Constructive Conversation Skills" can help these students better Identify what is being asked of them.

ELA issues/needs of improvement:
Similar to math, there is a large discrepancy when it comes to how our fluent English students (FEP) perform on the English language arts (ELA) portion of the summative SBAC assessment compared to how our limited English proficient (LEP) students perform. 77% of our LEP students scored at the "standard not met" level, compared to only 23% of our FEP students. One of the reasons was the lack of a structured ELD program that targeted the ELD standards specifically. With the implementation of Start Smart 1.0 Revised, Start Smart 2.0, and the use of mentor texts, we are addressing these issues to better increase our EL students scores.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

In the 2017-2018 Single Plan for Student Achievement (SPSA) our's goal was to decrease the percentage of 3rd-5th grade students scoring "below standard" in Mathematics Concepts and Procedures by 6% from 51% to 46% as determined by the summative SBAC math assessment by June 2018. We are on track to decrease the number of students scoring at the level of "below benchmark". The school has implemented various strategies to help increase student achievement, including data analysis and strategic lesson planning, targeted mini lessons, teacher collaboration, targeted teacher professional development, in-class and after school intervention designed by school site. Targeted intervention was used for students who were on the cusp of achieving proficiency levels in mathematics.

Our second goal for the 2017-2018 school years was to decrease the percentage of 3rd-5th grade students scoring "below standard" in ELA by 10% from 64% to 54% using the summative SBAC assessment as a measure by June 2018. We are also on track to meet our goal in ELA. We are implementing some strategies such as close reading to help increase student achievement, data analysis and strategic lesson planning, targeted mini lessons, teacher collaboration, targeted teacher professional development, in-class and after school intervention designed by school site.

Our last goal is for our K-2 students. Our goal was to increase the number of students at the level of "Benchmark or Above Benchmark" on Amplify's DIBELS assessment. Our goal is to increase the percentage of students by 5% from 48% to 53% in reading for grades K-2 using the DIBELS assessment as a measure. We are on track to meet this goal as we have implemented a variety of phonics and reading strategies to ensure our students are on the path to be ready to 'read to learn'. Aside from implementing data analysis and strategic lesson planning, targeted mini lessons, teacher collaboration, targeted teacher professional development, in-class and after school intervention designed by school site, we have taken to really making great use of our teacher's assistant during small group 'academy time' to target specific student needs.

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

N/A

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

N/A

State the School's Measurable Objective(s) for 2018-19 *Required if this Goal is addressed.

Our goal is to ensure that our students are on track to be college and career ready in math and ELA by the time they graduate high school. As a way to ensure that our students are prepared to meet the rigours demands of middle and high school we have set 3 clear and concise measurable objects for the 2018-2019 school year.

By June 2019, the percentage of 3rd-5th grade students scoring at the level of "Standards Met or Exceeded" in Mathematics will increase by 10%. Using the 2017 SBAC results as a snapshot of how students are performing, we want to increase student achievement from 36% to 46% using the 2019 end-of-year summative SBAC assessment as a measure.

Our second measurable objective is to increase the percentage of 3rd-5th grade students scoring at the overall level of "Standards Met or Exceeded" in ELA by 10%. Using the 2017 SBAC results as a snapshot of how students are performing, we want to increase student achievement from 44% to 54% using the 2019 end-of-year summative SBAC assessment as a measure.

By June 2019, Our last measurable objective is to increase the percentage of students in K-2 attaining the level of "Benchmark" or "Above Benchmark" on Amplify's DIBELS EOY assessment by 5% in from 67% to 72%. By ensuring our K-2 students can read by the time they leave 2nd grade, we can ensure that they are ready to move from 'learning to read' to 'read to learn' by third grade.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

When addressing this Goal, include Integrated ELD in one or more Focus Areas.

Focus Area:**Lesson Planning, Data Analysis, and Professional Development***Academic : 100% Graduation*

<p>Charnock will use the California ELA and Mathematics State Standards by providing teachers with targeted professional development to increase students' opportunity and ability to construct viable arguments and critique the reasoning of others. Charnock's goal is to increase the opportunity for students to use academic language and engage in discussion through effective question and discussion techniques during ELA and during Integrated ELD. Professional development will focus on specific strategies for implementation of the above stated. The professional development will be provided by principal and CPA/TSP Advisor (\$67,389+\$770 differential) held during the school day and or beyond contract hours (Tuesday Bank Time, weekly; one week prior to beginning of school year). Professional Development topics include the following:</p> <ul style="list-style-type: none"> • The effective use of manipulative and technology as tools during mathematics instruction and the necessary classroom routines and procedures to insure effective implementation. • Purposeful instructional grouping • Teaching students how to ask critical questions • Explicit instruction on the National Council of Teachers of Mathematics (NCTM) Problem Solving Strategies. • The use of graphic organizers, technology, criteria charts and rubrics in mathematics to advance students understanding, engagement and accountability • Student Discussion Protocols • Research based mathematics instructional methodologies (Kathy Fosnot, Marilyn Burns, Tank & Zolli, et al.) • Student assignments aligned to Common Core and reflecting all levels of Depth of Knowledge. • Lesson design and study • Technology as a Tool for California Mathematics Standards implementation and assessment 	<p>08/14/2018 06/06/2019</p>	<p>Principal and Coordinator will Design and monitor PD topics, agendas and sign-in for attendance</p> <p>Principal and Coordinator will: Review grade level/teacher reflection logs and goal sheets. Conduct Classroom observations</p>

ACADEMIC GOAL — ENGLISH LANGUAGE ARTS

LAUSD Goal: All students will reach high standards, at a minimum attaining proficiency or better in reading and mathematics. Indicate all data reviewed to address this Academic Goal:	
<input type="checkbox"/>	CELDT
<input type="checkbox"/>	School Report Card
<input type="checkbox"/>	MyData
<input type="checkbox"/>	Student Grades
<input type="checkbox"/>	IEP Goals Data
<input type="checkbox"/>	DIBELS Math
<input checked="" type="checkbox"/>	DIBELS
<input type="checkbox"/>	School Accountability Report Card (SARC)
<input type="checkbox"/>	CA Dashboard
<input checked="" type="checkbox"/>	Smarter Balanced Assessment Criteria (SBAC)
<input checked="" type="checkbox"/>	Interim Comprehensive Assessment (ICA)
<input checked="" type="checkbox"/>	Interim Assessment Blocks (IAB)
<input type="checkbox"/>	School Experience Survey
<input type="checkbox"/>	Publisher's Assessments
<input type="checkbox"/>	Reading Inventory (RI)
<input type="checkbox"/>	N/A

1. List key findings related to student proficiency in English Language Arts based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.). *Required

In the area of language arts, we can see that 12% of our grades 3-5 students scored at the 'exceeds standard' level, 39% scored at the 'standard met' level, 20% scored at the 'standard nearly met' level, and 29% scored at the 'standard not met' level. This indicates that if our students continue on the path they are now, at least 71% of our students will be college and career ready in language arts by the time they graduate high school.

For grades kindergarten through second (K-2) there is no summative Smarter Balanced assessment data to analyze, so instead we turn to Amplify and their Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment to get a snapshot of how our students are doing by the end of the year. 25% of our students in grades K-2 scored at the level of "Benchmark", and 42% of our students in grades K-2 scored at the level of "Above Benchmark". That puts 67% of our students in grades (K-2) scoring at the level of "Benchmark" or "Above Benchmark".

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

ELA issues/needs of improvement:

Similar to math, there is a huge discrepancy when it comes to how our fluent English students (FEP) perform on the English language arts (ELA) portion of the summative SBAC assessment compared to how our limited English proficient (LEP) students perform. 77% of our LEP students scored at the "standard not met" level, compared to only 23% of our FEP students. One of the reasons was the lack of a structured ELD program that targeted the ELD standards specifically. With the implementation of Start Smart 1.0 Revised, Start Smart 2.0, and the use of mentor texts, we are addressing these issues to better increase our EL students scores.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

Our goal for the 2017-2018 school years was to decrease the percentage of 3rd-5th grade students scoring "below standard" in ELA by 10% from 64% to 54% using the summative SBAC assessment as a measure by June 2018. We are on track to meet our goal in ELA. We are implementing some strategies such as close reading to help increase student achievement, data analysis and strategic lesson planning, targeted mini lessons, teacher collaboration, targeted teacher professional development, in-class and after school intervention designed by school site.

Our last goal is for our K-2 students. Our goal was to increase the number of students at the level of "Benchmark or Above Benchmark" on Amplify's DIBELS assessment. Our goal is to increase the percentage of students by 5% from 48% to 53% in reading for grades K-2 using the DIBELS assessment as a measure. We are on track to meet this goal as we have implemented a variety of phonics and reading strategies to ensure our students are on the path to be ready to 'read to learn'. Aside from implementing data analysis and strategic lesson planning, targeted mini lessons, teacher collaboration, targeted teacher professional development, in-class and after school intervention designed by school site, we have taken to really making great use of our teacher's assistant during small group 'academy time' to target specific student needs.

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

N/A

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

We are addressing this aspects of this goal in the "100% Graduation" section.

State the School's Measurable Objective(s) for 2018-19 *Required if this Goal is addressed.

N/A

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

When addressing this Goal, include Integrated ELD in one or more Focus Areas.

1. List key findings related to student proficiency in Mathematics based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.). *Required

When the data is broken down by subject, in the area of mathematics, we can see that 11% of our grades 3-5 students scored at the 'exceeds standard' level, 24% scored at the 'standard met' level, 25% scored at the 'standard nearly met' level, and 40% scored at the 'standard not met' level. This indicates that if our students continue on the path they are now, at least 60% of our students will be college and career ready in math by the time they graduate high school.

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

Math issues/needs of improvement

There is a large discrepancy when it comes to how our fluent English students (FEP) perform on the math portion of the summative SBAC assessment compared to how our limited English proficient (LEP) students perform. 91% of our LEP students scored at the "standard not met" level, compared to only 29% of our FEP students.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

In the 2017-2018 Single Plan for Student Achievement (SPSA) our's goal was to decrease the percentage of 3rd-5th grade students scoring "below standard" in Mathematics Concepts and Procedures by 6% from 51% to 46% as determined by the summative SBAC math assessment by June 2018. We are on track to decrease the number of students scoring at the level of "below benchmark". The school has implemented various strategies to help increase student achievement, including data analysis and strategic lesson planning, targeted mini lessons, teacher collaboration, targeted teacher professional development, in-class and after school intervention designed by school site. Targeted intervention was used for students who were on the cusp of achieving proficiency levels in mathematics.

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

| <input type="checkbox"/> N/A |

1. List key findings related to English learners' proficiency in core curriculum based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.). *Required

EL student performance currently demonstrates a pattern of increase. During the 2015-2016 school year we saw about 12.9% of our ELs meeting reclassification requirements. The following year, during the 2016-2017 school year, we saw an increase of 8% points with 21% of our ELs meeting reclassification requirements. As of April 2018, the ongoing reclassification rate is 11%.

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

We need to increase the percentage of EL students that advanced one level per year. Last year, the 2016-2017 school year, we only saw 60% of our students advanced at least one level, with second and third grade being the grades that saw the least growth. Part of the reason was the transition to the new EL program that is being implemented, LAUSD's MMED's Start Smart 1.0 & 2.0 as well as the use of designated English language development (ELD) lesson using mentor text. This was still new to our teachers during the 2016-2017, and now during the 2018-2019 school year teachers are once again expected to teach a new curriculum, Benchmark Advance's EL curriculum, as well as prepare students to take a new assessment. All of these transitions can lead to a decline in student achievement until both students and teachers adjust to the new curriculum, practices, and assessments.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

Our measurable objective for the 2017-2018 school year was to increase the reclassification rate of Potential Long Term English Learners (PLTEs) from 29% to 35% by the end of the 2017-2018 school year. As of April 2018, we have only reclassified 3 out of our 17 PLTEs, making it about 18%. We have 3 more students awaiting the end of year DIBELS assessment, in order to reclassify. Once those 3 students reclassify that would bring our percentage up to 35% keep us on track to meet our measurable objective.

Along with those 3 who have already passed the CELDT, we have numerous others who are awaiting their opportunity to take the ELPAC at the beginning of May which will hopefully raise our percentage past our target goal.

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

N/A

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

N/A

State the School's Measurable Objective(s) for 2018-19 *Required

By June 2019, Charnock Road will decrease the PLTEL rate from 11% to 6%, by focusing on the reclassification of PLTEs.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

Must complete at least two Focus Areas, including Building Parent Capacity and Partnership to Support the Academic Goal.

When addressing this Goal, include Designated ELD in one or more Focus Areas.

Focus Area:

Lesson Planning, Data Analysis, and Professional Development

Academic : English Learner Programs

Strategies		
Strategies, Actions and Tasks	Action Begin & End Date Status	Measurement of Strategies' Effectiveness/ Identify the title of position/staff responsible
<p>To increase the percentage of English Learners making English progress and achieving English proficiency, Charnock will provide professional development, during and outside of the instructional day, to teachers of English learners on the following:</p> <ol style="list-style-type: none"> 1. Content and Language objectives to maximize use of language forms, functions and academic vocabulary throughout the instructional day. 2. Key features of Integrated ELD (Content, Connections, Comprehensibility and Interaction) 3. Cooperative learning strategies (such as Constructive Conversation Skills, think-ink pair share, jigsaw, numbered heads together) during content instruction to enhance English Learners' use of the academic language in academic context, negotiation of English language meaning and adaptation of language choices based on task, purpose and text type. 4. Specific strategies to support English Learners' contextualization of the new learning, comprehension of informational and literary text, academic discussions and production of written text. 5. Protocols for frequent checking for understanding and student self-monitoring/self-assessing. 	08/14/2018 06/06/2019	Principal and EL Designee will conduct classroom observations to assess the implementation of adopted instructional strategies and determine further professional development needs. Furthermore, data measures such as CELDT, ELPAC, DIBELS Next, periodic assessments, curricula-based assessments and My Data at Risk Reports will be analyzed to determine the overall effect of the instructional strategies.
<p>In order to enhance ELD instruction and accelerate English Language Development, teachers will have release time to engage in the following:</p> <ol style="list-style-type: none"> 1. Plan Designated and Integrated ELD lessons that incorporate strategies learned in professional development. 2. Plan cross curricular, core content lessons that are aligned to the ELD and California Common Core Standards through the backward planning process. 3. Analyze data (reclassification rates) of English learners and tweak Tier I instruction if data indicate that the goal of 80% proficiency was not met. <p>Engage in ELD lesson study, observation and reflection on feedback on lesson delivery.</p>	08/14/2018 06/06/2019	Principal will conduct classroom observation to monitor class schedules and evidence of the use of ELD and SDAIE strategies. Provide feedback to teachers

**Los Angeles Unified School District
2018-2019 Single Plan for Student Achievement**

CULTURE and CLIMATE GOAL — STUDENT, STAFF, PARENT AND COMMUNITY ENGAGEMENT

All sections are required.

LAUSD Goal: All students will reach high standards, at a minimum attaining proficiency or better in reading and mathematics. Indicate all data reviewed to address this Culture & Climate Goal:	
<input type="checkbox"/>	CELDT
<input type="checkbox"/>	School Report Card
<input type="checkbox"/>	MyData
<input type="checkbox"/>	Student Grades
<input type="checkbox"/>	IEP Goals Data
<input type="checkbox"/>	DIBELS Math
<input type="checkbox"/>	DIBELS
<input type="checkbox"/>	School Accountability Report Card (SARC)
<input type="checkbox"/>	CA Dashboard
<input type="checkbox"/>	Smarter Balanced Assessment Criteria (SBAC)
<input type="checkbox"/>	Interim Comprehensive Assessment (ICA)
<input type="checkbox"/>	Interim Assessment Blocks (IAB)
<input checked="" type="checkbox"/>	School Experience Survey
<input type="checkbox"/>	Publisher's Assessments
<input type="checkbox"/>	Reading Inventory (RI)
<input type="checkbox"/>	N/A

1. List key findings related to culture, climate, and engagement for students, staff, parents and community based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.). *Required

The percentage of parents responding to the School Experience Survey was 45% for the 2016-2017 school year. In 2017, 85% of parents agreed that they felt that the school let them to be partners in their child's education. Additionally, 98% of parent respondents felt that they were welcomed to participate at the school.

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

Even though, we have seen an increase in the amount of parent participation in the school, based on how many parents have turned in the School Experience Survey, we seem to not be doing enough. There needs to be more opportunities for parents to be able to participate in school functions. Most meetings are held in the morning. Many parents are unable to participate because of this. We need to make sure the staff is friendlier with the parents and welcome them during the events that are held at the school.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

N/A

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

In the 2017-2018 SPSA we stated that our measurable objective would be to provide ongoing, accessible and meaningful opportunities for parents to connect with the school, community resources and other parents in order to support their children's well-being, learning and achievement as measured by the increase of parents completing the Parent Experience Survey by 5% from 62% to 67% by the end of the 2018 school year. We did not meet our measurable objective. We need to have staff training on specific ways to help the parents feel more welcome at the school. We also need to hold some meetings in the afternoon so that parents that work during the day have a chance to participate. And lastly, we need to find better ways to communicate with parents so that the message clearly comes across that we value their opinion when it comes to their children's education.

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

N/A

State the School's Measurable Objective(s) for 2018-19 *Required

Provide ongoing, accessible and meaningful opportunities for parents to connect with the school, community resources and other parents in order to support their children's well-being, learning, and achievement as measured by the increase of parents completing the Parent Experience Survey by 10% from 45% to 55% during the 2018-2019 school year.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

Focus Area:**Student, Staff, Parent Engagement *Required***Cultural and Climate : Student, Staff..***Strategies****Strategies, Actions and Tasks****Action Begin & End Date Status****Measurement of Strategies' Effectiveness/ Identify the title of position/staff responsible**

In order to Create a welcoming school climate, the TSP Advisor and the Community Rep. will facilitate the following:

- Provide a personal greeting and welcome to all stakeholders visiting the school, including important school contact information, school calendar
- Make personal contact with all stakeholders through e-mail, phone calls and letters.
- Hold an Orientation for new families where they can tour the school.
- Provide translation services for events as needed.
- Provide a dedicated Parent Center room, with clearly posted operating hours and comfortable amenities.
- Provide workshops and materials for parents on typical developmental and appropriate school expectations for various age groups.
- Facilitate workshop on School Report Card: A-G Graduation Requirements, California Dashboard
- Encourage all stakeholders to complete School Experience Survey by providing incentives.
- Print suggestions for parents on home conditions that support learning at each grade level. Monthly parent newsletter covers these issues.
- Partner with local agencies to provide regular parent workshops on nutrition, family recreation or communication.
- Hold informational meetings at key transition points, such as students entering kindergarten, to help families and students understand what to expect.
- Invite parents to attend Coffee with the Principal

08/14/2018
06/06/2019

Principal and Coordinator will review the Parent feedback on the School Experience Survey

SOCIAL / EMOTIONAL GOAL — ATTENDANCE, SUSPENSION/EXPULSION and NON-COGNITIVE SKILLS

LAUSD Goal: 100% Attendance Indicate all data reviewed to address this Social/Emotional Goal:	
<input type="checkbox"/>	CELDT
<input type="checkbox"/>	School Report Card
<input type="checkbox"/>	MyData
<input type="checkbox"/>	Student Grades
<input type="checkbox"/>	IEP Goals Data
<input type="checkbox"/>	DIBELS Math
<input type="checkbox"/>	DIBELS
<input type="checkbox"/>	School Accountability Report Card (SARC)
<input type="checkbox"/>	CA Dashboard
<input type="checkbox"/>	Smarter Balanced Assessment Criteria (SBAC)
<input type="checkbox"/>	Interim Comprehensive Assessment (ICA)
<input type="checkbox"/>	Interim Assessment Blocks (IAB)
<input checked="" type="checkbox"/>	School Experience Survey
<input type="checkbox"/>	Publisher's Assessments
<input type="checkbox"/>	Reading Inventory (RI)
<input type="checkbox"/>	N/A

1. List key findings related to attendance, suspension/expulsion, and non-cognitive skills based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.). *Required

The percentage of students at 96% or better attendance has increased from 54% during the 2016-2017 school year to 64% as of March 2018, an increase of 10%.

The percentage of students suspended decreased from 0.3% as of March 2016-2017 to 0% as of April 2017-2018, for a 0.3% net decrease. The amount of referrals for unsatisfactory behavior has also dropped from 39 during the 2016-2017 school year to 14 as of April 2018.

Lastly, 87% of students and 99% of parents feel that the school grounds are safe.

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

It is important that we continue to increase the number of students with 96% or better attendance. We have around 18% of our students falling into the Chronically absent category as of April 2018. Many of our student's families are from other parts of the world and at times emergencies arise where they need to leave the country for a few days or even weeks. Additionally, a percentage of our families find themselves in difficult economic situations and transportation or child care can often be an issue when trying to get to school.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

In our 2017-2018 there was no measurable objective stated, however it is important that we continue to increase the number of students with 96% or better attendance. We have had a 10% increase from the previous year because we have made it our priority and have implement multi-tiered, pro-active attendance plan with a strong focus on creating a positive school climate, rewarding good attendance with incentive programs, and quickly addressing students and families struggling with attendance issues with a tiered intervention protocol.

In short, we have made it clear that having great attendance is closely tied to their child' academic success and that we care about their child's attendance. We continue will promote the importance of attendance by rewarding students who come to school everyday each month. We will also continue to promote special activities for those students who continually are present or improve their attendance throughout the school year. Lastly, we will also keep track of students who are at risk and truant using MyData.

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

N/A

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

Supplemental support and resources are addressed in 100% Graduation.

State the School's Measurable Objective(s) for 2018-19 *Required if this Goal is addressed.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

TITLE I SCHOOLWIDE PROGRAM SCHOOLS/ESSA 1114 COMPONENTS FOR IMPLEMENTATION

1. Comprehensive needs assessment: The Schoolwide Program is based on a comprehensive needs assessment of the entire school that takes into account information on the academic achievement of children in relation to the challenging State academic standards, particularly the needs of those children who are failing, or are at risk of failing, to meet the challenging State academic standards and any other factors as determined by the District. Describe the strategies that the school will be implementing to address school needs, and how such strategies will provide opportunities for all children, including each of the subgroups of students (as defined in section 1111(c)(2)) to meet the challenging state academic standards.

To determine whether or not school objectives are met, strategies to achieve the goals are measured for effectiveness through the analysis of data, completion of the *SPSA Evaluation*, and the *Comprehensive Needs Assessment/Self Review Process*. The evaluation will serve as the indicator to make any significant changes to the instructional program. Modifications will be made if the strategies identified in the Goal pages have not provided results or sustained improvement. The comprehensive needs assessment is described in the *Comprehensive Needs Assessment/Self Review Process* section of the SPSA.

2. Schoolwide reform strategies: Describe the methods and instructional strategies that strengthen the academic program, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education and address the learning needs of all students in the school, but particularly the needs of those students at risk of not meeting the challenging State academic standards through activities which may include counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas.

Schoolwide reform strategies are described in Section IV of all Goal pages.

3. Preparation for and awareness of opportunities for postsecondary education and the workforce: Describe how the school prepares students for and makes them aware of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools).

Charnock Road Elementary promotes College and Career Readiness in various ways. Every Friday is College Friday. Teachers, staff and students wear clothing from their favorite colleges or universities. We also have college banners proudly displayed in our library, and this year we were very fortunate to have college logos and inspiration quotes painted around our main yard. Our auditorium has a banner up that states. "Charnock Goes to College." and we have implemented a school chant that states "Roadrunners go far! All the way to college!" During assemblies, the principal and coordinator refer to the banner to let students know that they are expected to go to college. College is also promoted in the classroom by the teachers. Many teachers proudly display their college banners in the classroom and we have school wide door decorating competitions to promote the importance of college and career readiness.

4. Implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervention services: Describe how the school implements a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

Charnock Road has a multi-tier positive behavior support plan. It addresses the student body as a whole by educating students to follow the three Bs and earning "Caught Being Good" awards. On Mondays, there is a raffle for pencils and incentives further promote positive behavior. In addition, Charnock Road assists students that need support through counseling, conferences and restorative justice practices.

5. High-quality and ongoing professional development and other activities: Describe the professional development and other activities provided for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments.

Professional development and other activities are described in the Focus Areas of all Goal sections at the rows entitled "Lesson Planning, Data Analysis, and Professional Development."

6. Strategies to recruit and retain effective teachers to high-need schools: Describe the strategies used by the District to recruit and retain effective teachers, particularly in high-need subjects.

LAUSD maintains an aggressive and far reaching recruitment plan. On June 30, 2010, all non-compliant elementary teachers were subject to Reduction in Force. Current hiring practices limit hiring to credentialed and intern candidates only. Principals are increasingly selective in their hiring practices, seeking only to interview and select those candidates who are in compliance with ESSA. The District is continuing to offer a Verification Process for Special Settings (VPSS) program to assist secondary special education teachers and alternative school teachers to become ESSA compliant in all subjects taught.

7. Schoolwide Program Plan is developed with the involvement of parents and other members of the community: Describe how the Schoolwide Program Plan was developed with the involvement of parents and other members of the community to be served and the individuals who will carry out the plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators, the District, tribes and tribal organizations present in the community and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, and if the plan relates to a secondary school, students, and other individuals determined by the school.

The School-wide Plan was developed and vetted by various stakeholder committees. We have a group of school leaders in our Local School Leadership Council (LSLC) looking at students work, outcomes and other school data having to do with student achievement, and making suggestions that will then be taken to staff meetings and other meetings for vetting. We have a large population of English learners (ELs) and therefore the members, primarily parents of ELs, provided numerous recommendations that were then taken to the School Site Council (SSC). The SCC is composed of parents, teachers, other school staff, and community members that analyze data and ensure the Single Plan for Student Achievement (SPSA) is being implemented with fidelity. At the same time the SSC is analyzing school data to write the next SPSA, it is a continuous cycle of improvement.

8. Describe strategies for assisting preschool children in the successful transition from early childhood education programs to local elementary schoolwide programs, and if programs are consolidated, the specific state educational agency and local educational agency programs that will be consolidated in the schoolwide program: Describe how the school assists preschool children in the transition from early childhood programs to elementary school. (Elementary schools only).

- Develops and implements a systematic procedure for receiving records regarding children transferred with parental consent from a Head Start program or another childhood development program such as the Early Reading First Program
- Establishes channels of communication between school staff and their counterparts (including teachers, social workers, and health staff) in agencies such as Head Start or other entities carrying out early childhood development programs such as the Early Reading First Program to facilitate coordination of programs
- Conducts meetings involving parents, kindergarten or elementary school teachers, and Head Start teachers or teachers from other early childhood development programs such as the Early Reading First Program, to discuss the developmental and other needs of individual children
- Organizes and participates in joint transition-related training of school staff, Head Start program staff, Early Reading First Program staff, and, where appropriate, other early childhood development program staff
- Links the educational services provided by such local educational agency with the services provided by local Head Start agencies and entities carrying out Early Reading First programs

Additional measures to assist pre-school students in the transition to local elementary schoolwide programs include:

9. Coordination and integration of Federal, State, and local services and programs: Describe how the school will coordinate and integrate federal, state, and local services, resources and programs, such as programs supported under ESSA, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d).

The school site council, in collaboration with the school's stakeholders, will coordinate federal, state, and local services and programs to ensure resources are allocated based on student needs. Low-achieving, at-risk students not meeting grade-level standards will receive the appropriate supplemental support based upon a rigorous analysis of all pertinent subgroup and individual student data. These include students in target populations of all programs in the SWP plan. Supplemental academic support will include, without exception, student interventions."

LOCAL DISTRICT MONITORING

Directors provide ongoing monitoring of the Single Plan for Student Achievement (SPSA) and support through:

- *Joint analysis of data*
- *Evaluation of the strategies described in the plan*
- *Observation of instruction*
- *Observation of professional development that supports the strategies identified in the school plan*
- *Providing actionable feedback on professional development implementation and implementation of identified strategies*
- *Overseeing the budget*
- *Ensuring that the school administrator communicates regularly with stakeholders on the progress made towards achieving SPSA goals*

Directors review and approve the Single Plan for Student Achievement (SPSA) and school site budgets throughout the school year. Directors conduct performance dialogues with their network principals to review the academic progress of all students and focus on monitoring implementation of the Single Plan for Student Achievement and analysis of student data as evidence of school progress.

Directors may describe additional services and support provided to the school’s instructional program in the box below:

ATTACHMENTS

Attach the following materials

Submit with Plan:

- **SSC Approval of SPSA**
 - Include copies of agenda, minutes, and sign-ins verifying approval of the SPSA. [Documentation (i.e., agendas, sign-ins, and minutes) must remain at the school site for five years.]
 - Include any written parent comments of dissatisfaction with the SPSA (SWP).
- **Analysis of School Experience Survey for Parents** (applies to New Schools only)

Submit to Principal's Portal:

- **Annual Title I Meeting**
- **SSC Certification Form**
- **Safe School Plan**
- **Parental Involvement Policy**
- **School Parent Compact**

Submit via Email

- **Principal Certification Form** (See Memorandum No. 6597.0 NCLB Compliance Principal Certification Form 2015-2016, Attachment C)

Retain at the School:

- **Small Learning Community Plan**
- **SSC Certification Form**
- **GATE Plan**
- **Grants** Include plans for any grants received by the school.
- **Safe School Plan**
- **LAUSD Public School Choice Proposal**

RECOMMENDATIONS AND ASSURANCES

The School Site Council recommends this school plan and its proposed expenditures to the district governing board for approval and assures the board of the following:

1. School Site Council has developed and approved, and will monitor the plan, to be known as the *School Plan for Student Achievement* for schools participating in programs funded through the consolidated application process.
2. School plan was developed "with the review, certification, and advice of any applicable school advisory committees."

The School Site Council sought and considered all recommendations from the following groups or committees before adopting this plan. **Signatures** are requested for those advisory committees/groups providing input in the development of this plan.

Committees	Date(s) of recommendation	Chairperson
		Typed Name
English Learner Advisory Committee (ELAC) <input checked="" type="checkbox"/> ELAC has delegated authority to SSC <input type="checkbox"/> Not applicable (if a school has less than 21 English learners, ELAC is not required)	04/09/2018	Amarilis Lopez

3. The content of the plan is aligned with school goals for improving student achievement.
4. The plan is reviewed annually and updated, including proposed categorical expenditures of funds allocated to the school through the consolidated application, by the School Site Council.
5. Plans are reviewed and approved by the governing board of the local educational agency "whenever there are material changes that affect the academic programs for students covered by programs" funded through the consolidated application.
6. The school minimizes the removal of identified children during regular school hours for supplemental Title I instruction (Targeted Assistance Schools only).

This school plan was adopted by the School Site Council on the following date:

04/09/2018

School plan approval appears in SSC Minutes.

2018-2019 FUNDING ALLOCATED TO THIS SCHOOL

The following categorical funds were allocated to this school through the Consolidated Application and Reporting System ("CARS"). Additional funds were allocated to this school through the Local Control Funding Formula. Funds (listed under "Other") may be allocated to the school in accordance with District policy. **If the school is operating as a Schoolwide Program (SWP), the following programs are consolidated in this plan:**

Federal Programs

Elementary and Secondary Education Act:

	<u>Allocation:</u>	<u>Original</u>	<u>Second</u>
<input checked="" type="checkbox"/> Title I: Schoolwide Program (7S046)	Amount: \$	1,127,934	111,276
Purpose: To upgrade the entire educational program of the school.			
<input checked="" type="checkbox"/> Title I: Coll&Career Coach [Cent Funds] (7T124)	Amount: \$	117,314	0
Purpose: 7T124 IS REFERING HERE			
<input checked="" type="checkbox"/> Title I: Parent Involvement Allocation (7E046)	Amount: \$	18,546	0
Purpose: To promote family literacy, parenting skills, and parent involvement activities.			
<input checked="" type="checkbox"/> Title III: English Language Development (7T197)	Amount: \$	0	0
Purpose: 7T197			
Total amount of categorical funds allocated to this school: \$			1,263,794

Total shown does not include the second allocation.

Other Programs to be consolidated under Schoolwide Program

NOTE: Allocations for Other Program do not transfer to Budget Summary Report

Allocation

District Mission Statement

The teachers, administrators, and staff of the Los Angeles Unified School District believe in the equal worth and dignity of all students and are committed to educate all students to their maximum potential.

Local Educational Agency (LEA) Plan Goals

The LEA plan serves as the instructional plan for the District and is measured through the Performance Meter and aligned to the following academic goals:

Goal 1: English/Language Arts and Mathematics—Proficiency for All

- Increasing literacy skills through the implementation of the California Standards in K-12 ELA, K-12 mathematics, and literacy in secondary History/Social Sciences, Science, and Technical Subjects
- Increasing the number of students meeting or exceeding standard in grades 3-8 and grade 11 on the California Assessment of Student Performance and Progress in mathematics
- Implementing a multi-tiered system of support to provide targeted instruction and intervention to K-12 students based on English/language arts and mathematics data

Goal 2: English Learners—Proficiency for All

Increasing English Language Development through implementation of the California English Language Development Standards

Providing and administering K-12 Instructional Programs for English Learners (ELs) that include:

- Structured English Immersion
- Mainstream English Instructional Program
- Dual Language Two-Way Immersion
- Transitional Bilingual Education Program
- Maintenance Bilingual Education Program
- Accelerated Learning Program for Long Term English Learner Program
- Secondary English Learner Newcomer Program

Using Title III funds to help ELs meet the State's annual measurable achievement objectives and build teacher capacity in meeting the academic and linguistic needs of students in the core subject areas including English Language Development

Meeting the District's expectation for ELs to advance in English language proficiency through Designated and Integrated English Language Development (ELD) and reclassify after five years of instruction

Promoting parent and family involvement in EL programs at the central, Local District, and school site level

Enhancing the quality of language instruction in the District's EL programs

Planning and developing the tools necessary to implement high-quality comprehensive professional development designed to improve the instruction and assessment of ELs

Supporting and monitoring the continued academic success of Reclassified Fluent English Proficient speakers (RFEPs)

Goal 3: All students will be taught by highly qualified teachers.

Placing teachers in schools, classrooms and subject areas based on teacher credentialing (Highly Qualified)

Providing effective professional development to teachers in Focus, Priority and Reward schools

Providing professional development to teachers on the California Standards in ELA, mathematics, History/Social Sciences, Science, Technical Subjects, and English Language Development

Providing professional development to teachers on textbook and curriculum adoptions that align with the California Standards

Providing professional development for teachers and administrators to improve instruction for English learners (ELs) and Students with Disabilities (SWDs)

Regularly assessing the effectiveness of professional development delivered throughout the District

Supporting professional needs of teachers of English Learners through Title III support coaches

Using the research base to design professional development topics and implementation

Building teacher capacity to use technology to plan and strengthen instruction, and to improve student understanding and use of technology for learning

Goal 4: All students will be educated in learning environments that are safe, drug-free, and conducive to learning

The California Department of Education no longer requires that this goal be addressed in the LEA plan

Goal 5: All Students will Graduate from High School—100% Graduation

Providing ongoing professional development, designed specifically towards accurate student placement and construction of the master schedule

Monitoring individual graduation plans to ensure all students have access to a high-quality course of study that builds toward college and career readiness

Offering differentiated, evidence-based instructional support and professional development that address the unique learning needs of the District's diverse learners, including at-risk students, and, as appropriate, provide interventions that respond to factors that may negatively impact student learning and achievement and impede their graduating from high school college-prepared and career-ready

2016-17 District Professional Development Priorities:

1. Implementation of the California Standards in ELA, mathematics, History/Social Sciences, Science, Technical Subjects, and English Language Development
2. Improve instruction through the implementation of the English Learner (EL) Master Plan
3. Use of the Teaching and Learning Framework Rubrics to improve teaching and learning across the district
4. Use of benchmark, progress monitoring, and diagnostic assessments (SBAC and district-developed interim assessments) to drive instruction and intervention in ELA, mathematics, science, history and ELD

District Core Program for All Students:

The District's core program is built on the California Standards in ELA, math and ELD, and in all other subjects, grounded in evidence-based pedagogy for effective instruction. In the 2016-2017 school year the District will continue full implementation of the California Standards in all grade levels. The District focus will revolve around the alignment of curriculum, instruction, and assessment ensuring successful outcomes for all students.

Curriculum focus-2016/2017

- Implementation of the California Standards in ELA and math using the District adopted texts, including digital text, effectively
- Implementation of the California English Language Development Standards for English Learners
- Anchoring reading and writing instruction in evidence from the text using a variety of increasingly complex texts.
- Writing across genres, with a focus on argument
 - Providing rigorous mathematics instruction that focuses deeply on the mathematics standards for the grade-level and provides a coherent transition from one topic to another and one grade to another

Instructional focus-2016/2017

- Use of close reading and quality text dependent questions to support students in reading and writing instruction.
 - Emphasis on the Standards for Mathematical Practices
- Stronger emphasis on the use of project-based learning and performance tasks to drive instruction.

Assessment focus-2016/2017

- Use of a multi-tiered system of support (MTSS) based on ongoing data analysis, to inform instruction and intervention.
- Use of MyData, a web-based tool that increases availability and usability of student data for LAUSD educators, in order to improve teaching and learning.
- Use of benchmark, progress monitoring, and diagnostic assessments (SBAC, district-developed interim assessments, and assessments of English language development) to drive instruction and intervention.
- Use of *School Quality Improvement Index* to evaluate school performance in terms of student achievement using a variety of measures, both status and growth related.

Schools are expected to frame their banked Tuesday professional development in 2016-2017 around the District priorities using a Plan-Deliver-Reflect-Revise model or Cycle of Inquiry and/or problem-solving process to improve outcomes for all students. The analysis of student data and work samples is used as the anchor for building professional practice.

The District will continue to support teachers and staff in the effective use of student achievement data in all subject areas. The District will further integrate the use of Performance Management both at the District and school levels in order to meet Performance Meter targets.

The District has adopted six culturally responsive and linguistically appropriate instructional strategies that are threaded throughout all PreK-12 content instruction. Instructional strategies include the use of advanced graphic organizers, explicit instruction in academic language, use of cooperative communal learning strategies, instructional conversations, contrastive analysis and making cultural connections by creating optimal learning environments.

The District will effectively implement the English Learner Master Plan for educating English Learners, Standard English Learners, and English Learners with disabilities. This plan focuses on the effective use of standards-based differentiated Designated and Integrated ELD instruction specifically designed for ELs, and standards-based instruction using SDAIE to ensure full access to the core curriculum, to meet the needs of all students including gifted and talented students, students with disabilities, and English learners.

Strong classroom management as outlined in the District's Discipline Foundation Policy frames the instructional program. Maximum use of academic engaged time is accomplished through planning resulting in clear expectations, preparing for transitions, and developing instruction that engages students in learning.

SCHOOL VISION, MISSION, AND PROFILE DESCRIPTION

School Vision

Directions: State your school's vision. (Describe what your school intends to become in the future.)

South Gate Middle School provides every student a high quality education in a safe community anchored environment that promotes in the student body a strong sense of individual responsibility and achievement.

State your school's mission.

School Mission

Directions: State your school's mission. (What is your school's purpose, i.e., why does the school exist and what is it here to do?)

We are educational community that provides every student with a comprehensive standards-based curriculum that fosters maximum achievement through improved literacy and encourages all stakeholders to develop skills and habits for life-long learning and wellness.

School Profile Description

Directions: Provide a brief description of your school community (the boxes below expand as needed).

1. Describe your school's geographical, demographic, educational and economic community base: The following websites contain useful data: http://www.census.gov/ , http://www.zip-codes.com/ , http://www.city-data.com/
Built in 1941, South Gate Middle School (SGMS), part of the Los Angeles Unified School District, is located in the city of South Gate, twelve miles southeast of downtown Los Angeles. The school serves a predominately Hispanic/Latino Population where a large number are immigrants, mostly from Mexico or Central America. Our title I standing is 87.06% . Families live predominantly in high-density apartment buildings, small homes, and garages, mostly rentals that fringe an industrial/retail area. Rates of theft, gang-related violence, burglaries, and domestic violence are high.
2. Indicate grade levels and, if applicable, school configuration (e.g., Continuation School, Sp. Ed. Center, etc.):
The school operates on a Single Track Traditional Calendar for 6th, 7th, and 8th grade.
3. Indicate student enrollment figures:
Our 100 classrooms currently serve the educational needs of approximately between 1900 to 2,100 students.
4. Indicate poverty level (i.e., percentage of low-income students identified on the Title I ranking):
Approximately 89% of our student population is Economically Disadvantaged with 87.06% of students participating in the Free or Reduced Price Lunch Program.
5. Identify language, racial and ethnic make-up of the student body:
The language, racial, and ethnic make-up of the student body is predominantly Hispanic/Latino students which represents 99% of the total school population with African-American, American Indian/Alaska Native, Asian, Filipino, Pacific Islander and White students comprising less than 1% of the total population. 13% of our student population is comprised of Students with Disabilities (SWD), 13% of Gifted and Talented students, 10% of English Learners and 42% of our student population is Reclassified as Fluent English Proficient. In total 52.4% of our student body is either a current or former English Learner. Spanish is the home language of 75% of our students.
6. Provide a description of how the school will share individual student academic assessment results in a language the parents understand, including an interpretation of those results:

To meet the language needs of the families of our student population, parent meetings provided by Counselors, Administration, and other school personnel throughout the school year during the school day, after school, and on Saturdays where staff will provide individual student academic assessment results in the language the parents understand, including an interpretation of those results.

7. Describe other important characteristics of the school (e.g., SLC, PLC):

Directions: Check the box(es) next to the program(s) in which your school participates.

- | | |
|-------------------------------------|--|
| <input checked="" type="checkbox"/> | Title I Schoolwide Program (SWP) |
| <input type="checkbox"/> | Title I Targeted Assistance School (TAS) |
| <input type="checkbox"/> | Title III English Language Acquisition, Language Enhancement, and Academic Achievement |
| <input type="checkbox"/> | Extended School-Based Management Model (ESBMM) |
| <input type="checkbox"/> | Local Initiative School (LIS) |
| <input type="checkbox"/> | Pilot School |
| <input type="checkbox"/> | Public School Choice (PSC) |
| <input type="checkbox"/> | Partnership for Los Angeles Schools (PLAS) |
| <input type="checkbox"/> | L.A.'s Promise |
| <input type="checkbox"/> | Reed |
| <input type="checkbox"/> | Professional Learning Community (PLC) |
| <input type="checkbox"/> | Small Learning Community (SLC) |

Other important characteristics of the school:

An important characteristic of SGMS is the school's implementation of the Professional Learning Community (PLC) model of practice. Teachers meet in PLC's during Professional Development Tuesdays and Common Planning Thursdays to follow the PLC cycle of student improvement to plan, deliver, reflect, and revise lessons that meet the needs of all our students.

COMPREHENSIVE NEEDS ASSESSMENT

A comprehensive needs assessment incorporates several components, including data analysis related to student achievement, professional development, school-family relationships, school culture/climate, attendance, suspensions/expulsions, and non-cognitive skills. Recommendations derived from the SPSA Evaluation, LAUSD School Review Process(es), and review and analysis of the data below comprise the LAUSD Comprehensive Needs Assessment for the SPSA.

Directions: Review and analyze the data below, along with the SPSA Evaluation results, and determine actions that will help improve teaching and increase student achievement.

- LAUSD School Review Process Recommendations (if applicable)
- School Accountability Report Card
- School Experience Survey
- School Quality Improvement Index (SQII) Report Card
- School Report Card
- Smarter Balanced Assessment Criteria (SBAC) Examination

COMPREHENSIVE NEEDS ASSESSMENT / SELF-REVIEW PROCESS

DIRECTIONS: Check the groups or committees that participated in the plan writing process. *Who* was involved in the self-review/needs assessment process (e.g., SSC, teachers, advisory committees, parents, students)? Describe the school's process for identifying areas in need of improvement and determining actions, strategies, and interventions to be implemented, i.e., *what happened* during the process (analysis of data, review of intervention results, examination of strategies proven to be effective). *When* did the process occur (dates)?

Who was involved?	What happened?	Date(s)
<input checked="" type="checkbox"/> School Site Council	Throughout the year the council reviewed and made modification to the excising SPSA. A SSC subcommittee was formed to review the departments recommendations and the comprehensive needs assessment.	04/05/2018
<input checked="" type="checkbox"/> Departments	All departments reviewed the current SPSA goals and strategies and used SBAC data and school generated data to make recommendations to the SSC subcommittee during PLC time.	03/29/2018

1. List key findings related to 100% Graduation based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.).CA Dashboard data must be included when available. *Required

Goal 1: 100% Graduation of the 2016-2017 MyData and the school experience survey indicates that
 *32% of 6th to 8th grade students in 2016-2017 meet or exceed standards in English Language Arts
 *19% of 6th to 8th grade students in 2016-2017 meet or exceed standards Math
 *84% of students say School is important for achieving my future goals.
 *64% of students say I know which A-G courses I need to pass with a 'C' or better to get into college.
 *76% of students say Most adults at my school expect me to go to college.
 *54% of students say Adults at my school have talked to me about different college choices for my future.
 *53% of students say Adults at my school have talked to me about different career choices for my future.
 *54% of students say Adults at my school have helped me learn the details of getting into college (completing applications, financial aid, etc).
 *57 % of students say What is the highest level of education that you PLAN to complete?
 Overall Future Orientation is 64%

2016-2017 Culmination Rate = 85% of the 8th grade class met the requirements to culminate.
 24% of the students earned a D or F on their Fall Final grades of the 2017-2018 school year in Mathematics
 25% of the students earned a D or F on their Fall Final grades of the 2017-2018 school year in ELA
 20% of the students earned a D or F on their Fall Final grades of the 2017-2018 school year in Social Studies
 16% of the students earned a D or F on their Fall Final grades of the 2017-2018 school year in Science

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

The survey responses indicate that the school needs to provide targeted intervention services to students who are not meeting or exceeding the English Language Arts or Math standards; strengthen regular communication regarding student's Individual Graduation Plan (IGP); and promote college and career pathway awareness.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

n/a

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

Our school did not meet its measurable objective but did show growth in all areas. We will continue to strengthen regular communication regarding student's Individual Graduation Plan (IGP) and promote college and career pathway awareness.

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

n/a

State the School's Measurable Objective(s) for 2018-19.If the school is in Red or Orange status on the CA Dashboard, you must include at least one Measurable Objective that addresses this status. * Required if this Goal is addressed.

By the end of the 2018-2019 school year, the overall future orientation domain percentage will increase by 5% from 64% to 69% in the student responses for the top two categories and the overall future orientation domain percentage will increase by 5% from 73% to 78% in the parent responses for the top two categories as measured on the school experience survey.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

When addressing this Goal, include Integrated ELD in one or more Focus Areas.

Focus Area: Lesson Planning, Data Analysis, and Professional Development

Academic : 100% Graduation

Strategies		
Strategies, Actions and Tasks	Action Begin & End Date Status	Measurement of Strategies' Effectiveness/ Identify the title of position/staff responsible
Students will develop a comprehensive understanding of LAUSD graduation requirements by receiving knowledge about the Individual Graduation Plan (IGP) by participating in whole-group sessions and individual conferences led by the grade level counselor.	07/01/2018 06/30/2019	Principal or designee will monitor implementation of sessions by signed IGP documentation returned to counselor.
Students will develop a comprehensive understanding of college requirements by receiving knowledge about the college and career options through activities developed by counselors and the College and Career Coach during College Awareness month in October and by participating in College and Career event to be held on a Saturday in April.	07/01/2018 06/30/2019	Principal or designee will monitor implementation of activities through sign-ins and surveys to measure the effectiveness of activities.
To ensure our at-risk students in middle school are prepared for A-G courses and will be successful in graduating college and career ready from high school, the District has provided funding to Title I middle schools to purchase a Middle School College and Career Coach. The Coach will collaborate and partner with the local district and school site instructional staff, school personnel, parents, and the community to ensure data-driven, results-based support services and programs are provided for all at-risk students. He/She will primarily be responsible for identifying achievement gaps, utilizing multiple data points for early alert data to inform intervention and support, assisting the roll-out of ELA/ELD, integrating instructional technology and providing a bridge of support as at-risk students transition into high school. (Centrally Funded; Budget Item: 14188; Program: 7T124)	07/01/2018 06/30/2019	Principal will meet and observe, and review student data to determine that the goals are met.
Counselors and deans will visit classrooms throughout the school year to promote the services they provide to students, behavior expectations and consequences, and assist students in making a connection to their school campus.	07/01/2018 06/30/2019 New	Principal will meet and observe, and review student data to determine that the goals are met.
The College and Career Coach Differential is to extend the work day by one hour for the coach to meet with students and parents after school and coordinate the after school intervention program.	07/01/2018 06/30/2019 New	Principal will monitor intervention logs and parent/student conference logs.

Parents will develop a comprehensive understanding of LAUSD graduation requirements by receiving knowledge about the Individual Graduation Plan (IGP) and by obtaining specific strategies to support their children toward graduation. Parents will participate in whole-group workshops led by the grade level counselor and the College and Career Coach once per semester on Saturdays, and schedule individual conferences with the counselor through out the year to increase their capacity to support their children toward graduation.			07/01/2018 06/30/2019	The principal and counselor will analyze workshop evaluation data to assess the effectiveness of the workshops. A summary sheet of individual conferences will also be evaluated to determine the effectiveness of the strategy.				
Parent workshops will be provided (3 per semester) at various times during the school day, after school, and/or Saturday to review: - A-G changing Graduation Requirements. -PSAT -Differences between the 4 systems of higher education: UC's, CSU's, Community and Private.			07/01/2018 06/30/2019	Counselors and the College and Career coach will analyze workshop evaluation data to assess the effectiveness of the workshops.				
The Community Representative will be trained by the counselor in the month of August to assist parents with graduation information. The Community Representative will be able to provide parents with check-lists and website information throughout the year to assist parents in becoming more knowledgeable about college readiness and admission requirements for the California State University and University of California systems, as well as other post-secondary educational institutions.			07/01/2018 06/30/2019	A counselor will train the Community Representative about LAUSD's graduation requirements and provide resources and materials to distribute to parents.

<input checked="" type="checkbox"/>	Other: STAR Reading Comprehension Assessment

1. List key findings related to English Language Arts based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.).CA Dashboard data must be included when available. *Required

STAR reading comprehension levels for 6th, 7th, and 8th grade students indicate students an overall reading level is 4th grade.

SBAC results in ELA indicate that 32% overall of 6th, 7th, and 8th grade students scored "Meets/Exceeds Standards"

SBAC results in ELA indicate that 3% overall of 6th, 7th, and 8th grade students in the Special Education subgroup scored "Meets/Exceeds Standards"

SBAC results in ELA indicate that 1% overall of 6th, 7th, and 8th grade students in the English Learners subgroup scored "Meets/Exceeds Standards"

Fall 2017 Interim Assessment results in math indicate that 6% of 8th grade students scored "Above Standards"

Fall 2017 Interim Assessment results in math indicate that 10% of 7th grade students scored "Above Standards"

Fall 2017 Interim Assessment results in math indicate that 12% of 6th grade students scored "Above Standards"

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

The data shows that students are between two to four grade levels behind in reading comprehension and the school needs to focus on school-wide strategies that will support reading comprehension specifically in the Students with Disabilities and English Learners subgroups which demonstrated the least amount of students meeting or exceeding the standards.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

n/a

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

Our school did not meet the goal.

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

n/a

State the School's Measurable Objective(s) for 2018-19.If the school is in Red or Orange status on the CA Dashboard, you must include at least one Measurable Objective that addresses this status. * Required

By the end of the 2018-2019 school year, school-wide proficiency marks in English Language Arts will increase by 5% points from 32% to 37% measured by SBAC.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

Effective Classroom Instruction

Academic : English Language Arts

Strategies		
Strategies, Actions and Tasks	Action Begin & End Date Status	Measurement of Strategies' Effectiveness/ Identify the title of position/staff responsible
Class-size reduction teacher(s) will reduce class size in all grade levels for students at-risk of academic failure because they are two to four grade levels behind in reading comprehension.	07/01/2018 06/30/2019	Principal will monitor CSR teachers through classroom observations.
A minimum of four days of Day-to-Day Substitute will be budgeted to cover the benefitted absence of register-carrying/class-size reduction (CSR) teachers.	07/01/2018 06/30/2019	
Supplemental Instructional Materials such as classroom posters of the writing process, supplementary student workbooks, and classroom libraries of novels will be purchased to support discussion techniques, student engagement and differentiated instruction.	07/01/2018 06/30/2019	CPA will monitor the use of supplemental instructional materials.
Teacher Assistants will be strategically placed, under the supervision of a state credentialed teacher, to provide instructional support in ELA intervention classes and in classes of highest instructional need in Science and History/Social Studies during the school day. Facilitating small groups. One-to-one assistance. Supporting students within the classroom while teacher provides remediation to students in small groups. Computer lab interventions Provide bilingual services for parent/teacher communication.	07/01/2018 06/30/2019	CPA will develop a schedule for and monitor Teacher Assistants duties beyond regular assignment.
Teacher Assistants will support the Title I program beyond the regular assignment by assisting with organizing instructional and other materials.	07/01/2018 06/30/2019	CPA will monitor the teacher assistant relief time.
California Streaming (californiastreaming.com), brain-pop (www.brainpop.com), and MobyMax (www.mobymax.com) will be used to serve the need of students identified as being in need of supplemental assistance in basic literacy and to further support the differentiating instruction with the use of technology.	07/01/2018 06/30/2019	CPA will monitor the use of software license and the maintenance.

Strategies, Actions and Tasks	Action Begin & End Date Status	Measurement of Strategies' Effectiveness/ Identify the title of position/staff responsible
Students will be provided access to the Library so that they may access books in their reading level to support reading comprehension skills addressed in ELA, science, and history/social studies classes. The library aide will provide guidance and assistance to students in the section of books and in using other library resources. The library aide will also provide assistance to students and teachers in a school library center and perform clerical and computer duties to support library functions.	07/01/2018 06/30/2019	Principal or designee will meet with Library Aide on a continuous basis to monitor activities.
The Categorical Program Advisor (CPA) will provide support in order to apply key strategies and promote effective learning to address the needs of all at-risk students and support the Common Core State Standards. Will conduct, design lessons and professional development during or beyond the regular assignment addressing. Data analysis of student work and assessments. School-wide instructional strategies. Conduct program/ student evaluation activities. Coordinate lesson studies and facilitate debrief sessions with staff. Monitor program compliance.	07/01/2018 06/30/2019	Principal will meet with CPA on a continuous basis to monitor activities.
Offer students the AVID program. The AVID curriculum emphasizes teaching pedagogy which focuses on writing-to-learn, inquiry, collaboration, organization and reading for comprehension. This allows college preparatory classes to be accessible to all students. The AVID Elective is driven by the WICOR method, which stands for writing, inquiry, collaboration, organization and reading. AVID WICOR strategies are also used in content-area classes (English language arts, math, science and social studies).	07/01/2018 06/30/2019 New	Principal or designee will monitor the implementation of the program.
To provide support of effective classroom instruction the information technology support assistant will install personal computer systems for student use and selected categorical program personnel to troubleshoot hardware and software malfunctions. This position is integral to the instructional program by ensuring technology is available for students to benefit from supplemental literacy programs.	07/01/2018 06/30/2019 New	Principal will monitor.

1. List key findings related to Mathematics based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.).CA Dashboard data must be included when available. *Required

SBAC results in math indicate that 19% overall of 6th, 7th, and 8th grade students scored "Meets/Exceeds Standards"
 SBAC results in math indicate that 2% overall of 6th, 7th, and 8th grade students in the Special Education subgroup scored "Meets/Exceeds Standards"
 SBAC results in math indicate that 0% overall of 6th, 7th, and 8th grade students in the English Learners subgroup scored "Meets/Exceeds Standards"
 Fall 2017 Interim Assessment results in math indicate that 16% of 8th grade students scored "Above Standards"
 Fall 2017 Interim Assessment results in math indicate that 20% of 7th grade students scored "Above Standards"
 Fall 2017 Interim Assessment results in math indicate that 40% of 6th grade students scored "Above Standards"

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

The data shows that students are not meeting or exceeding the standards in math and the school needs to focus on school-wide strategies that will support CCSS math standard specifically for the Students with Disabilities and English Learners subgroups which demonstrated the least amount of students meeting or exceeding the standards.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

n/a

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

The school did not meet its goal. However, the interim assessments show significant growth in the students scoring above standard.

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

n/a

State the School's Measurable Objective(s) for 2018-19.If the school is in Red or Orange status on the CA Dashboard, you must include at least one Measurable Objective that addresses this status. * Required

By the end of the 2018-2019 school year, school-wide proficiency marks in Mathematics will increase from 19% to 24% measured by SBAC.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

When addressing this Goal, include Integrated ELD in one or more Focus Areas.

Focus Area:**Lesson Planning, Data Analysis, and Professional Development***Academic : Mathematics*

**Los Angeles Unified School District
2018-2019 School Plan for Student Achievement**

**ACADEMIC GOAL — ENGLISH LEARNER PROGRAMS
Designated and Integrated English Language Development (ELD)**

LAUSD Goal: All limited-English-proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics. Indicate all data reviewed to address this Academic Goal:

<input type="checkbox"/>	ELPAC
<input type="checkbox"/>	School Report Card
<input type="checkbox"/>	MyData
<input type="checkbox"/>	Student Grades
<input type="checkbox"/>	IEP Goals Data
<input type="checkbox"/>	DIBELS Math
<input type="checkbox"/>	DIBELS
<input type="checkbox"/>	School Accountability Report Card (SARC)
<input type="checkbox"/>	CA Dashboard
<input checked="" type="checkbox"/>	Smarter Balanced Assessment Criteria (SBAC)
<input type="checkbox"/>	Interim Comprehensive Assessment (ICA)
<input type="checkbox"/>	Interim Assessment Blocks (IAB)
<input type="checkbox"/>	School Experience Survey
<input type="checkbox"/>	Publisher's Assessments
<input checked="" type="checkbox"/>	Reading Inventory (RI)
<input type="checkbox"/>	N/A
<input checked="" type="checkbox"/>	Other: Reclassification Rate

1. List key findings related to English Learner Programs based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.).CA Dashboard data must be included when available. *Required

STAR reading comprehension levels for 6th, 7th, and 8th grade students indicate students an overall reading level is 4th grade.

SBAC results in ELA indicate that 32% overall of 6th, 7th, and 8th grade students scored "Meets/Exceeds Standards"

SBAC results in ELA indicate that 3% overall of 6th, 7th, and 8th grade students in the Special Education subgroup scored "Meets/Exceeds Standards"

SBAC results in ELA indicate that 1% overall of 6th, 7th, and 8th grade students in the English Learners subgroup scored "Meets/Exceeds Standards"

Fall 2017 Interim Assessment results in math indicate that 6% of 8th grade students scored "Above Standards"

Fall 2017 Interim Assessment results in math indicate that 10% of 7th grade students scored "Above Standards"

Fall 2017 Interim Assessment results in math indicate that 12% of 6th grade students scored "Above Standards"

Reclassification rate for 2016-17 was 25%

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

The data shows that students are not meeting or exceeding the standards in ELA specially the English Learners subgroup and Students with Disabilities subgroup. The school needs to focus on intervention strategies that support the language development of our ELD, RSP-LTEL and LTEL students.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

n/a

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

The school did not meet its goal. The next steps for the 2018-2019 school year is to restructure the professional learning communities to better provide instructional support to both integrated and designated classes.

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

n/a

State the School's Measurable Objective(s) for 2018-19.If the school is in Red or Orange status on the CA Dashboard, you must include at least one Measurable Objective that addresses this status. * Required

By the end of the 2018-2019 school year 70% of EL students will demonstrate an increase in lexile level of a minimum of 75 points as measured by the reading inventory assessment.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

Must complete at least two Focus Areas, including Building Parent Capacity and Partnership to Support the Academic Goal.

When addressing this Goal, include Designated ELD in one or more Focus Areas.

Focus Area:	Lesson Planning, Data Analysis, and Professional Development	<i>Academic : English Learner Programs</i>

1. List key findings related to Culture And Climate Goal based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.).CA Dashboard data must be included when available. *Required

36 % of parents completed the School Experience in 2016-2017

In the domain of Connectedness students answered the following questions on the School Experience Survey:

72% of students say "I feel close to people at my school."

65% of students say "I am happy to be at my school."

58% of students say "I feel like I am part of my school."

55% of students say "Teachers care if I'm absent from school."

71% of students say "I feel accepted for who I am at my school."

65% of students say "Adults at my school treat students with respect."

69% of students say "Teachers recognize students who are kind or helpful."

77% of students say "LGBTQ (lesbian, gay, bisexual, transgender, and/or queer) students at my school are accepted."

Overall Connectedness is 65 %

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

The survey responses indicate that the school needs to organize and communicate enriching student and parent workshops/activities that support social/emotional development of middle school students; strengthen regular communication regarding ways parents can participate in the decision making process through multiple means; increase participation in the 2018-2019 School Experience Survey; and continue to promote college awareness with staff, students, and parents.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

n/a

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

The school did not meet the goal. Some of the selected questions changed.

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

n/a

State the School's Measurable Objective(s) for 2018-19.If the school is in Red or Orange status on the CA Dashboard, you must include at least one Measurable Objective that addresses this status. * Required

By the end of the 2018-2019 school year, the overall parent participation in the School Experience Survey as indicated on the School Report Card will increase from 36% to 46% and the overall connectedness domain percentage will increase from 65% to 70% in the student responses for the top two categories.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

1. List key findings related to Social/Emotional Goal based on objective, factual data drawn from the current school year (e.g., student outcome data, observations, surveys, focus groups, etc.).CA Dashboard data must be included when available. *Required

In the bullying domain of the 2016-2017 School Experience Survey students answered the following:
 75% of the students said they had experienced the following more than 2 times in the past 12 months: Spread mean rumors or lies about you?
 77% of the students said they had experienced the following more than 2 times in the past 12 months:Made sexual jokes, comments, or gestures to you?
 84% of the students said they had experienced the following more than 2 times in the past 12 months:Made fun of you because of the way you talk, walk, or dress?
 93% of the students said they had experienced the following more than 2 times in the past 12 months:Done any of the above to you online?
 83% of the students said they had experienced the following more than 2 times in the past 12 months:Pushed, shoved, slapped, hit or kicked you when they weren't just kidding around?
 The Overall Bullying in the top 2 categories is 82%
 38% of parents agree or strongly agree their child has reported being hurt (bullied) by someone at school.

2. For areas in need of improvement, identify the root causes/underlying issues related to key findings. *Required

The data shows that the school needs to focus strategies that support the social/emotional development of middle school students specifically how they relate to discipline and behavior problems, students feeling safe on school grounds, and the how adults respond to bullying.

3. If the school met its measurable objective(s) or is on track to meet its measurable objective(s) in the current school year, what strategies contributed to the school's success? If this question does not apply, please type N/A in the box below. *Required

We did meet the goal of students feeling safe. We will continue to apply the strategies that have shown to be effective.

4. If the school did not meet its measurable objective(s) or is not on track to meet its measurable objective(s) in the current school year, describe what the school intends to do differently (next Steps). If this question does not apply, please type N/A in the box below. *Required

n/a

5. If you are not addressing this goal, explain why. If you are addressing this goal, write N/A in the box below. *Required

n/a

State the School's Measurable Objective(s) for 2018-19.If the school is in Red or Orange status on the CA Dashboard, you must include at least one Measurable Objective that addresses this status. * Required if this Goal is addressed.

By the end of the 2018-2019 school year, the overall percent of students that have experienced bullying two or more times, will decrease 7%, from 82% to 75% and the percent of parents that agree or strongly agree their child has reported being hurt (bullied) by someone at school will decrease by 5%, from 45% to 40% as measured by the School Experience Survey.

*The School's Measurable Objective(s) must be specific, measurable, attainable, results-based, and time-bound (SMART), focused on identified student learning needs, and prioritized (if more than one Measurable Objective is identified).

Focus Area: Lesson Planning, Data Analysis, and Professional Development

100% Attendance

			N/A	N/A				

TITLE I SCHOOLWIDE PROGRAM SCHOOLS/ESSA 1114 COMPONENTS FOR IMPLEMENTATION

1. Comprehensive needs assessment: The Schoolwide Program is based on a comprehensive needs assessment of the entire school that takes into account information on the academic achievement of children in relation to the challenging State academic standards, particularly the needs of those children who are failing, or are at risk of failing, to meet the challenging State academic standards and any other factors as determined by the District. Describe the strategies that the school will be implementing to address school needs, and how such strategies will provide opportunities for all children, including each of the subgroups of students (as defined in section 1111(c)(2)) to meet the challenging state academic standards.

To determine whether or not school objectives are met, strategies to achieve the goals are measured for effectiveness through the analysis of data, completion of the *SPSA Evaluation*, and the *Comprehensive Needs Assessment/Self Review Process*. The evaluation will serve as the indicator to make any significant changes to the instructional program. Modifications will be made if the strategies identified in the Goal pages have not provided results or sustained improvement. The comprehensive needs assessment is described in the *Comprehensive Needs Assessment/Self Review Process* section of the SPSA.

2. Schoolwide reform strategies: Describe the methods and instructional strategies that strengthen the academic program, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education and address the learning needs of all students in the school, but particularly the needs of those students at risk of not meeting the challenging State academic standards through activities which may include counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas.

Schoolwide reform strategies are described in Section IV of all Goal pages.

3. Preparation for and awareness of opportunities for postsecondary education and the workforce: Describe how the school prepares students for and makes them aware of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools).

Students will develop a comprehensive understanding of LAUSD graduation requirements by receiving knowledge about the Individual Graduation Plan (IGP) by participating in whole-group sessions and individual conferences led by the grade level counselor. Additionally, students will develop a comprehensive understanding of college requirements by receiving knowledge about the college and career options through activities developed by counselors and the College and Career Coach during College Awareness month in October and by participating in College and Career event to be held on a Saturday in April.

4. Implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervention services: Describe how the school implements a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

The Psychiatric Social Worker (PSW), Pupil Service and Attendance Counselor (PSA), Intervention/Prevention Support Coordinator, Middle School College and Career Coach, counselors, and administration will collect and analyze student discipline referrals and other data to implement a school-wide program addressing student's attitudes, understanding of self and others, peer relationships, goal-setting, conflict resolution, college preparation and other social and emotional needs to develop student knowledge, skills and attitudes that promote personal, social, emotional and academic growth, increase student attendance, and decrease suspensions.

5. High-quality and ongoing professional development and other activities: Describe the professional development and other activities provided for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments.

Professional development and other activities are described in the Focus Areas of all Goal sections at the rows entitled "Lesson Planning, Data Analysis, and Professional Development."

6. Strategies to recruit and retain effective teachers to high-need schools: Describe the strategies used by the District to recruit and retain effective teachers, particularly in high-need subjects.

LAUSD maintains an aggressive and far reaching recruitment plan. On June 30, 2010, all non-compliant elementary teachers were subject to Reduction in Force. Current hiring practices limit hiring to credentialed and intern candidates only. Principals are increasingly selective in their hiring practices, seeking only to interview and select those candidates who are in compliance with ESSA. The District is continuing to offer a Verification Process for Special Settings (VPSS) program to assist secondary special education teachers and alternative school teachers to become ESSA compliant in all subjects taught.

7. Schoolwide Program Plan is developed with the involvement of parents and other members of the community: Describe how the Schoolwide Program Plan was developed with the involvement of parents and other members of the community to be served and the individuals who will carry out the plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators, the District, tribes and tribal organizations present in the community and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, and if the plan relates to a secondary school, students, and other individuals determined by the school.

All stakeholders including parents and other community members are invited to our monthly SSC and ELAC meetings where the school-wide program is development and monitored through out the school year.

8. Describe strategies for assisting preschool children in the successful transition from early childhood education programs to local elementary schoolwide programs, and if programs are consolidated, the specific state educational agency and local educational agency programs that will be consolidated in the schoolwide program: Describe how the school assists preschool children in the transition from early childhood programs to elementary school. (Elementary schools only).

- Develops and implements a systematic procedure for receiving records regarding children transferred with parental consent from a Head Start program or another childhood development program such as the Early Reading First Program
- Establishes channels of communication between school staff and their counterparts (including teachers, social workers, and health staff) in agencies such as Head Start or other entities carrying out early childhood development programs such as the Early Reading First Program to facilitate coordination of programs
- Conducts meetings involving parents, kindergarten or elementary school teachers, and Head Start teachers or teachers from other early childhood development programs such as the Early Reading First Program, to discuss the developmental and other needs of individual children
- Organizes and participates in joint transition-related training of school staff, Head Start program staff, Early Reading First Program staff, and, where appropriate, other early childhood development program staff
- Links the educational services provided by such local educational agency with the services provided by local Head Start agencies and entities carrying out Early Reading First programs

Additional measures to assist pre-school students in the transition to local elementary schoolwide programs include:

9. Coordination and integration of Federal, State, and local services and programs: Describe how the school will coordinate and integrate federal, state, and local services, resources and programs, such as programs supported under ESSA, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d).

The school site council, in collaboration with the school's stakeholders, will coordinate federal, state, and local services and programs to ensure resources are allocated based on student needs. Low-achieving, at-risk students not meeting grade-level standards will receive the appropriate supplemental support based upon a rigorous analysis of all pertinent subgroup and individual student data. These include students in target populations of all programs in the SWP plan. Supplemental academic support will include, without exception, student interventions."

LOCAL DISTRICT MONITORING

Directors provide ongoing monitoring of the School Plan for Student Achievement (SPSA) and support through:

- *Joint analysis of data*
- *Evaluation of the strategies described in the plan*
- *Observation of instruction*
- *Observation of professional development that supports the strategies identified in the school plan*
- *Providing actionable feedback on professional development implementation and implementation of identified strategies*
- *Overseeing the budget*
- *Ensuring that the school administrator communicates regularly with stakeholders on the progress made towards achieving SPSA goals*

Directors review and approve the School Plan for Student Achievement (SPSA) and school site budgets throughout the school year. Directors conduct performance dialogues with their network principals to review the academic progress of all students and focus on monitoring implementation of the School Plan for Student Achievement and analysis of student data as evidence of school progress.

Directors may describe additional services and support provided to the school's instructional program in the box below:

pedro.salcido@lausd.net
(213) 241-8695

- fluently by the end of 2nd grade
- o Accelerated literacy and math intervention for students in grades 4 and above who did not respond to previous interventions in the early grades
- o Culturally and linguistically responsive instructional strategies integrated in all content areas to provide access and equity for diverse learners
- o Universal Design for Learning as the foundation for Tier 1 high quality instruction. Workshops have been provided to special education teachers as well as to local district teams and school site teams, including workshops for instructional coaches and leaders
- o Mastery Learning and Grading Practices training for all teachers in utilizing inclusive approaches to assessment of learning
- o New "a-g" courses designed to be inclusive of students with disabilities to better prepare them for college and careers, such as Financial Algebra, 21st Century Career Exploration, Introduction to Data Science and Computer Science, and Integrated Science

To support students with disabilities in inclusive settings, general education teachers are invited to attend special education sponsored workshops and salary-point classes on evidence-based literacy and mathematics interventions, positive behavior supports and crisis intervention, evidence-based practices for mixed-ability classrooms, students with Autism Spectrum Disorders, social emotional learning, and inclusive practices.

LCAP Goal Increase EL Reclassification Rate

Approximately one in five English Learners in LAUSD are also students with disabilities. In collaboration with the Multilingual and Multicultural Education Department (MMED), the Division is engaged in providing teacher workshops and training in supporting English Learners who are potential long term English Learners (PTEs) and Long Term English Learners (LTEs) in development of academic English proficiency to meet grade level standards and become eligible for reclassification. The Division is also engaged in developing policy guidelines for IEP teams to follow when making recommendations for LTEs who are eligible for special education services to be reclassified as Fluent English Proficient.

LCAP GOAL #5: ENSURE SCHOOL SAFETY

In an effort to decrease instructional days lost to suspension and increase student safety in schools, the Division of Special Education offers a number of professional development opportunities (web-based and face-to-face) to support both general education and special education teachers, including para-educators, in implementing supports for all students.

These PD opportunities include the following:

- Strengthening Our Behavior Skills (SOBS) for Para-Educators
- Online Classroom Management Modules accessible via Learning Zone
 - o CHAMPS (K-8) – four modules on Classwide Positive Behavior Support
 - o Discipline in the Secondary Classroom (9-12) – four modules on effective positive behavior support systems for older students
- Positive Behavior Support Online module (PBS 101)
- Salary Point Classes on a variety of topics for implementing positive behavior supports and systems in the classroom

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF.

This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population. Below is a list of realigned resources:

Proposed Change	Description	Sum of 2017-18M
Coordinated Professional Development (PD) Framework	Design Professional Development courses to identify & service targeted student population (TSP).	\$1.1
Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC)	Embedding Speech & Language Pathology services into existing PAL & PSC classes	\$4.7
Assistant Principal	All Assistant Principal (Base will only include Principals)	\$36.0
Transition Services for Targeted Student Population (TSP)	Re-focus Transition Services to concentrate on transitioning TSP	\$6.9
Bilingual Differential	Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration.	\$1.0
Redesign 2: Breakfast Program: Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition	Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.	\$1.6

education and recipes to students and parents on a quarterly basis at the especially needy schools (621).

School Libraries/Librarians	Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program.	\$8.4
Counselor (High School Only)	All High School Counselors. District's High Schools are all Title I schools.	\$24.1
Government Relation Office Personnel Redesign	Redesign work-time and functions performed by 2 personnel to focus on targeted student population. Shifts approximately \$286,000 of current \$1.1M budget from base to supplemental/concentration.	\$0.3
Fiscal Specialist	Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.	\$1.4

In addition, the investments for the 2017-18 school year augment the expanded transitional kindergarten program and support the implementation of the early language and literacy plan lead by the Division of Instruction. Combined this investment represents an additional \$6.5 million.

BUDGET SUMMARY

Complete the table below. LEAs may include additional information or more detail, including graphics.

DESCRIPTION

AMOUNT

Total General Fund Budget Expenditures for LCAP Year

\$7,531,043,342

Total Funds Budgeted for Planned Actions/Services to Meet the Goals in the LCAP for LCAP Year

\$5,123,171,633

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

Affiliated Charter LCFF Resources - LCFF funding distributed to Affiliated Charter schools in LAUSD - \$350.3 million

Title 1 Resources to schools and summer programs - \$348.6 million

Title 2 Resources for professional development and quality educator improvement - \$28.6 million

Title 3 Resources supporting English Learner coaching and other efforts - \$17.0 million

Other Grants - \$169.6 million

\$5,123,171,633

Total Projected LCFF Revenues for LCAP Year

Expenditures

Actions/Services

School Autonomy

Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

An unallocated amount of \$245 million will be set aside as a result of a recent California Department of Education finding. The allocation is currently undetermined and will be revisited pending LAUSD's submittal of reconsideration.

The process for updating the LCAP in 2016-17 will assist in determining the identification and/or use of the unallocated \$245 million. Please see Section 3B for more information.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The implementation of actions/services were completed throughout the school year. Local Districts utilized A-G intervention resources to provide credit recovery programs and support for students not on-track to complete the A-G graduation requirements. In addition, our schools supported by the Reed investment agreement were sustained by an additional year of funding to allow schools to plan for future interventions. Middle and High schools implemented and were supported by the A-G Diploma program/project to engage students who are not on track to meeting the A-G requirements for graduation by working with all stakeholders to implement interventions with the vision of graduation and college and career readiness for all students. The A-G Diploma Program provided early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

The District's all hands on deck approach to graduation has effectively increased outcomes for students district-wide. Comprehensively, the offering of after-school programs, credit recovery, alternative school options, and greater autonomy on budgeting for appropriate interventions for students at the school-site has proven we are progressing towards 100% graduation. The all student metric and subgroup performance grew in every measured area under the 100% graduation goal. This growth provides one layer of evidence that the listed actions/services are making an impact on the outcomes students.

- LAUSD reached a 99% completion rate on Individualized Graduation Plans (IGP) for students in secondary schools.
- 48% completed all A-G courses with a "C" or better from the Class of 2016 and currently 56%

- have completed all A-G courses with a “C” or better from the Class of 2017
- 77% cohort graduation rate for Class of 2016
- Currently 81% of the Class of 2017 on-track for A-G

In preparation for expectations set in the 3 year LCAP, LAUSD and LACCD reached a historic agreement in the offering and concurrent enrollment of college classes on the signing of the College and Career Access Pathways Partnership Agreement (AB 288).

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-site level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Specifically, the graduation target has been increased to reflect the 4% growth seen in 2015-16. Out-year targets have been adjusted to sustain the District's focus on a positive growth trend in graduation. In addition, the A-G intervention resources are maintained at \$15 million annually to ensure credit recovery and close monitoring efforts are available for local districts and the schools they serve.

For purposes of planning for the 2018-19 school year, it is recommended the LCAP for the following year be updated to include expected outcomes to reflect state changes. For example, SBAC or EAP targets should be changed from percent meeting/exceeding to scale score progress towards "level 3/meeting"; local measures changed to incorporate state guidelines. In order to provide greater coherence between local, state and federal accountability, metrics not required by CDE should be considered for removal (example: The number of 12th grade students completing the FAFSA).

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

[Add text here]

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

[Add text here]

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

[Add text here]

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a

“Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

[Add text here]

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

[Add text here]

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

[Add text here]

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

[Add text here]

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

[Add text here]

Annual Update

LCAP Year Reviewed: XXXX–XX

Complete a copy of the following table for each of the LEA’s goals from the prior year LCAP. Duplicate the table as needed.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

[Add text here]

Addendum

The Local Control and Accountability Plan (LCAP) and Annual Update Template documents and communicates local educational agencies' (LEAs) actions and expenditures to support student outcomes and overall performance. The LCAP is a three-year plan, which is reviewed and updated annually, as required. Charter schools may complete the LCAP to align with the term of the charter school's budget, typically one year, which is submitted to the school's authorizer. The LCAP and Annual Update Template must be completed by all LEAs each year.

For school districts, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF) (ethnic, socioeconomically disadvantaged, English learners, foster youth, pupils with disabilities, and homeless youth), for each of the state priorities and any locally identified priorities.

For county offices of education, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all students and each LCFF student group funded through the county office of education (students attending juvenile court schools, on probation or parole, or expelled under certain conditions) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services funded by a school district that are provided to students attending county-operated schools and programs, including special education programs.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in Education Code (EC) sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

Charter schools must describe goals and specific actions to achieve those goals for all students and each LCFF subgroup of students including students with disabilities and homeless youth, for each of the state priorities that apply for the grade levels served or the nature of the program operated by the charter school, and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the EC. Changes in LCAP goals and actions/services for charter schools that result from the annual update process do not necessarily constitute a material revision to the school's charter petition.

For questions related to specific sections of the template, please see instructions below:

[Annual Update](#)

[Stakeholder Engagement](#)

[Goals, Actions, and Services](#)

[Planned Actions/Services](#)

[Demonstration of Increased or Improved Services for Unduplicated Students](#)

For additional questions or technical assistance related to completion of the LCAP template, please contact the local county office of education, or the CDE's Local Agency Systems Support Office at: 916-319-0809 or by email at: lcff@cde.ca.gov.

Plan Summary

The LCAP is intended to reflect an LEA's annual goals, actions, services and expenditures within a fixed three-year planning cycle. LEAs must include a plan summary for the LCAP each year.

When developing the LCAP, enter the appropriate LCAP year, and address the prompts provided in these sections. When developing the LCAP in year 2 or year 3, enter the appropriate LCAP year and replace the previous summary information with information relevant to the current year LCAP.

In this section, briefly address the prompts provided. These prompts are not limits. LEAs may include information regarding local program(s), community demographics, and the overall vision of the LEA. LEAs may also attach documents (e.g., the California School Dashboard data reports) if desired and/or include charts illustrating goals, planned outcomes, actual outcomes, or related planned and actual expenditures.

An LEA may use an alternative format for the plan summary as long as it includes the information specified in each prompt and the budget summary table.

The reference to California School Dashboard means the California School Dashboard adopted by the State Board of Education under *EC* Section 52064.5.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Annual Update

The planned goals, expected outcomes, actions/services, and budgeted expenditures must be copied verbatim from the previous year's* approved LCAP; in addition, list the state and/or local priorities addressed by the planned goals. Minor typographical errors may be corrected.

* For example, for LCAP year 2017/18 of the 2017/18 – 2019/20 LCAP, review the goals in the 2016/17 LCAP. Moving forward, review the goals from the most recent LCAP year. For example, LCAP year 2020/21 will review goals from the 2019/20 LCAP year, which is the last year of the 2017/18 – 2019/20 LCAP.

Annual Measurable Outcomes

For each goal in the prior year, identify and review the actual measurable outcomes as compared to the expected annual measurable outcomes identified in the prior year for the goal.

Actions/Services

Identify the planned Actions/Services and the budgeted expenditures to implement these actions toward achieving the described goal. Identify the **actual** actions/services implemented to meet the described goal and the estimated actual annual expenditures to implement the actions/services. As applicable, identify any changes to the students or student groups served, or to the planned location of the actions/services provided.

Analysis

Using actual annual measurable outcome data, including data from the California School Dashboard, analyze whether the planned actions/services were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions/services to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process.
- Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures or a dollar-for-dollar accounting is not required.
- Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the data provided in the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Stakeholder Engagement

Meaningful engagement of parents, students, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. *EC* identifies the minimum consultation requirements for school districts and county offices of education as consulting with teachers, principals, administrators, other school personnel, local bargaining units of the school district, parents, and pupils in developing the LCAP. *EC* requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and pupils in developing the LCAP. In addition, *EC* Section 48985 specifies the requirements for the translation of notices, reports, statements, or records sent to a parent or guardian.

The LCAP should be shared with, and LEAs should request input from, school site-level advisory groups, as applicable (e.g., school site councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet specific goals.

Instructions: The stakeholder engagement process is an ongoing, annual process. The requirements for this section are the same for each year of a three-year LCAP. When developing the LCAP, enter the appropriate LCAP year, and describe the stakeholder engagement process used to develop the LCAP and Annual Update. When developing the LCAP in year 2 or year 3, enter the appropriate LCAP year and replace the previous stakeholder narrative(s) and describe the stakeholder engagement process used to develop the current year LCAP and Annual Update.

School districts and county offices of education: Describe the process used to consult with the Parent Advisory Committee, the English Learner Parent Advisory Committee, parents, students, school personnel, the LEA's local bargaining units, and the community to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Charter schools: Describe the process used to consult with teachers, principals, administrators, other school personnel, parents, and students to inform the development of the LCAP and the annual review and analysis for the indicated LCAP year.

Describe how the consultation process impacted the development of the LCAP and annual update for the indicated LCAP year, including the goals, actions, services, and expenditures.

Goals, Actions, and Services

LEAs must include a description of the annual goals, for all students and each LCFF identified group of students, to be achieved for each state priority as applicable to type of LEA. An LEA may also include additional local priorities. This section shall also include a description of the specific planned actions an LEA will take to meet the identified goals, and a description of the expenditures required to implement the specific actions.

School districts and county offices of education: The LCAP is a three-year plan, which is reviewed and updated annually, as required.

Charter schools: The number of years addressed in the LCAP may align with the term of the charter schools budget, typically one year, which is submitted to the school's authorizer. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

New, Modified, Unchanged

As part of the LCAP development process, which includes the annual update and stakeholder engagement, indicate if the goal, identified need, related state and/or local priorities, and/or expected annual measurable outcomes for the current LCAP year or future LCAP years are modified or unchanged from the previous year's LCAP; or, specify if the goal is new.

Goal

State the goal. LEAs may number the goals using the "Goal #" box for ease of reference. A goal is a broad statement that describes the desired result to which all actions/services are directed. A goal answers the question: What is the LEA seeking to achieve?

Related State and/or Local Priorities

List the state and/or local priorities addressed by the goal. The LCAP must include goals that address each of the state priorities, as applicable to the type of LEA, and any additional local priorities; however, one goal may address multiple priorities. ([Link to State Priorities](#))

Identified Need

Describe the needs that led to establishing the goal. The identified needs may be based on quantitative or qualitative information, including, but not limited to, results of the annual update process or performance data from the California School Dashboard, as applicable.

Expected Annual Measurable Outcomes

For each LCAP year, identify the metric(s) or indicator(s) that the LEA will use to track progress toward the expected outcomes. LEAs may identify metrics for specific student groups. Include in the baseline column the most recent data associated with this metric or indicator available at the time of adoption of the LCAP for the first year of the three-year plan. The most recent data associated with a metric or indicator includes data as reported in the annual update of the LCAP year immediately preceding the three-year plan, as applicable. The baseline data shall remain unchanged throughout the three-year LCAP. In the subsequent year columns, identify the progress to be made in each year of the three-year cycle of the LCAP. Consider how expected outcomes in any given year are related to the expected outcomes for subsequent years.

The metrics may be quantitative or qualitative, but at minimum an LEA must use the applicable required metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. For the student engagement priority metrics, as applicable, LEAs must calculate the rates as described in the [LCAP Template Appendix, sections \(a\) through \(d\)](#).

Planned Actions/Services

For each action/service, the LEA must complete either the section “For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement” or the section “For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement.” The LEA shall not complete both sections for a single action.

For Actions/Services Not Contributing to Meeting the Increased or Improved Services Requirement

Students to be Served

The “Students to be Served” box is to be completed for all actions/services except for those which are included by the LEA as contributing to meeting the requirement to increase or improve services for unduplicated students. Indicate in this box which students will benefit from the actions/services by entering “All”, “Students with Disabilities”, or “Specific Student Group(s)”. If “Specific Student Group(s)” is entered, identify the specific student group(s) as appropriate.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must identify “All Schools”. If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by entering “Specific Schools” and identifying the site(s) where the actions/services will be provided. For charter schools operating only one site, “All Schools” and “Specific Schools” may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

For Actions/Services Contributing to Meeting the Increased or Improved Services Requirement:

Students to be Served

For any action/service contributing to the LEA’s overall demonstration that it has increased or improved services for unduplicated students above what is provided to all students (see Demonstration of Increased or Improved Services for Unduplicated Students section, below), the LEA must identify the unduplicated student group(s) being served.

Scope of Service

For each action/service contributing to meeting the increased or improved services requirement, identify the scope of service by indicating “LEA-wide”, “Schoolwide”, or “Limited to Unduplicated Student Group(s)”. The LEA must identify one of the following three options:

- If the action/service is being funded and provided to upgrade the entire educational program of the LEA, enter “LEA-wide.”
- If the action/service is being funded and provided to upgrade the entire educational program of a particular school or schools, enter “schoolwide”.
- If the action/service being funded and provided is limited to the unduplicated students identified in “Students to be Served”, enter “Limited to Unduplicated Student Group(s)”.

For charter schools and single-school school districts, “LEA-wide” and “Schoolwide” may be synonymous and, therefore, either would be appropriate. For charter schools operating multiple schools (determined by a unique CDS code) under a single charter, use “LEA-wide” to refer to all schools under the charter and use “Schoolwide” to refer to a single school authorized within the same charter petition. Charter schools operating a single school may use “LEA-wide” or “Schoolwide” provided these terms are used in a consistent manner through the LCAP.

Location(s)

Identify the location where the action/services will be provided. If the services are provided to all schools within the LEA, the LEA must indicate “All Schools”. If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.

Charter schools operating more than one site, authorized within the same charter petition, may choose to distinguish between sites by entering “Specific Schools” and identify the site(s) where the actions/services will be provided. For charter schools operating only one site, “All Schools” and “Specific Schools” may be synonymous and, therefore, either would be appropriate. Charter schools may use either term provided they are used in a consistent manner through the LCAP.

Actions/Services

For each LCAP year, identify the actions to be performed and services provided to meet the described goal. Actions and services that are implemented to achieve the identified goal may

be grouped together. LEAs may number the action/service using the “Action #” box for ease of reference.

New/Modified/Unchanged:

- Enter “New Action” if the action/service is being added in any of the three years of the LCAP to meet the articulated goal.
- Enter “Modified Action” if the action/service was included to meet an articulated goal and has been changed or modified in any way from the prior year description.
- Enter “Unchanged Action” if the action/service was included to meet an articulated goal and has not been changed or modified in any way from the prior year description.
 - If a planned action/service is anticipated to remain unchanged for the duration of the plan, an LEA may enter “Unchanged Action” and leave the subsequent year columns blank rather than having to copy/paste the action/service into the subsequent year columns. Budgeted expenditures may be treated in the same way as applicable.

Note: The goal from the prior year may or may not be included in the current three-year LCAP. For example, when developing year 1 of the LCAP, the goals articulated in year 3 of the preceding three-year LCAP will be from the prior year.

Charter schools may complete the LCAP to align with the term of the charter school’s budget that is submitted to the school’s authorizer. Accordingly, a charter school submitting a one-year budget to its authorizer may choose not to complete the year 2 and year 3 portions of the “Goals, Actions, and Services” section of the template. If year 2 and/or year 3 is not applicable, charter schools must specify as such.

Budgeted Expenditures

For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA’s budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by *EC* sections 52061, 52067, and 47606.5.

Expenditures that are included more than once in an LCAP must be indicated as a duplicated expenditure and include a reference to the goal and action/service where the expenditure first appears in the LCAP.

If a county superintendent of schools has jurisdiction over a single school district, and chooses to complete a single LCAP, the LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted expenditures are aligned.

Demonstration of Increased or Improved Services for Unduplicated Students

This section must be completed for each LCAP year. When developing the LCAP in year 2 or year 3, copy the “Demonstration of Increased or Improved Services for Unduplicated Students” table and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the current year LCAP. Retain all prior year sections for each of the three years within the LCAP.

Estimated Supplemental and Concentration Grant Funds

Identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner students as determined pursuant to *California Code of Regulations*, Title 5 (5 CCR) Section 15496(a)(5).

Percentage to Increase or Improve Services

Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. This description must address how the action(s)/service(s) limited for one or more unduplicated student group(s), and any schoolwide or districtwide action(s)/service(s) supported by the appropriate description, taken together, result in the required proportional increase or improvement in services for unduplicated pupils.

If the overall increased or improved services include any actions/services being funded and provided on a schoolwide or districtwide basis, identify each action/service and include the required descriptions supporting each action/service as follows.

For those services being provided on an LEA-wide basis:

- For school districts with an unduplicated pupil percentage of 55% or more, and for charter schools and county offices of education: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities.
- For school districts with an unduplicated pupil percentage of less than 55%: Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the services are **the most effective use of the funds to** meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience or educational theory.

For school districts only, identify in the description those services being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis:

- For schools with 40% or more enrollment of unduplicated pupils: Describe how these services are **principally directed to** and **effective in** meeting its goals for its unduplicated pupils in the state and any local priorities.
- For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these services are **principally directed to** and how the services are **the most effective use of the funds to** meet its goals for English learners, low income students and foster youth, in the state and any local priorities.

State Priorities

Priority 1: Basic Services addresses the degree to which:

- A. Teachers in the LEA are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- B. Pupils in the school district have sufficient access to the standards-aligned instructional materials; and
- C. School facilities are maintained in good repair.

Priority 2: Implementation of State Standards addresses:

- A. The implementation of state board adopted academic content and performance standards for all students, which are:
 - a. English Language Arts – Common Core State Standards (CCSS) for English Language Arts
 - b. Mathematics – CCSS for Mathematics
 - c. English Language Development (ELD)
 - d. Career Technical Education
 - e. Health Education Content Standards
 - f. History-Social Science
 - g. Model School Library Standards
 - h. Physical Education Model Content Standards
 - i. Next Generation Science Standards
 - j. Visual and Performing Arts
 - k. World Language; and
- B. How the programs and services will enable English learners to access the CCSS and the ELD standards for purposes of gaining academic content knowledge and English language proficiency.

Priority 3: Parental Involvement addresses:

- A. The efforts the school district makes to seek parent input in making decisions for the school district and each individual school site;
- B. How the school district will promote parental participation in programs for unduplicated pupils; and
- C. How the school district will promote parental participation in programs for individuals with exceptional needs.

Priority 4: Pupil Achievement as measured by all of the following, as applicable:

- A. Statewide assessments;
- B. The percentage of pupils who have successfully completed courses that satisfy University of California (UC) or California State University (CSU) entrance requirements, or programs of study that align with state board approved career technical educational standards and framework;
- C. The percentage of English learner pupils who make progress toward English proficiency as measured by the English Language Proficiency Assessments for California (ELPAC);
- D. The English learner reclassification rate;
- E. The percentage of pupils who have passed an advanced placement examination with a score of 3 or higher; and
- F. The percentage of pupils who participate in, and demonstrate college preparedness pursuant to, the Early Assessment Program, or any subsequent assessment of college preparedness.

Priority 5: Pupil Engagement as measured by all of the following, as applicable:

- A. School attendance rates;
- B. Chronic absenteeism rates;
- C. Middle school dropout rates;
- D. High school dropout rates; and
- E. High school graduation rates;

Priority 6: School Climate as measured by all of the following, as applicable:

- A. Pupil suspension rates;

- B. Pupil expulsion rates; and
- C. Other local measures, including surveys of pupils, parents, and teachers on the sense of safety and school connectedness.

Priority 7: Course Access addresses the extent to which pupils have access to and are enrolled in:

- A. A broad course of study including courses described under *EC* sections 51210 and 51220(a)-(i), as applicable;
- B. Programs and services developed and provided to unduplicated pupils; and
- C. Programs and services developed and provided to individuals with exceptional needs.

Priority 8: Pupil Outcomes addresses pupil outcomes, if available, for courses described under *EC* sections 51210 and 51220(a)-(i), as applicable.

Priority 9: Coordination of Instruction of Expelled Pupils (COE Only) addresses how the county superintendent of schools will coordinate instruction of expelled pupils.

Priority 10. Coordination of Services for Foster Youth (COE Only) addresses how the county superintendent of schools will coordinate services for foster children, including:

- A. Working with the county child welfare agency to minimize changes in school placement
- B. Providing education-related information to the county child welfare agency to assist in the delivery of services to foster children, including educational status and progress information that is required to be included in court reports;
- C. Responding to requests from the juvenile court for information and working with the juvenile court to ensure the delivery and coordination of necessary educational services; and
- D. Establishing a mechanism for the efficient expeditious transfer of health and education records and the health and education passport.

Local Priorities address:

- A. Local priority goals; and
- B. Methods for measuring progress toward local goals.

APPENDIX A: PRIORITIES 5 AND 6 RATE CALCULATION INSTRUCTIONS

For the purposes of completing the LCAP in reference to the state priorities under *EC* sections 52060 and 52066, as applicable to type of LEA, the following shall apply:

(a) “Chronic absenteeism rate” shall be calculated as follows:

- (1) The number of K-8 students who were absent 10 percent or more of the school days excluding students who were:
 - (A) enrolled less than 31 days
 - (B) enrolled at least 31 days but did not attend at least one day
 - (C) flagged as exempt in the district attendance submission. K-8 students are considered to be exempt if they:
 - (i) are enrolled in a Non-Public School
 - (ii) receive instruction through a home or hospital instructional setting
 - (iii) are attending a community college full-time.
- (2) The number of students who meet the enrollment requirements.
- (3) Divide (1) by (2).

(b) “High school dropout rate” shall be calculated as follows:

- (1) The number of cohort members who dropout by the end of year 4 in the cohort where “cohort” is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
- (2) The total number of cohort members.
- (3) Divide (1) by (2).

(c) “High school graduation rate” shall be calculated as follows:

(1) For a 4-Year Cohort Graduation Rate:

- (A) The number of students in the cohort who earned a regular high school diploma by the end of year 4 in the cohort.
- (B) The total number of students in the cohort.
- (C) Divide (1) by (2).

(2) For a Dashboard Alternative Schools Status (DASS) Graduation Rate:

- (A) The number of students who either graduated as grade 11 students or who earned any of the following:
 - (i) a regular high school diploma
 - (ii) a High School Equivalency Certificate
 - (iii) an adult education diploma
 - (iv) a Certificate of Completion and was eligible for the California Alternative Assessment if under the age of 20.
- (B) The number of students in the DASS graduation cohort.

(C) Divide (1) by (2).

(d) "Suspension rate" shall be calculated as follows:

- (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was suspended during the academic year (July 1 – June 30).
- (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).
- (3) Divide (1) by (2).

(e) "Expulsion rate" shall be calculated as follows:

- (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was expelled during the academic year (July 1 – June 30).
- (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).
- (3) Divide (1) by (2).

NOTE: Authority cited: Sections 42238.07 and 52064, *Education Code*. Reference: Sections 2574, 2575, 42238.01, 42238.02, 42238.03, 42238.07, 47605, 47605.6, 47606.5, 48926, 52052, 52060, 52061, 52062, 52063, 52064, 52066, 52067, 52068, 52069, 52070, 52070.5, and 64001,; 20 U.S.C. Sections 6312 and 6314.

APPENDIX B: GUIDING QUESTIONS

Guiding Questions: Annual Review and Analysis

- 1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to *EC* Section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 3) How have the actions/services addressed the identified needs and goals of specific school sites and were these actions/services effective in achieving the desired outcomes?
- 4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
- 5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
- 6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Guiding Questions: Stakeholder Engagement

- 1) How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in *EC* Section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?
- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to *EC* sections 52062, 52068, or 47606.5, as applicable, including engagement with representatives of parents and guardians of pupils identified in *EC* Section 42238.01?
- 6) What specific actions were taken to consult with pupils to meet the requirements 5 *CCR* Section 15495(a)?

- 7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Guiding Questions: Goals, Actions, and Services

- 1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning": Basic Services (Priority 1), the Implementation of State Standards (Priority 2), and Course Access (Priority 7)?
- 2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes": Pupil Achievement (Priority 4), Pupil Outcomes (Priority 8), Coordination of Instruction of Expelled Pupils (Priority 9 – COE Only), and Coordination of Services for Foster Youth (Priority 10 – COE Only)?
- 3) What are the LEA's goal(s) to address state priorities related to parent and pupil "Engagement": Parental Involvement (Priority 3), Pupil Engagement (Priority 5), and School Climate (Priority 6)?
- 4) What are the LEA's goal(s) to address any locally-identified priorities?
- 5) How have the unique needs of individual school sites been evaluated to inform the development of meaningful district and/or individual school site goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?
- 6) What are the unique goals for unduplicated pupils as defined in *EC* Section 42238.01 and groups as defined in *EC* Section 52052 that are different from the LEA's goals for all pupils?
- 7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?
- 9) What information was considered/reviewed for individual school sites?
- 10) What information was considered/reviewed for subgroups identified in *EC* Section 52052?
- 11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to *EC* Section 52052, to specific school sites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 12) How do these actions/services link to identified goals and expected measurable outcomes?
- 13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA's budget?

Exhibit 18

CALIFORNIA
DEPARTMENT OF
EDUCATION

TOM TORLAKSON

STATE SUPERINTENDENT OF PUBLIC INSTRUCTION

May 5, 2017

Abre' Conner, Staff Attorney
Sylvia Torres-Guillen, Director of Education
ACLU of Northern California
39 Drumm Street
San Francisco, CA 94111

Subject: **Request for Appeal – Fresno Unified School District
American Civil Liberties Union, Appellant**

Dear Abre' Conner and Ms. Torres-Guillen:

The Local Agency Systems Support Office (LASSO) of the California Department of Education (CDE) is in receipt of your request for appeal received on December 6, 2016. You are appealing the Fresno Unified School District's (District) Decision (Decision) dated November 18, 2016.

I. BACKGROUND

On September 21, 2016, the ACLU (Appellant) submitted a Uniform Complaint Procedure Complaint to the District regarding alleged failures of the District related to its 2015-2016 Local Control and Accountability Plan (LCAP). The District considered the Complaint, and on November 18, 2016, it issued a written decision in which it determined that the District had not violated applicable law and that the requested remedies would not be granted. The ACLU appealed this decision to the CDE on December 6, 2016. On December 7, 2016, the CDE sent a Notice of Appeal letter to the District per *California Code of Regulations*, Title 5 (5 CCR), Section 4633. On February 6, 2017, the CDE sent a letter to the Appellant and the District indicating it would require additional time to complete its investigation of the Complaint. Following receipt of the District's Investigation file, the CDE reviewed all material received related to the District's complaint investigation, applicable laws and the District's complaint procedures. The CDE finds that the District complied with its complaint procedures.

II. SUMMARY OF COMPLAINT AND DISTRICT DECISION

The Complaint

The Complaint contained the following allegations, summarized by the District in its Decision and restated by the Appellant in the Appeal:

Allegation 1: “The District’s LCAP fails to explain how S&C¹ funds will be ‘principally directed towards, and effective in, meeting the district’s goals for its high-need pupils.’”

The Complaint alleged the District’s description of districtwide and schoolwide actions and services provided in the LCAP are vague, summary statements and do not meet the requirements of the LCAP Template and 5 CCR 15496(b) because the statements do not explain how the expenditures are principally directed toward and effective in meeting the District’s goals for unduplicated pupils. (Attachment A, Complaint, p.3.) The Complaint focused on five actions and related expenditures for which it alleged the District fails to provide the required justification:

- \$14.7 million allocated to school sites
- \$5.6 million for middle school redesign
- \$3.8 million for employee supports
- \$5.6 million for bathroom renovations, additional custodians, and maintenance positions
- \$7.153 million for various special education programs

(Complaint, p.3-5.) Citing Section 3A of the LCAP Template, the Complaint stated that the District must revise its LCAP to identify and justify each schoolwide and district use of funds and explain how each such use is “principally directed towards, and effective in, meeting the needs of high-needs pupils.” (Complaint, p.5.)

Allegation 2: “The LCAP fails to include data that demonstrates specific outcomes for high-need students in the Annual Update.”

The Complaint alleged that the data in the annual update must be disaggregated by each high-need pupil group in order to help parents and students decipher which programs help high-need students. (Complaint, p.5.)

Allegation 3: “The District fails to offer any meaningful justification for use of S&C funds on police expenditures.”

The Complaint alleged that the District did not adequately describe how the expenditure of supplemental and concentration grant funding on School Site Security Enhancements, including Community and School Resource Officers, and the Fresno Police Department’s Chaplaincy and shot spotter programs, is principally directed toward and effective in meeting the District’s goals for unduplicated pupils. (Complaint p. 5-6.) In this regard, the

¹ “S&C” is an acronym used by Appellant to reference funding apportioned to the District on the basis of the number and concentration of unduplicated pupils (low income, foster youth and English learners), identified by Appellant as “high-need” pupils. (EC sections 44238.01, 44238.02, 44238.07.)

Complaint stated that the LCAP is unclear as to how the shot spotter program, which may allow better pinpointing of gunfire across the city, will help pupils, and unduplicated pupils in particular. The Complaint also stated the LCAP does not, and likely cannot, provide, the required justification for expenditures for additional police officers. According to the Complaint, in the District, black and Latino students, many of whom meet the unduplicated criteria, are more likely to be arrested or reported to police, with terrible consequences for their futures. (Complaint, p.7-8.)

Requested Remedy: The Complaint requested that the District amend its 2016-2017 LCAP to provide the required justifications for “all districtwide and schoolwide spending of S&C funds and to disaggregate Annual Update data to meaningfully evaluate last year’s use of S&C funds to increase or improve services for high-needs students...”. In addition, the Complaint requested the District “reallocate its proposed S&C funds to enhance school safety and school climate rather than on police expenditures.” (Complaint, p. 8.)

The District’s Decision

Allegation 1: The District determined that its LCAP includes adequate justification for each districtwide use of supplemental and concentration funding. According to the District, statements are included within the actions and services in the goals section of the LCAP. In addition, the District notes that its unduplicated count of English learners, foster youth and students living in poverty exceeds 86%. The District states “86% of students live below the Federal Poverty level” and “[e]ach action taken by the District, regardless of the funding source, must take into account the challenging economic environment of our community.” (Attachment B, Decision, p. 3.) According to the Decision, planned expenditures for 2016-2017, as described in its LCAP, reflect increases over 2015-2016 in the area of services for English learners and foster youth. (Decision, p. 3.) Also, the District notes that “supplemental programs for students with disabilities, outlined in the UCP and funded by supplemental and concentration funds, were not possible prior to this availability of this funding.” The District stated that “[t]hese programs, including specialized preschool programs and early autism screening, provide increased benefits to students living in extreme poverty.” (Decision, p. 3-4.)

Allegation 2: The District concluded that disaggregating data in the Annual Update by high-need pupil group is not required by statute or regulation. However, the Decision points out that the District’s LCAP provides data on 49 different indicators of student success, most of which include information disaggregated into 13 student subgroups. In addition to the data incorporated into the Annual Update portion of its LCAP, the District included all the data in an Appendix A to the LCAP, as a matter of “best practice.” (Decision, p. 4.)

Allegation 3: In its Decision, the District described the shot spotter program in the context of a broader approach to support school site security. In addition to the shot spotter program, the District provided additional crossing guards, additional school community

resource officers, and police chaplain volunteers. According to the Decision, “violent crime in Fresno is significantly higher than the state and national average.” Also, District engagement efforts identified additional security investments as a request of certificated staff. With respect to the “Shot Spotter” device, the District decision stated it is intended to reduce school time disruption at 24 schools with a high propensity for gunfire. (Decision, p. 4.)

Based on its findings, the District determined that the allegations of the Complaint were not substantiated, and that there was no violation of *EC* Section 42238.07 or 5 *CCR* 15496 with respect to the District’s 2016-2017 LCAP. (Decision, p. 5.)

III. APPEAL

The Appeal reiterates the allegations of the Complaint. Appellant rejects the Decision’s finding that the LCAP sufficiently justified services provided on a districtwide and schoolwide basis as “principally directed towards, and effective in, meeting the district’s goals for its high-needs students.” (Attachment C, Appeal, p. 2.) The Appeal again focuses on particular services identified in the Complaint. (described above at p. 2.) The Appeal also asserts that the Decision failed to explain why its LCAP Annual Update does not disaggregate data by high-need pupil group. (Appeal, p. 4.) Finally, the Appeal states that the District failed to identify sufficiently how police expenditures are principally directed towards, and effective in, meeting its goals for high-need students. (Appeal, p. 4.) Appellants continue to seek remedies for the alleged violations of law as set forth in their Complaint. (described above at p. 3.)

IV. LEGAL AUTHORITIES

California Education Code sections 44238.01, 42238.02, 42238.07, 52060 – 52077
California Code of Regulations sections 15494 – 15497.5

V. ANALYSIS OF APPEAL

Allegations 1 and 3: The CDE considers and responds to Allegations 1 and 3 together. Both allege that the District LCAP does not justify how supplemental and concentration grant funding for schoolwide or districtwide actions and/or services (services) are principally directed to and effective in meeting the District’s goals for unduplicated students.

The Local Control Funding Formula (LCFF) apportions additional funds to Local Education Agencies (LEAs) on the basis of the number and concentration of unduplicated pupils (low-income, English learner, and foster youth). (*EC* sections 442238.01, 42238.02.) LEAs are

required to increase or improve services for unduplicated pupils as compared to the services provided to all pupils in the fiscal year in proportion to the additional funding provided. (EC Section 42238.07; 5 CCR 15496.) “To improve services” means to “grow services in quality,” and “to increase services” means to “grow services in quantity.” (5 CCR 15495(k) and (l).) As such, there is no spending requirement; rather, an LEA must demonstrate in its LCAP how the services provided will meet the requirement to increase or improve services for unduplicated students over services provided for all pupils in the LCAP year.² The regulations provide the formula for calculating the percentage by which services must be proportionally increased or improved for unduplicated pupils above services provided to all pupils in the fiscal year.³ (5 CCR 15496(a)(1)–(8).)

The collective set of services described by an LEA that will contribute to meeting the required proportional increase or improvement in services for unduplicated students over services provided to all pupils may include two categories of services:

- Services that are limited to serving one or more unduplicated student group, or
- Services that upgrade the entire educational program of an LEA or a school site(s).

Services of the latter category are referred to as either a schoolwide or an LEA-wide (i.e., districtwide, countywide, or charterwide) service. The LCAP Template applicable to the 2016-2017 year addresses supplemental and concentration grant funding in Section 3.⁴ An LEA is required to follow the LCAP Template approved by the State Board of Education (SBE). (EC sections 52064, 52070.) Section 3A of the LCAP Template required the District to identify the amount of its LCFF funds in the LCAP year calculated on the basis of the number and concentration of unduplicated pupils, and to describe how it was expending these funds in the LCAP year, including a description of, and justification for, the use of any funds in a districtwide or schoolwide manner. (5 CCR 15496.) Because the District’s unduplicated pupil enrollment was 88%, the District was required to describe in its LCAP how services provided on a districtwide basis are “*principally directed towards*” and “*effective in*” meeting its goals for unduplicated pupils.⁵ (EC Section 42238.07, 5 CCR 15496(b).)

² As the District has done in its LCAP, an LEA may choose to refer to LCFF funds as “Base”, “Supplemental” or “Concentration” grant funds at the local level. However, they are not required to do so. An LEA may choose to simply identify the fund source to implement an action or service as LCFF.

³ Note the requirement is to increase or improve services for unduplicated pupils over services for all pupils *in the fiscal year for which the LCAP is adopted*. (5 CCR 15496(a).) It is not a requirement to increase or improve services from year to year.

⁴ This LCAP Template was adopted as 5 CCR 15497.5. In November 2016, the SBE adopted a new LCAP Template, applicable beginning with the 2017-2018 school year.

⁵ Schoolwide services at a school district school with enrollment of unduplicated pupils that is 40 percent or more of its total enrollment must be supported by the same description.

In order to provide the required justification for services provided on a “wide” basis, an LEA must distinguish between services directed toward unduplicated pupils based on that status, and services available to all pupils without regard to their status as unduplicated pupils or not. An LEA describes how a service is principally directed to meeting the LEA’s goals for unduplicated pupils when it explains in its LCAP how it considered factors such as the needs, conditions or circumstances of its unduplicated pupils, and how the service takes these factors into consideration (such as, for example, by the service’s design, content, methods, or location). In addition, the description must explain how the LEA expects the service to support the LEA’s conclusion that the service will be *effective* to meet the LCAP goals for its unduplicated pupils. When properly explained in the LCAP, it will be apparent how the LEA is acting to increase or improve services for unduplicated pupils, and why it has determined the services identified will be effective to achieve its goals for unduplicated pupils.

CDE reviewed the District’s 2016-2017 LCAP to determine whether it provided the required description of, and justification for, use of supplemental and concentration grant funding on a districtwide or schoolwide basis, focusing on the services challenged in the Complaint and Appeal:

The District’s 2016-17 LCAP Section 3A identifies \$154.3 million as the amount of funds calculated on the basis of the number and concentration of unduplicated pupils. (Attachment D, District 2016-2017 LCAP.) It further states that “Supplemental and Concentration fund expenditures are itemized in Section 2” of the LCAP, and that “[a]ll actions and expenditures were developed based on an analysis of data, input from our stakeholders, and the needs of our unduplicated population in mind, and that “[d]ue to this high risk population, the actions below, and described in section 2, are being implemented school wide or district wide.” (2016-2017 LCAP Section 3A, p. 181 of 185.) Section 3A lists 49 actions, identified numerically to correspond to their respective locations in Section 2 of the LCAP.

Section 3A of the District’s LCAP also states that district and school site leadership have access to current data using the “School Quality Improvement Index (SQII)”, and the SQII is used by district “leaders to identify schools with the most need and site leaders use SQII to identify school wide and individual student need. Using the SQII tool the District is able to allocate services that are principally directed towards, and are effective in meeting the District’s goals for its unduplicated pupils...” Finally, Section 3A states “[a]ll districtwide and schoolwide actions and services have been developed based upon the needs of unduplicated students, but will serve the needs of all students as well.”

In Section 3B, the District identified 29.57% as the percentage by which it was required to increase or improve services for unduplicated pupils in the LCAP year as compared to services for all pupils. As noted above, Section 3B required the District to demonstrate how it met this requirement to proportionately increase or improve the services for unduplicated

pupils. Section 3B states “the proportionality percentage is met by expending Supplemental and Concentration funds allocated to the district on services for the unduplicated student populations as demonstrated and detailed in section 2 of the LCAP plan.” (2016-2017 LCAP Section 3B, p. 183 of 185.)

With respect to Section 3A, the CDE finds the LCAP enumerates in summary fashion “Supplemental and Concentration fund expenditures” and indicates that actions enumerated are being provided on a districtwide or schoolwide basis due to its unduplicated student population of 88% (described as a high risk population.) There is no description of how the use of funds proposed are “principally directed towards” and “effective in” meeting its goals for unduplicated pupils. The LCAP statement that the District “had the needs of our unduplicated population in mind” is a conclusory statement that fails to provide the required description.

The reference to the use of SQII tool to “allocate services that are principally directed towards, and are effective in, meeting the District’s goals for its unduplicated as measured by the required metrics” is not associated with any particular action or service in the LCAP. The statement lacks sufficient information to constitute a description of and justification for how a districtwide or schoolwide service is “principally directed towards” and “effective in” meeting its goals for unduplicated pupils.

CDE also notes that the District references its 88% unduplicated pupil enrollment as a reason it provides actions on a districtwide or schoolwide basis. However, while a high unduplicated pupil percentage may be a reason to offer a majority of services directed toward increasing or improving services for unduplicated pupils on a “wide” basis, by itself it does not provide a sufficient explanation of how such services are principally directed towards unduplicated students. Thus, based on the above, Section 3A, standing alone, does not provide adequate description and justification of services provided on a districtwide and schoolwide basis.

CDE also reviewed the descriptions of the particular districtwide and schoolwide services in the 2016-2017 LCAP, Section 2, for which Appellant alleged the District failed to provide the required justification. (see the list above at p. 2.) The District response to the Complaint states that additional clarifying language was incorporated into the LCAP following meeting with Appellate to address concerns.

Appellant challenges the description associated with districtwide Action #48 (Goal 5), “School Site Allocations to be prioritized by each School’s Site Council.” (2016-2017 LCAP Section 2, p. 117.) Budgeted expenditures are \$19.8 million (\$14.7 million LCFF Sup and Con)⁶ and \$5.1 million Title 1 (there is also additional reference to these site allocations

⁶ The abbreviation “Sup and Con” is as it appears in the District’s LCAP, and CDE understands it to be a reference to funding apportioned on the basis of the number and the concentration of unduplicated pupils.

being combined with “EL investments” for a total of \$26 million.) The action is described as follows:

- “Supplemental materials and technology
- Academic interventions and supports
- Supplemental counseling services
- Staff for attendance support
- Parent involvement
- Psychological services
- Bilingual office staff
- Each school was required to evaluate data on low income, English learner and foster youth student populations, as well as other subgroups, to create plans focused on addressing the needs of those groups
- Site personnel worked with School Site Councils to incorporate feedback and revise plans
- Developing a site-based plan for English learners is a requirement of this process”

The associated identified need for Goal #5 is “each school needs a Single Plan for Student Achievement (SPSA) that is aligned with school goals for improving student achievement and is based on school site data (AR 0420).” By review of the materials submitted in connection with this appeal, it appears the District added further explanation to this action based on communications with Appellant (the last bullets above). The additional material assists to some extent in providing the required justification. However, because the description states that the sites were to direct plans focused on the needs of low income, English learner and foster youth student populations, *as well as other subgroups*, it is not possible to definitely conclude that the action is “principally directed towards” unduplicated pupils. In addition, the description lacks sufficient information describing how the actions are “effective in” meeting goals for unduplicated pupils, as required for districtwide actions. Thus, the requirements of 5 CCR 15496(b) and the LCAP Template are not met with regard to Action #48.

Action #5, “Maintain Middle School Redesign,” (LCAP Section 2 p. 24) is also challenged. This action is associated with Goal #1 (“All students will excel in reading, writing and math”), and is budgeted \$5.6 million (LCFF Sup and Con). It is schoolwide at district middle schools. The LCAP states:

- “Initiated in 2013-2014
- ensures all students have access to electives as well as core classes

- Allows teachers, teaching the same subjects, to have a common preparation time
- PLUS teams (Professional Learning Updraft System) added to ensure direct instruction to students when teachers attend professional learning or collaboration days.
- This action is principally directed towards, and is effective in, increasing or improving services for unduplicated students as teams allow for no loss of instructional time while teachers are attending professional learning or collaboration days. Loss of instruction time unfairly impacts high-need students.”

From the LCAP description of Action #5, it is not possible to adequately understand what the “Middle School Redesign” consists of and how the various actions described are related, if at all, and how the budget expenditure is associated with the components. One aspect appears to give all students access to electives. There is no explanation offered as to how this is “principally directed towards” unduplicated pupils. Other aspects are common preparation time and the addition of PLUS teams to ensure pupils direct instruction when teachers attend professional development or collaboration days. The LCAP description and justification for “this action” appear to apply only to *a portion* of the action; i.e., the common preparation time and PLUS teams, and is unclear. Ideally, this description and justification would be more clearly stated, perhaps by a description and justification such as “loss of instructional time results in significant decreases in the academic achievement of low income, English learner, and foster youth” and use of PLUS teams will reduce loss of instructional time and assist in maintaining these students’ academic progress. As stated, the description is insufficient to meet the requirement to describe and justify Action #48 in total as “principally directed towards and effective in meeting the goals for unduplicated pupils.”

The Complaint challenged Action #10 “Employee Supports.” (2016-2017 LCAP Section 2, p. 27.) This action is associated with Goal #1, and budgeted \$3.8 million (LCFF Sup and Con). The LCAP indicates this action is for high schools, and 2 specific middle schools. The description of this action is as follows:

- “Reduce large core classes in high schools (not an class enrollment cap)
- Additional middle school Vice Principals for Gaston and Fort Miller. Both have amongst the highest concentrations of English learners, foster youth and students living below the Federal poverty level in the District
- Since introducing additional supports, both Fort Miller and Gaston have seen an improvement in test scores and attendance as well as a reduction in suspensions and expulsions”

The above description of Action #10 provides no information as to how reducing large core classes in high schools is an action principally directed towards unduplicated pupils. Accordingly, the description does not meet the requirements of 5 CCR 15496(b) or the

LCAP Template. However, the action and accompanying description related to additional middle school vice principals does meet these requirements. The explanation provided shows the action is directed to two middle schools with among the “highest concentrations of unduplicated pupils” and also that the test scores and attendance have increased, and discipline incidences decreased. Thus, the LCAP describes how this portion of the action is principally directed towards and effective in meeting the district’s goals for unduplicated pupils. However, the stated description and justification is not sufficient to meet the requirements to describe and justify Action #10, in total, as “principally directed towards and effective in meeting the goals for unduplicated pupils.”

Actions #43 and #44 of Goal 4 are challenged by the Appellant. (2016-2017 LCAP Section 2, p. 108.) Goal #4 is stated as “All students will stay in school, on track to graduate”, and the identified need 4B is stated as “Fresno USD needs to provide a safe, clean and orderly learning and working environment.” Action #43 is to maintain 40 additional custodians, 3 custodial supervisors and 4 grounds maintenance positions. Action #44 is to renovate high school bathrooms. The LCAP identifies budgeted expenditures of \$5.6 million (LCFF Sup and Con) with these two actions. The description for Action #43 is:

- “To ensure facilities are clean and in good repair
- Custodians were requested during the engagement for the 2014/15 LCAP and are above former base staffing levels to ensure school sites are positive and clean centers for each of the Fresno neighborhoods served
- Custodians are located in schools with older facilities
- According to the National Education Association, clean schools reduce the spread of infectious illness, reduce triggers for asthma and allergies and reduce absenteeism for both students and staff”

The description for Action #44 is:

- “Replace damaged fixtures, incorporate standardization of facilities, and increase accessibility for high school bathrooms
- Focus on partitions, hand dryers and soap dispensers
- Campus Culture team will work with student representatives to create a campaign to keep bathrooms clean
- Invitations were sent for student input to 75 foster and English learner students.
- Properly maintained bathrooms was the single most consistent request made during the 17 meetings the district conducted with students

- According to the National Education Association, clean schools reduce the spread of infectious illness, reduce triggers for asthma and allergies and reduce absenteeism for both students and staff”

The description of these actions states benefits for each. However, neither provides any description of how the District considered the factors such as the needs, conditions or circumstances of its unduplicated pupils in particular, in connection with these actions. The description fails to explain how the actions are principally directed towards and effective in meeting the District’s goals for unduplicated pupils. Accordingly, the requirements of 5 CCR 15496(b) and the LCAP Template are not met with regard to these actions.

Appellant also specifically challenged some of the District’s districtwide special education programs, alleging the District fails to sufficiently describe and justify how they are “principally directed towards, and effective in, meeting the District’s goals for high-need students.” Included in the challenge are Actions #13, #14 and #25. (2016-2017 LCAP Section 2, p. 41, 54-55.) Actions #13 and #14 are associated with the District Goal #1, “All students will excel in reading, writing and math” and the Identified Need 1B: “Every student can and must read at grade level.” The District’s LCAP describes these actions as follows:

Action #13 is “Maintain Elementary Augmentation for Students with Disabilities.” It is identified as “districtwide” and students served are “ALL.” Budgeted expenditures are \$2.3 million (LCFF Sup and Con). The action is described as:

- “Expanding inclusive educational opportunities for preschool students with disabilities
- Providing specialized classes for preschool students with moderate to severe disabilities
- Early intervention and continuum of services for students with Autistic-like behaviors
- Starting school and identifying disabilities early will assist unduplicated students to achieve higher levels of academic achievement”

Action #14 is “Additional Special Education Director.” The action is Districtwide for “students with disabilities”; budgeted expenditures are identified as \$153,000 (LCFF Sup and Con). The action is described as:

- “Close monitoring and oversight of programs for students with disabilities
- Improving continuum of service for students with disabilities up to age 22
- Experience has shown additional oversight of Special Education programs allow high-need students the best access to the least restrictive environment”

Action #25 is “Investments for Secondary Students with Disabilities.” It is also associated with District Goal #1, and the associated Identified Need is 1C: “Fresno Unified School

District needs to ensure students have the greatest number of postsecondary choices from the widest array of options.” The action is identified as being districtwide for pupils with disabilities; budgeted expenditures are identified as \$3.4 million (LCFF Sup and Con).

While there is some description of how unduplicated students might benefit from each of these actions, there is no description of how the actions are “principally directed toward” unduplicated pupils. Each generally describes actions that are available to all pupils, and in some cases those actions are required to be available to all pupils who qualify under the Individuals with Disabilities Act (IDEA). The descriptions are not a sufficient description and justification as principally directed towards and effective in meeting the district’s goals for unduplicated pupils as specified in 5 CCR 15496(b).

Allegation 3 of the Complaint challenges districtwide and schoolwide Action #47 (Goal 4) “School Site Security Enhancements.” (2016-2017 LCAP Section 2, p. 109.) The budgeted expenditures are identified as \$440,000 (LCFF Sup and Con). As noted above, the Complaint and Appeal expressed concern that expenditures for the actions described may actually be detrimental to unduplicated pupils. In addition, the Complaint and Appeal also alleged the LCAP does not set out the required description and justification for this districtwide and schoolwide action. The action is accompanied by the following description in Section 2 of the LCAP:

- “School safety was a top request from teachers resulting from the District’s outreach to stakeholders
- Funds to support additional crossing guards
- District share of Police Department grant for additional Community and School Resource Officers at secondary schools
- Police Department Chaplaincy programs at Elementary schools. School Resource Chaplains volunteer at Elementary school campuses teaching a characters and integrity curriculum and assist in identifying and reducing crimes against children. School Resource Chaplains are trained to connect children and families to needed resource in the community.
- Continue expanded coverage for Shot Spotter to reduce school time disruptions in areas with high crime. Shot Spotter assists responding officers with identifying gunshots (versus fireworks, car backfires, or other loud noises) often within a few feet.
- This leads to school and community safety, as well as reduced downtime and classroom disruption that occurs from the stoppage of classroom instruction when safety protocols need to be implemented”

Addressing the issue of whether this schoolwide and districtwide action is supported by the required description of how the security-related actions are principally directed towards and

effective in meeting the goals for unduplicated pupils point, it is evident from the description contained above that the LCAP provides no such description. In the District Decision, the District stated that, as outlined in its LCAP, the \$440,000 expenditure for school site security is part of “a comprehensive approach to serving the unique needs of our large student population”. It also stated that “crime in Fresno is significantly higher than the state and national average.” (Decision, p. 4.) No statement describing how the security investments are directed towards meeting the needs of unduplicated pupils, as opposed to all pupils, is provided. Based on the description provided, the requirements of 5 CCR 15496(b) and Section 3A of the LCAP Template are not met with respect to Action #47.

Furthermore, Appellant suggested that the District “cannot justify that more police or the shot spotter program will help high-needs students in the District” (Appeal, p. 5.) In light of its determination that the District’s LCAP does not provide a sufficient description and justification for Action #47, the CDE does not make a determination on this additional issue raised by Appellant.

For the reasons set forth above, the CDE finds that the District’s 2016-2017 LCAP fails to describe how the districtwide and schoolwide services described in Actions #48, #5, #10, #43, #44, #13, #14, #25 and #47 are principally directed toward and effective in meeting the District’s goals for its unduplicated pupils as required by 5 CCR 15496(b) and Section 3A of the LCAP Template.

Allegation 2: “The LCAP fails to include data that demonstrates specific outcomes for high-need students in the Annual Update.”

The Appeal states that the District should disaggregate outcome data based on pupil groups, and high-need pupils in particular (Appeal, p. 4.) According to the Appeal, the data must be disaggregated in order to help parents and students decipher which programs help high-need students, and that the District never responded to why it refuses to disaggregate the data and “show clear and specific actions of how high-need students have improved.” (Appeal, p. 4.)

EC Section 52061 requires that an annual update to an LCAP be developed using the template adopted by the SBE. The annual update must include a review of any changes in the applicability of an action, a review of progress on the goals included in the LCAP, an assessment of the effectiveness of the specific actions included in the LCAP toward achieving the goals, and a description of any changes to the specific actions the school district plans to make as a result of the review. (EC Section 52061(a)(1) and (2).) Expenditures to implement actions in the LCAP, including those that serve unduplicated pupils, must be provided as well. (EC Section 52061(a)(3) and (4).)

The LCAP Template Annual Update Instructions specify: “For each goal in the prior year LCAP, review the progress toward the expected annual outcome(s) based on, at a

minimum, the required metrics pursuant to Education Code sections 52060 and 52066.⁷ The review must include an assessment of the effectiveness of the specific actions. Describe any changes to the actions or goals the LEA will take as a result of the review and assessment. In addition, review the applicability of each goal in the LCAP.”

Appellant appears to argue that the District is required to include disaggregated data as part of its Annual Update in the LCAP. However, neither the statute nor the LCAP Template instructions require this disaggregation. The District’s Annual Update in the LCAP does show that it reviewed progress on goals as required. In addition, in responding to the Complaint, the District made clear that it regularly monitors data tied to its LCAP goals. Further, it has made available an “Appendix A” to its LCAP which shows disaggregated outcome data on the LCAP priorities. For these reasons, the CDE finds that Allegation 2 is not sustained.

VI. CORRECTIVE ACTIONS

Before the District adopts its 2017-2018 LCAP and Annual Update, the District must review the descriptions and justification for the District’s 2016-2017 LCAP schoolwide and districtwide Actions #48, #5, #10, #43, #44, #13, #14, #25 and #47 and revise them to provide the required descriptions and justifications consistent with this report. Any revisions shall be presented to the District’s parent advisory committee, the English learner parent advisory committee, and members of the public in accordance with *EC* Section 52062. In the event there are such expenditures which cannot be so described and justified as set forth in this report, the District shall not include those expenditures in its estimate of prior year expenditures for unduplicated pupils that were in addition to what was expended for all pupils when it calculates the minimum proportion by which it must increase or improve services for unduplicated pupils in the 2017-2018 LCAP year. (5 *CCR* 15496(a)(2).) In addition, the District must exclude any such services included in its 2017-2018 LCAP from services that contribute to meeting the requirement to increase or improve services for unduplicated pupils over services provided to all pupils in the LCAP year. The CDE will monitor and support the District’s progress in this regard, and is prepared to work in consultation with the District and the Fresno County Office of Education to achieve this result.

VII. CONCLUSION

⁷ *EC* sections 52060 and 52066 set out the state priorities which must be addressed in the LCAP for school districts and county offices of education respectively.

Dear Ms. Torres-Guillén, Mr. McQuillen, Ms. Tracy:

Subject: Request for Appeal – Klamath-Trinity Joint Unified School District
Yurok Tribe, Hoopa Tribal Education Association, and American Civil Liberties
Union, Appellants

The Local Agency Systems Support Office (LASSO) of the California Department of Education (CDE) is in receipt of your request for appeal received on September 21, 2018. You are appealing the Klamath-Trinity Joint Unified School District's (District's) Decision dated September 7, 2018.

I. Background

The Local Control Funding Formula (LCFF) statute authorizes the filing of an administrative complaint pursuant to the Uniform Complaint Procedures (UCP) to resolve allegations that a

local educational agency (LEA)¹, such as a school district, failed to meet the requirements of Article 4.5. [Local Control and Accountability Plans and the Statewide System of Support [52059.5 – 52077.] (California *Education Code (EC)* Section 52075; *California Code of Regulations*, Title 5 (5 *CCR*) Section 4600 et seq.). On June 25, 2018, the Yurok Tribe, Hoopa Tribal Education Association, and American Civil Liberties Union (Appellants) submitted a UCP Complaint (Complaint) to the District, alleging that the District's 2017-18 Local Control and Accountability Plan (LCAP) violates the LCFF statute.

The District issued its Decision in this matter on September 7, 2018. The Appellants submitted an Appeal to the CDE of the District's Decision on September 21, 2018. The CDE sent a notice of appeal letter, dated September 29, 2018, to the District requesting the investigation file and other applicable documentation as required by 5 *CCR* Section 4633. The CDE received the District's documentation on October 12, 2018.

After an initial review of the Complaint, the District's Decision, and the Appeal, the CDE determined that Allegation 4 in the Appeal raised a new allegation not contained in the Complaint. In the Complaint, Allegation 4 states that "the District Must Strengthen Its LCAP Stakeholder Engagement Process" (Complaint, p. 10). As presented and further described in the Complaint, this does not rise to the level of an allegation that the District violated statute. In the Appeal, Allegation 4 was expanded to include the allegation that the District failed to meet basic legal requirements for the LCAP stakeholder engagement process. Specifically, the Appeal alleges that the District failed to consult a Parent Advisory Committee in the LCAP development process as required by *EC* sections 52062-52063.

In a letter dated October 1, 2018, and consistent with 5 *CCR* Section 4632(d), the CDE referred Allegation 4 in the Appeal back to the District for resolution as a new complaint under 5 *CCR* sections 4630 and 4631. The District is required to complete an investigation of this allegation per its uniform complaint procedures and issue a decision to the Appellants within 60 days. The CDE addresses the remaining three allegations of the Complaint below.

Following receipt of this documentation from the District, the CDE reviewed all material received related to the Complaint, applicable laws, and the District's complaint procedures. Title 5 *CCR* 4633(i)(1) requires the CDE to include a finding that the LEA complied or did not comply with its complaint procedures. The CDE has reviewed the complaint procedures for the District and finds that the District fully complied with its complaint procedures in this matter.

II. Summary of Complaint and District Decision

The Complaint

The Complaint alleges the following:

¹ LEA means a school district, county office of education, or charter school (5 *CCR* 15495(d)).

Allegation 1: “The District fails to justify each schoolwide and districtwide S&C expenditure as ‘principally directed towards’ and ‘effective in meeting’ its goals for high-needs students” (Complaint, p. 2). Furthermore, the Complaint alleges that the District does not identify all schoolwide or districtwide uses of supplemental and concentration funds in the “Demonstration of Increased or Improved Services for Unduplicated Pupils” (Demonstration) section of the LCAP.

Allegation 2: “The District fails to provide in its Annual Update adequate description[s] of the actions/services implemented and how these are effective in meeting the District’s goals” (Complaint, p. 7). Specifically, the Complaint alleges that the Annual Update fails to meet the requirements of law in the following four ways:

(2a) First, the descriptions of the *actual* actions and services are deficient. For example, some descriptions of the *actual* actions and services provided in the Annual Update simply state “Implemented” without any additional information. Examples provided in the Complaint include Annual Update Goal 2, Actions 3 and 4.

(2b) Second, the response provided for the first prompt of the Analysis part for each goal in the Annual Update is not sufficient. This prompt requires an LEA to describe the overall implementation of the actions/services to achieve the goal. For each of the four goals in the Annual Update, the District provides the following response to this prompt:

“Although faced with multiple challenges, the overall implementation was successful. The area that still needs to be addressed is staffing shortages.”

(2c) Third, the Complaint argues that it is impossible to determine if the actions had a positive impact on student outcomes because the District does not link its actions with its measures of effectiveness. The response to the second prompt in the Analysis part of the Annual Update, which requires an LEA to describe the overall effectiveness of the actions/services to achieve the goal, is inadequate and fails to address the needs of unduplicated students.

(2d) Fourth, the Complaint claims that, “although the District repeatedly fell short of its own goals, when asked to ‘describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis,’ the only response the District offered was ‘instead of seeking part-time positions, extra efforts were made to make as many positions full-time, with benefits to encourage more applicants and fill more vacancies’” (Complaint, p. 9). The Complaint thereby alleges that the District’s response to the fourth prompt of the Analysis part for each goal in the Annual Update, which requires an LEA to describe changes made to an LCAP goal, is inadequate.

Allegation 3: “The District fails to account for all S&C funds in its estimated actual spending and reallocated significant amounts of S&C funds after the LCAP approval process” (Complaint, p. 9). According to the Complaint, the District allocated an additional \$296,450 in supplemental and concentration funds for the maintenance, operations, and transportation departments without providing an adequate explanation in the Annual Update of this material difference in expenditures. The Complaint also states that the District does not provide a description of how

stakeholders were engaged in a significant reallocation of 2016-17 funds away from services for high-need students to districtwide uses. Furthermore, given a total of \$2,446,550 supplemental and concentration funds received by the District for 2017-18, the District fails to include \$651,077 of these funds in the 2017-18 LCAP.

District's Decision

Allegation 1: The District claims that it adequately justifies districtwide actions and services in the Demonstration section for the 2017-18 LCAP year. The District states,

“The District adequately justified the District-wide use of such funds based on impacting the learning environment at the school, which would in turn positively impact unduplicated pupils, especially considering the District’s nearly 90% unduplicated pupil count” (Decision, p. 10).

Also in the Decision, the District references language in the 2017-18 LCAP as evidence for its claim that districtwide actions and services are adequately justified. The District claims that the districtwide use of supplemental and concentration funds are justified by “the importance of making an impact on the learning environment and the climate of the schools as [a] whole which will have a positive impact on the targeted subgroups” (KTJUSD 2017-18 LCAP, p. 126 as quoted in Decision, p. 6). The District intends to use supplemental and concentration funds to “offer a variety of programs and supports specifically for low income students and foster youth” (KTJUSD 2017-18 LCAP, p. 126 as quoted in Decision, p. 6). The Response to Instruction and Intervention specialists are “targeting foster youth, students with disabilities, and/or students who are Native America[n], and/or Socio-Economically Disadvantaged” and staff training “that will be especially targeted for Foster Youth and Low Socio-Economic students” (KTJUSD 2017-18 LCAP, p. 126 as quoted in Decision, p.6).

Allegation 2: The District claims that the Annual Update of 2016-17 goals provided in the 2017-18 LCAP provides adequate descriptions of the implemented actions and services as well as descriptions of how the implemented actions and services were effective in meeting the District’s goals and included the overall analysis of each goal. To support this claim, the District makes reference to the data provided on the expected annual measurable outcomes for each goal in the Annual Update as well as the descriptions of *actual* actions and services, which report “whether the action was implemented as written or otherwise” (Decision, p. 4).

Allegation 3: The District claims that it adequately accounted for supplemental and concentration funds and did not inappropriately reallocate such funds after LCAP approval. The District acknowledges the \$296,450 difference between budgeted and estimated actual expenditures of supplemental and concentration funds for maintenance, operations, and transportation departments. The District states that the LCAP template requires “the District to explain only material differences between” budgeted and actual estimated expenditures (Decision, p. 12). The District asserts it has provided the required explanation of material differences in the Annual Update.

III. Appeal

Allegation 1: “The District fails to explain how the majority of its S&C funds will be ‘principally directed towards, and effective in,’ meeting the District’s goals for its high-need students” (Appeal, p. 2).

The Appellants appeal the District’s Decision regarding Allegation 1 on the grounds that the District’s Decision fails to adequately explain how its districtwide uses of supplemental and concentration funds will be principally directed towards, and effective in, meeting the District’s goals for its unduplicated students. The Appellants state that the District is incorrect to reason that a high percentage of unduplicated student enrollment means that the District is not required to provide adequate justification for districtwide uses of supplemental and concentration funds. Appellants also allege that the District fails to identify all schoolwide or districtwide uses of supplemental and concentration funds in the Demonstration of Increased or Improved Services for Unduplicated Pupils section of the LCAP.

Allegation 2: “The District fails to provide in its Annual Update adequate description of the actions/services implemented and how these are effective in meeting the District’s goals” (Appeal, p. 3).

The Appellants appeal the District’s Decision regarding Allegation 2 on the grounds that the District’s Decision is incorrect to state that the Annual Update provides adequate descriptions of *actual* actions and services. Stating only that an actions was “implemented” is deficient because it offers “little to no substantive information” (Appeal, p. 4).

The Appellants also appeal the District’s Decision regarding Allegation 2 on the grounds that the Decision is incorrect to conclude that the Annual Update “included the required overall analysis of each goal” (Decision, p. 12 as quoted in Appeal, p. 4). According to the Appellants, the District’s Decision is conclusory on this point.

Allegation 3: “The District failed to account for all S&C funds in its estimated actual spending and, as reflected in the Annual Update, reallocated significant amounts of S&C funds after the LCAP approval process without undergoing the requisite stakeholder engagement process” (Appeal, p. 4).

Appellants appeal the District’s Decision regarding Allegation 3 on the grounds that the District’s Decision fails to adequately address the lack of accounting for over \$650,000 of supplemental and concentration funds and is incorrect to treat the increase of \$296,450 for maintenance (Annual Update Goal 2, Action 2) as not being material. According to the Appellants, the District is incorrect to state in its Decision that the response to the third prompt of the Analysis part in the Annual Update, which requires an LEA to describe material differences between budgeted and estimated actual expenditures, is adequate. Appellants state that the response provided “is both inadequate and appears to be totally unrelated to spending on ‘maintenance’” (Appeal, p. 4).

IV. Legal Authorities

California *Education Code* sections 44238.01, 42238.02, 42238.07, 52059.5 – 52077
California *Code of Regulations* sections 15494 – 15497

V. CDE Findings of Fact and Conclusions of Law

Allegation 1

The Appellants allege that the District fails to provide the required justification for each of its LEA-wide actions/services in the LCAP and fails to identify all such actions/services in the “Demonstration of Increased or Improved Services for Unduplicated Pupils” (Demonstration) section. The Appellants state that the District is incorrect to reason that a high percentage of unduplicated student enrollment means that the District is not required to provide the necessary justification for districtwide or schoolwide actions/services.

The LCFF apportions additional funds to LEAs on the basis of the number and concentration of unduplicated students (low-income, English learner, and foster youth) (*EC* sections 42238.02, 42238.07.) These funds are commonly referred to as “supplemental and concentration grant funds”. LEAs are required to increase or improve services for unduplicated students as compared to the services provided to all students in the fiscal year in proportion to the additional funding provided (*EC* Section 42238.07; 5 *CCR* 15496). “To improve services” means to “grow services in quality,” and “to increase services” means to “grow services in quantity” (5 *CCR* Section 15495(k) and (l)).

As such, there is no spending requirement; rather, an LEA must demonstrate in its LCAP how the services provided will meet the requirement to increase or improve services for unduplicated students over services provided for all students in the LCAP year. Regulations provide the formula for calculating the percentage by which services must be proportionally increased or improved for unduplicated students above services provided to all students in the fiscal year (5 *CCR* 15496(a)(1)–(8)).

The collective set of services described by an LEA that will contribute to meeting the required proportional increase or improvement in services for unduplicated students over services provided to all students may include two categories of services:

- Services that are limited to serving one or more unduplicated student group, and
- Services that upgrade the entire educational program of an LEA or a school site(s).

Services of the latter category are referred to as either a schoolwide or an LEA-wide (i.e., districtwide, countywide, or charterwide) service. An LEA is required to follow the LCAP Template approved by the State Board of Education (SBE) (*EC* Sections 52064, 52070). The Demonstration section requires an LEA to identify the amount of its LCFF funds in the LCAP year calculated on the basis of the number and concentration of unduplicated students, and to identify the percentage by which it must increase or improve services for unduplicated students over all students. Also in this section, the LEA must describe how the services provided for

unduplicated students are increased or improved by at least this percentage, either quantitatively or qualitatively, as compared to services provided for all students in the LCAP year (EC Section 42238.07; 5 CCR 15496).

The actions/services included as contributing to meeting the increased or improved services requirement must be indicated as such in the Goals, Actions, and Services section of the LCAP. The District's 2017-18 LCAP contains four goals and 18 districtwide or schoolwide actions included as contributing to meeting the increased or improved services requirement. Of the 18 "wide" actions, at most five of them are addressed in some manner by the description of increased or improved services provided in the Demonstration section. The remaining districtwide or schoolwide actions/services do not fall within the scope of the description of increased or improved services provided in the Demonstration section. An adequate description of how a District will meet its increased or improved services requirement must address in some manner all actions/services included in the Goals, Actions, and Services section as contributing to meeting this requirement. As a result, the description provided in the Demonstration section fails to sufficiently describe how the District plans to meet its increased or improved services requirement.

Furthermore, the description of increased or improved services provided in the Demonstration section must be consistent with an LEA's response to the "Increased or Improved Services" prompt in the Plan Summary section of the LCAP. In the 2017-18 LCAP, the District states in the Plan Summary section of the LCAP that one of the most significant ways it will increase or improve services is to "Maintain the implementation of one to one technology for all students" (2017-18 KTJUSD LCAP, p. 4). The description of increased or improved services provided in the Demonstration section does not address such an action/service nor is there any such action/service included in the Goals, Actions, and Services section as contributing to meeting the increased or improved services requirement.

The template also requires an LEA to identify each action/service contributing to the increased or improved services requirement that is funded and provided on a schoolwide or LEA-wide manner, and to include the required description supporting each schoolwide or LEA-wide action/service. An LEA such as KTJUSD, which has an unduplicated student enrollment greater than 55%, must describe in its LCAP how the actions/services are "*principally directed towards*" and "*effective in*" meeting its goals for unduplicated students in the state and any local priority areas² (EC Section 42238.07, 5 CCR 15496(b)).

To provide the required justification for services provided on a "wide" basis, an LEA must distinguish between services directed toward unduplicated students based on that status, and services available to all students without regard to their status as unduplicated students or not. An LEA describes how a service is principally directed to meeting the LEA's goals for

² Schoolwide services at a district school with enrollment of unduplicated pupils that is 40 percent or more of its total enrollment must be supported by the same description. Schoolwide services at a school district school with less than 40 percent unduplicated pupil enrollment must be supported by the additional description of how the schoolwide use of funds is the *most effective* use of the funds to meet the LEA's goals for its unduplicated pupils. This tripartite explanation is also required for action/services provided on LEA-wide basis in an LEA with unduplicated pupil enrollment of less than 55%. (5 CCR 15496(b)).

unduplicated students in any state or local priorities when it explains in its LCAP how it considered factors such as the needs, conditions, or circumstances of its unduplicated students, and how the service takes these factors into consideration (such as, for example, by the service's design, content, methods, or location).

In addition, the description must explain how the service will be *effective* in meeting the LCAP goals for its unduplicated students. An LEA meets this requirement by providing in the LCAP an explanation of how it believes the action/service will help achieve one or more of the expected outcomes for the goal. Conclusory statements that an action/service will help achieve an expected outcome for the goal, without further explanation as to how, are not sufficient.

When an LCAP contains the necessary descriptions as described above for actions/services provided on a wide basis, it will be apparent how the LEA is acting to increase or improve services for unduplicated students, and why it has determined the services identified will be effective to achieve its goals for unduplicated students. Simply stating that an LEA has a high percentage of unduplicated student enrollment does not meet this standard.

In the Demonstration section, the District references some of the actions/services being implemented to increase or improve services for unduplicated students. The District states that it will use the amount of supplemental and concentration funds to “offer a variety of programs and supports specifically for low income students and foster youth” (2017-18 KTJUSD LCAP, p. 126). According to the description provided in the Demonstration section, these programs and supports include support for mental health, family engagement, literacy training, positive behavior and attendance, and culturally inclusive training. The District also describes services such as Response to Intervention (RtI) training that will serve “all students including Native American students and students with disabilities” (2017-18 KTJUSD LCAP, p. 126). The District states the following in the Demonstration section as justification for the districtwide and schoolwide services:

“The justification for the district-wide implementation of these practices is the importance of making an impact on the learning environment and the climate of the schools as a whole which will have a positive impact on the targeted subgroups” (2017-18 KTJUSD LCAP, p. 126).

The District does not explain either in the Demonstration section or elsewhere in the LCAP how it considered factors such as the needs, conditions, or circumstances of its unduplicated student, nor how the actions/services takes these factors into consideration. As a result, the District has failed to describe how districtwide and schoolwide actions/services included as contributing to meeting the increased or improved services requirement are principally directed to meeting the LEA's goals for unduplicated student in any state or local priorities.

The District describes how it believes its districtwide services are “the most effective use of our funds” by pointing out that Response to Instruction and Intervention will allocate resources to student groups, that all students will be enrolled in classes with a “lower teacher to student ratio” and will not be enrolled in “combination grade classes” and lists additional services for students such as restorative justice practices and college and career readiness programs (2017-18

KTJUSD LCAP, p. 126). The District concludes its description of how it will increase or improve services for unduplicated students by stating that training for emotional-social well-being, trauma informed care, and training for staff on issues of students living in poverty will meet the needs of all students, “but is especially targeted for Foster Youth and Low Socio-Economic students.” With the exception of college and career readiness programs, the actions/services described in the Demonstration section are not discussed in relation to one or more expected annual measurable outcomes. As a result, the District has failed to explain how the actions/services will be effective in meeting the LCAP goals for its unduplicated students.

While the District describes in its LCAP actions and services that are provided to all students and unduplicated students, the LCAP does not include any consideration of the needs, conditions, or circumstances of the District’s unduplicated students, whether in the Demonstration section specifically or in other sections of the LCAP. As a result, there is no possible way to describe how the districtwide or schoolwide actions/services included as contributing to meeting the increased or improved services requirement take into consideration such factors. Nor is there a description of how such actions/services will help meet one or more expected annual measurable outcomes for the goal. As a result, the District has failed to provide the necessary justification for districtwide and schoolwide actions/services included as contributing to meeting the increased or improved services requirement.

The CDE finds that the District failed to adequately describe how it plans to meet its increased or improved services requirement because its LCAP fails to provide a description in the Demonstration section that applies to all actions/services included in the Goals, Actions, and Services section as contributing to meeting the increased or improved services requirement. The CDE also finds that the District failed to adequately describe how it plans to meet its increased or improved services requirement because its LCAP fails to provide the necessary justification for all districtwide and schoolwide actions/services included in the Goals, Actions, and Services section as contributing to meeting the increased or improved services requirement.

The appeal of the District Decision regarding Allegation 1 is sustained.

Allegation 2

The Appellants allege that the District fails to provide in its Annual Update adequate descriptions of the *actual* actions/services and how these actions/services were effective in meeting the District’s goals. The Complaint makes four separate claims, or sub-allegations (2a – 2d) that constitute Allegation 2. Specifically, the Complaint alleges that the use of the word “implemented” is an insufficient description of *actual* actions/services and the responses to the first, second, and fourth prompts of the Analysis part for each goal in the Annual Update are inadequate.

2a: The District fails to provide adequate descriptions of the actual actions/services in the Annual Update.

The LCAP directions state:

“Identify the planned Actions/Services and the budgeted expenditures to implement these actions toward achieving the described goal. Identify the actual actions/services implemented to meet the described goal and the estimated actual annual expenditures to implement the actions/services. As applicable, identify any changes to the students or student groups served, or to the planned location of the actions/services provided.”

Per the LCAP template directions, the requirement is to identify the *actual* actions/services implemented to meet the described goal and to identify any changes to the students or student groups served, or to the *planned* actions/services provided, as applicable. An LEA transposes the *planned* actions/services from the prior LCAP year into the Annual Update for the relevant LCAP year. *Planned* actions/services are entered into the left hand column. In the right hand column, next to each *planned* action/service, an LEA identifies the *actual* action/service that was implemented relative to what was planned. If all goes as planned for a *planned* action/service, the description of the *actual* action/service will be the same or very similar as that provided for the corresponding *planned* action/service. When not all goes as planned, the description of the *actual* action/service will be different than the description provided for the corresponding *planned* action/service.

The LCAP Template directions do not include specific requirements for what constitutes the identification of an *actual* action/service. The underlying question being addressed by a distinction between *planned* and *actual* actions/services seeks to clarify the extent to which a *planned* action/service was implemented. An LEA is addressing whether or not it carried out the action/service as planned or not, whether in whole or in part. As such, what constitutes a sufficient identification of an *actual* action/service will depend on the relative complexity of the action/service or the level of specificity provided by the description of the corresponding *planned* action/service.

The Appellants maintain that simply stating “implemented” as a description of an *actual* action/service is inadequate in all cases and so all *actual* actions/services described only as “implemented” do not meet the standard. Identifying an *actual* action/service as “implemented”, without any other information, may be sufficient to clarify the extent to which a relatively simple *planned* action/service was implemented. For example, it may be sufficient to identify the *actual* action/service corresponding to the *planned* action/service “hire music teacher” (Annual Update Goal 3, Action 16, p. 64) as “implemented”, as the District has done, if a music teacher was hired.

However, the *actual* action/service corresponding to the *planned* action/service “Dealing with students in crisis/trauma, brain development” (Annual Update Goal 2, Action 10, p. 37) needs additional clarification to be sufficiently identified. Due to the lack of specificity provided in the description of this *planned* action/service, a description of what was actually implemented will need to provide information beyond what the description of the *planned* action/service provides. Also, the *planned* action/service being described is relatively complex. Identifying the extent to which the needs of students in crisis or who have suffered traumatic events have been met is not as simple as identifying whether or not a music teacher has been hired. For these reasons, the description provided for the *actual* action/service for Annual Update Goal 2, Action 10, does

not meet the requirement provided in the LCAP template instructions to identify the *actual* action/service.

Annual Update Goal 1, Action 27 (p. 16) describes the *actual* action/service as “HES”. Such a description fails to identify the action/service implemented. It is not apparent in this case what action/service was implemented and so does not meet the standard. Other examples of descriptions for actual actions/services that are insufficient include Goal 1, Actions 13, 17; Goal 2, Action 3; Goal 3, Action 2 (left blank). The descriptions provided for these actions/services in the Annual Update do not meet the requirement provided in the LCAP template instructions to identify the *actual* action/service.

As a result, the CDE finds that the District fails to adhere to the LCAP template directions pertaining to the identification of the *actual* actions/services in the Annual Update.

2b: The District’s response provided for the first prompt of the Analysis part for each goal in the Annual Update is not sufficient.

The LCAP template directions provided for the Analysis part of the Annual Update state:

“Using actual annual measurable outcome data, including data from the LCFF Evaluation Rubrics, analyze whether the planned actions/services were effective in achieving the goal. Respond to the prompts as instructed” (LCAP Template Directions).

LCAP template directions specific to the first prompt state:

“Describe the overall implementation of the actions/services to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process” (LCAP Template Directions).

For each of the four goals in the Annual Update, the District provides the following response to this prompt:

“...although faced with multiple challenges, the overall implementation was successful. The area that still needs to be addressed is staffing shortages” (2017-18 KTJUSD LCAP, pp. 33, 57, 74, 82).

The response provided by the District does not “include a discussion of relevant challenges and successes experienced with the implementation process” (LCAP Template Directions). As a result, the CDE finds that the District’s response to the first prompt does not adhere to the LCAP template directions for the first prompt of the Analysis part of the Annual Update for all four goals.

2c: The response to the second prompt in the Analysis part of the Annual Update is inadequate and fails to address the needs of unduplicated students.

The LCAP template directions specific to the second prompt state:

“Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA” (LCAP Template Directions).

The District’s responses to the second prompt in the Analysis part of the Annual Update are as follows:

Response provided for Annual Update Goal 1: “Goals were clear but individual school plans still lacked the clarity to accomplish goals.”

Response provided for Annual Update Goals 2, 3, 4: “Goals were clear and schools (and their individual communities) were able to communicate a successfully obtain their goals.”

The directions for this prompt do not require an LEA to specifically address the needs of unduplicated students. However, the directions do require that an LEA to relate the overall effectiveness of the actions/services, as measured by the LEA, with the relevant LCAP goal.

Goal 1 in the Annual Update included in the 2017-18 LCAP is stated as follows:

“All students will receive high quality instruction, aligned to Common Core Standards, which will engage them as 21st Century learners and prepare them for college and careers.” (2017-18 KTJUSD LCAP, p. 6).

The response provided to the second prompt in the Analysis part of the Annual Update for goal 1 does not reference anything of substance from the goal 1 statement. The response to the prompt states that the goals were clear but school plans lack clarity. The LCAP template directions for the relevant prompt require an LEA to relate overall effectiveness of the actions/services, as measured by the LEA, with the relevant LCAP goal. The District’s response to the second prompt of the Analysis part for goal 1 of the Annual Update does not adhere to these directions.

The same is true for the remaining three goals of the Annual Update. As a result, the CDE finds that the District does not adhere to the LCAP template directions provided for the second prompt of the Analysis part of the Annual Update for all four goals.

2d: The District’s response to the fourth prompt of the Analysis part for each goal in the Annual Update is inadequate.

The LCAP template directions specific to the fourth prompt state:

“Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the data provided in the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP” (LCAP Template Directions).

The District's response to the fourth prompt in the Analysis part of the Annual Update for each goal is as follows:

"Instead of seeking part-time positions, extra efforts were made to make as many positions full-time, with benefits to encourage more applicants and fill more vacancies" (2017-18 KTJUSD LCAP, pp. 33, 57, 74, 82).

Goals 1 – 4 in the Goals, Actions, and Services section of KTJUSD's 2017-18 LCAP do not contain any action that addresses a shift from hiring part-time employees to hiring full-time employees with benefits. Goal 2, Action 1 states that a 0.5 FTE health secretary will be employed. This is not consistent with the District's response to the fourth prompt of the Analysis part in the Annual Update. As the District's response to this prompt does not appear to address the goals, actions, or services planned for the 2017-18 LCAP year, the District fails to adequately respond to this prompt. As a result, the CDE finds that the District does not adhere to the LCAP template directions provided for the fourth prompt of the Analysis part of the Annual Update for all four goals.

The appeal of the District Decision regarding Allegation 2 is sustained.

Allegation 3

The Appellants allege that the District's Decision fails to adequately address the lack of accounting for over \$650,000 of supplemental and concentration funds and is incorrect to treat the increase of \$296,450 for maintenance (Annual Update Goal 2, Action 2) as not being material. More generally, Appellants allege that the District is incorrect to claim that the explanation provided for material differences is adequate.

First, there is no requirement to distinguish between supplemental and concentration funds and other LCFF funds in the LCAP. However, an action or service included as contributing to meeting the increased or improved services requirement must be supported by at least one expenditure of LCFF funds. These LCFF funds may be identified by the LEA as either base or supplemental and concentration funds or simply as LCFF funds or otherwise indicated as unrestricted. Whether an LEA distinguishes between LCFF base and LCFF supplemental and concentration funds in an LCAP is a decision to be made at the local level in consultation with stakeholders.

Regarding material differences, the Annual Update includes a prompt for each goal that requires an LEA to "explain material differences between budgeted expenditures and estimated actual expenditures" (LCAP Template, Annual Update, Analysis section). In responding to this prompt, a school district should review the absolute amount by which expenditures projected when the LCAP was adopted differ from estimated actual expenditures, as well as any resulting impacts on implementation of the related actions or services. Applying the results of this review, an LEA must make a reasonable judgment regarding which of the differences are material, and explain, in the annual update, the reasons for the differences in these expenditures.

What is considered a material difference is not only a function of either the absolute or relative size of the expenditure difference, but is also determined in part by those differences that cause meaningful changes in the implementation of actions or services that support a goal. Small amounts are more likely to be material when purchasing textbooks while larger amounts pertaining to personnel costs may not be material. For example, the cost of providing a full-time teacher may range in cost to an LEA from \$60,000 to \$110,000. On the other hand, in the context of textbook costs, a difference of \$1,000 could indicate that a substantial number of textbooks were not purchased. As a result, a determination of “materiality” based solely on the application of a blanket rule (for example, 20% variance) may not be sufficient, depending on the circumstances applicable to the particular goal, action, or service.

An LEA’s judgment as to “materiality” and writing of related explanations as part of the LCAP annual update and development process should be carried out with awareness that determining material differences and explaining them in the LCAP is critically important to meaningful stakeholder engagement. This knowledge informs stakeholders how resources have been deployed (or not) in support of goals, and can assist both stakeholders and the LEA in deciding whether or not goals, actions, or services should be eliminated or modified to enhance student achievement.

The District’s response to the third prompt in the Analysis part of the Annual Update for each goal is as follows:

“Due to lack of applications or qualified personnel, some positions were left ‘unfilled’ for the year” (2017-18 KTJUSD LCAP, pp. 33, 57, 74, 82).

The requirement is to provide an explanation for those differences between budgeted and estimated actual expenditures considered to be material. There is no requirement that the explanation of material differences provided in the LCAP specifically track any reallocations of shortfalls. The difference of \$296,450 for Annual Update Goal 2, Action 2 is a 37% increase over the planned budgeted expenditure of \$799,429. The description of the *planned* action/service is as follows:

“Maintain Maintenance, Operations and Transportation Department, staff and supplies” (2017-18 KTJUSD LCAP, p. 35).

The explanation of material differences references a lack of applications from qualified personnel as a reason for why some positions were not filled. If the estimated actual expenditures had been less than the expenditure amount initially budgeted, this explanation might account for such a difference. However, in this particular case, the estimated actual expenditure is 37% greater than the budgeted expenditure. No explanation is provided that would reasonably account for such an increase.

While there is no blanket rule that serves to identify a difference as material, an increase of \$296,450 likely results from a meaningful change in the implementation of the action/service. In its Decision, the District explicitly excludes this expenditure difference from consideration as being material with no explanation provided.

The appeal of the District Decision regarding Allegation 3 is sustained.

VI. Conclusions

The CDE sustains the Appeal of Allegations 1, 2, and 3. The CDE has referred Allegation 4 in the Appeal back to the District for resolution as a new complaint under 5 CCR sections 4630 and 4631.

VII. Corrective Actions

With respect to the 2017-20 LCAP adopted for the 2018-19 LCAP year considered in its entirety, the District is required to work with the Humboldt County Office of Education, with the support of the California Department of Education, to ensure that the 2018-19 LCAP meets the requirements of the LCAP template, specifically with respect to the findings included in this report. Should conforming revisions to the 2018-19 LCAP be necessary in order to comply with these corrective actions, the District must adhere to the LCAP and annual update adoption process, including the stakeholder engagement requirements as described in *EC* Section 52062 and be adopted in a public meeting no later than February 15, 2019.

As described in 5 CCR 4665, within 35 days of receipt of this report, either party may request reconsideration by the Superintendent. The request for reconsideration shall designate the finding(s), conclusion(s), or corrective action(s) in the Department's report to be reconsidered and state the specific basis for reconsidering the designated finding(s), conclusion(s), or corrective action(s). The request for reconsideration shall also state whether the findings of fact are incorrect and/or the law is misapplied.

I may be reached in the Local Agency Systems Support Office by phone at 916-319-0809 or by email at jbreshears@cde.ca.gov.

Sincerely,

Jeff Breshears, Director
Local Agency Systems Support Office

Dear Mr. McQuillen, Ms. Tracy, Ms. Nelson:

Subject: Request for Appeal – Klamath-Trinity Joint Unified School District
Yurok Tribe, Hoopa Tribal Education Association, and American Civil
Liberties Union, Appellants

Case Number 2019-0009

The Local Agency Systems Support Office (LASSO) of the California Department of Education (CDE) is in receipt of your request for appeal received on December 12, 2018. You are appealing the Klamath-Trinity Joint Unified School District's (District's) Decision dated November 27, 2018, and the District's Decision dated November 30, 2018.

Background

The Local Control Funding Formula (LCFF) statute authorizes the filing of an administrative complaint pursuant to the Uniform Complaint Procedures (UCP) to

resolve allegations that a local educational agency (LEA)¹, such as a school district, failed to meet the requirements of Article 4.5. [Local Control and Accountability Plans and the Statewide System of Support [52059.5 – 52077] (California *Education Code* (*EC*) Section 52075; *California Code of Regulations*, Title 5 (5 *CCR*) Section 4600 et seq.). On September 28, 2018, the Yurok Tribe, Hoopa Tribal Education Association, and American Civil Liberties Union (Appellants) submitted a UCP Complaint (Complaint) to the District, alleging that the District's 2018-19 Local Control and Accountability Plan (LCAP) violates the LCFF statute.

The District issued its Decision in this matter on November 27, 2018. The Appellants submitted an Appeal to the CDE of the District's Decision on December 12, 2018. The CDE sent a notice of appeal letter, dated December 14, 2018, to the District requesting the investigation file and other applicable documentation as required by 5 *CCR* Section 4633. The CDE received the District's documentation on December 21, 2018.

The District issued a subsequent Decision, dated November 30, 2018, in response to an allegation made in a previous Appeal by the Appellants to the CDE, dated September 21, 2018. In this Appeal, it was alleged that the District failed to constitute a Parent Advisory Committee as required by *EC* Section 52062(a). This allegation was not made in the initial complaint. As required by 5 *CCR* Section 4632(d), in a letter dated October 1, 2018, the CDE referred this allegation back to the District for resolution as a new complaint. The District was required to complete an investigation of this allegation per its uniform complaint procedures and issue a decision to the Appellants within 60 days. The District issued its Decision regarding this particular allegation on November 30, 2018.

The Appeal, dated December 12, 2018, to which this report is responding, appeals both the District's Decision dated November 27, 2018, and the District's Decision dated November 30, 2018. These Decisions are referenced as either the November 27 Decision or the November 30 Decisions or, in the plural, as the Decisions.

Following receipt of this documentation from the District, the CDE reviewed all material received related to the Complaint, applicable laws, and the District's complaint procedures. Title 5 *CCR* 4633(d)(1) requires the CDE to include a finding that the LEA complied or did not comply with its complaint procedures. The CDE has reviewed the complaint procedures for the District and finds that the District fully complied with its complaint procedures in this matter.

After review of the Complaint, the District's Decisions, and the Appeal, the CDE determined that Allegation 4 in the Appeal raised a new allegation not contained in the Complaint. In the Appeal, Allegation 4 was expanded to include the allegation that the

¹ LEA means a school district, county office of education, or charter school (5 *CCR* 15495(d)).

District failed to post its LCAP prominently on its homepage as required by *EC* Section 52065(a). This specific allegation was not included in the initial Complaint. In a letter dated February 11, 2019, and consistent with 5 *CCR* Section 4632(d), the CDE referred this specific allegation in the Appeal back to the District for resolution as a new complaint under 5 *CCR* sections 4630 and 4631. The District is required to complete an investigation of this allegation per its uniform complaint procedures and issue a decision to the Appellants within 60 days. The CDE addresses the remaining allegations of the Complaint below.

Additionally, the CDE determined that the District's Decisions failed to address an issue raised in the Complaint, regarding alleged deficiencies in the LCAP adoption process. Specifically, the Complaint provides the following timeline for adoption of the 2018-19 LCAP:

- June 26, 2018, 5:00 p.m. LCAP Public Hearing;
- June 26, 2018, 6:17 p.m. District provided LCAP to stakeholders via email;
- June 27, 2018, 9:30 a.m. District adopts LCAP

Without additional information, such a timeline would be inconsistent with the requirements of *EC* Section 52062(b)(1), which requires an LEA to hold at least one public hearing and to provide public access to the LCAP at least 72 hours prior to this public hearing. Neither the District's Decision dated November 27, 2018, nor its Decision dated November 30, 2018, addressed this issue.

As required by 5 *CCR* Section 4632(e), and in a letter dated February 11, 2019, the CDE has referred this matter to the LEA to make the necessary findings and conclusions on the issue not addressed. The District must address the issue within 20 days from the date of the referral.

Summary of Complaint and District Decisions

The Complaint

The Complaint alleges the following:

Allegation 1: “The District fails to justify each schoolwide and districtwide S&C expenditure as ‘principally directed towards’ and ‘effective in meeting’ its goals for high-need students” (Complaint, p. 2).

“The District fails to justify each schoolwide and districtwide S&C expenditure as ‘principally directed towards’ and ‘effective in meeting’ its goals for high-needs students” (Complaint, p. 2). The Complaint also alleges, as part of Allegation 1, that the District fails to identify all uses of supplemental and concentration funds in the LCAP. The Complaint references four specific actions (Goal 1, Actions 2, 4, 7, 21) as examples of

Allegation 1. Goal 1, Actions 2 and 4 support teacher salaries and class size reduction; Action 7 supports technology spending; Action 21 supports “Indian Land Tenure utilizing the Indian Education Department” (KTJUSD 2018-19 LCAP, p. 76).

Allegation 2: “The District fails to account for all S&C funds in its estimated actual spending and reallocated significant amounts of S&C funds after the LCAP approval process” (Complaint, p. 6).

“The District fails to account for all S&C funds in its estimated actual spending and reallocated significant amounts of S&C funds after the LCAP approval process” (Complaint, p. 6). Specifically, the District fails to account for \$1,072,583 of its supplemental and concentration grant funds for the 2017-18 LCAP year. The District did not spend \$85,515 of \$97,298 budgeted for a school counselor; spent \$42,329 less than budgeted on outreach consultants; spent \$108,504 less than budgeted on instructional aides and monitors. Additionally, the District failed to report whether \$103,649 budgeted for highly qualified teachers for 2017-18 was spent. The Complaint states that the District does not offer any justification for these differences, nor does the District explain how it engaged stakeholders in the decision to reallocate the funds in question.

Allegation 3: “The District fails to adequately describe the actions/services implemented and how these are effective in meeting the District’s goals in its Annual Update” (Complaint, p. 7).

In addition to alleging that the District fails to describe the actual actions/services in the Annual Update, Allegation 3 alleges that the District provides inadequate responses to the first, second, and fourth prompts of the Analysis part of each goal in the Annual Update. Also alleged is that the District fails to offer data specific to 2017-18 for comparison. The Complaint claims that there are only two annual measurable outcomes in the entire LCAP that cite comparable data from the 2017-18 LCAP year. As an example, the Complaint states that the high school graduation rate from 2014-15 and the dropout rates from 2015-16 are used in Goal 2.

Allegation 4: “The District must strengthen its LCAP stakeholder engagement process” (Complaint, p. 10).

According to the Complaint, the District failed to meet stakeholder engagement requirements pertaining to the Parent Advisory Committee (PAC). Specifically, the Complaint alleges that the District utilizes individual School Site Councils (SSC) in place of a districtwide PAC. The Complaint claims that at the September 11, 2018 Board of Trustees meeting, the District acknowledged that it has not constituted a PAC.

Additionally, the Complaint alleges that the District made substantial changes to its LCAP between June 2018 and September 2018 without engaging in any stakeholder engagement process.

District's Decisions

In both the November 27 Decision and the November 30 Decision, the District found itself to be in compliance with respect to each of the relevant allegations.

Allegation 1:

In its November 27 Decision, the District claims that it is in compliance with the requirement to describe LEA-wide and schoolwide services as principally directed toward, and effective in meeting, the LEA's goals for its unduplicated students. The District states that the expenditure of teacher salaries is related to state priority 1 and that supplemental and concentration grant funds support small class sizes, which "will positively impact unduplicated pupils" (November 27 Decision, p. 9). The technology spending in question, according to the District, "relates to the LCAP Goal 1 and is appropriately included within the defined scope of 'services' for unduplicated pupils" (November 27 Decision, p. 9). Goal 1, Action 21² is justified, according to the District, because the "action directly relates to the LCAP Goal 1 and is appropriately included within the defined scope of services for unduplicated pupils" (November 27 Decision, p. 10).

Regarding the District's requirement to increase or improves services for unduplicated students, generally speaking, the District asserts that "The District adequately justified the District-wide use of such funds based on impacting the learning environment at the school, which would in turn, positively impact unduplicated pupils, especially considering the District's nearly 90% unduplicated pupil count" (November 27 Decision, p. 10). In the Decision's findings of fact, the District provides the following five reasons why services provided on a districtwide basis "are the most effective use of funds" (November 27 Decision, p. 6).

- "The resource/Response to Instruction and Intervention ("Rtl") specialists will identify and allocate resources to students targeting foster youth, students with disabilities, and/or students who are Native America, and/or Socio-Economically Disadvantaged.
- All students will be enrolled in classes with a lower teacher to student ratio and will not be in combination grade classes.

² The description provided for Goal 1, Action 21 in the 2018-19 LCAP year states: "Director provides direct services to all district students implementing Indian Land Tenure utilizing the Indian Education Department" (KTJUSD 2018-19 LCAP, p. 76 of 109).

- Students will participate in Restorative Justice Practices, Behavioral Intervention and Support, Common Core State Standards, College and Career readiness programs, and After School Education and Safety.
- There will be a focus on attendance, Advanced Placement, A-G enrollment, CAASPP proficiency, parent involvement, and graduation/promotion rates in the identified sub-groups, as well as decreased dropout rates, and lower suspension and expulsion rates.
- Staff training for emotional-social well-being, trauma informed care, resiliency, and students in poverty that will be especially targeted for Foster Youth and Low Socio-Economic students” (November 27 Decision, p. 6).

Allegation 2:

In its November 27 Decision, the District concludes that it adequately accounted for supplemental and concentration funds and did not inappropriately reallocate such funds after the LCAP approval process. The District also states that it identified and explained all material differences between budgeted and actual estimated expenditures.

Allegation 3:

In its November 27 Decision, the District concludes that the annual update section of the 2018-19 LCAP, which reviews goals, actions, and services implemented in the 2017-18 LCAP year, adequately describes actual actions and services and how such actions and services were effective in meeting the District’s goals. In the November 27 Decision’s relevant findings of fact, the District states that for each goal in the Annual Update, it reports specific data on multiple expected annual measurable outcomes and whether or not each action was implemented as written or otherwise.

Allegation 4:

In its Decision, the District states that Allegation 4 in the Complaint does not identify a specific legal requirement that the District allegedly violated. Furthermore, “the District concludes that it complied with the legal requirements applicable to reviewing, updating, and adopting the LCAP, including the stakeholder engagement process” (November 27 Decision, p. 11).

In the November 27 Decision’s relevant findings of fact, the District states that, prior to approval of the LCAP, it published a draft of the LCAP and included a notice in the local newspaper that the draft LCAP is available at the District office for review. The District states that it “held a public hearing to solicit recommendations and comments from the community on the proposed 2018-19 LCAP and District budget” (November 27 Decision, p. 2). The LCAP was approved by the District’s local governing board on June

27, 2018, and then submitted to the Humboldt County Office of Education (HCOE) for review and approval. The District received feedback from the HCOE on July 11, 2018, identifying required changes to the LCAP prior to approval by the HCOE. On September 11, 2018, the District's local governing board approved a revised LCAP to meet the changes required by the HCOE.

Regarding the LCAP stakeholder engagement process, in the relevant findings of fact provided in the November 27 Decision and the November 30 Decision, the District provided the following information. Stakeholders were invited to monthly school site council meetings and to at least two Community Input Nights at which stakeholders could provide feedback on the relevant School Plan and LCAP. The "Action Plans" in each School Plan served as the starting point for the development of the 2018-19 LCAP. The District also engaged stakeholders through its Indian Policies and Procedures Task Force (IPP Task Force), which is composed of 17 members and includes standing positions for the Chairperson and Education Director of the Karuk, Yurok, and Hoopa Valley Tribes as well as representatives from the Tsnungwe Tribe. The IPP Task Force also includes one District board member, five District staff members, and 11 parents/guardians of District students, including at least two parents/guardians of foster youth students. The District's Board Policy 0410.1 states that the District will merge the IPP Task Force recommendations with the District's LCAP. As part of the LCAP process, the IPP Task Force reviews the School Plans prior to development of the LCAP.

Appeal

Allegation 1: "The District fails to explain how the majority of its S&C funds will be 'principally directed towards, and effective in,' meeting the District's goals for its high-need students" (Appeal, p. 3).

The Appellants appeal the District's November 27 Decision regarding Allegation 1 on the grounds that the District's Decision fails to adequately explain how its districtwide uses of supplemental and concentration funds will be principally directed towards, and effective in, meeting the District's goals for its unduplicated students. Appellants allege that the District's 2018-19 LCAP does not identify all districtwide and schoolwide use of supplemental and concentration funds, that most of the Demonstration of Increased or Improved Services section of the LCAP describes services intended for all students, and that the District does not explain in its LCAP how it considered factors such as the needs, conditions, or circumstances of its high-need students relative to districtwide expenditures of supplemental and concentration grant funds.

Allegation 2: "The District failed to account for all S&C funds in its estimate actual spending and, as reflected in the Annual Update, reallocated significant

amounts of S&C funds after the LCAP approval process without undergoing the requisite stakeholder engagement process” (Appeal, p. 3).

Appellants appeal the District’s November 27 Decision regarding Allegation 3 on the grounds that the District’s Decision fails to adequately address the lack of accounting for \$1,072,583 of supplemental and concentration funds for 2017-18 and is incorrect to treat \$236,348 of unspent supplemental and concentration grant funds budgeted for 2017-18 as not being material. Specifically, the District spent \$11,783 of \$97,298 budgeted for a psychologist/counselor, a difference of \$85,515 (Annual Update Goal 3, Action 2). The District spent \$193,272 of \$235,601 budgeted for outreach consultants, a difference of \$42,329 (Annual Update, Goal 2, Action 3). The District spent \$115,761 of \$224,265 budgeted for instructional aides and monitors, a difference of \$108,504 (Annual Update, Goal 1, Action 11). The sum total of these three differences equals \$236,348.

Allegation 3: “The District fails to provide in its Annual Update adequate description of the actions/services implemented and how these are effective in meeting the District’s goals” (Appeal, p. 5).

The Appellants appeal the District’s November 27 Decision regarding Allegation 3 on the grounds that the District’s Decision is conclusory in its response to Allegation 3 and that the District is incorrect to state that the relevant responses to the prompts in the Analysis part of each Annual Update Goal is adequate.

Allegation 4: “The District has failed to meet basic legal requirements for the LCAP stakeholder engagement process” (Appeal, p. 6).

The Appellants appeal both the November 27 Decision and the November 30 Decision regarding Allegation 4 on the grounds that the District is incorrect to state that it has met the legal requirements for the LCAP stakeholder engagement process and reiterate Allegation 4 from the Complaint, including the allegation that the District has failed to meet stakeholder engagement requirements pertaining to the Parent Advisory Committee (PAC) and that the use of the IPP Task Force does not meet statutory requirements for the PAC.

Legal Authorities

California *Education Code* sections 44238.01, 42238.02, 42238.07, 52059.5 – 52077
California *Code of Regulations* sections 15494 – 15497

CDE Findings of Fact and Conclusions of Law

Allegation 1

The Appellants allege that the District fails to provide the required justification for each of its LEA-wide actions/services in the LCAP and fails to identify all such actions/services in the “Demonstration of Increased or Improved Services for Unduplicated Pupils” (Demonstration) section.

The LCFF apportions additional funds to LEAs on the basis of the number and concentration of unduplicated students (low-income, English learner, and foster youth) (*EC* sections 42238.02, 42238.07.) These funds are commonly referred to as “supplemental and concentration grant funds”. LEAs are required to increase or improve services for unduplicated students as compared to the services provided to all students in the fiscal year in proportion to the additional funding provided (*EC* Section 42238.07; 5 *CCR* 15496). “To improve services” means to “grow services in quality,” and “to increase services” means to “grow services in quantity” (5 *CCR* Section 15495(k) and (l)).

As such, there is no spending requirement; rather, an LEA must demonstrate in its LCAP how the services provided will meet the requirement to increase or improve services for unduplicated students over services provided for all students in the LCAP year. Regulations provide the formula for calculating the percentage by which services must be proportionally increased or improved for unduplicated students above services provided to all students in the fiscal year (5 *CCR* 15496(a)(1)–(8)).

The collective set of services described by an LEA that will contribute to meeting the required proportional increase or improvement in services for unduplicated students over services provided to all students may include two categories of services:

- Services that are limited to serving one or more unduplicated student group, and
- Services that upgrade the entire educational program of an LEA or a school site(s).

Services of the latter category are referred to as either a schoolwide or an LEA-wide (i.e., districtwide, countywide, or charterwide) service. An LEA is required to follow the LCAP Template approved by the State Board of Education (SBE) (*EC* Sections 52064, 52070). The Demonstration section requires an LEA to identify the amount of its LCFF funds in the LCAP year calculated on the basis of the number and concentration of unduplicated students, and to identify the percentage by which it must increase or improve services for unduplicated students over all students. Also in this section, the LEA must describe how the services provided for unduplicated students are increased or improved by at least this percentage, either quantitatively or qualitatively, as

compared to services provided for all students in the LCAP year (*EC* Section 42238.07; 5 *CCR* 15496). The actions/services included as contributing to meeting the increased or improved services requirement must be indicated as such in the Goals, Actions, and Services section of the LCAP. As such, the description of actions and services in the Demonstration section must align with the actions and services that are included in the Goals, Actions, and Services section as contributing to meeting the increased or improves services requirement. An adequate description of how a District will meet its increased or improved services requirement must address in some manner the actions/services included in the Goals, Actions, and Services section as contributing to meeting this requirement.

Description of Increased or Improved Services

The District's 2018-19 LCAP contains 13 actions over four Goals that are included as contributing to meeting the increased or improved services requirement for the 2018-19 LCAP year (Goal 1, Actions 4, 6, 7, 9-13, 21; Goal 2, Actions 3, 4; Goal 3, Action 2; Goal 4, Action 1). Of these 13 actions, some of them are addressed in some manner by the description of increased or improved services provided in the Demonstration section. The other actions/services do not appear to fall within the scope of the description provided in the Demonstration section. For example, the description provided in the Goals, Actions, and Services section for Goal 2, Action 3 states, "Maintain 3 Outreach Consultants" (2018-19 KTJUSD LCAP, p. 82 of 109). The description of increased or improved services in the Demonstration section references "parent involvement through Outreach Consultants," which appears to provide additional information about the purpose of Goal 2, Action 3 (2018-19 KTJUSD LCAP, p. 109 of 109).

However, for most of the actions/services included in the Goals, Actions, and Services section as contributing to meeting the increased or improved services requirement, inclusion within the description of increased or improved services provided in the Demonstration section is not as readily forthcoming as it is for Goal 2, Action 3. For example, consider Goal 1, Action 7, described in the Goals, Actions, and Services section as such: "Information Technology department. Aides in the implementation of digital curriculum and all of student technology needs" (2018-19 KTJUSD LCAP, p. 55 of 109). There is no mention of digital curriculum or the technology needs of students, nor is there anything that would suggest as much, within the description of increased or improved services in the Demonstration section. Provided the District intends to include this action as contributing to meeting the increased or improved services requirement, it must be included within the description of increased or improved services in the Demonstration section. If the District does not intend to include this action as contributing to meeting the increased or improved services requirement, the District must indicate as such in the Goals, Actions, and Services section by appropriately completing the LCAP Template for this action.

Consider Goal 4, Action 1, described in the Goals, Actions, and Services section as such: “Maintain Music Teacher” (2018-19 KTJUSD LCAP, p. 105 of 109). There is no mention of a music teacher or music instruction, nor is there anything that would suggest as much, within the description of increased or improved services in the Demonstration section. Provided the District intends to include this action as contributing to meeting the increased or improved services requirement, it must be included within the description of increased or improved services in the Demonstration section. If the District does not intend to include this action as contributing to meeting the increased or improved services requirement, the District must indicate as such in the Goals, Actions, and Services section by appropriately completing the LCAP Template for this action.

Due to this demonstrated insufficiency of the description of increased or improved services provided in the Demonstration section, the District fails to sufficiently describe how the District plans to meet its increased or improved services requirement for the 2018-19 LCAP year.

Required Justification for LEA-Wide and Schoolwide Actions/Services

The template also requires an LEA to identify each action/service contributing to the increased or improved services requirement that is funded and provided on a schoolwide or LEA-wide manner, and to include the required description supporting each schoolwide or LEA-wide action/service. An LEA such as KTJUSD, which has an unduplicated student enrollment greater than 55%, must describe in its LCAP how the actions/services are “*principally directed towards*” and “*effective in*” meeting its goals for unduplicated students in the state and any local priority areas³ (EC Section 42238.07, 5 CCR 15496(b)).

To provide the required justification for services provided on a “wide” basis, an LEA must distinguish between services directed toward unduplicated students based on that status, and services available to all students without regard to their status as unduplicated students or not. An LEA describes how a service is principally directed to meeting the LEA’s goals for unduplicated students in any state or local priorities when it explains in its LCAP how it considered factors such as the needs, conditions, or circumstances of its unduplicated students, and how the service takes these factors into consideration (such as, for example, by the service’s design, content, methods, or location).

³ Schoolwide services at a district school with enrollment of unduplicated pupils that is 40 percent or more of its total enrollment must be supported by the same description. Schoolwide services at a school district school with less than 40 percent unduplicated pupil enrollment must be supported by the additional description of how the schoolwide use of funds is the *most effective* use of the funds to meet the LEA’s goals for its unduplicated pupils. This tripartite explanation is also required for action/services provided on LEA-wide basis in an LEA with unduplicated pupil enrollment of less than 55%. (5 CCR 15496(b)).

In addition, the description must explain how the service will be *effective* in meeting the LCAP goals for its unduplicated students. An LEA meets this requirement by providing in the LCAP an explanation of how it believes the action/service will help achieve one or more of the expected outcomes for the goal. Conclusory statements that an action/service will help achieve an expected outcome for the goal, without further explanation as to how, are not sufficient.

When an LCAP contains the necessary descriptions as described above for actions/services provided on a wide basis, it will be apparent how the LEA is acting to increase or improve services for unduplicated students, and why it has determined the services identified will be effective to achieve its goals for unduplicated students. Simply stating that an LEA has a high percentage of unduplicated student enrollment does not meet this standard because serving students is not the same as enrolling students.

As stated above, the District's 2018-19 LCAP contains 13 actions over four Goals that are included as contributing to meeting the increased or improved services requirement for the 2018-19 LCAP year (Goal 1, Actions 4, 6, 7, 9-13, 21; Goal 2, Actions 3, 4; Goal 3, Action 2; Goal 4, Action 1). Each of these actions is either LEA-wide or schoolwide. In the description of increased or improved services provided in the Demonstration section, the District references some of the actions/services being implemented to increase or improve services for unduplicated students. The District states that it will use the amount of supplemental and concentration funds to "offer a variety of programs and supports specifically for low income students and foster youth" (2018-19 KTJUSD LCAP, p. 126). The District provides the following in the Demonstration section as justification for the districtwide and schoolwide services:

"The justification for the district-wide implementation of these practices is the importance of making an impact on the learning environment and the climate of the schools as a whole which will have a positive impact on the targeted subgroups" (2018-19 KTJUSD LCAP, p. 108 of 109).

The District does not explain either in the Demonstration section or elsewhere in the LCAP how it considered factors such as the needs, conditions, or circumstances of its unduplicated student, nor how the actions/services takes these factors into consideration. As a result, the District has failed to describe how districtwide and schoolwide actions/services included as contributing to meeting the increased or improved services requirement are principally directed to meeting the LEA's goals for unduplicated students in any state or local priorities.

While the District describes in its LCAP actions and services that are provided to all students and unduplicated students, the LCAP does not include any consideration of the needs, conditions, or circumstances of the District's unduplicated students, whether in the Demonstration section specifically or in other sections of the LCAP. As a result, there is no possible way to describe how the districtwide or schoolwide actions/services

included as contributing to meeting the increased or improved services requirement are principally directed towards, and effective in, meeting goals for the District's unduplicated students. As a result, the District has failed to provide the necessary justification for districtwide and schoolwide actions/services included as contributing to meeting the increased or improved services requirement.

The CDE finds that the District failed to adequately describe how it plans to meet its increased or improved services requirement because its LCAP fails to provide a description in the Demonstration section that applies to all actions/services included in the Goals, Actions, and Services section as contributing to meeting the increased or improved services requirement. The CDE also finds that the District failed to adequately describe how it plans to meet its increased or improved services requirement because its LCAP fails to provide the necessary justification for all districtwide and schoolwide actions/services included in the Goals, Actions, and Services section as contributing to meeting the increased or improved services requirement.

The appeal of the District's November 27 Decision regarding Allegation 1 has merit.

Allegation 2

Appellants appeal the District's November 27 Decision regarding Allegation 2 on the grounds that the District's Decision fails to adequately address the lack of accounting for \$1,072,583 of supplemental and concentration funds for 2017-18 and is incorrect to treat \$236,348 of unspent supplemental and concentration grant funds budgeted for 2017-18 as not being material. Specifically, the District spent \$11,783 of \$97,298 budgeted for a psychologist/counselor, a difference of \$85,515 (Annual Update Goal 3, Action 2). The District spent \$193,272 of \$235,601 budgeted for outreach consultants, a difference of \$42,329 (Annual Update, Goal 2, Action 3). The District spent \$115,761 of \$224,265 budgeted for instructional aides and monitors, a difference of \$108,504 (Annual Update, Goal 1, Action 11). The sum total of these three differences equals \$236,348.

First, there is no requirement to distinguish between supplemental and concentration funds and other LCFF funds in the LCAP. However, an action or service included as contributing to meeting the increased or improved services requirement must be supported by at least one expenditure of LCFF funds. These LCFF funds may be identified by the LEA as either base or supplemental and concentration funds or simply as LCFF funds or otherwise indicated as unrestricted. Whether an LEA distinguishes between LCFF base and LCFF supplemental and concentration funds in an LCAP is a decision to be made at the local level in consultation with stakeholders.

Regarding material differences, the Annual Update includes a prompt for each goal that requires an LEA to "explain material differences between budgeted expenditures and estimated actual expenditures" (LCAP Template, Annual Update, Analysis section). In

responding to this prompt, a school district should review the absolute amount by which expenditures projected when the LCAP was adopted differ from estimated actual expenditures, as well as any resulting impacts on implementation of the related actions or services. Applying the results of this review, an LEA must make a reasonable judgment regarding which of the differences are material, and explain, in the annual update, the reasons for the differences in these expenditures.

What is considered a material difference is not only a function of either the absolute or relative size of the expenditure difference, but is also determined in part by those differences that cause meaningful changes in the implementation of actions or services that support a goal. Small amounts are more likely to be material when purchasing textbooks while larger amounts pertaining to personnel costs may not be material. For example, the cost of providing a full-time teacher may range in cost to an LEA from \$60,000 to \$110,000. On the other hand, in the context of textbook costs, a difference of \$1,000 could indicate that a substantial number of textbooks were not purchased. As a result, a determination of “materiality” based solely on the application of a blanket rule (for example, 20% variance) may not be sufficient, depending on the circumstances applicable to the particular goal, action, or service.

In making a judgment as to “materiality” and in writing related explanations as part of the LCAP annual update and development process, the LEA should be aware that determining material differences and explaining them in the LCAP is critically important to meaningful stakeholder engagement. This knowledge informs stakeholders how resources have been deployed (or not) in support of goals, and can assist both stakeholders and the LEA in deciding whether or not goals, actions, or services should be eliminated or modified to enhance student achievement.

Allegation 2 specifically references three actions, as described above (Annual Update, Goal 1, Action 11; Goal 2, Action 3; Goal 3, Action 2). To address the difference between budgeted and estimated actual expenditure amounts for Goal 1, Action 11 in the Annual Update, the District states specifically with respect to Action 11, “The District experienced several vacancies throughout the entire year” (2018-19 KTJUSD LCAP, p. 18 of 109). Such an explanation, while brief, provides sufficient information to account for such an expenditure difference. If the District is unable to fill vacancies for which expenditures have been included in the LCAP, the actual amounts of the expenditures will be lower than expected.

To address the difference between budgeted and estimated actual expenditure amounts for Goal 2, Action 3 in the Annual Update, the District states specifically with respect to Action 3, “We did not fill the position at Captain John as the School Site Council determined the position was not needed” (2018-19 KTJUSD LCAP, p. 27 of 109). Such an explanation, while brief, provides sufficient information to account for such an expenditure difference.

To address the difference between budgeted and estimated actual expenditure amounts for Goal 3, Action 2 in the Annual Update, the District states specifically with respect to Action 2, “unfilled vacancy[,] We did a contract at the end of the year with an outside vendor to provide Psychological services” (2018-19 KTJUSD LCAP, p. 33 of 109). Such an explanation, while brief, provides sufficient information to account for such an expenditure difference.

The appeal of the District’s November 27 Decision regarding Allegation 2 is denied.

Allegation 3

Allegation 3 is comprised of four separate sub-allegations:

- 3a: The District fails to provide adequate descriptions of the actions/services implemented;
- 3b: The response to the first prompt of the Analysis part of the Annual Update section, regarding implementation, is insufficient for each goal in the Annual Update;
- 3c: The response to the second prompt of the Analysis part of the Annual Update section, regarding the effectiveness of actions and services, is insufficient for each goal in the Annual Update;
- 3d: The response to the fourth prompt of the Analysis part of the Annual Update section, regarding changes made to the goal, is insufficient for each goal in the Annual Update.

3a: The District fails to provide adequate descriptions of the actions/services implemented.

The LCAP directions state:

“Identify the planned Actions/Services and the budgeted expenditures to implement these actions toward achieving the described goal. Identify the actual actions/services implemented to meet the described goal and the estimated actual annual expenditures to implement the actions/services. As applicable, identify any changes to the students or student groups served, or to the planned location of the actions/services provided.”

Per the LCAP template directions, the requirement is to identify the *actual* actions/services implemented to meet the described goal and to identify any changes to the students or student groups served, or to the *planned* actions/services provided, as applicable. An LEA transposes the *planned* actions/services from the prior LCAP year into the Annual Update for the relevant LCAP year. *Planned* actions/services are

entered into the left-hand column. In the right-hand column, next to each *planned* action/service, an LEA identifies the *actual* action/service that was implemented relative to what was planned. If all goes as planned for a *planned* action/service, the description of the *actual* action/service will be the same or very similar as that provided for the corresponding *planned* action/service. When not all goes as planned, the description of the *actual* action/service will be different than the description provided for the corresponding *planned* action/service.

The LCAP Template directions do not include specific requirements for what constitutes the identification of an *actual* action/service. The underlying question being addressed by a distinction between *planned* and *actual* actions/services seeks to clarify the extent to which a *planned* action/service was implemented. An LEA is addressing whether or not it carried out the action/service as planned or not, whether in whole or in part. As such, what constitutes a sufficient identification of an *actual* action/service will depend on the relative complexity of the action/service or the level of specificity provided by the description of the corresponding *planned* action/service.

The Appellants do not reference in the Complaint or the Appeal a specific example of an insufficient description of an actual action in the Annual Update section. A review of the Annual Update section of the 2018-19 LCAP finds that the District has not provided adequate descriptions of the actual actions and services. For example, the descriptions provided for the actual actions and services for Goal 2, Actions 5 – 10 in the Annual Update all refer back to Goal 1 (“See Goal 1”). The descriptions provided in Goal 1 of the Annual Update for actual actions and services do not make clear what actual actions or services are being described. For example, for the planned action for Goal 1, Action 15 states, “As defined in the TVES 021 Title I Allocation SPSA” (2018-19 KTJUSD LCAP, p. 14 of 109). The description provided for the corresponding actual action and services states,

“Trinity Valley Elementary School followed the Site Council/Board approved school site plan that outlined the use of Title I funding” (2018-19 KTJUSD LCAP, p. 14 of 109).

The requirement is to “identify the actual actions/services implemented to meet the described goal” (LCAP Template Directions). This description provided does not identify any specific actions or services. Rather, it identifies a school plan without identifying the actions or strategies being referred to as included in that plan.

As a result, the CDE finds that the District fails to adhere to the LCAP template directions pertaining to the identification of the *actual* actions/services in the Annual Update.

The Appeal of the District’s November 27 Decision regarding Allegation 3a has merit.

3b: *The response to the first prompt of the Analysis part of the Annual Update section, regarding implementation, is insufficient for each goal in the Annual Update.*

The LCAP template directions provided for the Analysis part of the Annual Update state:

“Using actual annual measurable outcome data, including data from the LCFF Evaluation Rubrics, analyze whether the planned actions/services were effective in achieving the goal. Respond to the prompts as instructed” (LCAP Template Directions).

LCAP template directions specific to the first prompt state:

“Describe the overall implementation of the actions/services to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process” (LCAP Template Directions).

For the four goals in the Annual Update, the District provides the following responses to this prompt:

Goal 1: “Although faced with multiple challenges, the overall implementation was successful. The area that still needs to be addressed is staffing shortages” (2018-19 KTJUSD LCAP, p. 18).

Goal 2: “As stated in Goal 1, although faced with multiple challenges, the overall implementation was successful. The area that still needs to be addressed is staffing shortages. Due to the staffing shortages, more outreach to community members has been tasked to our school staff” (2018-19 KTJUSD LCAP, p. 27).

Goal 3: “As stated in Goal 1, although faced with multiple challenges, the overall implementation was successful. We continue to increase the expectations to increase the overall effectiveness of the plan” (2018-19 KTJUSD LCAP, p. 33).

Goal 4: “As stated in Goal 1, although faced with multiple challenges, the overall implementation was successful” (2018-19 KTJUSD LCAP, p. 37).

The responses provided for Goals 1 and 2 do reference a challenge presented by staffing shortages and, with respect to Goal 2, states that school staff is taking on more outreach responsibilities as a result. However, the requirement, as provided in the LCAP Template directions is to “include a discussion of *relevant* challenges and successes...” Neither response for Goal 1 or 2 is relevant. Goal 1 in the LCAP addresses “high quality instruction” and “Common Core Standards”. Goal 2 states, “All students will have the opportunity to learn in a culturally responsive, socially, emotionally and physically safe environment” (2018-19 KTJUSD LCAP, p. 77). Neither the expected measurable outcomes nor the actions/services for either Goal 1 or Goal 2 make a reference to staffing shortages. While staffing shortages may impact many

aspects of a program, the District does not describe or otherwise make clear such a relationship in the LCAP. As such, the responses provided to the first prompt of the Analysis part for Goal 1 and Goal 2 in the Annual Update section does not meet the stated requirements as provided in the LCAP Template.

Unlike the responses provided for Goals 1 and 2, the responses provided for Goals 3 and 4 do not reference a specific challenge or success. Rather, the descriptions provide the conclusory statement that the District was “faced with multiple challenges.” This does not meet the requirement to include a discussion of challenges and successes.

The CDE finds that the District’s response to the first prompt for Goals 1, 2, 3, and 4 do not adhere to the LCAP template directions for the first prompt of the Analysis part of the Annual Update.

The Appeal of the District’s November 27 Decision regarding Allegation 3b has merit.

3c: *The response to the second prompt of the Analysis part of the Annual Update section, regarding the effectiveness of actions and services, is insufficient for each goal in the Annual Update.*

The LCAP template directions specific to the second prompt state:

“Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA” (LCAP Template Directions).

The District’s responses to the second prompt in the Analysis part of the Annual Update for each goal are as follows:

Goal 1: “Goals were clear but individual school plans still lacked the clarity to accomplish the goals. However, after multiple drafts and resubmissions, plans are becoming more complete and transparent” (2018-19 KTJUSD LCAP, p. 18).

Goal 2: “Goals were clear and schools (and their individual communities) were able to communicate a[nd] successfully obtain their goals” (2018-19 KTJUSD LCAP, p. 27).

Goal 3: “Actions and services were clear and schools (and their individual communities) were able to communicate the plan to obtain their goals. We anticipate even better results as complete implementation is expected by the end of 2018-19” (2018-19 KTJUSD LCAP, p. 33).

Goal 4: “All students are participating in PE activit[i]es – but teachers, students, and community have asked for more options within the PE program. We have a music program on our campuses once a week and teachers are also doing music in their classrooms. Teachers in 6-8 continue to use things they learned through

Arts Integration; they have all worked with special presenters and teachers. The schools have also attended multiple field trips this year that are a part of the VAPA space. Science is being taught in classes. Additionally, one of our community events was focused on science and those in attendance enjoyed having fun with hands on science activities. Teachers are instruction the Land Tenure curriculum and adding to it as well” (2018-19 KTJUSD LCAP, p. 37).

The directions for this prompt require an LEA to relate the overall effectiveness of the actions/services, as measured by the LEA, with the relevant LCAP goal.

Goal 1 in the Annual Update included in the 2017-18 LCAP is stated as follows:

“All students will receive high quality instruction, aligned to Common Core Standards, which will engage them as 21st Century learners and prepare them for college and careers” (2018-19 KTJUSD LCAP, p. 4).

The response provided to the second prompt in the Analysis part of the Annual Update for goal 1 does not reference anything of substance from the goal 1 statement nor does further examination of the measurable outcomes or actions and services provide clarification. The response to the prompt states that the goals were clear and the school plans still lack clarity but are becoming more complete and transparent. The LCAP template directions for the relevant prompt require an LEA to relate overall effectiveness of the actions/services, as measured by the LEA, with the relevant LCAP goal. The District’s response to the second prompt of the Analysis part for goal 1 of the Annual Update does not adhere to these directions.

The same is true for Goal 2 and 3 of the Annual Update. The response provided to the second prompt for Goal 4 is considered very adequate and serves as a good example of the kind of response that should be elicited by the second prompt.

As a result, the CDE finds that the District does not adhere to the LCAP template directions provided for the second prompt of the Analysis part of the Annual Update for all Goals 1, 2, and 3.

The Appeal of the District’s November 27 Decision regarding Allegation 3c has merit.

3d: *The response to the fourth prompt of the Analysis part of the Annual Update section, regarding changes made to the goal, is insufficient for each goal in the Annual Update.*

The LCAP template directions specific to the fourth prompt state:

“Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis

of the data provided in the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP” (LCAP Template Directions).

The District’s provides the same response to the fourth prompt in the Analysis part of the Annual Update for each goal as follows:

“Instead of seeking part-time positions, extra efforts were made to make as many positions fulltime, with benefits to encourage more applicants and fill more vacancies. Several actions have been removed due to stakeholder input and duplication in order to make the LCAP more user friendly” (2018-19 KTJUSD LCAP, pp. 19, 27, 33, 37).

Goals 1 – 4 in the Goals, Actions, and Services section of KTJUSD’s 2018-19 LCAP do not contain any action that addresses a shift from hiring part-time employees to hiring full-time employees with benefits or any other action that appears intended to encourage more applicants. As the District’s response to this prompt does not appear to address the goals, actions, or services planned for the 2018-19 LCAP year, the District fails to adequately respond to this prompt. As a result, the CDE finds that the District does not adhere to the LCAP template directions provided for the fourth prompt of the Analysis part of the Annual Update for all four goals.

The Appeal of the District’s November 27 Decision regarding Allegation 3d has merit.

Allegation 4:

Allegation 4 is comprised of the following two sub-allegations:

- 4a: The District failed to meet stakeholder engagement requirements pertaining to the Parent Advisory Committee;
- 4b: The District made substantial changes to its LCAP between June 2018 and September 2018 without engaging in any stakeholder engagement process.

4a: The District failed to meet stakeholder engagement requirements pertaining to the Parent Advisory Committee.

As provided in *EC* Section 52062, and as part of the stakeholder consultation process, a district superintendent is required to present the LCAP to the parent advisory committee (PAC) and the English learner parent advisory committee (ELPAC) for review and comment and to respond, in writing, to comments received from both groups. Meetings of a PAC are subject to the meeting requirements specified in *EC* Section 35147(b), commonly known as the Greene Act. These committees are not subject to the Brown Act requirements.

As provided for in 5 CCR 15495(f), a PAC shall be composed of a majority of parents of students and shall include parents of unduplicated students. A school district is not required to establish a new PAC if a previously established committee meets these requirements.

The district must also consult with, teachers, principals, administrators, other school personnel, local bargaining units, parents and pupils in developing the LCAP in accordance with *EC* sections 52060(g) and 52066(g).

In its Decision, dated November 30, 2018, the District indicates that its Indian Policies and Procedures Task Force (IPP Task Force) serves as its PAC. The District states that membership of the IPP Task Force includes 11 parents out of a total of 17 members and at least two of these members are parents of foster youth students, who meet the definition of unduplicated students.

The District also references its Board Policy 0410.1, which states that the District will merge the IPP Task Force recommendations with the District's LCAP. In its description of the role played by the IPP Task Force in the LCAP development process, the District states that this task force "reviews all of the School Plans and provides comments prior to consideration and adoption of the School Plans and the creation of the LCAP" (November 30 Decision, p. 4). The task force also "reviews the Annual Impact Aid Report to Tribes and Community" (November 30 Decision, p. 3). The District does not, however, claim that the superintendent presented the LCAP to this task force for review and comment or that the superintendent responded in writing to comments received from the task force as required by *EC* Section 52062(a)(1).

Although the District's IPP Task Force may meet the compositional requirements for the PAC, there is no evidence to suggest that the District adhered to the requirements of *EC* Section 52062(a)(1).

The Appeal of the District's Decision regarding Allegation 4a has merit.

4b: The District made substantial changes to its LCAP between June 2018 and September 2018 without engaging in any stakeholder engagement process.

The local governing board of a school district shall adopt an LCAP in a public meeting on or before July 1 of each year (*EC* Section 52061). As provided for in *EC* Section 52062(c), the local governing board of a school district may adopt revisions to an LCAP during the period the LCAP is in effect. Should revisions be made to the LCAP during the period it is in effect, the local governing board must follow the process to adopt an LCAP pursuant to *EC* Section 52062, and adopt the revisions in a public meeting.

The process by which a county superintendent of schools reviews and approves a school district's LCAP is provided in *EC* Section 52070. The local governing board of a

school district submits its LCAP to the county superintendent of schools no later than five days after the LCAP is adopted by the local governing board. On or before August 15 of each year, the county superintendent may seek clarification, in writing, from the local governing board about the LCAP. The local governing board must respond in writing to the county superintendent's requests for clarification within 15 days.

Within 15 days of receiving the local governing board's response, the county superintendent may submit recommendations, in writing, for amendments to the LCAP. The local governing board must consider the recommendations submitted by the county superintendent in a public meeting within 15 days of receiving the recommendations. The county superintendent shall approve a school district's LCAP by October 8 of each year only if the LCAP meets the three approval criteria provided in *EC* Section 52070(d)(1-3).

After the local governing board submits its LCAP to the county superintendent and before the county superintendent approves the LCAP, the local governing board may make amendments to its LCAP in response to the county superintendent's written recommendations. Such amendments may be necessary in order for the LCAP to meet the required approval criteria. Provided the process of making such amendments adheres to *EC* Section 52070 and such amendments are considered during a public meeting of the local governing board, such amendments do not trigger the stakeholder engagement process described in *EC* Section 52062.

The Complaint references "substantial changes to [the District's] LCAP between June 2018 and September 2018" and does not reference any specific change. This date range falls within the timeline provided for the review and approval process.

The Appeal of the District's Decision regarding Allegation 4b is denied.

Conclusions

The CDE finds the Appeal of Allegations 1, 3a through d, and 4a, have merit. The CDE denies the Appeal of Allegations 2 and 4b.

The CDE has referred the allegation that the District failed to post its LCAP prominently on its homepage back to the District to be processed as a new complaint consistent with 5 *CCR* Section 4632(d). The District must issue a decision regarding this allegation within 60 days from the date of the referral.

The CDE has referred the allegation that the District failed to adhere to *EC* Section 52062(b)(1), by not providing public access to the LCAP at least 72 hours prior to the public hearing, back to the District consistent with 5 *CCR* Section 4632(e). The District must make the necessary findings and conclusions on this issue within 20 days of the date of the referral.

Corrective Actions

With respect to the 2017-20 LCAP adopted for the 2018-19 LCAP year considered in its entirety, the District is required to work with the Humboldt County Office of Education, with the support of the California Department of Education, to ensure that the 2018-19 LCAP meets the requirements of the LCAP template, specifically with respect to the findings included in this report. Should conforming revisions to the 2018-19 LCAP be necessary in order to comply with these corrective actions, the District must adhere to the LCAP and annual update adoption process, including the stakeholder engagement requirements as described in *EC* Section 52062 and the LCAP must be adopted in a public meeting no later than April 15, 2019.

Additionally, the District is required to work with the Humboldt County Office of Education, with the support of the California Department of Education, to ensure that the District adheres to the requirements of *EC* Section 52062(b)(1).

As described in 5 *CCR* 4665, within 35 days of receipt of this report, either party may request reconsideration by the Superintendent. The request for reconsideration shall designate the finding(s), conclusion(s), or corrective action(s) in the Department's report to be reconsidered and state the specific basis for reconsidering the designated finding(s), conclusion(s), or corrective action(s). The request for reconsideration shall also state whether the findings of fact are incorrect and/or the law is misapplied.

I may be reached in the Local Agency Systems Support Office by phone at 916-319-0809 or by email at jbreshears@cde.ca.gov.

TABLE OF CONTENTS

INTRODUCTION

INVALID LCAP

- I. The Amended June 28th LCAP and Budget Overview Are Null and Void Because LAUSD Failed to Vet Them with the Public or Approve Them in a Public Hearing as Required by LCFF. 4

LACK OF TRANSPARENCY AND ACCOUNTABILITY

- II. LAUSD’s Bundling of Multiple Discrete Actions/Services into Single “Mega-Actions” Violates LCFF’s Transparency Requirements and Makes It Impossible to Assess Increased/Improved Services for High-Need Students. 7
- A. LCFF Requires Districts to Separately Identify, Justify and Assess the Specific Actions and Expenditures It Will Undertake to Achieve State and Local Goals. 8
- B. LAUSD Improperly Bundles Several Specific Actions in Goal 1 Action 9 (A-G Immediate Intervention Plan). 8
- C. LAUSD’s Most Egregious Bundling Obscures Whether the District is Using \$880 Million in School Autonomy Funds to Increase and Improve Services for High Need Students. 14
- D. LAUSD Improperly Bundles Several Specific Actions in Goal 3 Action 2 (Targeted Supports to Increase Student Engagement at Campuses of Highest Need). 19
- E. LAUSD Improperly Bundles Several Specific Actions in Goal 2 Action 9 (English Learner Supports). 19
- III. LAUSD Also Repeatedly Violates LCFF’s Transparency and Accountability Requirements When Allocating Unspecified Amounts to Unspecified School sites for Unspecified Actions. 21
- IV. LAUSD’s Annual Updates Violate LCFF’s Requirement that Material Changes in Actions Implemented and/or in the Budgeted Amounts for Specific Actions be Reflected and Explained. 24

FAILURE TO DEMONSTRATE INCREASED AND IMPROVED SERVICES

V.	LAUSD’s LCAPs Fail to Demonstrate the District is Meeting Its Overall Obligation to Increase or Improve Services for High Need Students Each Year by 32% Above the Level of Service Provided to All Pupils.....	25
A.	The 2019-20 DIISUP Fails to Demonstrate That the MPP Has Been Met.....	25
B.	The 2018-19 DIISUP Fails to Demonstrate That the MPP Has Been Met.....	27
VI.	LAUSD Consistently Fails to Demonstrate Its Specific Uses of \$1.1 Billion in Annual Supplemental and Concentration Funds Increase or Improve Services for High Need Students, in Further Contravention of LCFF’s Equity Mandate.	28
A.	LAUSD Fails to Justify Any of the Entity-wide Actions in its 2019-20 LCAP as Principally Directed Towards, and Effective, in Meeting Its Goals for High Need Students.	29
B.	Most of the Actions Funded by Supplemental and Concentration Funds in LAUSD’s 2018-19 LCAP are Districtwide Actions That Are Not Principally Directed Towards, and Effective, in Meeting Its Goals for High Need Students.	31
VII.	LAUSD’s LCAPs Conceal \$340 Million of Claimed Effort Toward Increased/Improved Services For High Need Pupils That Has Never Been Identified and Vetted Publicly, Much Less Justified As Principally Directed and Effective.....	33

IRREPARABLE HARM

**UCP COMPLAINT REQUESTING DIRECT STATE INTERVENTION TO ADDRESS
IRREPARABLE HARM RESULTING FROM LOS ANGELES UNIFIED SCHOOL DISTRICT’S &
LOS ANGELES COUNTY OFFICE OF EDUCATION’S FUNDAMENTAL VIOLATIONS OF THE
LOCAL CONTROL FUNDING FORMULA IN LAUSD LCAPs**

To Superintendent Thurmond and the California Department of Education:

Public Advocates and the Covington law firm present this Uniform Complaint Procedure Act (“UCP”) complaint on behalf of LAUSD parents, Ana Carrion and Elvira Velasco, requesting Direct State Intervention pursuant to 5 CCR § 4650(a)(6). The Los Angeles Unified School District (“LAUSD” or the “District”) and the Los Angeles County Office of Education (“LACOE”) have acted in direct contravention of the Local Control Funding Formula (“LCFF”) law and regulations by expending and approving the spending of billions of LCFF dollars in ways that fundamentally conflict with the transparency, community engagement, accountability and equity mandates of LCCF in the District’s Local Control Accountability Plan (“LCAP”). Unless the California Department of Education (“CDE”) grants immediate relief to require compliance with state law, LAUSD will proceed with and LACOE will approve without material correction—as has been its pattern to date—an illegal and flawed LCAP and complainants will be permanently denied a voice in the District’s allocation of billions in LCFF funds.

As set forth more fully below, we respectfully request that the CDE immediately and directly intervene in this matter to order LAUSD to wholly revise its 2019-20 LCAP to conform with the legal standards set forth in the LCFF statute, regulations, LCAP template and template instructions and CDE decisions as set forth herein and, further, order LACOE to approve that LCAP only if it satisfies those legal standards, and yet further, order LAUSD to fully vet its revised proposed LCAP through the mandatory community engagement and public approval processes set forth in law as expeditiously as possible so that LCFF funds may be legally spent as close as possible to the start of the 2019-20 school year.

INTRODUCTION

LAUSD receives over \$5 billion per year in LCFF funds and, in particular, more than \$1.1 billion annually in supplemental and concentration funds generated by the District’s unduplicated pupils (low-income students, English Learners or Foster Youth or, collectively, “high need” students) to be used for increasing or improving services that will advance high need pupil goals. The District’s allocation accounts for nearly 12% of all the supplemental and concentration (or “S&C”) funds allocated annually in the State of California. Yet, tragically, LAUSD’s LCAPs are so rife with fundamental errors that they undermine basic notions of transparency and equity and thwart meaningful efforts at local engagement and accountability. In this complaint, we will analyze in-depth both the currently county-approved LCAP (the LAUSD 2018-19 LCAP) and the newly board-adopted and proposed LCAP (the LAUSD 2019-20 LCAP), both of which reveal the same patterns of fundamental errors

Before turning to those errors, however, the SPI and CDE must intervene to correct an even more foundational harm to LCFF:

- LAUSD repeatedly disrespects and ignores the public hearing and approval processes concerning LCAPs, treating this public pact instead as its own private plan capable of unilateral alternation at any time. Most recently, after publicly vetting and approving an LCAP on June 18th, LAUSD posted a new LCAP on June 28th which we believe the District is advancing to LACOE for approval. The June 28th LCAP substantially alters the June 18th version, including a downshift of overall \$100 million in S&C funds for one item and a radically diluted Foster Youth program. Yet, *this LCAP version has never been vetted publicly nor approved by LAUSD's Board as required by LCFF.* On this basis alone, CDE's immediate intervention is needed to declare this latter LCAP invalid and identify the current operative 2019-20 LCAP. (Other instances of the District misrepresenting to the public as official a version of its LCAP that LACOE had rejected and of unilateral modifications to its LCAP without public notice or formal approval will be discussed herein.)

The pattern of fundamental errors that appear over and over again in LAUSD's LCAP and which have been ignored by LACOE to date include the following:

- LAUSD bundles multiple discrete actions and services into single "mega-actions," which violates LCFF's transparency requirements and makes it impossible to assess the nature, legality and effectiveness of increased/improved services for high-need students. As LA Board members themselves acknowledged on June 18th in approving the 2019-20 LCAP, the LCAP and its accompanying budget overview "are 'unintelligible' documents that provide little insight into specific program and funding changes."¹ LCFF requires that the District separately identify each specific action in the LCAP, reflect its cost, assess it for effectiveness and, where districtwide and supported with S&C funds, justify it as advancing high need pupil goals. LAUSD is bundling over \$940 million of its \$1.137 billion in S&C funds into just 4 actions, with one action alone accounting for \$880 million of S&C funds or approximately 9% of all S&C funds in the state. These "actions" clearly are improper bundles of separate and distinct actions with different natures, serving different grade spans and school sites and having different rationales for effectively serving high need pupils. By merging multiple actions into uber-bundles, the District prevents the required assessment of each action's cost, legality and effectiveness.
- LAUSD allocates hundreds of millions of dollars of S&C funds to school sites in violation of LCFF's transparency requirements. In 2019-20 alone, the District is

¹ Exhibit ("Ex.") 1 at 1. "None of the documents add up to anything you can count on," board member Jackie Goldberg said, noting that she'd read 'virtually every page' on three different occasions." *Id.*

sending over (and likely *well* over) \$460 million of S&C funds to local school sites for schoolwide uses. While complainants applaud the enhanced local control and community engagement this can engender consistent with LCFF principles, LAUSD's LCAPs violate LCFF by: (1) failing to identify the specific schools receiving the funds, (2) failing to identify the specific actions that will be carried out at the school or schools, (3) failing to justify how the specific schoolwide actions are principally directed and effective for high need pupils; and (4) failing to assess the school-level actions for effectiveness after implementation.

- LAUSD fails to demonstrate it is either meeting its overall obligation to increase or improve services for high need pupils by 32% above what it provides to all pupils or that its specific districtwide and schoolwide uses of supplemental and concentration funds satisfy LCFF's legal standards. LAUSD's LCAPs make no attempt to engage in the required quantitative or qualitative analysis to demonstrate it is directing 32% more in enhanced services toward high need pupils. Though the District, without more, simply asserts in the relevant LCAP section that it is investing all of its \$1.1 billion in S&C funds toward its high need student population, an associated budget document summarizing those investments totals only \$803 million.² Item-by-item analysis of LAUSD's specific uses of S&C funds consistently shows that the District is failing to prove it is meeting its equity obligation. In nearly every case, LAUSD fails to demonstrate its "equity" investments are either principally directed toward high need pupil goals or demonstrably effective—and typically both.³
- Casting further doubt on whether it is meeting its equity obligation under LCFF, a forensic analysis of LAUSD's LCAPs going back to 2017-18, reveals the District has impermissibly claimed \$340 million of unidentified S&C expenditures under its bundled "School Autonomy" Action and rolls those forward each year. What new actions these funds are supporting has not been identified in LAUSD's LCAPs, much less have they been publicly vetted or justified as principally and effectively serving high need pupils. Curiously, the gap between the District's \$803 million quantification of its high need student investments⁴ and its \$1.14 billion allocation of S&C funds under LCFF is \$340 million.

LCFF recognizes that providing the same level and type of support for all students is not enough to unleash the potential of high-need pupils. Yet, it is far from clear that the high need students of LAUSD are receiving the enhanced services they are due under LCFF. What is clear is that the District is not meeting its legal obligations to be transparent about its spending and to justify its uses of supplemental and concentration funds as properly serving high need students. Absent that transparency and demonstration of increased and improved services, LAUSD will

² Ex. 7.

³ *E.g.*, Ex. 10.

⁴ Ex. 7.

only continue to thwart the promise of community engagement and local accountability on which LCFF is premised. As Complainants Carrion and Velasco—two community leaders and parents of LAUSD low-income elementary and middle school students—contend: without the required transparency and the trust in community stakeholders’ input, the District will continue to fall short of the transformative change LCFF promises.⁵

It is no secret that LAUSD is facing serious fiscal challenges. Yet, to date, it has elected largely to look for ways to evade its equity obligations under LCFF rather than confront them head on. Caught in an unlawful annual allocation of \$450 million in S&C funds in 2017 in the prior *CoCo v. LAUSD* litigation,⁶ the District appears to be relying instead on a subtle ledger shift of \$340 million in unidentified and unjustified expenditures toward its equity obligation. To regain the public’s trust, it is time for the LAUSD to get its fiscal house in order. To start, the District needs to fully meet its transparency and equity obligations under LCFF. We respectfully request Superintendent Thurmond and the CDE order Respondents to do just that.

INVALID LCAP

I. The Amended June 28th LCAP and Budget Overview Are Null and Void Because LAUSD Failed to Vet Them with the Public or Approve Them in a Public Hearing as Required by LCFF.

On June 18, 2019, the LAUSD Board of Education adopted its 2019-20 LCAP and budget in a public meeting,⁷ following a prior public hearing on the LCAP and budget on June 11, 2019.⁸ The LCAP posted for public review prior to these public meetings was 112 pages and the LCFF Budget Overview for Parents projected a total revenue of \$7.391 billion, of which \$5.587 billion is LCFF funding and \$1.137 billion is generated based on the enrollment of high needs students.⁹ On June 28, 2019, an updated Budget Overview and a revised LCAP appeared

⁵ It should go without saying, but Complainants and counsel remind the District of its obligation to avoid taking any type of retaliatory action against Ms. Carrion and Ms. Velasco or their children for pursuing this complaint.

on the LAUSD website that was twice as long, reflects \$396.6 million fewer LCFF dollars overall and announces several substantial changes in program and budget expenditures for supplemental and concentration funds that the public never had the opportunity to review and that the Board has never considered or adopted in a public meeting.¹⁰ Just two examples of substantial S&C changes appearing for the first time in the June 28th LCAP can be found in the School Autonomy and the Foster Youth program actions:

- School Autonomy (Goal 1, Action 5) sees an additional action rolled into it.¹¹ As reflected in the June 28th LCAP Goals, Actions, Services (GAS) section, Goal 1, Action 10 (School Innovation Fund) funds “are shifted to Goal 1 Action 5 School Autonomy,”¹² The School Innovation Fund effort was a previously separate action in the June 18th LCAP, totaling \$72.4 million in expenditures.¹³ Accordingly, one would expect to see the total budgeted expenditures for School Autonomy increase by this amount between the June 18th and June 28th LCAP versions. Yet, the total budgeted expenditures for School Autonomy in the June 28th LCAP **decreased** by \$31 million,¹⁴—and this even though the June 28th Budget Overview projects marginally more total supplemental and concentration funds (\$36,475) for LAUSD.¹⁵ Thus, overall, in ten days’ time, despite the description of actions undertaken in School Autonomy expanding, budgeted expenditures for high need students covering all the actions encompassed therein have decreased by

2019), available at <http://laschoolboard.org/sites/default/files/06-18-19RegBdOBMaterialsLinked6-13-19Public.pdf>.

¹⁰ See Los Angeles Unified School District, LCAP Home, Final Draft LCAP (Updated June 28, 2019), <https://achieve.lausd.net/Page/10828>. Hereinafter, this LCAP shall be referred to as the Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP.

¹¹ The June 18 2019-20 LCAP previously announced that at least three previously separate actions were being rolled into Goal 1, Action 5 School Autonomy for the 2019-20 school year. These are Goal 2, Action 11 (Targeted Instructional Support/Class Size Reduction), Goal 4, Action 1 (Targeted Parental Involvement) and Goal 5, Action 1 (School Climate and Restorative Justice). See Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 82, 90-91, 94; see also Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP at 110.

¹² Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP at p.124.

¹³ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 63-64.

¹⁴ See Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP at p. 125 (School Innovation Funds); p. 111-12 (School Autonomy); compare Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 58-9.

¹⁵ See Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP (Budget Overview) at p. 1, compare Ex. 5, Board-Approved LAUSD 2019-20 LCAP (Budget Overview) at p. 1.

\$103.4 million.¹⁶ There is no explanation in the June 28th LCAP for the disappearance of this substantial amount of services and budgeted expenditures for high need students.

- The Foster Youth Support Plan and Family Resource Centers (Goal 2, Action 1) from the June 18th LCAP is materially changed by incorporating several additional student populations into the program, some of whom receive services not based on their status as foster youth, low-income, or English Learners.¹⁷ The June 18th LCAP did not provide notice of these substantial changes because no changes were made to the Actions/Services under 2.1.¹⁸ Although the program now proposes to expand to serve several other high need populations, the proposed 6/28 expenditures remain substantially similar, which means that services targeted to foster youth will be significantly diluted and less effective. The June 28th LCAP provides no analysis of this diminution of services to foster youth or unduplicated pupils but continues to take full credit in its Demonstration of Increased/Improved Services for Unduplicated Pupils (DIISUP) section for the program as serving only foster youth and as fully counting toward LAUSD's proportionality obligation.¹⁹

The June 28th budget overview and LCAP appeared publicly for the first time on the District's website on or about June 28, 2019. As such, they were not provided to the parent advisory committee, the DELAC, or the public for review and comment prior to adoption as required by Cal. Educ. Code § 52062 and 52064.1(c)(1)(A). Moreover, there is no record of the June 28th LCAP and Budget Overview having ever been presented to the Board in a public meeting, much less adopted in such a meeting by the Board.²⁰ Were that not enough, the June 28th LCAP, which makes substantial changes to the LAUSD budget as partially reflected above,

¹⁶ This is the sum of the total 6/18 budgeted expenditures for Goal 1, Action 10 plus the overall decrease in School Autonomy expenditures of \$31 million reflected in the revised LCAP, *see* Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP 2019-20 at p. 111-12 (School Autonomy).

¹⁷ *See* Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP at p. 132-33 ("Beginning in the 2019-20 school year, the District will aim to provide local, integrated, specialized support services for targeted student populations, ensuring that students in foster care continue to be served effectively and consistently while strategically increasing support for students experiencing homelessness and/or involved in the juvenile justice system.").

¹⁸ The June 18th LCAP noted that 2.1 was modified, but the description of the program remained unchanged other than minor formatting issues. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 67.

¹⁹ Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP at p. 213.

²⁰ The only board meeting held between the June 18th LCAP and budget adoption and the revised June 28th LAUSD 2019-20 LCAP (Ex. 6) was a special meeting on June 25, 2019. Neither the LCAP nor the budget was on the agenda for this meeting. *See* LAUSD Board of Education, Special Meeting Stamped Order of Business (June 25, 2019), available at <http://laschoolboard.org/sites/default/files/06-25-19SpclBdCSSTAMPEDOB.pdf>.

was not adopted together with a budget as required by Cal. Educ. Code § 52062(b)(2). Instead, the District’s budget, with its expenditures aligned to the June 18th LCAP (presumably), was adopted by the Board on June 18th. For all these substantial failings, the June 28th LCAP must be considered null and void and of no legal effect.

Because the only operative LCAP the Board has adopted in line with LCFF’s statutory procedures prior to the annual July 1 deadline²¹ is the June 18th LCAP, our analysis of the 2019-20 LCAP in this complaint will refer to the June 18th version. However, the same fundamental problems identified in the operative June 18th version are all fully replicated in the unlawfully amended June 28th version.²²

As an overarching matter, moreover, LAUSD’s illegal substitution of the June 18th LCAP with a revised June 28th version has only served to sow further confusion and a lack of clarity for the public and for LACOE’s review. Which version shall the public, the Board and LACOE consider to be LAUSD’s proposed 2019-20 LCAP? And, indeed, it is not entirely clear that LACOE has the authority to enforce that part of the LCFF statute which concerns local board approval among its three enumerated duties in reviewing LCAPs.²³ Accordingly, the District’s recent illegal “adoption” only further justifies CDE’s immediate intervention in this matter. Without direct and immediate intervention prior to the upcoming August 15 and October 8 statutory deadlines for county review,²⁴ LAUSD will not be on track to have (and LACOE will not be on track to review) a valid LCAP and budget that lawfully serve its hundreds of thousands of high need students and that have been properly publicly vetted before the 2019-20 school year begins.

LACK OF TRANSPARENCY AND ACCOUNTABILITY

II. LAUSD’s Bundling of Multiple Discrete Actions/Services into Single “Mega-Actions” Violates LCFF’s Transparency Requirements and Makes It Impossible to Assess Increased/Improved Services for High-Need Students.

LAUSD’s LCAPs impermissibly bundle multiple, discrete actions into such all-encompassing mega-actions that the District violates LCFF’s core transparency requirements, thwarting, thereby, any meaningful exercise of local engagement and accountability.

²¹ Cal. Educ. Code § 52060(a)-(b).

²² After visual comparison, we have to highlight differences between the two June versions of the LAUSD LCAP by highlighting deletions in the June 18th version and changes in the June 28th version. See Ex.’s 5 and 6.

²³ See Cal. Educ. Code § 52070(d).

²⁴ Cal. Educ. Code § 52070.

A. LCFF Requires Districts to Separately Identify, Justify and Assess the Specific Actions and Expenditures It Will Undertake to Achieve State and Local Goals.

At the heart of LCFF is the requirement that districts be fully transparent around the “specific actions” being undertaken and the associated spending for and effectiveness of each such action so that community stakeholders can hold districts accountable for using funding equitably and effectively. Indeed, during the passage of LCFF, the Brown Administration’s consistent rationale for the shift away from Sacramento-dictated categorical-centered accountability to accountability through “local control” was that the local community would be able to see what school boards do with their new spending flexibility and hold them accountable through local democratic processes. Thus, the name given to LCFF’s centerpiece mechanism was the Local Control Accountability Plan.

To notify the public of how it is spending its money, a school district is required to “include a description of the specific planned actions an LEA will take to meet the identified goals, and a description of the expenditures required to implement the specific actions.”²⁵ In addition, a school district must separately identify and justify how the revenue generated by and for high need students translates into increased and improved services for these students.²⁶ Accordingly, the LCAP template requires that districts “[i]dentify *each* action/service being provided on a schoolwide or LEA-wide basis” and provide the principally directed and effectiveness justifications required by the LCFF regulations.²⁷ Finally, the school district must

²⁵ See Ex. 17, LCAP Template Instructions, Cal. Dep’t of Educ. (last reviewed Feb. 1, 2019) at p. 13, *also available at* <https://www.cde.ca.gov/re/lc/templateinstructions.asp>. School districts are required to provide all the information specified in the LCAP template. See also Cal Educ. Code § 52062(A)(3)-(5) (describing the district’s obligation to notify members of the public and hold a public hearing regarding “*the specific actions and expenditures* proposed to be included in the local control and accountability plan or annual update to the local control and accountability plan”) (emphasis added); § 52064(b)(2)(requiring the state board to create a template that includes “[a] description of *the specific actions* the school district, county office of education, or charter school will take during each year of the local control and accountability plan to achieve [state] goals”) (emphasis added). Pursuant to Cal. Educ. Code § 52064(j), the current LCAP template is subject to the prior version of the statute which similarly required LCAPs to provide “a description of *the specific actions* the school district will take during each year of the LCAP...”, *former* Cal. Educ. Code § 52060(c) (emphasis added).

²⁶ See, e.g., 5 Cal. Code Reg. § 15496(b)(1)(A) (permitting a school district with an enrollment of unduplicated pupils of 55 percent or more to expend supplemental and concentration grant funds on a districtwide basis provided the district “[i]dentify in the LCAP those services that are being funded and provided on a districtwide basis [and] describe how such services are principally directed towards, and are effective in, meeting the district’s goals for its unduplicated pupils in the state and any local priority areas.”).

²⁷ See Ex. 17, LCAP Template and Template Instructions (emphasis added) at p. 17.

report on what it did, how much it spent, whether its specific actions were effective, and if it plans to change any of its specific actions and services for the upcoming year.²⁸

Though the statute and the template do not further explicitly define the term “each specific action,” they should not have to. The plain meaning and what is needed to align with the statutory and regulatory purposes provide ample clarity into what is required. The plain meaning of “specific,” “action” and “each” sufficiently conveys what the legislature intended when it specified that “specific actions and expenditures” must be identified in the LCAP or Annual Update. *People v. Wright* (2006) 51 Cal.Rptr.3d 80, 92; *see also California Teachers Assn. v. Governing Bd. of Rialto Unified Sch. Dist.* (1997) 14 Cal.Rptr.2d 671, 673 (“Our first step [in determining the Legislature's intent] is to scrutinize the actual words of the statute, giving them a plain and commonsense meaning.”). “Specific” means “detail, particular” while “action” means “a thing done” or “the accomplishment of a thing usually over a period of time, in stages, or with the possibility of repetition.” The Merriam-Webster Dictionary (2019). “Each” means “every individual one.” *Id.* The plain and ordinary meaning of these words require that the district, in its proposed plans, include a detailed and particular description for every discrete activity or service that the LEA intends to carry out in support of its state and local goals and its unduplicated pupils.

Moreover, the meaning—and in particular the level of specificity required here—must align to the statutory and regulatory purposes and their required framework for achieving those goals.²⁹ That is, the local school community, the school board and the county must be able to understand what discrete activities and services are being undertaken, how much each costs, how well each entity-wide service is directed to serve high need students and whether, after implementation, the discrete action is effective for LCFF to be satisfied. As discussed below, in Section VI. as concerns the DIISUP, to establish an entity-wide action is principally directed requires a context-specific identification of the needs, conditions and circumstances being addressed and how the specific action will be designed to address those factors. The effectiveness justification requires a demonstration that the specific action will advance the

²⁸ See Ex. 17, LCAP Template Instructions at p. 15-16.; *see also* Cal. Educ. Code § 52064(b)(7) (requiring the LCAP template to include “[a] review of the progress toward the goals included in the existing local control and accountability plan, a review of any changes in the applicability of the goals, an assessment of the effectiveness of the specific actions described in the existing local control and accountability plan toward achieving the goals, a description of changes to the specific actions and related expenditures the school district, county office of education, or charter school will make as a result of the review and assessment, and an update on progress implementing the specific actions in the current fiscal year, including estimated actual expenditures for the specific actions”). *See also former* Cal. Educ. Code § 52061(a)(2)-(3) (requiring the LCAP’s annual update include an “assessment of the effectiveness of the specific actions...toward achieving the goals,” a listing and description of the expenditures “implementing the specific actions,” and any planned “changes to the specific actions . . .”).

²⁹ See *People v. Licas* (2007) 60 Cal. Rptr. 3d 31, 34 (“In construing a statute, our role is to ascertain the Legislature's intent so as to effectuate the purpose of the law.”)

identified high need students toward one or more expected outcomes. It follows that actions which have distinct natures (*e.g.*, counselors vs. clerical support vs. parent engagement) will require distinctive demonstrations of principally-directedness as well as unique discussions of effectiveness. Where such is the case, such discrete actions cannot be merged under one mega-action heading and a single vague justification.

The framework of the LCAP template, and in particular its Goals, Actions, Services (GAS) section, also explicitly acknowledges that specific actions are ones which serve specific student populations (*i.e.*, all students, students with disabilities, specific student groups, English Learners, Foster Youth, and/or Low-Income), have unique scopes of service (LEA-wide, Schoolwide, or Limited to Unduplicated Student Groups) and unique locations (*i.e.*, All Schools, Specific Schools, and/or Specific Grade Spans) and, accordingly, must be listed separately even if they are directed to the same goal.³⁰ Thus, one is not complying with the statute's and the template's call for separate analyses of specific actions where one's so-called "action" has multiple parts, some of which are LEA-wide, serving all schools and grade spans, while others are schoolwide but only at some schools, and yet others may be grade span specific.

Where a district like LAUSD bundles into a single mega-action numerous discrete actions that have distinctive natures, different scopes of service and locations separate rationales for being principally directed, distinct outcome objectives and separate analyses of effectiveness, none of the transparency and accountability requirements core to LCFF can be met. It becomes impossible to see, much less identify the effectiveness of each action, and impossible to hold the district accountable for ongoing reflection and improvement. Whether progress toward a goal is significant, modest or wholly lacking, the community and the board cannot ascertain, for example, which discrete actions are hindering or supporting progress, which are serving or disserving high need pupil goals and which particular investments are paying dividends or wasting resources.³¹

³⁰ Ex. 17, LCAP Template at p. 6.

³¹ Indeed, vague descriptions regarding a school district's commitment of resources have repeatedly been found to be insufficient to meet statutory requirements for specific and detailed descriptions. *See, e.g., Bend LaPine Sch. Dist. v. K.H.*, No. CIV. 04-1468-AA, 2005 WL 1587241, at *10 (D. Or. June 2, 2005), *aff'd sub nom. Bend-Lapine Sch. Dist. v. K.H.*, 234 Fed.Appx. 508 (9th Cir. 2007) (holding that IEP behavior plan providing for specially designed instruction "throughout the school day" was "vague and indefinite" and fail[ed] to adhere to statute's requirements that the IEP must be drafted "so that the level of the agency's commitment of resources will be clear to parents and other IEP team members," 20 U.S.C. § 1414(d)(A)(vi); 34 C.F.R. § 300.347(a)(6)); *Knable Ex.rel. Knable v. Bexley City Sch. Dist.*, 238 F.3d 755, 769 (6th Cir. 2001) (holding that IEP violated procedural requirements of IDEA where it contained only "generalized proposal of behavioral and educational goals for [student], with minimal details describing how the [proposed educational program] would help [student] meet such goals"); *S.H. v. Mount Diablo Unified Sch. Dist.*, 263 F. Supp. 3d 746, 765 (N.D. Cal. 2017) (finding that the school

B. LAUSD Improperly Bundles Several Specific Actions in Goal 1 Action 9 (A-G Immediate Intervention Plan).

Goal 1 Action 9 is a typical example of LAUSD’s impermissible bundling. In 2018-19, LAUSD spent approximately \$15.6 million on A-G Immediate Intervention support (Goal 1, Action #9), which bundled at least 19 specific actions that have different scopes of service covering vastly different grade spans in different locations with different purposes and metrics for evaluating effectiveness. A complete list of the discrete actions included in Goal 1, Action #9 in the 2018-19 LCAP is available in Ex. 8, and a sample of discrete actions is analyzed in the table below.³²

Specific Action³³	Scope of Services	Location(s)	Purpose	Evaluation Metric³⁴
Auxiliaries/ independent study/winter break and spring break , RIG, and other credit recovery programs	LEA-wide	All High Schools	Provide opportunities for students who have failed classes to graduate	4-year Cohort Graduation rate 4-year Dropout rate
Algebra I/Geometry Intervention Pathway Program	LEA-wide	All High schools	To prevent students from failing classes	4-year Cohort Graduation rate 4-year Dropout rate

district failed to specify the type of services being offered, violating the statute’s requirement that each IEP “must specify the nature of the special services that the school will provide.”).

³² The same bundling occurs in LAUSD’s 2019-20 LCAP. *See* Ex. 9 (Table 2: Bundled Services in LAUSD 2019-20 LCAP).

³³ Each of these discrete actions is listed in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15-20.

³⁴ Unless otherwise noted, these metrics are based on the annual measurable outcomes for Goal 1, which is 100 percent graduation. While the District does not actually identify which AMO its sub-actions are seeking to address, we have identified the most obvious pertinent outcome.

Pre-AP/AP Summer Institute	LEA-wide	All High schools	Increase participation of diverse learners in A-G and AP classes	% of grads w/ 3+ on 2+ AP exams % of grads completing A-G w/ C or better
Parent engagement/support (parent/family seminars, College Café, etc.)	LEA-wide	All Schools ³⁵	Increase support for students from families; empower families to help students access college	% of parents who state: My school provides resources to help me support my child's education ³⁶
Transition to College Mathematics and Statistics (TCMS)	Schoolwide ³⁷	34 unspecified high schools ³⁸	College readiness for students who passed Algebra 2, but have low test scores	% of students who exceeded college readiness standards in Math (EAP test)
AP Readiness programs (APR)	LEA-wide	All High schools	Support for students enrolled in an AP class and their teachers.	% of grads w/ 3+ on 2+ AP exams

³⁵ The location for all of Goal 1, Action 9 is listed as “All high schools, select middle schools” in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15. However, the parent engagement activities, such as the Quaglia Institute Parent and Family Seminars, are “[o]pen to all LA Unified families.” *Id.* at 19. Therefore, it does not appear to be limited to high school and middle school families, even though these seminars occurred at high schools.

³⁶ Although parent engagement support is listed as an action to achieve Goal 1 (100 percent graduation), it appears to fit best under Goal 4 (parent, community, and student engagement) as Goal 1 has no parent-related AMO. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 40-41.

³⁷ The Scope of Services for all of Goal 1, Action 9 is listed as “LEA-wide” in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15. However, the Annual Update states that this specific action was available only at 34 select schools and not LEA-wide. *Id.* at 18.

³⁸ The location for all of Goal 1, Action 9 is listed as “All high schools, select middle schools” in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15. However, the Annual Update states that this specific action was available only at 34 select schools and not at all high schools. *Id.* at 18.

Middle school Intervention Star 8	LEA-wide	All Middle schools ³⁹	Prepare students for success in high school A-G classes	% of grads completing A-G w/ C or better
Middle school college/ career coaches	Schoolwide ⁴⁰	All Title I middle schools	Support at-risk students and teachers	% of grads completing A-G w/ C or better
Edgenuity Intervention Programs	LEA-wide	All K-8 schools ⁴¹	Prepare students for A-G success	% of grads completing A-G w/ C or better

As the table above illustrates, grouping disparate actions together under one mega-action makes it impossible to determine: (1) how much money is invested in each discrete action; (2) whether in the DIISUP each discrete action is justified as both principally directed and effective; and, in the Annual Update (3) whether the actions have been successful and (4) changed in any material way.

The 2018-19 Annual Update in LAUSD’s 2019-20 LCAP states, for example, that the graduation rate continues to increase year-over-year, but the percentages of students meeting the 11th grade Early Assessment Program (EAP) college readiness level in English Language Arts and mathematics were below the District’s targets.⁴² If Goal 1, Action 9 were unbundled into its discrete actions, it would be possible to distinguish, for example, LAUSD’s investment in credit

³⁹ The location for all of Goal 1, Action 9 is listed as “All high schools, select middle schools” in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15. However, the Annual Update states that this specific action was available at all middle schools (not just selected middle schools). *Id.* at 20.

⁴⁰ The Scope of Services for all of Goal 1, Action 9 is listed as “LEA-wide” in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15. However, the Annual Update states that this specific action was available only at Title I middle schools and not LEA-wide. *Id.* at 20.

⁴¹ The location for all of Goal 1, Action 9 is listed as “All high schools, select middle schools” in the 2018-19 Annual Update. *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.15. However, the Annual Update states that this specific action was available for grades K-8 (not just selected middle schools). *Id.* at 20.

⁴² *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 21. Indeed, the poor transparency only further enables what generally seems to be LAUSD’s weak commitment to self-reflection and continuous improvement evinced in its Annual Updates. The 2018-19 Annual Update for Goal 1 concludes that the graduation rate increases year after year but fails to note that English Learner graduation rates are decreasing or that LAUSD students continue to fall short of their expected measurable outcomes across the board.

recovery (which is designed to reduce dropout rate and increase graduation rate) from its investment in college readiness (*i.e.*, TCMS) and determine whether more investments need to be made in the latter, given the lack of progress on college readiness. However, because both actions (and many more) are bundled into a single mega-action, it is impossible to engage in this sort of reflection and analysis. If the district is not engaging in this analysis and does not provide the public an opportunity to do so, no progress—much less Complainants’ hoped-for transformative progress—can be made on college readiness for hundreds of thousands of high need LAUSD students. In 2018, only 10 percent of English Learners, 13.5 percent of Foster Youth, and 26.6 percent of Homeless students were prepared for college, with no significant increase since 2017.⁴³ LCFF generates revenue to improve these outcomes, but LAUSD is not engaging in the reflection needed to put these dollars to work effectively and is obstructing the public from doing so.

C. LAUSD’s Most Egregious Bundling Obscures Whether the District is Using \$880 Million in School Autonomy Funds to Increase and Improve Services for High Need Students.

For the 2018-19 school year, LAUSD generated approximately \$1.164 billion in supplemental and concentration grant funds designated to increase and improve services for high need students.⁴⁴ LAUSD spent two-thirds of that (\$775.9 million)⁴⁵ on a single action (Goal 1, Action 5): School Autonomy. For the 2019-20 school year, LAUSD will increase expenditures on School Autonomy to \$880.4 million,⁴⁶ which accounts for 77.4 percent of its estimated supplemental and concentration funds (\$1.137 billion).⁴⁷ Thus, the lion’s share of LAUSD’s supplemental and concentration funds are invested in this single action which constitutes approximately 9 percent of all supplemental and concentration funds allocated throughout the State of California; yet, it is impossible to determine how these funds are used, much less whether they are principally directed and effective for high need students as LAUSD has now bundled at least 22 disparate actions together.⁴⁸ In 2018-19, these specific actions numbered 19 in all and included:

⁴³ California Dashboard, LAUSD, 2018, College/Career Readiness, <https://www.caschooldashboard.org/reports/19647330000000/2018#college-career-card>

⁴⁴ See Ex. 4, LAUSD 2018-19 LCAP at p. 223 (“Estimated Supplemental and Concentration Grant Funds”).

⁴⁵ See Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 12 (sum of Estimated Actual Expenditures for Goal 1, Action 5 – School Autonomy).

⁴⁶ See Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p.58-59 (Budgeted Expenditures for 2019-20).

⁴⁷ *Id.* at p. 112.

Enhances School Climate (no grade span specified; presumably all)⁴⁹

1. Nursing services
2. Campus aides
3. Clerical
4. Community representatives
5. Building/ground maintenance

Supports Academic planning and Instructional Interventions (no grade span specified; presumably all)⁵⁰

6. Assistant Principals
7. Professional development
8. Tutoring supports

Services for Elementary Schools⁵¹

9. Administrative support
10. Redesigned arts program

Services for Middle Schools⁵²

11. Class size reduction – math/ELA
12. Elective teachers (arts/PE)
13. Librarian/Library Aide

Services for High Schools⁵³

14. Optional educational settings (alternative to high schools)
15. A-G supports - credit recovery
16. Class size reduction – math/ELA (9th)
17. Elective teachers (arts/PE) – HS
18. Counselors – PSA
19. Counselors - PSW

⁴⁹ Each of these actions are listed in GAS section and no grade spans are specified in the DIISUP section. See Ex. 4, LAUSD LCAP 2018-19 at p. 121-23 (GAS section); p. 224-25 (DIISUP section).

⁵⁰ *Id.*

⁵¹ These actions are not mentioned in the GAS section, but are specified for the first time in the DIISUP section. *Id.*

⁵² These actions are mentioned in the GAS section and more detail about grade span is provided in the DIISUP. *Id.*

⁵³ These actions are mentioned in the GAS section, except for the optional educational settings, but more specificity about grade span is provided in the DIISUP section. *Id.*

On its face, each of these efforts constitute discrete actions because they provide students with very different types of services that have distinctive purposes requiring separate justifications and metrics for measuring effectiveness. The GAS section of the LCAP differentiates these actions into two categories: (1) enhance school climate; and (2) support academic planning and interventions. This alone should signal that Goal 1, Action 5 is impermissibly bundling actions that should be separated. In addition, the DIISUP section of the LCAP further disaggregates these discrete actions into grade span categories, which also signals improper bundling because services provided for different grade spans rely on different metrics to measure success – i.e. for elementary school students, we might look at early literacy benchmarks and SBAC results to determine whether actions are effective, whereas college readiness standards and graduation rates are a more appropriate metric for high school students on certain actions.

Confusingly, all these discrete actions are bundled under one mega-action titled “School Autonomy” when in fact, only a fraction of the expenditures are allocated for schools to use in their discretion,⁵⁴ whereas the vast majority appear to be districtwide programs or mandates.⁵⁵

On August 13, 2018, Public Advocates and Complainant Velasco wrote to LACOE expressing serious concerns regarding LAUSD’s bundling of specific actions under School Autonomy, among other issues.⁵⁶ We requested that LACOE require the District to “identify each unique and separate action to support unduplicated pupil goals and the related expenditures currently bundled under one ‘School Autonomy’ action” and “justify each unique and separate action” prior to approving the 2018-19 LCAP.⁵⁷ In response, LACOE required LAUSD to amend its 2018-19 LCAP. On or around October 12, 2018, LACOE approved LAUSD’s revised 2018-19 LCAP in which Respondents break out the actual actions and services in School Autonomy in more detail. In the Annual Update included in this revised LCAP, LAUSD admits

⁵⁴ In April 2018, LAUSD passed the Student Equity Needs Index 2.0 resolution, which required the district to allocate certain supplemental and concentration funds in 2018-19 according to a sophisticated formula developed by community groups that includes indicators such as gun violence and asthma rates to identify the schools in LAUSD with the highest needs. *See, e.g.*, LAUSD Board Resolution 037-17/18, “Equity is Justice 2.0: Moving Toward a New Direction,” *available at* <http://10.10.34.39/EquityIsJustice2.02018.pdf>. Schools may choose from a menu of options to increase and improve services for the highest need students at their school site depending on local needs. For the 2018-19 school year, the SENI allocation to schools was \$25 million, *id.* For the 2019-20 school year, the SENI allocation will increase to approximately \$290 million, although what actions are to be carried out with those funds and which are district-mandated versus true school site determinations has only become more obscure. *See* Ex. 7, LAUSD Superintendent’s Final Budget, 2019-20 – Attachment I.

⁵⁵ *See* Ex. 8 (Table 1: Bundled Services in LAUSD 2018-19 LCAP); *see also* Ex. 4, LAUSD 2018-19 LCAP at p. 31-32 (describing the categories of resources under Goal 1, Action 5 in the 2017-18 Annual Update).

⁵⁶ *See* Ex. 13 at p. 2-3 (Public Advocates’ Letter to LACOE).

⁵⁷ *Id.* at 3.

that School Autonomy is not a single, specific action, but “a cadre of services” and a “cadre of support and autonomy.”⁵⁸ Respondents’ description then proceeds to break the School Autonomy “action” into 4 sub-buckets of actions under the headings of School Climate, Parent Involvement, Student Achievement & State Standards and Student Engagement, which are further sub-divided by grade span-specific services (elementary, middle school, and high school), and yet still further sub-divided as belonging to one of three distinct types of actions: (1) central district mandated; (2) central district determined, but optional; and (3) true school level autonomy.⁵⁹ The fact that LAUSD sub-divides School Autonomy into various discrete buckets of actions (which are themselves still bundled and unjustified) is nothing less than an admission by both Respondents that this mega-action is not the required “specific action” called for by the statute and the template. The somewhat increased (but now lost)⁶⁰ transparency around what School Autonomy contains nonetheless fails to satisfy LCFF requirements as LACOE never required LAUSD to actually unbundle the sub-actions so as to reveal their associated specific expenditures, nor justify each as both principally directed and effective, nor separately analyze them for effectiveness and material changes.

In fact, the districtwide mandates, such as professional development to help Assistant Principals and Counselors support high need students, must distinctly be justified as a districtwide action. In contrast, the true school autonomy actions must be justified on a school-by-school basis because each school will choose different actions to increase and improve services to address the specific needs of the unduplicated students at their school. Because of the bundling in School Autonomy, neither justification ever takes place.

Despite Public Advocates’ and Ms. Velasco’s efforts to obtain more transparency in the District’s LCAPs, the approved 2019-20 LCAP is even more opaque and bundled than the 2018-19 LCAP.⁶¹ In addition to the 19 separate actions that were bundled into the School Autonomy item in the 2018-19 LCAP, LAUSD rolled three additional actions designed to address different goals, into this item. These actions include:

⁵⁸ Ex. 4, LAUSD 2018-19 LCAP at p. 24.

⁵⁹ *Id.* at 24-34.

⁶⁰ LAUSD inexplicably has failed to use this LACOE approved 2018-19 LCAP as its actual LCAP, instead posting on its website the draft, non-approved 2018-19 LCAP without the updated Annual Update description of actual services as its official 2018-19 LCAP. See Ex. 3, Excerpts from 6/6/18 LAUSD LCAP; Home, Latest LCAP Release 6/6/18, LCAP 2018-2019 UPDATE, *available at* <https://achieve.lausd.net/cms/lib/CA01000043/Centricity/Domain/358/TAB%204%20LAUSD%20LCAP%202018-19.pdf>. Moreover, in the 2019-20 LCAP’s Annual Update for 2018-19, LAUSD has reverted to a description of actual services very close to the shorter, less transparent description for School Autonomy services that LACOE rejected last Fall. See Ex. 5, Board-Approved LAUSD 2019-20 LCAP at 12-13.

⁶¹ See Ex. 9 (Table 2: Bundled Services in the 2019-20 LCAP).

- **Goal 2, Action 11 - Targeted Instructional Support (\$11.9 million):** In previous LCAPs, one of the actions designed to achieve the goal of grade-level proficiency for all students was targeted instructional support.⁶² Specifically, middle school, high school, and some elementary schools received a 1 FTE teacher position to reduce class sizes and add enrichment electives or courses according to the District's school equity index. The School Autonomy action also included class size reduction teachers and elective teachers, but only for 9th grade math and ELA classes and middle school math and ELA classes at schools with high concentrations of unduplicated students. In 2019-20, these funds are combined into the School Autonomy item, making it impossible to determine how class size reduction and elective teachers are being allocated and whether they are effective.
- **Goal 4, Action 1: Targeted Parental Involvement (\$4.26 million):** The 2019-20 LCAP also rolls all parent training, learning opportunities, and workshops into school autonomy so that supposedly individual school sites can determine how to best increase parent engagement at their school. Although decentralized parent engagement may be a good concept, it should be a separate action that is justified and tracked separately instead of subsumed by the omnibus School Autonomy item. The metrics of success on parent engagement and collaboration are very different than the metrics of success for the School Autonomy action (100 percent graduation rate); collapsing them into a single action will undermine the community's ability to determine whether LAUSD is effectively increasing parent engagement.
- **Goal 5, Action 1 - School Climate and Restorative Justice Program (\$9.8 million):** According to the 2019-20 LCAP, the majority of expenditures that were previously under this action to reduce suspensions and expulsions and improve school climate (all but \$530,166) were moved to the school autonomy item for schools to determine the best way to reduce discipline issues within their schools. Although decentralized school climate work may be sensible, it cannot be combined with every other action that is subject to local decision-making. Restorative justice programs are a key victory from the hard-fought campaign to adopt the School Climate Bill of

⁶² In the 2018-19 LCAP, Goal 2, Action 11 included Early Language and Literacy Program, as well as Targeted Instructional Support. In the 2019-20 LCAP, the entire budget for this action is eliminated and purportedly rolled over to the school autonomy item, but only the elective/class reduction teachers are referenced. Therefore, it is not clear whether the ELLP program was discontinued, continues under the School Autonomy item (Goal 1, Action 5), or has been rolled over to a different, unspecified item. California law requires districts to describe and explain any changes to the actions. *See* Cal. Educ. Code § 52061. LAUSD's failure to account for the disappearance of ELLP exemplifies how improper bundling thwarts the public's ability to see how actions materially change over time.

Rights⁶³ and the districts' implementation of these practices cannot be evaluated unless it is described, justified, and assessed as a separate action.

D. LAUSD Improperly Bundles Several Specific Actions in Goal 3 Action 2 (Targeted Supports to Increase Student Engagement at Campuses of Highest Need).

Another “mega-action” is Goal 3, Action 2, which is labeled “Targeted Supports to Increase Student Engagement at Campuses of Higher Need,” and includes at least 8 distinct actions for unspecified high need schools (although the LCAP incorrectly states that it is provided LEA-wide at all schools).⁶⁴ These actions include such distinct services as clerical support, custodial, nurses, Pupil Services and Attendance counselors, and Foster Youth Leadership Council, among others.⁶⁵ Each of these sub-actions serve different purposes, respond to different needs, and must be separately assessed for effectiveness.

Moreover, this item includes the same sub-actions as many of the specific actions bundled in School Autonomy yet they are separated here as a distinct action. Presumably, these are distinct services as the District has not rolled them into Action 1.5 as it has done with other previously separate actions. However, unless the specific actions and school-level allocations are properly identified (*see* Section III. re school-level allocations), it is impossible for the Board, LACOE, and community stakeholders to ascertain if in fact the District is double-counting the more than \$31 million in expenditures from Goal 3, Action 2 as meeting its minimum proportionality percentage.⁶⁶

E. LAUSD Improperly Bundles Several Specific Actions in Goal 2 Action 9 (English Learner Supports).

If multiple actions with distinct target populations, purposes, and scopes of service are bundled into a single item and categorized as increasing/improving services, it is impossible to determine if that equity requirement is in fact satisfied. In 2018-19, LAUSD spent approximately \$20.6 million of supplemental and concentration funds on Goal 2, Action 9, which is labeled “English Learner Supports.”⁶⁷ This action is listed as contributing toward the

⁶³ *See, e.g.* David Washburn, *Budget realities challenging California school districts' restorative justice programs*, EdSource (July 1, 2019), <https://edsource.org/2019/budget-realities-challenging-california-school-districts-restorative-justice-programs/614572>.

⁶⁴ *See* Ex. 8 (Table 1: Bundled Services in LAUSD 2018-19 LCAP). The 2019-20 LCAP did not make any changes from 2018-19 and is objectionable for the same reasons, *see* Ex. 9 (Table 2: Bundled Services in LAUSD 2019-20 LCAP).

⁶⁵ *Id.*

⁶⁶ *See, e.g.*, Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 57.

⁶⁷ *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 53.

increased/improved services requirement and states that it is limited to English Learners and low-income students (as opposed to LEA-wide or schoolwide).⁶⁸ Yet, this single action combines at least 21 discrete actions, some of which are not limited to English Learners or focused on supporting them at all.⁶⁹ As set forth in detail in Table 1, this action includes everything from EL instructional services and transition services, which seem to satisfy the increasing/improving services requirement, to administrative support to implement the LCAP, which cannot be justified as increasing/improving services because these actions support all students.⁷⁰ However, since all of these actions are bundled and collectively justified, it is impossible to determine which expenditures properly meet the increased/improved services requirement and which ones do not. It is possible that most of the expenditures under this item do not meet the increased/improved services requirement, but that is obscured by the sometimes inaccurate label (“English Learner Supports”) and scope of services (“Limited to Unduplicated Student Group(s)"). The same bundling exists in the 2019-20 LCAP.⁷¹

This is not just a bureaucratic exercise. LAUSD is almost certainly using some of the \$20.6 million that it claims to be using on English Learner supports on actions that are not targeted to English Learners, and therefore should not count towards the increased/improved services requirement. The School Board and the school community cannot ascertain that amount because the actions are bundled, but the 115,857 English Learners in LAUSD are entitled to have those funds and services focused on English Learner goals—and they desperately need them.⁷² English Learners have the lowest graduation rates of any student group in LAUSD (59.6 percent) and are the least prepared for college (10 percent).⁷³ LAUSD serves nearly a tenth of English Learners in the state, yet have worse outcomes than the state overall.⁷⁴

⁶⁸ *Id.*

⁶⁹ See Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 53-58; see also Ex. 8 (Table 1: Bundled Services in LAUSD 2018-19 LCAP) and Ex. 9 (Table 2: Bundled Services in LAUSD 2019-20 LCAP).

⁷⁰ See Section VI below re a proper DIISUP showing.

⁷¹ See Ex. 9 (Table 2: Bundled Services in LAUSD 2019-20 LCAP).

⁷² See California Dashboard, LAUSD, English Learner Enrollment (2018), <https://www.caschooldashboard.org/reports/19647330000000/2018>.

⁷³ Compare Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 49 (baseline 2017-18 graduation rate for English Learners is 56.6 percent; expected graduation rate for 2017-18 is 58 percent for English Learners), with p. 5 (actual 2017-18 graduation rate 51.2 percent for English Learners).

⁷⁴ The graduation rate for ELs in California in 2018 was 70.9 percent, more than 10 percentage points higher than the rate for ELs in LAUSD. See California Dashboard, State of California, Graduation Rate (2018), <https://www.caschooldashboard.org/reports/ca/2018/academic-engagement#graduation-rate>. Similarly, 14.5 percent of ELs statewide were prepared for college in 2018, compared to 10 percent of ELs in LAUSD. See California Dashboard, State of California, College/Career (2018), <https://www.caschooldashboard.org/reports/ca/2018/academic-performance#college-career>.

In sum, LCFF requires districts to identify the *specific actions* that it plans to undertake to achieve state and local priorities, demonstrate how school- and district-wide S&C *specific actions* increase and improve services for high need students, and report on the actual *specific actions* implemented and whether they were effective in meeting the district's goals. LAUSD repeatedly bundles multiple discrete actions totaling nearly a billion dollars in supplemental and concentration funding into single mega-actions, rendering it impossible to determine what the District is doing, whether it is using its supplemental and concentration funds in accordance with the law, and whether its investments are effective.

III. LAUSD Also Repeatedly Violates LCFF's Transparency and Accountability Requirements When Allocating Unspecified Amounts to Unspecified School sites for Unspecified Actions.

LAUSD's transparency issues have spilled over to its school site allocations. In its 2019-20 LCAP, LAUSD aims to allocate over \$460 million across at least seven different actions in supplemental and concentration funds to individual school sites.⁷⁵ In its 2018-19 LCAP it allocated at least as much to school sites across at least ten different actions.⁷⁶ The practice of driving supplemental and concentration dollars and increased and improved services for unduplicated pupils down to school sites with the most acute and concentrated needs is one Complainants applaud. Indeed, the practice is aligned with LCFF's theory of change that those closest to local problems can have the most insight into their resolution. Unfortunately, all of LAUSD's school site allocations are for unspecified amounts of S&C funds to unidentified schools for unspecified actions of unestablished legality.
