LAUSD's blind approach to school site allocations runs afoul of LCFF's transparency and accountability requirements for all the same reasons its bundling practice does, plus one more: (1) the LCAPs do not identify what specific actions are being undertaken and with what amount of LCFF budgeted expenditures; which further means that (2) the schoolwide uses of S&C funds are not justified as both principally directed and effective in serving high need pupil goals; and (3) the Annual Updates cannot and do not undertake any analysis of whether the expected school-level actions were implemented, materially changed, and effective.⁷⁷ What is more, as the LCAP Template Instructions dictate, (4) when actions are targeted at specific schools, each specific school should be identified in the Goals, Actions and Services section.⁷⁸

⁷⁵ See Ex. 12, (Table 5).

⁷⁶ See Ex. 11, (Table 4).

⁷⁷ See generally Section II.A., above discussing requirements around transparency for specific actions.

⁷⁸ Ex. 17, LCAP Template instructions (Feb. 1, 2019), <https://www.cde.ca.gov/re/lc/templateinstructions.asp> ("If the services are provided to specific schools

That LCFF’s basic transparency requirements require school-level identification of specific actions and school-level justifications of S&C uses was affirmed recently by the CDE in the Klamath II decision. There the district did more than merely delegate an allocation of funds to one or more school sites as LAUSD does. It specifically allocated S&C funds to fulfill a site-level Single Plan for Student Achievement (SPSA) in a Title I school. Even so, CDE concluded that it is not enough for an LEA to generally reference a SPSA plan to justify an allocation of S&C funds; the LEA must specify and justify each action or service. The CDE ruled that the school district must, “identify the actual actions/services implemented to meet the described goal” and that “the description provided does not identify any specific actions or services. Rather, it identifies a school plan without identifying the actions or strategies being referred to as included in that plan.” Thus, the CDE concluded that the district failed to adhere to the LCAP template requirements.⁷⁹

Nowhere in LAUSD’s LCAP is it clear which specific schools these hundreds of millions of dollars of S&C money are going to each year or what actions, upon arrival, the schools will spend the money on or if the school-level uses will be used to increase or improve services for high need students. For example, in LAUSD’s 2019-20 LCAP:

- Goal 1, Action 8—the A-G Diploma Program—has a budgeted expenditure of more than \$2 million⁸⁰ going to “20 middle schools...with a duplicated percentage...exceeding 75% TSP students.”⁸¹ However, neither here nor anywhere else in the LCAP does LAUSD list which middle schools will be receiving this money or how much money they will be receiving individually—whether that be equal amounts or differing amounts depending on the percentage.

within the LEA, the LEA must mark ““Specific Schools”” Identify the individual school or a subset of schools, as appropriate.”)

⁷⁹ See Ex. 20, California Department of Education, Klamath-Trinity JUSD II decision (hereinafter, Klamath II decision), p. 16; see also Ex. 18 California Department of Education, Fresno USD decision (hereinafter, Fresno decision), p. 8 (“ . . the description states that the sites were to direct [SPSA] plans focused on the needs of low income, English learner and foster youth student populations, *as well as other subgroups*, it is not possible to definitely conclude that the action is ‘principally directed towards’ unduplicated pupils. In addition, the description lacks sufficient information describing how the action are ‘effective in’ meeting goals for unduplicated students, as required for districtwide actions.”)

⁸⁰ Ex. 4, LAUSD 2018-19 LCAP at p. 123-24 (Goals, Actions, and Services).

⁸¹ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 61-62 (Goals, Actions, and Services).

- Goal 2, Action 12, the Arts Program, funds schools based on the “Arts Equity Index,” only explained as an identification tool that takes into account unduplicated pupils.⁸² The Arts Program is only described as “arts programming” and “arts curriculum” but describes no actual specific actions that will be taken to bring “parity to school sites...that have historically not have access” to the arts.⁸³ This lack of transparency makes it impossible to tell what the funds would be spent on at individual schools.
- Goal 1, Action 8 in LAUSD’s 2019-20 exemplifies, as well, the lack of annual reflection on actions taken at the school site level. While the Goals, Actions, and Services section of the LCAP says that the action has not changed from 2017-18 and will not change for the 2019-20 year, the Annual Update makes it clear that the action has changed significantly—including in terms of budget, schools targeted, and steps taken.⁸⁴

LAUSD has not identified, much less justified, any of its specific school site allocations as principally directed or effective in the DIISUP sections of its LCAPs. At most, in the 2018-19 LCAP, it has pointed to its school sites’ SPSAs and their Targeted Student Population (TSP) plans⁸⁵ and only for its School Autonomy mega-action (though even this language disappeared in the 2019-20 LCAP).⁸⁶ As noted, CDE has determined that such blind references to vague school site plans with multiple different actions do not satisfy LCFF’s call for identification and justification of specific actions. Moreover, an actual review of LAUSD SPSAs and TSP plans only further confirms the propriety of that conclusion as neither of the District’s plans satisfy LCFF’s requirements, particularly as concerns establishing that each specific schoolwide use of S&C funds is principally directed and effective.⁸⁷

⁸²Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 84 (Goals, Actions and Services).

⁸³ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 84(Goals, Actions and Services).

⁸⁴ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 61-62.

⁸⁵ Ex. 4, LAUSD 2018-19 LCAP at p. 122.

⁸⁶ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 57-58 (compare GAS description for 2018-19 with that for 2019-20).

⁸⁷ The SPSA plans in LAUSD suffer from the same infirmity noted by the CDE in Klamath and Fresno. Many of the actions are generally serving all pupils at the school and are not principally directed to address high need students needs and circumstances. *See, e.g.,* Ex. 14 at p. 17-20, 36-37. As to the TSP Plans, there is no space to explain how schoolwide expenditures are either principally directed or effective in improving outcomes for high need students. *Id.* at TSP Plan, *e.g. at* p. 47. (The TSP plan template also lacks any kind of reflection or Annual Update section, so there is no space to reflect on the effectiveness of services and plan for continuous improvement. *Id.*) Moreover, some schools do not even fill out a TSP plan. *See, e.g.,* Ex. 15 (SPSA for South Gate Middle School is missing Section 18, the TSP plan).

The level of transparency and accountability required by LCFF, including as to school-level allocations, should be welcomed by LAUSD as a key means to improve community engagement and outcomes in its schools. The work of providing the necessary additional clarity should not continue to be ignored and avoided, especially given the hundreds of millions of additional dollars generated for the District by high need students here and the additional flexibility given to LAUSD under LCFF. Of course, meeting these school-level transparency and justification requirements will require that SPSA and TSP planning align with LAUSD's LCAP development. In other words, the District will need to have completed its site-level planning for the upcoming year, including with respect to the planned use of any delegated S&C funds, early enough so as to be able to include both the identification of actions/services and their justification as principally directed and effective in the drafts and the final adopted LCAP itself or addenda. Large districts around the state like Elk Grove and Sacramento City are adopting innovative new approaches to ensure their school-level planning flows into their LCAP development.⁸⁸ There is no reason LAUSD, with its vastly greater resources, could not do the same.

IV. LAUSD's Annual Updates Violate LCFF's Requirement that Material Changes in Actions Implemented and/or in the Budgeted Amounts for Specific Actions be Reflected and Explained.

As noted above, the LCFF statute requires that districts, in their Annual Update, report any material changes to the specific actions and the related expenditures.⁸⁹ LAUSD's LCAPs uniformly fail to do so. First, as an outgrowth of the District's unlawful bundling practice, LAUSD is not, by and large, identifying specific enough actions and therefore, even when it notes something materially changed, the public cannot actually see what alterations took place or how spending went up or down from what was anticipated at the specific action level. As to material budget changes, LAUSD has a standard boilerplate response which it relies on to completely obscure how spending on specific actions materially changed. Rather than identifying what specific action's spending changed and then answering the prompt to "[e]xplain material differences between Budgeted Expenditures and Estimated Actual Expenditures," LAUSD frequently responds with the exact same non-specific verbiage:

"Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing

⁸⁸ See, e.g., Improving LCFF Implementation Through User-Centered Design: Year 1 of the LCFF Test Kitchen, CCEE/CCDR/Pivot/WestEd, A Site-Based LCAP: Elk Grove USD at 6-9, *available at* <https://lcfftestkitchen.org/project-updates/LCFF-Test-Kitchen-Prototypes.pdf>.

⁸⁹ See note 28, above.

availability for particular programs and delayed implementation of particular programs at the school-wide level.”⁹⁰

In this way, LAUSD avoids identifying which specific actions (or even which specific “particular programs”) experienced material changes in implementation and budgeting. As part of correcting LAUSD’s LCAP practices, the CDE should direct LAUSD to identify in its LCAP’s reflection section which specific actions have materially changed and to explain the material differences in specific actions’ budgeted expenditures.

FAILURE TO DEMONSTRATE INCREASED AND IMPROVED SERVICES

V. LAUSD’s LCAPs Fail to Demonstrate the District is Meeting Its Overall Obligation to Increase or Improve Services for High Need Students Each Year by 32% Above the Level of Service Provided to All Pupils.

LAUSD’S Minimum Proportionality Percentage (MPP) is 32.35% for 2019-20 and 32.60% for 2018-19 based on receipt of supplemental and concentration grants of \$1.14 and \$1.16 billion for the last two years, respectively.⁹¹ The MPP is the percentage by which the District must demonstrate it is increasing or improving services above what is provided to all students.⁹² Although demonstrating how an LEA is meeting its proportionality obligation toward high need students is one of the principal purposes of the LCAP, LAUSD utterly fails in this regard. The District’s LCAP offers no quantitative or qualitative analysis to demonstrate it is doing 32% more for high need students. For each of the last three LCAP years, the mandatory prompt in the DIISUP section calling for the overall demonstration of how the MPP has been met, either quantitatively or qualitatively, has been ignored.⁹³ LACOE has approved this practice twice and, without CDE intervention, is headed toward a third such approval for the 2019-20 school year.

A. The 2019-20 DIISUP Fails to Demonstrate That the MPP Has Been Met.

As noted, the prompt calling for the District’s analysis of how it has met its MPP is effectively ignored in the 2019-20 DIISUP. Nor does the response to the prompt immediately thereafter—which calls for an identification and justification of each entity-wide action being funded and provided with S&C funds—offer the analysis. Nowhere in the brief descriptions of the individual actions and mega-actions or the overall summary of the District’s program is there

⁹⁰ E.g., Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 21, 36, 39, and 42 as to Goals 1, 2, 3 and 4.

⁹¹ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 102; LAUSD 2018-19 LCAP at p. 223.

⁹² Cal. Educ. Code § 42238.07(a)(1); 5 Cal. Code Reg. §15496(a)(8).

⁹³ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 102, 104, 107.

a quantitative or qualitative analysis even asserting that high need students are receiving 32% more in services than all pupils, *i.e.*, that MPP has been met.⁹⁴

Without any analysis, the District proffers a quantitative statement in a single sentence in the box following the two prompts: “For 2019-20, LA Unified will budget \$1.18 billion in supplemental and concentration funds for continued support and increased services for low income, English learners and foster youth.”⁹⁵ First of all, the obligation is not simply “to budget,” *i.e.*, to propose to increase or improve services, but to actually increase or improve. Accordingly, the quantitative commitment from the District must be “to spend” not simply to budget. More telling is the District’s failure there as well to “[d]escribe how services provided for unduplicated pupils are increased or improved by at least the percentage identified...as compared to the services provided for all students in the LCAP year.”⁹⁶ There is no discussion of how LAUSD is getting to \$1.18 billion of increased and improved services nor how that compares to the services provided to all students. The one document that comes the closest to providing such an analysis is not in the LCAP, but a budget document presented to the Board at the time of the adoption of the June 18 2019-20 LCAP and budget.⁹⁷ Tellingly, this document, which claims to summarize the District’s investment in unduplicated pupils, demonstrates that LAUSD is only dedicating \$803 million toward high need students, some \$340 million short of its quantitative proportionality obligation.⁹⁸

The District’s follow-up discussion to its unsupported conclusory assertion regarding its \$1.18 billion of budgeted expenditures, if anything, demonstrates here *in the DIISUP section* that its program is *not* proportionally increasing or improving services for high need students. Only one bulleted item of twelve (the fourth) singles out high need students; the remainder describe the District’s general program serving all pupils:

“To ensure that *all students* are prepared for success in college, career and life, LA Unified has focused on offering a cohesive delivery of services that is aligned with multitiered systems of support (MTSS). Schools have received professional development on implementation of MTSS, and the Central Office and Local Districts have been supporting the identification of diagnostics and the development of interventions. *By placing students* at the center of the work ahead, District initiatives will focus on empowering principals, supporting teachers and engaging families and communities in the coming year by:

⁹⁴ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 102-103.

⁹⁵ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 102.

⁹⁶ See Ex. 5, Board-Approved LAUSD 2019-20 LCAP, DIISUP prompt at p. 102.

⁹⁷ Ex. 7, LAUSD Superintendent’s Final Budget, 2019-20 – Attachment I.

⁹⁸ *Id.*

- Reducing class size
- Adding counselors, nurses, librarians and support staff to work with teachers
- Developing personalized pathways *for all students*
- Improving services *for students* with disabilities
- Increasing funding targeted toward high needs students
- Aligning Local District supports to communities of schools
- Reducing operational demands on principals so they can focus on instruction
- Building the capacity of school leaders
- Increasing budget flexibilities
- Providing more complete information to families and organizations *about each school*
- Developing opportunities for direct family engagement in Local Districts
- Delivering more wraparound services through the “All In for Public Education” campaign”⁹⁹

B. The 2018-19 DIISUP Fails to Demonstrate That the MPP Has Been Met.

The same failure to demonstrate that the District has met its Minimum Proportionality Percentage toward high need students is found in the 2018-19 DIISUP section. The District again fails to separately address the prompt asking for the demonstration of how it has met its MPP.¹⁰⁰ It nowhere offers the analysis that is called for by that prompt to “[d]escribe how services provided for unduplicated pupils are increased or improved by at least the percentage identified . . . as compared to the services provided for all students in the LCAP year.”¹⁰¹ In the box immediately following the subsequent prompt LAUSD only proffers an assertion that it has budgeted \$1.16 billion in supplemental and concentration funds, but again fails to offer any quantitative or qualitative analysis of how it is achieving its MPP.¹⁰² The grandiloquent assertions that follow concerning LAUSD’s purportedly “cohesive delivery of services to all unduplicated pupils” nowhere provide the mandatory analysis. As will be discussed further in the next section, neither does the District’s failed attempts to demonstrate individual specific actions increase or improve services for high need students satisfy LCFF’s legal obligations, individually or as a whole.

⁹⁹ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 103 (emphasis added).

¹⁰⁰ Ex. 4, LAUSD 2018-19 LCAP at p. 223.

¹⁰¹ *Id.*

¹⁰² Ex. 4, LAUSD 2019-20 LCAP at p. 223.

VI. LAUSD Consistently Fails to Demonstrate Its Specific Uses of \$1.1 Billion in Annual Supplemental and Concentration Funds Increase or Improve Services for High Need Students, in Further Contravention of LCFF’s Equity Mandate.

A foundational principle of LCFF is the recognition that providing the same level and type of services for students who face greater systemic barriers to achieving their potential—English Learners, Foster Youth, and Low-Income students—will lead to inequitable results. To achieve equitable outcomes for all students in California, LCFF allocates more money to districts who serve students with greater needs (supplemental funds) and an additional sum for those that have large concentrations of high need students (concentration funds). Districts have wide latitude in using these funds if they are used to improve and increase services for high need students. In districts like LAUSD, where 55% or more of students generate supplemental and/or concentration funds, these equity dollars can be used to *upgrade* a district or, where over 40% concentrated, a school site’s entire educational program as long as the LCAP describes how these system-wide actions are “principally directed towards, and are effective in, meeting the district’s goals for its unduplicated pupils in the state and any local priority areas.” 5 CCR 15496(b)(1)(B).

In other words, for *each* different districtwide or schoolwide action, the district must explain how that action will be both “**principally directed towards**” and “**effective in**” meeting the district’s goals for high-need students.¹⁰³ As the California Department of Education has stated: “When properly explained in the LCAP, it will be apparent how the [district] is acting to increase or improve services for unduplicated pupils, and why it has determined the services identified will be effective to achieve its goals for [high-need] pupils.”¹⁰⁴ Nearly all of LAUSD’s supplemental and concentration funds each year are used on districtwide and schoolwide actions. As will be demonstrated below, LAUSD fails to properly justify any of its \$1.1 billion allocation of supplemental and concentration funds to serve high needs students in the 2019-20 LCAP and most of its allocation from the 2018-19 LCAP.

¹⁰³ 5 Cal. Code Regs. § 15496(b). *See also* Ex. 17, LCAP Template Instructions, Demonstration of Increased or Improved Services for Unduplicated Pupils (“If the overall increased or improved services include any actions/services being funded and provided on a schoolwide or districtwide basis, identify each action/service and . . . [f]or school districts with an unduplicated pupil percentage of 55% or more . . . : Describe how these services are **principally directed to** and **effective in** meeting its goals for unduplicated pupils in the state and any local priorities.”)

¹⁰⁴ *See* Ex. 18, Fresno Decision at p. 6.

A. LAUSD Fails to Justify Any of the Entity-wide Actions in its 2019-20 LCAP as Principally Directed Towards, and Effective, in Meeting Its Goals for High Need Students.

LAUSD is the largest school district in California and serves nearly 700,000 students, approximately 85 percent of whom are either eligible for a free or reduced lunch, classified as an English learner, or in the foster youth system.¹⁰⁵ For 2019-20, LAUSD will receive approximately \$1.14 billion in supplemental and concentration grants to increase and improve services for high need students by 32.35% over and above the services provided to all pupils.¹⁰⁶ Incredibly, the District fails to justify its use of a single dollar of these funds in its 2019-20 LCAP. In just barely over a page of text, the entire 2019-20 DIISUP section admittedly sets forth only “[b]rief descriptions” of 19 bulleted items that the District identifies as its services for unduplicated pupils.¹⁰⁷ None of these bullets come close to satisfying the requirements that they demonstrate how the items are “principally directed” and “effective” in meeting district goals for high need students. The bullets simply describe what the action (or mega-action) is but consistently fail to make the type of showing that the CDE has indicated is needed to establish an action is principally directed: *i.e.*, by identifying the needs, conditions or circumstances the action is responding to or how it is responsive to those factors in design, content, methods or location.¹⁰⁸ Nor is there a single instance in the 2019-20 DIISUP where a showing of effectiveness is even attempted much less established. Thus, none of the 19 bulleted items offer “an explanation of how [the district] believes the action/service will help achieve one or more of the expected outcomes for the goal”¹⁰⁹ referred to.

A closer examination is warranted for Action 1, Goal 5, “School Autonomy.” As discussed above, LAUSD concentrates more than 77 percent of all of its supplemental and concentration funds into this one item, and this single “mega-action” improperly obscures at least 22 distinct actions and services.¹¹⁰ Yet, in its 2019-20 DIISUP, LAUSD attempts to justify its “School Autonomy” action and more than \$880 million in funding for high need students in three scant lines:

The Student Equity Needs Index distributes funding based on a formula that includes indicators of student and community need. Schools have autonomy to

¹⁰⁵ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 1.

¹⁰⁶ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 102.

¹⁰⁷ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 103.

¹⁰⁸ See Ex. 19, California Department of Education, Klamath-Trinity JUSD I Decision (hereinafter, Klamath I Decision) at p. 7-8; *see also* Ex. 18, Fresno Decision at 6.

¹⁰⁹ Ex. 19, Klamath I Decision at 8.

¹¹⁰ See Ex. 9 (Table 2: Bundled Services in the 2019-20 LCAP).

develop a plan to utilize these funds to support district goals. Examples of expenditures for schools include nurses, counselors, class size reduction teachers, and additional professional development.¹¹¹

This description does not satisfy the legal requirement to: (1) identify each of the services that are being funded and provided on a districtwide or schoolwide basis; (2) describe how these services are principally directed towards meeting the district's goals for high need students; and (3) explain how these services are effective in increasing graduation rates and college/career readiness or any other Goal 1 expected outcome for high need students. Indeed, the DIISUP only references SENI, which accounts for approximately \$290 million of the \$880 million that is categorized as School Autonomy.¹¹² Because the DIISUP fails to even identify how nearly \$600 million in School Autonomy funding is used, it is even further legally insufficient. Although we applaud LAUSD for proposing to allocate more resources to its highest need schools, it is still required to demonstrate how those schools are using these funds to improve graduation outcomes for its high need students. And where the District is not in fact allocating funds to schools but engaging in central-office-directed actions, it is incumbent on the District to identify and justify each such specific action it is taking with S&C funds.¹¹³

Beyond the School Autonomy action, LAUSD consistently fails to explain how its districtwide investment of supplemental and concentration funds considers the particular needs of targeted students, and instead relies on the incorrect assumption that these funds are justified if high need students benefit. High need students should benefit from all investments by the district, but supplemental and concentration funds are designed to *increase and improve* services for these students above the services all students receive. Therefore, for example, the District-wide Student Engagement Plan (Goal 3, Action 4) may benefit high-need students, but is not targeted in any way to the unique needs, conditions, or circumstances of these students.¹¹⁴

LAUSD's 2019-20 LCAP utterly fails to provide a legally sufficient justification for its use of supplemental and concentration funds and must be amended to provide the transparency and accountability for increased and improved services required by LCFF. If the District cannot

¹¹¹ Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 103. Although the illegally revised 2019-20 LCAP (provides marginally more detail—i.e. describing the Assistant Principal, Counselor, School Librarian, and Nurses sub-actions in slight detail (all of which together concern but a minor portion of the \$880 million in budgeted expenditures)—the June 28th DIISUP still fails to come close to meeting the legal standards for justifying the School Autonomy item. *See* Ex. 6, Unilaterally Revised LAUSD 2019-20 LCAP 2019-20 at p. 212-13.

¹¹² Ex. 7, LAUSD Superintendent's Final Budget, 2019-20 – Attachment I.

¹¹³ *See* Section II.C (discussing how numerous 1.5 actions are not in fact school autonomy actions); Ex. 4, LAUSD LCAP 2018-19 at p. 22-23 (2017-18 Annual Update for 1.5).

¹¹⁴ *See* Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 103.

establish proper justifications for each action, then it will have to identify and justify new and different actions in its revised LCAP.

B. Most of the Actions Funded by Supplemental and Concentration Funds in LAUSD's 2018-19 LCAP are Districtwide Actions That Are Not Principally Directed Towards, and Effective, in Meeting Its Goals for High Need Students.

LAUSD's 2018-19 LCAP provides more robust explanations for its use of supplemental and concentration funds than the 2019-20 version, but most expenditures are still not legally justified as set forth in Table 3, an item-by-item analysis of the 2018-19 DIISUP.¹¹⁵ For example, Goal 1, Action 5 (School Autonomy), which includes 19 distinct actions and \$775 million in supplemental and concentration expenditures, is explained in more detail than a few lines.¹¹⁶ However, 7 out of 19 distinct actions are not discussed at all in the DIISUP. The 12 actions that are discussed in the DIISUP section are not justified for the following reasons:

- **No attempt is made at demonstrating effectiveness beyond the occasional conclusory assertion:** For most actions, the district does not even attempt to establish effectiveness (i.e. School Libraries/Librarians).¹¹⁷ On occasion, the district makes a nod to its obligation to demonstrate effectiveness by making a conclusory statement, such as “[t]he supplemental resources identified for this program [arts and physical education] will improve college and career readiness for student in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District’s LCAP.”¹¹⁸ CDE has determined that these type of “[c]onclusory statements that an action/service will help achieve an expected outcome for the goal, without further explanation as to how, are not sufficient.”¹¹⁹
- **Principal directedness is improperly attempted based on concentration of high need students rather than the required contextual analysis of the need, conditions, and circumstances for each action:** The only rationale that LAUSD provides for any of its actions under School Autonomy is that sites with high concentrations of unduplicated pupils will receive additional supports. CDE has roundly rejected similar attempts to justify an action as increasing or improving services solely based on a high concentration of high need students.¹²⁰ CDE has

¹¹⁵ See Ex. 10, (Table 3: Analysis of DIISUP Violations in LAUSD 2018-19 LCAP).

¹¹⁶ See Ex. 4, LAUSD 2018-19 LCAP at p. 224-25.

¹¹⁷ See Ex. 4, LAUSD 2018-19 LCAP at p. 224-25.

¹¹⁸ *Id.* at 225.

¹¹⁹ Ex. 19, Klamath I Decision at p. 8.

¹²⁰ See Ex. 18, Fresno Decision at p. 7 (“CDE also notes that the District references its 88% unduplicated pupil enrollment as a reason it provides actions on a districtwide or schoolwide basis. However, while a

made clear that districts can only demonstrate that the proposed use of funds is “principally directed” to high need pupils by “explain[ing] in its LCAP how it considered factors such as *the needs, conditions, or circumstances* of its unduplicated students, and how the service takes these factors into consideration (such as, for example, by the service’s design, content, methods, or location.)”¹²¹ The only specific action that comes even close to meeting this obligation is the redesigned arts program, which is offered at schools that have a low offering of arts curriculum and courses. However, this action still fails because no attempt at demonstrating effectiveness is attempted.

- **Failure to demonstrate the included expenditures are directed toward increasing and improving services for high need pupils above the base program provided to all pupils:** The School Autonomy action includes many specific actions that serve all students, such as Assistant Principals and Counselors, nurses and librarians. Although the district may be providing professional development and directives related to improving services for English Learners, Foster Youth, and low-income students,¹²² those sorts of tweaks around the edges do not justify using S&C funds to cover the entire salary of all APs in the district who have many functions and generally serve all students.

These deficiencies are not limited to the School Autonomy action. A thorough analysis of each attempted justification in the 2018-19 DIISUP reveals that nearly every item fails either to satisfy principally-directedness or effectiveness and typically both.¹²³ In fact, only 6 actions in the entire 2018-19 DIISUP appear to be justified as increased or improved services for high need students:

- School Innovation Fund Program (Goal 1, Action 10) - \$56,450,985¹²⁴
- Foster Youth Achievement Program (Goal 2, Action 1) - \$15,258,268¹²⁵

high unduplicated pupil percentage may be a reason to offer a majority of services directed toward increasing or improving services for unduplicated pupils on a ‘wide’ basis, by itself it does not provide a sufficient explanation of how such services are principally directed towards unduplicated students.”); *see also* Ex. 19, Klamath I Decision at p. 8 (“Simply stating that an LEA has a high percentage of unduplicated student enrollment does not meet this standard.”)

- Build Capacity and Support for Parents (Goal #4, Action #1) - \$4,259,227
- Expand Site Assigned Maintenance Program (Goal 6, Action 4) - \$33,187,863
- Expanded Transitional Kindergarten (one of two actions bundled in Goal #2, Action #6) - \$45,275,775.50¹²⁶
- Bilingual differential (one of 21 bundled actions in Goal #2, Action #9) – unable to calculate an estimate

Because many of these actions are bundled with other actions, it is impossible to ascertain the precise amount of expenditures that fall into these buckets for purposes of ascertaining a proportionality percentage. However, it appears at most that roughly only \$154,432,118 against the District’s target of \$ 1,137,221,279—or 13.6 percent—in supplemental and concentration funds may have been properly justified. Thus, in the last school year, LAUSD did not provide the required transparency and accountability for nearly \$1 billion that was required to be used to increase and improve services for high need students. High need students have tangible needs—more mental health services, expanded access to libraries, literacy and math coaches—but LAUSD’s opaque LCAP, with its unjustified use of supplemental and concentration funds, does not allow community stakeholders to determine whether the students that need these services the most are actually getting them.

The District must be required to greatly improve its demonstration that it is meeting its obligation to proportionally increase or improve services for high need students in its 2019-20 LCAP and in all LCAPs going forward. And where it cannot make an honest showing of proportionality, LAUSD must adopt new and different actions in service of its high need students.

VII. LAUSD’s LCAPs Conceal \$340 Million of Claimed Effort Toward Increased/Improved Services For High Need Pupils That Has Never Been Identified and Vetted Publicly, Much Less Justified As Principally Directed and Effective.

LAUSD has impermissibly inflated the effort it expends toward its proportionality obligation by slipping into past LCAPs and rolling forward some \$340 million of undisclosed S&C expenditures. This practice began in 2017 when the District unilaterally reclassified a host of expenditures underlying its LCAP as supporting high need students which previously had been deemed base program services for all students. The District’s “realignment” was its response to having been prohibited from misallocating some \$450 million of S&C funds annually on special education services by the California Department of Education and the

¹²⁶ See Ex. 5, Board-Approved LAUSD 2019-20 LCAP at p. 28 (Estimated Actual Expenditures for Goal 2, Action 6). LAUSD does not attempt to justify the other half of Goal 2, Action 6 (concerning an expansion of 8 California part-day preschool programs to full day). To arrive at an estimate for present purposes, we have allocated half of the expenditures for Goal 2, Action 6 toward the justified portion of that item concerning the Expanded Transitional Kindergarten program.

settlement of the *CoCo v. LAUSD* lawsuit brought by Public Advocates, Covington and the ACLU. The District has rolled its realignment reclassifications forward every year without ever disclosing to the public what actual services those funds support or demonstrating their use as principally directed and effective toward high need student goals as state law requires. Thus, nearly a quarter of LAUSD's annual \$1.1 billion proportionality obligation is being met through a set of phantom expenditures that have never been justified or evaluated for effectiveness. It seems more than mere coincidence that the difference between LAUSD's most comprehensive list of increased/improved services for high need students—Attachment I to its 2019-20 budget adoption—totals only \$803 million, precisely \$340 million short of its \$1.14 billion in supplemental and concentration funds received for 2019-20.¹²⁷

This grave misstep was effectuated in LAUSD's 2017-18 LCAP's Annual Update section for 2016-17 where the District more than doubled its allocated expenditures in the School Autonomy black hole bundle (going from a budgeted total of \$255 million¹²⁸ in S&C funds to an estimated actual of \$595 million). The problem with LAUSD's failure to identify specific actions in general and in the School Autonomy action in particular become particularly acute here. It is clear that LAUSD's increased expenditures are not covering previously disclosed School Autonomy actions that somehow doubled in cost, but actually are reflecting unidentified but *newly-designated* "School Autonomy" specific actions with undisclosed but *newly-assigned* S&C expenditures (albeit the actual actions themselves appear not to be "new", but simply old actions previously supported with base funds).¹²⁹ The District's explanation in its 2016-17 Annual Update remains only at the highest, summary levels. In explaining the \$340 million material difference between budgeted and estimated actuals, the LCAP only states: "In Action 5, school autonomy reflect[sic] an augmentation due to a process by which the District re-identified resources for supplemental and concentration purposes."¹³⁰

Under a description of any changes to the planned actions and services, the 2016-17 Annual Update states:

"It is important to note there are several points in the LCAP where the District in 2016-17 re-evaluated base and supplemental programs to better address the needs of low-income, English learner and/or foster youth students. This process has been described as the "Realignment Process", which required staff to assess whether

¹²⁷ Compare Ex. 7 (Attachment I) to Ex. 5, Board-Approved LAUSD LCAP at p. 102 ("Estimated Supplemental and Concentration Grant Funds: \$1,137,221,279").

¹²⁸ Of the District's proposed \$500.8 million S&C budget for the School Autonomy item, \$245.8 million was "Undetermined;" thus, only \$255 million were actual allocated expenditures. Ex. 2, LAUSD 2017-18 LCAP (excerpts) at p. 20.

¹²⁹ Ex. 2, LAUSD 2017-18 LCAP (excerpts) at pp. 18-20, 25-26.

¹³⁰ Ex. 2, LAUSD 2017-18 LCAP (excerpts) at p. 25.

existing programs or services were directly benefiting low-income, English learner and/or Foster youth students and whether existing programs could be redesigned to directly benefit our low-income, English learner and/or Foster youth students. As a result of this process under Goal #1 several base funded resources were re-identified or redesigned to adhere to the supplemental and concentration expenditure requirements. Specifically, assistant principals, counselors and librarians were identified as base funded programs that would be modified to better serve and directly benefit low-income, English learner and foster youth students and are considered positions under Goal 1, Action 5, as school retain the discretion to hire and retain these personnel.”¹³¹

As such, the description identifies a “Realignment Process” by which programs and services were either: (1) “re-identified” or (2) “redesigned” so that they could be reclassified from base expenditures to S&C. “Re-identification,” the District explains, means that existing programs or services were determined, *upon internal unilateral reflection*, to actually more properly be considered to be principally directed and effective toward high need pupil goals, and “redesign” means that the District identified programs or services it could modify moving forward in ways to ensure the services would be principally directed and effective in serving high need students.

There are at least three fatal flaws with LAUSD’s \$340 million maneuver here. First, the 2016-17 Annual Update description *does not meet LCFF’s transparency requirements* concerning identification of material changes to specific actions and services and their budgeted expenditures. Indeed, by and large, the Annual Update does not identify *any* of the new School Autonomy specific actions or services. None are identified in the review of actual versus planned actions/services.¹³² In the Analysis portion, the only specific positions called out are assistant principals, counselors and librarians. What specific actions or services these positions might have delivered is not identified. More concerning, the Analysis itself acknowledges that these particular positions and any actions or services they might offer to contribute towards LAUSD’s proportionality obligation could occur only *in the future* as the positions “would” need to “be modified” to accomplish that objective.¹³³ Accordingly, there is no basis for the District to have retroactively re-aligned 2016-17 expenditures toward its S&C obligation when any possible basis for it to do so could not be effectuated any earlier than the 2017-18 year.¹³⁴

¹³¹ Ex. 2, LAUSD 2017-18 LCAP (excerpts) at p. 25-26.

¹³² Ex. 2, LAUSD 2017-18 LCAP (excerpts) at p. 19.

¹³³ Ex. 2, LAUSD 2017-18 LCAP (excerpts) at p. 26.

¹³⁴ The District has continued to identify these 3 positions as sub-items under the School Autonomy bundle up to the present 2019-20 LCAP. For the reasons discussed above, however, it has never properly identified them and their services as separate specific actions with associated expenditures nor properly

The second and third fatal flaws with the District's \$340 million Realignment follow from its first. Because LAUSD has never identified the specific actions underlying its Realignment, it has also *never subjected those actions to the community engagement and public vetting and approval* processes that LCFF requires—from presentation to the community, the Parent Advisory Committee and the DELAC to two board meetings and local board approval.¹³⁵ In addition, *LAUSD has never justified each of the specific actions at issue are principally directed and effective* in serving high need pupils. Likewise, the specific actions have never been reviewed and approved by the county office of education to verify they satisfy LCFF requirements including by being principally directed and effective.¹³⁶

LAUSD's unilateral, internal shift of \$340 million in expenditures from its base program to satisfaction of its proportionality obligation was accomplished contrary to LCFF's transparency, engagement and equity requirements. The District has simply rolled this \$340 million credit forward each year toward meeting its proportionality obligation. Among the immediate remedies that CDE should direct of the District is the full public disclosure, justification and vetting of the specific actions and services underlying these S&C expenditures so that they can be subjected to LCFF's legal and public accountability standards.¹³⁷

IRREPARABLE HARM

VIII. The CDE Must Intervene to Protect Complainants from Immediate and Irreparable Harm.

justified them in its DIISUPs. Moreover, even accepting the very questionable proposition that 100% of all the salaries for these three positions could be reclassified as principally directed and effective in serving high need students over and above what all students receive, the sum total of the positions' budgeted expenditures would be below \$100 million per year. The District has simply failed ever to fully disclose in its LCAP the specific actions underlying the new \$340 million of S&C expenditures that surfaced for the first time in the 2016-17 Annual Update.

¹³⁵ Cal. Educ. Code § 52060.

¹³⁶ Cal. Educ. Code §52070(d).

¹³⁷ The state of affairs with respect to LAUSD's "Realignment Process" is even worse than discussed above. The actual 2017-18 LCAP adopted by the School Board and approved by LACOE had none of the albeit meager explanation discussed above and in Exhibit 2. That June 2017 LCAP, *see* Ex. 16, remained posted on the District's website as late as October 30, 2018. Its actual services for School Autonomy reported in the 2016-17 LCAP reflect *no* realignment process. It did reflect the same new \$340 million of S&C School Autonomy expenditures but no different actions or services than originally anticipated. Also, the Analysis section changes no outcomes in exchange for the increase of a \$340 million S&C investment and makes no mention of Realignment. Ex. 16, Excerpts of Originally Adopted and Approved LAUSD 2017-18 LCAP at 15, 18-19. The currently posted version of LAUSD's 2017-18 LCAP, Ex. 2, appears to have been posted well after the 2017-18 school year and unilaterally modified by staff, not the LAUSD board. *See* note 4 to Index of Exhibits.

Direct state intervention regarding unlawful LCFF/LCAP implementation is appropriate when “complainant alleges and the CDE verifies that he or she would suffer immediate and irreparable harm as a result of an application of a district-wide policy that is in conflict with state or federal law covered by this Chapter, and that filing a complaint with the LEA would be futile.”¹³⁸ The District’s use of supplemental and concentration funds in a manner contrary to the fundamental transparency, equity and accountability requirements of LCFF will soon be causing immediate and irreparable injury by depriving high need students of educational services as well as by depriving them, and other interested community members, of the opportunity to provide input regarding the desired use of these funds. Complainants raised LAUSD’s LCAP violations for the 2017-18 and 2018-19 school years with LACOE on August 13, 2018 without success. LACOE’s failure to take action, combined with its consistent rubber stamping of the district’s LCAPs, show that filing a complaint with LAUSD would be futile and that immediate action by the CDE is warranted.

A. Complainants are Suffering and Will Continue to Suffer Immediate and Irreparable Harm.

The dissipation of improperly allocated funds irreparably harms the students of the district, since once paid out the funds cannot be recovered.¹³⁹ Further, each day that funds are not used to provide services to high needs students results in a loss of educational opportunities that cannot retroactively be imparted to students. Both misspent funds and missed educational opportunities, resulting from a lack of funds, cause irreparable injury to students that can only be curtailed by immediate action by the CDE.¹⁴⁰

¹³⁸ 5 CCR §4650(a)(6).

¹³⁹ Courts have found irreparable harm justified preliminary injunctive relief based on the risk of the dissipation of specific funds that would otherwise be lost. *See e.g. Heckmann v. Ahmanson* (1985) 168 Cal. App. 3d 119, 136 (“An injunction against disposing of property is proper if disposal would render the final judgment ineffectual.”); *Republic of the Philippines v. Marcos*, 862 F. 2d 1355, 1364 (9th Cir. 1988) (“A court has the power to issue a preliminary injunction to prevent a defendant from dissipating assets in order to preserve the possibility of equitable remedies.”); *Hendricks v. Bank of America, N.A.* (9th Cir. 2005) 408 F. 3d 1127, 1141 (Plaintiffs “would face a significant threat of irreparable injury if a preliminary injunction did not issue to prevent” the defendant bank from honoring a draw on funds where defendant was shown to be insolvent, because without an injunction the funds would likely have been dissipated if forced to wait until the end of litigation).

¹⁴⁰ *Van Scoy v. San Luis Coastal Unified Sch. Dist.*, 353 F. Supp. 2d 1083 (C.D. Cal. 2005) (likelihood of irreparable educational harm shown where “every school day that passes and [plaintiff] is not provided [special education services], it is likely that he is falling further and further behind on his educational goals”); *see also Larry P. v. Riles*, 343 F. Supp. 1306, 1308 (N.D. Cal. 1972), *aff’d* 502 F.2d 963 (9th Cir. 1974) (irreparable educational harm could occur from the improper placement of a student in an inferior educational setting for just a single month); *K.D. v. Oakley Union Elem. Sch. Dist.*, 2008 U.S. Dist. LEXIS 9559, at *33 (N.D. Cal. 2008) (“deprivation of educational services can constitute irreparable harm”).

Making it worse, for both the 2018-19 and 2019-20 LCAPs, LAUSD completely disregards its obligation of transparency, failing to identify the specific actions that will be carried out in the LCAP and how these actions are principally directed and effective in meeting the needs of unduplicated pupils. Instead, LAUSD improperly designates nearly a billion dollars of supplemental and concentration funds for a bundled set of “School Autonomy” actions and other bundled actions. This bundling fails to justify how its actions and services are principally directed towards and effective in meeting goals for high-need students. Such lack of transparency deprives the public’s ability to assess the contents and the effectiveness of the District’s actions and poses great danger that the funds are being and will be misspent and wasted instead of spent on actions that high need students desperately need and the community has demanded, such as lower caseloads for foster youth, more investment in restorative justice, and more robust support for English Learners.

The harm is compounded by the fact that LAUSD, being the largest school district in the state and the second largest district in this country, receives 12% of all supplemental and concentration funds in the state every year. This amounts to over \$1.1 billion of funding for the 2019-20 school year. The district’s grossly deficient LCAP for 2019-20, which allows for \$880 million, roughly 80 percent of supplemental and concentration funds, to be used by unnamed schools for unknown actions under the vague notion of “School Autonomy.” Such a plan fails to ensure that funds are *principally directed* toward high needs students and prevents an evaluation of the services provided to determine if the use of funds was *effective*, both of which are not only required by statute, but are essential to improving the education of high needs students. What is more, where LAUSD has attempted to demonstrate how it is proportionally and lawfully increasing or improving services for high need students, its LCAPs are so woefully inadequate that there currently is no meaningful demonstration that LAUSD’s proportionality obligation is anywhere close to being met. Yet LACOE has consistently rubber-stamped LAUSD’s approach.

The district’s flawed LCAP process has also deprived Complainants and other interested parties of the opportunity to provide input on the use of supplemental and concentration funds, as required by the LCFF. Complainants, students, and other stakeholders have suffered and will continue to suffer irreparable harm to their rights through the loss of: (a) the right to transparent information about how supplemental and concentration funds are being directed toward high need students and (b) the right to affect the LCAP’s development through mandatory stakeholder consultation and input and public hearing processes on the best use of over a billion dollars’ worth of supplemental and concentration funds, (*see* Educ. Code §§ 52060(g), 52062, 52063). Where, as here, a statute mandates public participation in a government decision, a decision made without the requisite public input constitutes irreparable harm.¹⁴¹

¹⁴¹ *See Am. Indian Model Sch. v. Oakland Unified Sch. Dist.*, 227 Cal. App. 4th 258, 273 (2014) (finding that denial of educational access to the charter school’s students without proper procedures constitutes irreparable harm); *Elec. Frontier Found. v. Office of the Dir. of Nat. Intelligence*, 542 F. Supp. 2d 1181,

As is clear from prior years, LACOE has been approving LCAPs rife with flaws that transgress LCFF in the most fundamental ways. It is almost certain that LACOE will approve the 2019-20 LCAP, despite its glaring deficiencies. Immediate action by the CDE is necessary to prevent further erosion of the community's right to understand and influence the district's expenditure plan of over \$1.1 billion, to prevent the improper expenditure of supplemental and concentration funds, and to prevent the further compounding of the district's LCAP transgressions.¹⁴² As noted above, LAUSD's June 28th substitution of an entirely new LCAP that has not been publicly vetted and Board-approved only further cries out for immediate CDE intervention to put the District on track for a proper and legal LCAP. Before another school year is allowed to begin, LAUSD and LACOE must both immediately be directed to make the proper showing to the public and the LA School Board of how the District is spending, justifying and evaluating its LCFF dollars. And where it cannot do so according to LCFF's legal standards, then the District must reallocate those funds to proper expenditures.

B. Filing a Complaint with LAUSD Would be Futile.

Complainants wrote to the LACOE on August 13, 2018 and identified the exact same issues for LAUSD's 2018-19 LCAP that continue to infect its 2019-20 LCAP, both of which are the subject of Complainants request for relief from the CDE. Exhibit 13. Complainants specifically asked LACOE to require LAUSD to identify each unique and separate action to support unduplicated pupil goals currently bundled under the "School Autonomy" label. *Id.* Complainants asked LACOE to address the fact that LAUSD was rolling forward some \$340 million of unidentified and unjustified supplemental and concentration expenditures. Complainants also requested that the county require LAUSD to justify each unique and separate action as "principally directed" toward and "effective" in meeting its goals for high-needs students and to cease counting expenditures toward its proportionality obligation towards high need students those supplemental and concentration funds spent on general education actions and services that support all students. LACOE did not provide any relief to Complainant.

1187 (N.D. Cal. 2008) ("Irreparable harm exists where Congress is considering legislation . . . and the records [being sought in the FOIA request] may enable the public to participate meaningfully in the debate over such pending legislation."); *Leadership Conference on Civil Rights v. Gonzales*, 404 F. Supp. 2d 246, 260 (D.D.C. 2005) ("FOIA requests could have a vital impact on development of the substantive record in favor of reauthorizing or making permanent the special voting provisions of the Voting Rights Act"); *ACLU v. Department of Justice*, 321 F. Supp. 2d 24, 30 (D.D.C. 2004) (irreparable harm found where "[principal] aim of plaintiff's FOIA request is to provide information for the ongoing national debate about whether Congress should renew Section 215 and other Patriot Act surveillance provisions before they expire").

¹⁴² Courts have held that plaintiffs need not wait until they have suffered actual harm before applying for an injunction; they may seek injunctive relief against threatened infringement of their rights. *See, e.g., Maria P. v. Riles* (1987) 43 Cal. 3d 1281, 1292.

Having received no mandate from the county to fix the 2017-18 or 2018-19 LCAPs, the district has continued its non-transparent practices and its improper calculation of its proportionality obligations, resulting in an LCAP for the 2019-2020 school year that is even less transparent and compliant with LCFF. The DIISUP section became shorter and less specific and the “School Autonomy” category, which involves a total of \$880 million of funding, bundles even more actions and is only “justified” with three vague lines of text. LAUSD did not make any serious effort to show how its plan is principally directed and effective in meeting the needs of unduplicated pupils. LACOE’s failure to act in response to Complainant’s August 13, 2018 letter regarding problems with LAUSD’s 2017-18 and 2018-19 LCAPs is evidence that it would be futile to engage the formal complaint process with the LAUSD and LACOE, and that doing so would do nothing more than deprive high need students of educational services during the process. Pursuant to the UCP, CDE should give immediate direction to the District and the county to remedy the problems in the 2018-18 LCAP and develop a proper 2019-20 LCAP.

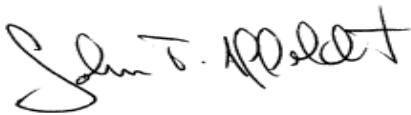

IX. Remedy

For the foregoing reasons, Complainants respectfully request that the CDE accept this matter direct state intervention and order the following relief:

1. Declare the June 28, 2019 staff-modified LCAP null and void and of no legal effect;
2. Deem LAUSD’s June 18, 2019 Board-approved LCAP fundamentally deficient and order LAUSD to adopt a new 2019-20 LCAP and LACOE to only approve an LAUSD LCAP that fixes the fundamental errors identified herein including by doing the following:
 - a) Cease bundling specific actions together and instead identify each specific action the district will take to meet its state and local goals together with their budgeted expenditures;
 - b) For school level allocations of LCFF supplemental and concentration funds, identify and justify each specific action, the expenditure amounts for each such action and the specific schools receiving the allocations and carrying out the actions; further, annually evaluate the effectiveness and any material changes in budget or nature of each such school-level action after implementation;
 - c) Demonstrate how the District is meeting its overall proportionality obligation;

- d) Demonstrate for each entity-wide and schoolwide action using supplemental and concentration funds, how it is principally directed toward and effective in meeting high need pupil goals;
 - e) Identify and, if possible, justify the heretofore undisclosed and unjustified \$340 million in supplemental and concentration funds in the School Autonomy item (Goal 1, Action 5); and
 - f) In LAUSD's Annual Update and future reflection sections, identify and explain material changes in specific actions and/or their budgeted expenditures.
- 3. In revising its deficient 2019-20 LCAP as ordered above, follow all the community engagement provisions of LCFF required of an annual initial adoption of an LCAP; and
 - 4. Cease henceforth from unilaterally modifying previously LACOE-approved LCAPs; subject all future material amendments District LCAPs to the community engagement, board and county approval requirements set forth in Cal. Educ. Code § 52060.

Re: Uniform Complaint Procedures Case #UCP-004-19/20
Ana Carrion and Elvira Velasco, Complainants

Mr. Affeldt and Ms. Muschamp:

The Los Angeles Unified School District (the District) has completed its investigation of the above-referenced complaint alleging the District violated sections of the *California Education Code* pertaining to Local Control Funding Formula (LCFF) in developing the Local Control and Accountability Plans (LCAP). Enclosed is a copy of the final report that includes details of the investigation, conclusions, and, if necessary, corrective actions.

Be assured of the confidential treatment of this complaint and accompanying report. Information is only being provided to those persons within the District on a need to know basis within the confines of the District's reporting procedures and investigative process. You are advised that the District prohibits retaliation against you or anyone who files a complaint, anyone who requests an appeal or anyone who participates in any complaint investigation process. You are also advised that civil law remedies may be available to you.

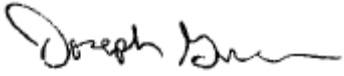

Appeal Information

If you disagree with the findings and conclusions presented to you by this office you have the right to appeal within fifteen days of the receipt of this letter. Such an appeal should specify the reason for appealing the decision. A copy of the original complaint and a copy of this report should be included. Send your appeal to:

Local Agency Systems Support Office
California Department of Education
1430 N Street
Sacramento, CA 95814

If you have any questions or need more information pertaining to the complaint process or the enclosed report, please feel free to call me at (213) 241-7682.

Sincerely,

A handwritten signature in black ink, appearing to read "Joseph Green", with a stylized, flowing script.

Los Angeles Unified School District
Uniform Complaint Procedure Case #: UCP-004-19/20
Ana Carrion and Elvira Velasco v. Los Angeles Unified School District and Los Angeles
County Office of Education

I. Background

On June 18, 2019, the Board of Education (“Board”) of the Los Angeles Unified School District (“LAUSD” or the “District”) approved the District’s 2019-20 LCAP and Annual Update (“June 18, 2019 LCAP”). The approval came after many months of community engagement with parents and stakeholders, and after complying with all of the procedural requirements of Education Code section 52062.

Following the Board’s approval, the Los Angeles County Office of Education (“LACOE”) wrote to the District on July 29, 2019, to clarify aspects of the LCAP pursuant to Education Code section 52070, and followed this up with another correspondence on August 21, 2019, requesting specific changes. As a result of the ongoing dialogue with LACOE since the Board approved the June 17, 2019 LCAP, District staff have been revising the LCAP. The Board will vote on an amended LCAP (“Amended LCAP”) on September 24, 2019.

The June 18, 2019 LCAP represents the third year in a three-year 2017-20 LCAP plan. As such, the general structure of the LCAP, including the structure of the goals and actions, is almost entirely based on the District’s two previous LCAPs. Based on the LCAP template instructions and on communications with LACOE, the District felt it would be inappropriate to substantially restructure its actions in the third and final year of its three-year LCAP, but may make such changes for the 2020-23 LCAP.

Importantly, the current goals and actions were previously approved as appropriate by LACOE, as were many of the same descriptions of changes in expenditures and explanations of how funds are used to increase and improve services for high-need students. The District has relied heavily on these previous approvals as guidance in drafting its 2019-20 LCAP.

This Uniform Complaint Procedures Complaint to State Superintendent Tony Thurmond (“Complaint”) was filed on July 11, 2019, and referred to the District on July 22, 2019. At that time, the June 18, 2019 LCAP was the operative LCAP. Within four days of issuance of this investigative report (“Report”), however, the Board will vote on whether to adopt the Amended LCAP. Should that vote succeed, the Amended LCAP will be the operative LCAP and the June 18, 2019 LCAP will be moot. This Report pertains only to the June 18, 2019 LCAP, as that is the LCAP that was in effect at the time the Complaint was filed, the Complaint was referred to LAUSD, the District investigated the Complaint, and this Report was issued. Accordingly, the findings in this Report do not in any way pertain to the Amended LCAP, as that LCAP has not yet been finalized or approved.

The District has thoroughly investigated the claims made in the Complaint pursuant to California Code of Regulations, title 5, section 4631, and issues this Report based on that investigation.

II. Summary of Allegations

On July 22, 2019, the Educational Equity and Compliance Office received a copy of a letter dated the same date that was sent to the LAUSD Superintendent, Austin Beutner, by the California Department of Education (“CDE”), Local Agency Systems Support Office. The letter stated that the CDE currently lacks jurisdiction over the Complaint, and ordered the District and LACOE to investigate the Complaint. The Complaint makes the following seven allegations:

1. The District posted an amended June 28 LCAP that alters the one posted for public hearing and approved by the Board (the June 18 LCAP).
2. The District bundled actions and services into “mega-actions” which violates LCFF transparency requirements and is incomprehensible.
3. The District violated LCFF’s transparency and accountability requirements when allocating unspecified amounts to unspecified school sites for unspecified actions.
4. The District’s annual updates violate LCFF’s requirement that material changes in actions implemented and/or in the budgeted amounts for specific actions be reflected and explained.
5. The District’s LCAP fails to demonstrate how the District is meeting its obligation to increase or improve services for high need students each year by 32% above the level of service provided to all pupils.
6. The District failed to demonstrate that its specific uses of \$1.1 billion in annual supplemental and concentration funds increase or improve services for high need students.
7. The District inappropriately rolled forward funds for high need students without accounting for how that carryover is being spent or where it comes from.

III. Method of Investigation

The investigation was conducted at the direction of Julie Hall-Panameño, Director of the Educational Equity Compliance Office. Information was gathered from interviews to investigate the allegations made in the Complaint. The following individuals were interviewed as part of the investigation:

- Pedro Salcido, Chief of Staff, LAUSD
- Megan Riley, Deputy Superintendent, Business Services and Operations, LAUSD
- Scott Price, Chief Financial Officer, LAUSD
- Derrick Chau, Ph.D., Senior Executive Director, Strategy and Innovation, LAUSD
- Tony Atienza Director, Budget Services & Financial Planning, LAUSD
- Samuel Gonzalez, Budget Policy Analyst, LAUSD
- Jeanne Keith, Coordinator III, LCAP State & Federal Programs, LACOE
- Ana Carrion, Complainant

- Elvira Velasco, Complainant
- John Affeldt, attorney for Complainant
- Nicole Ochi, attorney for Complainant
- Robert Zhou, attorney for Complainant

The investigation also reviewed the following documentation as part of this investigation:

- The June 18, 2019 LCAP and Annual Update.
- A working draft of revisions to the June 18, 2019 LCAP and Annual Update that was posted online on June 28, 2019.
- Several versions of working drafts of revisions to the June 18, 2019 LCAP and Annual Update that were posted online on June 28, 2019.
- July 29, 2019 letter from the LACOE to the District regarding the June 18, 2019 LCAP.
- August 13, 2019 letter from District Superintendent Austin Beutner to LACOE in response to their July 29, 2019 letter.
- August 21, 2019 letter from LACOE to the District regarding the June 18, 2019 LCAP.
- Many internal budget-related documents.
- Approved District LCAPs from the past three years.
- All 20 exhibits included in the Complaint.
- Multiple versions of the document entitled “Proposed Los Angeles Unified School District Investments to Support Targeted Youth,” one version of which is included as Exhibit 7 to the Complaint.
- LCAPs from other school districts, including one from Long Beach Unified School District provided by Complainants.
- A revised template titled “2018-2019 School-level Plan for Use of Targeted Student Population (TSP) Program Funds” provided by Complainants.

The investigation has also given Complainants and their attorneys multiple opportunities to provide additional information and feedback, including:

- An initial telephonic meet and confer between an attorney for the District and an attorney for Complainants on August 15, 2019.
- An in-person meet and confer with both Complainants, Complainants’ attorneys, District staff, and District attorneys on August 16, 2019.
- A post-meeting correspondence from Complainants’ attorneys dated August 22, 2019.
- A follow-up correspondence from Complainants’ attorneys dated August 29, 2019.
- Emails from Complainants’ attorneys dated August 26, 2019; August 27, 2019; and September 12, 2019.

IV. Applicable Statutes, Regulations, and Other Authorities

- California Code of Regulations, title 5, sections 4600-4631.
- California Code of Regulations, title 5, sections 15494-15497.5.
- Education Code, sections 2574, 2575, and 52060-52077.

In addition to these statutes and regulations the District reviewed the LCAP Template and Template Instructions, as well as the following materials from the CDE:

- June 10, 2015 letter from State Superintendent of Public Instruction Tom Torlakson to County and District Superintendents and Charter School Administrators with the subject, “Use of Local Control Funding Formula Supplemental and Concentration Grant Funds.
- May 5, 2017 letter from State Superintendent Tom Torlakson to Abre’ Conner, Staff Attorney, and Sylvia Torres-Guillen, Director of Education, of the ACLU of Northern California with the subject, “Request for Appeal – Fresno Unified School District, American Civil Liberties Union, Appellant.”
- November 2, 2018 letter from State Superintendent Tom Torlakson to Sylvia Torres-Guillen, Director of Education Equity/Senior Legal Counsel, of the ACLU of Northern California and others with the subject, “Request for Appeal – Klamath-Trinity Joint Unified School District Yurok Tribe, Hoopa Tribal Education Association, and American Civil Liberties Union, Appellants.”
- February 13, 2019 letter from State Superintendent Tony Thurmond to Linnea Nelson, Education Equity Staff Attorney, of the ACLU Foundation of Northern California and others with the subject, “Request for Appeal – Klamath-Trinity Joint Unified School District Yurok Tribe, Hoopa Tribal Education Association, and American Civil Liberties Union, Appellants”

V. Findings of Fact and Conclusions of Law

The District has investigated each of the Complaint’s seven allegations, and makes the following findings and conclusions as to each.

Allegation 1. The District posted an amended June 28, 2019 LCAP that alters the one posted for public hearing and approved by the Board (the June 18 LCAP).

The Complaint alleges that the Board adopted its LCAP on June 18, 2019, but then adopted, or “substituted,” without a public meeting a revised LCAP on June 28, 2019.¹ The Complaint alleges that the June 28 LCAP was therefore improperly adopted for failing to comply with several procedural requirements.²

District Findings and Analysis as to Allegation 1.

The District has investigated this allegation and determined based on interviews with District staff that the June 28, 2019 LCAP was simply an early working draft of revisions to the June 18, 2019

¹ Complaint, p. 7.

² *Ibid.*

LCAP,³ posted online to increase transparency and public participation. The June 28, 2019 LCAP draft was never adopted by the Board, nor submitted to LACOE. Therefore, the only operative LCAP at the time that this Complaint was filed was the June 18, 2019 LCAP, and the Complaint concedes that all procedural requirements were followed before the June 18, 2019 LCAP was adopted by the Board.⁴ The Complaint also acknowledges that it relies exclusively on the June 18, 2019 LCAP as the operative LCAP for purposes of the Complaint.⁵

Conclusion as to Allegation 1.

The District has followed all procedures required under the Education Code, including those in Education Code section 52062, with the June 18, 2019 LCAP. Because the June 18, 2019 LCAP is the only version of the LCAP that has been adopted by the Board and operative as of the time of this Complaint, and all applicable procedures have been followed with respect to that LCAP, the District has determined that there is no violation of law as to Allegation 1, and no corrective actions are required.

Allegation 2. The District bundled actions and services into “mega-actions,” which violates LCFF transparency requirements and is incomprehensible.

The Complaint alleges that the LCAP impermissibly bundles discrete actions into “all-encompassing mega-actions,” and that these “mega-actions” make it impossible to meet LCFF requirements related to transparency and accountability.⁶ The allegation lists multiple actions that allegedly use impermissible bundling.

District Findings and Analysis as to Allegation 2.

The CDE’s LCAP Template Instructions Addendum states that an “LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF).”⁷ The Instructions Addendum also refers subsequently to providing information for “each action/service,” such as the scope of the services, budgeted expenditures, and goals the action is intended to achieve.⁸

Education Code section 52062, subdivision (a) states that the District Superintendent shall “notify members of the public of the opportunity to submit written comments regarding the specific actions and expenditures proposed to be included in the [LCAP]” and “review school plans submitted pursuant to

³ The District has been working on amendments to the June 18 LCAP, but the Board will not have voted on these amendments before this Investigative Report is issued.

⁴ See Complaint, p. 4 (“On June 18, 2019, the LAUSD Board of Education adopted its 2019-20 LCAP and budget in a public meeting, following a prior public hearing on the LCAP and budget on June 11, 2019.”), footnote omitted.

⁶ *Id.* at pp. 7-10.

⁷ LCAP Template Instructions, Cal. Dep’t of Educ., available at <https://www.cde.ca.gov/re/lc/templateinstructions.asp>.

⁸ *Ibid.*

Section 64001 for schools within the school district and ensure that the specific actions included in the [LCAP] are consistent with strategies included in the school plans submitted pursuant to Section 64001.”⁹ It also states that the District Board “shall hold at least one public hearing to solicit the recommendations and comments of members of the public regarding the specific actions and expenditures proposed to be included in the local control and accountability plan.”¹⁰

Notably, and as Complainants concede, the terms “action” and “specific action” are not defined in the statutes, regulations, or template instructions. As a result of this ambiguity, the District has relied heavily on the precedent set by approvals of its own and other districts’ LCAPs.¹¹ The actions used in the June 18, 2019 LCAP are virtually identical to the actions used in the previous two LAUSD LCAPs, both of which were approved as appropriate classifications of expenditures.¹²

Even if the District wished to materially restructure its actions to conform with the legal theories presented in the Complaint, it would be inappropriate to do so for the 2019-20 LCAP because it is the third year of a three-year plan. The template and instructions are designed to promote continuity across a three-year plan so that goals and actions can be tracked over that period. For example, the Annual Update section requires districts to copy “verbatim” the goals and actions from the previous year’s LCAP and allow only for correction of “[m]inor typographical errors.”¹³ While the instructions do allow for changes in the Goals, Actions, and Services section, the instructions lead by reminding school districts and county offices of education that the “LCAP is a three-year plan, which is reviewed and updated annually, as required.”¹⁴ Indeed one piece of feedback that the District received from LACOE in response to the June 18, 2019 LCAP was that the District should avoid, where possible, making structural changes to its actions, such as combining actions. Additionally, the District did not receive any requests from stakeholders to materially restructure its actions, but if it were to do so at this late stage, it would be done without input from stakeholders. As such, the District has felt as though it should not materially restructure its actions until the 2020-21 LCAP, which will begin a new three-year LCAP.¹⁵

¹³ LCAP Template Instructions, Cal. Dep’t of Educ., available at <https://www.cde.ca.gov/re/lc/templateinstructions.asp>.

¹⁴ *Ibid.*

¹⁵ The District notes that its 2015-16 LCAP was legally challenged, resulting in a settlement prohibiting future challenges to that LCAP. Some of the same attorneys now challenge aspects of the June 18, 2019 LCAP that are identical to those in the 2015-16 LCAP, but were not challenged at that time. As such the District believes that these challenges to components to the present LCAP that were previously challengeable are improper and the Settlement Agreement would serve as an affirmative defense to

Despite that all of the actions at issue have previously been approved by LACOE as appropriate, that the District reasonably believed it was not at liberty to substantially restructure the actions, and that several actions went unchallenged in a previous legal challenge to a previous LAUSD LCAP, the District has investigated each of the alleged instances of improper bundling and makes the following findings as to each:

- **Goal 1, Action 9 (A-G Immediate Intervention Plan).** There is no authority requiring that the District treat individual services, such as “Algebra I/Geometry Intervention Pathway Program” or “Pre-AP/AP Summer Institute”¹⁶ as an LCAP “Action.” With a district as large as LAUSD, treating such granular services as full LCAP Actions would make the LCAP unnecessarily cumbersome and inaccessible to the public. In addition, the District reasonably believed it could not materially alter these actions for the 2019-20 LCAP. Starting with the 2020-21 LCAP, when the District is able to adjust its actions, the District will work with stakeholders to determine whether this action should be restructured, such as an action focused on college readiness and a separate action focused on graduation rates. For the reasons stated above regarding all actions, and because Goal 1, Action 9 meets the statutory definition of an action, the LCAP is in compliance.
- **Goal 1, Action 5 (School Autonomy).** There is no authority requiring that the District treat individual services, such as “Tutoring supports”¹⁷ as an LCAP “Action.” With a district as large as LAUSD, treating such granular services as full LCAP Actions would make the LCAP unnecessarily cumbersome and inaccessible to the public. In addition, the District reasonably believed it could not materially alter these actions for the 2019-20 LCAP. Starting with the 2020-21 LCAP, when the District is able to adjust its actions, the District will work with stakeholders to determine whether this action should be restructured. For the reasons stated above regarding all actions, and because Goal 1, Action 5 meets the statutory definition of an action, the LCAP is in compliance.

Because this action involves a particularly large amount of money, the District has decided to include all of the individual expenditures in this action to provide maximum transparency in the Amended LCAP. This will provide far more transparency than in previous, approved LCAPs, and more than if the LCAP had simply used the “4 sub-buckets” identified in the Complaint.

- **Goal 2, Action 11; Goal 4, Action 1; and Goal 5, Action 1.** The Complaint alleges that these actions were impermissibly “rolled” into the School Autonomy action. The services within these actions were rolled into Goal 1, Action 5 (“School Autonomy”) because they are services that each are designed to increase school autonomy. There is no authority requiring that the District treat these individual services as an LCAP “Action.” For the reasons stated above regarding all actions, and because Goal 1, Action 5, which contained these services, meets the statutory definition of an action, the LCAP is in compliance. The District, however, has decided to report the services provided in Goal 2 Action 11 and Goal

allegations that the actions are improper. Despite the impropriety of these challenges, the District addresses them in this Report.

¹⁶ Complaint, pp. 11-12.

¹⁷ *Id.* at p. 15.

4 Action 1 as in the prior year LCAP to maintain continuity and to increase transparency. Certain services associated with Goal 5, Action 1, which related to restorative justice, will remain a part of School Autonomy and their associated expenditures will be enumerated in the Amended LCAP.

- **Goal 3, Action 2 (Targeted Supports to Increase Student Engagement at Campuses of Highest Need).** The Complaint alleges that this action “includes at least 8 distinct actions” including clerical support, custodial, and nurses among others.¹⁸ There is no authority requiring that the District treat these individual services as an LCAP “Action.” With a district as large as LAUSD, treating such granular services as full LCAP Actions would make the LCAP unnecessarily cumbersome and inaccessible to the public. In addition, the District reasonably believed it could not materially alter these actions for the 2019-20 LCAP. Starting with the 2020-21 LCAP, when the District is able to adjust its actions, the District will work with stakeholders to determine whether this action should be restructured. The Complaint also alleges that some services in this action may be “double-counted” in this and in the School Autonomy action.¹⁹ Upon investigation, it is clear that services may have the same name, such as clerical services, but the services are distinct and achieve distinct goals. There is no double-counting of services in the LCAP. The District has decided to clarify with better naming in future LCAPs. For the reasons stated above regarding all actions and because Goal 3, Action 2 meets the statutory definition of an action, the LCAP is in compliance.
- **Goal 2, Action 9 (English Learner Supports).** The Complaint alleges that this action contains 21 discrete actions, some of which are unrelated to the “English Learner Supports” action itself. There is no authority requiring that the District treat these individual services, such as “Coordinated Professional Development Framework” or “Fiscal support specialists,” as LCAP “Actions.” With a district as large as LAUSD, treating such granular services as full LCAP Actions would make the LCAP unnecessarily cumbersome and inaccessible to the public. In addition, the District reasonably believed it could not materially alter these actions for the 2019-20 LCAP. Starting with the 2020-21 LCAP, when the District is able to adjust its actions, the District will work with stakeholders to determine whether this action for English Learner Supports should be restructured. The Complaint also alleges that there are services in this action that are unrelated to English Learner Support.²⁰ Although there is no legal violation for including it in this action, the District has decided to relocate the “Central Office/Local District Supports for school-site school for school climate program implementation” to Goal 5, Action 1’s School Climate and Restorative Justice Program. For the reasons stated above regarding all actions and because Goal 2, Action 9 meets the statutory definition of an action, the LCAP is in compliance.

¹⁸ *Id.* at p. 19.

¹⁹ *Ibid.*

²⁰ *Id.* at p. 20.

Conclusion as to Allegation 2.

For all of the reasons stated above, the District has determined that there is no violation in the way the 2019-20 LCAP classifies its actions. However, to make the LCAP as transparent as possible in light of the limitations placed upon the District and the LCAP, the District has decided to take the following actions in the interest of clarity, continuity, and transparency.

- (1) The District will list and specify the amounts for all of the individual expenditures for Goal 1, Action 5 (School Autonomy) in the Amended LCAP.
- (2) The District will move the services associated with Goal 2, Action 11 and Goal 4, Action 1 out of Goal 1, Action 5 (School Autonomy) into their own actions in the Amended LCAP.
- (3) The District will confer with parents and other stakeholders about restructuring its actions for its next three-year LCAP, starting with the 2020-21 LCAP in the Amended LCAP.
- (4) The District will relocate the “Central Office/Local District Supports for school-site school for school climate program implementation” to Goal 5, Action 1’s School Climate and Restorative Justice Program in the Amended LCAP.

Allegation 3. The District violated LCFF’s transparency and accountability requirements when allocating unspecified amounts to unspecified school sites for unspecified actions.

The Complaint alleges that the District must list individual school sites, “specific actions” being taken at each school site, and amounts allocated to each school site in several different actions.²¹ In support of this position, Complainants rely on the LCAP Template Instructions²² and two CDE opinions.²³

District Findings and Analysis as to Allegation 3.

The LCAP Template Instructions require districts to identify specific schools or subsets of schools if the services are provided to specific schools within the District. The District disagrees with the Complainant’s reading of the two CDE opinions they cite in support of a position that goes beyond the requirements of the Template Instructions.

In the *Klamath-Trinity Joint Unified School District* CDE opinion included as Exhibit 20 to the Complaint, the LCAP’s shortcoming was not a failure to identify specific schools for a particular action or to identify school sites, but that the descriptions of goals did not identify any action or services at

²¹ This allegation states that it applies to seven actions, but it cites to Exhibit 12, which identifies eight different actions impacted by the claim. The District’s investigation examined all eight actions identified in Exhibit 12.

²² Complaint at pp. 21-22. These Instructions state, “If the services are provided to specific schools within the LEA or specific grade spans only, the LEA must mark ‘Specific Schools’ or ‘Specific Grade Spans’. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.” (LCAP Template Instructions, Cal. Dep’t of Educ., available at <https://www.cde.ca.gov/re/lc/templateinstructions.asp>.)

²³ Complaint, Exh. 20, p. 16.

all.²⁴ “Rather, it identifies a school plan without identifying the actions or strategies being referred to as included in that plan.”²⁵ That is a different situation from the one at issue here, where there is no dispute that the District has developed actions under its goals. Moreover, the Klamath-Trinity School District has seven schools total and only two high schools,²⁶ so it is far more likely that actions will impact only one school, and far easier to describe how each school is impacted for every action, even if all seven schools (or, for example, both high schools) are impacted by an action.

In the *Fresno Unified School District* CDE opinion attached to the Complaint as Exhibit 18, the problem was that the description for a goal stated that school sites were to direct plans “focused on the needs of low income, English learner and foster youth student populations, *as well as other subgroups*,” and because of the inclusion of unspecified “other subgroups,” it was “not possible to definitely conclude that the action is ‘principally directed towards’ unduplicated pupils.”²⁷ The district there was not required to list specific school sites, but instead to clarify that funds would be principally directed towards unduplicated pupils.²⁸ The claim here, on the other hand, is that the District must identify schools even for actions that are districtwide, which is unsupported by the CDE opinions.

Thus, the standard that applies is whether the District has identified individual schools or a subset of schools for services that are provided only to specific schools. Applying this standard to the seven actions identified, the District makes the following findings:

- **Goal 1, Action 5. School Autonomy.** This action is a District-wide action that impacts all schools, and is not a service “provided to specific schools within the LEA.” The action has been properly identified as impacting “All Schools,” and there is therefore no requirement under the LCAP Template Instructions to identify any individual schools. To the extent the Complaint argues that this action should be divided into smaller actions, that argument is addressed in the section above relating to Allegation 2.

The action allocates funds using the District’s Student Equity Needs Index (SENI). The Amended LCAP will contain new, additional information about, and a link to, the current list of SENI schools and their SENI scores to provide additional information.

- **Goal 1, Action 8. A-G Diploma Program.** The June 18, 2019 LCAP notes that this action applies to “Specific Schools: Middle Schools.” Specifically, the action applies to 20 middle schools, but the LCAP does not identify the schools. The District shall be required to identify these specific schools in the “Actual Actions/Services” column of the Amended LCAP’s Annual Update.
- **Goal 1, Action 10. School Innovation Funds.** The June 18, 2019 LCAP notes that this action applies to “Specific Schools: 30 High Schools, 20 Middle Schools” but does not

²⁸ See *id.* at p. 8.

identify the schools. The District shall be required to identify these specific schools in the “Actual Actions/Services” column of the Amended LCAP’s Annual Update.

- **Goal 1, Action 9. English Learner Supports.** This action applies to grades 9-12 throughout the District and is not a service “provided to specific schools within the LEA.” There is therefore no requirement under the LCAP Template Instructions to identify any individual schools.
- **Goal 2, Action 12. Arts Program.** This action is a District-wide action that impacts all schools, and is not a service “provided to specific schools within the LEA.” The action has been properly identified as impacting “All Schools,” and there is therefore no requirement under the LCAP Template Instructions to identify any individual schools.

The action allocates funds using the District’s Arts Equity Index (AEI). The Amended LCAP will contain new, additional information about, and a link to, the current list of AEI schools and their AEI scores to provide additional information.

- **Goal 3, Action 2. Targeted Supports to Increase Student Engagement at Campuses of High Need.** This action is a District-wide action that impacts all schools, and is not a service “provided to specific schools within the LEA.” The action has been properly identified as impacting “All Schools,” and there is therefore no requirement under the LCAP Template Instructions to identify any individual schools.
- **Goal 5, Action 1. School Climate and Restorative Justice Program.** This action is a District-wide action that impacts all schools, and is not a service “provided to specific schools within the LEA.” The majority of the funds that were allocated in this action are now a part of Goal 1, Action 5, and the remaining funds are used to support District-wide services. The action has been properly identified as impacting “All Schools,” and there is therefore no requirement under the LCAP Template Instructions to identify any individual schools.
- **Goal 6, Action 4. Ongoing Major Maintenance.** This action is a District-wide action that impacts all schools, and is not a service “provided to specific schools within the LEA.” The action has been properly identified as impacting “All Schools,” and there is therefore no requirement under the LCAP Template Instructions to identify any individual schools.

Conclusion as to Allegation 3.

The June 18, 2019 LCAP failed to identify the subset of schools for the two actions above that impact only a subset of schools. These actions are Goal 1, Action 8, “A-G Diploma Program,” and Goal 1, Action 10, “School Innovation Funds.” The remainder of the actions identified in the Complaint were properly identified as applying to “All Schools,” and therefore were not required to identify individual schools.

Required Corrective Action. The Amended LCAP shall identify the individual schools at issue in Goal 1, Action 8 and Goal 1, Action 10.

Allegation 4. The District’s annual updates violate LCFF’s requirement that material changes in actions implemented and/or in the budgeted amounts for specific actions be reflected and explained.

The Complaint alleges that the District’s June 18, 2019 LCAP fails to report material changes to specific actions and related expenditures.²⁹ The Complaint does not identify specific examples of this alleged shortcoming, but instead critiques the “bundling practices” discussed in Allegation 2 and all instances in which the LCAP states, “Material difference between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.” (*Ibid.*)

District Findings and Analysis as to Allegation 4.

Education Code section 52064, subdivision (b)(7), requires “a description of changes to the specific actions and related expenditures the school district . . . will make as a result of the review and assessment, and an update on progress implementing the specific actions in the current fiscal year.” The LCAP Template Instructions state that a district should “[e]xplain material differences between Budgeted Expenditures and Estimated Actual Expenditures.”³⁰ The requirement applies to actions, and not to material differences in line items below the level of actions. The CDE has ruled “materiality” in this context has no clear definition or standard, and that a local district must make a reasonable judgment regarding which of the differences are material.³¹

The CDE has ruled that brief explanations about staffing changes are sufficient to explain material changes in expenditures. In the *Klamath II* opinion, the school district explained material changes in one action simply by writing, ““The District experienced several vacancies throughout the entire year,” and in another wrote that it “did not fill the position . . . as the School Site Council determined the position was not needed” and the CDE held this was sufficient.³²

Here, the District’s explanation that “Material difference between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level” is more detailed than those deemed sufficient in *Klamath II*. As such, there is no violation when relying on that sufficient explanation.

Beyond that sufficient explanation, the LCAP contains additional descriptions of changes to actions and related expenditures where the differences in the actions, as opposed to individual expenditures within actions, are material. For example, Goal 1, Action 1 contains extensive discussion regarding the

²⁹ Complaint, pp. 24-25.

³⁰ LCAP Template Instructions, Cal. Dep’t of Educ., available at <https://www.cde.ca.gov/re/lc/templateinstructions.asp>.

³¹ *Klamath II* CDE Opinion, Complaint, Exh. 20, p. 14.

³² *Id.* at pp. 14-15.

material differences in the action.³³ Similarly, Goal 2, Action 3 contains similar explanations,³⁴ as does Goal 2, Action 5.³⁵

The investigation has revealed other actions for which either the differences between budgeted and estimated actual expenditures are less than material under the District’s reasonable judgment or where material differences are sufficiently explained, but where additional explanation could increase transparency. For these actions, the District has decided to add additional explanation in the Amended LCAP.

Conclusion as to Allegation 4.

The LCAP is in compliance because it, as previous, approved LCAPs, sufficiently describes changes to actions and related expenditures where the differences in the actions, as opposed to individual expenditures within actions, are material in the District’s reasonable judgment. Despite this, the District has decided to provide in the Amended LCAP additional descriptions and explanations as to changes in expenditures for several actions that were already in compliance.

Allegation 5. The District’s LCAP fails to demonstrate how the District is meeting its obligation to increase or improve services for high need students each year by 32% above the level of service provided to all pupils.

The Complaint alleges that the LCAP “offers no quantitative or qualitative analysis to demonstrate it is doing 32% more for high need students,” and instead “proffers a quantitative statement in a single sentence” “without any analysis” regarding the amount of budgeted Supplemental & Concentration funds.³⁶ The Complaint also alleges that the District has failed to commit to spending these funds, but instead has only budgeted for them, and has failed to show the expenditures that make up the budgeted \$1.14 billion in Supplemental and Concentration funds.³⁷

District Findings and Analysis as to Allegation 5.

Education Code section 42238.07, subdivision (a)(1) requires the State Board of Education to adopt regulations that “[r]equire a school district . . . to increase or improve services for unduplicated pupils in proportion to the increase in funds apportioned on the basis of the number and concentration of unduplicated pupils in the school district.” The resulting regulation states in part that a district

shall provide evidence in its LCAP to demonstrate how funding apportioned on the basis of the number and concentration of unduplicated pupils . . . is used to support such pupils. This funding shall be used to increase or improve services for unduplicated pupils as compared to the services provided to all pupils in proportion to the increase in funds apportioned on the basis of the number and concentration of

³⁷ *Id.* at p. 26.

unduplicated pupils An LEA shall determine the percentage by which services for unduplicated pupils must be increased or improved above services provided to all pupils in the fiscal year³⁸

The LCAP Template reads:

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.³⁹

Upon investigation, it is clear that the June 18, 2019 LCAP does, in fact, contain the information Complainants allege is missing. The Demonstration of Increased or Improved Services for Unduplicated Pupils (“DIISUP”) section of the LCAP lists all of the actions principally directed towards unduplicated pupils. The Goals, Actions, & Services section, in turn, contains the budgeted expenditures for each of these actions. Although the required template format does not make it easy to keep these together, the individual budgeted expenditures of the actions identified in the DIISUP section and these expenditures can be used to verify the District’s calculations. In fact, the budgeted expenditures for these actions exceed the \$1.14 billion in anticipated revenue for all Supplemental and Concentration Funds. Complainants have provided no authority that the District’s LCAP must contain additional expenditure information or mathematical calculations than that already provided in the LCAP. The Template Instructions require either a quantitative or qualitative analysis to demonstrate the District is doing 32% more for high need students. While the LCAP also contains a sufficient qualitative analysis as noted below, it certainly contains the quantitative information required.

The investigation revealed that the amount “\$1.18 billion” in the phrase, “For FY 2019-20, LA Unified will budget \$1.18 billion in supplemental and concentration funds” was intended to read “\$1.14 billion,” as the amount was intended to simply be a rounding of the precise amount of \$1,137,221,279 stated at the beginning of the DIISUP section. This typographical error should be corrected in the Amended LCAP.

The investigation also considered Complainant’s allegation that the DIISUP section does not adequately describe how these funds are being used to increase or improve services for high need students, and determined that the LCAP meets the statutory requirements in this regard. To increase transparency, however, the Amended LCAP will include additional explanation in the DIISUP section for each action listed.

Conclusion as to Allegation 5.

The LCAP provides a sufficient quantitative or qualitative analysis to demonstrate it is doing 32% more for high need students as is required by the Template Instructions. To increase transparency, the District has decided to revise the Amended LCAP in the following ways.

³⁸ Cal. Code Regs., tit. 5, § 15496, subd. (a).

³⁹ Approved LCAP Template with Instructions, Cal. Dep’t of Educ., available at <https://www.cde.ca.gov/re/lc/templateinstructions.asp>.

- (1) The District will in the Amended LCAP correct the typographical error stating “\$1.18 billion” on page 102 of the LCAP to read the correct amount, which is “\$1.14 billion.”
- (2) The District will provide in the Amended LCAP additional explanation in the DIISUP section for each action to demonstrate it is increasing or improving those services.

Allegation 6. The District failed to demonstrate that its specific uses of \$1.1 billion in annual supplemental and concentration funds increase or improve services for high need students.

The Complaint alleges that the LCAP insufficiently explains how its actions relying on supplemental and concentration funds are principally directed towards and effective in meeting the District’s goals for high-need students.⁴⁰ The vast majority of the arguments made in this allegation relate to the impacts of alleged “bundling” in the School Autonomy and other sections,⁴¹ or to aspects of the previously approved and unchallenged 2018-19 LCAP.⁴²

District Findings and Analysis as to Allegation 6.

Consistent with Education Code section 42238.07(b), the expenditure regulations identify the circumstances in which LEAs may use supplemental and concentration funds on a districtwide or schoolwide basis.⁴³ The conditions imposed on LEAs for such use vary depending on the type of LEA and the percentage of unduplicated pupils. For a district such as LAUSD, with an enrollment of unduplicated pupils of 84%, the requirements for districtwide use of supplemental and concentration grant funding are as follows:

“(b) ...an LEA may demonstrate it has increased or improved services for unduplicated pupils... by using funds to upgrade the entire educational program of ... a school district...as follows:

(1) A school district that has an enrollment of unduplicated pupils of 55 percent or more of the district’s total enrollment in the fiscal year for which an LCAP is adopted or in the prior year may expend supplemental and concentration grant funds on a districtwide basis. A school district expending funds on a districtwide basis shall do all of the following:

(A) Identify in the LCAP those services that are being funded and provided on a districtwide basis.

(B) Describe in the LCAP how such services are principally directed towards, and are effective in, meeting the district’s

⁴⁰ Complaint, p. 28.

⁴¹ See part A of this allegation at Complaint, pp. 29-31.

⁴² See part B of this allegation at Complaint, pp. 31-33.

⁴³ Cal. Code Regs., tit. 5, § 15496, subd. (b).

goals for its unduplicated pupils in the state and any local priority areas.”⁴⁴

The District finds that the descriptions in the DIISUP section of the LCAP are in line with those previously approved and sufficiently explain how the services are principally directed towards, and effective in, meeting the District’s goals for its high need students. Regarding allegations of improper bundling, this Report has already made findings as to Allegation 2, above. The District has decided, however, to provide even more transparency in the DIISUP section of the Amended LCAP by adding substantially more detail as to how the services are principally directed towards, and effective in, meeting the District’s goals for its high need students. This is in addition to providing a breakdown of expenditures in the School Autonomy action as described in response to Allegation 2 above.

Conclusion as to Allegation 6.

The District concludes that the LCAP’s DIISUP descriptions are in compliance, particularly in light of its previous, approved LCAPs. Despite this, the District will provide additional information in the DIISUP section of the Amended LCAP to explain in greater detail how each of the actions identified are principally directed towards, and effective in, meeting the District’s goals for high-need students.

Allegation 7. The District inappropriately rolled forward funds for high need students without accounting for how that carryover is being spent or where it comes from.

The Complaint alleges that the District has “impermissibly inflated the effort it expends towards its proportionality obligation by slipping into past LCAPs and rolling forward some \$340 million of undisclosed [Supplemental and Concentration] expenditures.”⁴⁵ Complainants rely on a single document, included as Exhibit 7 to the Complaint, called “Proposed Los Angeles Unified School District Investments to Support Targeted Youth,” to conclude that the District is unable to account for \$340 million in “phantom expenditures that have never been justified or evaluated for effectiveness.”⁴⁶

District Findings and Analysis as to Allegation 7.

Based on interviews with staff, it is clear that this single document on which Complainants rely was not a part of the District’s LCAP and is not a formal budget document. The District’s investigation has revealed that this document was a legacy document that provided a partial list of Supplemental and Concentration expenditures. The list of Supplemental and Concentration expenditures was not intended

⁴⁴ CDE Investigation of Appeal Against the Los Angeles Unified School District, Reyna Frias, Appellant, as Clarified on Reconsideration (Aug. 5, 2016) (“2016 CDE Opinion”), p. 12, quoting 5 Cal. Code Regs., § 15496, subd. (b).

⁴⁵ Complaint, p. 33.

⁴⁶ Complaint, p. 34.

to be exhaustive, but instead was intended to highlight certain expenditures for particular stakeholders interested only in those expenditures.

Although this document was not a part of the 2019-20 LCAP, the District understands how this document could cause confusion. As a result, the District will no longer update that partial list of expenditures in future years, and the Amended LCAP now enumerates all of the expenditures in the 2019-20 Modified Action column of the School Autonomy action—Goal 1, Action 5. As noted above, the LCAP contains total expenditures with all actions identified in the DIISUP section. There is no amount, \$340 million or otherwise, that is undisclosed or unaccounted for.

Conclusion as to Allegation 7

The District finds that there is no violation of law as to Allegation 7. The District has decided to no longer use the potentially confusing partial list of expenditures included as Exhibit 7 in the Complaint in future years, and the Amended LCAP now enumerates all of the expenditures in the 2019-20 Modified Action column of the School Autonomy action—Goal 1, Action 5.

VI. Conclusion.

The District finds a violation under Allegation 3 as to Goal 1, Action 8 and Goal 1, Action 10, warranting a required corrective action for the Amended LCAP. The District finds no other violations of the law under the remainder of Allegation 3, or under any of the other allegations, but it does plan to make several alterations to the Amended LCAP in the name of increasing transparency and clarity as summarized below.

Required Corrective Action.

- (1) The Amended LCAP shall identify the individual schools at issue in Goal 1, Action 8 and Goal 1, Action 10.

In addition to this required action, the District will make the following changes despite already being in compliance.

- (1) The District has decided to list and specify the amounts for all of the individual expenditures for Goal 1, Action 5 (School Autonomy) in the Amended LCAP.
- (2) The District has decided to move the services associated with Goal 2, Action 11 and Goal 4, Action 1 out of Goal 1, Action 5 (School Autonomy) into their own actions in the Amended LCAP.
- (3) The District has decided to confer with parents and other stakeholders about restructuring its actions for its next three-year LCAP, starting with the 2020-21 LCAP in the Amended LCAP.
- (4) The District has decided to relocate the “Central Office/Local District Supports for school-site school for school climate program implementation” to Goal 5, Action 1’s School Climate and Restorative Justice Program in the Amended LCAP.
- (5) The District has decided to provide in the Amended LCAP additional descriptions and explanations as to changes in expenditures for several actions.
- (6) The District has decided to in the Amended LCAP correct the typographical error stating “\$1.18 billion” on page 102 of the LCAP to read the correct amount, which is “\$1.14 billion.”

- (7) The District has decided to provide in the Amended LCAP additional explanation in the DIISUP section for each action to demonstrate it is increasing or improving those services.
- (8) The District has decided to provide additional information in the DIISUP section of the Amended LCAP to explain in greater detail how each of the actions identified are principally directed towards and effective in meeting the District's goals for high-need students.
- (9) The District has decided to no longer use the potentially confusing partial list of expenditures included as Exhibit 7 in the Complaint in future years.

Subject: **Request for Direct State Intervention – LAUSD/LACOE
Carrion and Velasco, Complainants**

Case #: 2019-0232, 2019-0233

Dear Mr. Affeldt and Ms. Muschamp:

The California Department of Education (CDE) is in receipt of your Complaint dated July 11, 2019, requesting Direct State Intervention (DSI) in Los Angeles Unified School District (LAUSD) and Los Angeles County Office of Education (LACOE). Your Complaint alleges that LAUSD and LACOE have failed to comply with requirements related to the Local Control and Accountability Plan provided in California *Education Code* sections 52059.5 through 52077.

The request for DSI has been submitted on the basis of *California Code of Regulations*, Title 5 (CCR 5) Section 4650(a)(6), which states:

“The complainant alleges and the CDE verifies that he or she would suffer immediate and irreparable harm as a result of an application of district-wide policy that is in conflict with state or federal law covered by this Chapter, and that filing a complaint with the LEA would be futile.”

The CDE is unable to verify that Complainants would suffer immediate and irreparable harm or that filing this complaint with LAUSD and LACOE would be futile.

As such, the CDE does not have jurisdiction, at this time, over this Complaint. This Complaint should have been filed first with the District and COE.

Carrion and Velasco

July 22, 2019

Page 2

The Local Control and Accountability Plan adopted by LAUSD that is the subject of the Complaint is currently being reviewed by LACOE, and that review is still well within the time limits prescribed by law.

In accordance with CCR 5 Section 4640, the CDE is forwarding the Complaint to LAUSD and LACOE by way of letters dated July 22, 2019, requesting that each LEA process and investigate the allegations in the complaint per their respective uniform complaint procedures.

If the District or COE fails to respond within 60 days of your letter, or if you believe that the District or COE decision is incorrect as a matter of fact or law, you may appeal to the CDE within 15 days after the district letter was due or within 15 days of receipt of the decision.

If you have further questions about the uniform complaint process or this letter, please contact me in the Local Agency Systems Support Office by phone at 916-319-0809 or by email at jbreshears@cde.ca.gov.

Sincerely,

Jeff Breshears, Administrator
Local Agency Systems Support Office

Case #: 2019-0232

Dear Superintendent Beutner:

The California Department of Education (CDE) has received a request for Direct State Intervention (DSI) dated July 11, 2019 (Complaint), alleging that Los Angeles Unified School District (LAUSD) has failed to comply with requirements related to the Local Control and Accountability Plan provided in California *Education Code* sections 52059.5 through 52077. The CDE does not have jurisdiction, at this time, over this Complaint.

As required by *California Code of Regulations*, Title 5, Section 4640, the CDE is immediately forwarding the Complaint to LAUSD. The District should promptly investigate the matters in the Complaint per its uniform complaint procedures. The District must complete an investigation and issue a Decision to the Complainants within 60 days from receipt of this letter. Please note that it is not necessary to courtesy copy the CDE on your response to the Complainants.

If you have further questions about the uniform complaint process or this letter, please contact me in the Local Agency Systems Support Office by phone at 916-319-0809 or by email at jbreshears@cde.ca.gov.

Sincerely,

Exhibit 25

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Los Angeles Unified School District

CDS Code: 19 64733

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: 333 S. Beaudry Ave., Los Angeles, CA 90017, www.lausd.net, (213) 241-1000

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

This chart shows the total general purpose revenue Los Angeles Unified School District expects to receive in the coming year from all sources.

The total revenue projected for Los Angeles Unified School District is \$7,370,987,416.00, of which \$5,587,376,601.00 is Local Control Funding Formula (LCFF), \$873,459,191.00 is other state funds, \$142,358,623.00 is local funds, and \$767,793,001.00 is federal funds. Of the \$5,587,376,601.00 in LCFF Funds, \$1,137,257,754.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

LCFF Budget Overview for Parents

This chart provides a quick summary of how much Los Angeles Unified School District plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Los Angeles Unified School District plans to spend \$7,810,252,248.00 for the 2019-20 school year. Of that amount, \$5,190,756,819.00 is tied to actions/services in the LCAP and \$2,619,495,429.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

LA Unified has a structural deficit which is a result of on-going expenditures exceeding on-going revenues. The 2019-20 budget incorporates the 2018-19 unassigned ending balance reserve. Differences between this budget overview and the district Standardized Account Code Structure (SACS) district report are due to the exclusion of LA Unified affiliated charter schools from this budget overview. Additional General Fund expenditures not in the LCAP account for \$2.2 billion and include Education Protection Account, Lottery and unrestricted General Fund resources supporting teacher and school-site positions and instructional materials; Title 1 services and resources for low income students to schools and summer programs; Title 2 resources for teacher and administrator professional development and quality educator improvement; Title 3 resources supporting English Learner coaching and other efforts; Low Performing Student Block Grant providing resources for schools to address low performing students on the state assessments not currently supported through LCFF funding or special education funding; Title 4 Part A, well-rounded education and student support; Title 4 Part B, 21st Century Community Learning Centers Program to support after school supports and resources for intervention and enrichment for students;; Special Education IDEA Support, Mental Health resources and services for students with disabilities and intervention; College and Career Pathways Trust grant to support Career Technical Education pathways development across the district; After School Education and Safety program to fund resources at schools for intervention and enrichment outside school hours; Federal funding for after-school, reserve and student health & human services support personnel; State Teacher Retirement System (STRS) on-behalf pension contributions; additional major maintenance account fund to support facilities improvements and clean and welcoming learning environments for students; Workforce, Vocational Education and Transition Partnership programs to fund adult education programs.

Increased or Improved Services for High Needs Students in 2019-20

LCFF Budget Overview for Parents

In 2019-20, Los Angeles Unified School District is projecting it will receive \$1,137,257,754.00 based on the enrollment of foster youth, English learner, and low-income students. Los Angeles Unified School District must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Los Angeles Unified School District plans to spend \$1,140,015,110.00 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Los Angeles Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Los Angeles Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Los Angeles Unified School District's LCAP budgeted \$1,221,361,505.00 for planned actions to increase or improve services for high needs students. Los Angeles Unified School District estimates that it will actually spend \$1,186,821,522.00 for actions to increase or improve services for high needs students in 2018-19. The difference between the budgeted and actual expenditures of \$34,539,983.00 had the following impact on Los Angeles Unified School District's ability to increase or improve services for high needs students:

The difference between actual and budgeted expenditures is primarily due to unfilled positions at schools, Local Districts and the Central Office. These positions may only have been temporarily unfilled. In the case of temporarily unfilled positions (e.g., delayed hiring of assistant principals and teachers), services such as additional instructional supports for teachers and increased interventions or differentiation for students were delayed. Hard to staff additional positions beyond district-normed positions such as additional nurses, class size reduction mathematics teachers and science teachers resulted in additional services not being provided to high needs students. Those services included additional health screenings and supports and smaller class sizes for mathematics and science classes. Another contributor to the difference between actual and budgeted expenditures was the unspent funds from school sites that will carryover to the next school year. These school unspent funds include positions that may have temporarily been unfilled or other planned expenditures such as professional development time for teachers that may have not been utilized. The impact of unused additional professional development and/or planning time on students may result in underutilized opportunities for teacher collaboration and coordination of curriculum and differentiation of instructional strategies for high needs students.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LA Unified) is focused on ensuring all students are prepared for college, career and life. We are a district that serves over 694,096 Pre-K thru Adult Education students, including independent charter and affiliated charter schools. Approximately 85% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, it is essential we ensure resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LA Unified is informed by our diverse population where 157,619 students are learning to speak English proficiently and 73.4% of our student population is Latino, 10.5% is White, 8.2% is African American and 6.3% is Asian/Pacific Islander. LA Unified embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 63,576 employees, consisting of teachers, administrators and classified personnel who are instrumental in helping LA Unified achieve the goals and objectives for improving student outcomes. Additional information about the district may be accessed at <https://achieve.lausd.net/facts>.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

LA Unified continues to expand the implementation of multi-tiered systems of support to ensure that all students are ready for college, career and life. In addition to academic, behavioral and social-emotional initiatives, LA Unified is focused on increasing school-based resources and staffing district-wide and ensuring equity in the distribution of those resources. Schools and Local Districts have been provided additional flexibility in the use of supplemental funds because of the diverse needs of school communities and the belief that those closest to students know best how to allocate staffing and resources.

Goal #1 - 100% Graduation: Ten LCAP actions aim to increase graduation rates and ensure students graduate college and career ready.

- Additional funding has been allocated for class size reduction teachers and counselors. Schools have also received increased budget autonomy so that local decision-makers can determine how best to utilize funding to be most aligned with the needs of their students. The Student Equity Needs Index funding has increased and now provides schools with greater autonomy over how those funds may be spent (Goal 1, Action 5).
- Options schools funding has been moved from supplemental to base funding to recognize the student populations these schools serve and to provide these schools with additional flexibility to determine allocations of resources and staffing (Goal 1, Action 6).
- A-G Immediate Intervention continues to expand resources for schools to provide Tier 2 and 3 academic supports for students to improve proficiency levels and to increase graduation rates. Local Districts are also provided additional flexibility in the use of supplemental funds to identify staffing and resources needed to support their schools in improving Tier 2 and 3 strategies for student graduation progress (Goal 1, Action 9).

Goal #2 - Proficiency for All: Twelve LCAP actions concentrate on continuing gains in grade-level academic proficiency for all students, and particularly for student groups that perform below the district average.

- The Foster Youth Support Plan and Family Source Centers will receive increased funding to ensure that the district continues to focus on the success of these students (Goal 2, Action 1).
- The integration of students with disabilities into general education programs has been moved from supplemental to the base funding for special education. This acknowledges the importance of this integration initiative for all students as full inclusion programs are expanded to additional schools in the upcoming school year (Goal 2, Action 8).
- The Division of Instruction continues to focus on improving literacy outcomes for the district. This has included the implementation of the English Learner Master Plan to integrate English Language Development across the Tier 1 curriculum and to support secondary literacy Tier 2 and Tier 3 strategies in middle and high schools (Goal 2, Action 9).

Goal #3 - 100% Attendance: Four LCAP actions are focused on supporting the health, behavior and social-emotional learning of students across the district and with homeless and foster youth.

- Increased funding is allocated for these actions to improve student engagement and supports at campuses with the highest need. These actions include increases in staffing for nurses and counselors.

Goal #4 - Parent, Community and Student Engagement: Two LCAP actions support initiatives to strengthen the partnerships and collaboration between school staff, parents, students and community members to support student success.

- Targeted Parental Involvement funding has been reallocated to School Autonomy in order to provide schools with additional funding flexibility in how these funds are utilized at the school level (Goal 4, Action 1).
- Ongoing parental involvement funding will continue to engage staff and parents in ways to provide input on district progress and initiatives (Goal 4, Action 2).

Goal #5 - Ensure School Safety: These two LCAP actions continue to improve the strategies in schools to foster positive school climates and to ensure that schools are safe spaces that are conducive to learning for all students.

- As the Restorative Justice training has been implemented in all district schools, funding for school climate and restorative justice has been reallocated to the School Autonomy action in order to provide schools with greater flexibility (Goal 5, Action 1).

Goal #6 - Basic Services: Five LCAP actions support schools with maintenance and student nutrition needs in addition to providing administrative support through Local Districts and the Central Office.

- Funding is sustained for maintenance and access to meals (Goal 6, Actions 4 and 5).

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

LA Unified is proud of our community of parents, teachers, counselors, administrators and classified staff who are focused every day on improving student performance. We also greatly appreciate our community and university partners that have advocated for continued improvements to our practices and share in the progress of our students.

1 - Graduation Rate - The LA Unified graduation rate on the California school dashboard continues to show growth year-over-year by increasing to 82.7% in 2018 compared to 81% in 2017. The district's continued focus on developing and implementing Tier 2 and 3 supports in high schools such as credit recovery and graduation counseling is resulting in more students

graduating and meeting a-g coursework requirements.

2 - English Language Arts (ELA) - The increase in ELA performance district-wide (+5.6 points) reflects improvements in multi-tiered systems of support implementation in curriculum and instruction during the 2017-18 school year. The implementation of new Tier 1 ELA curriculum across all elementary schools in addition to the implementation of the new district English Learner and Standard English Learner Master Plan have now provided the resources and instruction that students need to demonstrate proficiency on the state assessments.

3 - Mathematics - District-wide mathematics performance improved +3.3 points, demonstrating that additional professional development and formative assessment strategies are supporting student achievement. Schools are also increasing their use of Smarter Balanced interim assessments to support teacher calibration of student performance expectations.

4 - Suspension Rate - Our LA Unified suspension rate maintained a low level (0.5%) similar to the prior year rate. District schools continue implementation of restorative justice practices through professional development and discipline policies.

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The district's implementation of multi-tiered systems of support continues to focus on the areas of greatest need in the district. While overall district performance on the state dashboard only identifies one area, chronic absenteeism, as "Orange," we recognize that overall student performance in additional dashboard areas remains low (e.g., English Language Arts, mathematics).

1 - Chronic Absenteeism - The district's chronic absenteeism rate was maintained year-over-year at about 10.3%, with most student groups performing at the same level as the prior year. The district continues to develop additional resources and dashboards for schools to track their chronic absenteeism rates during the school year. Schools will also have increased funding and flexibility to add Pupil Services and Attendance (PSA) counselors to engage students and families.

2 - College/Career Readiness - While the overall district performance is "Yellow," we recognize that only 38.2% of students in the cohort were identified as "prepared." Examination of the criteria for being "prepared," LA Unified continues to expand and implement Career Technical Education pathways, as exemplified by our Linked Learning high schools. In addition, the district is improving its tracking systems for identifying students who have completed college coursework.

3 - English Language Arts and Mathematics - Both district-wide distance from standard met scores for ELA (-29.2) and mathematics (-59.4) indicate the majority of students are still not performing at the state-identified proficiency level. Continued investments in lowering class sizes, improving curriculum and instruction for all students, and focusing supports for English Learners and foster youth are intended to result in improvements in performance in these areas.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

1 - Graduation Rate - English learners and foster youth are both at the "red" performance level compared to the district all student "green" performance level. In addition, the following three student groups are at the "orange" performance level: homeless, Native Hawaiian or Pacific Islander, and two or more races. The district continues to implement Tier 2 and 3 strategies to provide greater opportunities for students to reach proficiency and recover course credits during and outside the school day. Counselors continue to receive resources and training in tracking and advising students on their progress and how to ensure foster youth receive their credits earned and are permitted to meet the permitted state minimum graduation requirements. For English learners and Standard English learners, the district continues to identify additional courses that meet a-g course graduation requirements and to implement the English Learner and Standard English Learner Master Plan to support improvements in content area Tier 1 instruction and the incorporation of more integrated English Language Development instruction and culturally responsive instruction in content courses.

2 - Suspension Rate - One student group, American Indian or Alaska Natives, are at the "yellow" performance level compared to the district "blue" performance level. Of note is that only two other student groups, African American and foster youth, are at the "green" performance level. All other student groups are at the "blue" performance level. The district continues to implement restorative justice practices across all schools. The expansion of culturally responsive instruction through the Access, Equity and Acceleration team should increase student engagement and ensure inclusion of all students in classroom instruction.

3 - College/Career - One student group, students with disabilities, is performing at the "red" performance level compared to the all students performance at the "yellow" level. The district is increasing the implementation of full inclusion programs in schools as a Tier 1 strategy, integrating students with disabilities into general education classes. Full inclusion practices require extensive professional development and planning for school site staff members and provide students with disabilities with greater access to a-g courses in high school. The district continues to provide funding and budget flexibility for Local Districts and schools to support students with disabilities in their progress toward graduation. Data systems like progress monitoring dashboards implemented over the past several years continue to provide schools and Local Districts with information to respond to students with disabilities who might need additional supports.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

The California Department of Education identified 47 schools as Comprehensive Support and Improvement (CSI) within LA Unified. The following 25 of LA Unified's CSI schools were identified for low-graduation based on the 2-year average rate. Schools with Dashboard Alternative School Status (DASS) are annotated:

- Angelou Community High School
- Belmont High School
- Central High School (DASS)
- Early College Academy
- McAlister High School (DASS)
- Newmark High School (DASS)
- RFK School for the Visual Arts and Humanities
- Monterey High School (DASS)
- Perez Special Education Center (DASS)
- Earhart High School (DASS)
- Evergreen High School (DASS)
- London High School (DASS)
- Rogers High School (DASS)

- Addams High School (DASS)
- Independence High School (DASS)
- Owensmouth High School (DASS)
- Thoreau High School (DASS)
- Wooden High School (DASS)
- Avalon High School (DASS)
- Willenberg Special Education Center (DASS)
- Bernstein High School
- CDS Alonzo (DASS)
- View Park Continuation (DASS)
- Carlson Home Hospital
- City of Angels (DASS)

The following 22 of LA Unified's CSI schools were identified for low performance based on 2018 Dashboard results:

- Kahlo High School (DASS)
- Manual Arts High School
- Boyle Heights STEM
- Holmes Ave Elementary School
- Odyssey High School (DASS)
- Lowman Special Education Center (DASS)
- Panorama High School
- Van Nuys Middle School
- Lokrantz Special Education Center (DASS)
- Miller Career and Transition Center (DASS)
- Mulholland Middle School
- Dymally High School
- Markham Middle School
- Youth Opportunities Unlimited Alternative High School (DASS)
- Audubon Middle School
- Brentwood Science Magnet
- Century Park Elementary School
- Bret Harte Preparatory Middle School
- Augustus Hawkins Community Health Advocates School
- Washington Preparatory High School
- WESM Health/Sports Medicine High School
- Secondary CDS (DASS)

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LA Unified has built a system of support such that CSI schools are able to effectively complete all the requirements related to their Every Student Succeeds Act (ESSA) status, including conducting a comprehensive needs assessment, engaging stakeholders in planning, selecting evidence-based interventions and identifying resource inequities. Going beyond the requirements of ESSA, LA Unified aligned additional resources to provide supplemental supports and resources to CSI schools to support ongoing improvement and student achievement.

In anticipation of the identification of CSI schools, LA Unified created a CSI Addendum to the online School Plan for Student Achievement (SPSA) to address new plan components, provided trainings for principals and their Local District (LD) support staff, provided ongoing guidance and support to schools as they began their planning process, and aligned additional resources (beyond the State CSI funds) for schools to support improvement efforts. The District's CSI Addendum template was approved by California Department of Education (CDE) staff in January 2019.

Comprehensive Needs Assessment: The LA Unified's SPSA template includes questions to address the requirement that CSI schools complete a comprehensive needs assessment. Schools must not only describe what occurred during their comprehensive needs assessment, who participated, and when it occurred, but also must describe the findings from their needs assessment and the alignment of their findings to strategic actions. Schools analyze a variety of data, including the state indicators on the California School Dashboard.

Resource Inequities Review: LA Unified defined the goal of a Resource Inequities Review as follows: *To ensure that all students have equitable supports and access to various resources such as programs, rigorous curriculum, interventions, effective teachers, etc., such that all students can achieve at high levels.* To achieve this goal, LA Unified regards the Resource Inequities Review process as the application of an equity lens during the comprehensive needs assessment. While schools must respond to four prompts on the CSI Addendum that describe the identified inequities and strategies to address them, LA Unified also provided reflection questions that cover a range of areas where inequities may exist to support school teams as they seek to identify ways in which resources may or may not be used equitably. Each completed CSI section of the SPSA includes a description of the actionable inequities identified, the inequities that will be prioritized at the school site, and the strategies to address the inequities.

Evidence-Based Interventions: To ensure that CSI schools are able to select and implement evidence-based interventions, LA Unified provided guidance and training at multiple levels of the organization and developed an optional bench contract with pre-vetted vendors that support evidence-based interventions. As school teams identify their needs during their resource inequities review and comprehensive needs assessment, they will determine data-based focus areas. Once the focus areas have been identified, school teams have resources to identify and select evidence-based interventions such as evidenceforessa.org, What Works Clearinghouse, LA Unified's Evidence-Based Interventions Bench, and other links to identify interventions, programs or activities that align to student need. As an added layer of support, LD staff (who are among those who provide approval signatures on the plans) have been trained in using those resources and others to support schools in selecting interventions that meet the federal criteria.

Trainings for Principals and Local District Staff and Ongoing Guidance: The CDE released the statewide list of CSI schools on January 31, 2019, and LA Unified completed trainings for all principals of CSI schools by February 27, 2019. The trainings addressed the State's CSI identification criteria, CSI requirements, and the resources and supports to implement the requirements. Each principal received a toolkit to provide background information, communication tools to support efforts to inform and engage stakeholders, and resources to support schools in completing the CSI Addendum. The trainings also provided contact information for various district departments, and schools have been accessing those contacts for additional support and guidance for planning. In addition to the formal principal trainings, LA Unified staff have provided ongoing training to LD support staff to go in further depth on evidence-based interventions, resource inequities reviews and the CSI Addendum to ensure common understandings and to have a continuous line of communication about ongoing areas of need.

Additional Resources: The State will be allocating roughly \$7.6 million to LA Unified to support CSI school improvement efforts. Those funds were allocated directly to CSI schools to support locally-determined improvement efforts based on a base-grant model of \$100,000 plus a per pupil allocation. The only exception is Washington Preparatory High School, which receives School Improvement Grant (SIG) funds in lieu of the State CSI allocation. In partnership with stakeholders (via School Site Council) schools will determine the best use of their improvement funds within the SPSA CSI Addendum based on the comprehensive needs assessment findings. To support ongoing improvement efforts, LA Unified set aside additional local Title I funds for lower-performing schools (including, but not limited to CSI). LA Unified is providing the following additional Tier 2/Tier 3 resources to support student learning opportunities for students attending CSI schools in Summer 2019 or during the 2019-20 school year:

- **Summer Learning:** To create ongoing learning opportunities for at-risk students over the summer, LA UNIFIED offers several programs that CSI schools can implement:
 - **Extended Learning Opportunities, Summer (ELOS):** CSI elementary and middle schools are able to offer a standardized summer program administered by Beyond the Bell. This four-week program includes focused academic intervention in English Language Arts or mathematics for academically at-risk students in grades K-8. The program includes an instructional field trip aligned with leveled-reading texts, opportunities for activity-based projects, social emotional learning lessons and reader's theater.
 - **Summer Reading Program:** For CSI schools with low enrollment, LA Unified offers a summer reading program in lieu of ELOS. The program involves providing high-interest reading materials for students to access over the summer.
 - **Summer Term:** All at-risk students attending any LA Unified high school, including CSI schools can attend a 24-day summer program to recover credits and make progress toward graduation.
 - **Summer Bridge:** CSI comprehensive high schools are all eligible to offer a summer bridge program to support the transition from 8th to 9th grade. The curriculum includes English Language Arts, culturally authentic and responsive pedagogy, STEAM text-based collaborative lessons and activities, and *Naviance* online high school and college readiness curriculum. Students earn five elective credits upon successful completion.
- Additional supports that CSI schools will be eligible to receive during the 2019-20 school year include:
 - **Title I Intervention Program:** All CSI elementary, middle and comprehensive high schools are eligible to participate in the Title I Intervention program. This program is administered by Beyond the Bell. School sites receive a per pupil allocation to offer site-designed interventions to meet student need during the school year, and have flexibility to focus on math, English Language Arts or credit recovery.
 - **Social-Emotional Learning:** LA UNIFIED's Social Emotional Teacher Advisors will identify and support age-appropriate social-emotional learning programs (e.g., Second Step) or develop trainings for CSI schools.

LA Unified may identify additional resources and supports to meet the needs of CSI schools based on an ongoing review of data.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Below is a description of how LA Unified will monitor and evaluate the implementation of effectiveness of the CSI plans:

- Local District staff will monitor and support the implementation of CSI plans. The online SPSA now includes a space for LDs to describe the way in which they are providing additional support and monitoring to the CSI schools. The support and monitoring may vary depending on school context and needs and will be described in the Monitoring section of the school's SPSA.
- CSI school teams will formally evaluate school plans alongside Local District support staff annually. School teams will review whether they have met the measurable objectives stated in the plan and reflect on implementation. While the measurable objectives and data points may vary by school, the objectives are aligned to state indicators on the California School Dashboard. Because the SPSA is online, LA Unified can aggregate school-level evaluative data across the system to determine how many CSI schools have met their measurable objectives.
- CSI schools will review the progress of their plan implementation after the first semester alongside district staff.
- LA Unified collects a robust set of data that aligns to the California School Dashboard to support district and school staff in monitoring and evaluating implementation, including, but not limited to:
 - **Attendance-** Schools and district staff can monitor student level attendance and "performance bands" of attendance to determine which students are at-risk of chronic absenteeism and identify trends. Our Focus data system updates attendance daily for frequent monitoring and adjustments.
 - **Suspensions-** Schools and district staff can monitor student level suspensions, including the reason for the suspension. These reports on our MyData platform are updated weekly.
 - **English Language Arts (ELA)-** Schools and district staff can review and analyze Smarter Balanced Assessments (SBA) for ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in ELA, and can analyze scores at least twice a year.
 - **Math-** Schools and district staff can review and analyze SBA ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in math, and can analyze scores at least twice a year.
 - **A-G Progress-** To support schools in monitoring progress toward graduation, schools and district staff have access to reports noting A-G progress, including information about whether the student is on-track to graduate or how many credits they are missing to be considered on-track. Our Focus data system tracks A-G with a D or better, A-G with a C or better, and all academic requirements met for the current and future graduating classes.
 - **At-Risk Reports-** LA Unified collects and provides reports that schools and district staff can use to identify at-risk students based on multiple factors such as attendance, suspensions and academic grades (i.e., marks).
 - **School Experience Survey-** LA Unified administers an annual district-wide survey to students, staff and families. Data reports are provided annually, and include response rates and results at multiple levels, include category, content area, and individual question. Categories include Academics, School Climate, and Social Emotional Learning. Content areas include Academic Focus, Cognitive Engagement, Future Orientation, Bullying, Connectedness, Expectations for Behavior, Opportunities for Participation, Safety, Growth Mindset, Self-Efficacy, Self-Management and Social Awareness.

The MyData system and School Experience Survey data provide longitudinal information, which can help schools and the district see patterns and trends overtime, while the Focus platform generally supports ongoing progress monitoring throughout the year. LA Unified has an ongoing commitment to improve its data system to support schools and district staff in monitoring and strategic planning.

Annual Update

LCAP Year Reviewed: 2018-19

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access
Local Priorities:

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.</p> <p><u>Academic Interventions</u></p> <ul style="list-style-type: none"> • English Language Arts, English Language Development, and Math Interventions • AVID (Advancement Via Individual Determination) • International Baccalaureate • Dual Language/Bilingual Programs 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Implementation of various programs and interventions were targeted to support student achievement.</p> <ul style="list-style-type: none"> • The largest expenditure was to support Options Programs (Community Day schools, Continuation schools, Independent Study and Opportunity schools) through \$22.5 million to fund certificated and classified staff across these schools. Local District and school site monitoring using data dashboards tracking student graduation progress assisted throughout the year in identifying students in need of support and supplemented comprehensive high school efforts to improve district graduation and a-g achievement levels. Options schools data indicated some improvements in transitioning students back to comprehensive high schools after recovering 	<p>\$14,869,259 - LCFF - 1000-1999 Certificated Salaries \$2,517,905 - LCFF - 2000-2999 Classified Salaries \$8,113,117 - LCFF - 3000-3999 Employee Benefits \$8,264,632 - LCFF - 4000-4999 Books and Supplies \$11,024,471 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,714 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$16,035,498 - LCFF - 1000-1999 Certificated Salaries \$2,826,121 - LCFF - 2000-2999 Classified Salaries \$7,984,326 - LCFF - 3000-3999 Employee Benefits \$1,756,052 - LCFF - 4000-4999 Books and Supplies \$3,719,163 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,687 - LCFF - 6000-6999 Capital Outlay</p>

- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic

credits as well as improvements in a-g on track graduation progress for students enrolled in Options schools.

- Arts program central office supports were also funded at \$1 million to support district-wide arts programs and to oversee arts itinerant teachers. The district continued its implementation of arts program in all schools, providing access to all students with at least one arts discipline.
- Summer school credit recovery instructional materials were also funded with \$1.8 million to support high school students in need of additional courses to meet graduation requirements. 2018 Summer Term for high school was a 24-day program held from June 18, 2018 to July 20, 2018 at 73 sites across the district and served 37,199 students. Credit recovery efforts continued to support district graduation rates and a-g achievement levels, allowing a cohort of students to graduate during the summer or to return on-track toward meeting the district graduation requirements.
- Local district enrollment and attendance initiatives geared toward supporting schools with improving student attendance were funded at \$2.55 million. These initiatives included supports for mailers and phone banks to support outreach to student in danger of being chronically absent in identified high need schools. Overall district tracking of attendance indicated improvements in many schools, though the work

work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;

Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;

Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;

stoppage in January resulted in some setback in school progress on this indicator.

- District science centers were also funded (\$734,000) to support the continued implementation of new state science standards by providing instructional materials and resources to schools which assisted in the district meeting state instructional materials requirements across the grade levels.
- Additional enrichment programs such as athletics (referees, equipment, coaches at \$3.4 million), academic decathlon (\$757,387), afterschool programs (\$132,895), and all city marching band (\$129,701) were also funded to support student engagement.

Note that English Language Arts interventions including Academic Literacy supplemental materials, Accelerated Academic Literacy-Tier 3 ELA Intervention, Long-Term English Learner (LTEL) courses and English Language Development and access to core interventions fall under Goal 2 Action 9. AVID (Advancement via Individual Determination) is funded through external funding. Dual Language/Bilingual Programs fall under Goal 2 Action 4. International Baccalaureate programs were funded through Goal 3 Action 2. Social-Emotional Programs were funded through external grants. Significantly Disproportionate Coordinated Early Intervening Services (CEIS) program funding expired in 2017-18 and any related programs were funded through Goal 2 Action 7. Structural & Process Interventions such as pilot schools were funded through Goal 2 Action

Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,

Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high

5, and Local Initiative Schools were funded through Goal 6 Action 2 Districtwide Supports.

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supported and expanded our existing Career Technical Education (CTE) pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provided opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content theyve acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1-3 funds supported over 411 CTE pathways across the district.

Through this funding, LA Unified has:

- Implemented cutting edge industry-

<p>school pathways,</p> <p>Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.</p> <p>Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.</p> <p>These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.</p> <p>LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:</p> <p>Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.</p> <p>Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.</p>	<p>aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;</p> <ul style="list-style-type: none"> • Changed the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces, medical simulation labs; • Developed a continuum of industry sector-aligned Work Based Learning opportunities for students, both in the classroom and in the industry sector workplace; • Grown the number of CTE-credentialed teachers at LA Unified, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA; • Articulated CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LA Unified/Los Angeles Community College District AB 288 dual credit MOU. In 2017-18 students earned 5,364 industry-aligned certifications. <p>Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program,</p>		
---	---	--	--

providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LA Unified to implement Linked Learning at 72 pathways across the District, an increase in 24 pathways over the last three years. This funding:

- Provided seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funded the development of interdisciplinary real-world projects aligned with the pathway industry theme,
- Provided funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Made teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funded Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funded a Dual Credit and Articulation Coordinator who is

working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LA Unified school day. These innovative options increased awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provided students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LA Unified has 14 gold certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.
- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

LA Unified Linked Learning high school pathways outperformed non-Linked Learning high schools in graduation rates, a-g on track/completion, SBA English and SBA math while Linked Learning pathways have 16.4% English Learner students compared to 9.5% English Learner students in district non-Linked Learning pathways.

Additional information about LA Unified Linked Learning pathways may be accessed at: <https://achieve.lausd.net/Page/524>.

Action 2

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: Specific Schools: Adult Schools; Specific Grade Spans: 9-12 grade</p> <p><u>General Adult and Career Education</u></p> <p>The Districts Adult and Career Education division provides educational opportunities to adults in the District. Allowing adult learners to acquire basic skills and work certification for gainful employment.</p> <ul style="list-style-type: none"> • English as a Second Language • Adult Basic Education • Adult Secondary Education • Alternative Education and Work Centers (AEWCs) 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: Specific Schools: Adult Schools; Specific Grade Spans: K-Adult</p> <p>During the 2018-19 school year, approximately 63,000 adult learners enrolled in DACE's core instructional programs: ESL, Academic, and CTE. Preliminary data show region-leading outcomes in all areas, including employment, high school diploma/equivalency attainment, and learning gains as measured by the state assessment system (Comprehensive Adult Student Assessment Systems [CASAS]).</p> <p>English as a Second Language (ESL) - Family Success Initiative (FSI): ESL classes designed to train parents to support K-12 student success were provided at 20 elementary and middle schools. Approximately 350 program participants received contextualized language instruction connected to a variety of District-specific parent education modules. Modules helped parents of K-12 students improve their language skills, support the educational success of their children, and increase involvement in their school communities. During the 2018-19 school year, the number of FSI sites grew from 13 to 20 (with at least one site in each Local District) and enrollment increased by 34%. Additionally, FSI partner schools have reported an increase in parent participation in volunteer activities and advisory committees.</p> <p>Adult Secondary Education (ASE): ASE courses leading to a high school diploma or equivalency were</p>	<p>\$386,814 - LCFF - 1000-1999 Certificated Salaries \$143,302 - LCFF - 2000-2999 Classified Salaries \$235,660 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$362,549 - LCFF - 1000-1999 Certificated Salaries \$166,576 - LCFF - 2000-2999 Classified Salaries \$217,038 - LCFF - 3000-3999 Employee Benefits</p>

	<p>offered across all Division of Adult and Career Education campuses. Approximately 19,800 ASE students enrolled in A-G approved courses and received individualized instructional support. All courses were open to parents of K-12 students and concurrently enrolled secondary students (age 18 or older).</p> <p>Career Technical Education: CTE courses representing numerous high-demand job sectors were offered across all DACE campuses. Approximately 13,400 CTE students received hands-on career training leading to industry-recognized certification. All classes were open to parents of K-12 students, concurrently enrolled secondary students (age 18 or older), and recent LAUSD graduates.</p> <p>Pre-Apprenticeship Programs and Apprenticeship Partners: Pre-apprenticeship programs were offered at selected Division of Adult and Career Education campuses. Approximately 310 pre-apprenticeship students built their foundational academic and career skills in preparation for entrance into one of the Division of Adult and Career Education's over 40 state-approved apprenticeship programs. All classes were open to parents of K-12 students, concurrently enrolled secondary students (age 18 or older), and recent LAUSD graduates.</p>

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed</p>	<p>\$21,581,417 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$7,239,969 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$15,811,945 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,318,878 - LCFF - 3000-3999 Employee Benefits</p> <p>\$253,235 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

<p>Schools</p> <p><u>Teacher Retention and Support Program (REED)</u></p> <p>Increase Support to Sites with High Turnover and high concentrations of unduplicated students. Supports include staffing, professional development augmentations and recruitment and retention enhancements. Also includes new teacher support and assistance (BTSA).</p> <p>Impact of resources will be assessed by the metrics listed in Goals #1 and Goals #2.</p>	<p>Schools</p> <p>In Spring 2014, a settlement agreement was reached between the District and Plaintiffs who are represented by American Civil Liberties Union (ACLU), Public Counsel, and Morrison Foerster, as well as UTLA, and Partnership for Los Angeles (PLAS). Although Associated Administrators of Los Angeles (AALA) was not a party to the litigation, AALA also participated in the settlement discussions. The settlement agreement was unanimously approved by the Board of Education, and was subsequently approved the Court as well.</p> <p>The settlement agreement provided for a robust set of administrative and other support at 37 schools, which were selected based on their API 1-3 ranking, high teacher turnover rate, and four of those schools had the highest student dropout rates. These schools have great concentrations of students who are English learners, foster youth and/or from low income families. Eighteen percent of the students at these schools were born outside of the United States (i.e., immigrants). The Reed Investment Schools received the following:</p> <ol style="list-style-type: none"> 1. 1 Additional Assistant Principal 2. 1 Additional PSA Counselor, Psychiatric Social Worker or Secondary Counselor <ul style="list-style-type: none"> ○ For the 2018-19 school year the following were allocated: <ul style="list-style-type: none"> ■ PSA - 13 ■ PSW - 4 ■ Guidance Counselors - 20 3. A-Basis for Principal and Reed Assistant Principal 4. 1-4 Mentor Teachers: Reed supports 91 mentors that provide ongoing support to over 370 non-permanent teachers at all 37 Reed sites. 5. 1-2 Special Education Support Providers (for schools with at least 15% of the student population with special needs) 6. Unique Professional Development - Reduction in Force Protection <ul style="list-style-type: none"> ○ 40 hours of additional paid professional development training provided to all teachers and 		
---	--	--	--

- non-administrative certificated staff at the Reed schools.
- For the 2018-19 school year, 397 staff members in Reed schools received additional specialized training for a total of 11,751.795 hours.
- 7. Reed Mentor Professional Development
 - 6 sessions provided for the 2018-19 school year
 - 2018-19 focus: Standard 6.1 through 6.4 of the continuum of mentoring practice.
- 8. Recruitment and Retention Incentives
- 9. 1 Saved Position of math or English Language Arts teacher (in event of displacement due to decline in enrollment)
 - For the 2018-19 school year, a total of 14 math or English Language Arts teacher positions were funded by the Reed program to prevent the teacher from being displaced.
- 10. Extra Conference Periods (for non-permanent teachers)
 - As outlined in the final settlement agreement, "every non-permanent teacher receives an additional conference period" in order to provide time to meet with mentor teachers, observe experienced teachers, and plan instruction.
- 11. Long Term Substitute Funding
- 12. School Site Support Visits
 - 2018-19 - 16 Reed schools visited
 - Goal: Review of Reed professional development and implementation
 - Habits of Mind
 - Reed Investment Engagement Strategies
 - Teaching and Learning Framework
 - Teacher Retention Supports (Reed Mentors)
 - School wide PD goals
 - School experience survey

	<p>The three year Reed Investment School Program was scheduled to end on June 30, 2017 (after commencing in 2014) pursuant to the original settlement agreement and court order. The District voluntarily extended the program through June 2019, an additional year beyond what was required under the court order. The Reed Investment School Program will discontinue June 2019.</p> <p>During the implementation of the Reed Investment Schools program, Investment Schools made gains on key metrics. Investment Schools also closed the achievement gap on teacher retention rates. Additionally, teachers indicated an increase in positive perceptions of school climate, teacher satisfaction, and school safety as measured by the five-year growth data indicated on the School Experience Survey.</p>

Below is the distribution of actual expenditures across initiatives included in this Action. School discretionary resources are funds and/or positions in which schools receive an allocation and a school principal, with input from stakeholders, has discretion on how those funds will be utilized to serve targeted student populations. District-wide programs, such as our library aide investments in elementary schools, are positions determined for all students which must be principally directed with the intent to improve the learning of targeted student populations. These resources have a central administration to ensure coherence and continuity in learning for students. Other School Based resources are targeted positions centrally provided to schools, however schools may opt out of designated positions. There are Central and Local District staff funded who were necessary to support the effective implementation of school-site autonomy and to coordinate resources and services across schools.</p>	<p>\$466,137,200 - LCFF - 1000-1999 Certificated Salaries \$58,799,461 - LCFF - 2000-2999 Classified Salaries \$192,126,369 - LCFF - 3000-3999 Employee Benefits \$8,358,997 - LCFF - 4000-4999 Books and Supplies \$12,608,616 - LCFF - 5000-5999</p>	<p>\$438,323,358 - LCFF - 1000-1999 Certificated Salaries \$56,159,472 - LCFF - 2000-2999 Classified Salaries \$176,226,501 - LCFF - 3000-3999 Employee Benefits \$29,452,802 - LCFF - 4000-4999 Books and Supplies \$9,604,833 - LCFF - 5000-5999</p>
	<p>Initiative</p>	<p>Resourcing</p>	<p>Expenditure</p>

<p>how to provide supports to unduplicated students. Funds are distributed utilizing the Districts student equity-based index. Services and positions supported by this resource are to be aligned with the Districts investments and strategies outlined in the District LCAP and a schools single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the Districts LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the Districts LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.</p>	Student Equity Needs Index*	School Discretionary	\$253,124,433	<p>Services and Other Operating Expenses - Grant Set-Aside \$960,453 - LCFF - 6000-6999 Capital Outlay</p>	<p>Services and Other Operating Expenses \$883,738 - LCFF - 6000-6999 Capital Outlay</p>
	Additional Teachers to Support A-G Access	District-wide	\$238,100,000		
	Pre-School for All (PAL) Expansion	Other School Based	\$78,467,192		
	Pilot School-Budget Autonomy	School Discretionary	\$51,831,619		
	Nurse/High School Counselors	Other School Based	\$45,413,446		
	Proportionality-Campus Aides	District-wide	\$8,800,233		
	Local District Staffing	District-wide	\$7,036,792		
	Licensed Vocational School Nurses	Other School Based	\$4,396,056		
	Central Office Staff Support	District-wide	\$4,333,626		
	Local District-Sal/Ben/OE	District-wide	\$2,525,731		
	Additional Resources for Innovation Focus Schools	School Discretionary	\$2,443,980		
	Library Aides - District Share	District-wide	\$1,901,169		
	Advanced Placement Exam Expenses	District-wide	\$1,900,020		
	Local District Allocations to Schools	School Discretionary	\$1,683,954

	School Nurse - Proportionality	District-wide	\$429,936		
	Division of Instruction Staff	District-wide	\$338,066		
	UCLA/LAUSD Collaborative-Central Support	District-wide	\$153,622		
	UCLA/LAUSD Collaborative-School Site Support	School Discretionary	\$106,186		
	<p>These district-wide programs were necessary to support the effective implementation of school-site determined Targeted Student Population (TSP) plans that outlined their planned use of Student Equity Needs Index funds. These funds and the school-site TSP plans are described in more detail later in this Action. The programs above may be categorized across a number of themes that support the District's goal of 100% graduation:</p>				
	<ul style="list-style-type: none">● Academic Intervention and Achievement - Central Office and Local District staff developed, coordinated and facilitated professional development across schools with high need students that focused on intervention and differentiation strategies to support student learning. Library aides were also funded to support literacy learning in schools across the District. The College Access program funded staff at the Central Office and Local District levels to support interventions and resource development that college counselors at school sites could use to support students. In order to support school-site implementation of increased numbers of Advanced Placement courses to meet District and state goals around college readiness, the District also subsidized the Advanced Placement exam expenses for schools. The UCLA/LAUSD Collaborative connected UCLA staff with school site administrators and teachers to improve high school strategies for English Learner achievement and				

■ Enhances school-climate

■ Tutoring supports	
■ Librarian and Library Aide	
■ A-G supports, i.e. credit recovery programs, counselors, etc.	
Provide additional counseling resources to support academic and college & career counseling for high school	

- college preparation. Bilingual differentials were also provided to teachers to ensure that more highly qualified teachers are available to improve supports for English learners and are able to communicate with parents and community members to support student learning.
- Student Social-Emotional, Physical and Mental Health - To assist schools with meeting the social-emotional, physical and mental health needs of low income students, English learners and foster youth, many staff that support school-site needs such as nurses and pupil services and attendance counselors are supervised or managed through the Central Office. Campus aides were also funded to support positive school climates at schools.
 - School Autonomy for Identified Schools - The District's 46 Pilot schools (listed at <https://achieve.lausd.net/Page/2841>) received separate allocations because pilot schools have additional autonomies and expectations for teacher involvement in governance that include innovative school practices to improve the achievement of low income students, English learners and foster youth. Additional resources were provided to two identified focus innovation schools (Columbus Middle School and LaSalle Elementary) because of the low academic performance of English learner, low income and foster youth in their schools. Pilot schools and these focus innovation schools purchased additional teachers and counselors to support low income, English learner and foster youth students with academic progress toward the district's graduation requirements and grade level expectations. Additional administrators and coordinators improved the quality of instruction in classrooms through coaching and professional development.
 - Early Education Instructional Interventions - The Preschool for All Learners (PAL) program involved the conversion of preschool classrooms to full day, early childhood classroom environments aligned with Universal Design for Learning that are developmentally and individually appropriate for all students. 401 PAL classrooms were implemented in the 2018-19 school year across the District. PAL staff and resources were provided to schools in order to meet the need to close the achievement gap between English learners, foster care and low income students and other student groups.
 - Teacher Quality - In order to support school-site plans to improve student preparation to meet the District's more rigorous graduation requirements, the District centrally provided additional teachers to ensure high quality teachers were available as schools invested to reduce class sizes and increase the number of elective teachers. In part due to the change in the District's graduation requirements beginning with the graduation class of 2016, schools at all grade levels have been asked to prepare all students for a more rigorous expectation for graduation than other school districts. To support low income students, English learners and foster youth to meet these more rigorous graduation requirements, additional teachers were provided to schools.

Student Equity Needs Index

For the 2018-19 school year, the Student Equity Needs Index (SENI), as the major program funded through this Action (see table above), continued to distribute funding based on the identified needs of school communities. In collaboration with community organizations, the index was revised to include additional indicators of student need including academic indicators, school climate indicators, community indicators (i.e., childhood asthma and gun violence) and new demographic indicators. These indicators align with the new state dashboard. The school rankings were separated by school levels (i.e., elementary, middle and

students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

For 2018-19 additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the Districts student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

high), with some indicators given greater weight within each school level based on the districts areas of focus in the strategic plan. Specifically, college readiness is prioritized for high schools, school climate and safety are prioritized for middle schools, and math and literacy scores are prioritized for elementary schools. Additional information about the SENI funding formula and overall allocations may be found at: <https://achieve.lausd.net/Page/15878>. School allocations are listed at the following website: <https://ca01000043.schoolwires.net/Page/15604> select "School Allocations for Targeted Student Populations (TSP)."

Schools received their allocations and were required to support their collaborative decision-making on the use of funds in the schools Targeted Student Population (TSP) Plan to ensure alignment with district goals. A menu of recommended professional development and supports that are aligned with the districts goals were offered to schools. Detailed information about each school TSP Plan is accessible at schooldirectory.lausd.net. Of the approximately \$250 million expended in SENI in 2018-19, over 96% of these funds were utilized to purchase additional certificated staff beyond the District-allocated norms including part or full-time additional assistant principals, intervention support coordinators, arts teachers, class size reduction teachers, Psychiatric Social Work counselors and Pupil Services and Attendance counselors. Below is a distribution of the top expenditures constituting 95% of the funds that schools utilized through SENI in the 2018-19 school year:

ADMINISTRATOR - ASSISTANT PRINCIPAL	\$55,781,772.78
TEACHER	\$42,401,007.02
SPECIAL ASSIGNMENT - NON CLASSROOM - PREP	\$37,932,379.12
TEACHER - LIBRARIAN	\$10,394,148.34
COUNSELOR	\$9,901,569.51
ASSISTANT PRINCIPAL - SECONDARY COUNSELING SERVICES	\$9,094,562.13

ENROLLMENT-CLERICAL OVERTIME	\$1,045,852.58
MICROCOMPUTER SUPPORT ASSISTANT	\$1,025,805.31

In addition, schools were allocated positions to support TSP students such as nurses, counselors, campus aides, clerical staff, assistant principals and class size reduction teachers. Schools utilized these resources to complement their plans to improve their results on the state dashboard. Based on the TSP plans developed by school sites, schools implemented the services to provide increased and improved services to low income students, English learners, and foster youth in the following ways:

Elementary School Autonomy

- To support the social-emotional, physical and mental health needs of high needs students, schools purchased additional counselors, PSA counselors, nurses, psychologists, and other health welfare staff to support students and to reduce chronic absence and increase student engagement in school.
- To support the academic needs of low income students, English learners and foster youth, schools purchased additional assistant principals, teachers, teacher librarians, instructional coaches, and provided additional teacher overtime to support interventions and differentiation for students, particularly in the area of early literacy. This included teacher tutoring overtime to support after school learning for these students. Some schools also used these funds to purchase software licenses to support literacy interventions and assessments within schools. Schools purchased additional supplemental instructional resources to use alongside adopted curricula to support student interventions and differentiation.
- Campus aides and additional classified staff members such as senior office technicians and clerical staff provided additional supervision and safety for students in addition to supporting parent and community engagement. Building and grounds workers were used to ensure facilities and landscaping were improved and prepared for programs beyond the school day.

Middle School Autonomy

- Because low income students in adolescence face particular challenges with social-emotional and wellness challenges, middle schools utilized resources such as additional counselors, PSA counselors, nurses, psychologists, and other health welfare staff to support the social-emotional, physical and mental health needs of these students to address early warning indicators for students such as chronic absenteeism, low grades and discipline issues.
- 8th grade math and English Language Arts teacher auxiliaries were provided to all middle schools to provide class size reduction in core courses and to increase opportunities for additional core and elective course offerings and to provide

opportunities for intervention courses for high needs students.

- Middle schools also hired additional teacher librarians, instructional coordinators, and assistant principals to support teachers with additional coaching and instructional support focused on English Language Arts and mathematics performance for high needs students.

High School Autonomy

- With a focus on graduation for all high needs students, high schools focused resources on purchasing staff who would directly support student progress toward meeting graduation progress milestones at each grade level. These staff included additional assistant principals of secondary counseling services and academic counselors to provide direct guidance to identified students who were not on track toward meeting district graduation requirements. Additional class size reduction and elective teachers were purchased to broaden the master schedules in schools to offer the full array of A-G courses along with intervention courses to ensure that students were on-track to meet graduation requirements.
- Recognizing that low income, English learner and foster youth high school students face additional personal and life challenges due to trauma, poverty, and access to healthcare, high schools also hired additional nurses, Pupil Service and Attendance counselors, psychiatric social workers, and health care classified staff to support students and families and to connect them with resources to ensure that students can focus on their academic success. Schools also purchased parent and community representatives to lead workshops related to A-G graduation requirements and to support college counselors with engaging parents about college readiness for students.
- Because of the district's more rigorous A-G course graduation requirements, high schools directed resources toward additional staff including college counselors and additional teachers to ensure that graduating students have the opportunity to meet the A-G college entrance requirements. Schools purchased teachers to allow for additional course offerings including additional Advanced Placement and other college preparatory courses. College counselors were purchased to provide students with guidance and support using the district's Naviance college and career readiness online platform, which also provided parents with access to track student progress and support students exploration of college and careers.

At the recommendation of the board of education, district staff engaged stakeholder groups during Fall 2018 to review the current implementation of the Student Equity Needs Index and to receive feedback and recommendations on its continued implementation in the 2019-20 school year. Eight stakeholder meetings were held with parent, student and community representatives to provide feedback on the current index and allocations. This provided input on the next steps with the Student Equity Needs Index implementation for the 2019-20 school year.

Local District staff monitored school site implementation of the overall School Autonomy Action. As part of this monitoring, Local District staff had regular meetings with school leaders to review relevant data points on progress toward graduation for all students. In particular, school leaders regularly reviewed student grades at each mark reporting period and monitored alignment with Smarter Balanced interim assessment block results among assessed grades. Some qualitative indicators of the effectiveness of this Action from the 2018-19 School Experience Survey administered in the Fall to students, parents, staff and teachers include the following:

	<ul style="list-style-type: none"> • 84% of high school students "know which A-G courses I need to pass with a "C" or better to get into college" • 80% of middle school students and 88% of elementary school students agreed that "Adults at this school encourage me to work hard so I can be successful in college or at the job I choose." • 89% of high school teachers agreed that "Teachers in this school feel that is a part of their job to prepare students academically to succeed in college." • 82% of high school teachers agreed that "Teachers expect most students in this school to go to college." • 88% of elementary students, 77% of middle school students, and 72% of high school students agreed that "This school is a supportive and inviting place for students to learn." • 77% of high school teachers are "comfortable communicating the requirements for meeting the A-G course sequence to parents and students" and 71% of teachers agreed that they "regularly communicate with individual students about their progress toward meeting the A-G requirements." • 88% of elementary students, 76% of middle school students, and 70% of high school students agreed that "My teachers work hard to help me with my schoolwork when I need it." • 83% of elementary students, 76% of middle school students, and 70% of high school students agreed that they "can earn high marks/grades in my classes."

<p>program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.</p>	<p>the effectiveness of options schools indicates that students at these schools were able to complete more credits where they were deficient, which placed them closer to being on track for graduation. Options schools also demonstrated improvements in areas such as attendance rates and suspension rates.</p> <p>In addition, all options schools received access to a screener for literacy and mathematics to support implementation of multi-tiered systems of support as a diagnostic tool to inform classroom instruction. The universal screener for literacy and for math provided the options schools with valuable data to adjust instruction to provide targeted support to students. Feedback from principals and teachers at school sites indicated that this diagnostic tool supported improved teacher differentiation of instruction for students and increased opportunities for students to demonstrate their levels of performance.</p>

Action 8

Planned
Actions/Services

Actual
Actions/Services

Budgeted
Expenditures

Estimated Actual
Expenditures

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: High Schools</p> <p><u>A-G Diploma Program</u></p> <p>The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.</p> <p>Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.</p> <p>The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. Middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: All Title 1 High Schools, 20 Middle Schools</p> <p><u>A-G Diploma Program</u></p> <p>20 Supported Middle Schools: Liechty, Adams, Obama, Castro, Carver, Nimitz, Southeast, Gage, Pacoima, Reed, Columbus, Wilmington STEM, Fleming, Bethune, Gompers, Markham, Peary, Bret Harte, Audubon, Mann.</p> <p>Tier 2 and 3 students were identified at schools based on their on-track course completion. Each Diploma Counselor was provided with a case load with each students at risk indicators. Diploma Counselors identified the barriers that are keeping students from succeeding academically and attending school regularly. Diploma Counselors provided referrals and link students and their families to district and community services to address their needs. Diploma Counselors met with each individual student, collaborated with the academic counselor to develop a specific plan to get back on track. Diploma Counselors conducted regular check in appointments with students to monitor progress and address ongoing needs including academic, social-emotional, engagement and behavioral struggles. Diploma Counselors collaborated with school site personnel, including counselors, deans, restorative justice advisors, and/or PSWs to support Tier 2 and 3 students. Diploma Counselors tracked and reviewed academic, behavior, attendance, and credit recovery data to monitor progress and calibrate interventions. A summary description of this program is available at: https://achieve.lausd.net/Page/12897.</p> <p>The tier status of each student in the targeted student population (Tier 2 and Tier 3) was gathered at the beginning of the 2018-2019 school year. The data was gathered using the FOCUS online District dashboard system. At the beginning of the year there were approximately 17,998 Tier 2 and 3 students. Using</p>	<p>\$1,577,190 - LCFF - 1000-1999 Certificated Salaries \$612,916 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$1,447,001 - LCFF - 1000-1999 Certificated Salaries \$373,637 - LCFF - 3000-3999 Employee Benefits</p>
--	---	--	--

- Tier 2 reflects a student who is 3-4 classes off-track
- Tier 3 reflects a student who is 5 or more classes off-track

FOCUS, data is also gathered at the end of each semester. The goals of the A-G Diploma Program include increasing tier status, promoting college and career readiness, improving attendance rates and decreasing dropout rates. The year-end data in June 2019 revealed that 4,357 (24%) of Tier 2 and 3 students successfully completed enough classes with passing grades to move up at least one or more tiers as a result of A-G Diploma Program efforts.

Action 9

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades 9-12</p> <p><u>A-G Immediate Intervention Plan</u></p> <p>Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: All high schools, select elementary and middle schools; Specific Grade Spans: Grades K-12</p> <p>Local Districts were allocated funds and developed plans to best support the needs of schools in their areas. Local Districts and schools utilized the menu of resources available through the Division of Instruction to improve graduation rates and a-g course completion in schools. The Division of Instruction describes the menu of resources available to support Local District and school plans as follows:</p> <ul style="list-style-type: none"> • Adult Education Partnership: At selected sites, students can retake courses at DACE sites after the school day or on Saturdays. Small class sizes and flexible pacing 	<p>\$3,745,061 - LCFF - 1000-1999 Certificated Salaries \$1,491,189 - LCFF - 3000-3999 Employee Benefits \$8,789,363 - LCFF - 4000-4999 Books and Supplies \$1,028,584 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$8,052,342 - LCFF - 1000-1999 Certificated Salaries \$2,859,174 - LCFF - 3000-3999 Employee Benefits \$1,858,912 - LCFF - 4000-4999 Books and Supplies \$2,640,758 - LCFF - 5000-5999 Services and Other Operating Expenses \$224,296 - LCFF - 2000-2999 Classified Salaries</p>

semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning-Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

support success. Student participating in these types of credit recovery numbers over 5,100.

- Auxiliaries: Provides opportunities within the school day for students retaking failed courses. The number of courses and time frame will depend on room in each schools master schedule to add auxiliary periods. Credit recovery opportunities may also be offered in a zero period. 14 auxiliaries were supported through funding for this area.
- Edgenuity Virtual and Blended Programs: Students can be programmed into either option, depending on need and school resources. In the Blended model, classes are led by a subject-credentialed teacher who provides differentiated teaching and support. The Virtual model class is led by a credentialed teacher who assists students with platform access, time management, study skills supports, etc. over 14,555 students utilized online licenses across the district, accounting for over 25,000 course enrollments across 183 schools.
- Independent Study: Students enter into a written agreement/contract stipulating the manner of assignments granted, frequency of assignments, and the time frame to meet with the teacher for additional instructional support. This program provides students in employment or other obligations with another opportunity to retake classes, and reduce the potential for dropping out. Over 2,000

students utilized this program to recover credits.

- Performance Assessment Student Support (PASS): These modular programs are designed for students who have previously failed a Math or ELA course required for graduation. PASS courses are self-paced, modular, teacher directed, and administered to small groups outside of the regular school day. They are ideal for students who need personalized teaching to gain mastery of skills and standards. PASS was utilized in 35 schools to support over 1,200 students.
- Recovery + Intervention = Graduation (RIG): This unique option is a collaborative arrangement between a comprehensive high school and a neighboring continuation school using the pass-through system. Students in RIG remain enrolled in their high school while taking one to two classes at the continuation school during the day or after school. RIG was utilized in 10 schools and served approximately 350 students.
- Winter Break and Spring Break: Schools can schedule intensive credit recovery programs using a block scheduling model so that students can maximize time to recover needed credits while off track. During these sessions, students can complete a class already started or begin a new course. Typically of five or six days duration, students can take one or two classes during the day. Schools offer successive Saturday

sessions for students needing additional time to complete and pass their class. 62 schools implemented these programs and served about 1,500 students.

Additional school-wide programs targeting high school student success in graduation and the state College/Career indicator on the dashboard included:

- **Algebra I Intervention Pathway Program and Geometry Intervention Program:** These programs were designed to provide intervention in a timely manner as failure prevention. These intervention resources, available in Schoology, were designed to be personalized and accessible for students and teachers. Materials and resources can be used for direct instruction, project-based learning and assigned for independent practice. Students receive instruction, complete assigned work, and are assessed on a particular learning target from units where they need additional support. The intervention is offered within the Algebra I or Geometry class, before or after school, or through a math tutorial lab class. Students can stop attending once they no longer need the support. 60 teachers were trained in this program and implemented it in their classrooms.
- **Mastery Learning and Grading:** The Division of Instruction provides Mastery Learning and Grading professional development series, that includes salary point classes to interested teachers,

administrators and staff. Mastery Learning and Grading is a growth-mindset RTI Tier 1 approach to teaching and learning offering an alternative to traditional instruction and grading. By refocusing classroom grading and assessment on clear learning targets and by implementing research-based instructional practices that honor individual students variables necessary for learning, Mastery Learning and Grading allows more students to succeed academically and take charge of their own learning. Administrators, teachers and staff can be be certified through the MLG Salary Point Class or the MLG PD series (six 2 hour, in-person workshops and 8 hours of online learning). Once participants have completed the training, they work on creating Mastery Learning and Grading classroom materials such as standards-based learning targets, syllabi to communicate MLG practices to students and parents, rubrics to make clear what proficiency in each learning target entails, and tiered assessments of learning targets to provide multiple opportunities for students to reach proficiency. There are two Mastery Learning and Grading Coaches in each local district, one focusing on the Humanities and one that focuses on STEAM. 200 schools have engaged in MLG PD, and over 1,280 teachers have been certified in these strategies. 298 teachers have earned salary point credits for completing this training, and 94 facilitators district-wide are

able to implement this training for other teachers. 2,973 teachers were trained during the past two summers, and over 8,000 visitors to date have utilized the online learning platform that supports teacher professional development in these strategies.

- **Pre-AP/AP Summer Institute (Advanced Learning Options):** Advanced Learning Options offered a two-day professional learning opportunity, funded with the College Readiness Grant, to discuss course-specific/discipline-specific content, instructional strategies, course organization and methods for promoting increased participation and success of diverse learners in A-G courses, including Advanced Placement (AP) and Honors. Sessions were led by College-Board endorsed subject experts. Nearly 800 secondary teachers participated in course-specific, 2 and 3- day AP workshops (20 workshops) and in discipline-specific 2 and 3-day Pre-AP sessions (13 workshops).
- **AP Readiness Program (APR):** Supplemental instructional support for students and teachers was available through the AP Readiness Program at UCLA Center X. All District high school students enrolled in an Advanced Placement course, and their teachers, are invited to participate. There were two strands of AP Readiness: STEM and Humanities. The Humanities strand included English Language, English Literature, Psychology, Spanish, U.S. Government, U.S. History, and

World History. In addition to providing instructional support to students, the APR program offers comprehensive and high level professional development for current and potential teachers of AP courses in STEM and Humanities areas with University professors. Students met once a month at UCLA from September through April, transportation from school sites and materials are provided. Participants in APR are a dedicated community of learners who continue to forge friendly and professional connections throughout LA Unified. 9,000 students and 535 teachers across 114 schools participated in AP Readiness during the 2018-19 academic year.

- **AB 288 Concurrent Enrollment:**

High schools in each Local District have partnered with local community colleges to offer college credit courses to high school students with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness. 19,056 students enrolled in courses in 2018-19 an increase from 8,640 student enrolled in 2015-16.

- **Expository Reading and Writing Course (ERWC)** is a rigorous, rhetorically based, full-year college preparatory English course for high school seniors designed to support college-readiness in English.

Training for this course, which enables students to be prepared for college level reading and writing, has been completed. Teacher training is currently being offered. 683 course sections were implemented in 144 schools across the district.

- **SAT Practice All In Challenge: Local District Khan Academy Workshops:** Teachers received training to use PSAT results to create targeted instruction to prepare for the SAT exam. At these workshops, which will be held in each local district, designated high school certificated staff learned how to: create a teacher/coach Khan Academy account, access the teacher/coach dashboard and coaching tools, link student accounts and monitor student practice and progress. The number of participants from each high school was dependent on 10th grade enrollment and must include the PSAT coordinator. Teachers implemented these supports with students in schools once students received the PSAT scores. Students then accessed the resources in Khan Academy to prepare for the SAT. 80% of all 11th grade students participated in the SAT during the 2018-19 school year.
- **Transition to College Mathematics and Statistics (TCMS):** 34 schools are currently offering this 4th year mathematics course available to ensure college readiness for students who have passed Algebra 2 but have scored at Standard Not Met or Nearly Met.

1,700 students are enrolled in the 58 sections being offered.

- **College Access Teacher Training (CATT) Cohort 1 in 2017 & Cohort 2 2018:** Approximately 70 LA Unified educators completed a course at Cal State LA led by Dr. Rebecca Joseph to develop capacity in the area of college advisement. Participants learned best practices from experts in the field of college readiness and developed projects to strengthen the college-going culture at each of their schools. CATT is a rigorous, high quality PD that prepares teachers and counselors to become college and career advocates in their current positions. Up to seven salary points may be earned upon the completion of the coursework and practicum school-based projects that are due at the end of the program.
- **College Access Network (CAN):** This professional development series, created by the College Counseling Collaborative and known as College Access Network (CAN), comprises 5 full days of college readiness training for school personnel. Following their initial offering during the 2017-18 academic year, all modules were updated to reflect changes in the college access/admission landscape and the revised CAN trainings are in session this year. The series was offered on a flexible schedule; each module was offered three times including on Saturdays to avoid disrupting school schedules. 220 counselors and college advisors participated in

this training.

- **College Palooza:** The district-wide college and career event, held at LA Trade Tech College, took place on March 16th 2019. The event was open to all district staff, educators, families and students. Ranjit Sidhu of the National Council for Community and Education Partnerships (NCCEP) was the keynote speaker. There were 20 workshops for families and 10 for educators in a 3-period schedule. To accommodate groups bused in from secondary schools, there were several sessions tailored for students only and campus tours led by Trade Tech scholars. Also there was a college and community resource fair with admission reps from public and private institutions, with local business and non-profit partners. About 1,400 participants including approximately 800 parents participated in this event.
- **College Cafe:** A series of pre-recorded Power Point presentations is in development. Known as College Cafe, the series is designed as a narrated click and play option for parent centers, informal school events, etc. Each episode comprises 15 slides focusing on one specific aspect of college knowledge, for example the CSU system, private college applications, and financial aid. By capturing important need-to-know facts in a short format, College Cafe is easily digestible while building postsecondary empowerment in our families. These modules were presented to

Parent Center Directors to share with parent representatives at school sites.

- **The Quaglia Institute Parent and Family Seminars:** In February 2019 Dr. Russ Quaglia presented two evening events at Chatsworth and Huntington Park High Schools: *Inspiring My Child Today for a Bright and Successful Future*. Open to all LA Unified families, the presentations covered ways to engage and encourage students, and gave families practical strategies to communicate better, inspire with purpose, and support their children through the challenges and successes of being a student.

Additional programs were developed for middle and elementary schools to better prepare students prior to enrolling in high school.

- **Middle School Intervention STAR 8:** A new intervention programs for 8th grade Math and ELA has been created. The program consists of 8-day modular curricula, aimed to raise students academic achievement, ready them for a success in A-G courses, and culminate middle school in good standing. Each program provides a wealth of materials that review, reinforce and increase mastery of key standards and skills. This program was piloted in two middle schools, with 30 teachers participating in the first training in May.
- **Middle School Intervention PASS:** A new PASS program has

been created to support 8th grade students in Math and ELA and training for interested school site teachers occurred in May 2019. PASS programs for 8th grade Math and ELA: both are flexible, modular interventions designed for use during the semester. Students can be enrolled into middle school PASS in or outside the school day to receive extra support and differentiated teaching. This was piloted in two middle schools with 30 teachers participating in the first training in May. The program was then implemented with students in May.

- **Edgenuity Intervention**

- Programs for grades K-8:**

- Licenses have been renewed for the Pathblazer (grades K-6) and My Path (for grades 7 -8). Both interventions have screening features for immediate placement in Math and Reading lessons, with students receiving auto-prescribed content based on mastery. To facilitate effective use of the programs there were two full-time Specialists continuing to support school sites, Quick Start guides, an LA Unified Resource Landing Page, a reporting feature that allows for tracking of student time on task, progress, and grades, a helpline, and tech support. This intervention support helps ready students for success in A-G courses. 274 schools utilized these resources, accounting for 40,393 student enrollments in the system.

- **Middle School College and Career Coaches (MSCCC):** These

educators provide support for at-risk students targeted with early warning indicators (attendance, behavior, and low/failing grades in Math and ELA). As credentialed ELA teachers, they also support all teachers with integrating strategies to increase academic literacy. Coaches serve all Title 1 middle schools in full or half-time positions. They collaborate with stakeholders to ensure data-driven, results-based support services and programs are provided for all at-risk students. College and Career Coaches are primarily responsible for identifying achievement gaps, utilizing multiple data points for early alert data to inform intervention and support, assisting the roll-out of ELA/ELD, integrating instructional technology and providing a bridge of support as at-risk students transition into high school. Middle School College and Career Coaches have participated in Naviance training to support implementation at the middle schools. 111 Title I middle schools had 36 full time positions and 75 half time positions (based on enrollment).

- o How many students were supported? 28,599

High schools and Local Districts track graduation progress throughout the year using dashboards that monitor student course completion and completion of other high school graduation requirements. Throughout the 2018-19 school year, Local District reviewed these data on an ongoing basis, and continued to see improvements in student on-track progress throughout the year. These ongoing reviews also led to data dialogues with principals, particularly after report card grading periods, to ensure adequate supports were provided for credit recovery for students. Central Office and Local District counseling coordinators also met twice monthly to track student graduation progress and supported school counselors with identifying students who might be off-track from meeting graduation requirements. Some data from the School Experience Survey administered to students, parents, teachers and staff in

Fall 2018 also provide additional evidence of the effectiveness of this Action:

- 84% of high school students "know which A-G courses I need to pass with a 'C' or better to get into college" the second highest rate of agreement among the 12 items related to future orientation on the survey.
- 64% of high school students responded that they have "met with a counselor at this school to discuss my progress towards graduation" and that "Adults at this school have helped me learn the details of getting into college (completing applications, financial aid, etc.)"
- 80% of middle school students and 76% of high school students agreed that "Most adults at this school expect me to go to college."
- 91% of parents agreed that "School staff expect my child to graduate from high school."
- 89% of parents agreed that "School staff expect my child to attend college."
- 77% of high school parents agreed that "School staff help me understand the requirements for CSU/UC admission."
- 75% of high school parents agreed that "School staff help me understand how to apply for financial aid for college." and "School staff help me understand how to help my child apply for college."

Based on the College and Career Readiness Survey administered in Spring 2019, 88% of participating 12th grade

	<p>students had learned about different types of colleges and 72% had learned about different careers in high school. Almost every 11th grader (97%) had taken the SAT or ACT. 88% of 12th grade students planned to attend college in 2019-20. The most popular four-year colleges where students applied included CSU Northridge, CSU Los Angeles and CSU Long Beach. The most popular two-year colleges were Pierce College, Santa Monica College and East Los Angeles College.</p>

support

- Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery
- Linked Learning
- School climate initiatives including Restorative Justice
- High school graduation and student recovery from dropout prevention for high need students
- Parent and community engagement, particularly for those from high need communities

Starr Jordan, Augustus Hawkins Community Health Advocates, Santee Education Complex, Dr. Maya Angelou Community, Dymally Academy for Multilingual Arts and Science, Augustus Hawkins Responsible Indigenous Social Entrepreneurship, Foshay Learning Center, Augustus Hawkins Critical Design and Gaming, Robert Fulton College Preparatory, East Valley, Sun Valley, Susan Miller Dorsey, Theodore Roosevelt, George Washington Preparatory, Diego Rivera Learning Complex Performing Arts community, Gardena, Diego Rivera Learning Complex Communication and Technology, Thomas Jefferson, Helen Bernstein, Esteban Torres High Engineering and Technology Academy, Sonia Sotomayor Learning Academy Los Angeles River School, Edward R. Roybal Learning Center, Robert F. Kennedy Community Schools Ambassador Global Leadership, Diego Rivera Learning Complex Public Service Community, Panorama High.

Schools were allocated funds to utilize on a selected menu of services or personnel identified by the Central Office as being the most high leverage to improve student performance. Schools were required to draft school-wide plans for the use of these funds - these plans are accessible on the school websites at: <https://schooldirectory.lausd.net/schooldirectory/>. These plans provide descriptions of how these funds increase or improve services for low income, English learners and foster youth.

For example, additional staff (e.g., Psychiatric Social Workers, PSA Counselors, Counselors, nurses, psychologists) supported the mental health and social/emotional needs of high needs students. Additional teachers, non-classroom-based support teachers, assistant principals, and instructional coaches supported high needs students with lower class sizes, additional supports for credit recovery, dropout prevention and academic intervention, and, for middle schools, identification and supports for students that exhibited early warning indicators for future academic challenges. Additional teachers also supported the offering of more Advanced Placement courses in high schools by expanding school master schedules to allow for more students to be able to enroll in these courses. Teachers provided tutoring after school to support high needs students with additional academic personalization and instruction. Schools utilized professional development time and teacher planning time to support implementation of Linked Learning and other school-wide initiatives to increase engagement for

high needs students and to make connections between college and career. School climate initiatives were supported by assistant principals, non-classroom-based support teachers and counselors to continue implementation of Restorative Justice practices and other school climate initiatives to improve attendance rates and reduce suspensions. Additional classroom equipment and supplies along with microcomputer support assistants assisted with the integration of technology in the classroom to engage high needs students with digital resources and personalized learning systems that can accelerate learning while utilizing available district curricular online resources. These schools with high needs student populations also utilized these staffing resources and technology resources to increase parent and community engagement through implementation of district-designed parent workshops delivered at school sites and increasing access to technology resources for parents at schools.

89% of these funds that schools allocated were to the following top 20 actual expenditures as determined by school leadership in consultation with stakeholders:

Additional Teachers	\$ 7,422,688
Non-Classroom-Based Support Teachers	\$ 6,048,275
Assistant Principals	\$ 3,979,524
Contracts for Instructional Services	\$ 3,611,490
Psychiatric Social Workers	\$ 3,583,279
Instructional Coach	\$ 3,406,704
Counselor - PSA	\$ 3,048,038
General Supplies	\$ 2,681,007
Counselor	\$ 2,562,490
Non-Capitalized Classroom Equipment	\$ 2,554,410
Teacher Professional Development Time - Training Rate	\$ 1,791,523
Supplemental Instructional Materials	\$ 1,715,921
Additional Teacher Planning Time	\$ 1,452,691
Office Technician	\$ 1,387,238
Non-Capitalized Equipment - Other	\$ 990,931
Nurse	\$ 804,583
Microcomputer Support Assistant	\$ 803,400

	<p>Psychologist \$ 744,301</p> <p>Teacher Professional Development Time - Full Rate \$ 618,759</p> <p>Teacher Overtime - Tutoring \$ 595,157</p> <p>The remaining funds were allocated to additional staff such as building and grounds workers, senior office technicians, education aides, student and family resource navigators, and parent community facilitators.</p> <p>Local Districts supported schools in identifying and contracting with instructional services support providers to improve student English Language Arts and mathematics performance through the use of formative assessment strategies as a method of developing the assessment literacy of teachers. Local Districts supported schools in utilizing improvement science principles to engage in cycles of continuous improvement throughout the year to strive for improved performance on the state dashboard indicators. The difference in the budgeted expenditures compared to the actual expenditures was largely due to the timing of budget development and personnel recruitment and hiring. The majority of funding for these schools was allocated to additional staff to support high need students such as assistant principals, coordinators, academic coaches, counselors and teachers.</p> <p>Local District staff and school site teams monitored the implementation and effectiveness of these services for English learners, low income students and foster youth. Anecdotal feedback indicates that schools were utilizing these funds to improve services to these students, particularly around specific indicators for on-track graduation progress (in high schools) and early warning indicators (middle schools). Schools increased use of interim assessment blocks, indicating greater focus on student achievement aligned with the state college-ready assessments.</p>

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified implemented the actions as described during the 2018-19 school year. Some of the highlights of the implementation this year include:

- Support for over 411 Career Technical Education pathways across the district
- Implementation of 72 Linked Learning pathways that provide students with college and career awareness and experiences, including 14 Gold Certified Pathways
- Continued investments in 37 Reed schools to support staffing and additional professional development in these schools serving high concentrations of students who are English learners, foster youth and/or low income
- Utilization of Student Equity Needs Index funds in schools to support decision-making by staff closest to students. Approximately 80.5% of these funds were expended on additional certificated salaries and benefits, demonstrating that schools utilized these funds for site-based staffing such as additional teachers, administrators, and counselors to support additional academic, social-emotional, and mental health resources for high needs students to be on-track toward graduation
- Implementation of personalized learning funds in options schools to support completion of A-G coursework through credit recovery, tutoring, technology and social emotional learning supports
- Continued implementation of Diploma Counselors to support Tier II and III students identified at risk of not meeting graduation requirements
- Expansion of available Tier II and III resources for student interventions in content areas identified as high needs for students who are not on track for graduation
- Utilization of School Innovation funds in 50 identified high needs schools to support increased staffing and resources to support low income, English learners and foster youth with increased intervention resources and academic, social-emotional, parent engagement, and mental health resources to assist students to be on-track toward graduation

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

College and career readiness remain a central focus of all schools in LA Unified. The four year cohort graduation rate continues to increase year-over-year, and the percentage of graduating cohort students completing A-G requirements with a C or better was 47.9% for the 2017-18 school year. Low income students achieved at a similar rate (47.2%) to the district-wide average, but English learners (21.4%) and foster youth (35%) students continue to graduate at a lower percentage meeting the A-G requirements due to challenges with course enrollment and access to A-G courses. In addition, 10.4% of the graduating cohort received a qualifying score of 3 or higher on at least 2 Advanced Placement exams, with 9.1% of low income students meeting this indicator. English learners (1.8%) and foster youth (0.0%) continue to lag behind the performance of all students on this indicator. The percentages of students meeting the 11th grade Early Assessment Program (EAP) college readiness level in English Language Arts and mathematics were below the targets, with low income students achieving at rates closer to the district-wide performance levels, but English learners and foster youth achieving at much lower rates. Feedback from leaders at school sites and Local Districts indicated that the investments from this goal continue to result in positive outcomes for students, especially as schools are given greater autonomy in allocating resources to meet the needs of their specific student populations. Investments in staffing are increasing the personalization of supports for students who may not be on track for graduation. Targeted resources such as A-G counselors at the district level as well as school-determined initiatives utilizing the Student Equity Needs Index funds have increased and improved services to low income, English learner and foster youth students. In response to input from elementary and middle school leaders, the District has increased its monitoring of student progress toward graduation at those grade levels and has begun to direct some resources to elementary and middle schools in an effort to better prepare students for success in high school.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Below are explanations for the budget variances between planned and estimated actual expenditures:

- Goal 1 Action 1 Interventions/College & Career Ready, Goal 1 Action 4 Teacher Retention and Support Program (REED) - The lower actual expenditure amounts were due to under execution of expenditures as a result of schools underspending on planned budgeted items such as vacant or temporarily unfilled positions, underutilized professional development funds, and unspent books and supplies funds.
- Goal 1 Action 5 School Autonomy - The lower actual expenditure amounts were due to under execution of expenditures as a result of schools underspending on planned budgeted items such as vacant or temporarily unfilled positions, underutilized professional development funds, and unspent books and supplies funds.
- Goal 1 Action 6 Options Program - The lower actual expenditure amount was due to under execution of expenditures as a result of vacant or temporarily unfilled positions, underutilized professional development funds, and unspent books and supplies funds.
- Goal 1 Action 7 Realigned After-School Program - The higher actual expenditure amount was due to higher salary expenditures for classified staff to support the program.
- Goal 1 Action 8 A-G Diploma Program - The lower actual expenditure amount was due to under execution of programs due to open positions and unspent professional development funds.
- Goal 1 Action 9 A-G Immediate Intervention Plan - Shifts in allocations from books and supplies were made to staffing in order to provide additional supports to Local Districts and schools in the form of counselors and staffing to monitor student progress toward graduation and to provide supports for credit recovery.
- Goal 1 Action 10 School Innovation Fund - Shifts in allocations were due to the timing of informing identified schools of these School Innovation Funds. The timing was after budget

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Due to the change in business rules for the state calculation of the graduation rate, the targets for the graduation rate metric have been adjusted to be aligned with attainable district targets. In addition, the metric for the percentage of the graduating cohort completing A-G with a C or better have been adjusted because the original 2018-19 target of 46% was met in the 2017-18 school year (47.9%).

Changes to the Actions in this Goal include:

- Goal 1 Action 1 Programs & Interventions/College & Career Ready - This Action now includes a percentage of options program funding that is now showing as base funding that was previously identified as supplemental in Goal 1 Action 6 Options Program.
- Goal 1 Action 4 Teacher Retention and Support Program (REED) - Requirements for this program have expired, so funding for school positions in identified schools has been allocated through the Student Equity Needs Index in Goal 1 Action 5 School Autonomy. The remaining funds will continue to support the Beginning Teacher Support Program supporting schools serving high needs students.
- Goal 1 Action 5 School Autonomy - Schools and Local Districts were provided greater autonomy in meeting the needs of English learner, foster youth and low income students. Shifts from other Actions are added to this Action: school site funding for Restorative Justice implementation (Goal 5 Action 1); additional Local District support for Standard English Learner support staff (Goal 2 Action 9); additional class size reduction core academic teachers (Goal 2 Action 11); additional staffing for identified schools with high needs students (Goal 1 Action 4); supplies and certificated salaries to support increased parent engagement (Goal 4 Action 1)
- Goal 1 Action 6 Options Program - Base staffing costs for Options schools are now incorporated into Goal 1 Action 1 to reflect that these are base supports. This Action will now be titled "Personalized Learning in Options Schools" and will only include per pupil allocations for Options schools to implement improved and additional services to support unduplicated students.
- Goal 1 Action 8 A-G Diploma Program - Location of schools has been adjusted to accurately represent all Title I high schools and 20 middle schools that have been and will continue receiving these services.
- Goal 1 Action 9 A-G Immediate Intervention Plan initiatives now incorporate elementary and middle school supports in response to feedback from Local Districts and schools that improved supports for elementary and middle school students would better prepare students for high school and result in fewer students needing remediation in 9th grade.

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Foster Youth Support Plan and Family Source Centers</u></p> <p>Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:</p> <ul style="list-style-type: none"> • Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth • Provide ongoing intensive case management • Ensure equitable access to resources (i.e., tutoring) • Advocate for the educational rights of foster youth • Promote school stability <p>Coordinate with Department of Children and Family Services (DCFS) and</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>Foster Youth Support Plan and Family Source Centers</p> <p><u>Support for Students in Foster Care</u></p> <ul style="list-style-type: none"> • Counselors provided services to approximately 7,091 foster youth, including educational case management, advocacy, and collaboration with school staff, caregivers, and county personnel to promote school stability, ensure access to services, and eliminate the achievement, graduation, and college access gap for students in the foster care system. • Afterschool tutoring from District teachers was provided to students in foster care homes across the District in order to provide additional academic supports and interventions. • 323 students from 45 District high schools participated in the Foster Youth Leadership Council. • The District had a data matching agreement with the DCFS which allows for weekly data matching of foster youth, to ensure timely identification of students in foster care. 	<p>\$10,063,748 - LCFF - 1000-1999 Certificated Salaries \$640,550 - LCFF - 2000-2999 Classified Salaries \$4,738,827 - LCFF - 3000-3999 Employee Benefits \$5,000 - LCFF - 4000-4999 Books and Supplies \$114,075 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$9,750,898 - LCFF - 1000-1999 Certificated Salaries \$670,363 - LCFF - 2000-2999 Classified Salaries \$4,626,075 - LCFF - 3000-3999 Employee Benefits \$35,768 - LCFF - 4000-4999 Books and Supplies \$175,164 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Departments (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

- The District and DCFS cross-trained to increase collaboration and coordination of services for students in the foster care system.
- LA Unified Foster Youth Counselors had access to the LACOE Educational Passport System, which a common and consistent data repository for all school district information on foster youth.
- College Campus Tours for high school students in foster care:
 - 87 foster youth attended University of California, Los Angeles campus tour
 - 66 foster youth attended California State University, Northridge campus tour

Data from LAUSD's MyData dashboard include foster youth student attendance changes from 2017-18 compared to 2018-19. Note was the occurrence of the work stoppage for 6 days in 2018-19, which resulted in a decline in overall district-wide student attendance. However, foster youth student attendance declined less than the general student population (-1.3% compared to -2.5% for LAUSD overall), indicating that services provided by the Foster Youth Achievement Program had a positive impact on the attendance of foster youth.

FamilySource Partnership Program (FSPP)

The partnership program served students, primarily between ages 5-17, and families throughout the District and the City of Los Angeles. Pupil Services and Attendance (PSA) Counselors were co-located at 16 FamilySource Centers (FSC) to address barriers to academic success and provide academic consultation.

- 166 parent workshops/groups were provided to about 1,326 parent participants
- 1,563 educational and socio-emotional assessments were administered
- 66 LA School Police Department Diversion educational and socio-emotional assessments were administered

Alternatives to suspension Positive Behavior Support Systems Student placement of EL, SEL, and LTEL students Long Term English Learners (LTEL) Courses and LTEL Designees. Common Core State Standards English Language Arts shifts, mathematics and supplemental programs 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Professional Development</u></p> <p>The two primary initiatives funded through this Action included the Beginning Teacher Growth and Development Induction and the STEP UP and Teach paraprofessional teacher training program. Both programs professional development of these staff members supporting the implementation of state standards and the priority topics in the LCAP regarding the Teacher Growth and Development Cycle, the English Learner/Standard English Learner Master Plan, strategies for students with disabilities in General Education settings, and mastery of the California Standards for the Teaching Profession.</p> <p>The Beginning Teacher Growth and Development Induction (BTGDI) is a two-year job-embedded teacher induction program accredited by the California Commission on Teacher Credentialing and supports beginning teachers holding a Preliminary Multiple Subject or Single Subject Credential. BTGDI is committed to accelerating teacher growth and development as professional educators, leading to a California Clear Teaching Credential. The induction journey includes on-going individualized professional development and support, development of an Individualized Learning Plan, mentoring on classroom instruction, and active participation from site administrators. In the 2018-19 school year, 756 teachers were served by mentors and district staff. 320 of those teachers were in the year 1 cohort and 456 were in the year 2 cohort. Of those teachers, 213 were earning their multiple subject credential and 444 were earning their single subject credential. Data from 2018-19 teacher participant end-of-year surveys show that 90% of teachers felt that mentors had a positive impact on their teaching practice and 88% felt</p>	<p>\$5,536,166 - LCFF - 1000-1999 Certificated Salaries \$537,429 - LCFF - 2000-2999 Classified Salaries \$2,385,295 - LCFF - 3000-3999 Employee Benefits \$1,643,327 - LCFF - 4000-4999 Books and Supplies \$30,631 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$5,695,281 - LCFF - 1000-1999 Certificated Salaries \$538,752 - LCFF - 2000-2999 Classified Salaries \$2,301,089 - LCFF - 3000-3999 Employee Benefits \$25,067 - LCFF - 4000-4999 Books and Supplies \$46,355 - LCFF - 5000-5999 Services and Other Operating Expenses \$17,287 - LCFF - 6000-6999 Capital Outlay</p>

- Response to Instruction and Intervention (RtI)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices
- Support completion of the science fellowship. The main focus is engaging students in Three-Dimensional Learning that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

mentors had a positive impact on their students achievement. Of the 575 teacher survey respondents, 90% indicated they would continue to teach at their current school during the 2019-20 SY, 9% indicated they planned to teach at another school during the 2019-20 SY, and 1% planned to take another job in education in 2019-20. This program plays a critical role in ensuring the district continues to have highly qualified teachers serving students. Additional information about this program may be found at <https://achieve.lausd.net/Page/354>.

The STEP UP and Teach program provides guidance and support to LA Unified paraeducators who desire to become teachers. The different cohorts focus on different high need teaching areas such as special education and multilingual/multicultural (bilingual) education. The program provides mentoring regarding academic pathways, credential requirements and teacher preparation programs. Participants must engage in a Review of Instructional Standards Experience (RISE) designed to provide them with an opportunity to develop their teaching skills with the guidance of a practicing teacher. RISE is aligned with the Teaching and Learning Framework of the district and focuses on classroom environment, planning and preparation, professional responsibilities and delivery of instruction. For the 2018-19 school year, there were 227 special education participants and 47 multilingual/multicultural (bilingual) participants. The application is open year-round for new members to apply and join the program. During the 2018-19 school year, 48 special education teachers, including 31 mild to moderate disabilities credentialed teachers, were hired along with 2 multiple subjects teachers. Additional information about this program may be found at <https://achieve.lausd.net/Page/9495>.

The priority topics listed in the planned Action continue to be important aspects of school-site professional development. Although funds for this Action were not allocated for these specific topics, professional development was implemented in various other Actions in the LCAP and using other state and federal funds. Some examples of this include:

- Goal 2 Action 4 Instruction - Dual language/bilingual program professional development was supported in this Action to new and existing school site staffs to be able to implement curricula and instruction

	<p>aligned with expectations for effective dual language programs.</p> <ul style="list-style-type: none"> • Goal 2 Action 8 Supporting Integrating Special Education Students into General Education - Division of Special Education coordinators and staff provided professional development to school site teams on strategies and practices for the effective integration of students with disabilities into general education classrooms. • Goal 2 Action 9 English Learner Supports - Staffing and professional development was provided to schools on the implementation of the English Learner/Standard English Learner Master Plan district-wide, specifically focusing on implementation of integrated English Language Development standards. • Goal 2 Action 10 Instructional Technology Support - Trained teachers in the effective use of technology in the classroom, particularly in the use of the new district-wide learning management system. • Goal 5 Action 1 School Climate and Restorative Justice - Professional development was held at school sites around implementation of Safe School Plans, the Student Discipline Training Kit, Restorative Justice Practices, alternatives to suspension, and Positive Behavior Support Systems

Action 3

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Curriculum</u></p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>The district continued to adopt curriculum aligned with the state content standards in</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$60,651,198 - LCFF - 2000-2999 Classified Salaries \$2,498,410 - LCFF - 3000-3999 Employee Benefits \$95,009,693 - LCFF -</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$0 - LCFF - 3000-3999 Employee Benefits \$18,472,531 - LCFF - 4000-4999 Books and Supplies</p>

<p>The design and implementation of curriculum is a critical component of the alignment of content and instruction to the Common Core State Standards, as well as development of multiple channels, pathways and models assisting students in completing the standards-aligned content.</p> <ul style="list-style-type: none"> • Online courses-credit recovery and core programs • Supplemental curriculum and materials supporting Common Core State Standards • Content Design lessons • Summer School • Dual Language/Bilingual Programs • Curriculum Maps aligned to Common Core State Standards • Digital curriculum aligned to Common Core State Standards • English Language Development (ELD) Standards Phase-In Plan • Design and provide schools and teachers with Common Core State Standards developed curriculum maps • English Language Development (ELD) Standards Phase-In Plan • Advanced Learning curricula (Advanced Placement, AVID, International Baccalaureate, SpringBoard, Honors courses) • Math curriculum adoption • Design lessons for K-2 • Development of Common Core State Standards Dashboard to support implementation <p>Textbooks & Instructional Materials</p>	<p>order to support implementation of multi-tiered systems of support in schools. The district has invested in effective Tier 1 curriculum as the state has proceeded with new instructional materials adoptions.</p> <p>Curriculum implementation continued in the 2018-19 schools year for the elementary English Language Arts instructional materials adopted in 2017-18. The district also implemented new high school history/social studies instructional materials in the 2018-19 school year and is planning on purchasing and implementing new elementary history/social studies instructional materials in 2019-20. The district has begun planning for science instructional materials adoptions in the coming school years. District processes for selecting new instructional materials focus on the needs of students in the district, particularly English learners, and require integration with district-wide technology and the learning management system.</p> <p>District-wide investments (\$18.47 million) in this action focused on ensuring appropriate textbooks and instructional materials are available in the following areas:</p> <ul style="list-style-type: none"> • Core instructional programs and online courses-credit recovery • Supplemental curriculum and materials supporting state standards • Summer School • Dual Language/Bilingual Programs • Alignment with the district English Learner and Standard English Learner Master Plan • Advanced Learning curricula (Advanced Placement, AVID, 	<p>4000-4999 Books and Supplies \$0 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$0 - LCFF - 6000-6999 Capital Outlay</p>
---	--	---	--

	<p>International Baccalaureate, SpringBoard, Honors courses)</p> <p>The budgeted funding classified salaries was moved to fund salary increases for maintenance and operations staff and to provide additional support from school police. Reductions in the books and supplies actual expenditures was due to the postponement of the adoption of new elementary/middle grades science and history/social studies instructional materials and the fiscal stabilization plan (\$47 million). In addition, reallocation of funds to the Goal 6 Action 3 Central Office included \$12 million to the Instructional Technology Division for projects and \$1.5 million for Career Technical Education supports.</p> <p>This Action was effective based on a number of indicators. The District continued to meet Williams requirements regarding instructional materials per annual reports and in school observations. In addition, monitoring from school administrators and Local District leaders indicated the use of adopted instructional materials in classrooms. Central Office staff also noted high numbers of teachers seeking professional development and support through the District online learning management system as well as through use of the available online resources associated with the newly adopted instructional materials.</p>

Action 4

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
For Actions/Services not included as	For Actions/Services not included as	\$1,051,238,886 - LCFF -	\$1,276,039,076 - LCFF -

<p>contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Instruction</u></p> <p>The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a students ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the Districts curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the greatest impact and learning gains by all of our students.</p> <ul style="list-style-type: none"> • Teachers and instructional staff • Implementation of shifts in Mathematics and ELA • Interdisciplinary instruction • English Language Development (ELD) Standards Phase-In Plan • Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative • Contracts to support effective Common Core State Standards instruction • Design lessons • Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative • Alignment of Curriculum with Common Core State Standards, 	<p>contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>As noted in previous annual updates, a significant portion of the District's base local control funding formula fund (\$1.845 billion) were aimed at supporting the instructional core of the District's general school program. As such, school-sites were normed teaching staff and other personnel to implement the instructional program while also providing necessary tools to improve the quality of instruction. Based on the 8,077 teachers evaluated through the Educator Development and Support: Teachers (EDST) process, 4% were below standard, 76% were meeting standards, and 20% were exceeding standards. Among the 341 principals evaluated through the Educator Development and Support: School Leaders (EDSSL) process, 1% were ineffective, 18% were developing, 78% were effective, and 3% were highly effective. 32% of teachers and 41% of principals were evaluated in the 2018-19 school year.</p> <p>Instructional practices continue to focus on implementation of multi-tiered systems of support that provide differentiation and personalization for all students. One area of focus district-wide has been in the alignment of instruction with expectations on the state Smarter Balanced English Language Arts and mathematics assessments. School-site implementation of the Smarter Balanced interim assessment blocks has increased district-wide over the past three years, especially as the tools for teachers and administrators to use the results to inform instruction have improved in the Smarter Balanced Digital Library. Results from interim assessment blocks are evaluated at school sites, and Local Districts provided school with support to evaluate these results. Preliminary data indicated increased use of the interim assessment blocks in 2018-19.</p> <p>Dual language programs - the district continued to invest approximately \$77.7 million in the expansion of these programs in schools during the 2018-19 school year. The 137 programs across the district include target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic. Schools transitioning to these programs need additional professional</p>	<p>1000-1999 Certificated Salaries \$601,886,560 - LCFF - 2000-2999 Classified Salaries \$135,478,615 - LCFF - 3000-3999 Employee Benefits \$207,795,137 - LCFF - 4000-4999 Books and Supplies \$4,750,234 - LCFF - 5000-5999 Services and Other Operating Expenses \$155,567 - LCFF - 6000-6999 Capital Outlay</p>	<p>1000-1999 Certificated Salaries \$130,111,000 - LCFF - 2000-2999 Classified Salaries \$550,922,450 - LCFF - 3000-3999 Employee Benefits \$32,683,224 - LCFF - 4000-4999 Books and Supplies \$11,774,786 - LCFF - 5000-5999 Services and Other Operating Expenses \$922,152 - LCFF - 6000-6999 Capital Outlay</p>
--	---	---	---

<p>English Language Development Standards and California Content Standards.</p> <ul style="list-style-type: none"> • Arts integration 	<p>development and instructional supports to ensure that effective instruction is implemented in English and in the target language. At the elementary level, students have a minimum of 50% of each instructional day in the target language. At the secondary level, students have a minimum of two periods in a six period day that are taught 100% in the target language. These programs support district goals for academic achievement and support bilingualism and biliteracy as well as sociocultural competence. Effectiveness of these programs are indicated by the increased number of students enrolled as well as the increasing number of students who earn the LAUSD Biliteracy Awards (additional information available at https://achieve.lausd.net/Page/212#spn-content).</p> <p>Magnet school resources were also funded (\$27 million) in order to sustain and expand these successful programs across the district. These funds supported magnet school coordinators and Central Office resources that ensured implementation of these 261 programs serving approximately 78,000 students. 35 new magnet programs were opened in 2018-19, and the District continues to plan for expanding these programs that are attracting students into engaging educational programs. Effectiveness of magnet schools are indicated by the increase in the number of students enrolled in these programs as well as magnet school quality reviews that are conducted internally with Central Office and Local District staff. Los Angeles Unified continues to operate nationally-recognized magnet school programs that are in high demand from parents.</p>

<p>Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.</p> <ul style="list-style-type: none"> • Graduation checks • California High School Exit Exam (CaHSEE) assessments • Algebra EOC (End Of Course assessment) • Math Placement Assessment • Literacy intervention assessment • K-2 assessments in foundational reading and math • Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS) • Progress monitoring assessment tools • English language development assessment tools • Interim assessments aligned to the Common Core State Standards in ELA and Math • California English Language Development Test Proficiency and progress • Technology 	<p>For the 2018-19 school year, LA Unified continued implementation of district-wide assessments to inform curriculum and instruction as well as to monitor the performance of student groups and schools. These assessments are closely aligned with the state dashboard indicators and are intended to ensure student readiness for college, career and life. These assessments also align with the districts implementation of multi-tiered systems of support to inform decisions on student Tier 2 and 3 supports. Some examples of these assessments include:</p> <ul style="list-style-type: none"> • Literacy - Elementary schools continue to focus on early literacy success for all students by expanding implementation of the Early Language and Literacy Plan (ELLP) which utilizes the diagnostic assessment Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment as a tool for supporting differentiated instruction for students. Additional professional development and data dialogues were implemented to support ELLP in elementary schools. At the secondary level, the Division of Instruction identified an appropriate literacy diagnostic assessment to begin being utilized in schools to inform identification of students and their skill levels. DIBELS data indicates that past cohorts had greater gains when comparing beginning of the year to end of the year percentages of students scoring benchmark, demonstrating that schools with more experience implementing ELLP strategies are showing higher gains. 	<p>\$2,823,303 - LCFF - 5000-5999 Services and Other Operating Expenses \$65,846 - LCFF - 6000-6999 Capital Outlay</p>	<p>Other Operating Expenses \$0 - LCFF - 6000-6999 Capital Outlay</p>
--	--	--	---

- English Learners - The Multilingual, Multicultural Education Department continued professional development on and analysis of English Language Proficiency Assessment for California (ELPAC) results and how to support integrated English Language development across the content areas. In addition, the Access, Equity and Acceleration team continued to support schools with the implementation of Language Assessment Scales (LAS) Links to identify probable standard English learners and to monitor progress of standard English learners in schools. Schools utilized LAS Links to identify probably standard English learners and to provide support to those identified students. Schools also utilized ELPAC results to support English language learners in classroom instruction and to provide appropriate placements for students to ensure adequate supports are provided.
- Mathematics - District-wide implementation of the Smarter Balanced interim assessment blocks and comprehensive assessments continued to increase for English Language arts and mathematics. Recommended interim assessment blocks, including selected response and performance tasks, were identified in Fall and Spring testing windows to allow for calibration of student progress. Local Districts and the Division of Instruction continued professional development in schools on the alignment of

classroom assessments with the levels of rigor expected on the Smarter Balanced assessments. Preliminary results from interim assessment blocks indicated increased usage of these assessments among schools and greater teacher usage of resources available through the Smarter Balanced system.

- Dual Language - These programs continued to utilize language literacy assessments (e.g., IDEL-Spanish Language Literacy, Korean Language Test, Mandarin Language Test) in target languages to monitor student progress and to inform curriculum and instruction.
- College Readiness - The Advanced Learning Options team continued to support district-wide implementation of the PSAT/NMSQT in October each year for all Grade 10 students as well as Advanced Placement and International Baccalaureate assessments for eligible high school students across the district. New for 2018-19 was the district-wide implementation of in-school SAT administration for all Grade 11 students in March 2019. The District had the highest rate of Grade 11 student SAT participation than any prior year.

Changes in state and district policy have resulted in the following assessments no longer being utilized district-wide: California High School Exit Exam (CAHSEE), Algebra End of Course assessment, math placement assessment and the California English Language Development Test.

Please note that classified and certificated

salaries and benefits were shifted to the Central Office (Goal 6 Action 3) to more accurately represent the work these staff were engaged in to support data systems district-wide beyond assessments.

Action 6

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p><u>Early Childhood Education</u></p> <ul style="list-style-type: none"> • CAL-Safe • Early Childhood Development Program <p><u>Transitional Kindergarten Expansion Plan</u></p> <ul style="list-style-type: none"> • provide quality preschool seats for <u>low income</u> children who turn 5 after December 2 • lower the dropout rate and increase high school graduation rates by cultivating at a very young age, personal qualities that improve childrens resilience, confidence and persistence to a task • improve student success in A-G requirements by setting a strong language and literacy foundation for our youngest students 	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p><u>Early Childhood Education</u></p> <p>The District has expanded 8 California State preschool programs from part-day to full-day in the 2018-19 school year at 107th ES, Bushnell ES, Coliseum Street ES, Washington ES, Selma ES, Barrett ES, Latona ES, and Ann St. ES. In addition, full-day programs will be added at Vernon City ES, Sunny Brae ES, and LaFayette Park PC.</p> <p><u>Expanded Transitional Kindergarten Plan</u></p> <ul style="list-style-type: none"> • Expanded Transitional Kindergarten (ETK) programs will be added to 4 elementary schools. Baldwin Hills ES, Basset ES, Gulf ES, and Quincy Jones ES. • The additional programs provide quality preschool seats for 	<p>\$37,531,491 - LCFF - 1000-1999 Certificated Salaries \$87,100 - LCFF - 2000-2999 Classified Salaries \$16,395,616 - LCFF - 3000-3999 Employee Benefits \$1,720,302 - LCFF - 4000-4999 Books and Supplies \$33,804,319 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$42,644,521 - LCFF - 1000-1999 Certificated Salaries \$2,035,690 - LCFF - 2000-2999 Classified Salaries \$18,041,445 - LCFF - 3000-3999 Employee Benefits \$929,270 - LCFF - 4000-4999 Books and Supplies \$26,823,786 - LCFF - 6000-6999 Capital Outlay \$76,839 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

The TK Expansion program is a full day, 180 school day program following the same time schedule as other elementary classrooms. The program is a transitional kindergarten program that prepares children for Kindergarten. Kindergarten skills and benchmarks are inappropriate measures in this program. Only students who qualify for the Free/ Reduced Meal program are eligible to enroll in the program.

The District is planning to increase expanded transitional kindergarten program in the 2018-19 school year to reflect a growth of 20 sites.

low-income children who turn 5 after December 2

- The programs are designed to lower the dropout rate and increase high school graduation rates by cultivating at a very young age, personal qualities that improve childrens early academic success, resilience, confidence, independent learning skills, self-control, and persistence to a task.
- These programs improve student success in A-G requirements by setting a strong language and literacy foundation for our youngest students.

The Expanded TK (ETK) is following the same time schedule as other elementary classrooms. The program is a transitional kindergarten program that prepares children for Kindergarten. Kindergarten skills and benchmarks are inappropriate measures in this program so children are monitored using the Desired Results Developmental Profile (DRDP).

The Desired Results Developmental Profile (DRDP) is given during the first 60 days of enrollment and six months later to monitor student progress and to inform teacher practices. Preliminary data from 2018-19 for approximately 5,000 students enrolled in the District's early childhood education programs shows a high percentage of students meeting kindergarten readiness levels across the domains that include self-regulation, social and emotional development, math, physical development, health, and English language development.

Action 8

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades K-5</p> <p>Support integrating Special Education students into General Education (Grade-Span Support): The Individualized Education Program services provided to unduplicated pupils are effective in meeting the Districts core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with 80%-100% unduplicated pupils.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: Identified schools implementing inclusive practices</p> <p>The Division of Special Education (DSE) worked diligently in ensuring wide grade spans (more than two grade levels) were limited across the District. There were instances where lowering the grade span was not feasible due to low student counts but our overall expectations for special day classes on core curriculum was to limit the number of grade levels assigned to teachers. These activities were monitored in our ECAST and Norm Day processes.</p> <p>In addition, LAUSD expanded the number of school sites implementing inclusive practices. The pilot has been in effect since 2014-15 growing from 32 schools its first year to 50 schools in SY 18-19. While the pilot has been relatively organic in years past, this year the DSE has provided additional oversight and support through a dedicated team called AEIO (Access, Equity, Inclusion, Outcome).</p> <p>The AEIO team focused on providing professional development in four performance areas: Family partnership, Quality Individualized Education Program (IEP), Staff capacity and Engagement, and Planning for Inclusive Student Experience. In the Fall on 2018, the Division of Special Education conducted a kick-off meeting for school site leaders from the 50 schools and their inclusion teams that set the tone and communicated the suggested deliverables. Each of the new schools were assigned support personnel to help them implement the work. Based on observations and assessments utilizing a rubric of implementation, the AEIO team was able to note increases in the</p>	<p>\$6,237,112 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$6,149,979 - LCFF - 2000-2999 Classified Salaries</p> <p>\$9,842,909 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$7,159,552 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,980,373 - LCFF - 2000-2999 Classified Salaries</p> <p>\$7,989,124 - LCFF - 3000-3999 Employee Benefits</p> <p>\$570 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

utilization of inclusive practices in schools, improvements in attendance rates for students with disabilities in some schools, and increased participation rates in extracurricular activities for some students with disabilities.

Action 9

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures

<p>curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.</p> <p>- Enhance the District's implementation of ELD Standards through the implementation of the Districts English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum</p> <p>-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth.</p> <p>- Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology</p>	<p>Complex Text, Fortifying Complex Output); EL Instruction Approaches (Active Listening, Extended Communications, Oral Summarizing); Academic Conversations and ELPAC Task Types</p> <p>6. Multi-funded EL Instructional Coaches (149 positions) to support teachers of English learners in planning, implementing, and assessing Integrated and Designated ELD and implementation of adopted High Impact Practices/EL Instructional Approaches. EL instructional coaches engaged teachers of ELs in coaching cycles, modeled, co-taught and provided actionable feedback.</p> <p>The implementation of listed English Learner supports (Master Plan implementation training, Master Plan Institute, expansion of Dual Language Programs, Designated and Integrated ELD professional development, and provision of EL Instructional coaches at high EL count schools) were effective in ensuring that a greater percentage of English Learners achieve English language proficiency. From 2017-18 to 2018-19, the reclassification of English Learners increased by 2%, from 21% to 23%. Additionally, the percentage of English Learners meeting or exceeding standards in the 2019 ELA and Math Smarter Balanced Assessment increased from 4% to 6% and from 5% to 7%, respectively.</p> <p>The Access, Equity and Acceleration (AEA) team, in partnership with District Multilingual, Multicultural Education Department (MMED) coordinated and facilitated teacher professional development, including the Academic English Mastery Program (AEMP), targeted toward Standard English Learners in 108 schools across the District. This included the development of eight model AEMP schools that served as demonstration sites for effective culturally responsive pedagogy.</p> <p>Pre-school for All (PAL)/Pre-School Collaborative (PSC): This year continued the embedding of Speech & Language Pathology support into existing PAL & PSC classes supports early identification and language development for English learners. A significant portion of PAL students are low-income and English learner students needing additional speech and language pathology support to prepare them for general education integration in kindergarten and/or in the early primary years.</p>		
---	---	--	--

services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP).

The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

Accelerated Academic Literacy funding is allocated to support schools with teacher auxiliaries to offer additional intervention classes and to purchase instructional materials and services and fund professional development for schools and teachers that are implementing Tier II and/or Tier III intervention programs administered by the Division of Instruction.

The Division of Instruction has purchased licenses and services for the Renaissance Star Reading Assessment, a nationally recognized research-based assessment that measures students reading levels, skills, and their mastery of the state English language arts standards. Beginning in 2019-20, middle and high schools (up to 40) that implement the ELA Tier II intervention program will have access to this assessment to use for universal screening and progress monitoring. Middle schools will be able to assess all students (grades 6-8); high schools will be able to assess all grade 9 and 10 students.

In 2018-19, a new Tier II intervention curriculum was implemented in the following high schools: Sotomayor Arts and Sciences Academies, Torres HS-East Los Angeles Performing Arts Magnet, Jordan HS, and Wooden Continuation HS. This intervention program is grounded in a poetry-based program Get Lit/Words Ignite and provides students with more targeted instruction on reading skills (literary analysis), academic vocabulary, speaking and listening skills, writing (poetry, expository, and narrative) and social emotional learning skills. Plans are to expand the program in 2019-20 to 15 more schools.

In 2019-20, a new Tier II intervention curriculum will be implemented for 20 middle schools. This program is grounded in the Reading Apprenticeship Framework and will use instructional models that provide multiple opportunities for students to actively collaborate, integrate technology, engage in independent reading, and build their reading, writing, and speaking and listening skills.

These Tier II and III English Language Arts programs disproportionately serve low income and English Learner students as a result of the need to accelerate the learning for these students who are not yet meeting the grade level standards on the state assessments. As a result of these programs, the percentage of English Learners meeting or exceeding standards in 2019 ELA and Math Smarter Balance Assessment increased from 4% to 6% and

<p>The Accelerated Academic Literacy program will be modified to better serve middle/high school students.</p> <p>Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.</p> <p>Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.</p> <p>Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.</p> <p>Device Carts: Many of our schools who are implementing Tier II and/or Tier III</p>	<p>from 5% to 7%, respectively. Furthermore, Los Angeles Unified has been able to reduce the percentage of Long-Term English Learners by 3%, from 17% to 14%.</p> <p>Device carts were purchased using District-wide bond funds, including laptop carts and devices to allow students access to the internet at home with their district-assigned devices.</p> <p>Local Control Accountability Plan Support</p> <p>Local Control and Accountability Plan supported personnel in the central office as well as Local Districts to support engagement with stakeholders and to complete the LCAP. This included developing and facilitating workshops to assist stakeholders in understanding the content of the LCAP and receiving feedback from stakeholders on the LCAP. These staff also coordinated across the various district departments to ensure that the LCAP included accurate descriptions of the implementation and effectiveness programs. Regular meetings with these district department leads were held to ensure input on district targets for goals and for monitoring progress toward student achievement. In addition, LCAP supported personnel collaborated with district fiscal and data team members to ensure monitoring of the appropriate use of funds and to track LCAP-related outcome measures.</p> <p>Central Office/Local District Supports for school climate program implementation were funded through Goal 5 Action 1.</p>		
--	--	--	--

<p>intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.</p> <p><u>Local Control Accountability Plan Support</u></p> <p>Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.</p> <p>Fiscal support specialists</p> <p>Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.</p> <p>Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.</p> <p>Central Office/Local District Supports for school climate program implementation.</p>

--	--	---	--

communities and educators to become Digital Citizenship Certified. About 60,000 students across these schools received training on Digital Citizenship.

- Computer Science Education:
 - Expansion of computer science education in grades P-5 with the development of rigorous and relevant courses in middle grade and pathways in grades 9-12. Approximately 1026 teachers were trained across 266 schools to deliver computer science education to students.

The effectiveness of these District Instructional Technology Initiative programs can be demonstrated beyond the participation and exposure of thousands of students to the concepts of Digital Citizenship and computer science. Results of professional development evaluations provided by participants indicate high integration of ISTE Standards for Students, Digital Citizenship Certification and Computer Science Education concepts. Observations by Central Office and Local District leads also indicates increased implementation of effective strategies to integrate technology into instruction for students.

Direct onsite technical support has been provided to schools to assure computers, tablets, and other classroom related technology is operational for use by students, teachers, and staff in schools. This supports the instructional program as students and teachers access online digital resources, computer based assessments, as well as use a variety of technology for collaboration and student projects. The focus on technical support has led to increased adoption of technology in the classroom. Specifically, an increasing number of schools are adopting online applications, leveraging digital versions of the instructional materials, increased use of the District's learning management system (Schoology). There have been no technical issues with the delivery of computer-based assessments. Also, the District has had no technical issues at the start of the school year or upon return from winter recess, which have traditionally been a problem prior to implementing the current technical support structure for schools.

Action 11

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes.</p> <p>Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.</p> <p>Resources are distributed to school-sites through a prioritization methodology utilizing the Districts school equity index</p> <p><u>Early Language and Literacy Program</u></p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>For the 2018-19 school year. all high school, middle school and sites with grades 4-6 were provided an additional teacher position to assist with class size reduction and offer additional enrichment courses. Specifically, the positions were used to support class size reductions in physical education and/or to assist in the offering of elective courses, and/or courses activities such as AVID, MESA and Leadership.</p> <p>Some measures of the effectiveness of this Action include whether students are receiving feedback from teachers because of smaller class sizes and whether students are cognitively engaged in classes. Based on the School Experience Survey administered to students in Fall 2018, 75% of high school students, 81% of middle school students and 92% of elementary students agreed that "In my classes, my teachers tell me how I can make my work better." The Fall 2018 results were at or above the responses from the previous school year, with only 67% of high school students and 74% of middle school students and 92%</p>	<p>\$12,736,848 - LCFF - 1000-1999 Certificated Salaries \$5,802,364 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$11,427,796 - LCFF - 1000-1999 Certificated Salaries \$5,101,462 - LCFF - 3000-3999 Employee Benefits</p>

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

for elementary students agreeing. Overall student responses on the five survey items related to cognitive engagement was 73% of high school and middle school students and 80% of elementary students agreeing on those items. In the prior school year, responses of these same survey items related to cognitive engagement were lower, with only about 74% of elementary students agreeing and about 65% of middle school and high school students agreeing.

Early Language and Literacy Program (ELLP)

This program was expanded to include 520 elementary schools district-wide with its fourth cohort in 2018-19. Over 2,500 teachers have been trained in elementary schools across the district. On-going professional development and monitoring of implementation was provided by the Division of Instruction and Local Districts. Implementation support was the focus for cohort 3 and 4 schools, and differentiated support was provided to cohort 1 and 2 schools that were trained in the 2015-16 and 2016-17 school years. Professional development concentrated on the use of data from the Dynamic Indicators of Basic Literacy Skills (DIBELS) early literacy assessment and differentiation of instruction to meet the specific instructional needs of students. These assessments are administered three times per year to monitor student progress and to inform professional development and teacher instructional planning. This year, the Division of Instruction has increased focus on kindergarteners scoring Above Benchmark on the end-of-year DIBELS assessment because findings show that 90% of kindergarteners who scored at that

	level maintained Benchmark or above through the end of 3rd grade. Additional information about the Early Language and Literacy Program and more recent data reports may be found on the Division of Instruction Elementary English Language Arts website at: https://achieve.lausd.net/Page/5223 . Preliminary data from 2018-19 indicated improved middle of the year DIBELS percentages for students scoring benchmark or above, particularly with schools in cohorts 1 and 2.

The</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Arts Program</u></p> <p>The Arts Education Branch (https://achieve.lausd.net/arts) continues to implement a targeted Arts program that utilizes the Districts Arts Equity Index (AEI) to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the AEI. The AEI has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.</p>	<p>\$24,090,922 - LCFF - 1000-1999 Certificated Salaries \$153,951 - LCFF - 2000-2999 Classified Salaries \$8,387,193 - LCFF - 3000-3999 Employee Benefits \$0 - LCFF - 4000-4999 Books and Supplies \$60,000 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$18,884,283 - LCFF - 1000-1999 Certificated Salaries \$161,125 - LCFF - 2000-2999 Classified Salaries \$8,658,031 - LCFF - 3000-3999 Employee Benefits \$3,736,079 - LCFF - 4000-4999 Books and Supplies \$1,965,750 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.

The Arts Equity Index (AEI) assigns quartile levels for all schools K-12 based on the scope of their provided arts instruction and resources combined with the Student Equity Index. The AEI levels are as follows:

ELEMENTARY

Quartiles	Index Range	AEI 2.0 Number of Schools
1	0-15	51
2	16-21	143
3	22-29	182
4	30-47	127

SECONDARY

Quartiles	Index Range	AEI 2.0 Number of Schools
1	0-30	11
2	31-45	72
3	46-56	87
4	57-95	108

A schools AEI quartile level is determined through the use of district data and a short electronic survey completed by a principal (or designee) that assesses where and how the arts resources and supplies are being used in a school. Factors include:

- Number of full time equivalent credentialed arts instructors
- Arts instructional time per week
- Number of arts disciplines offered
- Additional arts instruction within or beyond the school day
- Additional arts instruction providers
- Sources of additional arts funding
- Number of students receiving additional arts instruction services
- School allocation from general budget for the arts
- Funding sources for general supplies and/or resources
- Equipment and facilities to support arts

	<ul style="list-style-type: none"> offerings • Arts professional development provided to staff members • Student Equity Index (Poverty, English Language Learners, Foster Care, Homeless Youth) • Title I % <p>All schools in the district receive allocations based on the AEI. Additional information about the AEI may be found at: https://achieve.lausd.net/Page/13380. Additional information about the AEI allocations may be found at: https://achieve.lausd.net/Page/13400.</p> <p>The effectiveness of this use of supplemental funds because a comparison of the AEI for the years 2015-16 and 2017-18 shows that there is an improvement in AEI quartiles for schools, especially those in these lowest two quartiles of schools (quartiles 1 and 2). The basis of these changes directly connects to evidence from the school site that the quality of arts education programs have improved by the factors used on the AEI including student access to arts instructional time, the number students receiving additional arts instruction, and the number of arts disciplines offered.</p> <p>Every school in the district provided arts classes from highly qualified certificated teachers. The list of programs at every school are listed in the LA Unified Arts Programs 2019 document that may be downloaded at the following website: https://achieve.lausd.net/Page/13308.</p>		
--	---	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

For 2018-19, LA Unified implemented the actions for this goal with fidelity. Some highlights of the implementation of these actions include:

- Served over 7,000 foster youth through counselors in the Foster Youth Support Plan
- Implemented adopted programs and services under the 2018 Master Plan for English learners and Standard English learners
- Delivered mandatory professional development for all elementary through high school teachers the programs and instruction described in the Master Plan
- Revised secondary literacy intervention program to include a diagnostic assessment to identify students in grades 6-10 that may need additional Tier II intervention
- Implemented new Tier II literacy intervention curriculum in four high schools focused on targeted instruction on reading skills, academic vocabulary, speaking and listening skills,

- writing and social emotional learning skills, with plans to expand to 15 more schools in 2019-20
- Expanded dual language programs to 137 across the district including target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic
- Expanded 8 California state part-day preschool programs to full day with plans to add three more in the next year
- Increased the number of schools implementing inclusive practices for students with disabilities to 50 schools in 2018-19
- Provided additional teacher position to assist with class size reduction and offer additional enrichment courses in all middle and high schools and sites with grades 4-6
- Continued implementation of the Arts Equity Index to support programming gaps in high needs schools

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

LA Unified demonstrated incremental student performance growth on the English Language Arts and mathematics Smarter Balanced summative assessments in the 2017-18 school year, with both showing increases in the distance from standard met measure and yellow performance levels for both. The focus on implementing standards-aligned curricula in these content areas as well as continued investments in professional development for early literacy and secondary literacy interventions should continue this positive trend. Schools continue to utilize the Smarter Balanced interim assessment blocks to align the rigor of classroom instruction with the expectations of the state assessments. Local Districts and schools have provided feedback on ways to improve reporting on the results of interim assessments, and the District has continued to work with state assessment staff to improve the reporting features. Based on initial feedback from schools implementing Cognitively Guided Instruction (CGI) to improve math performance in the elementary grades, the Division of Instruction began increasing supports for implementing CGI practices in schools during the 2018-19 school year through professional development and partnerships with CGI experts. Feedback from teachers on CGI implementation and professional development indicate the positive impacts on math instruction and alignment with state assessment expectations.

The DIBELS early literacy assessment continues to be a focus of elementary schools as teachers are trained in the use of those results to inform instructional practices through the Early Language and Literacy plan (ELLP). Feedback from Local District and school leaders on the ELLP indicate a continued need to improve school-wide implementation of these practices, so the District will continue to support professional development for school teams and teachers to ensure teachers have the resources and understanding to utilize DIBELS results to differentiate instruction for students.

The performance of English learners continue to be a focus of schools as the 21% reclassification rate was a higher rate than the 2017-18 target of 20%. The percentage of English learners who did not reclassify within five years was 17%, meeting the target of 17% for the 2017-18 school year. The Multilingual, Multicultural Education Department (MMED) continues to implement the English Learner and Standard English Learner Master Plan (accessible at: <https://achieve.lausd.net/Page/14743>) to ensure effective instruction for these students. Based on feedback from Local District English learner administrators and school site coaches, MMED continues to refine its supports and professional development offerings to improve school site implementation of Master Plan elements, particularly integrated English Language Development supports.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Below are explanations for the budget variances between planned and estimated actual expenditures:

- Goal 2 Action 3 Curriculum - Textbook purchases for history/social studies textbooks were processed in 2018-19 but will be paid in 2019-20, resulting in the lower actual expenditures. Budgeted classified salaries and benefits were shifted to Goal 6 Action 3 Central Office and Local Districts and to offset increased classified salary costs district-wide.
- Goal 2 Action 5 Assessments - Classified salaries and benefits were transferred to Goal 6 Action 3 Central Office and Local Districts to more accurately reflect that Instructional Technology Division staff oversee District-wide data systems beyond assessment data systems.
- Goal 2 Action 9 English Learner Supports - The lower actual expenditure for this Action was due to under execution of programs at the Central Office, Local District and school site levels, including vacant or temporarily unfilled positions, underutilized professional development funds, and unspent books and supplies funds.
- Goal 2 Action 10 Instructional Technology Support - The higher actual expenditures for this Action were due to salary increases for staff and additional instructional technology materials purchased for schools.
- Goal 2 Action 11 Targeted Instructional Support - The lower actual expenditure for this Action was due to vacant or temporarily unfilled positions.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 2 Action 5 Assessment - Central office staffing previously included in this Action have been moved to Action 6.3 Central Office and Local Districts to more accurately represent the work

of these staff in supporting district-wide data systems, and not just the assessment data systems.

Goal 2 Action 8 Supporting Integrating Special Education Students into General Education - This program was expanded from the identified schools in the prior year to additional elementary through high schools in the 2018-19 school year. Recognizing that these inclusive practices are valuable for improving the achievement of students with disabilities, this program will be expanded to more schools in the 2019-20 school year and will be folded into Goal 2 Action 7 Special Education.

Goal 2 Action 9 English Learner Supports - Staffing for Local District Standard English Learner supports previously in this Action have been shifted to Goal 1 Action 5 School Autonomy for Local Districts so that Local Districts can align their monitoring and supports for increased school services for high needs students identified in school plans. This Action is modified to more accurately reflect the services being provided to English learners.

Goal 2 Action 11 Targeted Instructional Support - The decrease in budget for this item is due to schools utilizing their SENI funding to purchase additional core academic content teachers rather than elective teachers, whose positions are still captured in this Action.

(Separate from LCFF Funding, and not contributing to increased/improved services for high needs students) LA Unified received approximately \$12 million through the Low Performing Student Block Grant to address the achievement of students who were not meeting academic achievement standards on the state assessments (and who are not students with disabilities, English learners, foster youth or low income). The district has developed a plan to provide per pupil allocations to schools with four or more identified students in order to allow them to develop a plan for how to serve these students. A menu of recommended services will be provided to all schools to guide their decisions. Schools with three or fewer identified students will receive support from their Local Districts to utilize data from interim assessments to improve interventions and supports. As part of the state reporting requirements, the district has set aside funds for an external evaluator to analyze the effectiveness of this program in improving the achievement of the identified students by the conclusion of this grant timeline in 2021.

Goal 3

100% ATTENDANCE

State and/or Local Priorities Addressed by this goal:

State Priorities: 5. Pupil engagement

Local Priorities:

Annual Measurable Outcomes

Expected			Actual	
Percentage of students attending 2018-19 172-180 days each school year (96% or higher attendance rate)	All students	70%	All students	67%

Budget allocations now reflect an additional \$1 million in funding utilized to support the SEPA centers.</p>	<p>housing, linkages to legal services and other district and community resources. In addition, the staff participates in the following district campaigns/activities focusing around the following:</p> <ul style="list-style-type: none"> • We Are One: Standing With Immigrant Families • Public Charge • Census 2020 • Deferred Action for Childhood Arrivals (DACA) • Community Resource Fairs Discussing: <ul style="list-style-type: none"> ◦ Immigration rights ◦ Health and Wellness rights ◦ Housing rights ◦ Educational rights • Deferred Action for Childhood Arrivals (DACA) <p>We Are One L.A. Unified is a District-wide campaign aimed at building an awareness around the rights of students, their families and District personnel, regardless of immigration status. Furthermore, this campaign provided education and resources for immigrant families in the following areas:</p> <ul style="list-style-type: none"> • Constitutional (Legal rights) • Census 2020 Overview • Public Charge • Access to Health and Wellness • Housing Rights and Protections • Educational Rights and College Resources <p>The We Are One workshops were co-facilitated by a District Student Health and Human Services (SHHS) staff member along with a representative from a partner legal organization. This effort provided parents an opportunity to connect with the services offered from local legal agencies. Each parent participant received a folder with resources discussed in the workshop, a family preparedness plan template, a Red Card (legal rights card) and an evaluation. Overall 98% of workshop participants (426/436) reported being very satisfied/satisfied with the content provided by the SHHS staff member(s).</p> <p>The Student Involvement, Development and Empowerment Unit engaged in a number of projects throughout the year to give voice to student</p>	<p>Other Operating Expenses</p>	
--	--	---------------------------------	--

	<p>perspectives and needs. The Unit convened three Associated Student Body district-wide meetings to dialogue with District policymakers, present student thoughts and perspectives, engage in leadership training as well as design projects that sought to improve student achievement at their school sites. In addition, the Unit selected and supported the student member on the Board of Education to serve as the voice of students on District policies. The student board member was integral in supporting changes to the District dress code policy. The Unit also convened Student Conferences for Young Women and Young Men of Color to offer strategies to students that will lead to improve student achievement and increased readiness for college.</p> <p>During the 2018-19 school year, counselors provided services to approximately 7,000 foster youth across the district. These youth attended schools in all areas of the district and often experience a high rate of transiency. District-wide strategies were employed to more fully engage the youth with their school communities and the community at large through Foster Youth Leadership Councils, College Tours, Outdoor Education camps at Clear Creek and Point Fermin, the Foster Youth Shadow Day and the Pathways to College Celebration event. 323 students from 45 LA Unified high schools participate in the Foster Youth Leadership Council. Post-surveys and anecdotal data from student participants in these events indicated satisfaction with the events, appreciation for being exposed to new experiences and enthusiasm for the events to continue in the future. Parent and Caregiver Training for parents of foster youth was provided across the district to educate about the foster youth system and the educational rights and graduation exemptions available to their students and to make them aware of resources and supports that are available to them. Participants from the training indicated increased knowledge about the educational system and how to access academic and other community services for their students.</p>

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified continues to implement a variety of actions to strive for 100% attendance across schools. The district has developed data dashboards for school and Local District leaders to monitor student attendance throughout the year, and school and district investments have been made to support programs that recognize students for positive attendance outcomes and to support students and families that have data that indicate challenges with attendance. The comprehensive array of physical, social emotional and mental health service supports and resources continue to be provided to address the needs of the districts most vulnerable low income and foster youth. About 24,700 immunizations and 75,384 medications have been administered by staff, and staff enrolled 2,917 students and family members in no-cost health insurance plans. Wellness Clinics serve as school-based hubs for clinical mental health services, and at mid-year about 1,947 students had received services and 21,704 counseling hours were provided at these Clinics.

The Homeless Youth Program supported PSA counselors in providing training to over 2,000 designated school stie homeless liaisons this year. The LA Unified School Enrollment Placement and Assessment (SEPA) Center provides support to all families and to newly arriving families to assist with the school enrollment process, access to medical and mental health services, housing, linkages to legal services, and other district and community resources. LA Unified also implemented a We Are One campaign to support undocumented students and families.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

For 2017-18, the overall district performance on the metrics for this goal were positive. With 66.9% of students attending school 96% or more (172-180 school days), a measure of positive attendance that the district monitors and provides school leaders with data dashboards to track throughout the school year. Feedback from school and Local District leaders indicate that investments in supports through this Goal will continue to be important to support specific student populations (e.g., foster youth) as well as overall attendance. The district performance on chronic absenteeism rates was orange on the state dashboard, with 10.3% of students in grades K-8 chronically absent which was similar to the rate in 2016-17. Staff attendance rates, another measure of school climate, was 78.0% for staff attending 96% or above, meeting the target for the 2017-18 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Below are explanations for the budget variances between planned and estimated actual expenditures:

- Goal 3 Action 1 Student Health and Human Services - The higher estimated actual expenditures for this Action reflect the increase in certificated and classified staff to support the health and wellness needs of students across the District.
- Goal 3 Action 2 Targeted Supports to Increase Student Engagement at Campuses of Highest Need - The 2018-2019 higher estimated actual expenditures for this Action reflect that schools utilized their Student Equity Needs Index funds to purchase additional certificated staff such as Pupil Services and Attendance (PSA) counselors and Psychiatric Social Workers (PSWs) to support high needs students.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 3 Action 1 Student Health and Human Services - Increase in budget for 2019-2020 reflects the increased demands for health and wellness resources for schools and the increase in nursing staff planned.

Goal 3 Action 2 Targeted Supports to Increase Student Engagement - The increase in budget for 2019-2020 is in response to school requests for additional Pupil Services and Attendance Counselors and Psychiatric Social Workers beyond the district-allocated normed positions to support increased services for high needs students.

Goal 4

PARENT, COMMUNITY AND STUDENT ENGAGEMENT

State and/or Local Priorities Addressed by this goal:

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Annual Measurable Outcomes

Expected		Actual
Percentage of Students Who Feel a Part of Their School (Question on School Experience Survey)	2018-19 All Students 89%	All Students 68.0%
Parent/Caregiver Participation on School Experience Survey	2018-19 All Parents 64%	All Parents 46.0%
Percentage of Schools Training Parents on Academic Initiatives by Providing a Minimum of Four Workshops Annually	2018-19 All Schools 98%	All Schools 76.4%
Percentage of Parents Who State: My school provides resources to help me support my child's education.	2018-19 All Parents 95%	All Parents 90.0%

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Parental Involvement</u></p> <p>Provide parent training, learning opportunities and workshops:</p> <p>Supporting Common Core State Standards reinforcement at home, EL reclassification and progress monitoring, graduation requirements and college-readiness, importance of school experience survey, and social-emotional support. 10% of Common Core State Standards funds are provided for parent involvement in the implementation of the Common Core State Standards.</p> <p>Provide more resources to support parent engagement at the local level: Increase parental engagement, training, and workshops across the district.</p> <p>Resources are distributed to school-sites through a prioritization methodology utilizing the Districts school equity index</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>The Office of Parent and Community Services (PCS) partnered with the Local District Parent and Community Engagement (PACE) units to provide parent engagement activities to families throughout the District. Multiple parent workshops were offered at various school sites with a focus on sharing Common Core instructional strategies, showing parents how the standards build upon each other as students move from one grade level to the next. Parents were also taught how to apply Common Core Standards in every day activities with their children. In addition, parents learned about college preparedness for students and Linked Learning programs, digital platforms like Power My Learning, and the California Assessment of Student Performance and Progress (CAASPP). Workshops also included the following: Math Practices, Fun with Multiplication, Fun with Fractions, DIBELS, EL Reclassification, A-G Graduation Requirements, and the Importance of the School Experience Survey. Parents also received training on supporting English Learners and Standard English Learners through sessions on the 2018 EL and SEL Master Plan. The Local District Parent and Community Engagement (PACE) units collaborated with the Local District Math, English Language Arts, English Learner and Next Generation Science Standards Coordinators to present workshops at monthly Parent and Family Center Staff meetings at</p>	<p>\$517,496 - LCFF - 1000-1999 Certificated Salaries \$2,199,755 - LCFF - 2000-2999 Classified Salaries \$529,457 - LCFF - 3000-3999 Employee Benefits \$4,378,212 - LCFF - 4000-4999 Books and Supplies \$290,176 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$533,071 - LCFF - 1000-1999 Certificated Salaries \$2,038,714 - LCFF - 2000-2999 Classified Salaries \$426,821 - LCFF - 3000-3999 Employee Benefits \$992,199 - LCFF - 4000-4999 Books and Supplies \$268,422 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

	<p>various school sites. Parents and school Parent and Family Center Staff were trained on the Parent Portal and Schoology to monitor their childrens achievement, leading to a better understanding of students progress through the A-G requirements. The decrease in actual expenditures for books and supplies was shifted to Goal 1 Action 5 School Autonomy as a part of the Student Equity Needs Index to provide additional flexibility for schools to allocate resources for parent engagement.</p> <p>This Action has been effective in achieving the LCAP goal as evidenced by a 6% increase in parents reporting on the School Experience Survey from Fall 2018 that their schools provide them with resources to help them support their childrens' education. Many of these resources are provided by school staff through the Parent and Family Centers in schools. In addition, on the six survey items pertaining to Overall Parent Engagement, 74% of high school parents, 79% of middle school parents, and 87% of elementary parents responded positively regarding parent engagement in their schools.</p>

The Local District PACE Units provided materials and training to Parent and Family Center Staff to engage parents of students with special needs and other student groups. In addition, PCS provided instructional materials and training to certificated staff who support Parent and Family Center Staff in order for the parent centers to be inclusive of all families, particularly families of students with special needs and English learners and Standard English learner</p>	<p>\$40,488 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$71,774 - LCFF - 2000-2999 Classified Salaries</p> <p>\$57,315 - LCFF - 3000-3999 Employee Benefits</p> <p>\$21,070 - LCFF - 4000-4999 Books and Supplies</p> <p>\$12,034 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$55,455 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$71,894 - LCFF - 2000-2999 Classified Salaries</p> <p>\$56,008 - LCFF - 3000-3999 Employee Benefits</p> <p>\$13,917 - LCFF - 4000-4999 Books and Supplies</p> <p>\$10,299 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

	<p>students. PCS provided mandatory training schools that participated in the Parent and Family Center Improvement Program. The parent center staff received training on using bilingual reading materials with parents, strategies for developing parent leadership through conversation, parenting resources, and materials to support a college-going culture. Additionally, participating schools were provided with instructional materials for preschool aged children who can be engaged in instructional activities while family members participate in workshops in the Parent and Family Center.</p> <p>PCS and the Local District PACE teams hosted Local District study groups to engage and support parents. The English Learner Advisory Committee (ELAC) Study Group, Local Control and Accountability Plan (LCAP) Study Group and the Title I Study Group were offered quarterly and/or monthly throughout the Local Districts. The ELAC Study Groups focused on supporting the parents of English learners. The LCAP Study Groups focused on seeking input from parents regarding the six LCAP goals. The Title I Study Groups provided parents with training on state, federal and local parent engagement strategies and opportunities to provide input on the Title I mandates. In addition, the Local District PACE units offered Modified Consent Decree Parent Training Sessions at the Local Districts and provided parents of students with special needs with academic and social-emotional support workshops at their school sites. The PACE units led Parent Portal training sessions so parents of students with special needs could access their students Individualized Education Plans online.</p> <p>Schools are required to document the provision of a minimum of four academic workshops to their families annually. Preliminary data shows that approximately 80% of schools uploaded documentation for the four workshops in 2018-19, which is on par with results from the previous school year. In addition, the number of parents engaged with providing feedback on the LCAP was increased significantly in the 2018-19 school with the implementation of the LCAP Study Groups.</p>		
--	--	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including

performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified values the partnership with parents, community and students and continues to engage these stakeholders in supporting the success of students. For the 2018-19 school year, all schools were required to facilitate four Local Control and Accountability Plan parent workshops and five English Learner Advisory Committee parent workshops. The LCAP workshops addressed graduation requirements (A-G course requirements), attendance best practices, and two instructional workshops that schools could select from a menu on the Parent and Community Services website that included math practices, English Learner Development standards, high frequency words, language development, reading comprehension, supporting home learning for all students, the English Learner Master Plan, and the DIBELS early literacy assessment for grades K-2, college and career readiness in elementary/middle schools, and social-emotional learning and behavior. The ELAC parent workshops included the Master Plan, attendance best practices, comprehensive needs assessment, the single plan for student achievement, and the language census.

This year, the district also engaged Local Districts in convening 41 stakeholder study groups that facilitated parents and community members in reviewing the district Local Control and Accountability Plan and providing feedback to support revisions and development of the 2019-20 LCAP. Two additional meetings were held with community-based organizations in May to capture input from the community on the priorities of the LCAP and the Districts goals. Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were also held from January to June to provide comments to and receive responses from the Superintendent on the LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

2017-18 results district-wide on parent, community and student engagement metrics showed a continuing need for improvements in parent engagement. The percentage of parents who stated my school provides resources to help me support my child's education was 90.0% in 2017-18, just below the target of 93%. For 2018-19, the School Experience Survey had 83% of high school parents, 85% of middle school parents, and 89% of elementary school parents agreed. Parent response rates on the School Experience Survey were 39% for high schools, 46% for middle schools, and 53% for elementary schools. While only 68.0% of students felt a part of their school on the School Experience Survey in 2017-18, the 2018-19 results show improvements with 81% of elementary students, 68% of middle school students, and 61% of high school students agreeing with that statement. This difference may have been the result of changing the timeline for completion of the survey in 2017-18. The district continues to provide greater flexibility and supports for schools to achieve the target of having parents trained on academic initiatives with a minimum of four workshops annually.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Goal 4 Action 1 Targeted Parental Involvement - The lower estimated actual expenditures for this Action reflect the under execution of programs including vacant or unfilled staffing positions.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

LASPD staff were assigned to schools to support school staff and communities. In general, one or more officers were assigned to each high school and middle school based on past activity with support provided to elementary and other school sites as needed.</p> <p>The LASPD School Safety Initiatives Division (SSID) was created in April 2018 in response to the Board resolution, <i>Safeguarding Our Schools: Demanding Common Sense Gun Laws and Best Practices to Protect Our Students and Staff</i>, and Board resolution, <i>Protecting our Students and School Sites</i>. The SSID has been responsible for the following during the 2018-19 school year:</p> <ul style="list-style-type: none"> • Safe Schools Task Force (SSTF) - 	<p>\$35,073,117 - LCFF - 2000-2999 Classified Salaries</p> <p>\$21,916,401 - LCFF - 3000-3999 Employee Benefits</p> <p>\$232,074 - LCFF - 4000-4999 Books and Supplies</p> <p>\$128,666 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$434,193 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$45,436,838 - LCFF - 2000-2999 Classified Salaries</p> <p>\$23,709,335 - LCFF - 3000-3999 Employee Benefits</p> <p>\$360,801 - LCFF - 4000-4999 Books and Supplies</p> <p>\$74,889 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$0 - LCFF - 6000-6999 Capital Outlay</p> <p>\$169,567 - LCFF - 1000-1999 Certificated Salaries</p>

Convened stakeholder groups including parents, students, teachers, administrators, other school-based staff, and community organizations, law enforcement experts and District personnel to meet quarterly to review, evaluate and make recommendations to improve the effectiveness of District-wide strategy, safety, and security plans and policies. This group convened its first meeting in September 2018.

- Social Media and Mass School Threats - LASPD has improved upon its existing Weapons Reporting Hotline to include an updated Public Safety Announcement utilizing the "If You See Something, Say Something" campaign to report suspicious activity on and around LA Unified school campuses, and has begun airing in early October 2018 on KLCS-TV.
- Active Gunfire Training - LASPD's Critical Response Team (CRT) has facilitated "Active Gunfire Training" for administrators and officers on a continual basis through the year. LASPD personnel have trained 181 school sites and offices and 7,781 LA Unified personnel since January 2018.
- School Site Evaluation Team - LASPD has worked with Local District Operations staff, Division of District Operations and Facilities Services to make recommendations for design-related security enhancements specific to school sites. As of May 2019, LASPD personnel have

	<p>completed 34 school site and office vulnerability assessments.</p> <ul style="list-style-type: none"> • Mental Health Evaluation Team (MHET) - The District's MHET is a partnership between LASPD and Student Health and Human Services-School Mental Health (SMH) that has a team approach to triage and assess students/staff for danger to self/others; locate mental health facilities for mental health intervention transport; and collaborate with school, Local District, and school staff personnel to ensure the safety of the students and any other individuals involved. Since August 14, 2018, MHET has evaluated 52% of the LASPD's nearly 1520 calls for services for mental health intervention resulting in 222 transports of students or adults to facilities for further evaluation. 		
--	--	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Restorative Justice Unit continued the training plan that began in 2014-15 and will lead to district-wide full implementation of Restorative Justice in schools by 2020. Since 2014-15, 783 schools have been trained in Restorative Justice community building circles, empathy and team building, defusing disruptive behavior and repairing the harm and re-entry circles. During the 2018-19 school year, 162 cohort 4 schools were trained in Tier II and II practices as well as repairing the harm and re-entry circles. During this year, 142 cohort 5 were trained in Tier I practices including community building circles, empathy and team building and defusing disruptive behavior. The 65 Restorative Justice teacher advisors supported schools directly in implementation of these practices to improve the culture and climate in classrooms. Six Local District Restorative Justice advisers provided professional development and support to school staff and leaders. Additional information about the Restorative Justice Unit may be found at: <https://achieve.lausd.net/restorativejustice>.

The Los Angeles School Police Department (LASPD) assisted students, teachers, administrators and the community in providing a safe environment for learning in schools. Officers were assigned to school campuses and patrolled the surrounding areas, and School Safety Officers were also

assigned to school campuses and parking enforcement. The LASPD shares jurisdiction and interacted with over 13 municipal and county law enforcement and emergency services agencies during the school year. Campus officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in student mentoring programs, partake in study sessions with at-risk students, participate in anti-gang lecture/seminars, and ensure for the safety of students. Furthermore, the LASPD has a robust youth services component that includes the Police Explorers and Police Academy Magnet Schools (PAMS). Officers receive training on Restorative Justice, Behavior Safety Emergency Training (B-SET) and Implicit Bias. Officers interact with students on a daily basis during arrival and dismissal, nutrition and lunch as well as the numerous special events with Anger Management Program for Students (AMPS) and Ready and Able for Middle School (RAMS). Additional information about the LASPD may be found at: <https://achieve.lausd.net/laspd>.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

District-wide performance on the metrics for School Safety showed that the district is meeting or nearly meeting most targets. The single student suspension rate (in and out of school) was 0.47% in 2017-18, and the target for 2018-19 is 0.4%. Instructional days lost to suspension remains low at 4,636 for 2017-18, well below the target of 5,667 for that year. Input from school site staff and Local Districts indicates that the expansion of Restorative Justice implementation has contributed to alternative approaches to student discipline practices.

The percentage of students who feel safe at school was 84% in 2017-18, and target for 2017-18 was 80%. For the 2018-19 School Experience survey:

- 90% of high school students felt safe on school grounds during the school day
- 91% of middle school students felt safe on school grounds during the school day
- 92% of elementary school students felt safe on school grounds during the school day

These results may be contrasted with the extent to which students felt safe in the neighborhood around their schools, which ranged from 77% to 79% for students in the same schools. Within schools, the total number of referrals for 2017-18 was 62,878 compared to 56,196 in 2018-19 as of June 1. The expulsion rate remains low at 0.02% in 2017-18 compared to the target of 0.01% in 2017-18 and 2018-19.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Below are explanations for the budget variances between planned and estimated actual expenditures:

- Goal 5 Action 2 District Safety Operations - Estimated actual expenditures exceeded the budgeted amounts for school police representing changes in salaries, benefits and additional overtime hours for staff. Events and community occurrences throughout the year dictated an additional need for school police presence around school sites.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 5 Action 1 School Climate and Restorative Justice - School site funding for this Action has shifted to Goal 1 Action 5 School Autonomy to provide more autonomy to schools in how staff will implement Restorative Justice practices. Central Office and Local District staff and resources for this program will be maintained in this Action to reflect their responsibilities to support schools with continued implementation of Restorative Justice practices.

Goal 5 Action 2 District Safety Operations - Reduction in budget for 2019-2020 is due to administrative costs for the School Police were shifted to Goal 6 Action 3 Central Office and Local Districts to reflect the roles and responsibilities of these staff.

Targeted maintenance to school sites with greatest need.	Building on the plan from last year, M&O utilized newly created teams to provide additional support at schools. The Tiger Teams, comprised primarily of custodians, provided additional cleaning and other services over the weekend. Strike Teams,		
Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be			

established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

which include various craftworkers, performed repair and renovation projects. This past year, the Tiger Teams visited approximately 667 school sites to address areas specifically requested by the principal. Typical work performed included exterior perimeter cleaning, restroom deep cleaning and gardening. Strike Teams performed work at approximately 200 schools. They can work several days and up to two weeks, depending on the school size and type, to address outstanding service calls and other needed repairs. Seven Strike Teams were established to address service calls at schools high percentages of unduplicated count students. In 2018-19, Strike Teams completed over 7,000 service calls including air-conditioning repair, ceiling tile replacement, and door repairs. With Teams spending one week at elementary schools and two weeks at secondary schools, service calls at these schools were addressed immediately to help ensure campuses were safe, nurturing and welcoming to staff, students and parents. Schools with higher percentages of low income, English learners and foster youth are prioritized to receive these services.

This coming school year, M&O will be expanding the Strike Teams to 42 community complexes with dedicated journeymen and gardeners assigned to each complex. The team will be managed by a Complex Project Manager and journeymen and gardeners will be supervised by a Maintenance Supervisor. CPM will be working closely with site administrators to ensure repairs are prioritized and campuses are well maintained.

Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Expanded Access to Meals</u></p> <ul style="list-style-type: none"> • Expansion of the breakfast in the classroom program • Supper offerings 	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>The District served Breakfast in the Classroom at 96% of our schools which provided the opportunity for every student at the sites to eat breakfast at no charge. At the other sites the District served breakfast before the bell or at nutrition break in coordination with the school schedules. School administration and teacher support for the programs has been critical for the program to be in compliance.</p> <p>Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge, however to be in compliance, no meals can be taken off campus. Beyond the Bell staff works in coordination with Food Services to monitor the program and school administrator support will help encourage more students to participate and keep the program in compliance. With over 18,500 students in a homeless situation, 23,500 foster kids and more than 79% of students qualifying for free/reduced meals, many students face food insecurity and encouraging them to participate in the program available to them continues to be a goal of the district.</p> <p>Food Services added another 100 schools to the Community Eligibility Program (CEP) which provided access to meals at no charge to another 40,000 students. It has been seen that when students are not required to pay, more students participate. The District's Direct Certified student percentage increased from 51% to 53%, so more families qualified directly for the meal program without having to submit an application.</p>	<p>\$1,600,000 - LCFF - 4000-4999 Books and Supplies</p>	<p>\$1,647,148 - LCFF - 4000-4999 Books and Supplies</p> <p>\$292,091 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$47,786 - LCFF - 2000-2999 Classified Salaries</p> <p>\$45,871 - LCFF - 3000-3999 Employee Benefits</p> <p>\$59,950 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$5,200 - LCFF - 6000-6999 Capital Outlay</p>

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All actions for this goal were implemented as described. The Human Resources division continues to increase the diversity of the teaching staff district-wide to reflect the diversity of the students served in schools. The 2018-19 new hire LA Unified teacher cohort includes 46% Hispanic/Latinx, 11% Asian, 9% Black, 3% Filipino compared to the LA County teacher demographics of 32% Hispanic/Latinx, 8% Asian, 8% Black, 2% Filipino. In addition, approximately 31% of teachers were evaluated by a school leader by the end of the 2018-19 school year.

LA Unified continues to provide additional maintenance and operations support to schools, with Tiger Teams comprised primarily of custodians providing additional cleaning and other services over the weekend at approximately 650 sites. Strike Teams, which include various craftworkers, performed repair and renovation projects at approximately 200 schools.

Breakfast in the Classroom was served at 96% of schools, providing an opportunity for every student at sites to eat breakfast at no charge. Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All targets were met or nearly met consistent with the statutory requirements that govern teacher assignments, instructional material availability and facilities conditions. The Human Resources Division continues to strive for 100% of teachers are appropriately credentialed for the students they are assigned to teach, with 99.3% in 2017-18. For the Districts support for students with disabilities, the percentage of children whose eligibility for special education services were determined within the 60 days in the guidelines was 99.96%, far exceeding the targeted 89% of 2019-20. In addition, 92.5% of students with disabilities received services as specified in their Individualized Education Plans (IEPs) compared to the 2018-19 target of 90%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. Below are explanations for the budget variances between planned and estimated actual expenditures:

- Goal 6 Action 3 Central Office and Local Districts - The higher estimated actual expenditures for this Action reflect shifts in some personnel costs that were previously in other Actions (e.g., Goal 2 Action 5 Assessment), personnel costs related to the work stoppage, as well as due to higher operational costs, such as utility usage and rates, telecom and fleet maintenance, etc.
- Goal 6 Action 5 Expanded Access to Meals - The higher estimated actual expenditures for this Action include certificated and classified staff to support schools with increasing the number of low income students who have access to free access to meals.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 6 Action 3 Central Office and Local Districts - The higher budgeted expenditures for this Action reflect the transition of personnel costs from other Actions (e.g., Goal 2 Action 5 Assessment, Goal 5 Action 2 District Safety Operations) to more accurately reflect the roles and responsibilities of these staff.

Stakeholder Engagement

LCAP Year: 2019-20

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LA Unified utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District.

During the fall and winter of the 2018-19 school year, the District engaged in extensive stakeholder engagement meetings in communities around the district to receive feedback on current district progress and recommendations on how to improve outcomes for students. This community engagement included 3,000+ participants including representatives from bargaining units, principals, other school site administrators and personnel, classified staff, students and community members participating in 150+ focus groups across the district. Feedback from these groups was categorized into three broad themes of supporting teachers, empowering principals and engaging families and communities. Some examples of specific recommendations included reducing class size, adding counselors, nurses, librarians and support staff to work with teachers, increase dollars targeted toward high need students, matching local district support to communities of schools, building the capacity of school leaders, moving toward greater budget flexibilities, removing barriers for family engagement, and meaningful engagement with parents as partners. Throughout the fall and winter, District personnel engaged United Teachers Los Angeles, the Associated Administrators of Los Angeles, and other bargaining units through negotiations and discussions that provided opportunities for these bargaining units to share their priorities for funding allocations and the progress of the District in meeting its goals and targets.

Special priority was made this year to meet with a broader base of parents of the targeted student populations served through the LCAP, and to provide these parents with a deeper understanding of the plan. The District made a conscious effort to expand the timeline of engagement in the prior school year in order to better utilize parent feedback in the development of the LCAP. The District's engagement efforts began in October, with District staff collaborating to present the expenditures, actions and services. A total of 41 meetings were held from October through February by the District with a focus on capturing feedback for the development of the LCAP. Participants included representatives from school site councils and English Learner Advisory Councils across each Local District.

The Superintendent was in regular consultation with the Associate Superintendent of Special Education and the Special Education Local Plan Area Administrator throughout the school year to determine specific actions to support students with disabilities in the LCAP. The Division of Special Education received input from the Community Advisory Committee (CAC) for Special Education from ten meetings held from August 2018 through May 2019. In this meetings, Division of Special Education staff shared various data and engaged in discussions related to the performance of students with disabilities on state dashboard metrics, Modified Consent Decree progress, and other data related to the progress of students with disabilities across the district. As a result of these consultations and consultations with Local District, Central Office and school staff, the Division of Special Education recommended embedding the following in the LCAP: increase the percentage of time students spend in the Least Restrictive Environment, conducting assessments on time, and ensuring students are receiving their services as specified in their Individual Education Plan. Feedback from the CAC stressed the importance of focusing on inclusion with making sure the proper professional development was available to staff and parents.

Two meetings were held with community based organizations in May to capture input from the community on the priorities of the LCAP and the District's goals. Community-based organizations included various groups representing student and staff stakeholders including Public Counsel, Youth Policy Institute, Partnership for Los Angeles Schools, Leaders for Educational Equity, CHIRLA, Educators for Excellence - Los Angeles, Asian Americans Advancing Justice, Children's Defense Fund - Los Angeles, CARECEN, Advancement Project, UCLA Center X, MALDEF, United Way of Greater Los Angeles. At these engagement sessions, stakeholders were also asked to provide strategies that would strengthen the plan and will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth.

Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were held from January to June. District personnel explained and presented drafts of the LA Unified's LCAP and Annual Update at these advisory committee meetings. In particular, District personnel focused on key programs funded by new and ongoing investments made in 2018-19 and, in some cases, provided progress updates on targets and strategies established in the 2017-18 LCAP. In addition, the District's parent committees meetings in April/May were able to review year-end data from 2017-18 and any available current year data as well as review the district goals and actions for 2019-2020. For the 2018-19 LCAP, the School Experience Survey results also informed school perceptions and needs for students, parents and staff. The annual student School Experience Survey continues to be a main source of student engagement and feedback on the effectiveness of district-wide initiatives and focus areas. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources: lcff.lausd.net and achieve.lausd.net/budget.

Permissible within the CA Education Code, the LAUSD DELAC is serving in place of the English Learner Parent Advisory Committee (ELPAC). The DELAC is comprised of 48 school English Learner Advisory Committee Chairpersons who are elected from their peers. They serve on staggered two-year terms.

The PAC continued in its fifth year with elected governing officers. In 2018, members on the PAC were elected from each of the six LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Two guardians representing Foster Youth were also elected from each region across the District. The parents of English Learner, Foster Youth, Low-Income students and the parents At-Large elected their representatives, respectively. In addition to these groups of parents, seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 55 members of the PAC serving on staggered two-year terms.

The Superintendent provided written responses to the both the PAC and DELAC comments that were developed throughout the 2018-19 school year and submitted to the Superintendent in May of 2019. Responses were reviewed by each committee.

The Board of Education held a public hearing for the LCAP on Tuesday, June 11 and the Board adopted the LCAP on Tuesday, June 18, 2019.

All parent comments and Superintendent responses may be found at www.achieve.lausd.net/lcap.

A community survey for input on the amended LCAP was made available online along with a draft amended LCAP and summary document from Thursday, September 12 through September 17.

The Board of Education provided a public notice of a hearing for the amended LCAP on Tuesday, September 3 and adopted the amended LCAP on Tuesday, September 24.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

The 41 Local District LCAP study groups offered the opportunity for parents and community members to engage in deeper dives into the actual LCAP goals and actions and to provide feedback. Themes from the feedback from these study groups included:

- Continued focus on college and career readiness for all students - continuing Goal 1 Action 9 A-G Immediate Intervention Plan to incorporate initiatives that were previously funded through the state College Readiness Grant
- Requests for additional focus on struggling students and closing achievement gaps for low performing student groups - modified Goal 1 Action 5 School Autonomy resulted in additional funds and flexibility provided to schools identified as having more low performing student groups, also incorporation of new state Low Performing Student Block Grant funding allocations to schools
- Recommendations to continue implementation of the English Learner Master Plan to improve reclassification rates and English learner performance - continuing Goal 2 Action 9 English Learner Supports continues supports for the ongoing implementation of the English Learner/Standard English Learner Master Plan and the implementation of instructional resources that include English Learner supports
- Increase engagement of parents as partners through trainings on topics most relevant to student needs (e.g., technology training) - continuing Goal 2 Action 1 and 2 focused on providing resources for parents through the development of trainings and allowing schools to utilize their resources to support parent engagement
- Improve services and supports for students with disabilities to ensure their success - modified Goal 2 Action 7 Special Education to include initiatives around integrating students with disabilities into general education classroom environments to improve the quality of instruction and allow for greater collaboration between general education and special education teachers.

The Parent Advisory Committee and District English Learner Advisory Committee comments to the Superintendent had some of the same themes in common with the Local District study groups. The comments spanned all six district LCAP goals. Some of the highlights of these comments included:

- Requests for increasing college readiness supports for middle and high school students, particularly around the use of Naviance and supports for PSAT and SAT preparation - continuing Goal 1 Action 9 A-G Immediate Intervention Plan has in the past has focused on developing resources which can now be shifted to increasing implementation in schools through professional development and resources
- Recommendations to increase social-emotional learning supports district-wide - several external grants have supported the expansion of social-emotional learning supports from

- early education centers through the middle grades, while some federal funding has supported trainings on social-emotional learning across the district
- Concern for the performance of special education students and the systems implemented for their success - modified Goal 2 Action 7 Special Education seeks to incorporate more inclusive curricular and instructional practices to improve the performance of students with disabilities, with an increasing number of school staffs being trained to implement these approaches
- Increase the number of counselors in schools to support college and career readiness as well as reduce chronic absenteeism - modified Goal 1 Action 5 School Autonomy to allow schools to reallocate resources beyond the normed counselors to increase the number of counselors district-wide
- Recommendations to continue restorative justice program and supports for effective school implementation - modified Goal 5 Action 1 School Climate and Restorative Justice Program to provide schools with greater autonomy in how to effectively implement this program in schools, particularly so that schools can tailor their investments in staff that meets the needs of their school's implementation
- Support for continued school safety supports and recommendations for building positive relationships between school police and school communities - continuing Goal 5 Action 2 District Safety Operations discussions between school police and parent committees continue to emphasize this request, and school police continue to invest in training and supports for their staff in building those positive relationships
- Recommendations to have the district monitor and evaluate the effectiveness of programs implemented in the LCAP - modified Goal 1 Action 5 School Autonomy, the District plans to set aside funds, supplemented through an external grant, to invest in an external research partner to conduct an analysis of the effectiveness of LCFF funded initiatives, and the Student Equity Needs Index in particular, with a Request for Proposal process to be conducted in fall 2019 and the evaluation beginning in January 2020

The comments above were also echoed by the community organizations in the two meetings held with representatives from those groups. Additional recommendations from the community organizations included:

- Continue funding and implementation of Foster Youth Achievement program - modified Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers, adjustments in program have been planned based on feedback from school site leaders who desired a more integrated approach to supporting students within schools, so the funding and implementation of this program will continue with more school-site based counselors who can coordinate more with school site leaders and teachers, thus improving the quality of supports for students
- Provide evaluations on the progress of implementation and effectiveness of district programs - modified Goal 1 Action 5 School Autonomy, the District plans to set aside funds, supplemented through an external grant, to invest in an external research partner to conduct an analysis of the effectiveness of LCFF funded initiatives, and the Student Equity Needs Index in particular, with a Request for Proposal process to be conducted in fall 2019 and the evaluation beginning in January 2020
- Continue funding Student Equity Needs Index and seek ways to minimize the impact of changes in school allocations - modified Goal 1 Action 5 School Autonomy, the adjustments in the Student Equity Needs Index allocations in 2019-20 include a hold harmless allocation to ensure that schools maintain at least the same funding that they received in 2017-18
- Ensure adequate investments for targeted student populations are monitored and transparent - amendments to this Local Control Accountability Plan provide more transparency in the 2017-18 expenditures and the 2018-19 budgeted expenditures for these investments, and the LCAP revision process for the 2019-20 school year will seek to realign Goals and Actions to provide clearer monitoring and transparency in these investments

Student feedback occurred during the focus groups and student leadership meetings held throughout the year as well as through the district-wide school experience survey that was completed by 74% of high school students, 86% of middle school students, and 92% of elementary school students. Overall results from the extensive surveys are available at achieve.lausd.net/Page/15606. From the survey, only 42% of elementary students agreed that "kids at this school are kind to each other," and only 30% of middle school students and 39% of high school students, which continues to emphasize the need to focus on Restorative Justice community-building practices across schools (continuing through Goal 1 Action 5 School Autonomy - schools continue to identify through their Targeted Student Population plans how their resources will be allocated to support counselors, Psychological Social Workers and others to support implementation of Restorative Justice). This focus on school climate was emphasized in focus groups and student leadership meetings. At the secondary level, promising results from the survey included 84% of high school students knowing which A-G courses they need to pass with a "C" or better to get into college. However, both middle (62%) and high (64%) school students had lower percentages of students agreeing that adults at their schools have talked to them about different college choices for their futures. Through the continuing Goal 1 Action 9 A-G Immediate Intervention Plan, specific initiatives are focused on improving supports for students and parents to understand college readiness, and the district will continue to integrate more college readiness initiatives after the conclusion of the state College Readiness Grant in the 2018-19 school year. Focus groups with students and parents along with Advisory Committee comments emphasized the ongoing need to continue to focus on better preparing students for college readiness.

Staff input from focus groups and through input in regular monthly leadership meetings in Local Districts focused on the need for more flexibility in funding rather than having central office policies driving the distribution of resources - as a result Goal 1 Action 5 School Autonomy was increased, with additional flexibilities provided from Goal 2 Action 10 Targeted Instructional Support, Goal 4 Action 1 Targeted Parental Support and Goal 5 Action 1 School Climate and Restorative Justice Program being integrated with the funding with the Student Equity Needs Index to allow decisions on how schools will meet District targets being outlined in their Targeted Student Population Plans after consultation with stakeholders and approval from their Local District supervisors. In addition, feedback from school leaders on the number of different counselors coming and going from their campuses led to shifts in how Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers would be designed so that counselors would be assigned fewer schools but be able to coordinate more closely with school staff to improve supports

to students.

Feedback from the online community survey about the amended LCAP included responses from approximately 190 parents, students, teachers and community members, with a quarter of those responses in Spanish. 85% of respondents agreed that schools should be able to make decisions over how to spend funds to serve low income students, English learners and foster youth, which demonstrates support for the District's efforts to provide additional autonomy to school sites to develop plans to improve the outcomes for these students. For 2018-19, respondents indicated that the District had made the most improvement in improving student attendance rates, improving student proficiency levels and improving parent engagement. For 2019-20, respondents reported that the District needs to improve the most in supporting struggling students and continue improving student proficiency levels. The majority of respondents agreed that the District's investments are supporting each of its six overall goals. Comments from respondents along with input from other stakeholder groups indicate an overall need to more clearly communicate the Actions that the District is taking to support the success of students, so additional detail and clarification are provided in the amended LCAP to share how the District's investments are aligned with expected outcomes for students. Responses from this survey will also be used to inform the development of the 2020-2023 LCAP during the 2019-20 school year.

The priorities identified in the recommendations above informed the District's Goals and Actions for 2019-20. Investments for English learners, foster youth and low income students are identified in subsequent pages of this document. The LCFF investment priorities reflect this feedback as well as the data analysis of District teams in order to align with target outcomes. Some examples of the impact of this feedback on the LCAP are as follows:

- Goal 1 Action 5 School Autonomy (modified) - Expansion of this Action in 2019-20 focuses on providing additional funding and flexibility for schools to determine how best to improve outcomes for students. This includes expansion of the Student Equity Needs Index (SENI) and maintaining funding levels for all schools in 2019-20. As mentioned in the Goal 1 Action 5 in the Annual Update, each school must complete a plan that outlines their use of these funds and must justify the alignment with supporting low income, English learners and foster youth. Local Districts then ensure implementation of these resources in schools and monitor each school's goals that are aligned with the District LCAP. Schools have primarily directed these resources toward increasing staffing to reduce class sizes and to improve support services for students (e.g., counselors, nurses, and librarians/library aides). In response to feedback, the District will invest in an external research partner beginning in January 2020 to evaluate the progress of implementation and effectiveness of the SENI funding and broader LCAP funding across schools.
- Goal 1 Action 9 A-G Immediate Intervention Plan (continuing) - Maintenance of this program to support continued improvements in graduation rates and A-G completion in schools. Some funding for this Action was shifted to Local Districts to provide more tailored supports to schools. Rather than having the central office allocate resources equally to each Local District, Local Districts were utilize funds in ways to best support the needs of schools based on their state dashboard data and other progress monitoring data (e.g., student graduation progress dashboards). For example, some schools had more capacity to utilize online credit recovery resources whereas other schools utilized more traditional credit recovery options afterschool or during winter/spring breaks that required more teacher-directed instruction, so Local Districts were able to allocate resources/personnel to provide supports for these different needs among their schools, with some Local Districts investing in more counseling support or more professional development or more technology support.
- Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers (modified) - Increased investment in services for foster youth and site-based supports for high needs students.
- Goal 2 Action 7 Special Education (modified) - Expansion of supports for integrating students with disabilities into general education by moving this funding to base funding and expanding the number of schools receiving supports and training on inclusive practices for general education teachers and administrators.
- Goal 5 Action 1 School Climate and Restorative Justice (modified) - Shifting of these funds to Goal 1 Action 5 provides schools with additional flexibility in how to implement Restorative Justice practices and how to reach school goals. Schools have variations in how to implement Restorative Justice, whether through deans, counselors, or other staff. As mentioned before, each school must provide a plan outlining their use of funds and how those funds principally support low income students, English learners and foster youth. Local Districts have principal supervisors who are responsible for approving those plans and ensuring that resources are implemented while monitoring that the school is on track to achieve school-wide goals that are aligned with the District LCAP goals. Funding for Local District and Central Office staff to provide professional development to schools and monitor Restorative Justice implementation will be sustained in this Action.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEAs goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Unchanged Goal

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access

Local Priorities:

Identified Need:

- Graduation Rate - Los Angeles Unified strives to ensure 100% graduation rates, and continued improvements in the four-year cohort graduation rate overall, as evident in the performance level of the state dashboard, demonstrate that current initiatives are supporting this effort. The data continue to point to gaps in graduation rates for English Learners, Foster Youth and students with disabilities and other student groups, though the district continues to showed increases in graduation rates for all three of those students groups from 2017 to 2018. The high school cohort dropout rate will continue to remain a focus of efforts to ensure students remain in school and have opportunities to recover credits to return back on track for graduation. Middle school cohort dropout rates met the expected annual measurable outcome, but increasing resources in middle school academic preparation will better prepare students for high school success, as evidenced by research from the University of Chicago Consortium, Balfanz, and others.
- College/Career Readiness - Los Angeles Unified continues to maintain some of the most rigorous graduation requirements, including a-g course completion, compared to other districts across the state. Graduates with a-g eligibility continue to improve year over year, though the same gaps in performance persist between all students and English Learners, students with disabilities, Foster Youth and African-American students. In addition, the performance of 11th grade students on the English Language Arts and mathematics Early Assessment Program continue to demonstrate greater need for supports in these areas. Student performance on Advanced Placement exams continue to be a target for high schools, with ongoing gaps in the performance of all students compared to English Learners, African-American students, students with disabilities and Foster Youth. Through the annual update process, stakeholders voiced emphasis on the need to continue the District's efforts around college preparedness initiatives that have been ongoing through the state College Readiness Grant. The District's preliminary data on college-going rates (see Los Angeles Educational Research Institute reports at laeri.org) and preparedness initiatives have identified initiatives for the district to concentrate on to support students and parents with the college application and success process. Recognizing that college is a pathway to careers, the District's Career Technical Education (CTE) pathway completion data points to the need for continued investments in continuous pathways within schools and systems to monitor student progress toward completing CTE pathways and earning career-aligned certifications.

Programs & Interventions

Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral,

The Options Program has been integrated into this action in recognition that options schools serve students through the district's multi-tiered systems of support at a Tier 3 level. In 2018-19, a port of the Options program (\$48 million) was covered by supplemental funding. In 2019-20, the full Options program will be covered by base funding, moving funding from

mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE

Goal 1 Action 6 to this Action.

pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways

completed more college preparatory courses compared with similar peers in traditional high school programs.		
· Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

School Autonomy

For 2019-20, the funding provided through the Student Equity Needs Index has been modified to allow for greater budget flexibility for school sites to support unduplicated students. Whereas past resources were provided to schools in the form of positions, schools now have the budget flexibility to reallocate funds for positions to other positions and/or resources that the school deems necessary to focus support on the needs of English Learner, low income students and foster youth at their school sites. The SENI prioritizes schools based on various community and school indicators. Stakeholder groups were engaged through fall 2019 to provide input on those indicators and the

single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the Districts LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the Districts LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate

distribution of funding. For the 2019-20 school year, all schools were held harmless with regards to the SENI funding, meaning that no schools received less funding than the 2018-19 school year. Principals continue to be required to attest that input from stakeholders including school councils and committees was sought to determine the Targeted Student Populations Plan for the school. Guidance and allowable expenditures is provided in the 2019-20 Budget Handbook. All school Targeted Student Population (TSP) plans are posted at the following website: <https://schooldirectory.lausd.net/schooldirectory/>.

The initiatives funded through this Action may be summarized along a number of different categories. Central Office and Local District staff and programs are funded to support the successful implementation of school-site TSP plans

- Academic Intervention and Achievement
 - Central Office and Local District staff to support professional development development, coordination and facilitation
 - Library aides to support literacy learning across schools
 - College Access staff to support school college counselors with professional development and up-to-date information about college entrance requirements
 - Advanced Placement exam expenses to support the access of low income students to these college preparatory exams
 - UCLA/LAUSD Collaborative to support English Learner and Standard English learner access to college
 - Bilingual differential to ensure more highly qualified teachers are available to support English learners
- Student Social-Emotional, Physical and Mental Health
 - Nurses to support the physical needs of students
 - Pupil services and attendance counselors to improve student attendance and outreach to families
 - Campus aides to improve student safety and support a welcome environment for parents and the community
- School Autonomy for Identified Schools

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

For 2018-19 additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the District's student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.
- Grant Set-Aside

- Pilot school funding to implement innovative strategies and additional staffing to improve services for high needs students
- Additional focus innovation schools received funding for additional staffing and resources to support high needs students
- Early Education Instructional Interventions
 - Preschool for All Learners (PAL) program implementation in classrooms at schools that expressed an interest in the program for its students
- Teacher Quality
 - Additional teachers are allocated to schools to support low income, English learner and foster youth students in meeting the more rigorous A-G graduation requirements.

District Initiatives

Below are the planned budgeted expenditures for 2019-2020 across district-wide initiatives included in this Action. School discretionary resources are funds and/or positions in which schools receive an allocation and a school principal, with input from stakeholders, has discretion on how those funds will be utilized to serve targeted student populations. District-wide programs, such as our library aide investments in elementary schools, are positions principally directed to improve the performance of targeted student populations. These resources have a central administration to ensure coherence and continuity in learning for students. Other School Based resources are targeted positions centrally provided to schools, and Central staff help administer these programs and coordinate services.

Initiative	Resourcing	Expenditure
Student Equity Needs Index	School Discretionary	\$ 247,109,157.00
Additional Teachers to Support A-G Access	District-wide	\$ 238,100,000.00
Pre-School for All (PAL) Expansion	Other School Based	\$ 78,937,848.00
School Nurse/HS Counselor	Other School Based	\$ 63,711,972.00
Pilot School-Budget Autonomy	School Discretionary	\$ 41,962,535.00
Class Size Reduction-Teacher/Librarian	Other School Based	\$ 34,937,462.00

Local District-Salaries/Benefits/OE	District-wide	\$	24,531,029.00
Transitional SENI (Hold Harmless)	School Discretionary	\$	24,191,263.00
Proportionality-Campus Aides	Other School Based	\$	8,732,359.00
Local District Support To Schools	District-wide	\$	7,538,302.00
Licensed Vocational School Nurses	Other School Based	\$	6,684,962.00
Transition Services for Targeted Student Populations	District-wide	\$	6,188,656.00
Local District Allocations to Schools	School Discretionary	\$	3,100,844.00
Advanced Placement Exam Expenses	District-wide	\$	1,900,000.00
Additional Resources for Innovation Focus Schools	School Discretionary	\$	1,627,400.00
Operations Support for Targeted Schools	District-wide	\$	1,500,000.00
Bilingual Differential for Teachers	District-wide	\$	1,000,000.00
Dual Language Program Supports	District-wide	\$	580,864.00
TSP-Pending Allocation	School Discretionary	\$	524,383.00
College Access Program	District-wide	\$	502,115.00
Division of Instruction Central Staff	District-wide	\$	346,677.00
World Languages and Cultures-Professional Development	District-wide	\$	150,000.00

Student Equity Needs Index

The Student Equity Needs Index (SENI) continues to focus additional resources to schools with larger percentages of low income, English learner and foster youth. The SENI includes indicators of student need including academic indicators, school climate indicators, community indicators (i.e., childhood asthma and gun violence rates) and demographic indicators. The school rankings were separated by school levels (i.e., elementary, middle and high), with some indicators given greater weight within each school level based on the district's area of focus in the strategic plan. Additional information about the SENI funding formula and overall allocations may be found at: <https://achieve.lausd.net/Page/15878>. School allocations are listed at the following website: <https://ca01000043.schoolwires.net/Page/15604> select "School Allocations for Targeted Student Populations"

(TSP)." Examples of the types of actions/services to be provided include:

- Enhancing school climate
 - Nursing services
 - Counselors (PSA, PSW)
 - Campus aides
 - Registration and clerical supports
 - Community representatives
 - Building and grounds maintenance
 - Restorative Justice implementation at school sites
- Supports for academic planning and instructional interventions
 - Assistant principals (targeted supports provided through a coherent professional development framework to support low income students)
 - Class size reduction teachers
 - Elective teacher positions
 - Professional development X-time and professional services
 - Tutoring supports
 - Librarians and library aides
 - A-G supports, i.e., credit recovery programs, academic and college counselors, etc.

The following table provides a budget for the planned 2019-2020 expenditures amounting to over 95% of the approximately \$271M allocated to the SENI and Transitional SENI funds.

ADMINISTRATOR - ASSISTANT PRINCIPAL	\$ 68,267,548
SPECIAL ASSIGNMENT - NON CLASSROOM - PREP	\$ 43,554,651
TEACHER	\$ 33,438,957
ASSISTANT PRINCIPAL - SECONDARY COUNSELING SERVICES	\$ 12,264,498
COUNSELOR	\$ 10,644,391
OFFICE TECHNICIAN	\$ 8,434,125
TEACHER ASSISTANT	\$ 8,080,333
SCHOOL SUPERVISION AIDE	\$ 7,679,245
GENERAL SUPPLIES	\$ 7,575,270

INSTRUCTIONAL COACH	\$ 5,324,992
LIBRARY AIDE	\$ 4,754,287
PSYCHIATRIC SOCIAL WORKER	\$ 4,507,983
COUNSELOR - PSA	\$ 4,046,798
PSYCHOLOGIST	\$ 3,300,958
NON-INSTRUCTIONAL CONTRACTS	\$ 2,785,877
CAMPUS AIDE	\$ 2,573,780
CONTRACTS FOR INSTRUCTIONAL SERVICES	\$ 2,523,891
INSTRUCTIONAL MATERIALS AND SUPPLIES	\$ 2,503,589
TEACHER ADDITIONAL PLANNING TIME	\$ 2,178,342
TEACHER TUTOR ADDITIONAL TIME	\$ 2,072,314
DAY TO DAY SUBSTITUTES	\$ 1,799,568
TEACHER AUXILIARY COMPENSATION	\$ 1,785,200
BUILDING & GROUNDS WORKER	\$ 1,719,833
MICROCOMPUTER SUPPORT ASSISTANT	\$ 1,408,122
SOFTWARE LICENSE MAINTENANCE	\$ 1,353,052
NURSE	\$ 1,242,234
SENIOR OFFICE TECHNICIAN	\$ 1,189,694
TEACHER ADDITIONAL PROFESSIONAL DEVELOPMENT TIME	\$ 1,050,217

Funding to support Restorative Justice implementation (Goal 5 Action 1 School Climate and Restorative Justice) are now integrated with this Action to provide schools with greater flexibility in staffing and supporting effective implementation of this program. Feedback from schools and stakeholders informed this decision since the program is a school-wide program that can take many different pathways to implementation, with various staff (e.g., counselors, teachers, deans, coordinators) or teams within schools taking lead roles in supporting implementation of Restorative Justice practices. Integrating Goal 5 Action 1 with this Action allows for schools to have the flexibility to implement the program in a way that meets their needs while also holding schools accountable through their Targeted Student Population Plans to set targets for related measures such as suspension rates and attendance rates. Local District staff continue to monitor school implementation of Restorative Justice practices and provide guidance on school progress on accountability measures through monthly principal meetings and regular data discussions with school leaders and leadership teams.

Unchanged Action

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the Districts options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

2018-19

Personalized Learning in Options Schools

These funds are intended for options schools to support their targeted student populations with personalized learning strategies to improve student achievement and on-track progress toward graduation. These funds are allocated on a per pupil basis for schools to submit justifications for how they plan to improve personalized learning strategies in their schools such as increasing the availability of technology, professional development for teachers on Mastery Learning and Grading strategies, or the implementation of online literacy resources.

The majority of prior year funding for Options administrators

and staff has been moved to Goal 1 Action 1 Programs & Interventions in recognition that options schools are a Tier 3 intervention within the district's multi-tiered systems of support for high school students.

A-G Diploma Program

The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

<p>Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.</p> <p>The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.</p> <ul style="list-style-type: none"> • Tier 2 reflects a student who is 3-4 classes off-track • Tier 3 reflects a student who is 5 or more classes off-track

A-G Immediate Intervention Plan

Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind

several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning- Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

2018-19

Select from New Action, Modified Action, or Unchanged Action:

New Action

School Innovation Funds are provided to a subset of secondary schools to improve outcomes for targeted student populations. These targeted funds must be aligned to District Goals as described in the LCAP, and must be expended on services that support one or more of the following areas:

- Significant increases in investment in high need schools, including academic support and mental health, social and emotional support
- Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

- Linked Learning
- School climate initiatives including Restorative Justice
- High school graduation and student recovery from dropout prevention for high need students
- Parent and community engagement, particularly for those from high need communities

Unchanged Goal

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- English Language Arts - While the District performance level on the state dashboard improved to yellow in 2018, the data continue to point to the need to focus on the performance of English Learners, Foster Youth, students with disabilities and African-American students. Early Language Literacy benchmarks continue to show improvements overall, with fewer gaps between all students and African American and Latino students, but gaps with students with disabilities, Foster Youth and English Learners are evident.
- Mathematics - The District performance level improved to yellow in 2018, but overall student performance continues to be further below the state standard than for English Language Arts. The performance gap with English Learners, Foster Youth, students with disabilities and African-American students persists across the grade levels.
- English Language Proficiency - Reclassification rates district-wide continue to improve, but the percentage of English Learners who have not reclassified in five years is still above the District target and will continue to be a focus of English Language Arts programs. As mention in the prior two sections, English Learner performance in English Language Arts and mathematics continues to lag behind other students. The implementation of the District English Learner/Standard English Learner Master Plan will continue to improve programs district-wide, with a more recent emphasis on implementing integrated English Language Development across the content areas to support student success on the new English Learner Proficiency Assessment for California assessment.
- Foster Youth - The performance of Foster Youth across academic indicators continue to lag behind the overall performance of students in English Language Arts and mathematics. Continued social-emotional and counseling supports will be implemented to assist school site personnel with meeting the needs of these students. Additional professional development and multi-tiered systems of support will be implemented to ensure school site personnel are accelerating the learning for these students.
- Students with Disabilities - The District's monitoring systems and collaboration with the Community Advisory Committee continue to focus on various measures outlined in the Modified Consent Decree such as on-time assessments and completions of Individualized Education Plans and the percentage of time students with disabilities who are in the general education program at least 80% of the day. District programs such as full integration of students with disabilities in general education classes continue to show promise along with the District-wide implementation of multi-tiered systems of support.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Average Distance from Level 3 for English Language Arts (SBAC)	Grades 3-5 All Students		Grades 3-5 All Students -18.6	Grades 3-5 All Students -11.8

Planned Actions / Services

Complete a copy of the following table for each of the LEAs Actions/Services. Duplicate the table, including Budgeted Expenditures, as needed.

Action 1

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

2018-19

Select from New Action, Modified Action, or Unchanged Action:

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Foster Youth Support Plan and Family Source Centers

Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:

Beginning in the 2019-20 school year, the District will aim to provide local, integrated, specialized support services for targeted student populations, ensuring that students in foster care continue to be served effectively and consistently, while strategically increasing support for students experiencing homelessness and/or involved in the juvenile justice system. This new model of support services personnel will include Pupil Services and Attendance (PSA) Counselors and Psychiatrist Social Workers (PSW), Pupil Services and Attendance Counselor aides, healthy start coordinators and

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (i.e., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

navigators, and additional support staff. This integration model will reduce duplication and maximize personalization of support for students and schools. Staff will generally serve in smaller geographic areas. This will reduce the time spent driving and increase time to provide direct support and build relationships with students, families, and staff. In addition, this will allow the increased opportunity to build adult capacity and systems and structures to meet the needs of students.

Staff will continue to receive supervision, training, and support from Student Health and Human Services administrators. Foundational and differentiated training will be provided prior to and throughout the school year. The District is committed to continuing to gather input from students, families, staff and community partners (i.e. Department of Children and Family Services, Probation, etc.) to ensure that best practices are leveraged and expertise is shared across programs as the District works toward implementation in Fall of 2019.

PSA and PSW will continue to support foster youth and provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (e.g., tutoring, post-secondary opportunities, and career pathways)
- Promote school stability
- Advocate for the educational rights of foster youth
- District-wide initiatives (e.g. Foster Youth Shadow Day, Pathways to College Celebration, etc.)

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors will conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LA Unified support services and other community agencies. PSA Counselors will provide parent engagement through classes and outreach to schools and community agencies. FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc. FSPP coordinates with the DCFS to offer linkages to support services for Voluntary Family Maintenance youth and families.

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state's priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Increase in resources to expand professional development efforts consistent with the actions below.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Development improving instructional capacity in all content areas.

- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

Instruction

The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a student's ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the Districts curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the

greatest impact and learning gains by all of our students.

- Teachers and instructional staff
- Implementation of shifts in Mathematics and ELA
- Interdisciplinary instruction
- English Language Development (ELD) Standards Phase-In Plan
- Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative
- Contracts to support effective Common Core State Standards instruction
- Design lessons
- Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative
- Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards.
- Arts integration

Goal 2 Action 8 Support for Integrating Special Education Students into General Education is now incorporated into Goal 2 Action 7 Special Education. These additional funds are allocated to certificated and classified salaries and benefits to support implementation of inclusive practices in schools. Professional development is provided to school site teams and staff about implementation of inclusive practices for

students with disabilities to be integrated into general education classrooms. Practices include team teaching, collaborative planning, intervention/differentiation strategies and Universal Design for Learning strategies.

Modified Action

English Learner Supports

Implementation of the English Learner Master Plan supporting English Learners and Standard English Learners. Services provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive of reclassified fluent English proficient students (RFEPS)

- Provide for EL/SEL Instructional Coaches
- Standard English Learner support

- A literacy intervention course with an additional language development component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the Districts English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school.

The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan

existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

Improved Literacy Interventions

- The Accelerated Academic Literacy program will be improved to provide more effective, research-based curriculum and instruction to accelerate the learning of secondary English learners who are identified as not being on track with grade level standards.
 - Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with Lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.
 - Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum. This Action will support the identification and

engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into

implementation of more current intervention curriculum aligned with the state standards in order to improve the quality of instruction for English learners.

- Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district will be implementing an improved Tier III intervention curriculum and expand the use of the curriculum to more schools.

- Device Carts: English learners benefit from having increased access to personalized curriculum and literacy resources that 1:1 devices in schools can provide. Schools who are implementing Tier II and/or Tier III intervention curricula are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their English learner students, the District will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs provide additional curriculum and instruction beyond the District-provided base curriculum.

Local Control Accountability Plan Support

the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

Administrative support is necessary to ensure the development, implementation, and reflection on the District's use of supplemental and concentration funds directed to English learners. The staff members funded through this Action will monitor that Central Office, Local District and school teams are implementing services designated to principally support English learners in the Local Control and Accountability Plan. Staff will also coordinate stakeholder engagement with the parents of English learners and other groups focused on the success of these students in order to inform annual reporting of implementation and assessing progress toward District goals for English learners.

Instructional Technology Support

Ensure school-sites receive the support to enhance and utilize technology available at their site as well as provide PD to teachers on utilizing tools to enhance instruction.

Allocates information technology resources and support to areas in the District that have deficits in tech support.

Targeted Instructional Support

Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an

additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

Arts Program

Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index.

The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts

programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.

Unchanged Goal

Goal 3**100% ATTENDANCE****State and/or Local Priorities Addressed by this goal:**

State Priorities: 5. Pupil engagement

Local Priorities:

Identified Need:

- **Attendance Rates** - The district-wide percentage of students attending 96% or higher were only at 66.9% in 2017-18, with African-American, students with disabilities and Foster Youth rates far below the district-wide percentage. Initiatives focused on improving attendance rates including providing more real-time data to schools to monitor student progress and additional social-emotional and counseling resources for schools to engage families.
- **Chronic Absenteeism** - Overall district-wide chronic absenteeism continues to be high, with an orange performance level for 2018. Low income, African-American, students with disabilities, Foster Youth and homeless students are among the groups with the highest rates of chronic absenteeism. Initiatives focused on reducing chronic absenteeism in schools have focused on providing more real-time data to schools to monitor student progress and additional social-emotional and counseling resources for schools to engage families.
- **Staff Attendance** - The percentage of all staff attending 96% or above met the target of 78% in 2017-18. The District will continue efforts to monitor progress toward this measure and recognize staff who are meeting targets throughout the year.

Expected Annual Measurable Outcomes

Unchanged Goal

Goal 4**PARENT, COMMUNITY AND STUDENT ENGAGEMENT****State and/or Local Priorities Addressed by this goal:**

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Identified Need:

2017-18 data on parent, community and student engagement were far below the annual targets for a number of indicators. Parent/Caregiver participation on the School Experience Survey, the percentage of students who feel a part of their school and the percentage of schools training parents on academic initiatives by providing a minimum of four workshops annually were low, most likely due to the new, earlier administration window implemented in 2017-18. The percentage of parents who state "My school provides resources to help me support my child's education" were close to the annual target. Input from parent committees and stakeholder groups emphasized the importance of gathering more accurate data on parent engagement and on continued investments district-wide in engaging parents as partners in learning and students.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Percentage of Students Who Feel a Part of Their School (Question on School Experience Survey)	All Students 67% SY 16-17	All Students 87%	All Students 89%	All Students 91%

Unchanged Goal

Goal 5**ENSURE SCHOOL SAFETY****State and/or Local Priorities Addressed by this goal:**

State Priorities: 6. School climate; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- Student Suspensions - The District overall suspension rate continues to be very low, with a blue performance level overall. The overall instructional days lost to suspension continues to decline district-wide. The District will make efforts to sustain these overall results. Targeted Restorative Justice supports and resources continue to focus on reducing the higher suspension rates of African-American and Foster Youth students.
- Expulsions - The District will continue to reduce or maintain the low percentage of expulsions district-wide.
- Student Experience - The percentage of students who feel safe at school exceeded the target for 2017-18 at 84%. School site staff and resources will continue to support student social-emotional learning and community-building through various programs.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Single-Student Suspension Rate	All students 0.5% SY 16-17	All students .35%	All students .45%	All students .4%

Unchanged Goal

Goal 6**BASIC SERVICES****State and/or Local Priorities Addressed by this goal:**

State Priorities: 1. Basic

Local Priorities:

Identified Need:

- **Teacher Quality** - The Division of Human Resources continues to strive for 100% of teachers appropriately credentialed for the students they are assigned to teach, with an actual result of 99.3% in 2017-18. The District continues to implement various programs to improve the career pathway pipeline for hiring new teachers and to retain experienced teachers. The percentage of early education center and pre-kindergarten through 12 grade classroom teachers who have a final Educator Development Support: Teacher (EDST) performance evaluation by the end of the school year was 31%, exceeding the 25% target for the year. Ongoing professional development and supports from the Division of Human Resources and Local Districts enhance the abilities of school leaders to engage teachers in continuous improvement and growth.
- **Materials Sufficiency** - 100% of all schools provided students with standards-based instructional materials by meeting Williams Act requirements. 100% of facilities were also deemed in good repair across the District. Ongoing maintenance and replenishment of these materials and facilities is required in order to sustain these outcomes.
- **Special Education Services** - The percentage of students whose eligibility for special education services were determined within 60 days of guidelines was 99.96%. Students with disabilities receiving services specified in their Individualized Education Plans (IEPs) was 92.5%. The District will strive to maintain and improve on these results, especially in light of the performance of students with disabilities across multiple goals that are below the performance of other students.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Percentage of Teachers that are Appropriately Credentialed for the Students They are Assigned to Teach	All Teachers 99% SY 16-17	All Teachers 100%	All Teachers 100%	All Teachers 100%

On-going Major Maintenance

Targeted maintenance to school sites with greatest need.

Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a

week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

Action 5

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Expanded Access to Meals

- Expansion of the breakfast in the classroom program
- Supper offerings

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Expanded Access to Meals

- Expansion of the breakfast in the classroom program
- Supper offerings

2019-20

Select from New Action, Modified Action, or Unchanged Action:

In order to continue expanding access to meals district-wide for low income students, the More than a Meal program will be utilizing certificated staff, two per Local District, to support schools in collecting meal applications and household income forms. These staff are necessary to coordinate with administrators and teachers in schools and to ensure that low income students have the supports necessary to be prepared to be successful in school.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and Concentration Grant Funds:

\$1,137,257,754

Percentage to Increase or Improve Services:

32.35%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2019-20, LA Unified will budget \$1.14 billion in supplemental and concentration funds for continued support and increased services for low income, English learners and foster youth. The District is committed to closing the achievement gaps that currently exist for these students. District-wide goals and targets guide the LCAP to strategically align resources and initiatives to support the success of targeted student populations. In addition, the input from the multiple stakeholder groups including the Parent Advisory Committee and the District English Learner Advisory Committee has been used to inform the decisions on initiatives and expenditures for the upcoming school year. The District targets provide guidance to schools as they plan their programs and calibrate the work of the Central Office and Local Districts to monitor and support school progress during the school year.

To ensure that foster youth, English learners and low income students are prepared for success in college, career and life, LA Unified has focused on offering a cohesive delivery of services that is aligned with multi-tiered systems of support (MTSS). Schools have received professional development on implementation of MTSS, and the Central Office and Local Districts have been supporting the identification of diagnostics and the development of interventions. By placing high needs students at the center of the work ahead, District initiatives will focus on empowering principals, supporting teachers and engaging families and communities in the coming year by:

- Reducing class sizes
- Adding counselors, nurses, librarians and support staff to work with teachers
- Developing personalized pathways for English learners, foster youth and low income students
- Increasing funding targeted toward high-needs students
- Aligning Local District supports to communities of schools
- Reducing operational demands on principals so they can focus on instruction
- Building the capacity of school leaders to serve high needs students
- Increasing budget flexibilities
- Providing more complete information to families and organizations about each school
- Developing opportunities for direct family engagement in Local Districts
- Delivering more wraparound services through the “All In for Public Education” campaign

Descriptions of how each Action is principally directed to and effective in meeting the District's goals for unduplicated pupils are described below.

Actions/Services Contributing to meeting the increased or improved services and identified as **Limited to Unduplicated Student Group(s)**:

Goal 2: Action 6, Action 9

- Goal 2 Action 6 Early Childhood Education/Transitional Kindergarten Expansion Plan - Data on early literacy and academic performance in the District indicate a gap in skills when comparing English learners, low income students and foster youth with other student groups. The expansion of early childhood programs from part-day to full-day programs as well as the increase in number of Expanded Transitional Kindergarten (ETK) programs are designed to support low income students with high quality early foundational education in

order to place students on the track toward early literacy success. Preschool and Expanded Transitional Kindergarten (ETK) programs are only implemented in Title I schools (identified as having large percentages of low income students), thus targeting communities that are most in need of quality early childhood education programs. Monitoring with the Desired Results Developmental Profile (DRDP) in addition to preliminary data on early literacy assessments for students who complete ETK and progress to kindergarten indicate the value of these programs in supporting student achievement on DIBELS, state Smarter Balanced assessments and other district LCAP goals. Research from Ramey, Sparling, Heckman and others have indicated the value of quality early childhood education programs on student life outcomes, such as health, income, and schooling. ETK will be added to four elementary schools, which will provide quality preschool seats for low-income children who turn 5 after December 2. Early literacy data from students who have completed Los Angeles Unified early childhood education programs indicate higher performance levels in English Language arts outcomes for students in the early elementary grades. The District's goal of literacy proficiency for all students by third grade can be most supported if English learner, foster youth and low income students entering kindergarten have the foundational skills to achieve.

- Goal 2 Action 9 English Learner Supports - English learner and low income students' literacy performance District-wide on Smarter Balanced assessments and graduation rates indicate a need for targeted supports for these students. This Action improves and increases services for these students by improving the quality of instruction for these students, by providing additional interventions to support secondary literacy achievement, and by including administrative support to monitor the implementation of programs directed toward the needs of English learners. The District is focused on implementing MTSS to support English Learner students, which focuses on the importance of the quality of initial literacy instruction for these students. By providing professional development for teachers on the implementation of the District English Learner/Standard English Learner Master Plan and Academic English Mastery Program culturally and linguistically responsive instruction, the District will improve the implementation of the state integrated English Language Development standards beyond the base curriculum for these students. The funding of English learner instructional coaches across schools with high percentages of English learners also increases the support to schools on the district-wide implementation of the English Learner/Standard English Learner Master Plan. Additional instructional supports for English learner and low income students are provided through Speech and Language Pathology Services in preschool along with transition services (communication, decision-making and self-advocacy skill development) through the District Office of Transition Services for high school students. The District implementation of MTSS for English learners also includes improvement of existing diagnostic and intervention strategies. While the District has utilized an early literacy assessment for many years, a more recently adopted diagnostic reading assessment for secondary students will be used to support the identification of and differentiation for English learners. The District's Accelerated Academic Literacy program will be improved through the implementation of new curricula and instructional strategies in Tier 2 and 3 intervention classes. Additional device carts will also be provided to schools with high numbers of English learners to improve access to the most current literacy intervention online programs. These defined English Learner supports are guided by established state policy and well documented research, including: The California English Learner Roadmap; Consensus Study Report: Promoting the Educational Success of Children and Youth Learning English, The National Academies of Sciences, Engineering, and Medicine; Guiding Principles for Dual Language Education, 3rd Edition, Elizabeth R. Howard; Common Core Standards in Diverse Classrooms, Jeff Zwiers, Susan O'Hara, Robert Pritchard; Unlucking English Learner Potential Strategies for Making Content Accessable, Diane Staehr Fenner and Sydney Snyder; Advocating for English Learners, A Guide for Educators, by Diane Staehr Fenner; and Culturally Responsive Teaching & the Brain, Zaretta Hammond. State policy and research is used during professional development to inform instructional practice/pedagogy, programs and services for English learners. Recognizing that District-wide investments in low income students, foster youth and English learners span across many Divisions and schools, administrative support is included in this Action to monitor and report on the use of supplemental/concentration funds for English learners. Preliminary data indicates these programs have evidence of success with 21% of English learners reclassifying in 2017-18 and the distance from standard data on the English language arts Smarter Balanced assessment for English learners from 2017-18 indicating improvement in performance for grades 3-5 and grades 6-8.

Actions/Services Contributing to meeting the increased or improved services and identified as **LEA-wide**.

Goal 1: Action 3, Action 5, Action 6, Action 7, Action 8, Action 9, Action 10

Goal 2: Action 1, Action 8, Action 10, Action 11, Action 12

Goal 3: Action 2, Action 3, Action 4

Goal 4: Action 1

Goal 5: Action 1

Goal 6: Action 4, Action 5

- Goal 1 Action 3 Adult and Career Education for Targeted Youth - Graduation rate and A-G progress data for English learners, foster youth and low income students continue to lag behind other student groups. This program increases the services for these students by providing increased opportunities to enroll in A-G approved courses to return on-track for graduation during the school year and during winter recess, spring recess and on Saturdays. The Division of Adult and Career Education (DACE) collaborates with the Federal and State Education Programs office and Local District Counseling Coordinators to support select credit recovery sites for Winter/Spring Plus. Program design and service delivery are informed by federal Title I recommendations and District A-G Intervention and Support policies, both of which work to maximize access to services for low income, English learners and foster youth. Moving forward, DACE will continue to consult with Division of Instruction teams to improve alignment between DACE credit recovery services and District TSP initiatives and will work with Local Districts to ensure that schools with high percentages of high needs students are aware of DACE services and will update partnership policies and practices to highlight opportunities to promote equity and expand student access. The DACE AC2T program is designed specifically for English learner, low income and foster youth who have disconnected from the traditional school system. These students are well served by the AC2T program's flexible learning models and comprehensive support systems. This year, DACE will increase efforts to recruit targeted student populations by working closely with the District's Homeless Education and Educational Options Programs. In addition, DACE has taken steps to partner with non-profit organizations (United Friends of the Children, Skid Row Housing Trust) to increase its ability to serve students who face

unique opportunities to succeed. This Action is a confirmed effective use of supplemental funds based on a number of different reasons. Data from credit recovery efforts and Winter/Spring Plus efforts indicate high numbers of low income, foster youth and English learner students about to recover credits and accelerate their paths toward meeting graduation requirements. Collaborating with Division of Instruction teams to provide targeted credit recovery opportunities is an example of "integration of...intervention services," as called out by the California Department of Education (CDE) in its Multi-Tiered System of Support (MTSS) framework. Credit recovery partnerships leverage resources across Divisions and increase student opportunities to reach their academic goals. In addition, the competency-based curriculum used in adult education is aligned with Bloom's Mastery Learning and Grading model. High needs students who have not been successful in traditional classes appreciate the flexible, learner-centered approach to building skills and mastering competencies at their own pace. The AC2T program is committed to the "Whole Child" philosophy of learning. In addition to providing flexible learning models and individualized instruction, AC2T staff strive to meet the social-emotional needs of English learner, foster youth and low income students by providing them with weekly advisory meetings, free Psychiatric Social Worker (PSW) sessions, and ongoing social services referrals.

- Goal 1 Action 5 School Autonomy - Data on students' college and career readiness District-wide (e.g., graduation rate, performance on Smarter Balanced assessments) indicate that English learners, foster youth and low income students at all grade levels perform at lower levels than other student groups. To address this need, this Action provides unduplicated students with additional resources above and beyond District-normed resources that are uniquely designed to meet the academic, social-emotional and wellness needs of these students. School are allocated additional resources based on the percentages of English learners, foster youth and low income students as included in the Student Equity Needs Index. District-wide resources improve services for these high needs students by supporting schools through the development, coordinating and facilitation of resources aligned with school needs.
 - Teacher Quality - Due to the change in the District's graduation requirements to include completion of the more rigorous A-G course sequence beginning with the graduating class of 2016, schools at all grade levels have been asked to prepare all English learner, foster youth and low income students for a more rigorous expectation for graduation than other school districts. Since these students are lower performing on state assessments, reduced class sizes and additional intervention courses are research-based strategies to improve the personalization of instruction for these students and to accelerate their learning. District and school outcomes from this increased service show improvements in student performance on state assessments, indicating more English learner, foster youth and low income students on-track for grade level college and career readiness standards, as well as growth in the District graduation rates for these students.
 - Academic Planning, Intervention and Achievement - Because of the academic performance gap between English learner, foster youth and low income students and other students, additional enhancements to the quality of instruction and greater alignment of instruction with college expectations are strategies to accelerate the learning of these students. Central Office and Local District staff will develop, coordinate and facilitate professional development across schools with high need students that focus on intervention and differentiation strategies to support student learning. Additional administrators and coordinators in schools improve the quality of instruction in classrooms through professional development and coaching of teachers and by providing direct supports and guidance to high needs students through one-on-one meetings and collaboration with parents and teachers. Unduplicated students are also more likely to have less access to diverse, grade-level appropriate text at home, so additional librarians and library aides will be funded to enhance literacy learning in schools across the District by increasing access to grade level appropriate texts and by providing additional instructional support to unduplicated students. Unduplicated students have historically not had access to Advanced Placement courses and were less likely to take the end-of-course assessments for these courses that can earn students college credits. In order to improve school-site college-readiness outcomes to increase numbers of high needs students passing Advanced Placement, the District will also subsidize the Advanced Placement exam expenses for unduplicated students. Research also shows that the quality of instruction for unduplicated students is not aligned with college readiness, with many unduplicated students entering college needing remedial coursework. The UCLA/LAUSD Collaborative connected UCLA staff with school site administrators and teachers to improve high school strategies for English Learner achievement and college preparation. English learner students benefit from having teachers who understand their primary languages and can communicate directly with parents/guardians. Bilingual differentials are also provided to teachers to ensure that more highly qualified teachers are available to improve supports for English learners. Due to the varying performance levels of unduplicated students, instruction that lacks differentiation and small group instruction may not be as effective in meeting the needs of these students. Schools also invested in additional professional development and planning time for teachers along with tutoring hours for students to improve the personalization of instruction for these high needs students. District and school outcomes indicate higher numbers of unduplicated students taking Advanced Placement exams, higher percentages of seniors applying for college and improvements in the state English language arts and mathematics assessments across grades 3-8 and 11 along with continued increases in early literacy data outcomes for unduplicated students.
 - Enhance School Climate - English learners, foster youth and low income students arrive at school with many social-emotional, physical and mental health needs in addition academic performance gaps. Adverse Childhood Experiences (ACEs), psychological challenges, and physical health needs may affect the ability of high needs students to focus on learning both in and out of the classroom. Additional Pupil Services and Attendance Counselors and Psychiatric Social Workers increase the social-emotional and mental health services for high needs students in order to increase student engagement and attendance. Additional nurses serving schools above the District-allocated norms provide increased health care supports to unduplicated students who may be in greater need of health care supports. Research shows the importance of high needs students having positive relationships with adults on campus and the benefits in supporting academic achievement and positive behaviors. Additional campus aides support positive school climates at schools by developing relationships with high needs students, increasing campus safety and monitoring student non-academic behaviors and social-emotional skills outside of classroom environments. Positive and timely communication with students and parents of high needs students are necessary to build positive relationships with school staff in order to support student attendance, engagement and achievement. Additional clerical staff at school sites directly assist students and staff with supports around attendance and communications with parents and the community. English learner, foster youth and low income students also tend to live in neighborhoods that experience increased violence and trauma, which can result in increased disruptive student behaviors in schools. High needs students have, in the past, had disproportionately high rates of suspensions and discipline issues. Additional school-based Restorative Justice staffing support the continued expanded implementation

- of these practices in schools to build positive school communities and prevent disruptive behaviors/conflicts. Outcomes for unduplicated students in schools and across the District indicate sustained low suspension rates and declines in chronic absenteeism for these students based on preliminary school data during the 2018-19 school year.
- Additional Counseling Resources - Low income, foster youth and English learner students do not have as much access to college and career guidance from their home environments, especially since the parents/guardians of these students may not have attended college. Research has shown that additional academic and college/career guidance for these students can improve their chances of attending college. Additional academic and college counselors above the District-allocated norms provide additional one-on-one support for these students including academic guidance on student progress along with college and career guidance. College Access program Central Office staff support the development of improved counseling interventions and up-to-date resources that college counselors at school sites can use to support high needs students. All high school counselors are provided additional professional development and resources to support the tracking and support of high needs students toward graduation and college/career readiness. Schools across the District continue to have nearly 100% completion of Individualized Graduation Plans across grades 6-12, indicating that counselors are meeting with high needs students to discuss college and career plans and progress toward graduation.
 - School Autonomy for Identified Schools - Given the large and diverse communities that the District serves, District-wide policies and practices for schools may not always meet the specific needs of English learner, foster youth, and low income students within some schools. Schools with collaborative leadership and greater autonomy over budget, staffing, governance, curriculum and assessment and the school calendar allow staff to implement improved and increased services to best meet the needs of English learners, foster youth and low income students in their school communities. The District's 46 Pilot schools (listed at <https://achieve.lausd.net/Page/2841>) implement strategies above and beyond other District schools that allow them to increase and improve services for high needs students such as implement longer school days, increase teacher professional development hours, require additional teacher extracurricular duties like tutoring, implement alternative curriculum, and increase teacher and parent voice in school decision-making. Additional resources were also provided to two identified focus innovation schools (Columbus Middle School and LaSalle Elementary) because of the low academic performance of English learner, low income and foster youth in those schools. Additional teachers and counselors beyond the District-allocated norms in these schools increased services to support low income, English learner and foster youth students by lowering class sizes and providing one-one-one counseling services. Additional administrators and coordinators improved the quality of instruction in classrooms through coaching and professional development. A recent report on the effectiveness of Pilot schools found that these schools serve a higher proportion of students who are economically disadvantaged (84% vs. 79%). In terms of outcomes, the Pilot school graduation rates are 8 percentage points higher than the District as a whole (85% vs. 77%) and Pilot Schools' four-year college enrollment was 7 percentage points higher (34% vs. 27%).
 - Early Education Instructional Interventions - The performance gap between English learner, foster youth and low income students entering preschool when compared to other student groups has contributed in the past to disproportionately high rates of special education referrals and disciplinary actions for students in these groups. The Preschool for All Learners (PAL) program involves the conversion of preschool classrooms to full day, early childhood classroom environments aligned with Universal Design for Learning that are developmentally and individually appropriate to improve the success of low income, foster youth and English learner preschool students. 401 PAL classrooms were implemented in the 2018-19 school year across the District. PAL staff and resources were provided to schools in order to meet the need to close the achievement gap between English learners, foster care and low income students and other student groups. Additional PAL classrooms will be added in the 2019-20 school year.

Feedback from school leaders, parents, and community organizations have supported the increased allocation of resources based on targeted student populations at schools to ensure school sites have the autonomy to support District-wide LCAP goals. Research indicates that additional resources in the form of staffing and professional development, particularly to support the social-emotional and health needs of targeted student populations, is an effective use of funds. In addition, instructional resources in the form of staffing and professional development assist in providing additional opportunities to provide feedback and personalized support to targeted student populations, which is aligned with research-based effective strategies for these student groups. Research on implementation supports this differentiated approach to resourcing schools to reach desired District-wide outcomes. For example, implementation of Restorative Justice may not require a single specific funded position in a school, but rather those funds might be used to support a team of existing staff to distribute leadership of Restorative Justice implementation and to share the responsibilities across the school. Gains in student achievement performance in English language arts and mathematics across all grade levels over the past two years for English learners, foster youth and low income students indicate that this Action is having a positive impact on student outcomes. DIBELS early literacy data as well as improvements in district-wide English Language Arts performance demonstrate how this and other district literacy strategies are supporting low income students, English learners and foster youth. In order to supplement existing District practices of monitoring and reflecting on the effectiveness of this Action, the District will also be contracting with an external research group to provide additional feedback on how this Action is supporting improved/increased services for high needs students. The Central Office and Local Districts will continue to build the capacity of school leaders to engage stakeholders in decision-making to address the needs of English learners, low income students and foster youth in their schools. Central Office and Local District staff will also continue to facilitate school-site teams in monitoring the progress of implementation and reflecting on the impact and outcomes of these services on unduplicated students. The Student Equity Needs Index distributes funding based on a formula that includes indicators of student and community need. Schools have this autonomy to develop a plan to utilize these funds to increase and improve services for English learners, foster youth and low income students, and school leaders are provided guidance through the District Budget Handbook on allowable expenditures aligned to support high needs students. Each school must provide justification for how these funds are targeting unduplicated students while aligning services with the District's LCAP and the school's strategic goals.

- Goal 1 Action 6 Personalized Learning in Options Schools - Graduation rates and on-track data for low income students, English learners and foster youth in Options schools are far below the performance of other student groups across the district. District's Options schools primarily serve low income, foster youth and English learners since these groups are

disproportionately more likely to fall behind in graduation progress. The personalized learning funding allocations to Options schools increase supports for these high needs student groups by increasing credit recovery opportunities, tutoring after school and on weekends, access to technology, and social-emotional learning supports. Investments in personalizing instruction for these schools provide additional Tier 3 supports for low income, foster youth and English learner students in the District's multi-tiered system of support. Investments in Options programs are an effective use of supplemental funds because data indicates that these high needs students in these more personalized learning environments have been able to recover credits and accelerate their learning in ways that are more effective than traditional classroom environments. As a vital support within the District's multi-tiered system of support, Options programs continue to improve the rates of credit recovery and transition back to comprehensive high schools for unduplicated students. Feedback from school administrators indicates that these strategies are improving engagement and pass rates for high needs students.

- Goal 1 Action 7 Realigned After-School Program - Data from the student School Experience Survey indicate that low income, foster youth and English learners tend to have lower rates of participation in extracurricular activities and activities outside of the classroom. These students also have a demonstrated need for additional interventions and social-emotional supports beyond what is available during the regular school day for all students. The District sought to bring greater cohesiveness between the after-school program and regular school day efforts by implementing social-emotional learning programs and increasing training for after-school staff on the needs of foster youth, low income students, and English learners, and offering summer term credit recovery and extended learning opportunities for the summer. Unduplicated pupils benefit from these increased services which provide academic enrichment and intervention along with supplemental social-emotional learning support for these students. This Action is a confirmed effective use of supplemental funds because they focus Youth Services staff with professional development on research-based needs of targeted student populations. Feedback from school staff indicates improved outcomes in academic performance, social-emotional skills and on-track graduation progress for English learners, foster youth and low income students who participate in these programs. This Action improves services through the after-school program to support academic enrichment and support and greater alignment of the after-school program with classroom instruction.
- Goal 1 Action 8 A-G Diploma Program - District-wide progress toward graduation data on English learners, foster youth and low income students indicate how these students fall behind on indicators beginning in 9th grade and as early as middle school. The A-G Diploma Program is intentionally designed to increase the services for and address the needs of low income, English learner and foster youth students in Title I high schools with additional Diploma Counselors who provide direct support to Tier 2 and 3 English learner, foster youth and low income students who are identified as being at-risk of not graduating. These counselors increase personalized supports to students by meeting with individual students, collaborating with academic counselors, and monitoring student progress. High needs students receive access to Diploma Counselors who advocate to teachers on their behalf and provide individualized tracking and guidance to these students. The amount of staff time allocated to each school is based on the number of students identified off-track (Tier 2 and 3) with the A-G graduation requirements. At the beginning of the year, 17,998 Tier 2 and 3 students were identified - of those 76% were low income, 35% were English language learners, 2% were homeless and 3% were in foster care. End of year data confirmed the effective use of these supplemental funds as 4,357 Tier 2 and 3 students (24%) successfully completed sufficient numbers of classes with passing grades to move up at least one or more Tiers as a result of A-G Diploma Program efforts. For 2019-2020 school year, Student Health and Human Services will offer more frequent and meaningful training opportunities to these Counselors focused on building their counseling skills. In addition, the focus will be more on the multi-tiered systems of support and helping these Counselors better assess the social emotional needs of the students. These Counselors will work collaboratively with other programs, departments, and divisions to train school-site administrations on how to better support students in Tier 2 and 3. There are also plans to improve the tracking and the reporting practices for targeted population students in Tier 3: By definition, Tier 3 students are five or more A-G courses behind. There is no delineation between a student that is 9 A-G courses behind or a student who is 5 A-G courses behind. The result of this limited definition is that the most deficient and at-risk students who are working very hard and making incremental gains despite their potentially extreme circumstances are not accounted for.
- Goal 1 Action 9 A-G Immediate Intervention Plan - English learners, foster youth and low income students perform at lower rates than other student groups on many graduation progress indicators such as credits earned and academic achievement levels. This Action increases services for these students by providing targeted, research-based resources for credit recovery and college readiness at the Local District and school-site levels. Local Districts are allocated funds and develop plans to improve graduation rates and A-G course completion for English learners, low income students and foster youth. The Division of Instruction supports Local Districts and schools by providing a variety of research-based resources for credit recovery and college readiness. Past District high school data on English learners, foster youth and low income students indicate that these students often do not have space in their schedules to retake courses that they've failed during the school year. This Action funds online and in-person credit recovery opportunities during, before and after school as well as staffing to support schools with implementation of these opportunities as a means of increasing opportunities for unduplicated students to recover credits and learn in more personalized ways. Overall data on graduation progress for English learners, foster youth and low income students also indicates specific courses with higher failure rates may be courses where additional interventions during and after school day may prevent students from failing courses. Tiered A-G interventions such as mastery-based curricular intervention programs and additional tutoring are also provided to these students in order to prevent students from falling behind during the school year. District School Experience Surveys with teachers and parents indicate an ongoing need to educate parents and teachers about college entrance requirements and the required course sequence in order to improve the quality of guidance and support for English learners, foster youth and low income students. Since the District graduation requirements include the A-G course sequence, additional professional development and training is provided to teachers as well as parents on college readiness strategies and methods to support student college-going rates. This Action is a confirmed effective use of funds based on past experience, with continued improvements in District-wide graduation rates and A-G completion for low income, English learners and foster youth as tracked through District dashboards that monitor students who are on-track for graduation across grades 9-12. The refinement of District-wide systems to track student progress toward graduation has allowed Local Districts and schools to refine their approaches to Tier 3 support for students and to ensure the effective use of these funds to reach high needs students. The college readiness aspects of this Action are based on many of the research-based strategies from the University of Chicago Consortium on School Research as well as recent research from the Los Angeles Educational Research Institute (LAERI) on Los Angeles Unified student college readiness and enrollment data. The focus of this research is on first generation college going students who are low income, foster youth and English learners. Preliminary data from LAERI indicates that most Los Angeles Unified 12th grade students are completing college applications or registering for community college.

- Goal 1 Action 10 School Innovation Funds - Highest need secondary schools (30 high schools and 20 middle schools) have been identified to receive additional funding based on their high percentages of foster youth, homeless youth, low income students, and outcomes for school climate and academics (e.g., suspension rates, chronic absenteeism, state assessment results). Schools are required to engage stakeholders in developing a plan based on the continuous improvement cycle of identifying root causes of low student performance, identifying and assessing school strategies to improve student performance, and implementing those strategies as outlined in their plans. These investments have demonstrated effectiveness based on prior year progress from these schools in maintaining low suspension rates and improving on-track graduation indicators. This Action improves or increases services for high needs students by having schools invest in additional resources in one or more of the following areas:
 - Academic support, mental health and social-emotional support - English learners, foster youth and low income students enter school with high rates of Adverse Childhood Experiences (ACEs) as well as physical and mental health challenges. Increased investments in additional staffing such as instructional coaches, counselors, PSA counselors, Psychiatric Social Workers, nurses and psychologists provide resources beyond the District-allocated norms to improve the wellness supports for low income, foster youth and English learners. Feedback from school site administrators and other staff indicate that these additional resources are increasing attendance and academic engagement for high needs students.
 - Increasing A-G and Advanced Placement access - The more rigorous District high school graduation requirements require schools to ensure all English learners, foster youth and low income students are prepared to pass these courses and meet grade-level performance expectations. The performance gap for these students results in the need for additional intervention courses as well as college preparatory courses to ensure all of these students have access to a strong college-ready course sequence. Reducing class sizes through additional teachers beyond District-allocated norms increases access to A-G courses, credit recovery and Advanced Placement courses for high needs students. The addition of more instructional coordinators (non-classroom based teachers) and Assistant Principals increases coaching and professional development for teachers to improve the quality of instruction and interventions for English learners, foster youth and low income students. Preliminary data from District progress monitoring systems indicate that high needs students in these schools are more on-track to meet grade-level benchmarks for course completion in grades 9-12. The District has also seen improvements in the numbers of students passing two or more Advanced Placement courses among graduating classes.
 - Linked Learning - Research on English learners, foster youth and low income students indicates a high need for these students to receive additional supports around college and career readiness because they lack access to knowledge and informal networks about success in these areas. Linked Learning is a growing school-based program that combines rigorous, college-preparatory instruction, critical thinking and industry-focused, real-world technical training in high-demand career pathways to increase student engagement, attendance and academic outcomes. Data from SRI International indicates that this program improves equity for high needs students by increasing course completion rates and preparation for college and careers. Schools implementing Linked Learning must invest in additional teacher planning and professional development time in order to develop project-based learning and thematic coursework aligned with the career pathway for the school. Students benefit from Linked Learning programs by receiving more engaging lessons connected to real-world careers, from having the opportunity for work-based learning experiences both in and out of school, from having greater access to Career Technical Education courses and from receiving additional college and career readiness coaching from teachers and counselors. For District Linked Learning schools, graduates have higher rates of meeting A-G college entrance requirements and higher results on indicators of career readiness.
 - School Climate Initiatives - Past data indicates disproportionate rates of chronic absenteeism and disciplinary actions for English learners, foster youth and low income students. Additional school staff beyond the District-allocated norm along with additional staff professional development and collaboration time support the needs of these students by ensuring that Restorative Justice practices are implemented to promote positive school communities and prevent disruptive behaviors. Additional out-of-classroom staff beyond the District-allocated norm such as Assistant Principals, coordinators and counselors increase the services to high needs students by planning and implementing strategies that foster an inclusive school environment. District-wide monitoring of Restorative Justice implementation continues to note increased use of these practices across schools, and sustained low rates of suspensions for unduplicated students in schools with stronger implementation of Restorative Justice practices.
 - High School Graduation and Dropout Prevention - District data indicates that English learners, foster youth and low income students are more in danger of not meeting graduation requirements. Effective, research-based strategies for improving graduation rates focuses on the need for personalized supports and opportunities for school staff to coordinate early identification of student needs and the use of data to support interventions. Additional academic counselors above the District-allocated norms allow schools to provide increased one-on-one counseling services for high needs students to monitor progress their toward graduation. Additional professional development time for teachers facilitates greater coordination of early identification and intervention for high needs students, while additional teacher tutoring time supports individualized instructional opportunities for these students. Data from District graduation progress dashboards indicate that English learner, foster youth and low income students in these schools are improving in meeting grade level benchmarks for being on-track toward graduation across grades 9-12.
 - Parent and Community Engagement - District School Experience Survey data along with external research indicates that parents of English learner, foster youth and low income students tend to have lower rates of engagement and involvement, and because these parents have lower rates of college attendance/completion, additional supports and training are needed for these parents on the District college preparatory curriculum and college readiness. Additional school-site office staff along with additional school site personnel such as counselors and instructional coordinators allow schools to increase parent and community engagement by providing additional workshops and resources for parents of high needs students. These supports along with increased opportunities for one-on-one meetings improve on-track with graduation rates and educate parents on the A-G college entrance requirements and effective strategies to prepare high needs students for college. Feedback from school administrators indicates that these resources are increasing opportunities for parent engagement in schools and improving parent understanding of District A-G course graduation requirements.
- Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers - Foster youth student performance continues to lag behind other student groups in the District across all

state dashboard indicators. This Action provides additional counselors to support the over 7,000 foster youth across the District with academic support, case management, access to tutoring, and advocacy for student educational rights and school stability. The FamilySource Partnership Program supports students and families with referrals and linkages to support services and community agencies. This is a confirmed effective use of supplemental funds based on data showing increased attendance rates and increased graduation rates along with feedback from students, counselors, caregivers, county partners, and community partners that the program has increased student connections with school staff and other students. For 2019-2020, this Action is an improved and increased level of service due to additional funding and more local, integrated and personalized resources that have been allocated to serve foster youth based on feedback from school sites. Over the past four years, quantitative and qualitative data collected on foster youth has shown that counselors serving foster youth have resulted in improved academic and attendance outcomes.

- Goal 2 Action 10 Instructional Technology Support - This Action supports low income, foster youth and English learners by implementing one-on-one devices in schools in order to bridge the digital divide that exists between these student groups and other student groups. The Instructional Technology Initiative team will continue to provide models of support to schools in order to increase one-to-one technology access for high needs students. These programs increase teacher capacity to integrate technology into instruction and include: leadership development through instructional leadership cohorts and a teacher leader network; professional development around effective technology integration strategies such as the International Society for Technology Education (ISTE) standards, Digital Citizenship lessons and computer science education; model practitioner schools that received additional facilitator support to implement effective technology integration strategies. Increased personalization of instruction and access to additional instructional materials through digital resources are demonstrated strategies to improve the performance of low income, foster youth and English learners. Supports for direct onsite technical support will continue to be provided to ensure that the use of instructional technology at schools is unimpeded. The effectiveness of these District Instructional Technology Initiative programs can be demonstrated beyond the participation and exposure of thousands of high needs students to the concepts of Digital Citizenship and computer science. Results of professional development evaluations provided by participants indicate high integration of ISTE standards, Digital Citizenship Certification and Computer Science Education concepts in classrooms. Observations by Central Office and Local District leaders also indicate increased implementation of effective strategies to integrate technology into instruction for high needs students. For the 2019-20 school year, services through this Action are increased to ensure technology support and integration are expanded to more high needs students and existing schools continue to build the capacity to manage their initiatives. This continues to be an effective use of supplemental funds based on evidence from the number of educators participating in these programs, and participant evaluations indicate that as a result of the professional development they better understand how to use instructional technology effectively to meet the diverse needs of low income, English learners, and foster youth.
- Goal 2 Action 11 Targeted Instructional Supports - Based on the District's early literacy data and early warning indicators for high school graduation, low income, English learner and foster youth students are more likely to be performing below grade level standards across the content areas. The District's increased services for these students in this Action focus on reducing class sizes and offering additional elective courses by providing schools with additional teachers. Various research studies have noted how increased student engagement through elective courses can improve attendance and student achievement. Reducing class sizes provides additional opportunities for teachers to differentiate instruction and provide additional feedback to underperforming low income, English learner and foster youth students to accelerate achievement. Results of District-wide graduation rates and A-G completion for these students indicate that these increased services are effective in supporting positive outcomes for schools and the District. The Early Language and Literacy Plan (ELLP) implementation improves early literacy instruction for low income, English learner and foster youth students by providing additional training to administrators and teacher on how to utilize early literacy assessment data to differentiate instruction within and across classrooms. Teams within all elementary schools in the District have received training in ELLP strategies, and ELLP professional development will continue to offered to deepen school understanding of effective early literacy strategies above and beyond what is available in District curricular materials. Schools with greater years of experience implementing ELLP strategies demonstrate higher early literacy assessment performance for foster youth, English learners and low income students. District-wide early literacy assessment data indicates that foster youth, English learners and low income students who are able to achieve at the highest performance level are more likely to meet grade level literacy requirements in following years.
- Goal 2 Action 12 Arts Program - Past District-wide data on Arts Education indicated that English learners, foster youth and low income students had less access to enriched arts education programs beyond the minimum state requirements. The Arts Education Branch continues to implement a targeted Arts program that utilizes the District's Arts Equity Index (AEI) to provide additional resources to schools with high populations of unduplicated students. All schools receive an AEI allocation, but schools with higher percentages of English learners, foster youth and low income students receive more funds. The AEI utilizes principal surveys to identify arts programming gaps across schools. The AEI increases the level of arts programming beyond minimum state requirements and brings parity to school-sites that may not historically have had access to broad arts curricula and programs beyond the state requirements. This is a confirmed effective use of funds for high needs students based on past experience, with a comparison of the AEI for the years 2015-16 and 2017-18 showing improvement in schools moving from one AEI quartile to another, especially for those schools in the underserved and development quartiles. This Action is an increased level of service for the 2019-20 school year with additional investments toward providing additional arts instructional materials to school sites. With the improvements in arts programs District-wide on the AEI quartiles, the investments in additional arts instructional materials are an effective use of funds to provide greater access for English learner, foster youth and low income students to a broader variety of arts disciplines above and beyond the basic arts curriculum requirements.
- Goal 3 Action 2 Targeted Supports to Increase Student Engagement at Campuses of Highest Need - Whole child data for students across the District indicate higher chronic absenteeism rates, trauma exposure, adverse childhood experiences, and school failure/dropout for English learners, foster youth and low income students. This Action provides additional staffing and resources beyond District-normed resources to increase outreach to students and parents of students who are at risk of being chronically absent. These resources are provided at the request of schools based on their plans describing their use of Student Equity Needs Index funds. Itinerant Student Health and Human Services (SHHS) staff, including Pupil Services and Attendance counselors and Psychiatric Social Workers, provide an array of additional direct services for students who are at disproportionate risk for attendance issues, adversities, such as trauma exposure, and school failure/dropout. SHHS personnel focus on meeting the needs of the whole child, particularly our students whose social-emotional and academic success is threatened due to lack of basic resources, school/housing mobility, and other adversities, such as trauma exposure, which are most prevalent among our students who live in poverty, are English Learners, and/or are students in foster care. Itinerant SHHS staff provide additional

evidence-based, multi-tiered systems of support services for targeted student populations. This framework has demonstrated efficacy in targeted efforts to reduce chronic absence and mitigate barriers to high school graduation. Clerical staff support engagement of high needs student by assisting SHHS staff and school site staff with communications with parents and with processing student paperwork for registration and absences, while custodial supports support SHHS Caregiver and Community Trainings and Resource Fairs that provide low income, English learner and foster youth students and their parents with access to available resources in the community that can help prevent absences and encourage student engagement in school. The District has made tremendous progress with increasing graduation rates, in part due to the addition of these supplemental services. With the autonomy to invest in locally identified resource needs, there has been growth in school purchased SHHS staff leveraging supplemental and concentration dollars, attributable to school site teams' recognition of the investment in SHHS personnel as an effective use of funds to support school communities to meet the needs of the whole child, particularly English learner, foster youth and low income students whose success is threatened due to a lack of basic resources, school/housing mobility, and other adversities, such as trauma exposure.

- Goal 3 Action 3 Homeless Youth Program - Over the last three years, the Homeless Education Program has been able to increase the identification of students experiencing homelessness from 17,421 (SY 17-18) to 19,526 (SY 18-19). This program will continue to fund PSA counselors and resources to be principally directed towards low income students identified as homeless under McKinney-Vento in order to ensure timely enrollment, advocacy for school stability, and academic and personal resources and community-based referrals. The services provided are an effective use of supplemental funds by past experience and research; targeted child welfare and attendance and dropout prevention services mitigate barriers to student success and ensure equity and access to all District resources and programs. For the 2019-2020 school year there is an increase in level of service to students experiencing homelessness. For the 2019-2020 school year the District has increased support by providing additional case management services and coordination of services for students in Tier 2 and 3 (off-track from high school graduation requirements). The District has increased direct services via a partnership with the County and expansion of educational case management services into County Coordinated Entry Sites (CES) and the number of service providers who support with service delivery and direct services. The increase in services will build upon our successful identification of students experiencing homelessness and enhance access to academic, health, and social-emotional programs and services to meet the needs of the whole child.
- Goal 3 Action 4 District-wide Student Engagement Plan - Based on District School Experience Survey data from students across grade levels, English learner, foster youth and low income students often participate less in school leadership roles and have fewer opportunities to engage in extracurricular activities. The Student Involvement, Development and Empowerment Unit convenes District-wide student leadership councils, facilitates the selection and support for the student board member, and supports student mentoring opportunities in order to increase opportunities to provide student voice and participation from high needs students. Student leadership councils include low income, foster youth and English learners and provide a forum for engaging students in informing District policies and practices. These councils include Associated Student Body Presidents from middle and high schools across the district as well as the Superintendent's Student Advisory Council. This Action is a confirmed effective use of supplemental funds based on data such as feedback and work products from students involved in engagement activities and the inclusion of the voice of high needs students in informing District policies related to school uniforms and discipline procedures. Research also indicates that student engagement is critical to helping build school culture and relationships.
- Goal 4 Action 1 Targeted Parental Involvement - District parent school experience survey data indicates that the parent engagement and involvement continue to decline across the grade levels from elementary through high school, and parents of English learner, foster youth and low income students continue to be challenged with developing relationships with schools to support student learning. This Action is principally directed toward supporting school sites with additional staffing beyond the District-allocated norms (e.g., community representatives, parent resource liaisons, parent community facilitators) to increase parent engagement by targeting parents of low income, English learners and foster youth. Staff provide additional parent engagement workshops and support school staff in communicating District expectations around graduation requirements and available community resources for families of high needs students. These staff may also provide additional one-on-one support for parents to improve access to the online Parent Portal and other District online resources for parents like Naviance, the college and career readiness support system. These staff are allocated based on school-site plans for their use of Student Equity Needs Index funds. This Action is a confirmed effective use of supplemental funds by past experience and research, as it supplements the services and practices that schools are already providing to families, like newsletters, social activities and family nights. Annually, parent survey results indicate that additional training and workshops are needed to increase parent participation and build parents' capacity to partner with schools. Research shows that low income and English learner parents need access to detailed information provided by their schools regarding the importance of college and career readiness, reclassification, and how to help their children improve their academic achievement. Many school staff need resources to train their families and strategies for improving their outreach. Training arranged by school staff based on the resources from the District Parent Community Services Division allows for a welcoming environment to be offered, along with the enrichment for families; and it allows families to build stronger relationships with the adults who care for their children. District School Experience Survey results from parents indicates positive responses regarding parent engagement and involvement from over 87% for elementary parents to over 73% for high school parents.
- Goal 5 Action 1 School Climate and Restorative Justice - Reflecting the efforts of the past years in implementing Restorative Justice practices, the 2017-18 District performance level for suspension of low income and English learner students is blue (best) level, and foster youth performance is at the green (second best) level. In order to maintain and improve on these performance levels, this Action supports Restorative Justice implementation district-wide as it enters its final year indicating full implementation of these practices across the District. Low income students, foster youth and English learners will benefit from improved school-site implementation of Restorative Justice practices that supports teacher use of strategies to defuse disruptive behavior and strategies to build community and resolve conflicts. Continued professional development of school site staff and funding of support staff will ensure sustainability of these practices in reducing suspensions and expulsions of students. This Action will continue to benefit unduplicated students the most since they are the student groups that are most disproportionately subjected to disciplinary actions. The level of services for this Action are being maintained at the District level, with school-site funds being distributed through the Student Equity Needs Index in Goal 1 Action 5 School Autonomy to allow schools to have greater flexibility in how to implement Restorative Justice practices. District staff will continue to provide training and will monitor implementation in schools. This Action continues to be identified as an effective use of supplemental funds through district data on reduced rates of suspension and reduced number of days lost to suspension as well as through feedback from school sites and

stakeholders who value the opportunity to build community within schools and to build relationships with families when disruptive behaviors cause disruptions at school sites. Research on Restorative Justice programs indicate promising results in terms of the impact on school climate, student behavior and relationships between students and with staff as well as other outcomes (WestEd 2016).

- Goal 6 Action 4 On-going Major Maintenance - The communities in which English learner, foster youth and low income students reside often have less green spaces and may not have as many available community spaces for access to resources. There is also evidence that having more inviting environments and available green spaces can improve parent engagement and student access to out-of-classroom activities. Data from school site teams as well as assessments from District facilities staff have identified many additional maintenance projects that are necessary to improve facilities and spaces in schools with high needs students. Strike Teams, consisting of various craftworkers, will be expanded to 42 community complexes with dedicated journeymen and gardeners to perform repair and renovation projects based on prioritized needs. This expansion will be directed toward schools with high percentages of unduplicated pupils in order to improve their school environments which should support improvements in attendance and academic outcomes. Low income students, English learners and foster youth will benefit from more immediate facilities repairs and additional facilities available to support student participation in extracurricular and afterschool activities, which support increased student engagement and attendance. This Action is confirmed as an effective use of funds because the program has supported the instructional environment in schools identified with high percentages of low income, English Learners, and foster youth, and in those schools that have received support, 99% of principals surveyed recommended that the program continue in the next school year. This Action continues to improve services for high needs students for the 2019-20 school year by making targeted facilities improvements in these schools.
- Goal 6 Action 5 Expanded Access to Meals - District data indicates an increase in meals consumed by low income, English learner and foster youth students since the District expanded its access to meals over the past five years. The District will continue serving Breakfast in the Classroom at schools, as well as hot and cold supper, to ensure access to healthy meals for low income and homeless youth who may face food insecurity. Food Service programs are available to all students at schools, qualifications for reduced/free cost meals are provided to low income students. The District receives files monthly from the Department of Public Social Services (DPSS) and Department of Child and Family Services (DCFS). These files list families with low income levels or who are in a foster situation which directly qualifies them for meals at no charge. In addition, Food Services staff work with Parent Community Services and Local District personnel to send out the message that applying for the meal program does not have a bearing on families immigration status. Also Food Services has added more than another 100 schools to the CEP program which automatically qualifies them for meals at no charge. This is confirmed effective use of funds from past experience and research since tracking of these efforts in the District has seen improved rates of meals consumed by students and research continues to make connections between healthy meal access and student performance. The District continues to communicate with parents to urge their students to take advantage of the three meals available at schools daily. Also, there is a No Shaming rule, under which every student who comes to the cafeteria without money or an eligibility is provided a meal with no exception. The District is also starting Farm to Table programs at some schools to provide access to fresh seasonal produce as they would a Farmers' Market. The funding for this Action is increased to the focus on expanding community outreach and student participation in the District meal programs.

Actions/Services Contributing to meeting the increased or improved services and identified as **Schoolwide**.

Goal 1: Action 4

- Goal 1 Action 4 Teacher Retention and Support Program (REED) - As described in the Annual Update and the Goals, Actions & Services sections, this program requirement has expired, so additional funds for positions in these schools have been folded into the Student Equity Needs Index. District-wide data indicates higher rates of teacher turnover/mobility and overall fewer years of teaching experience in schools serving high percentages of English learner, foster youth and low income students. The Beginning Teacher Growth and Development Induction (BTGDI) program will continue to be funded through this Action to increase the supports for teachers serving these high needs students. The BTGDI program provides increased mentoring and resources to beginning teachers in these schools so they develop the classroom practices and parent engagement skills to be successful with these students. This program plays a critical role in ensuring the District continues to have highly qualified teachers serving high needs students. This portion of the BTGDI program will continue to prioritize high needs schools as identified through their high percentages of targeted student populations. Data from 2018-19 end-of-year surveys show that 90% of teachers felt that mentors had a positive impact on their teaching practice and 88% felt mentors had a positive impact on their students' achievement. Of the 575 teacher participant survey respondents, 90% indicated they would continue to teach at their current school during the 2019-20 SY, 9% indicated they planned to teach at another school during the 2019-20 SY, and 1% planned to take another job in education in 2019-20.

LCAP Year: 2018-19

Estimated Supplemental and Concentration Grant Funds:

\$1,164,261,199

Percentage to Increase or Improve Services:

32.60%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2018-19, the LAUSD will budget \$1.16 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. These funds represent a concerted effort to continue and realign current expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to expand early learning interventions and supports for our youngest learners, refocus our secondary ELA interventions, and drive innovation in our neediest schools. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English

learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998)

- **Accelerated Academic Literacy (Goal#2, Action #9):** The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- *Assistant Principal:* All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- *Counselor (High School Only):* All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
- The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- *School Libraries/Librarians:* Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
- *Services for Elementary Schools:* Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution

of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.

- *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
- **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
- **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a

- strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.
 - **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kindergarten preparation programs is essential to identifying and supporting students to eliminate the kindergarten readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
 - **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
 - **School Innovation Fund Program (Goal #1, Action #10):** Invest in the highest need secondary schools in LAUSD which have comprehensive need to support foster youth, homeless youth, math outcomes and school climate outcomes. The resources at these schools are guided by a clear expectation that schools define their root causes, develop and assess school-based strategies, and collaborate with a student support team focused on addressing the mental health, life and academic needs of students. The coherence-making model is focused on developing a sustainable practice on ongoing inquiry and improvement lead by the school leadership team and supported by District staff.
 - **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
 - **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as

foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.

- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities for academic enrichment in this area of study.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. 85% of our students

qualify as an LCFF unduplicated pupil. Building parent capacity district-wide is essential to supporting the academic achievement of unduplicated pupils in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.

- **Coordinated Professional Development (PD) Framework (Goal #2, Action #9):** Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

LCAP Year: 2017-18

Estimated Supplemental and Concentration Grant Funds:

\$1,134,420,996

Percentage to Increase or Improve Services:

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current

and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF.

This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during

these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).

- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- *Assistant Principal:* All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- *Counselor (High School Only):* All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- *School Libraries/Librarians:* Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
- *Services for Elementary Schools:* Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and

Proficiency for All Goals, as indicated in the District's LCAP.

- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post- secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
 - **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
 - **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition,

staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.

- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to

participating in outdoor activities.

- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Expenditure Summary

Expenditures by Budget Category					
Budget Category	2018 Annual Update Budgeted	2018 Annual Update Estimated Actual	2017	2018	2019
All Budget Categories	\$5,364,950,681	\$5,195,063,449	\$5,217,738,123	\$5,364,950,681	\$5,190,756,819

Exhibit 26

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Los Angeles Unified School District

CDS Code: 19 64733

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: 333 S. Beaudry Ave., Los Angeles, CA 90017, www.lausd.net, (213) 241-1000

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

This chart shows the total general purpose revenue Los Angeles Unified School District expects to receive in the coming year from all sources.

The total revenue projected for Los Angeles Unified School District is \$7,370,987,416.00, of which \$5,587,376,601.00 is Local Control Funding Formula (LCFF), \$873,459,191.00 is other state funds, \$142,358,623.00 is local funds, and \$767,793,001.00 is federal funds. Of the \$5,587,376,601.00 in LCFF Funds, \$1,137,257,754.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

LCFF Budget Overview for Parents

This chart provides a quick summary of how much Los Angeles Unified School District plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Los Angeles Unified School District plans to spend \$7,810,252,248.00 for the 2019-20 school year. Of that amount, \$5,203,851,733.00 is tied to actions/services in the LCAP and \$2,606,400,515.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

LA Unified has a structural deficit which is a result of on-going expenditures exceeding on-going revenues. The 2019-20 budget incorporates the 2018-19 unassigned ending balance reserve. Differences between this budget overview and the district Standardized Account Code Structure (SACS) district report are due to the exclusion of LA Unified affiliated charter schools from this budget overview. Additional General Fund expenditures not in the LCAP account for \$2.2 billion and include Education Protection Account, Lottery and unrestricted General Fund resources supporting teacher and school-site positions; Title 1 resources to schools and summer programs; Title 2 resources for professional development and quality educator improvement; Title 3 resources supporting English Learner coaching and other efforts, Low Performing Student Block Grant; Title 4 Part B, 21st Century Community Learning Centers Program; Special Education IDEA Support, Alternative Dispute Resolution, Mental Health resources; College and Career Pathways Trust grant to support Career Technical Education pathways; After School Education and Safety program; Federal funding for after-school, reserve and student health & human services support personnel; Instructional materials supported by the lottery; State Teacher Retirement System (STRS) on-behalf pension contributions; additional major maintenance account fund; Workforce, Vocational Education and Transition Partnership programs

Increased or Improved Services for High Needs Students in 2019-20

In 2019-20, Los Angeles Unified School District is projecting it will receive \$1,137,257,754.00 based on the enrollment of foster youth, English learner, and low-income students. Los Angeles Unified School District must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Los Angeles Unified School District plans to spend \$1,153,110,024.00 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Los Angeles Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Los Angeles Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Los Angeles Unified School District's LCAP budgeted \$1,221,361,505.00 for planned actions to increase or improve services for high needs students. Los Angeles Unified School District estimates that it will actually spend \$1,125,569,450.00 for actions to increase or improve services for high needs students in 2018-19. The difference between the budgeted and actual expenditures of \$95,792,055.00 had the following impact on Los Angeles Unified School District's ability to increase or improve services for high needs students:

The difference between actual and budgeted expenditures is, in part, due to the actual expenditures being reported before the year-end accounting of all programs. The actual costs of several budgeted actions and services were less than anticipated. The actions and services were provided, though in some instances vacant positions, particularly for hard to staff positions such as nurses, special education teachers, mathematics teachers, and science teachers, resulted in some reduction in the quality and quantity of services.

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LA Unified) is focused on ensuring all students are prepared for college, career and life. We are a district that serves over 694,096 Pre-K thru Adult Education students, including independent charter and affiliated charter schools. Approximately 85% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, it is essential we ensure resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LA Unified is informed by our diverse population where 157,619 students are learning to speak English proficiently and 73.4% of our student population is Latino, 10.5% is White, 8.2% is African American and 6.3% is Asian/Pacific Islander. LA Unified embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 63,576 employees, consisting of teachers, administrators and classified personnel who are instrumental in helping LA Unified achieve the goals and objectives for improving student outcomes. Additional information about the district may be accessed at <https://achieve.lausd.net/facts>.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

LA Unified continues to expand the implementation of multi-tiered systems of support to ensure that all students are ready for college, career and life. In addition to academic, behavioral and social-emotional initiatives, LA Unified is focused on increasing school-based resources and staffing district-wide and ensuring equity in the distribution of those resources. Schools and Local Districts have been provided additional flexibility in the use of supplemental funds because of the diverse needs of school communities and the belief that those closest to students know best how to allocate staffing and resources.

Goal #1 - 100% Graduation: Ten LCAP actions aim to increase graduation rates and ensure students graduate college and career ready.

- Additional funding has been allocated for class size reduction teachers and counselors. Schools have also received increased budget autonomy so that local decision-makers can determine how best to utilize funding to be most aligned with the needs of their students. The Student Equity Needs Index funding has increased and now provides schools with greater autonomy over how those funds may be spent (Goal 1, Action 5).
- Options schools funding has been moved from supplemental to base funding to recognize the student populations these schools serve and to provide these schools with additional flexibility to determine allocations of resources and staffing (Goal 1, Action 6).
- A-G Immediate Intervention continues to expand resources for schools to provide Tier 2 and 3 academic supports for students to improve proficiency levels and to increase graduation rates. Local Districts are also provided additional flexibility in the use of supplemental funds to identify staffing and resources needed to support their schools in improving Tier 2 and 3 strategies for student graduation progress (Goal 1, Action 9).

Goal #2 - Proficiency for All: Twelve LCAP actions concentrate on continuing gains in grade-level academic proficiency for all students, and particularly for student groups that perform below the district average.

- The Foster Youth Support Plan and Family Source Centers will receive increased funding to ensure that the district continues to focus on the success of these students (Goal 2, Action 1).
- The integration of students with disabilities into general education programs has been moved from supplemental to the base funding for special education. This acknowledges the importance of this integration initiative for all students as full inclusion programs are expanded to additional schools in the upcoming school year (Goal 2, Action 8).
- The Division of Instruction continues to focus on improving literacy outcomes for the district. This has included the implementation of the English Learner Master Plan to integrate English Language Development across the Tier 1 curriculum and to support secondary literacy Tier 2 and Tier 3 strategies in middle and high schools (Goal 2, Action 9).

Goal #3 - 100% Attendance: Four LCAP actions are focused on supporting the health, behavior and social-emotional learning of students across the district and with homeless and foster youth.

- Increased funding is allocated for these actions to improve student engagement and supports at campuses with the highest need. These actions include increases in staffing for nurses and counselors.

Goal #4 - Parent, Community and Student Engagement: Two LCAP actions support initiatives to strengthen the partnerships and collaboration between school staff, parents, students and community members to support student success.

- Targeted Parental Involvement funding has been reallocated to School Autonomy in order to provide schools with additional funding flexibility in how these funds are utilized at the school level (Goal 4, Action 1).
- Ongoing parental involvement funding will continue to engage staff and parents in ways to provide input on district progress and initiatives (Goal 4, Action 2).

Goal #5 - Ensure School Safety: These two LCAP actions continue to improve the strategies in schools to foster positive school climates and to ensure that schools are safe spaces that are conducive to learning for all students.

- As the Restorative Justice training has been implemented in all district schools, funding for school climate and restorative justice has been reallocated to the School Autonomy action in order to provide schools with greater flexibility (Goal 5, Action 1).

Goal #6 - Basic Services: Five LCAP actions support schools with maintenance and student nutrition needs in addition to providing administrative support through Local Districts and the Central Office.

- Funding is sustained for maintenance and access to meals (Goal 6, Actions 4 and 5).

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

LA Unified is proud of our community of parents, teachers, counselors, administrators and classified staff who are focused every day on improving student performance. We also greatly appreciate our community and university partners that have advocated for continued improvements to our practices and share in the progress of our students.

1 - Graduation Rate - The LA Unified graduation rate on the California school dashboard continues to show growth year-over-year by increasing to 82.7% in 2018 compared to 81% in 2017. The district's continued focus on developing and implementing Tier 2 and 3 supports in high schools such as credit recovery and graduation counseling is resulting in more students

graduating and meeting a-g coursework requirements.

2 - English Language Arts (ELA) - The increase in ELA performance district-wide (+5.6 points) reflects improvements in multi-tiered systems of support implementation in curriculum and instruction during the 2017-18 school year. The implementation of new Tier 1 ELA curriculum across all elementary schools in addition to the implementation of the new district English Learner and Standard English Learner Master Plan have now provided the resources and instruction that students need to demonstrate proficiency on the state assessments.

3 - Mathematics - District-wide mathematics performance improved +3.3 points, demonstrating that additional professional development and formative assessment strategies are supporting student achievement. Schools are also increasing their use of Smarter Balanced interim assessments to support teacher calibration of student performance expectations.

4 - Suspension Rate - Our LA Unified suspension rate maintained a low level (0.5%) similar to the prior year rate. District schools continue implementation of restorative justice practices through professional development and discipline policies.

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The district's implementation of multi-tiered systems of support continues to focus on the areas of greatest need in the district. While overall district performance on the state dashboard only identifies one area, chronic absenteeism, as "Orange," we recognize that overall student performance in additional dashboard areas remains low (e.g., English Language Arts, mathematics).

1 - Chronic Absenteeism - The district's chronic absenteeism rate was maintained year-over-year at about 10.3%, with most student groups performing at the same level as the prior year. The district continues to develop additional resources and dashboards for schools to track their chronic absenteeism rates during the school year. Schools will also have increased funding and flexibility to add Pupil Services and Attendance (PSA) counselors to engage students and families.

2 - College/Career Readiness - While the overall district performance is "Yellow," we recognize that only 38.2% of students in the cohort were identified as "prepared." Examination of the criteria for being "prepared," LA Unified continues to expand and implement Career Technical Education pathways, as exemplified by our Linked Learning high schools. In addition, the district is improving its tracking systems for identifying students who have completed college coursework.

3 - English Language Arts and Mathematics - Both district-wide distance from standard met scores for ELA (-29.2) and mathematics (-59.4) indicate the majority of students are still not performing at the state-identified proficiency level. Continued investments in lowering class sizes, improving curriculum and instruction for all students, and focusing supports for English Learners and foster youth are intended to result in improvements in performance in these areas.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

1 - Graduation Rate - English learners and foster youth are both at the "red" performance level compared to the district all student "green" performance level. In addition, the following three student groups are at the "orange" performance level: homeless, Native Hawaiian or Pacific Islander, and two or more races. The district continues to implement Tier 2 and 3 strategies to provide greater opportunities for students to reach proficiency and recover course credits during and outside the school day. Counselors continue to receive resources and training in tracking and advising students on their progress and how to ensure foster youth receive their credits earned and are permitted to meet the permitted state minimum graduation requirements. For English learners and Standard English learners, the district continues to identify additional courses that meet a-g course graduation requirements and to implement the English Learner and Standard English Learner Master Plan to support improvements in content area Tier 1 instruction and the incorporation of more integrated English Language Development instruction and culturally responsive instruction in content courses.

2 - Suspension Rate - One student group, American Indian or Alaska Natives, are at the "yellow" performance level compared to the district "blue" performance level. Of note is that only two other student groups, African American and foster youth, are at the "green" performance level. All other student groups are at the "blue" performance level. The district continues to implement restorative justice practices across all schools. The expansion of culturally responsive instruction through the Access, Equity and Acceleration team should increase student engagement and ensure inclusion of all students in classroom instruction.

3 - College/Career - One student group, students with disabilities, is performing at the "red" performance level compared to the all students performance at the "yellow" level. The district is increasing the implementation of full inclusion programs in schools as a Tier 1 strategy, integrating students with disabilities into general education classes. Full inclusion practices require extensive professional development and planning for school site staff members and provide students with disabilities with greater access to a-g courses in high school. The district continues to provide funding and budget flexibility for Local Districts and schools to support students with disabilities in their progress toward graduation. Data systems like progress monitoring dashboards implemented over the past several years continue to provide schools and Local Districts with information to respond to students with disabilities who might need additional supports.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

The California Department of Education identified 47 schools as Comprehensive Support and Improvement (CSI) within LA Unified. The following 25 of LA Unified's CSI schools were identified for low-graduation based on the 2-year average rate. Schools with Dashboard Alternative School Status (DASS) are annotated:

- Angelou Community High School
- Belmont High School
- Central High School (DASS)
- Early College Academy
- McAlister High School (DASS)
- Newmark High School (DASS)
- RFK School for the Visual Arts and Humanities
- Monterey High School (DASS)
- Perez Special Education Center (DASS)
- Earhart High School (DASS)
- Evergreen High School (DASS)
- London High School (DASS)
- Rogers High School (DASS)

- Addams High School (DASS)
- Independence High School (DASS)
- Owensmouth High School (DASS)
- Thoreau High School (DASS)
- Wooden High School (DASS)
- Avalon High School (DASS)
- Willenberg Special Education Center (DASS)
- Bernstein High School
- CDS Alonzo (DASS)
- View Park Continuation (DASS)
- Carlson Home Hospital
- City of Angels (DASS)

The following 22 of LA Unified's CSI schools were identified for low performance based on 2018 Dashboard results:

- Kahlo High School (DASS)
- Manual Arts High School
- Boyle Heights STEM
- Holmes Ave Elementary School
- Odyssey High School (DASS)
- Lowman Special Education Center (DASS)
- Panorama High School
- Van Nuys Middle School
- Lokrantz Special Education Center (DASS)
- Miller Career and Transition Center (DASS)
- Mulholland Middle School
- Dymally High School
- Markham Middle School
- Youth Opportunities Unlimited Alternative High School (DASS)
- Audubon Middle School
- Brentwood Science Magnet
- Century Park Elementary School
- Bret Harte Preparatory Middle School
- Augustus Hawkins Community Health Advocates School
- Washington Preparatory High School
- WESM Health/Sports Medicine High School
- Secondary CDS (DASS)

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LA Unified has built a system of support such that CSI schools are able to effectively complete all the requirements related to their Every Student Succeeds Act (ESSA) status, including conducting a comprehensive needs assessment, engaging stakeholders in planning, selecting evidence-based interventions and identifying resource inequities. Going beyond the requirements of ESSA, LA Unified aligned additional resources to provide supplemental supports and resources to CSI schools to support ongoing improvement and student achievement.

In anticipation of the identification of CSI schools, LA Unified created a CSI Addendum to the online School Plan for Student Achievement (SPSA) to address new plan components, provided trainings for principals and their Local District (LD) support staff, provided ongoing guidance and support to schools as they began their planning process, and aligned additional resources (beyond the State CSI funds) for schools to support improvement efforts. The District's CSI Addendum template was approved by California Department of Education (CDE) staff in January 2019.

Comprehensive Needs Assessment: The LA Unified's SPSA template includes questions to address the requirement that CSI schools complete a comprehensive needs assessment. Schools must not only describe what occurred during their comprehensive needs assessment, who participated, and when it occurred, but also must describe the findings from their needs assessment and the alignment of their findings to strategic actions. Schools analyze a variety of data, including the state indicators on the California School Dashboard.

Resource Inequities Review: LA Unified defined the goal of a Resource Inequities Review as follows: *To ensure that all students have equitable supports and access to various resources such as programs, rigorous curriculum, interventions, effective teachers, etc., such that all students can achieve at high levels.* To achieve this goal, LA Unified regards the Resource Inequities Review process as the application of an equity lens during the comprehensive needs assessment. While schools must respond to four prompts on the CSI Addendum that describe the identified inequities and strategies to address them, LA Unified also provided reflection questions that cover a range of areas where inequities may exist to support school teams as they seek to identify ways in which resources may or may not be used equitably. Each completed CSI section of the SPSA includes a description of the actionable inequities identified, the inequities that will be prioritized at the school site, and the strategies to address the inequities.

Evidence-Based Interventions: To ensure that CSI schools are able to select and implement evidence-based interventions, LA Unified provided guidance and training at multiple levels of the organization and developed an optional bench contract with pre-vetted vendors that support evidence-based interventions. As school teams identify their needs during their resource inequities review and comprehensive needs assessment, they will determine data-based focus areas. Once the focus areas have been identified, school teams have resources to identify and select evidence-based interventions such as evidenceforessa.org, What Works Clearinghouse, LA Unified's Evidence-Based Interventions Bench, and other links to identify interventions, programs or activities that align to student need. As an added layer of support, LD staff (who are among those who provide approval signatures on the plans) have been trained in using those resources and others to support schools in selecting interventions that meet the federal criteria.

Trainings for Principals and Local District Staff and Ongoing Guidance: The CDE released the statewide list of CSI schools on January 31, 2019, and LA Unified completed trainings for all principals of CSI schools by February 27, 2019. The trainings addressed the State's CSI identification criteria, CSI requirements, and the resources and supports to implement the requirements. Each principal received a toolkit to provide background information, communication tools to support efforts to inform and engage stakeholders, and resources to support schools in completing the CSI Addendum. The trainings also provided contact information for various district departments, and schools have been accessing those contacts for additional support and guidance for planning. In addition to the formal principal trainings, LA Unified staff have provided ongoing training to LD support staff to go in further depth on evidence-based interventions, resource inequities reviews and the CSI Addendum to ensure common understandings and to have a continuous line of communication about ongoing areas of need.

Additional Resources: The State will be allocating roughly \$7.6 million to LA Unified to support CSI school improvement efforts. Those funds were allocated directly to CSI schools to support locally-determined improvement efforts based on a base-grant model of \$100,000 plus a per pupil allocation. The only exception is Washington Preparatory High School, which receives School Improvement Grant (SIG) funds in lieu of the State CSI allocation. In partnership with stakeholders (via School Site Council) schools will determine the best use of their improvement funds within the SPSA CSI Addendum based on the comprehensive needs assessment findings. To support ongoing improvement efforts, LA Unified set aside additional local Title I funds for lower-performing schools (including, but not limited to CSI). LA Unified is providing the following additional Tier 2/Tier 3 resources to support student learning opportunities for students attending CSI schools in Summer 2019 or during the 2019-20 school year:

- **Summer Learning:** To create ongoing learning opportunities for at-risk students over the summer, LA UNIFIED offers several programs that CSI schools can implement:
 - **Extended Learning Opportunities, Summer (ELOS):** CSI elementary and middle schools are able to offer a standardized summer program administered by Beyond the Bell. This four-week program includes focused academic intervention in English Language Arts or mathematics for academically at-risk students in grades K-8. The program includes an instructional field trip aligned with leveled-reading texts, opportunities for activity-based projects, social emotional learning lessons and reader's theater.
 - **Summer Reading Program:** For CSI schools with low enrollment, LA Unified offers a summer reading program in lieu of ELOS. The program involves providing high-interest reading materials for students to access over the summer.
 - **Summer Term:** All at-risk students attending any LA Unified high school, including CSI schools can attend a 24-day summer program to recover credits and make progress toward graduation.
 - **Summer Bridge:** CSI comprehensive high schools are all eligible to offer a summer bridge program to support the transition from 8th to 9th grade. The curriculum includes English Language Arts, culturally authentic and responsive pedagogy, STEAM text-based collaborative lessons and activities, and *Naviance* online high school and college readiness curriculum. Students earn five elective credits upon successful completion.
- Additional supports that CSI schools will be eligible to receive during the 2019-20 school year include:
 - **Title I Intervention Program:** All CSI elementary, middle and comprehensive high schools are eligible to participate in the Title I Intervention program. This program is administered by Beyond the Bell. School sites receive a per pupil allocation to offer site-designed interventions to meet student need during the school year, and have flexibility to focus on math, English Language Arts or credit recovery.
 - **Social-Emotional Learning:** LA UNIFIED's Social Emotional Teacher Advisors will identify and support age-appropriate social-emotional learning programs (e.g., Second Step) or develop trainings for CSI schools.

LA Unified may identify additional resources and supports to meet the needs of CSI schools based on an ongoing review of data.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Below is a description of how LA Unified will monitor and evaluate the implementation of effectiveness of the CSI plans:

- Local District staff will monitor and support the implementation of CSI plans. The online SPSA now includes a space for LDs to describe the way in which they are providing additional support and monitoring to the CSI schools. The support and monitoring may vary depending on school context and needs and will be described in the Monitoring section of the school's SPSA.
- CSI school teams will formally evaluate school plans alongside Local District support staff annually. School teams will review whether they have met the measurable objectives stated in the plan and reflect on implementation. While the measurable objectives and data points may vary by school, the objectives are aligned to state indicators on the California School Dashboard. Because the SPSA is online, LA Unified can aggregate school-level evaluative data across the system to determine how many CSI schools have met their measurable objectives.
- CSI schools will review the progress of their plan implementation after the first semester alongside district staff.
- LA Unified collects a robust set of data that aligns to the California School Dashboard to support district and school staff in monitoring and evaluating implementation, including, but not limited to:
 - **Attendance-** Schools and district staff can monitor student level attendance and "performance bands" of attendance to determine which students are at-risk of chronic absenteeism and identify trends. Our Focus data system updates attendance daily for frequent monitoring and adjustments.
 - **Suspensions-** Schools and district staff can monitor student level suspensions, including the reason for the suspension. These reports on our MyData platform are updated weekly.
 - **English Language Arts (ELA)-** Schools and district staff can review and analyze Smarter Balanced Assessments (SBA) for ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in ELA, and can analyze scores at least twice a year.
 - **Math-** Schools and district staff can review and analyze SBA ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in math, and can analyze scores at least twice a year.
 - **A-G Progress-** To support schools in monitoring progress toward graduation, schools and district staff have access to reports noting A-G progress, including information about whether the student is on-track to graduate or how many credits they are missing to be considered on-track. Our Focus data system tracks A-G with a D or better, A-G with a C or better, and all academic requirements met for the current and future graduating classes.
 - **At-Risk Reports-** LA Unified collects and provides reports that schools and district staff can use to identify at-risk students based on multiple factors such as attendance, suspensions and academic grades (i.e., marks).
 - **School Experience Survey-** LA Unified administers an annual district-wide survey to students, staff and families. Data reports are provided annually, and include response rates and results at multiple levels, include category, content area, and individual question. Categories include Academics, School Climate, and Social Emotional Learning. Content areas include Academic Focus, Cognitive Engagement, Future Orientation, Bullying, Connectedness, Expectations for Behavior, Opportunities for Participation, Safety, Growth Mindset, Self-Efficacy, Self-Management and Social Awareness.

The MyData system and School Experience Survey data provide longitudinal information, which can help schools and the district see patterns and trends overtime, while the Focus platform generally supports ongoing progress monitoring throughout the year. LA Unified has an ongoing commitment to improve its data system to support schools and district staff in monitoring and strategic planning.

Annual Update

LCAP Year Reviewed: 2018-19

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access
Local Priorities:

Annual Measurable Outcomes

Expected		Actual

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.</p> <p><u>Academic Interventions</u></p> <ul style="list-style-type: none"> • English Language Arts, English Language Development, and Math Interventions • AVID (Advancement Via Individual Determination) • International Baccalaureate • Dual Language/Bilingual Programs 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Implementation of various programs and interventions were targeted to support student achievement.</p> <ul style="list-style-type: none"> • The largest expenditure was to support Options Programs (Community Day schools, Continuation schools, Independent Study and Opportunity schools) through \$22.5 million to fund certificated and classified staff across these schools. Local District and school site monitoring using data dashboards tracking student graduation progress assisted throughout the year in identifying students in need of support and supplemented comprehensive high school efforts to improve district graduation and a-g achievement levels. Options schools data indicated some improvements in transitioning students back to comprehensive high schools after recovering 	<p>\$14,869,259 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$2,517,905 - LCFF - 2000-2999 Classified Salaries</p> <p>\$8,113,117 - LCFF - 3000-3999 Employee Benefits</p> <p>\$8,264,632 - LCFF - 4000-4999 Books and Supplies</p> <p>\$11,024,471 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$12,714 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$16,035,498 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$2,826,121 - LCFF - 2000-2999 Classified Salaries</p> <p>\$7,984,326 - LCFF - 3000-3999 Employee Benefits</p> <p>\$1,756,052 - LCFF - 4000-4999 Books and Supplies</p> <p>\$3,719,163 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$12,687 - LCFF - 6000-6999 Capital Outlay</p>

- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic

credits as well as improvements in a-g on track graduation progress for students enrolled in Options schools.

- Arts program central office supports were also funded at \$1 million to support district-wide arts programs and to oversee arts itinerant teachers. The district continued its implementation of arts program in all schools, providing access to all students with at least one arts discipline.
- Summer school credit recovery instructional materials were also funded with \$1.8 million to support high school students in need of additional courses to meet graduation requirements. 2018 Summer Term for high school was a 24-day program held from June 18, 2018 to July 20, 2018 at 73 sites across the district and served 37,199 students. Credit recovery efforts continued to support district graduation rates and a-g achievement levels, allowing a cohort of students to graduate during the summer or to return on-track toward meeting the district graduation requirements.
- Local district enrollment and attendance initiatives geared toward supporting schools with improving student attendance were funded at \$2.55 million. These initiatives included supports for mailers and phone banks to support outreach to student in danger of being chronically absent in identified high need schools. Overall district tracking of attendance indicated improvements in many schools, though the work

work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;

Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;

Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;

stoppage in January resulted in some setback in school progress on this indicator.

- District science centers were also funded (\$734,000) to support the continued implementation of new state science standards by providing instructional materials and resources to schools which assisted in the district meeting state instructional materials requirements across the grade levels.
- Additional enrichment programs such as athletics (referees, equipment, coaches at \$3.4 million), academic decathlon (\$757,387), afterschool programs (\$132,895), and all city marching band (\$129,701) were also funded to support student engagement.

Note that English Language Arts interventions including Academic Literacy supplemental materials, Accelerated Academic Literacy-Tier 3 ELA Intervention, Long-Term English Learner (LTEL) courses and English Language Development and access to core interventions fall under Goal 2 Action 9. AVID (Advancement via Individual Determination) is funded through external funding. Dual Language/Bilingual Programs fall under Goal 2 Action 4. International Baccalaureate programs were funded through Goal 3 Action 2. Social-Emotional Programs were funded through external grants. Significantly Disproportionate Coordinated Early Intervening Services (CEIS) program funding expired in 2017-18 and any related programs were funded through Goal 2 Action 7. Structural & Process Interventions such as pilot schools were funded through Goal 2 Action

Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,

Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high

5, and Local Initiative Schools were funded through Goal 6 Action 2 Districtwide Supports.

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supported and expanded our existing Career Technical Education (CTE) pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provided opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content theyve acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1-3 funds supported over 411 CTE pathways across the district.

Through this funding, LA Unified has:

- Implemented cutting edge industry-

<p>school pathways,</p> <p>Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.</p> <p>Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.</p> <p>These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.</p> <p>LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:</p> <p>Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.</p> <p>Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.</p>	<p>aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;</p> <ul style="list-style-type: none"> • Changed the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces, medical simulation labs; • Developed a continuum of industry sector-aligned Work Based Learning opportunities for students, both in the classroom and in the industry sector workplace; • Grown the number of CTE-credentialed teachers at LA Unified, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA; • Articulated CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LA Unified/Los Angeles Community College District AB 288 dual credit MOU. In 2017-18 students earned 5,364 industry-aligned certifications. <p>Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program,</p>		
---	---	--	--

providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LA Unified to implement Linked Learning at 72 pathways across the District, an increase in 24 pathways over the last three years. This funding:

- Provided seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funded the development of interdisciplinary real-world projects aligned with the pathway industry theme,
- Provided funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Made teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funded Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funded a Dual Credit and Articulation Coordinator who is

working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LA Unified school day. These innovative options increased awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provided students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LA Unified has 14 gold certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.
- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

LA Unified Linked Learning high school pathways outperformed non-Linked Learning high schools in graduation rates, a-g on track/completion, SBA English and SBA math while Linked Learning pathways have 16.4% English Learner students compared to 9.5% English Learner students in district non-Linked Learning pathways.

Additional information about LA Unified Linked Learning pathways may be accessed at: <https://achieve.lausd.net/Page/524>.

Action 2

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: Specific Schools: Adult Schools; Specific Grade Spans: 9-12 grade</p> <p><u>General Adult and Career Education</u></p> <p>The Districts Adult and Career Education division provides educational opportunities to adults in the District. Allowing adult learners to acquire basic skills and work certification for gainful employment.</p> <ul style="list-style-type: none"> • English as a Second Language • Adult Basic Education • Adult Secondary Education • Alternative Education and Work Centers (AEWCs) 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: Specific Schools: Adult Schools; Specific Grade Spans: K-Adult</p> <p>During the 2018-19 school year, approximately 63,000 adult learners enrolled in DACE's core instructional programs: ESL, Academic, and CTE. Preliminary data show region-leading outcomes in all areas, including employment, high school diploma/equivalency attainment, and learning gains as measured by the state assessment system (Comprehensive Adult Student Assessment Systems [CASAS]).</p> <p>English as a Second Language (ESL) - Family Success Initiative (FSI): ESL classes designed to train parents to support K-12 student success were provided at 20 elementary and middle schools. Approximately 350 program participants received contextualized language instruction connected to a variety of District-specific parent education modules. Modules helped parents of K-12 students improve their language skills, support the educational success of their children, and increase involvement in their school communities. During the 2018-19 school year, the number of FSI sites grew from 13 to 20 (with at least one site in each Local District) and enrollment increased by 34%. Additionally, FSI partner schools have reported an increase in parent participation in volunteer activities and advisory committees.</p> <p>Adult Secondary Education (ASE): ASE courses leading to a high school diploma or equivalency were</p>	<p>\$386,814 - LCFF - 1000-1999 Certificated Salaries \$143,302 - LCFF - 2000-2999 Classified Salaries \$235,660 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$362,549 - LCFF - 1000-1999 Certificated Salaries \$166,576 - LCFF - 2000-2999 Classified Salaries \$217,038 - LCFF - 3000-3999 Employee Benefits</p>

	<p>offered across all Division of Adult and Career Education campuses. Approximately 19,800 ASE students enrolled in A-G approved courses and received individualized instructional support. All courses were open to parents of K-12 students and concurrently enrolled secondary students (age 18 or older).</p> <p>Career Technical Education: CTE courses representing numerous high-demand job sectors were offered across all DACE campuses. Approximately 13,400 CTE students received hands-on career training leading to industry-recognized certification. All classes were open to parents of K-12 students, concurrently enrolled secondary students (age 18 or older), and recent LAUSD graduates.</p> <p>Pre-Apprenticeship Programs and Apprenticeship Partners: Pre-apprenticeship programs were offered at selected Division of Adult and Career Education campuses. Approximately 310 pre-apprenticeship students built their foundational academic and career skills in preparation for entrance into one of the Division of Adult and Career Education's over 40 state-approved apprenticeship programs. All classes were open to parents of K-12 students, concurrently enrolled secondary students (age 18 or older), and recent LAUSD graduates.</p>

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed</p>	<p>\$21,581,417 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$7,239,969 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$15,811,945 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,318,878 - LCFF - 3000-3999 Employee Benefits</p> <p>\$253,235 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

<p>Schools</p> <p><u>Teacher Retention and Support Program (REED)</u></p> <p>Increase Support to Sites with High Turnover and high concentrations of unduplicated students. Supports include staffing, professional development augmentations and recruitment and retention enhancements. Also includes new teacher support and assistance (BTSA).</p> <p>Impact of resources will be assessed by the metrics listed in Goals #1 and Goals #2.</p>	<p>Schools</p> <p>In Spring 2014, a settlement agreement was reached between the District and Plaintiffs who are represented by American Civil Liberties Union (ACLU), Public Counsel, and Morrison Foerster, as well as UTLA, and Partnership for Los Angeles (PLAS). Although Associated Administrators of Los Angeles (AALA) was not a party to the litigation, AALA also participated in the settlement discussions. The settlement agreement was unanimously approved by the Board of Education, and was subsequently approved the Court as well.</p> <p>The settlement agreement provided for a robust set of administrative and other support at 37 schools, which were selected based on their API 1-3 ranking, high teacher turnover rate, and four of those schools had the highest student dropout rates. These schools have great concentrations of students who are English learners, foster youth and/or from low income families. Eighteen percent of the students at these schools were born outside of the United States (i.e., immigrants). The Reed Investment Schools received the following:</p> <ol style="list-style-type: none"> 1. 1 Additional Assistant Principal 2. 1 Additional PSA Counselor, Psychiatric Social Worker or Secondary Counselor <ul style="list-style-type: none"> ○ For the 2018-19 school year the following were allocated: <ul style="list-style-type: none"> ■ PSA - 13 ■ PSW - 4 ■ Guidance Counselors - 20 3. A-Basis for Principal and Reed Assistant Principal 4. 1-4 Mentor Teachers: Reed supports 91 mentors that provide ongoing support to over 370 non-permanent teachers at all 37 Reed sites. 5. 1-2 Special Education Support Providers (for schools with at least 15% of the student population with special needs) 6. Unique Professional Development - Reduction in Force Protection <ul style="list-style-type: none"> ○ 40 hours of additional paid professional development training provided to all teachers and 		
---	--	--	--

- non-administrative certificated staff at the Reed schools.
- For the 2018-19 school year, 397 staff members in Reed schools received additional specialized training for a total of 11,751.795 hours.
- 7. Reed Mentor Professional Development
 - 6 sessions provided for the 2018-19 school year
 - 2018-19 focus: Standard 6.1 through 6.4 of the continuum of mentoring practice.
- 8. Recruitment and Retention Incentives
- 9. 1 Saved Position of math or English Language Arts teacher (in event of displacement due to decline in enrollment)
 - For the 2018-19 school year, a total of 14 math or English Language Arts teacher positions were funded by the Reed program to prevent the teacher from being displaced.
- 10. Extra Conference Periods (for non-permanent teachers)
 - As outlined in the final settlement agreement, "every non-permanent teacher receives an additional conference period" in order to provide time to meet with mentor teachers, observe experienced teachers, and plan instruction.
- 11. Long Term Substitute Funding
- 12. School Site Support Visits
 - 2018-19 - 16 Reed schools visited
 - Goal: Review of Reed professional development and implementation
 - Habits of Mind
 - Reed Investment Engagement Strategies
 - Teaching and Learning Framework
 - Teacher Retention Supports (Reed Mentors)
 - School wide PD goals
 - School experience survey

	<p>The three year Reed Investment School Program was scheduled to end on June 30, 2017 (after commencing in 2014) pursuant to the original settlement agreement and court order. The District voluntarily extended the program through June 2019, an additional year beyond what was required under the court order. The Reed Investment School Program will discontinue June 2019.</p> <p>During the implementation of the Reed Investment Schools program, Investment Schools made gains on key metrics. Investment Schools also closed the achievement gap on teacher retention rates. Additionally, teachers indicated an increase in positive perceptions of school climate, teacher satisfaction, and school safety as measured by the five-year growth data indicated on the School Experience Survey.</p>

■ Enhances school-climate	These programs may be categorized across a number of themes that support the District's goal of 100% graduation. These themes are aligned with and support the school TSP plans and allocations of funds within schools as described in the following section.				
■ Nursing Services					
■ Counselors (PSA, PSW)					
■ Campus aides	● Academic Intervention and Achievement - Central Office and Local District staff				

- Clerical
- Community Representatives
- Building and Grounds Maintenance
- Supports academic planning and instructional interventions
- Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
- Class Size Reduction positions
- Elective Teacher Positions
- Professional Development X-Time and Professional Services
- Tutoring supports
- Librarian and Library Aide
- A-G supports, i.e. credit recovery programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school

coordinated and facilitated professional development across schools with high need students that focused on intervention and differentiation strategies to support student learning. This included Early Language and Literacy Plan professional development that supports teacher use of DIBELS early literacy assessment data to differentiate instruction and prepare students with the literacy skills to be on track toward grade level standards and graduation.

- English Learner Achievement - Based on the District's English Learner/Standard English Learner Master Plan, the District Multilingual, Multicultural Education Department along with the Access, Equity and Acceleration (AEA) Unit coordinated and facilitated professional development around instructional strategies to support the success of English Learners and Standard English Learners. As part of these efforts, the AEA team also coordinated the UCLA/LAUSD Collaborative that connected UCLA staff with LAUSD administrators and teachers to increase high school strategies and support to increase student graduation rates and college attendance rates. Bilingual differentials were also provided to teachers to ensure that more highly qualified teachers are available to support English learners and are able to communicate with parents and community members to support student learning.
- Student Social-Emotional, Physical and Mental Health - To assist schools with meeting the social-emotional, physical and mental health needs of low income students, English learners and foster youth, many staff that support school-site needs such as nurses are supervised or managed through the Central Office.

Student Equity Needs Index

For the 2018-19 school year, the Student Equity Needs Index (SENI) continued to distribute funding based on the identified needs of school communities. In collaboration with community organizations, the index was revised to include additional indicators of student need including academic indicators, school climate indicators, community indicators (i.e., childhood asthma and gun violence) and new demographic indicators. These indicators align with the new state dashboard. The school rankings were separated by school levels (i.e., elementary, middle and high), with some indicators given greater weight within each school level based on the districts areas of focus in the strategic plan. Specifically, college readiness is prioritized for high schools, school climate and safety are prioritized for middle schools, and math and literacy scores are prioritized for elementary schools. Additional information about the SENI funding formula and overall allocations may be found at: <https://achieve.lausd.net/Page/15878>. School allocations are listed at the following website: <https://ca01000043.schoolwires.net/Page/15604> select "School Allocations for Targeted Student Populations (TSP)."

Schools received their allocations and were required to support their collaborative decision-making on the use of funds in the schools Targeted Student Population (TSP) Plan to ensure alignment with district goals. A menu of recommended professional development and supports that are aligned with the districts goals were offered to schools. Detailed information about each school TSP Plan is accessible at schooldirectory.lausd.net. Of the approximately \$250 million expended in SENI in 2018-19, over 96% of these funds were utilized to purchase additional certificated staff including part or full-time additional assistant principals, intervention support coordinators, arts teachers, class size reduction teachers, Psychiatric Social Work counselors and Pupil Services and Attendance counselors. Below is a distribution of the top expenditures constituting 95% of the funds that schools utilized through SENI in the 2018-19 school year:

students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

Additional positions not listed may be approved by the District.

For 2018-19 additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the Districts student equity-based index.

- Enhances school-climate
- Supports academic planning and instructional interventions
- Campus safety and school maintenance
- Registration and clerical supports
- Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

MICROCOMPUTER SUPPORT ASSISTANT	\$1,025,805.31

In addition, schools were allocated positions to support TSP students such as nurses, counselors, campus aides, clerical staff, assistant principals and class size reduction teachers. Schools utilized these resources to complement their plans to improve their results on the state dashboard. Based on the TSP plans developed by school sites, schools implemented the services to provide increased and improved services to low income students, English learners, and foster youth in the following ways:

Elementary School Autonomy

- To support the social-emotional, physical and mental health needs of high needs students, schools purchased additional counselors, PSA counselors, nurses, psychologists, and other health welfare staff to support students and to reduce chronic absence and increase student engagement in school.
- To support the academic needs of low income students, English learners and foster youth, schools purchased additional assistant principals, teachers, teacher librarians, instructional coaches, and provided additional teacher overtime to support interventions and differentiation for students, particularly in the area of early literacy. This included teacher tutoring overtime to support after school learning for these students.
- Campus aides and additional classified staff members such as senior office technicians provide additional supervision and safety for students in addition to supporting parent and community engagement.

Middle School Autonomy

- Because students in adolescence have specific needs that are different than elementary and high school students, middle schools utilized resources such as additional counselors, PSA counselors, nurses, psychologists, and other health welfare staff to support the social-emotional, physical and mental health needs of high needs students to address early warning indicators for students such as chronic absenteeism, low grades and discipline issues.
- 8th grade math and English Language Arts teacher auxiliaries were provided to all middle schools to provide class size reduction in core courses and to increase opportunities for additional core and elective course offerings and to provide opportunities for intervention courses for high needs students.
- Middle schools also hired additional teacher librarians, instructional coordinators, and assistant principals to support teachers with additional coaching and instructional support focused on English Language Arts and mathematics performance for high needs students.

High School Autonomy

- With a focus on graduation for all high needs students, high schools focused resources on purchasing staff who would directly support student progress toward meeting graduation progress milestones at each grade level. These staff included additional assistant principals of secondary counseling services, academic counselors, and teachers to provide direct guidance to identified students who were not on track toward meeting district graduation requirements.
- Recognizing that low income, English learner and foster youth high school students face additional personal and life challenges due to trauma, poverty, and access to healthcare, high schools also hired additional nurses, Pupil Service and Attendance counselors, psychiatric social workers, and health care classified staff to support students and families and to connect them with resources to ensure that students can focus on their academic success.
- Because of the district's more rigorous A-G course graduation requirements, high schools directed resources toward additional staff including college counselors and additional teachers to ensure that graduating students have the opportunity to meet the A-G college entrance requirements. Schools purchased teachers to allow for

additional course offerings including additional Advanced Placement and other college preparatory courses. College counselors were purchased to provide students with guidance and support using the district's Naviance college and career readiness online platform, which also provided parents with access to track student progress and support students exploration of college and careers.

At the recommendation of the board of education, district staff engaged stakeholder groups during Fall 2018 to review the current implementation of the Student Equity Needs Index and to receive feedback and recommendations on its continued implementation in the 2019-20 school year. Eight stakeholder meetings were held with parent, student and community representatives to provide feedback on the current index and allocations. This provided input on the next steps with the Student Equity Needs Index implementation for the 2019-20 school year.

Local District staff monitored school site implementation of the overall School Autonomy Action. As part of this monitoring, Local District staff had regular meetings with school leaders to review relevant data points on progress toward graduation for all students. In particular, school leaders regularly reviewed student grades at each mark reporting period and monitored alignment with Smarter Balanced interim assessment block results among assessed grades. Some qualitative indicators of the effectiveness of this Action from the 2018-19 School Experience Survey administered in the Fall to students, parents, staff and teachers include the following:

- 84% of high school students "know which A-G courses I need to pass with a "C" or better to get into college"
- 80% of middle school students and 88% of elementary school students agreed that "Adults at this school encourage me to work hard so I can be successful in college or at the job I choose."
- 89% of high school teachers agreed that "Teachers in this school feel that is a part of their job to prepare students academically to succeed in college."
- 82% of high school teachers agreed that "Teachers expect most students in this school to go to college."
- 88% of elementary students, 77% of middle school students, and 72% of high school students agreed that "This school is a supportive and inviting place for students to learn."
- 77% of high school teachers are "comfortable communicating the requirements for meeting the A-G course sequence to parents and students" and 71% of teachers agreed that they "regularly communicate with individual students about their progress toward meeting the A-G requirements."
- 88% of elementary students, 76% of middle school students, and 70% of high school students agreed that "My teachers work hard to help me with my schoolwork when I need it."
- 83% of elementary students, 76% of middle school students, and 70% of high school students agreed that they "can earn high marks/grades in my classes."

Actions/Services	Actions/Services	Expenditures	Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: Options Schools</p> <p><u>Options Program</u></p> <p>Support at-risk youth with option educational settings. A majority of youth that participate in the Districts options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: Options Schools</p> <p>Funding was provided on a per-pupil allocation to all options schools. Funds were utilized to support completion of a-g coursework through personalized interventions including credit recovery, tutoring after school and on weekends, greater access to technology, and social emotional supports. Data on the effectiveness of options schools indicates that students at these schools were able to complete more credits where they were deficient, which placed them closer to being on track for graduation. Options schools also demonstrated improvements in areas such as attendance rates and suspension rates.</p> <p>In addition, all options schools received access to a screener for literacy and mathematics to support implementation of multi-tiered systems of support as a diagnostic tool to inform classroom instruction. The universal screener for literacy and for math provided the options schools with valuable data to adjust instruction to provide targeted support to students. Feedback from principals and teachers at school sites indicated that this diagnostic tool supported improved teacher differentiation of instruction for students and increased opportunities for students to demonstrate their levels of performance.</p>	<p>\$25,242,008 - LCFF - 1000-1999 Certificated Salaries \$3,420,327 - LCFF - 2000-2999 Classified Salaries \$13,029,319 - LCFF - 3000-3999 Employee Benefits \$7,582,992 - LCFF - 4000-4999 Books and Supplies \$492,850 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$25,699,053 - LCFF - 1000-1999 Certificated Salaries \$3,619,515 - LCFF - 2000-2999 Classified Salaries \$12,535,074 - LCFF - 3000-3999 Employee Benefits \$761,192 - LCFF - 4000-4999 Books and Supplies \$451,181 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.</p> <p>Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: All Title 1 High Schools, 20 Middle Schools</p> <p><u>A-G Diploma Program</u></p> <p>20 Supported Middle Schools: Liechty, Adams, Obama, Castro, Carver, Nimitz, Southeast, Gage, Pacoima, Reed, Columbus, Wilmington STEM, Fleming, Bethune, Gompers, Markham, Peary, Bret Harte, Audubon, Mann.</p> <p>Tier 2 and 3 students were identified at schools based on their on-track course completion. Each Diploma Counselor was provided with a case load with each students at risk indicators. Diploma Counselors identified the barriers that are keeping students from succeeding academically and attending school regularly. Diploma Counselors provided referrals and link students and their families to district and community services to address their needs. Diploma Counselors met with each individual student, collaborated with the academic counselor to develop a</p>	<p>\$1,577,190 - LCFF - 1000-1999 Certificated Salaries \$612,916 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$1,447,001 - LCFF - 1000-1999 Certificated Salaries \$373,637 - LCFF - 3000-3999 Employee Benefits</p>

<p>graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.</p> <p>The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. Middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.</p> <ul style="list-style-type: none"> • Tier 2 reflects a student who is 3-4 classes off-track • Tier 3 reflects a student who is 5 or more classes off-track 	<p>specific plan to get back on track. Diploma Counselors conducted regular check in appointments with students to monitor progress and address ongoing needs including academic, social-emotional, engagement and behavioral struggles. Diploma Counselors collaborated with school site personnel, including counselors, deans, restorative justice advisors, and/or PSWs to support Tier 2 and 3 students. Diploma Counselors tracked and reviewed academic, behavior, attendance, and credit recovery data to monitor progress and calibrate interventions. A summary description of this program is available at: https://achieve.lausd.net/Page/12897.</p> <p>The tier status of each student in the targeted student population (Tier 2 and Tier 3) was gathered at the beginning of the 2018-2019 school year. The data was gathered using the FOCUS online District dashboard system. At the beginning of the year there were approximately 17,998 Tier 2 and 3 students. Using FOCUS, data is also gathered at the end of each semester. The goals of the A-G Diploma Program include increasing tier status, promoting college and career readiness, improving attendance rates and decreasing dropout rates. The year-end data in June 2019 revealed that 4,357 (24%) of Tier 2 and 3 students successfully completed enough classes with passing grades to move up at least one or more tiers as a result of A-G Diploma Program efforts.</p>

Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning-Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

Local Districts were allocated funds and developed plans to best support the needs of schools in their areas. Local Districts and schools utilized the menu of resources available through the Division of Instruction to improve graduation rates and a-g course completion in schools. The Division of Instruction describes the menu of resources available to support Local District and school plans as follows:

- Adult Education Partnership: At selected sites, students can retake courses at DACE sites after the school day or on Saturdays. Small class sizes and flexible pacing support success. Student participating in these types of credit recovery numbers over 5,100.
- Auxiliaries: Provides opportunities within the school day for students retaking failed courses. The number of courses and time frame will depend on room in each schools master schedule to add auxiliary periods. Credit recovery opportunities may also be offered in a zero period. 14 auxiliaries were supported through funding for this area.
- Edgenuity Virtual and Blended Programs: Students can be programmed into either option, depending on need and school resources. In the Blended model, classes are led by a subject-credentialed teacher who provides differentiated teaching and support. The Virtual model class is led by a credentialed teacher who assists students with platform access, time management, study skills supports, etc. over 14,555

\$224,296 - LCFF -
2000-2999 Classified
Salaries

students utilized online licenses across the district, accounting for over 25,000 course enrollments across 183 schools.

- Independent Study: Students enter into a written agreement/contract stipulating the manner of assignments granted, frequency of assignments, and the time frame to meet with the teacher for additional instructional support. This program provides students in employment or other obligations with another opportunity to retake classes, and reduce the potential for dropping out. Over 2,000 students utilized this program to recover credits.
- Performance Assessment Student Support (PASS): These modular programs are designed for students who have previously failed a Math or ELA course required for graduation. PASS courses are self-paced, modular, teacher directed, and administered to small groups outside of the regular school day. They are ideal for students who need personalized teaching to gain mastery of skills and standards. PASS was utilized in 35 schools to support over 1,200 students.
- Recovery + Intervention = Graduation (RIG): This unique option is a collaborative arrangement between a comprehensive high school and a neighboring continuation school using the pass-through system. Students in RIG remain enrolled in their high school while taking one to two classes at the continuation school during the day or after

school. RIG was utilized in 10 schools and served approximately 350 students.

- **Winter Break and Spring Break:** Schools can schedule intensive credit recovery programs using a block scheduling model so that students can maximize time to recover needed credits while off track. During these sessions, students can complete a class already started or begin a new course. Typically of five or six days duration, students can take one or two classes during the day. Schools offer successive Saturday sessions for students needing additional time to complete and pass their class. 62 schools implemented these programs and served about 1,500 students.

Additional school-wide programs targeting high school student success in graduation and the state College/Career indicator on the dashboard included:

- **Algebra I Intervention Pathway Program and Geometry Intervention Program:** These programs were designed to provide intervention in a timely manner as failure prevention. These intervention resources, available in Schoology, were designed to be personalized and accessible for students and teachers. Materials and resources can be used for direct instruction, project-based learning and assigned for independent practice. Students receive instruction, complete assigned work, and are assessed on a particular learning target from

units where they need additional support. The intervention is offered within the Algebra I or Geometry class, before or after school, or through a math tutorial lab class. Students can stop attending once they no longer need the support. 60 teachers were trained in this program and implemented it in their classrooms.

- **Mastery Learning and Grading:**

The Division of Instruction provides Mastery Learning and Grading professional development series, that includes salary point classes to interested teachers, administrators and staff. Mastery Learning and Grading is a growth-mindset RTI Tier 1 approach to teaching and learning offering an alternative to traditional instruction and grading. By refocusing classroom grading and assessment on clear learning targets and by implementing research-based instructional practices that honor individual students variables necessary for learning, Mastery Learning and Grading allows more students to succeed academically and take charge of their own learning. Administrators, teachers and staff can be be certified through the MLG Salary Point Class or the MLG PD series (six 2 hour, in-person workshops and 8 hours of online learning). Once participants have completed the training, they work on creating Mastery Learning and Grading classroom materials such as standards-based learning targets, syllabi to communicate MLG practices to students and parents,

rubrics to make clear what proficiency in each learning target entails, and tiered assessments of learning targets to provide multiple opportunities for students to reach proficiency. There are two Mastery Learning and Grading Coaches in each local district, one focusing on the Humanities and one that focuses on STEAM. 200 schools have engaged in MLG PD, and over 1,280 teachers have been certified in these strategies. 298 teachers have earned salary point credits for completing this training, and 94 facilitators district-wide are able to implement this training for other teachers. 2,973 teachers were trained during the past two summers, and over 8,000 visitors to date have utilized the online learning platform that supports teacher professional development in these strategies.

- **Pre-AP/AP Summer Institute (Advanced Learning Options):** Advanced Learning Options offered a two-day professional learning opportunity, funded with the College Readiness Grant, to discuss course-specific/discipline-specific content, instructional strategies, course organization and methods for promoting increased participation and success of diverse learners in A-G courses, including Advanced Placement (AP) and Honors. Sessions were led by College-Board endorsed subject experts. Nearly 800 secondary teachers participated in course-specific, 2 and 3- day AP workshops (20 workshops) and in discipline-specific 2 and 3-day

Pre-AP sessions (13 workshops).

- **AP Readiness Program (APR):**

Supplemental instructional support for students and teachers was available through the AP Readiness Program at UCLA Center X. All District high school students enrolled in an Advanced Placement course, and their teachers, are invited to participate. There were two strands of AP Readiness: STEM and Humanities. The Humanities strand included English Language, English Literature, Psychology, Spanish, U.S. Government, U.S. History, and World History. In addition to providing instructional support to students, the APR program offers comprehensive and high level professional development for current and potential teachers of AP courses in STEM and Humanities areas with University professors. Students met once a month at UCLA from September through April, transportation from school sites and materials are provided. Participants in APR are a dedicated community of learners who continue to forge friendly and professional connections throughout LA Unified. 9,000 students and 535 teachers across 114 schools participated in AP Readiness during the 2018-19 academic year.

- **AB 288 Concurrent Enrollment:**

High schools in each Local District have partnered with local community colleges to offer college credit courses to high school students with the goal of developing seamless pathways

from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness. 19,056 students enrolled in courses in 2018-19 an increase from 8,640 student enrolled in 2015-16.

- **Expository Reading and Writing Course (ERWC)** is a rigorous, rhetorically based, full-year college preparatory English course for high school seniors designed to support college-readiness in English. Training for this course, which enables students to be prepared for college level reading and writing, has been completed. Teacher training is currently being offered. 683 course sections were implemented in 144 schools across the district.
- **SAT Practice All In Challenge: Local District Khan Academy Workshops:** Teachers received training to use PSAT results to create targeted instruction to prepare for the SAT exam. At these workshops, which will be held in each local district, designated high school certificated staff learned how to: create a teacher/coach Khan Academy account, access the teacher/coach dashboard and coaching tools, link student accounts and monitor student practice and progress. The number of participants from each high school was dependent on 10th grade enrollment and must include the PSAT coordinator. Teachers implemented these supports with

students in schools once students received the PSAT scores. Students then accessed the resources in Khan Academy to prepare for the SAT. 80% of all 11th grade students participated in the SAT during the 2018-19 school year.

- **Transition to College**

- **Mathematics and Statistics**

- **(TCMS):** 34 schools are currently offering this 4th year mathematics course available to ensure college readiness for students who have passed Algebra 2 but have scored at Standard Not Met or Nearly Met. 1,700 students are enrolled in the 58 sections being offered.

- **College Access Teacher Training (CATT) Cohort 1 in 2017 & Cohort 2 2018:**

- Approximately 70 LA Unified educators completed a course at Cal State LA led by Dr. Rebecca Joseph to develop capacity in the area of college advisement. Participants learned best practices from experts in the field of college readiness and developed projects to strengthen the college-going culture at each of their schools. CATT is a rigorous, high quality PD that prepares teachers and counselors to become college and career advocates in their current positions. Up to seven salary points may be earned upon the completion of the coursework and practicum school-based projects that are due at the end of the program.

- **College Access Network (CAN):**

- This professional development series, created by the College Counseling Collaborative and

known as College Access Network (CAN), comprises 5 full days of college readiness training for school personnel. Following their initial offering during the 2017-18 academic year, all modules were updated to reflect changes in the college access/admission landscape and the revised CAN trainings are in session this year. The series was offered on a flexible schedule; each module was offered three times including on Saturdays to avoid disrupting school schedules. 220 counselors and college advisors participated in this training.

- **College Palooza:** The district-wide college and career event, held at LA Trade Tech College, took place on March 16th 2019. The event was open to all district staff, educators, families and students. Ranjit Sidhu of the National Council for Community and Education Partnerships (NCCEP) was the keynote speaker. There were 20 workshops for families and 10 for educators in a 3-period schedule. To accommodate groups bused in from secondary schools, there were several sessions tailored for students only and campus tours led by Trade Tech scholars. Also there was a college and community resource fair with admission reps from public and private institutions, with local business and non-profit partners. About 1,400 participants including approximately 800 parents participated in this event.
- **College Cafe:** A series of pre-recorded Power Point

presentations is in development. Known as College Cafe, the series is designed as a narrated click and play option for parent centers, informal school events, etc. Each episode comprises 15 slides focusing on one specific aspect of college knowledge, for example the CSU system, private college applications, and financial aid. By capturing important need-to-know facts in a short format, College Cafe is easily digestible while building postsecondary empowerment in our families. These modules were presented to Parent Center Directors to share with parent representatives at school sites.

- **The Quaglia Institute Parent and Family Seminars:** In February 2019 Dr. Russ Quaglia presented two evening events at Chatsworth and Huntington Park High Schools: *Inspiring My Child Today for a Bright and Successful Future*. Open to all LA Unified families, the presentations covered ways to engage and encourage students, and gave families practical strategies to communicate better, inspire with purpose, and support their children through the challenges and successes of being a student.

Additional programs were developed for middle and elementary schools to better prepare students prior to enrolling in high school.

- **Middle School Intervention STAR 8:** A new intervention programs for 8th grade Math and ELA has been

created. The program consists of 8-day modular curricula, aimed to raise students academic achievement, ready them for a success in A-G courses, and culminate middle school in good standing. Each program provides a wealth of materials that review, reinforce and increase mastery of key standards and skills. This program was piloted in two middle schools, with 30 teachers participating in the first training in May.

- **Middle School Intervention**

PASS: A new PASS program has been created to support 8th grade students in Math and ELA and training for interested school site teachers occurred in May 2019. PASS programs for 8th grade Math and ELA: both are flexible, modular interventions designed for use during the semester. Students can be enrolled into middle school PASS in or outside the school day to receive extra support and differentiated teaching. This was piloted in two middle schools with 30 teachers participating in the first training in May. The program was then implemented with students in May.

- **Edgenuity Intervention**

Programs for grades K-8:

Licenses have been renewed for the Pathblazer (grades K-6) and My Path (for grades 7 -8). Both interventions have screening features for immediate placement in Math and Reading lessons, with students receiving auto-prescribed content based on mastery. To

facilitate effective use of the programs there were two full-time Specialists continuing to support school sites, Quick Start guides, an LA Unified Resource Landing Page, a reporting feature that allows for tracking of student time on task, progress, and grades, a helpline, and tech support. This intervention support helps ready students for success in A-G courses. 274 schools utilized these resources, accounting for 40,393 student enrollments in the system.

- **Middle School College and Career Coaches (MSCCC):** These educators provide support for at-risk students targeted with early warning indicators (attendance, behavior, and low/failing grades in Math and ELA). As credentialed ELA teachers, they also support all teachers with integrating strategies to increase academic literacy. Coaches serve all Title 1 middle schools in full or half-time positions. They collaborate with stakeholders to ensure data-driven, results-based support services and programs are provided for all at-risk students. College and Career Coaches are primarily responsible for identifying achievement gaps, utilizing multiple data points for early alert data to inform intervention and support, assisting the roll-out of ELA/ELD, integrating instructional technology and providing a bridge of support as at-risk students transition into high school. Middle School College and Career Coaches have participated in Naviance training to support implementation at the

middle schools. 111 Title I middle schools had 36 full time positions and 75 half time positions (based on enrollment).

High schools and Local Districts track graduation progress throughout the year using dashboards that monitor student course completion and completion of other high school graduation requirements. Throughout the 2018-19 school year, Local District reviewed these data on an ongoing basis, and continued to see improvements

in student on-track progress throughout the year. These ongoing reviews also led to data dialogues with principals, particularly after report card grading periods, to ensure adequate supports were provided for credit recovery for students. Central Office and Local District counseling coordinators also met twice monthly to track student graduation progress and supported school counselors with identifying students who might be off-track from meeting graduation requirements. Some data from the School Experience Survey administered to students, parents, teachers and staff in Fall 2018 also provide additional evidence of the effectiveness of this Action:

- 84% of high school students "know which A-G courses I need to pass with a 'C' or better to get into college" the second highest rate of agreement among the 12 items related to future orientation on the survey.
- 64% of high school students responded that they have "met with a counselor at this school to discuss my progress towards graduation" and that "Adults at this school have helped me learn the details of getting into college (completing applications, financial aid, etc.)"
- 80% of middle school students and 76% of high school students agreed that "Most adults at this school expect me to go to college."
- 91% of parents agreed that "School staff expect my child to graduate from high school."
- 89% of parents agreed that "School staff expect my child to attend college."

	<ul style="list-style-type: none"> • 77% of high school parents agreed that "School staff help me understand the requirements for CSU/UC admission." • 75% of high school parents agreed that "School staff help me understand how to apply for financial aid for college." and "School staff help me understand how to help my child apply for college." <p>Based on the College and Career Readiness Survey administered in Spring 2019, 88% of participating 12th grade students had learned about different types of colleges and 72% had learned about different careers in high school. Almost every 11th grader (97%) had taken the SAT or ACT. 88% of 12th grade students planned to attend college in 2019-20. The most popular four-year colleges where students applied included CSU Northridge, CSU Los Angeles and CSU Long Beach. The most popular two-year colleges were Pierce College, Santa Monica College and East Los Angeles College.</p>

<p>Schools, 20 Middle Schools</p> <p>School Innovation Funds are provided to a subset of secondary schools to improve outcomes for targeted student populations. These targeted funds must be aligned to District Goals as described in the LCAP, and must be expended on services that support one or more of the following areas:</p> <ul style="list-style-type: none"> • Significant increases in investment in high need schools, including academic support and mental health, social and emotional support • Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery • Linked Learning • School climate initiatives including Restorative Justice • High school graduation and student recovery from dropout prevention for high need students • Parent and community engagement, particularly for those from high need communities 	<p>Schools, 20 Middle Schools</p> <p>20 Middle Schools included in this Action: Edwin Markham, Barack Obama Global Preparatory Academy, Horace Mann, Samuel Gompers, Dr. Julian Nava Learning Academies-School of Arts and Culture, Dr. Julian Nava Learning Academies-School of Business and Technology, George Washington Carver, John Muir, Bret Harte Preparatory, John H. Liechty, Sal Castro, Charles Maclay, Los Angeles Academy, William Jefferson Clinton, Audobon, Mary McLeod Bethune, Berendo, Johnnie Cochran, Jr., Vista, and Charles Drew.</p> <p>30 High Schools included in this Action: Crenshaw, Dr. Julian Nava College Preparatory, Sylmar Biotech Health Academy, Manual Arts, Esteban Torres High Humanitas Academy of Art and Technology, David Starr Jordan, Augustus Hawkins Community Health Advocates, Santee Education Complex, Dr. Maya Angelou Community, Dymally Academy for Multilingual Arts and Science, Augustus Hawkins Responsible Indigenous Social Entrepreneurship, Foshay Learning Center, Augustus Hawkins Critical Design and Gaming, Robert Fulton College Preparatory, East Valley, Sun Valley, Susan Miller Dorsey, Theodore Roosevelt, George Washington Preparatory, Diego Rivera Learning Complex Performing Arts community, Gardena, Diego Rivera Learning Complex Communication and Technology, Thomas Jefferson, Helen Bernstein, Esteban Torres High Engineering and Technology Academy, Sonia Sotomayor Learning Academy Los Angeles River School, Edward R. Roybal Learning Center, Robert F. Kennedy Community Schools Ambassador Global Leadership, Diego Rivera Learning Complex Public Service Community, Panorama High.</p> <p>Schools were allocated funds to utilize on a selected menu of services or personnel identified by the Central Office as being the most high leverage to improve student performance. Schools were required to draft school-wide plans for the use of these funds - these plans are accessible on the school websites at: https://schooldirectory.lausd.net/schooldirectory/. These plans provide descriptions of how these funds increase or improve services for low income, English learners and foster youth. For example, schools purchased additional staff (e.g., Psychiatric Social Workers, PSA Counselors, Counselors, nurses, psychologists) to support the mental health and social/emotional needs of high needs students.</p>	<p>4000-4999 Books and Supplies \$961,578 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>4000-4999 Books and Supplies \$5,123,334 - LCFF - 5000-5999 Services and Other Operating Expenses \$53,215 - LCFF - 6000-6999 Capital Outlay</p>
--	---	--	---

Additional teachers, non-classroom-based support teachers, assistant principals, and instructional coaches supported high needs students with lower class sizes, additional supports for credit recovery, dropout prevention and academic intervention, and, for middle schools, identification and supports for students that exhibited early warning indicators for future academic challenges. Teachers provided tutoring after school to support high needs students with additional academic personalization and instruction. Schools utilized professional development time and teacher planning time to support implementation of Linked Learning and other school-wide initiatives to increase engagement for high needs students and to make connections between college and career. School climate initiatives were supported by assistant principals, non-classroom-based support teachers and counselors to continue implementation of Restorative Justice practices and other school climate initiatives to improve attendance rates and reduce suspensions. Additional classroom equipment and supplies along with microcomputer support assistants assisted with the integration of technology in the classroom to engage high needs students with digital resources and personalized learning systems that can accelerate learning while utilizing available district curricular online resources. These schools with high needs student populations also utilized these staffing resources and technology resources to increase parent and community engagement through implementation of district workshops and increasing access to technology resources for parents at schools.

89% of these funds that schools allocated were to the following top 20 expenditures as determined by school leadership in consultation with stakeholders:

Additional Teachers	\$ 7,422,688
Non-Classroom-Based Support Teachers	\$ 6,048,275
Assistant Principals	\$ 3,979,524
Contracts for Instructional Services	\$ 3,611,490
Psychiatric Social Workers	\$ 3,583,279
Instructional Coach	\$ 3,406,704
Counselor - PSA	\$ 3,048,038
General Supplies	\$ 2,681,007

Counselor	\$ 2,562,490
Non-Capitalized Classroom Equipment	\$ 2,554,410
Teacher Professional Development Time - Training Rate	\$ 1,791,523
Supplemental Instructional Materials	\$ 1,715,921
Additional Teacher Planning Time	\$ 1,452,691
Office Technician	\$ 1,387,238
Non-Capitalized Equipment - Other	\$ 990,931
Nurse	\$ 804,583
Microcomputer Support Assistant	\$ 803,400
Psychologist	\$ 744,301
Teacher Professional Development Time - Full Rate	\$ 618,759
Teacher Overtime - Tutoring	\$ 595,157

The remaining funds were allocated to additional staff such as building and grounds workers, senior office technicians, education aides, student and family resource navigators, and parent community facilitators.

Local Districts supported schools in identifying and contracting with instructional services support providers to improve student English Language Arts and mathematics performance through the use of formative assessment strategies as a method of developing the assessment literacy of teachers. Local Districts supported schools in utilizing improvement science principles to engage in cycles of continuous improvement throughout the year to strive for improved performance on the state dashboard indicators. The difference in the budgeted expenditures compared to the actual expenditures was largely due to the timing of budget development and personnel recruitment and hiring. The majority of funding for these schools was allocated to staff to support high need students such as assistant principals, coordinators, academic coaches, counselors and teachers.

Local District staff monitored the implementation and effectiveness of these funds in these schools. Anecdotal feedback indicates that schools were utilizing these funds to improve services to low income, English learners and foster youth, particularly around specific indicators for on-track graduation progress (in high schools) and early warning indicators (middle schools). Schools increased use of

	interim assessment blocks, indicating greater focus on student achievement aligned with the state college-ready assessments.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified implemented the actions as described during the 2018-19 school year. Some of the highlights of the implementation this year include:

- Support for over 411 Career Technical Education pathways across the district
- Implementation of 72 Linked Learning pathways that provide students with college and career awareness and experiences, including 14 Gold Certified Pathways
- Continued investments in 37 Reed schools to support staffing and additional professional development in these schools serving high concentrations of students who are English learners, foster youth and/or low income
- Utilization of Student Equity Needs Index funds in schools to support decision-making by staff closest to students. Approximately 80.5% of these funds were expended on certificated salaries and benefits, demonstrating that schools utilized these funds for site-based staffing such as teachers, administrators, and counselors to support additional academic, social-emotional, and mental health resources for high needs students to be on-track toward graduation
- Implementation of personalized learning funds in options schools to support completion of A-G coursework through credit recovery, tutoring, technology and social emotional learning supports
- Continued implementation of Diploma Counselors to support Tier II and III students identified at risk of not meeting graduation requirements
- Expansion of available Tier II and III resources for student interventions in content areas identified as high needs for students who are not on track for graduation
- Utilization of School Innovation funds in 50 identified high needs schools to support increased staffing and resources to support low income, English learners and foster youth with increased intervention resources and academic, social-emotional, and mental health resources to assist students to be on-track toward graduation

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

College and career readiness remain a central focus of all schools in LA Unified. The four year cohort graduation rate continues to increase year-over-year, and the percentage of graduating cohort students completing A-G requirements with a C or better was 47.9% for the 2017-18 school year. Low income students achieved at a similar rate (47.2%) to the district-wide average, but English learners (21.4%) and foster youth (35%) students continue to graduate at a lower percentage meeting the A-G requirements due to challenges with course enrollment and access to A-G courses. In addition, 10.4% of the graduating cohort received a qualifying score of 3 or higher on at least 2 Advanced Placement exams, with 9.1% of low income students meeting this indicator. English learners (1.8%) and foster youth (0.0%) continue to lag behind the performance of all students on this indicator. The percentages of students meeting the 11th grade Early Assessment Program (EAP) college readiness level in English Language Arts and mathematics were below the targets, with low income students achieving at rates closer to the district-wide performance levels, but English learners and foster youth achieving at much lower rates. Feedback from leaders at school sites and Local Districts indicated that the investments from this goal continue to result in positive outcomes for students, especially as schools are given greater autonomy in allocating resources to meet the needs of their specific student populations. Investments in staffing are increasing the personalization of supports for students who may not be on track for graduation. Targeted resources such as A-G counselors at the district level as well as school-determined initiatives utilizing the Student Equity Needs Index funds have increased and improved services to low income, English learner and foster youth students. In response to input from elementary and middle school leaders, the District has increased its monitoring of student progress toward graduation at those grade levels and has begun to direct some resources to elementary and middle schools in an effort to better prepare students for success in high school.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs

and delayed implementation of particular programs at the school-wide level.

For Goal 1 Action 9, shifts in allocations from books and supplies were made to staffing in order to provide additional supports to Local Districts and schools in the form of counselors and staffing to monitor student progress toward graduation and to provide supports for credit recovery.

For Goal 1 Action 10, shifts in allocations were due to the timing of informing identified schools of these School Innovation Funds. The timing was after budget development for schools in Spring 2018, so funds that were budgeted for books and supplies were shifted to staff once schools were able to hire for those positions in Fall 2018.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Due to the change in business rules for the state calculation of the graduation rate, the targets for the graduation rate metric have been adjusted to be aligned with attainable district targets. In addition, the metric for the percentage of the graduating cohort completing A-G with a C or better have been adjusted because the original 2018-19 target of 46% was met in the 2017-18 school year (47.9%).

Changes to the Actions in this Goal include:

- Goal 1 Action 1 now includes a percentage of options program funding that is now showing as base funding that was previously identified as supplemental in Goal 1 Action 6.
- In an effort to increase school decision-making autonomy, funding for Goal 1 Action 5 School Autonomy has now included funding from Actions 1.4, 1.10, 4.1, 5.1 as a means of expanding the Student Equity Needs Index.
- Goal 1 Action 9 A-G Immediate Intervention Plan initiatives now incorporate elementary and middle school supports in response to feedback from Local Districts and schools that improved supports for elementary and middle school students would better prepare students for high school and result in fewer students needing remediation in 9th grade.
- Goal 1 Action 10 School Innovation Funds are now integrated with the funding for Goal 1 Action 5 School Autonomy to provide a pool of targeted funds to support school services for high needs students.

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

education in 2019-20. This program plays a critical role in ensuring the district continues to have highly qualified teachers serving students. Additional information about this program may be found at <https://achieve.lausd.net/Page/354>.

The STEP UP and Teach program provides guidance and support to LA Unified paraeducators who desire to become teachers. The different cohorts focus on different high need teaching areas such as special education and multilingual/multicultural (bilingual) education. The program provides mentoring regarding academic pathways, credential requirements and teacher preparation programs. Participants must engage in a Review of Instructional Standards Experience (RISE) designed to provide them with an opportunity to develop their teaching skills with the guidance of a practicing teacher. RISE is aligned with the Teaching and Learning Framework of the district and focuses on classroom environment, planning and preparation, professional responsibilities and delivery of instruction. For the 2018-19 school year, there were 227 special education participants and 47 multilingual/multicultural (bilingual) participants. The application is open year-round for new members to apply and join the program. During the 2018-19 school year, 48 special education teachers, including 31 mild to moderate disabilities credentialed teachers, were hired along with 2 multiple subjects teachers. Additional information about this program may be found at <https://achieve.lausd.net/Page/9495>.

The priority topics listed in the planned Action continue to be important aspects of school-site professional development. Although funds for this Action were not allocated for these specific topics, professional development was implemented in various other Actions in the LCAP and using other state and federal funds. Some examples of this include:

- Goal 2 Action 4 Instruction - Dual language/bilingual program professional development was supported in this Action to new and existing school site staffs to be able to implement curricula and instruction aligned with expectations for effective dual language programs.
- Goal 2 Action 8 Supporting Integrating Special Education Students into General Education - Division of Special Education coordinators and staff provided professional

	<p>development to school site teams on strategies and practices for the effective integration of students with disabilities into general education classrooms.</p> <ul style="list-style-type: none"> • Goal 2 Action 9 English Learner Supports - Staffing and professional development was provided to schools on the implementation of the English Learner/Standard English Learner Master Plan district-wide, specifically focusing on implementation of integrated English Language Development standards. • Goal 2 Action 10 Instructional Technology Support - Trained teachers in the effective use of technology in the classroom, particularly in the use of the new district-wide learning management system. • Goal 5 Action 1 School Climate and Restorative Justice - Professional development was held at school sites around implementation of Safe School Plans, the Student Discipline Training Kit, Restorative Justice Practices, alternatives to suspension, and Positive Behavior Support Systems

<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Curriculum</u></p> <p>The design and implementation of curriculum is a critical component of the alignment of content and instruction to the Common Core State Standards, as well as development of multiple channels,</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>The district continued to adopt curriculum aligned with the state content standards in order to support implementation of multi-tiered systems of support in schools. The district has invested in effective Tier 1 curriculum as the state has proceeded with new instructional materials adoptions.</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$60,651,198 - LCFF - 2000-2999 Classified Salaries \$2,498,410 - LCFF - 3000-3999 Employee Benefits \$95,009,693 - LCFF - 4000-4999 Books and Supplies \$0 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$0 - LCFF - 3000-3999 Employee Benefits \$18,472,531 - LCFF - 4000-4999 Books and Supplies \$0 - LCFF - 6000-6999 Capital Outlay</p>

<p>pathways and models assisting students in completing the standards-aligned content.</p> <ul style="list-style-type: none"> • Online courses-credit recovery and core programs • Supplemental curriculum and materials supporting Common Core State Standards • Content Design lessons • Summer School • Dual Language/Bilingual Programs • Curriculum Maps aligned to Common Core State Standards • Digital curriculum aligned to Common Core State Standards • English Language Development (ELD) Standards Phase-In Plan • Design and provide schools and teachers with Common Core State Standards developed curriculum maps • English Language Development (ELD) Standards Phase-In Plan • Advanced Learning curricula (Advanced Placement, AVID, International Baccalaureate, SpringBoard, Honors courses) • Math curriculum adoption • Design lessons for K-2 • Development of Common Core State Standards Dashboard to support implementation <p>Textbooks & Instructional Materials</p>	<p>Curriculum implementation continued in the 2018-19 schools year for the elementary English Language Arts instructional materials adopted in 2017-18. The district also implemented new high school history/social studies instructional materials in the 2018-19 school year and is planning on purchasing and implementing new elementary history/social studies instructional materials in 2019-20. The district has begun planning for science instructional materials adoptions in the coming school years. District processes for selecting new instructional materials focus on the needs of students in the district, particularly English learners, and require integration with district-wide technology and the learning management system.</p> <p>District-wide investments (\$18.47 million) in this action focused on ensuring appropriate textbooks and instructional materials are available in the following areas:</p> <ul style="list-style-type: none"> • Core instructional programs and online courses-credit recovery • Supplemental curriculum and materials supporting state standards • Summer School • Dual Language/Bilingual Programs • Alignment with the district English Learner and Standard English Learner Master Plan • Advanced Learning curricula (Advanced Placement, AVID, International Baccalaureate, SpringBoard, Honors courses) <p>The budgeted funding classified salaries was moved to fund salary increases for maintenance and operations staff and to</p>		
--	---	--	--

	<p>provide additional support from school police. Reductions in the books and supplies actual expenditures was due to the postponement of the adoption of new elementary/middle grades science and history/social studies instructional materials and the fiscal stabilization plan (\$47 million). In addition, reallocation of funds to the Goal 6 Action 3 Central Office included \$12 million to the Instructional Technology Division for projects and \$1.5 million for Career Technical Education supports.</p> <p>This Action was effective based on a number of indicators. The District continued to meet Williams requirements regarding instructional materials per annual reports and in school observations. In addition, monitoring from school administrators and Local District leaders indicated the use of adopted instructional materials in classrooms. Central Office staff also noted high numbers of teachers seeking professional development and support through the District online learning management system as well as through use of the available online resources associated with the newly adopted instructional materials.</p>

Action 4

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p>	<p>\$1,051,238,886 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$601,886,560 - LCFF - 2000-2999 Classified Salaries</p> <p>\$135,478,615 - LCFF -</p>	<p>\$1,276,039,076 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$130,111,000 - LCFF - 2000-2999 Classified Salaries</p> <p>\$550,922,450 - LCFF -</p>

<p><u>Instruction</u></p> <p>The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a students ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the Districts curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the greatest impact and learning gains by all of our students.</p> <ul style="list-style-type: none"> • Teachers and instructional staff • Implementation of shifts in Mathematics and ELA • Interdisciplinary instruction • English Language Development (ELD) Standards Phase-In Plan • Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative • Contracts to support effective Common Core State Standards instruction • Design lessons • Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative • Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards. • Arts integration 	<p>As noted in previous annual updates, a significant portion of the District's base local control funding formula fund (\$1.845 billion) were aimed at supporting the instructional core of the District's general school program. As such, school-sites were normed teaching staff and other personnel to implement the instructional program while also providing necessary tools to improve the quality of instruction. Based on the 8,077 teachers evaluated through the Educator Development and Support: Teachers (EDST) process, 4% were below standard, 76% were meeting standards, and 20% were exceeding standards. Among the 341 principals evaluated through the Educator Development and Support: School Leaders (EDSSL) process, 1% were ineffective, 18% were developing, 78% were effective, and 3% were highly effective. 32% of teachers and 41% of principals were evaluated in the 2018-19 school year.</p> <p>Instructional practices continue to focus on implementation of multi-tiered systems of support that provide differentiation and personalization for all students. One area of focus district-wide has been in the alignment of instruction with expectations on the state Smarter Balanced English Language Arts and mathematics assessments. School-site implementation of the Smarter Balanced interim assessment blocks has increased district-wide over the past three years, especially as the tools for teachers and administrators to use the results to inform instruction have improved in the Smarter Balanced Digital Library. Results from interim assessment blocks are evaluated at school sites, and Local Districts provided school with support to evaluate these results. Preliminary data indicated increased use of the interim assessment blocks in 2018-19.</p> <p>Dual language programs - the district continued to invest approximately \$77.7 million in the expansion of these programs in schools during the 2018-19 school year. The 137 programs across the district include target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic. Schools transitioning to these programs need additional professional development and instructional supports to ensure that effective instruction is implemented in English and in the target language. At the elementary level, students have a minimum of 50% of each instructional day in the target language. At the secondary level, students have a minimum of two periods in a six period day that are taught 100% in the target language. These programs support district goals for academic</p>	<p>3000-3999 Employee Benefits \$207,795,137 - LCFF -</p> <p>4000-4999 Books and Supplies \$4,750,234 - LCFF -</p> <p>5000-5999 Services and Other Operating Expenses \$155,567 - LCFF -</p> <p>6000-6999 Capital Outlay</p>	<p>3000-3999 Employee Benefits \$32,683,224 - LCFF -</p> <p>4000-4999 Books and Supplies \$11,774,786 - LCFF -</p> <p>5000-5999 Services and Other Operating Expenses \$922,152 - LCFF -</p> <p>6000-6999 Capital Outlay</p>
---	--	--	--

	<p>achievement and support bilingualism and biliteracy as well as sociocultural competence. Effectiveness of these programs are indicated by the increased number of students enrolled as well as the increasing number of students who earn the LAUSD Biliteracy Awards (additional information available at https://achieve.lausd.net/Page/212#spn-content).</p> <p>Magnet school resources were also funded (\$27 million) in order to sustain and expand these successful programs across the district. These funds supported magnet school coordinators and Central Office resources that ensured implementation of these 261 programs serving approximately 78,000 students. 35 new magnet programs were opened in 2018-19, and the District continues to plan for expanding these programs that are attracting students into engaging educational programs. Effectiveness of magnet schools are indicated by the increase in the number of students enrolled in these programs as well as magnet school quality reviews that are conducted internally with Central Office and Local District staff. Los Angeles Unified continues to operate nationally-recognized magnet school programs that are in high demand from parents.</p>

Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Assessment</u></p> <p>Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Assessment</u></p> <p>For the 2018-19 school year, LA Unified continued implementation of district-wide assessments to inform curriculum and instruction as well as to monitor the performance of student groups and schools. These assessments are closely aligned with the state dashboard indicators</p>	<p>\$810,467 - LCFF - 1000-1999 Certificated Salaries \$4,127,696 - LCFF - 2000-2999 Classified Salaries \$2,251,501 - LCFF - 3000-3999 Employee Benefits \$2,823,303 - LCFF - 5000-5999 Services and Other Operating Expenses \$65,846 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$34,807 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$7,197 - LCFF - 3000-3999 Employee Benefits \$1,255,397 - LCFF - 5000-5999 Services and Other Operating Expenses \$0 - LCFF - 6000-6999 Capital Outlay</p>

proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of enrichment (advanced learning).

Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.

- Graduation checks
- California High School Exit Exam (CaHSEE) assessments
- Algebra EOC (End Of Course assessment)
- Math Placement Assessment
- Literacy intervention assessment
- K-2 assessments in foundational reading and math
- Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS)
- Progress monitoring assessment tools
- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

and are intended to ensure student readiness for college, career and life. These assessments also align with the districts implementation of multi-tiered systems of support to inform decisions on student Tier 2 and 3 supports. Some examples of these assessments include:

- Literacy - Elementary schools continue to focus on early literacy success for all students by expanding implementation of the Early Language and Literacy Plan (ELLP) which utilizes the diagnostic assessment Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment as a tool for supporting differentiated instruction for students. Additional professional development and data dialogues were implemented to support ELLP in elementary schools. At the secondary level, the Division of Instruction identified an appropriate literacy diagnostic assessment to begin being utilized in schools to inform identification of students and their skill levels. DIBELS data indicates that past cohorts had greater gains when comparing beginning of the year to end of the year percentages of students scoring benchmark, demonstrating that schools with more experience implementing ELLP strategies are showing higher gains.
- English Learners - The Multilingual, Multicultural Education Department continued professional development on and analysis of English Language Proficiency Assessment for California (ELPAC) results and how to support

integrated English Language development across the content areas. In addition, the Access, Equity and Acceleration team continued to support schools with the implementation of Language Assessment Scales (LAS) Links to identify probable standard English learners and to monitor progress of standard English learners in schools. Schools utilized LAS Links to identify probably standard English learners and to provide support to those identified students. Schools also utilized ELPAC results to support English language learners in classroom instruction and to provide appropriate placements for students to ensure adequate supports are provided.

- Mathematics - District-wide implementation of the Smarter Balanced interim assessment blocks and comprehensive assessments continued to increase for English Language arts and mathematics. Recommended interim assessment blocks, including selected response and performance tasks, were identified in Fall and Spring testing windows to allow for calibration of student progress. Local Districts and the Division of Instruction continued professional development in schools on the alignment of classroom assessments with the levels of rigor expected on the Smarter Balanced assessments. Preliminary results from interim assessment blocks indicated increased usage of these assessments among schools and

greater teacher usage of resources available through the Smarter Balanced system.

- Dual Language - These programs continued to utilize language literacy assessments (e.g., IDEL-Spanish Language Literacy, Korean Language Test, Mandarin Language Test) in target languages to monitor student progress and to inform curriculum and instruction.
- College Readiness - The Advanced Learning Options team continued to support district-wide implementation of the PSAT/NMSQT in October each year for all Grade 10 students as well as Advanced Placement and International Baccalaureate assessments for eligible high school students across the district. New for 2018-19 was the district-wide implementation of in-school SAT administration for all Grade 11 students in March 2019. The District had the highest rate of Grade 11 student SAT participation than any prior year.

Changes in state and district policy have resulted in the following assessments no longer being utilized district-wide: California High School Exit Exam (CAHSEE), Algebra End of Course assessment, math placement assessment and the California English Language Development Test.

Please note that classified and certificated salaries and benefits were shifted to the Central Office (Goal 6 Action 3) to more accurately represent the work these staff were engaged in to support data use district-wide.

Action 6

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p><u>Early Childhood Education</u></p> <ul style="list-style-type: none"> • CAL-Safe • Early Childhood Development Program <p><u>Transitional Kindergarten Expansion Plan</u></p> <ul style="list-style-type: none"> • provide quality preschool seats for <u>low income</u> children who turn 5 after December 2 • lower the dropout rate and increase high school graduation rates by cultivating at a very young age, personal qualities that improve childrens resilience, confidence and persistence to a task • improve student success in A-G requirements by setting a strong language and literacy foundation for our youngest students <p>The TK Expansion program is a full day, 180 school day program following the same time schedule as other elementary classrooms. The program is a transitional kindergarten program that prepares children for Kindergarten. Kindergarten</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p><u>Early Childhood Education</u></p> <p>The District has expanded 8 California State preschool programs from part-day to full-day in the 2018-19 school year at 107th ES, Bushnell ES, Coliseum Street ES, Washington ES, Selma ES, Barrett ES, Latona ES, and Ann St. ES. In addition, full-day programs will be added at Vernon City ES, Sunny Brae ES, and LaFayette Park PC.</p> <p><u>Expanded Transitional Kindergarten Plan</u></p> <ul style="list-style-type: none"> • Expanded Transitional Kindergarten (ETK) programs will be added to 4 elementary schools. Baldwin Hills ES, Basset ES, Gulf ES, and Quincy Jones ES. • The additional programs provide quality preschool seats for low-income children who turn 5 after December 2 • The programs are designed to lower the dropout rate and increase high school graduation rates by cultivating at a very young age, personal qualities that improve 	<p>\$37,531,491 - LCFF - 1000-1999 Certificated Salaries \$87,100 - LCFF - 2000-2999 Classified Salaries \$16,395,616 - LCFF - 3000-3999 Employee Benefits \$1,720,302 - LCFF - 4000-4999 Books and Supplies \$33,804,319 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$42,644,521 - LCFF - 1000-1999 Certificated Salaries \$2,035,690 - LCFF - 2000-2999 Classified Salaries \$18,041,445 - LCFF - 3000-3999 Employee Benefits \$929,270 - LCFF - 4000-4999 Books and Supplies \$26,823,786 - LCFF - 6000-6999 Capital Outlay \$76,839 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

<p>skills and benchmarks are inappropriate measures in this program. Only students who qualify for the Free/ Reduced Meal program are eligible to enroll in the program.</p> <p>The District is planning to increase expanded transitional kindergarten program in the 2018-19 school year to reflect a growth of 20 sites.</p>	<p>childrens early academic success, resilience, confidence, independent learning skills, self-control, and persistence to a task.</p> <ul style="list-style-type: none"> • These programs improve student success in A-G requirements by setting a strong language and literacy foundation for our youngest students. <p>The Expanded TK (ETK) is following the same time schedule as other elementary classrooms. The program is a transitional kindergarten program that prepares children for Kindergarten. Kindergarten skills and benchmarks are inappropriate measures in this program so children are monitored using the Desired Results Developmental Profile (DRDP).</p> <p>The Desired Results Developmental Profile (DRDP) is given during the first 60 days of enrollment and six months later to monitor student progress and to inform teacher practices. Preliminary data from 2018-19 for approximately 5,000 students enrolled in the District's early childhood education programs shows a high percentage of students meeting kindergarten readiness levels across the domains that include self-regulation, social and emotional development, math, physical development, health, and English language development.</p>

Action 8

Planned
Actions/Services

Actual
Actions/Services

Budgeted
Expenditures

Estimated Actual
Expenditures

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades K-5</p> <p>Support integrating Special Education students into General Education (Grade-Span Support): The Individualized Education Program services provided to unduplicated pupils are effective in meeting the Districts core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with 80%-100% unduplicated pupils.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: Identified schools implementing inclusive practices</p> <p>The Division of Special Education (DSE) worked diligently in ensuring wide grade spans (more than two grade levels) were limited across the District. There were instances where lowering the grade span was not feasible due to low student counts but our overall expectations for special day classes on core curriculum was to limit the number of grade levels assigned to teachers. These activities were monitored in our ECAST and Norm Day processes.</p> <p>In addition, LAUSD expanded the number of school sites implementing inclusive practices. The pilot has been in effect since 2014-15 growing from 32 schools its first year to 50 schools in SY 18-19. While the pilot has been relatively organic in years past, this year the DSE has provided additional oversight and support through a dedicated team called AEIO (Access, Equity, Inclusion, Outcome).</p> <p>The AEIO team focused on providing professional development in four performance areas: Family partnership, Quality Individualized Education Program (IEP), Staff capacity and Engagement, and Planning for Inclusive Student Experience. In the Fall on 2018, the Division of Special Education conducted a kick-off meeting for school site leaders from the 50 schools and their inclusion teams that set the tone and communicated the suggested deliverables. Each of the new schools were assigned support personnel to help them implement the work. Based on observations and assessments utilizing a rubric of implementation, the AEIO team was able to note increases in the utilization of inclusive practices in schools, improvements in attendance rates for students with disabilities in some schools, and increased participation rates in extracurricular activities for some students with disabilities.</p>	<p>\$6,237,112 - LCFF - 1000-1999 Certificated Salaries \$6,149,979 - LCFF - 2000-2999 Classified Salaries \$9,842,909 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$7,159,552 - LCFF - 1000-1999 Certificated Salaries \$5,980,373 - LCFF - 2000-2999 Classified Salaries \$7,989,124 - LCFF - 3000-3999 Employee Benefits \$570 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

Action 9

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p><u>English Learner Supports</u></p> <p>Implementation of the English Learner Master Plan supporting English Learners and Standard English Learners. Services provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive of reclassified fluent English proficient students (RFEPS)</p> <p>-Provide for EL/SEL Instructional Coaches</p> <p>- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Limited to Unduplicated Student Group(s)</p> <p>Location: All Schools</p> <p><u>English Learner Supports</u></p> <p>The following action steps/services were implemented to support English Learners English Language Development and academic achievement using approximately \$19 million:</p> <ol style="list-style-type: none"> 1. Implemented adopted Master Plan programs and services under the 2018 Master Plan for ELs and SELs 2. Developed and provided 2018 Master Plan training for teachers, administrators and parents 3. Provided a Master Plan Institute for all EL Designees 4. Promoted the expansion of Two-Way or One-Way Dual Language Education programs 5. Provided professional development on the ELD standards; Designated/Integrated ELD; Dual Language Education; Constructive Conversation Skills (Create, Clarify, Fortify and Negotiate); High Impact Practices (Fostering Academic Interactions, Using Complex Text, Fortifying Complex Output); EL Instruction Approaches (Active Listening, Extended Communications, Oral Summarizing); Academic Conversations and ELPAC Task Types 6. Multi-funded EL Instructional Coaches (149 positions) to support teachers of English learners in planning, implementing, and 	<p>\$13,136,954 - LCFF - 1000-1999 Certificated Salaries \$873,846 - LCFF - 2000-2999 Classified Salaries \$4,950,171 - LCFF - 3000-3999 Employee Benefits \$15,145,650 - LCFF - 4000-4999 Books and Supplies \$144,075 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$12,199,808 - LCFF - 1000-1999 Certificated Salaries \$1,358,092 - LCFF - 2000-2999 Classified Salaries \$4,928,239 - LCFF - 3000-3999 Employee Benefits \$1,183,377 - LCFF - 4000-4999 Books and Supplies \$891,376 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

<p>- Enhance the District's implementation of ELD Standards through the implementation of the Districts English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum</p> <p>-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth.</p> <p>- Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.</p> <p>- Fellowships, and professional development.</p> <p>- Coordinated Professional Development</p>	<p>assessing Integrated and Designated ELD and implementation of adopted High Impact Practices/EL Instructional Approaches. EL instructional coaches engaged teachers of ELs in coaching cycles, modeled, co-taught and provided actionable feedback.</p> <p>The implementation of listed English Learner supports (Master Plan implementation training, Master Plan Institute, expansion of Dual Language Programs, Designated and Integrated ELD professional development, and provision of EL Instructional coaches at high EL count schools) were effective in ensuring that a greater percentage of English Learners achieve English language proficiency. From 2017-18 to 2018-19, the reclassification of English Learners increased by 2%, from 21% to 23%. Additionally, the percentage of English Learners meeting or exceeding standards in the 2019 ELA and Math Smarter Balance Assessment increased fro 4% to 6% and from 5% to 7%, respectively.</p> <p>Pre-school for All (PAL)/Pre-school collaborative (PSC): This year continued the embedding of Speech & Language Pathology support into existing PAL & PSC classes supports early identification and language development for english learners. A significant portion of PAL students are low-income and English learner students needing additional speech and language pathology support to prepare them for general education integration in kindergarten and/or in the early primary years.</p> <p>Accelerated Academic Literacy funding is now allocated to purchase instructional materials and services and fund professional development for schools and teachers that are implementing Tier II and/or Tier III intervention programs administered by the Division of Instruction.</p> <p>The Division of Instruction has purchased licenses and services for the Renaissance Star Reading Assessment, a nationally recognized research-based assessment that measures students reading levels, skills, and their mastery of the state English language arts standards. Beginning in 2019-20, middle and high schools (up to 40) that implement the ELA Tier II intervention program will have access to this assessment to use for universal screening and progress monitoring. Middle schools will be able to assess all students (grades 6-8); high schools will be able to assess all grade 9 and 10 students.</p>		
---	--	--	--

(PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English

In 2018-19, a new Tier II intervention curriculum was implemented in the following high schools: Sotomayor Arts and Sciences Academies, Torres HS-East Los Angeles Performing Arts Magnet, Jordan HS, and Wooden Continuation HS. This intervention program is grounded in a poetry-based program Get Lit/Words Ignite and provides students with more targeted instruction on reading skills (literary analysis), academic vocabulary, speaking and listening skills, writing (poetry, expository, and narrative) and social emotional learning skills. Plans are to expand the program in 2019-20 to 15 more schools.

In 2019-20, a new Tier II intervention curriculum will be implemented for 20 middle schools. This program is grounded in the Reading Apprenticeship Framework and will use instructional models that provide multiple opportunities for students to actively collaborate, integrate technology, engage in independent reading, and build their reading, writing, and speaking and listening skills.

These Tier II and III English Language Arts programs disproportionately serve low income and English Learner students as a result of the need to accelerate the learning for these students who are not yet meeting the grade level standards on the state assessments. As a result of these programs, the percentage of English Learners meeting or exceeding standards in 2019 ELA and Math Smarter Balance Assessment increased from 4% to 6% and from 5% to 7%, respectively. Furthermore, Los Angeles Unified has been able to reduce the percentage of Long-Term English Learners by 3%, from 17% to 14%.

Device carts were purchased using District-wide bond funds, including laptop carts and devices to allow students access to the internet at home with their district-assigned devices.

Local Control Accountability Plan Support

Local Control and Accountability Plan supported personnel in the central office as well as Local Districts to support engagement with stakeholders and to complete the LCAP. This included developing and facilitating workshops to assist stakeholders in understanding the content of the LCAP and receiving feedback from stakeholders on the LCAP. These staff also coordinated across the various district departments to ensure that the LCAP included accurate descriptions of the implementation and

Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP

effectiveness programs. Regular meetings with these district department leads were held to ensure input on district targets for goals and for monitoring progress toward student achievement. In addition, LCAP supported personnel collaborated with district fiscal and data team members to ensure monitoring of the appropriate use of funds and to track LCAP-related outcome measures.

Central Office/Local District Supports for school climate program implementation were funded through Goal 5 Action 1.

<p>students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.</p> <p><u>Local Control Accountability Plan Support</u></p> <p>Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.</p> <p>Fiscal support specialists</p> <p>Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.</p> <p>Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.</p> <p>Central Office/Local District Supports for school climate program implementation.</p>

<p>Location: All Schools</p> <p><u>Instructional Technology Support</u></p> <p>Ensure school-sites receive the support to enhance and utilize technology available at their site as well as provide PD to teachers on utilizing tools to enhance instruction.</p> <p>Allocates information technology resources and support to areas in the District that have deficits in tech support.</p>	<p>Location: All Schools</p> <p>The District Instructional Technology Initiative team (https://achieve.lausd.net/iti) provided the following Models of Support to schools along a continuum to support low income students, English learners and foster youth:</p> <ul style="list-style-type: none"> • Instructional Leadership Cohorts: <ul style="list-style-type: none"> ◦ 44 schools engaged in opportunities for learning about instructional technology effective strategies together as an Instructional Leadership Team, including a total of 105 participants. • Teacher Leader Network: <ul style="list-style-type: none"> ◦ 22 schools engaged in semester-long job-embedded individual learning opportunities for instructional technology integration. This network included 23 teachers. • ISTE Student Standards Suite: <ul style="list-style-type: none"> ◦ 277 participants across 121 schools participated in in-depth hands-on learning sessions to practice and implement rigorous and robust lessons. • Practitioner School Model: <ul style="list-style-type: none"> ◦ 25 schools benefited from learning together as a school community with the daily support of an Instructional Technology Facilitator. 146 participants in schools received support and approximately 20,000 students were served by these participants. • Digital Citizenship: <ul style="list-style-type: none"> ◦ 75 schools including about 503 participants engaged in opportunities for school communities and educators to become Digital Citizenship Certified. About 60,000 students across these schools received training on Digital Citizenship. • Computer Science Education: <ul style="list-style-type: none"> ◦ Expansion of computer science 	<p>Benefits</p> <p>\$10,280 - LCFF - 4000-4999 Books and Supplies</p> <p>\$0 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>Benefits</p> <p>\$629,239 - LCFF - 4000-4999 Books and Supplies</p> <p>\$252,716 - LCFF - 5000-5999 Services and Other Operating Expenses</p>
---	---	---	--

	<p>education in grades P-5 with the development of rigorous and relevant courses in middle grade and pathways in grades 9-12. Approximately 1026 teachers were trained across 266 schools to deliver computer science education to students.</p> <p>The effectiveness of these District Instructional Technology Initiative programs can be demonstrated beyond the participation and exposure of thousands of students to the concepts of Digital Citizenship and computer science. Results of professional development evaluations provided by participants indicate high integration of ISTE Standards for Students, Digital Citizenship Certification and Computer Science Education concepts. Observations by Central Office and Local District leads also indicates increased implementation of effective strategies to integrate technology into instruction for students.</p> <p>Direct onsite technical support has been provided to schools to assure computers, tablets, and other classroom related technology is operational for use by students, teachers, and staff in schools. This supports the instructional program as students and teachers access online digital resources, computer based assessments, as well as use a variety of technology for collaboration and student projects. The focus on technical support has led to increased adoption of technology in the classroom. Specifically, an increasing number of schools are adopting online applications, leveraging digital versions of the instructional materials, increased use of the District's learning management system (Schoology). There have been no technical issues with the delivery of computer-based assessments. Also, the District has had no technical issues at the start of the school year or upon return from winter recess, which have traditionally been a problem prior to implementing the current technical support structure for schools.</p>

Action 11

Planned
Actions/Services

Actual
Actions/Services

Budgeted
Expenditures

Estimated Actual
Expenditures

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.</p> <p>Resources are distributed to school-sites through a prioritization methodology utilizing the Districts school equity index</p> <p><u>Early Language and Literacy Program</u></p> <p>In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>For the 2018-19 school year. all high school, middle school and sites with grades 4-6 were provided an additional teacher position to assist with class size reduction and offer additional enrichment courses. Specifically, the positions were used to support class size reductions in physical education and/or to asset in the offering of elective courses, and/or courses activities such as AVID, MESA and Leadership.</p> <p>Some measures of the effectiveness of this Action include whether students are receiving feedback from teachers because of smaller class sizes and whether students are cognitively engaged in classes. Based on the School Experience Survey administered to students in Fall 2018, 75% of high school students, 81% of middle school students and 92% of elementary students agreed that "In my classes, my teachers tell me how I can make my work better." The Fall 2018 results were at or above the responses from the previous school year, with only 67% of high school students and 74% of middle school students and 92% for elementary students agreeing. Overall student responses on the five survey items related to cognitive engagement was 73% of high school and middle school</p>	<p>\$12,736,848 - LCFF - 1000-1999 Certificated Salaries \$5,802,364 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$11,427,796 - LCFF - 1000-1999 Certificated Salaries \$5,101,462 - LCFF - 3000-3999 Employee Benefits</p>
---	---	---	---

builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

students and 80% of elementary students agreeing on those items. In the prior school year, responses of these same survey items related to cognitive engagement were lower, with only about 74% of elementary students agreeing and about 65% of middle school and high school students agreeing.

Early Language and Literacy Program (ELLP)

This program was expanded to include 520 elementary schools district-wide with its fourth cohort in 2018-19. Over 2,500 teachers have been trained in elementary schools across the district. On-going professional development and monitoring of implementation was provided by the Division of Instruction and Local Districts. Implementation support was the focus for cohort 3 and 4 schools, and differentiated support was provided to cohort 1 and 2 schools that were trained in the 2015-16 and 2016-17 school years. Professional development concentrated on the use of data from the Dynamic Indicators of Basic Literacy Skills (DIBELS) early literacy assessment and differentiation of instruction to meet the specific instructional needs of students. These assessments are administered three times per year to monitor student progress and to inform professional development and teacher instructional planning. This year, the Division of Instruction has increased focus on kindergarteners scoring Above Benchmark on the end-of-year DIBELS assessment because findings show that 90% of kindergarteners who scored at that level maintained Benchmark or above through the end of 3rd grade. Additional information about the Early Language and Literacy Program and more recent data

reports may be found on the Division of Instruction Elementary English Language Arts website at: <https://achieve.lausd.net/Page/5223>. Preliminary data from 2018-19 indicated improved middle of the year DIBELS percentages for students scoring benchmark or above, particularly with schools in cohorts 1 and 2.

The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the AEI. The AEI has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.</p> <p>The Arts Equity Index (AEI) assigns quartile levels for all schools K-12 based on the scope of their provided arts instruction and resources combined with the Student Equity Index. The AEI levels are as follows:</p>	<p>\$24,090,922 - LCFF - 1000-1999 Certificated Salaries \$153,951 - LCFF - 2000-2999 Classified Salaries \$8,387,193 - LCFF - 3000-3999 Employee Benefits \$0 - LCFF - 4000-4999 Books and Supplies \$60,000 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$18,884,283 - LCFF - 1000-1999 Certificated Salaries \$161,125 - LCFF - 2000-2999 Classified Salaries \$8,658,031 - LCFF - 3000-3999 Employee Benefits \$3,736,079 - LCFF - 4000-4999 Books and Supplies \$1,965,750 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

broad offering of arts curriculum and programs.

ELEMENTARY

Quartiles	Index Range	AEI 2.0 Number of Schools
1	0-15	51
2	16-21	143
3	22-29	182
4	30-47	127

SECONDARY

Quartiles	Index Range	AEI 2.0 Number of Schools
1	0-30	11
2	31-45	72
3	46-56	87
4	57-95	108

A schools AEI quartile level is determined through the use of district data and a short electronic survey completed by a principal (or designee) that assesses where and how the arts resources and supplies are being used in a school. Factors include:

- Number of full time equivalent credentialed arts instructors
- Arts instructional time per week
- Number of arts disciplines offered
- Additional arts instruction within or beyond the school day
- Additional arts instruction providers
- Sources of additional arts funding
- Number of students receiving additional arts instruction services
- School allocation from general budget for the arts
- Funding sources for general supplies and/or resources
- Equipment and facilities to support arts offerings
- Arts professional development provided to staff members
- Student Equity Index (Poverty, English Language Learners, Foster Care, Homeless

	<p>Youth)</p> <ul style="list-style-type: none"> • Title I % <p>All schools in the district receive allocations based on the AEI. Additional information about the AEI may be found at: https://achieve.lausd.net/Page/13380. Additional information about the AEI allocations may be found at: https://achieve.lausd.net/Page/13400.</p> <p>The effectiveness of this use of supplemental funds because a comparison of the AEI for the years 2015-16 and 2017-18 shows that there is an improvement in AEI quartiles for schools, especially those in these lowest two quartiles of schools (quartiles 1 and 2). The basis of these changes directly connects to evidence from the school site that the quality of arts education programs have improved by the factors used on the AEI including student access to arts instructional time, the number students receiving additional arts instruction, and the number of arts disciplines offered.</p> <p>Every school in the district provided arts classes from highly qualified certificated teachers. The list of programs at every school are listed in the LA Unified Arts Programs 2019 document that may be downloaded at the following website: https://achieve.lausd.net/Page/13308.</p>		
--	---	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

For 2018-19, LA Unified implemented the actions for this goal with fidelity. Some highlights of the implementation of these actions include:

- Served over 7,000 foster youth through counselors in the Foster Youth Support Plan
- Implemented adopted programs and services under the 2018 Master Plan for English learners and Standard English learners
- Delivered mandatory professional development for all elementary through high school teachers the programs and instruction described in the Master Plan
- Revised secondary literacy intervention program to include a diagnostic assessment to identify students in grades 6-10 that may need additional Tier II intervention
- Implemented new Tier II literacy intervention curriculum in four high schools focused on targeted instruction on reading skills, academic vocabulary, speaking and listening skills, writing and social emotional learning skills, with plans to expand to 15 more schools in 2019-20
- Expanded dual language programs to 137 across the district including target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic
- Expanded 8 California state part-day preschool programs to full day with plans to add three more in the next year
- Increased the number of schools implementing inclusive practices for students with disabilities to 50 schools in 2018-19
- Provided additional teacher position to assist with class size reduction and offer additional enrichment courses in all middle and high schools and sites with grades 4-6

- Continued implementation of the Arts Equity Index to support programming gaps in high needs schools

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

LA Unified demonstrated incremental student performance growth on the English Language Arts and mathematics Smarter Balanced summative assessments in the 2017-18 school year, with both showing increases in the distance from standard met measure and yellow performance levels for both. The focus on implementing standards-aligned curricula in these content areas as well as continued investments in professional development for early literacy and secondary literacy interventions should continue this positive trend. Schools continue to utilize the Smarter Balanced interim assessment blocks to align the rigor of classroom instruction with the expectations of the state assessments. Local Districts and schools have provided feedback on ways to improve reporting on the results of interim assessments, and the District has continued to work with state assessment staff to improve the reporting features. Based on initial feedback from schools implementing Cognitively Guided Instruction (CGI) to improve math performance in the elementary grades, the Division of Instruction began increasing supports for implementing CGI practices in schools during the 2018-19 school year through professional development and partnerships with CGI experts. Feedback from teachers on CGI implementation and professional development indicate the positive impacts on math instruction and alignment with state assessment expectations.

The DIBELS early literacy assessment continues to be a focus of elementary schools as teachers are trained in the use of those results to inform instructional practices through the Early Language and Literacy plan (ELLP). Feedback from Local District and school leaders on the ELLP indicate a continued need to improve school-wide implementation of these practices, so the District will continue to support professional development for school teams and teachers to ensure teachers have the resources and understanding to utilize DIBELS results to differentiate instruction for students.

The performance of English learners continue to be a focus of schools as the 21% reclassification rate was a higher rate than the 2017-18 target of 20%. The percentage of English learners who did not reclassify within five years was 17%, meeting the target of 17% for the 2017-18 school year. The Multilingual, Multicultural Education Department (MMED) continues to implement the English Learner and Standard English Learner Master Plan (accessible at: <https://achieve.lausd.net/Page/14743>) to ensure effective instruction for these students. Based on feedback from Local District English learner administrators and school site coaches, MMED continues to refine its supports and professional development offerings to improve school site implementation of Master Plan elements, particularly integrated English Language Development supports.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 2 Action 4 Reed Investment Schools will be ending effective June 2019 - funds for these schools will be folded into Goal 1 Action 5 School Autonomy through the Student Equity Needs Index, allowing schools to have greater flexibility in allocating funds for school-determined needs.

Goal 2 Action 8 Supporting Integrating Special Education Students into General Education - this program was expanded from the identified schools in the prior year to additional elementary through high schools in the 2018-19 school year. Recognizing that these inclusive practices are valuable for improving the achievement of students with disabilities, this program will be expanded to more schools in the 2019-20 school year and will be folded into Goal 2 Action 7 Special Education.

(Separate from LCFF Funding, and not contributing to increased/improved services for high needs students) LA Unified received approximately \$12 million through the Low Performing Student Block Grant to address the achievement of students who were not meeting academic achievement standards on the state assessments (and who are not students with disabilities, English learners, foster youth or low income). The district has developed a plan to provide per pupil allocations to schools with four or more identified students in order to allow them to develop a plan for how to serve these students. A menu of recommended services will be provided to all schools to guide their decisions. Schools with three or fewer identified students will receive support from their Local Districts to utilize data from interim assessments to improve interventions and supports. As part of the state reporting requirements, the district has set aside funds for an external evaluator to analyze the effectiveness of this program in improving the achievement of the identified students by the conclusion of this grant timeline in 2021.

Goal 3

100% ATTENDANCE

State and/or Local Priorities Addressed by this goal:

State Priorities: 5. Pupil engagement
Local Priorities:

Annual Measurable Outcomes

In addition, the staff participates in the following district campaigns/activities focusing around the following:</p> <ul style="list-style-type: none"> • We Are One: Standing With Immigrant Families • Public Charge • Census 2020 • Deferred Action for Childhood Arrivals (DACA) • Community Resource Fairs Discussing: <ul style="list-style-type: none"> ◦ Immigration rights ◦ Health and Wellness rights ◦ Housing rights ◦ Educational rights • Deferred Action for Childhood Arrivals (DACA) <p>We Are One L.A. Unified is a District-wide campaign aimed at building an awareness around the rights of students, their families and District personnel, regardless of immigration status. Furthermore, this campaign provided education and resources for immigrant families in the following areas:</p> <ul style="list-style-type: none"> • Constitutional (Legal rights) • Census 2020 Overview • Public Charge • Access to Health and Wellness • Housing Rights and Protections • Educational Rights and College Resources <p>The We Are One workshops were co-facilitated by a District Student Health and Human Services (SHHS) staff member along with a representative from a partner legal organization. This effort provided parents an opportunity to connect with the services offered from local legal agencies. Each parent participant received a folder with resources discussed in the workshop, a family preparedness plan template, a Red Card (legal rights card) and an evaluation. Overall 98% of workshop participants (426/436) reported being very satisfied/satisfied with the content provided by the SHHS staff member(s).</p> <p>The Student Involvement, Development and Empowerment Unit engaged in a number of projects throughout the year to give voice to student</p>	<p>Other Operating Expenses</p>	
--	--	---------------------------------	--

	<p>perspectives and needs. The Unit convened three Associated Student Body district-wide meetings to dialogue with District policymakers, present student thoughts and perspectives, engage in leadership training as well as design projects that sought to improve student achievement at their school sites. In addition, the Unit selected and supported the student member on the Board of Education to serve as the voice of students on District policies. The student board member was integral in supporting changes to the District dress code policy. The Unit also convened Student Conferences for Young Women and Young Men of Color to offer strategies to students that will lead to improve student achievement and increased readiness for college.</p> <p>During the 2018-19 school year, counselors provided services to approximately 7,000 foster youth across the district. These youth attended schools in all areas of the district and often experience a high rate of transiency. District-wide strategies were employed to more fully engage the youth with their school communities and the community at large through Foster Youth Leadership Councils, College Tours, Outdoor Education camps at Clear Creek and Point Fermin, the Foster Youth Shadow Day and the Pathways to College Celebration event. 323 students from 45 LA Unified high schools participate in the Foster Youth Leadership Council. Post-surveys and anecdotal data from student participants in these events indicated satisfaction with the events, appreciation for being exposed to new experiences and enthusiasm for the events to continue in the future. Parent and Caregiver Training for parents of foster youth was provided across the district to educate about the foster youth system and the educational rights and graduation exemptions available to their students and to make them aware of resources and supports that are available to them. Participants from the training indicated increased knowledge about the educational system and how to access academic and other community services for their students.</p>		
--	--	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified continues to implement a variety of actions to strive for 100% attendance across schools. The district has developed data dashboards for school and Local District leaders to monitor student attendance throughout the year, and school and district investments have been made to support programs that recognize students for positive attendance outcomes and to support students and families that have data that indicate challenges with attendance. The comprehensive array of physical, social emotional and mental health service supports and resources continue to be provided to address the needs of the districts most vulnerable low income and foster youth. About 24,700 immunizations and 75,384 medications have been administered by staff, and staff enrolled 2,917 students and family members in no-cost health insurance plans. Wellness Clinics serve as school-based hubs for clinical mental health services, and at mid-year about 1,947 students had received services and 21,704 counseling hours were provided at these Clinics.

The Homeless Youth Program supported PSA counselors in providing training to over 2,000 designated school stie homeless liaisons this year. The LA Unified School Enrollment Placement and Assessment (SEPA) Center provides support to all families and to newly arriving families to assist with the school enrollment process, access to medical and mental health services, housing, linkages to legal services, and other district and community resources. LA Unified also implemented a We Are One campaign to support undocumented students and families.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

For 2017-18, the overall district performance on the metrics for this goal were positive. With 66.9% of students attending school 96% or more (172-180 school days), a measure of positive attendance that the district monitors and provides school leaders with data dashboards to track throughout the school year. Feedback from school and Local District leaders indicate that investments in supports through this Goal will continue to be important to support specific student populations (e.g., foster youth) as well as overall attendance. The district performance on chronic absenteeism rates was orange on the state dashboard, with 10.3% of students in grades K-8 chronically absent which was similar to the rate in 2016-17. Staff attendance rates, another measure of school climate, was 78.0% for staff attending 96% or above, meeting the target for the 2017-18 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Goal 4

PARENT, COMMUNITY AND STUDENT ENGAGEMENT

State and/or Local Priorities Addressed by this goal:

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Annual Measurable Outcomes

Expected		Actual
Percentage of Students Who Feel a Part of Their School (Question on School Experience Survey)	2018-19 All Students 89%	All Students 68.0%
Parent/Caregiver Participation on 2018-19 School Experience Survey	All Parents 64%	All Parents 46.0%
Percentage of Schools Training Parents on Academic Initiatives by Providing a Minimum of Four Workshops Annually	2018-19 All Schools 98%	All Schools 76.4%
Percentage of Parents Who State: My school provides resources to help me support my child's education.	2018-19 All Parents 95%	All Parents 90.0%

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Parental Involvement</u></p> <p>Provide parent training, learning opportunities and workshops:</p> <p>Supporting Common Core State Standards reinforcement at home, EL reclassification and progress monitoring, graduation requirements and college-readiness, importance of school experience survey, and social-emotional support. 10% of Common Core State Standards funds are provided for parent involvement in the implementation of the Common Core State Standards.</p> <p>Provide more resources to support parent engagement at the local level: Increase parental engagement, training, and workshops across the district.</p> <p>Resources are distributed to school-sites through a prioritization methodology utilizing the Districts school equity index</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>The Office of Parent and Community Services (PCS) partnered with the Local District Parent and Community Engagement (PACE) units to provide parent engagement activities to families throughout the District. Multiple parent workshops were offered at various school sites with a focus on sharing Common Core instructional strategies, showing parents how the standards build upon each other as students move from one grade level to the next. Parents were also taught how to apply Common Core Standards in every day activities with their children. In addition, parents learned about college preparedness for students and Linked Learning programs, digital platforms like Power My Learning, and the California Assessment of Student Performance and Progress (CAASPP). Workshops also included the following: Math Practices, Fun with Multiplication, Fun with Fractions, DIBELS, EL Reclassification, A-G Graduation Requirements, and the Importance of the School Experience Survey. Parents also received training on supporting English Learners and Standard English Learners through sessions on the 2018 EL and SEL Master Plan. The Local District Parent and Community Engagement (PACE) units collaborated with the Local District Math, English Language Arts, English Learner and Next Generation Science Standards Coordinators to present workshops at monthly Parent and Family Center Staff meetings at</p>	<p>\$517,496 - LCFF - 1000-1999 Certificated Salaries \$2,199,755 - LCFF - 2000-2999 Classified Salaries \$529,457 - LCFF - 3000-3999 Employee Benefits \$4,378,212 - LCFF - 4000-4999 Books and Supplies \$290,176 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$533,071 - LCFF - 1000-1999 Certificated Salaries \$2,038,714 - LCFF - 2000-2999 Classified Salaries \$426,821 - LCFF - 3000-3999 Employee Benefits \$992,199 - LCFF - 4000-4999 Books and Supplies \$268,422 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

	<p>various school sites. Parents and school Parent and Family Center Staff were trained on the Parent Portal and Schoology to monitor their childrens achievement, leading to a better understanding of students progress through the A-G requirements. The decrease in actual expenditures for books and supplies was shifted to Goal 1 Action 5 School Autonomy as a part of the Student Equity Needs Index to provide additional flexibility for schools to allocate resources for parent engagement.</p> <p>This Action has been effective in achieving the LCAP goal as evidenced by a 6% increase in parents reporting on the School Experience Survey from Fall 2018 that their schools provide them with resources to help them support their childrens' education. Many of these resources are provided by school staff through the Parent and Family Centers in schools. In addition, on the six survey items pertaining to Overall Parent Engagement, 74% of high school parents, 79% of middle school parents, and 87% of elementary parents responded positively regarding parent engagement in their schools.</p>

<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Parental Involvement</u></p> <p>Provide parent training, learning opportunities and workshops:</p> <p>Central staffing at the Parent, Community and Student Services. Provide materials and training to Parent and Family Center Staff to support parents of special needs and other subgroups of students.</p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>The Office of Parent and Community Services (PCS) provided guidance and training monthly to the Local District Parent and Community Engagement (PACE) units. The Local District PACE Units provided materials and training to Parent and Family Center Staff to engage parents of students with special needs and other student groups. In addition, PCS provided instructional materials and training to certificated staff who support Parent and Family Center Staff in order for the parent centers to be inclusive of all families, particularly families of students with special needs and English learners and Standard English learner</p>	<p>\$40,488 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$71,774 - LCFF - 2000-2999 Classified Salaries</p> <p>\$57,315 - LCFF - 3000-3999 Employee Benefits</p> <p>\$21,070 - LCFF - 4000-4999 Books and Supplies</p> <p>\$12,034 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$55,455 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$71,894 - LCFF - 2000-2999 Classified Salaries</p> <p>\$56,008 - LCFF - 3000-3999 Employee Benefits</p> <p>\$13,917 - LCFF - 4000-4999 Books and Supplies</p> <p>\$10,299 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

	<p>students. PCS provided mandatory training schools that participated in the Parent and Family Center Improvement Program. The parent center staff received training on using bilingual reading materials with parents, strategies for developing parent leadership through conversation, parenting resources, and materials to support a college-going culture. Additionally, participating schools were provided with instructional materials for preschool aged children who can be engaged in instructional activities while family members participate in workshops in the Parent and Family Center.</p> <p>PCS and the Local District PACE teams hosted Local District study groups to engage and support parents. The English Learner Advisory Committee (ELAC) Study Group, Local Control and Accountability Plan (LCAP) Study Group and the Title I Study Group were offered quarterly and/or monthly throughout the Local Districts. The ELAC Study Groups focused on supporting the parents of English learners. The LCAP Study Groups focused on seeking input from parents regarding the six LCAP goals. The Title I Study Groups provided parents with training on state, federal and local parent engagement strategies and opportunities to provide input on the Title I mandates. In addition, the Local District PACE units offered Modified Consent Decree Parent Training Sessions at the Local Districts and provided parents of students with special needs with academic and social-emotional support workshops at their school sites. The PACE units led Parent Portal training sessions so parents of students with special needs could access their students Individualized Education Plans online.</p> <p>Schools are required to document the provision of a minimum of four academic workshops to their families annually. Preliminary data shows that approximately 80% of schools uploaded documentation for the four workshops in 2018-19, which is on par with results from the previous school year. In addition, the number of parents engaged with providing feedback on the LCAP was increased significantly in the 2018-19 school with the implementation of the LCAP Study Groups.</p>		
--	--	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including

performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified values the partnership with parents, community and students and continues to engage these stakeholders in supporting the success of students. For the 2018-19 school year, all schools were required to facilitate four Local Control and Accountability Plan parent workshops and five English Learner Advisory Committee parent workshops. The LCAP workshops addressed graduation requirements (A-G course requirements), attendance best practices, and two instructional workshops that schools could select from a menu on the Parent and Community Services website that included math practices, English Learner Development standards, high frequency words, language development, reading comprehension, supporting home learning for all students, the English Learner Master Plan, and the DIBELS early literacy assessment for grades K-2, college and career readiness in elementary/middle schools, and social-emotional learning and behavior. The ELAC parent workshops included the Master Plan, attendance best practices, comprehensive needs assessment, the single plan for student achievement, and the language census.

This year, the district also engaged Local Districts in convening 41 stakeholder study groups that facilitated parents and community members in reviewing the district Local Control and Accountability Plan and providing feedback to support revisions and development of the 2019-20 LCAP. Two additional meetings were held with community-based organizations in May to capture input from the community on the priorities of the LCAP and the Districts goals. Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were also held from January to June to provide comments to and receive responses from the Superintendent on the LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

2017-18 results district-wide on parent, community and student engagement metrics showed a continuing need for improvements in parent engagement. The percentage of parents who stated my school provides resources to help me support my child's education was 90.0% in 2017-18, just below the target of 93%. For 2018-19, the School Experience Survey had 83% of high school parents, 85% of middle school parents, and 89% of elementary school parents agreed. Parent response rates on the School Experience Survey were 39% for high schools, 46% for middle schools, and 53% for elementary schools. While only 68.0% of students felt a part of their school on the School Experience Survey in 2017-18, the 2018-19 results show improvements with 81% of elementary students, 68% of middle school students, and 61% of high school students agreeing with that statement. This difference may have been the result of changing the timeline for completion of the survey in 2017-18. The district continues to provide greater flexibility and supports for schools to achieve the target of having parents trained on academic initiatives with a minimum of four workshops annually.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

The funding for Goal 4 Action 1 Targeted Parental Involvement has been reallocated to Goal 1 Action 5 School Autonomy under the Student Equity Needs Index to allow for greater flexibility for schools to utilize these supplemental and concentration funds to support school site needs. The metrics for this goal have not changed.

Goal 5

ENSURE SCHOOL SAFETY

LASPD staff were assigned to schools to support school staff and communities. In general, one or more officers were assigned to each high school and middle school based on past activity with support provided to elementary and other school sites as needed.</p> <p>The LASPD School Safety Initiatives Division (SSID) was created in April 2018 in response to the Board resolution, <i>Safeguarding Our Schools: Demanding Common Sense Gun Laws and Best Practices to Protect Our Students and Staff</i>, and Board resolution, <i>Protecting our Students and School Sites</i>. The SSID has been responsible for the following during the 2018-19 school year:</p> <ul style="list-style-type: none"> • Safe Schools Task Force (SSTF) - 	<p>\$35,073,117 - LCFF - 2000-2999 Classified Salaries</p> <p>\$21,916,401 - LCFF - 3000-3999 Employee Benefits</p> <p>\$232,074 - LCFF - 4000-4999 Books and Supplies</p> <p>\$128,666 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$434,193 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$45,436,838 - LCFF - 2000-2999 Classified Salaries</p> <p>\$23,709,335 - LCFF - 3000-3999 Employee Benefits</p> <p>\$360,801 - LCFF - 4000-4999 Books and Supplies</p> <p>\$74,889 - LCFF - 5000-5999 Services and Other Operating Expenses</p> <p>\$0 - LCFF - 6000-6999 Capital Outlay</p> <p>\$169,567 - LCFF - 1000-1999 Certificated Salaries</p>

Convened stakeholder groups including parents, students, teachers, administrators, other school-based staff, and community organizations, law enforcement experts and District personnel to meet quarterly to review, evaluate and make recommendations to improve the effectiveness of District-wide strategy, safety, and security plans and policies. This group convened its first meeting in September 2018.

- Social Media and Mass School Threats - LASPD has improved upon its existing Weapons Reporting Hotline to include an updated Public Safety Announcement utilizing the "If You See Something, Say Something" campaign to report suspicious activity on and around LA Unified school campuses, and has begun airing in early October 2018 on KLCS-TV.
- Active Gunfire Training - LASPD's Critical Response Team (CRT) has facilitated "Active Gunfire Training" for administrators and officers on a continual basis through the year. LASPD personnel have trained 181 school sites and offices and 7,781 LA Unified personnel since January 2018.
- School Site Evaluation Team - LASPD has worked with Local District Operations staff, Division of District Operations and Facilities Services to make recommendations for design-related security enhancements specific to school sites. As of May 2019, LASPD personnel have

	<p>completed 34 school site and office vulnerability assessments.</p> <ul style="list-style-type: none"> • Mental Health Evaluation Team (MHET) - The District's MHET is a partnership between LASPD and Student Health and Human Services-School Mental Health (SMH) that has a team approach to triage and assess students/staff for danger to self/others; locate mental health facilities for mental health intervention transport; and collaborate with school, Local District, and school staff personnel to ensure the safety of the students and any other individuals involved. Since August 14, 2018, MHET has evaluated 52% of the LASPD's nearly 1520 calls for services for mental health intervention resulting in 222 transports of students or adults to facilities for further evaluation.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Restorative Justice Unit continued the training plan that began in 2014-15 and will lead to district-wide full implementation of Restorative Justice in schools by 2020. Since 2014-15, 783 schools have been trained in Restorative Justice community building circles, empathy and team building, defusing disruptive behavior and repairing the harm and re-entry circles. During the 2018-19 school year, 162 cohort 4 schools were trained in Tier II and II practices as well as repairing the harm and re-entry circles. During this year, 142 cohort 5 were trained in Tier I practices including community building circles, empathy and team building and defusing disruptive behavior. The 65 Restorative Justice teacher advisors supported schools directly in implementation of these practices to improve the culture and climate in classrooms. Six Local District Restorative Justice advisers provided professional development and support to school staff and leaders. Additional information about the Restorative Justice Unit may be found at: <https://achieve.lausd.net/restorativejustice>.

The Los Angeles School Police Department (LASPD) assisted students, teachers, administrators and the community in providing a safe environment for learning in schools. Officers were assigned to school campuses and patrolled the surrounding areas, and School Safety Officers were also

assigned to school campuses and parking enforcement. The LASPD shares jurisdiction and interacted with over 13 municipal and county law enforcement and emergency services agencies during the school year. Campus officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in student mentoring programs, partake in study sessions with at-risk students, participate in anti-gang lecture/seminars, and ensure for the safety of students. Furthermore, the LASPD has a robust youth services component that includes the Police Explorers and Police Academy Magnet Schools (PAMS). Officers receive training on Restorative Justice, Behavior Safety Emergency Training (B-SET) and Implicit Bias. Officers interact with students on a daily basis during arrival and dismissal, nutrition and lunch as well as the numerous special events with Anger Management Program for Students (AMPS) and Ready and Able for Middle School (RAMS). Additional information about the LASPD may be found at: <https://achieve.lausd.net/laspd>.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

District-wide performance on the metrics for School Safety showed that the district is meeting or nearly meeting most targets. The single student suspension rate (in and out of school) was 0.47% in 2017-18, and the target for 2018-19 is 0.4%. Instructional days lost to suspension remains low at 4,636 for 2017-18, well below the target of 5,667 for that year. Input from school site staff and Local Districts indicates that the expansion of Restorative Justice implementation has contributed to alternative approaches to student discipline practices.

The percentage of students who feel safe at school was 84% in 2017-18, and target for 2017-18 was 80%. For the 2018-19 School Experience survey:

- 90% of high school students felt safe on school grounds during the school day
- 91% of middle school students felt safe on school grounds during the school day
- 92% of elementary school students felt safe on school grounds during the school day

These results may be contrasted with the extent to which students felt safe in the neighborhood around their schools, which ranged from 77% to 79% for students in the same schools. Within schools, the total number of referrals for 2017-18 was 62,878 compared to 56,196 in 2018-19 as of June 1. The expulsion rate remains low at 0.02% in 2017-18 compared to the target of 0.01% in 2017-18 and 2018-19.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees. For Goal 5 Action 2, expenditures exceeding the budgeted amounts for school police funding represent changes in salaries, benefits and additional overtime hours for staff. Events and community occurrences throughout the year dictated an additional need for school police presence around school sites.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

<p><u>Support</u></p> <ul style="list-style-type: none"> Teacher Growth and Development Cycle 	<p>develop a pipeline of highly qualified staff.</p> <p>The Professional Learning and Leadership Development staff continue to support implementation of Educator Development and Support: Teachers (EDST) that supports the development of increasingly high quality teaching and learning practices. This process includes observations, conferencing opportunities, professional goal setting activities, and a series of reflection activities throughout the year. Administrators are required to obtain certification and engage in regular calibration of their evaluation processes. Additional information about EDST may be found at https://achieve.lausd.net/Page/11782. Approximately 31% of teachers were evaluated by a school leader by the end of the 2018-19 school year. 85% of active teachers in 2018-19 have been evaluated in the past five years. Of the 8,077 teachers evaluated using EDST in 2018-19, 4% were rated below standard, 76% were meeting standard, and 20% were exceeding standards. Professional development and coaching district-wide continue to focus on the Teaching and Learning Framework that is aligned with EDST in order to reduce the percentage of teachers rated below standard and to increase the percentage of teachers rated at exceeding standards.</p>

<u>On-going Major Maintenance</u>	<u>On-going Major Maintenance</u>		
Targeted maintenance to school sites with greatest need.	Building on the plan from last year, M&O utilized newly created teams to provide additional support at schools. The Tiger Teams, comprised primarily of custodians, provided additional cleaning and other services over the weekend. Strike Teams,		
Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be			

established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

which include various craftworkers, performed repair and renovation projects. This past year, the Tiger Teams visited approximately 667 school sites to address areas specifically requested by the principal. Typical work performed included exterior perimeter cleaning, restroom deep cleaning and gardening. Strike Teams performed work at approximately 200 schools. They can work several days and up to two weeks, depending on the school size and type, to address outstanding service calls and other needed repairs. Seven Strike Teams were established to address service calls at schools high percentages of unduplicated count students. In 2018-19, Strike Teams completed over 7,000 service calls including air-conditioning repair, ceiling tile replacement, and door repairs. With Teams spending one week at elementary schools and two weeks at secondary schools, service calls at these schools were addressed immediately to help ensure campuses were safe, nurturing and welcoming to staff, students and parents. Schools with higher percentages of low income, English learners and foster youth are prioritized to receive these services.

This coming school year, M&O will be expanding the Strike Teams to 42 community complexes with dedicated journeymen and gardeners assigned to each complex. The team will be managed by a Complex Project Manager and journeymen and gardeners will be supervised by a Maintenance Supervisor. CPM will be working closely with site administrators to ensure repairs are prioritized and campuses are well maintained.

Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Expanded Access to Meals</u></p> <ul style="list-style-type: none"> • Expansion of the breakfast in the classroom program • Supper offerings 	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>The District served Breakfast in the Classroom at 96% of our schools which provided the opportunity for every student at the sites to eat breakfast at no charge. At the other sites the District served breakfast before the bell or at nutrition break in coordination with the school schedules. School administration and teacher support for the programs has been critical for the program to be in compliance.</p> <p>Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge, however to be in compliance, no meals can be taken off campus. Beyond the Bell staff works in coordination with Food Services to monitor the program and school administrator support will help encourage more students to participate and keep the program in compliance. With over 18,500 students in a homeless situation, 23,500 foster kids and more than 79% of students qualifying for free/reduced meals, many students face food insecurity and encouraging them to participate in the program available to them continues to be a goal of the district.</p> <p>Food Services added another 100 schools to the Community Eligibility Program (CEP) which provided access to meals at no charge to another 40,000 students. It has been seen that when students are not required to pay, more students participate. The District's Direct Certified student percentage increased from 51% to 53%, so more families qualified directly for the meal program without having to submit an application.</p>	<p>\$1,600,000 - LCFF - 4000-4999 Books and Supplies</p>	<p>\$1,647,148 - LCFF - 4000-4999 Books and Supplies \$292,091 - LCFF - 1000-1999 Certificated Salaries \$47,786 - LCFF - 2000-2999 Classified Salaries \$45,871 - LCFF - 3000-3999 Employee Benefits \$59,950 - LCFF - 5000-5999 Services and Other Operating Expenses \$5,200 - LCFF - 6000-6999 Capital Outlay</p>

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All actions for this goal were implemented as described. The Human Resources division continues to increase the diversity of the teaching staff district-wide to reflect the diversity of the students served in schools. The 2018-19 new hire LA Unified teacher cohort includes 46% Hispanic/Latinx, 11% Asian, 9% Black, 3% Filipino compared to the LA County teacher demographics of 32% Hispanic/Latinx, 8% Asian, 8% Black, 2% Filipino. In addition, approximately 31% of teachers were evaluated by a school leader by the end of the 2018-19 school year.

LA Unified continues to provide additional maintenance and operations support to schools, with Tiger Teams comprised primarily of custodians providing additional cleaning and other services over the weekend at approximately 650 sites. Strike Teams, which include various craftworkers, performed repair and renovation projects at approximately 200 schools.

Breakfast in the Classroom was served at 96% of schools, providing an opportunity for every student at sites to eat breakfast at no charge. Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All targets were met or nearly met consistent with the statutory requirements that govern teacher assignments, instructional material availability and facilities conditions. The Human Resources Division continues to strive for 100% of teachers are appropriately credentialed for the students they are assigned to teach, with 99.3% in 2017-18. For the Districts support for students with disabilities, the percentage of children whose eligibility for special education services were determined within the 60 days in the guidelines was 99.96%, far exceeding the targeted 89% of 2019-20. In addition, 92.5% of students with disabilities received services as specified in their Individualized Education Plans (IEPs) compared to the 2018-19 target of 90%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. For Goal 6 Action 3, budgeted amounts versus expenditures identified vary due to the volatility of operational costs, such as utility usage and rates, telecom and fleet maintenance, etc.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal or actions.

Stakeholder Engagement

LCAP Year: 2019-20

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LA Unified utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District.

During the fall and winter of the 2018-19 school year, the District engaged in extensive stakeholder engagement meetings in communities around the district to receive feedback on current district progress and recommendations on how to improve outcomes for students. This community engagement included 3,000+ participants including representatives from bargaining units, principals, other school site administrators and personnel, classified staff, students and community members participating in 150+ focus groups across the district. Feedback from these groups was categorized into three broad themes of supporting teachers, empowering principals and engaging families and communities. Some examples of specific recommendations included reducing class size, adding counselors, nurses, librarians and support staff to work with teachers, increase dollars targeted toward high need students, matching local district support to communities of schools, building the capacity of school leaders, moving toward greater budget flexibilities, removing barriers for family engagement, and meaningful engagement with parents as partners. Throughout the fall and winter, District personnel engaged United Teachers Los Angeles, the Associated Administrators of Los Angeles, and other bargaining units through negotiations and discussions that provided opportunities for these bargaining units to share their priorities for funding allocations and the progress of the District in meeting its goals and targets.

Special priority was made this year to meet with a broader base of parents of the targeted student populations served through the LCAP, and to provide these parents with a deeper understanding of the plan. The District made a conscious effort to expand the timeline of engagement in the prior school year in order to better utilize parent feedback in the development of the LCAP. The District's engagement efforts began in October, with District staff collaborating to present the expenditures, actions and services. A total of 41 meetings were held from October through February by the District with a focus on capturing feedback for the development of the LCAP. Participants included representatives from school site councils and English Learner Advisory Councils across each Local District.

The Superintendent was in regular consultation with the Associate Superintendent of Special Education and the Special Education Local Plan Area Administrator throughout the school year to determine specific actions to support students with disabilities in the LCAP. The Division of Special Education received input from the Community Advisory Committee (CAC) for Special Education from ten meetings held from August 2018 through May 2019. In this meetings, Division of Special Education staff shared various data and engaged in discussions related to the performance of students with disabilities on state dashboard metrics, Modified Consent Decree progress, and other data related to the progress of students with disabilities across the district. As a result of these consultations and consultations with Local District, Central Office and school staff, the Division of Special Education recommended embedding the following in the LCAP: increase the percentage of time students spend in the Least Restrictive Environment, conducting assessments on time, and ensuring students are receiving their services as specified in their Individual Education Plan. Feedback from the CAC stressed the importance of focusing on inclusion with making sure the proper professional development was available to staff and parents.

Two meetings were held with community based organizations in May to capture input from the community on the priorities of the LCAP and the District's goals. Community-based organizations included various groups representing student and staff stakeholders including Public Counsel, Youth Policy Institute, Partnership for Los Angeles Schools, Leaders for Educational Equity, CHIRLA, Educators for Excellence - Los Angeles, Asian Americans Advancing Justice, Children's Defense Fund - Los Angeles, CARECEN, Advancement Project, UCLA Center X, MALDEF, United Way of Greater Los Angeles. At these engagement sessions, stakeholders were also asked to provide strategies that would strengthen the plan and will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth.

Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were held from January to June. District personnel explained and presented drafts of the LA Unified's LCAP and Annual Update at these advisory committee meetings. In particular, District personnel focused on key programs funded by new and ongoing investments made in 2018-19 and, in some cases, provided progress updates on targets and strategies established in the 2017-18 LCAP. In addition, the District's parent committees meetings in April/May were able to review year-end data from 2017-18 and any available current year data as well as review the district goals and actions for 2019-2020. For the 2018-19 LCAP, the School Experience Survey results also informed school perceptions and needs for students, parents and staff. The annual student School Experience Survey continues to be a main source of student engagement and feedback on the effectiveness of district-wide initiatives and focus areas. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources: lcff.lausd.net and achieve.lausd.net/budget.

Permissible within the CA Education Code, the LAUSD DELAC is serving in place of the English Learner Parent Advisory Committee (ELPAC). The DELAC is comprised of 48 school English Learner Advisory Committee Chairpersons who are elected from their peers. They serve on staggered two-year terms.

The PAC continued in its fifth year with elected governing officers. In 2018, members on the PAC were elected from each of the six LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Two guardians representing Foster Youth were also elected from each region across the District. The parents of English Learner, Foster Youth, Low-Income students and the parents At-Large elected their representatives, respectively. In addition to these groups of parents, seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 55 members of the PAC serving on staggered two-year terms.

The Superintendent provided written responses to the both the PAC and DELAC comments that were developed throughout the 2018-19 school year and submitted to the Superintendent in May of 2019. Responses were reviewed by each committee.

The Board of Education held a public hearing for the LCAP on Tuesday, June 11 and the Board adopted the LCAP on June 18, 2019.

All parent comments and Superintendent responses may be found at www.achieve.lausd.net/lcap.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

The 41 Local District LCAP study groups offered the opportunity for parents and community members to engage in deeper dives into the actual LCAP goals and actions and to provide feedback. Themes from the feedback from these study groups included:

- Continued focus on college and career readiness for all students - continuing Goal 1 Action 9 A-G Immediate Intervention Plan to incorporate initiatives that were previously funded through the state College Readiness Grant
- Requests for additional focus on struggling students and closing achievement gaps for low performing student groups - modified Goal 1 Action 5 School Autonomy resulted in additional funds and flexibility provided to schools identified as having more low performing student groups, also incorporation of new state Low Performing Student Block Grant funding allocations to schools
- Recommendations to continue implementation of the English Learner Master Plan to improve reclassification rates and English learner performance - continuing Goal 2 Action 9 English Learner Supports continues supports for the ongoing implementation of the English Learner/Standard English Learner Master Plan and the implementation of instructional resources that include English Learner supports
- Increase engagement of parents as partners through trainings on topics most relevant to student needs (e.g., technology training) - continuing Goal 2 Action 1 and 2 focused on providing resources for parents through the development of trainings and allowing schools to utilize their resources to support parent engagement
- Improve services and supports for students with disabilities to ensure their success - modified Goal 2 Action 7 Special Education to include initiatives around integrating students with disabilities into general education classroom environments to improve the quality of instruction and allow for greater collaboration between general education and special education teachers.

The Parent Advisory Committee and District English Learner Advisory Committee comments to the Superintendent had some of the same themes in common with the Local District study groups. The comments spanned all six district LCAP goals. Some of the highlights of these comments included:

- Requests for increasing college readiness supports for middle and high school students, particularly around the use of Naviance and supports for PSAT and SAT preparation - continuing Goal 1 Action 9 A-G Immediate Intervention Plan has in the past has focused on developing resources which can now be shifted to increasing implementation in schools through professional development and resources
- Recommendations to increase social-emotional learning supports district-wide - several external grants have supported the expansion of social-emotional learning supports from early education centers through the middle grades, while some federal funding has supported trainings on social-emotional learning across the district
- Concern for the performance of special education students and the systems implemented for their success - modified Goal 2 Action 7 Special Education seeks to incorporate more inclusive curricular and instructional practices to improve the performance of students with disabilities, with an increasing number of school staffs being trained to implement these approaches

- Increase the number of counselors in schools to support college and career readiness as well as reduce chronic absenteeism - modified Goal 1 Action 5 School Autonomy to allow schools to reallocate resources beyond the normed counselors to increase the number of counselors district-wide
- Recommendations to continue restorative justice program and supports for effective school implementation - modified Goal 5 Action 1 School Climate and Restorative Justice Program to provide schools with greater autonomy in how to effectively implement this program in schools, particularly so that schools can tailor their investments in staff that meets the needs of their school's implementation
- Support for continued school safety supports and recommendations for building positive relationships between school police and school communities - continuing Goal 5 Action 2 District Safety Operations discussions between school police and parent committees continue to emphasize this request, and school police continue to invest in training and supports for their staff in building those positive relationships
- Recommendations to have the district monitor and evaluate the effectiveness of programs implemented in the LCAP - modified Goal 1 Action 5 School Autonomy, the District plans to set aside funds, supplemented through an external grant, to invest in an external research partner to conduct an analysis of the effectiveness of LCFF funded initiatives, and the Student Equity Needs Index in particular, with a Request for Proposal process to be conducted in fall 2019 and the evaluation beginning in January 2020

The comments above were also echoed by the community organizations in the two meetings held with representatives from those groups. Additional recommendations from the community organizations included:

- Continue funding and implementation of Foster Youth Achievement program - modified Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers, adjustments in program have been planned based on feedback from school site leaders who desired a more integrated approach to supporting students within schools, so the funding and implementation of this program will continue with more school-site based counselors who can coordinate more with school site leaders and teachers, thus improving the quality of supports for students
- Provide evaluations on the progress of implementation and effectiveness of district programs - modified Goal 1 Action 5 School Autonomy, the District plans to set aside funds, supplemented through an external grant, to invest in an external research partner to conduct an analysis of the effectiveness of LCFF funded initiatives, and the Student Equity Needs Index in particular, with a Request for Proposal process to be conducted in fall 2019 and the evaluation beginning in January 2020
- Continue funding Student Equity Needs Index and seek ways to minimize the impact of changes in school allocations - modified Goal 1 Action 5 School Autonomy, the adjustments in the Student Equity Needs Index allocations in 2019-20 include a hold harmless allocation to ensure that schools maintain at least the same funding that they received in 2017-18
- Ensure adequate investments for targeted student populations are monitored and transparent - amendments to this Local Control Accountability Plan provide more transparency in the 2017-18 expenditures and the 2018-19 budgeted expenditures for these investments, and the LCAP revision process for the 2019-20 school year will seek to realign Goals and Actions to provide clearer monitoring and transparency in these investments

Student feedback occurred during the focus groups and student leadership meetings held throughout the year as well as through the district-wide school experience survey that was completed by 74% of high school students, 86% of middle school students, and 92% of elementary school students. Overall results from the extensive surveys are available at achieve.lausd.net/Page/15606. From the survey, only 42% of elementary students agreed that "kids at this school are kind to each other," and only 30% of middle school students and 39% of high school students, which continues to emphasize the need to focus on Restorative Justice community-building practices across schools (continuing through Goal 1 Action 5 School Autonomy - schools continue to identify through their Targeted Student Population plans how their resources will be allocated to support counselors, Psychological Social Workers and others to support implementation of Restorative Justice). This focus on school climate was emphasized in focus groups and student leadership meetings. At the secondary level, promising results from the survey included 84% of high school students knowing which A-G courses they need to pass with a "C" or better to get into college. However, both middle (62%) and high (64%) school students had lower percentages of students agreeing that adults at their schools have talked to them about different college choices for their futures. Through the continuing Goal 1 Action 9 A-G Immediate Intervention Plan, specific initiatives are focused on improving supports for students and parents to understand college readiness, and the district will continue to integrate more college readiness initiatives after the conclusion of the state College Readiness Grant in the 2018-19 school year. Focus groups with students and parents along with Advisory Committee comments emphasized the ongoing need to continue to focus on better preparing students for college readiness.

Staff input from focus groups and through input in regular monthly leadership meetings in Local Districts focused on the need for more flexibility in funding rather than having central office policies driving the distribution of resources - as a result Goal 1 Action 5 School Autonomy was increased, with additional flexibilities provided from Goal 2 Action 10 Targeted Instructional Support, Goal 4 Action 1 Targeted Parental Support and Goal 5 Action 1 School Climate and Restorative Justice Program being integrated with the funding with the Student Equity Needs Index to allow decisions on how schools will meet District targets being outlined in their Targeted Student Population Plans after consultation with stakeholders and approval from their Local District supervisors. In addition, feedback from school leaders on the number of different counselors coming and going from their campuses led to shifts in how Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers would be designed so that counselors would be assigned fewer schools but be able to coordinate more closely with school staff to improve supports to students.

The priorities identified in the recommendations above informed the District's Goals and Actions for 2019-20. Investments for English learners, foster youth and low income students are identified in subsequent pages of this document. The LCFF investment priorities reflect this feedback as well as the data analysis of District teams in order to align with target outcomes. Some examples of the impact of this feedback on the LCAP are as follows:

- Goal 1 Action 5 School Autonomy (modified) - Expansion of this Action in 2019-20 focuses on providing additional funding and flexibility for schools to determine how best to improve outcomes for students. This includes expansion of the Student Equity Needs Index (SENI) and maintaining funding levels for all schools in 2019-20. As mentioned in the Goal 1 Action 5 in the Annual Update, each school must complete a plan that outlines their use of these funds and must justify the alignment with supporting low income, English learners and foster youth. Local Districts then ensure implementation of these resources in schools and monitor each school's goals that are aligned with the District LCAP. Schools have primarily directed these resources toward increasing staffing to reduce class sizes and to improve support services for students (e.g., counselors, nurses, and librarians/library aides). In response to feedback, the District will invest in an external research partner beginning in January 2020 to evaluate the progress of implementation and effectiveness of the SENI funding and broader LCAP funding across schools.
- Goal 1 Action 9 A-G Immediate Intervention Plan (continuing) - Maintenance of this program to support continued improvements in graduation rates and A-G completion in schools. Some funding for this Action was shifted to Local Districts to provide more tailored supports to schools. Rather than having the central office allocate resources equally to each Local District, Local Districts were utilize funds in ways to best support the needs of schools based on their state dashboard data and other progress monitoring data (e.g., student graduation progress dashboards). For example, some schools had more capacity to utilize online credit recovery resources whereas other schools utilized more traditional credit recovery options afterschool or during winter/spring breaks that required more teacher-directed instruction, so Local Districts were able to allocate resources/personnel to provide supports for these different needs among their schools, with some Local Districts investing in more counseling support or more professional development or more technology support.
- Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers (modified) - Increased investment in services for foster youth and site-based supports for high needs students.
- Goal 2 Action 7 Special Education (modified) - Expansion of supports for integrating students with disabilities into general education by moving this funding to base funding and expanding the number of schools receiving supports and training on inclusive practices for general education teachers and administrators.
- Goal 5 Action 1 School Climate and Restorative Justice (modified) - Shifting of these funds to Goal 1 Action 5 provides schools with additional flexibility in how to implement Restorative Justice practices and how to reach school goals. Schools have variations in how to implement Restorative Justice, whether through deans, counselors, or other staff. As mentioned before, each school must provide a plan outlining their use of funds and how those funds principally support low income students, English learners and foster youth. Local Districts have principal supervisors who are responsible for approving those plans and ensuring that resources are implemented while monitoring that the school is on track to achieve school-wide goals that are aligned with the District LCAP goals.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEAs goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Unchanged Goal

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access

Local Priorities:

Identified Need:

- Graduation Rate - Los Angeles Unified strives to ensure 100% graduation rates, and continued improvements in the four-year cohort graduation rate overall, as evident in the performance level of the state dashboard, demonstrate that current initiatives are supporting this effort. The data continue to point to gaps in graduation rates for English Learners, Foster Youth and students with disabilities and other student groups, though the district continues to showed increases in graduation rates for all three of those students groups from 2017 to 2018. The high school cohort dropout rate will continue to remain a focus of efforts to ensure students remain in school and have opportunities to recover credits to return back on track for graduation. Middle school cohort dropout rates met the expected annual measurable outcome, but increasing resources in middle school academic preparation will better prepare students for high school success, as evidenced by research from the University of Chicago Consortium, Balfanz, and others.
- College/Career Readiness - Los Angeles Unified continues to maintain some of the most rigorous graduation requirements, including a-g course completion, compared to other districts across the state. Graduates with a-g eligibility continue to improve year over year, though the same gaps in performance persist between all students and English Learners, students with disabilities, Foster Youth and African-American students. In addition, the performance of 11th grade students on the English Language Arts and mathematics Early Assessment Program continue to demonstrate greater need for supports in these areas. Student performance on Advanced Placement exams continue to be a target for high schools, with ongoing gaps in the performance of all students compared to English Learners, African-American students, students with disabilities and Foster Youth. Through the annual update process, stakeholders voiced emphasis on the need to continue the District's efforts around college preparedness initiatives that have been ongoing through the state College Readiness Grant. The District's preliminary data on college-going rates (see Los Angeles Educational Research Institute reports at laeri.org) and preparedness initiatives have identified initiatives for the district to concentrate on to support students and parents with the college application and success process. Recognizing that college is a pathway to careers, the District's Career Technical Education (CTE) pathway completion data points to the need for continued investments in continuous pathways within schools and systems to monitor student progress toward completing CTE pathways and earning career-aligned certifications.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20

Programs & Interventions

Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral,

The Options Program has been integrated into this action in recognition that options schools serve students through the district's multi-tiered systems of support at a Tier 3 level. In 2018-19, a port of the Options program (\$48 million) was covered by supplemental funding. In 2019-20, the full Options program will be covered by base funding, moving funding from

mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE

Goal 1 Action 6 to this Action.

pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways

completed more college preparatory courses compared with similar peers in traditional high school programs.		
· Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

Modified Action

School Autonomy

For 2019-20, the funding provided through the Student Equity Needs Index has been modified to allow for greater budget flexibility for school sites to support unduplicated students. Whereas past resources were provided to schools in the form of positions, schools now have the budget flexibility to reallocate funds for positions to other positions and/or resources that the school deems necessary. The SENI prioritizes schools based on various community and school indicators. Stakeholder groups were engaged through fall 2019 to provide input on those indicators and the distribution of funding. For the 2019-20 school year, all schools were held harmless with regards to the SENI

single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

strategies outlined in the District LCAP and a schools single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. funding, meaning that no schools received less funding than the 2018-19 school year. Principals continue to be required to attest that input from stakeholders including school councils and committees was sought to determine the Targeted Student Populations Plan for the school. Guidance and allowable expenditures is provided in the 2019-20 Budget Handbook. All school TSP plans are posted at the following website: <https://schooldirectory.lausd.net/schooldirectory/>.

Below is the distribution of actual expenditures across initiatives included in this Action. School discretionary resources are funds and/or positions in which schools receive an allocation and a school principal, with input from stakeholders, has discretion on how those funds will be utilized to serve targeted student populations. District-wide programs, such as our library aide investments in elementary schools, are positions determined for all students which must be principally directed with the intent to improve the learning of targeted student populations. These resources have a central administration to ensure coherence and continuity in learning for students. Other School Based resources are targeted positions centrally provided to schools, however schools may opt out of designated positions. There are Central staff who help administer these programs and coordinate services.

Initiative	Resourcing	Expenditure
Student Equity Needs Index	School Discretionary	\$ 247,109,157.00
Proportionality - Increase in salaries for teachers of high needs students	District-wide	\$ 238,100,000.00

Funding to support Restorative Justice implementation (Goal 5 Action 1 School Climate and Restorative Justice) are now integrated with this Action to provide schools with greater flexibility in staffing and supporting effective implementation of this program. Feedback from schools and stakeholders informed this decision since the program is a school-wide program that can take many different pathways to implementation, with various staff (e.g., counselors, teachers, deans, coordinators) or teams within schools taking lead roles in supporting implementation of Restorative Justice practices. Integrating Goal 5 Action 1 with this Action allows for schools to have the flexibility to implement the program in a way that meets their needs while also holding schools accountable through their Targeted Student Population Plans to set targets for related measures such as suspension rates and attendance rates. Local District staff continue to monitor school implementation of Restorative Justice practices and provide guidance on school progress on accountability measures through monthly principal meetings and regular data discussions with school leaders and leadership teams.

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the Districts options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Options Personalized Learning

These funds are intended for options schools to support their targeted student populations with personalized learning strategies to improve student achievement and on-track progress toward graduation. These funds are allocated on a per pupil basis for schools to submit justifications for how they plan to improve personalized learning strategies in their schools such as increasing the availability of technology, professional development for teachers on Mastery Learning and Grading strategies, or the implementation of online literacy resources.

The majority of prior year funding for Options administrators

and staff has been moved to Goal 1 Action 1 Programs & Interventions in recognition that options schools are a Tier 3 intervention within the district's multi-tiered systems of support for high school students.

A-G Diploma Program

The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

<p>Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.</p> <p>The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.</p> <ul style="list-style-type: none"> • Tier 2 reflects a student who is 3-4 classes off-track • Tier 3 reflects a student who is 5 or more classes off-track

A-G Immediate Intervention Plan

Academic Interventions and Student Supports:

The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind

several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning- Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

Unchanged Action

2018-19

Select from New Action, Modified Action, or Unchanged Action:

New Action

School Innovation Funds are provided to a subset of secondary schools to improve outcomes for targeted student populations. These targeted funds must be aligned to District Goals as described in the LCAP, and must be expended on services that support one or more of the following areas:

- Significant increases in investment in high need schools, including academic support and mental health, social and emotional support
- Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Funds for Goal 1 Action 10 School Innovation Funds are shifted to Goal 1 Action 5 School Autonomy because these funds are aligned with the objectives for Goal 1 Action 5 to provide school sites with additional funding to support Targeted Student Populations.

- Linked Learning
- School climate initiatives including Restorative Justice
- High school graduation and student recovery from dropout prevention for high need students
- Parent and community engagement, particularly for those from high need communities

Unchanged Goal

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- English Language Arts - While the District performance level on the state dashboard improved to yellow in 2018, the data continue to point to the need to focus on the performance of English Learners, Foster Youth, students with disabilities and African-American students. Early Language Literacy benchmarks continue to show improvements overall, with fewer gaps between all students and African American and Latino students, but gaps with students with disabilities, Foster Youth and English Learners are evident.
- Mathematics - The District performance level improved to yellow in 2018, but overall student performance continues to be further below the state standard than for English Language Arts. The performance gap with English Learners, Foster Youth, students with disabilities and African-American students persists across the grade levels.
- English Language Proficiency - Reclassification rates district-wide continue to improve, but the percentage of English Learners who have not reclassified in five years is still above the District target and will continue to be a focus of English Language Arts programs. As mention in the prior two sections, English Learner performance in English Language Arts and mathematics continues to lag behind other students. The implementation of the District English Learner/Standard English Learner Master Plan will continue to improve programs district-wide, with a more recent emphasis on implementing integrated English Language Development across the content areas to support student success on the new English Learner Proficiency Assessment for California assessment.
- Foster Youth - The performance of Foster Youth across academic indicators continue to lag behind the overall performance of students in English Language Arts and mathematics. Continued social-emotional and counseling supports will be implemented to assist school site personnel with meeting the needs of these students. Additional professional development and multi-tiered systems of support will be implemented to ensure school site personnel are accelerating the learning for these students.
- Students with Disabilities - The District's monitoring systems and collaboration with the Community Advisory Committee continue to focus on various measures outlined in the Modified Consent Decree such as on-time assessments and completions of Individualized Education Plans and the percentage of time students with disabilities who are in the general education program at least 80% of the day. District programs such as full integration of students with disabilities in general education classes continue to show promise along with the District-wide implementation of multi-tiered systems of support.

Planned Actions / Services

Complete a copy of the following table for each of the LEAs Actions/Services. Duplicate the table, including Budgeted Expenditures, as needed.

Action 1

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Foster Youth Support Plan and Family Source Centers

Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:

2018-19

Select from New Action, Modified Action, or Unchanged Action:

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Beginning in the 2019-20 school year, the District will aim to provide local, integrated, specialized support services for targeted student populations, ensuring that students in foster care continue to be served effectively and consistently, while strategically increasing support for students experiencing homelessness and/or involved in the juvenile justice system. This new model of support services personnel will include Pupil Services and Attendance (PSA) Counselors and Psychiatrist Social Workers (PSW), Pupil Services and Attendance Counselor aides, healthy start coordinators and

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (i.e., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

navigators, and additional support staff. This integration model will reduce duplication and maximize personalization of support for students and schools. Staff will generally serve in smaller geographic areas. This will reduce the time spent driving and increase time to provide direct support and build relationships with students, families, and staff. In addition, this will allow the increased opportunity to build adult capacity and systems and structures to meet the needs of students.

Staff will continue to receive supervision, training, and support from Student Health and Human Services administrators. Foundational and differentiated training will be provided prior to and throughout the school year. The District is committed to continuing to gather input from students, families, staff and community partners (i.e. Department of Children and Family Services, Probation, etc.) to ensure that best practices are leveraged and expertise is shared across programs as the District works toward implementation in Fall of 2019.

PSA and PSW will continue to support foster youth and provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (e.g., tutoring, post-secondary opportunities, and career pathways)
- Promote school stability
- Advocate for the educational rights of foster youth
- District-wide initiatives (e.g. Foster Youth Shadow Day, Pathways to College Celebration, etc.)

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors will conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LA Unified support services and other community agencies. PSA Counselors will provide parent engagement through classes and outreach to schools and community agencies. FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc. FSPP coordinates with the DCFS to offer linkages to support services for Voluntary Family Maintenance youth and families.

Action 2

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

All

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

All Schools

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state's priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Increase in resources to expand professional development efforts consistent with the actions below.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Development improving instructional capacity in all content areas.

- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

Instruction

The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a student's ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the District's curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the

greatest impact and learning gains by all of our students.

- Teachers and instructional staff
- Implementation of shifts in Mathematics and ELA
- Interdisciplinary instruction
- English Language Development (ELD) Standards Phase-In Plan
- Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative
- Contracts to support effective Common Core State Standards instruction
- Design lessons
- Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative
- Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards.
- Arts integration

Assessment

Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of

enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.

- Graduation checks
- California High School Exit Exam (CaHSEE) assessments
- Algebra EOC (End Of Course assessment)
- Math Placement Assessment
- Literacy intervention assessment
- K-2 assessments in foundational reading and math
- Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS)
- Progress monitoring assessment tools
- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

- A literacy intervention course with an additional language development component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school.

To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into

the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

Targeted Instructional Support

Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an

additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

Arts Program

Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index.

The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts

programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.

Unchanged Goal

Goal 3**100% ATTENDANCE****State and/or Local Priorities Addressed by this goal:**

State Priorities: 5. Pupil engagement

Local Priorities:

Identified Need:

- **Attendance Rates** - The district-wide percentage of students attending 96% or higher were only at 66.9% in 2017-18, with African-American, students with disabilities and Foster Youth rates far below the district-wide percentage. Initiatives focused on improving attendance rates including providing more real-time data to schools to monitor student progress and additional social-emotional and counseling resources for schools to engage families.
- **Chronic Absenteeism** - Overall district-wide chronic absenteeism continues to be high, with an orange performance level for 2018. Low income, African-American, students with disabilities, Foster Youth and homeless students are among the groups with the highest rates of chronic absenteeism. Initiatives focused on reducing chronic absenteeism in schools have focused on providing more real-time data to schools to monitor student progress and additional social-emotional and counseling resources for schools to engage families.
- **Staff Attendance** - The percentage of all staff attending 96% or above met the target of 78% in 2017-18. The District will continue efforts to monitor progress toward this measure and recognize staff who are meeting targets throughout the year.

Homeless Youth Program

School Mental Health Support for Homeless Students at *9th St. ES located in Skid Row*:

1 PSW – Requested to support 9th Street school because of high numbers of mental health issues and traumatic events (school is located in skid row, and has a high concentration of homeless students)

Pupil Services, Homeless Education Program:

10 B basis PSA Counselors and 6 PSA Aides to provide support in each of the local districts to serve as district liaisons for homeless students and families as required by law. Support proper identification of homeless students in compliance with the McKinney Vento Act. Provide services and supports to identified students to ensure timely enrollment, advocate for school stability, and provide supplemental services and resources as needed.

Unchanged Goal

Goal 4**PARENT, COMMUNITY AND STUDENT ENGAGEMENT****State and/or Local Priorities Addressed by this goal:**

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Identified Need:

2017-18 data on parent, community and student engagement were far below the annual targets for a number of indicators. Parent/Caregiver participation on the School Experience Survey, the percentage of students who feel a part of their school and the percentage of schools training parents on academic initiatives by providing a minimum of four workshops annually were low, most likely due to the new, earlier administration window implemented in 2017-18. The percentage of parents who state "My school provides resources to help me support my child's education" were close to the annual target. Input from parent committees and stakeholder groups emphasized the importance of gathering more accurate data on parent engagement and on continued investments district-wide in engaging parents as partners in learning and students.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Percentage of Students Who Feel a Part of Their School (Question on School Experience Survey)	All Students 67% SY 16-17	All Students 87%	All Students 89%	All Students 91%
Parent/Caregiver Participation on School Experience Survey	All Parents 58% SY 16-17	All Parents 62%	All Parents 64%	All Parents 66%
Percentage of Schools Training Parents on Academic Initiatives by Providing a Minimum of	All Schools 92% SY 16-17	All Schools 94%	All Schools 98%	All Schools 100%

Four Workshops Annually

Percentage of Parents Who State: My school provides resources to help me support my child's education.

All Parents 83% SY 16-17

All Parents 93%

All Parents 95%

All Parents 97%

Unchanged Goal

Goal 5**ENSURE SCHOOL SAFETY****State and/or Local Priorities Addressed by this goal:**

State Priorities: 6. School climate; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- Student Suspensions - The District overall suspension rate continues to be very low, with a blue performance level overall. The overall instructional days lost to suspension continues to decline district-wide. The District will make efforts to sustain these overall results. Targeted Restorative Justice supports and resources continue to focus on reducing the higher suspension rates of African-American and Foster Youth students.
- Expulsions - The District will continue to reduce or maintain the low percentage of expulsions district-wide.
- Student Experience - The percentage of students who feel safe at school exceeded the target for 2017-18 at 84%. School site staff and resources will continue to support student social-emotional learning and community-building through various programs.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20

School Climate and Restorative Justice Program

Promote School Climate and Student Engagement at campuses of highest need, based on unduplicated student concentrations.

And effort to develop and maintain:

The majority of these funds have been moved to be included in the Student Equity Needs Index in Goal 1 Action 5 School Autonomy to allow schools to be able to make decisions on how to reduce suspensions and discipline issues within their schools. Remaining funding is allocated to support Central Office and Local District staffing and professional development costs to continue assisting schools in implementing Restorative Justice practices.

- Holistic, safe and healthy school environments
- Effective positive behavior support and interventions
- Commitment to a District-wide culture of positive and humanistic approach to working with students, staff and parents.

Funds are prioritized utilizing the District's equity index and through the identification of sites with high incidences of conflict and suspensions. The index is described in Section 3a.

Restorative Justice counselors and teacher advisors will be provided to school sites for purposes of building positive practices and school culture to address student behavior and conflict.

Goal 6**BASIC SERVICES****State and/or Local Priorities Addressed by this goal:**

State Priorities: 1. Basic

Local Priorities:

Identified Need:

- **Teacher Quality** - The Division of Human Resources continues to strive for 100% of teachers appropriately credentialed for the students they are assigned to teach, with an actual result of 99.3% in 2017-18. The District continues to implement various programs to improve the career pathway pipeline for hiring new teachers and to retain experienced teachers. The percentage of early education center and pre-kindergarten through 12 grade classroom teachers who have a final Educator Development Support: Teacher (EDST) performance evaluation by the end of the school year was 31%, exceeding the 25% target for the year. Ongoing professional development and supports from the Division of Human Resources and Local Districts enhance the abilities of school leaders to engage teachers in continuous improvement and growth.
- **Materials Sufficiency** - 100% of all schools provided students with standards-based instructional materials by meeting Williams Act requirements. 100% of facilities were also deemed in good repair across the District. Ongoing maintenance and replenishment of these materials and facilities is required in order to sustain these outcomes.
- **Special Education Services** - The percentage of students whose eligibility for special education services were determined within 60 days of guidelines was 99.96%. Students with disabilities receiving services specified in their Individualized Education Plans (IEPs) was 92.5%. The District will strive to maintain and improve on these results, especially in light of the performance of students with disabilities across multiple goals that are below the performance of other students.

Expected Annual Measurable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Percentage of Teachers that are Appropriately Credentialed for the Students They are Assigned to Teach	All Teachers 99% SY 16-17	All Teachers 100%	All Teachers 100%	All Teachers 100%
Percentage of Early Education Center and Pre-K through 12 Classroom	All Teachers 27% SY 16-17	All Teachers 25%	All Teachers 25%	All Teachers 25%

Teachers who have a final Educator Development and Support: Teacher (EDST) performance evaluation by the end of the school year				
Percentage of Schools Providing Students with Standards-Based Instructional Materials by Meeting Williams Act Requirements	All Schools 100% SY 16-17	All Schools 100%	All Schools 100%	All Schools 100%
Percentage of Facilities that are in Good Repair	All Facilities 99% SY 16-17	All Facilities 100%	All Facilities 100%	All Facilities 100%
Percentage of children whose eligibility for special education services were determined within 60 days of guidelines	87%	N/A	88%	89%
Students with disabilities receive services specified in their Individualized Education Programs (IEPs)	90%	N/A	90%	91%

Planned Actions / Services

Complete a copy of the following table for each of the LEAs Actions/Services. Duplicate the table, including Budgeted Expenditures, as needed.

Action 1

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

All

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

All Schools

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

Location(s):

On-going Major Maintenance

Targeted maintenance to school sites with greatest need.

Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a

week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and Concentration Grant Funds:

\$1,137,257,754

Percentage to Increase or Improve Services:

32.35%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2019-20, LA Unified will budget \$1.14 billion in supplemental and concentration funds for continued support and increased services for low income, English learners and foster youth. The District is committed to closing the achievement gaps that currently exist for these students. District-wide goals and targets guide the LCAP to strategically align resources and initiatives to support the success of targeted student populations. In addition, the input from the multiple stakeholder groups including the Parent Advisory Committee and the District English Learner Advisory Committee has been used to inform the decisions on initiatives and expenditures for the upcoming school year. The District targets provide guidance to schools as they plan their programs and calibrate the work of the central office and Local Districts to monitor and support school progress during the school year.

To ensure that all students are prepared for success in college, career and life, LA Unified has focused on offering a cohesive delivery of services that is aligned with multi-tiered systems of support (MTSS). Schools have received professional development on implementation of MTSS, and the Central Office and Local Districts have been supporting the identification of diagnostics and the development of interventions. By placing students at the center of the work ahead, District initiatives will focus on empowering principals, supporting teachers and engaging families and communities in the coming year by:

- Reducing class size
- Adding counselors, nurses, librarians and support staff to work with teachers
- Developing personalized pathways for all students
- Improving services for students with disabilities
- Increasing funding targeted toward high-needs students
- Aligning Local District supports to communities of schools
- Reducing operational demands on principals so they can focus on instruction
- Building the capacity of school leaders
- Increasing budget flexibilities
- Providing more complete information to families and organizations about each school
- Developing opportunities for direct family engagement in Local Districts
- Delivering more wraparound services through the "All In for Public Education" campaign

Descriptions of how each Action is principally directed to and effective in meeting the District's goals for unduplicated pupils are described below.

Goal 2: Action 6, Action 9

- Goal 2 Action 6 Early Childhood Education/Transitional Kindergarten Expansion Plan - The expansion of early childhood programs from part-day to full-day programs as well as the increase in number of Expanded Transitional Kindergarten (ETK) programs are designed to support low income students with high quality early foundational education in order to place students on the track toward early literacy and academic success. Preschool and Expanded Transitional Kindergarten (ETK) programs are only implemented in Title I schools (identified as having large percentages of low income students), thus targeting communities that are most in need of quality early childhood education programs. Monitoring with the Desired Results Developmental Profile (DRDP) in addition to preliminary data on early literacy assessments for students who complete ETK and progress to kindergarten indicate the value of these programs in supporting student achievement on DIBELS, SBA and other district LCAP goals. Research from Ramey, Sparling, Heckman and others have indicated the value of quality early childhood education programs on student life outcomes, such as health, income, and schooling. ETK will be added to four elementary schools, which will provide quality preschool seats for low-income children who turn 5 after December 2. Early literacy data from students who have completed Los Angeles Unified early childhood education programs indicates higher performance levels in English Language arts outcomes for students in the early elementary grades. The District's goal of literacy proficiency for all students by third grade can be most supported if students entering kindergarten have foundational skills.
- Goal 2 Action 9 English Learner Supports - The funding of English learner instructional coaches across schools with high percentages of English learners will continue supporting the district-wide implementation of the English Learner/Standard English Learner Master Plan. The Multilingual, Multicultural Education Department will continue to ensure that the provided support services are differentiated to the needs of the different English Learner typologies (U.S. born ELs, newcomers, potential long-term English learners, long-term English learners and English learners with disabilities). The Division of Instruction will also continue the roll-out of MTSS secondary literacy resources such as the diagnostic assessment and Tier II and III curricula. These resources will particularly benefit English learners and low income students at the secondary level who may be falling behind grade level literacy standards. The defined English Learner supports are guided by established state policy and well documented research, including: The California EL Roadmap; Consensus Study Report: Promoting the Educational Success of Children and Youth Learning English, The National Academies of Sciences, Engineering, and Medicine; Guiding Principles for Dual Language Education, 3rd Edition, Elizabeth R. Howard; Common Core Standards in Diverse Classrooms, Jeff Zwiers, Susan O'Hara, Robert Pritchard; Unlocking English Learner Potential Strategies for Making Content Accessable, Diane Staehr Fenner and Sydney Snyder; Advocating for English Learners, A Guide for Educators, by Diane Staehr Fenner; and Culturally Responsive Teaching & the Brain, Zaretta Hammond. State policy and research is used during professional development to inform EL instructional practice/pedagogy, programs and services. This Action is maintaining its level of service for low income, English learners and foster youth.

Actions/Services Contributing to meeting the increased or improved services and identified as **LEA-wide**.

Goal 1: Action 3, Action 5, Action 6, Action 7, Action 8, Action 9, Action 10

Goal 2: Action 1, Action 8, Action 10, Action 11, Action 12

Goal 3: Action 2, Action 3, Action 4

Goal 4: Action 1

Goal 5: Action 1

Goal 6: Action 4, Action 5

- Goal 1 Action 3 Adult and Career Education for Targeted Youth - This program offers opportunities for students to enroll in A-G approved courses to return on-track for graduation during the school year and during winter recess, spring recess and on Saturdays. The Division of Adult and Career Education (DACE) collaborates with the Federal and State Education Programs office and Local District Counseling Coordinators to select credit recovery sites for Winter/Spring Plus. Program design and service delivery are informed by federal Title I recommendations and District A-G Intervention and Support policies, both of which work to maximize access to services for low income,

English learners and foster youth. Moving forward, DACE will continue to consult with Division of Instruction teams to improve alignment between DACE credit recovery services and District TSP initiatives and will work with Local Districts to ensure that schools with high percentages of targeted student populations are aware of DACE services and will update partnership policies and practices to highlight opportunities to promote equity and expand student access. The DACE AC2T program is designed specifically for youth who have disconnected from the traditional school system. Low income students, English Learners, and foster youth are well served by the AC2T program's flexible learning models and comprehensive support systems. This year, DACE will increase efforts to recruit targeted student populations by working closely with the District's Homeless Education and Educational Options Programs. In addition, DACE has taken steps to partner with non-profit organizations (United Friends of the Children, Skid Row Housing Trust) to increase its ability to serve students who face unique barriers to success. This Action is a confirmed effective use of supplemental funds based on a number of different reasons. Collaborating with Division of Instruction teams to provide targeted credit recovery opportunities is an example of "integration of...intervention services," as called out by the California Department of Education (CDE) in its Multi-Tiered System of Support (MTSS) framework. Credit recovery partnerships leverage resources across Divisions and increase student opportunities to reach their academic goals. In addition, the competency-based curriculum used in adult education is aligned with Bloom's Mastery Learning and Grading model. Students who have not been successful in traditional classes appreciate the flexible, learner-centered approach to building skills and mastering competencies at their own pace. The AC2T program is committed to the "Whole Child" philosophy of learning. In addition to providing flexible learning models and individualized instruction, AC2T staff strive to meet the social-emotional needs of students by providing them with weekly advisory meetings, free Psychiatric Social Worker (PSW) sessions, and ongoing social services referrals. This Action maintains the current level of services for low income, English learners and foster youth.

- Goal 1 Action 5 School Autonomy - This Action is principally directed toward targeted student populations as its allocations and distribution of resources are focused on schools with high percentages of targeted student population students. This is also an increased level of service for targeted student populations. This is largely due to district data on improved graduation rates on the state dashboard across the district, particularly for English learners, foster youth, low income students. District-wide A-G completion rates have also shown improvements district-wide. Feedback from school leaders, parents, and community organizations have also supported the increased allocation of resources based on targeted student populations at schools to ensure school sites have the autonomy to support District-wide LCAP goals. Research indicates that additional resources in the form of staffing and professional development, particularly to support the social-emotional and health needs of targeted student populations, is an effective use of funds. In addition, instructional resources in the form of staffing and professional development assist in providing additional opportunities to provide feedback and personalized support to targeted student populations, which is aligned with research-based effective strategies for these student groups. The District decision to increase funding for this Action is to allow for greater school autonomy over funds that these school would already be receiving, but these schools will now be able to allocate these funds with greater flexibility to meet the needs of targeted student populations in their schools. This District approach shifts away from District-wide determinations of how funds should be spent, which historically has not necessarily met the needs of the district's large number of diverse schools. For example, implementation of Restorative Justice may not require a single specific funded position in a school, but rather those funds might be used to support a team of existing staff to distribute leadership of Restorative Justice implementation and to share the responsibilities across the school. Research on implementation supports this differentiated approach to resourcing schools to reach desired District-wide outcomes. The Central Office and Local Districts will continue to build the capacity of school leaders to engage stakeholders in decision-making on the use of these funds, and will continue to require consultation and input from stakeholders when making these budgetary decisions. The Student Equity Needs Index distributes funding based on a formula that includes indicators of student and community need. Schools have autonomy to develop a plan to utilize these funds to support district goals, and school leaders are provided guidance through the District Budget Handbook on allowable expenditures aligned to support high needs students. Each school must provide justification for how these funds are targeting unduplicated students while aligning services with the District's LCAP and the school's strategic goals. Examples of expenditures for schools include nurses, counselors, class size reduction teachers, and additional professional development.
 - Assistant Principals: All Assistant Principal roles are aligned with school strategic goals and the District's LCAP outcomes to support low income, English learner and foster youth students by supporting effective teacher classroom practices through professional development and coaching of teachers and by providing direct supports and guidance to these high needs students through one-on-one

- meetings with students and collaboration with parents and teachers.
- Counselor (High School Only): All high school counselors are provided additional professional development and resources to support the tracking and support of high needs students toward graduation and college/career readiness. These counselors provide one-on-one support for high needs students and provide college and career guidance as well as academic guidance to improve district-wide graduation rates.
- School Librarians: These positions are designed to improve literacy outcomes for students across all schools by providing access to text and additional instructional support to students, particularly unduplicated students who may have less access to literacy materials at home. DIBELS early literacy data as well as improvements in district-wide English Language Arts performance demonstrate how this and other district literacy strategies are supporting low income students, English learners and foster youth.
- Nurses: Nurses are supported through this Action in order to provide support to students - particularly unduplicated students - who may be in greater need of health care supports as a means of improving student attendance and engagement in class.
- Goal 1 Action 6 Options Program - The personalized learning funding to Options schools provides the opportunity for schools to increase student on-track graduation rates by offering credit recovery, tutoring after school and on weekends, improved access to technology, and additional social-emotional learning supports. A majority of youth that participate in the District's Options schools are low income, foster youth and English learners since these groups are disproportionately more likely to fall behind in graduation progress. Investments in personalizing instruction for these schools provide additional Tier 3 supports for students in the District's multi-tiered system of support. Investments in Options programs are an effective use of supplemental funds because data indicates that students in these more personalized learning environments are able to recover credits and accelerate their learning in ways that are more effective than traditional classroom environments. As a vital support within the District's multi-tiered system of support, Options programs continue to improve their rates of student credit recovery and transition back to comprehensive high schools. This Action is maintaining its level of service for low income, English learners and foster youth.
- Goal 1 Action 7 Realigned After-School Program - The District sought to bring greater cohesiveness between the after-school program and regular school day efforts by implementing social-emotional learning programs, increasing training for staff on the needs of foster youth, English learners and students with disabilities, and offering summer term credit recovery and extended learning opportunities for the summer. The majority of students participating in these programs are unduplicated pupils who benefit from participating in these programs which provide academic enrichment and support for students who may not have access to these resources at home. This Action is a confirmed effective use of supplemental funds because they focus Youth Services staff with professional development on research-based needs of targeted student populations. This Action has a maintained level of services in order to continue providing the opportunities for student participation which is monitored closely by the Beyond the Bell branch.
- Goal 1 Action 8 A-G Diploma Program - Diploma Counselors were provided to schools to support Tier 2 and 3 students who are identified as being at-risk of not graduating. These counselors provided personalized supports to students by meeting with individual students, collaborating with academic counselors, and monitoring student progress. The majority of these students are unduplicated students who may need additional support and assistance, so they receive access to Diploma Counselors who may advocate to teachers on their behalf and provide individualized tracking and guidance to these students. Diploma Counselors are placed in Title I high schools that previously were served under the Diploma Project program. The amount of staff time allocated to each school was based on the number of students identified off-track (Tier 2 and 3) with the A-G graduation requirements. At the beginning of the year, 17,998 Tier 2 and 3 students were identified - of those 76% were low income, 35% were English language learners, 21% were students with disabilities, 2% were homeless and 3% were in foster care. End of year data confirmed the effective use of these supplemental funds as 4,357 Tier 2 and 3 students (24%) successfully completed sufficient numbers of classes with passing grades to move up at least one or more Tiers as a result of A-G Diploma Program efforts. This Action is an increased and improved level of service because Student Health and Human Services has re-organized Diploma Counselors based on the community of schools model that Local Districts have begun reorganizing into. Many of the Tier 2 and 3 students are also in foster care, homeless, English learners, and low income. The re-organization provides more opportunities for counselors to collaborate with Pupil Services and Attendance/Psychological Social Workers serving targeted student populations. The re-organization also provides access to further resources for these targeted student populations. For 2019-2020 school year, Student Health and Human Services will offer more frequent and meaningful training opportunities to these Counselors focused on building their counseling skills. In addition, the focus will be more on the

multi-tiered systems of support and helping these Counselors better assess the social emotional needs of the students. These Counselors will work collaboratively with other programs, departments, and divisions to train school-site administrations on how to better support students in Tier 2 and 3. There are also plans to improve the tracking and the reporting practices for targeted population students in Tier 3: By definition, Tier 3 students are five or more A-G courses behind. There is no delineation between a student that is 9 A-G courses behind or a student who is 5 A-G courses behind. The result of this limited definition is that the most deficient and at-risk students who are working very hard and making incremental gains despite their potentially extreme circumstances are not accounted for.

- Goal 1 Action 9 A-G Immediate Intervention Plan - Local Districts were allocated funds and developed plans to improve graduation rates and A-G course completion. The Division of Instruction supported Local Districts and schools by providing a variety of resources for credit recovery and college readiness. The majority of students who participate in credit recovery courses are unduplicated students, particularly English learners and low income students, so this Action funds resources such as online and in-person credit recovery opportunities as well as staffing to support schools with implementation of these opportunities. This Action is a confirmed effective use of funds based on past experience, with continued improvements in District-wide graduation rates and A-G completion. The refinement of District-wide systems to track student progress toward graduation has allowed Local Districts and schools to refine their approaches to Tier 3 support for students and to ensure the effective use of these funds to reach students most in need. The college readiness aspects of this Action are based on many of the research-based strategies from the University of Chicago Consortium on School Research as well as recent research from the Los Angeles Educational Research Institute on Los Angeles Unified student college readiness and enrollment data. The focus of this research is on first generation college going students who are primarily low income, foster youth and English learners. The level of service for this Action is being maintained to continue progress toward the District goal of 100% graduation and college readiness for all.
- Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers - This Action provides counselors to support the over 7,000 foster youth across the district with academic support, case management, access to tutoring, and advocacy for student educational rights and school stability. The FamilySource Partnership Program supports students and families with referrals and linkages to support services and community agencies. This is a confirmed effective use of supplemental funds based on data showing increased attendance rates, increased graduation rates and feedback from students, counselors, caregivers, county partners, and community partners that the program has increased student connection and school stability. For 2019-20, this Action is an improved and increased level of service due to additional funding and more local, integrated, and personalized resources that have been allocated to serve foster youth based on feedback from school sites. Over the past four years, quantitative and qualitative data collected on foster youth has shown that counselors serving foster youth have resulted in improved academic and attendance outcomes.
- Goal 2 Action 10 Instructional Technology Support - The Instructional Technology Initiative team will continue to provide models of support to schools serving high numbers of low income students in order to increase one-to-one technology access for students. Supports for direct onsite technical support will continue to be provided to ensure that the instructional program at schools is unimpeded. This Action support schools in implementing one-on-one devices in schools in order to bridge the digital divide that exists between households based on income. The effectiveness of these District Instructional Technology Initiative programs can be demonstrated beyond the participation and exposure of thousands of students to the concepts of Digital Citizenship and computer science. Results of professional development evaluations provided by participants indicate high integration of ISTE Standards for Students, Digital Citizenship Certification and Computer Science Education concepts. Observations by Central Office and Local District leads also indicates increased implementation of effective strategies to integrate technology into instruction for students. These programs are principally directed toward targeted student populations because schools with high percentages of these students are prioritized to receive support and resources. For the 2019-20 school year, services through this Action are increased to ensure technology support and integration are expanded to more schools and existing schools continue to build the capacity to manage their initiatives. This continues to be an effective use of supplemental funds based on evidence from the number of educators participating in these programs and participant evaluations indicate that as a result of the professional development they better understand how to meet the diverse needs of low income, English learners, and foster youth.
- Goal 2 Action 11 Targeted Instructional Supports - These resources have been folded into Goal 1 Action 5 School Autonomy.
- Goal 2 Action 12 Arts Program - The Arts Education Branch will continue to implement a targeted Arts program that utilizes the District's Arts Equity Index (AEI) to provide additional resources to schools with high populations of unduplicated students. The AEI utilizes the LCFF targeted populations of low income, foster youth and English learners to identify high needs schools, in addition to identifying arts

programming gaps across schools. The intent is to increase the level of arts programming beyond minimum state requirements and to bring parity to school-sites that may not historically have had access to broad arts curricula and programs. This is a confirmed effective use of funds based on past experience, with a comparison of the AEI for the years 2015-16 and 2017-18 showing improvement in schools moving from one AEI quartile to another, especially for those schools in the underserved and development quartiles. This Action is an increased level of service for the 2019-20 school year with some additional investments toward providing additional arts instructional materials to school sites. With the improvements in arts programs District-wide on the AEI quartiles, the investments in additional arts instructional materials are an effective use of funds to provide greater access for students to a variety of arts disciplines.

- Goal 3 Action 2 Targeted Supports to Increase Student Engagement at Campuses of Highest Need - Itinerant Student Health and Human Services (SHHS) staff provide an array of direct services for students who are at disproportionate risk for attendance issues, adversities, such as trauma exposure, and school failure/dropout. SHHS personnel focus on meeting the needs of the whole child, particularly our students whose social-emotional and academic success is threatened due to lack of basic resources, school/housing mobility, and other adversities, such as trauma exposure, which are most prevalent among our students who live in poverty, are English Learners, and/or our students in foster care. Student engagement, particularly including low income, English learner and foster youth, will continue to occur district-wide in order to receive authentic feedback from students on district-wide policies and to provide opportunities for students to propose suggestions on new district policies. Itinerant SHHS staff provide evidence-based, multi-tiered systems of support services for targeted student populations. This framework has demonstrated efficacy in targeted efforts to reduce chronic absence and mitigate barriers to high school graduation. The District has made tremendous progress with increasing graduation rates, in part due to the addition of these supplemental services. As a result, this Action represents an increased and improved level of services for low income, English learners and foster youth in the 2019-20 school year. With the autonomy to invest in locally identified resource needs, there has been growth in school purchased Student Health and Human Services staff leveraging supplemental and concentration dollars, attributable to school site teams' recognition of the investment in SHHS personnel as an effective use of funds to support school communities to meet the needs of the whole child, particularly students whose success is threatened due to a lack of basic resources, school/housing mobility, and other adversities, such as trauma exposure, which are most prevalent among our students who live in poverty, are English Learners, and/or our students in foster care.
- Goal 3 Action 3 Homeless Youth Program - This program will continue to fund PSA counselors and resources to be principally directed towards low income students identified as homeless under McKinney-Vento in order to ensure timely enrollment, advocacy for school stability, and academic and personal resources and community-based referrals. The services provided are an effective use of supplemental funds by past experience and research; targeted child welfare and attendance and dropout prevention services mitigate barriers to student success and ensure equity and access to all District resources and programs. Over the last three years, the Homeless Education Program has been able to increase the identification of students experiencing homelessness from 17,421 (SY 17-18) to 19,526 (SY 18-19). For the 19-20 school year there is an increases level of service to students experiencing homelessness. For the 19-20 school year the District has increased support by providing additional case management services, coordination of services for students in Tier 2 and 3 (off-track from high school graduation requirements). The District has increased direct services via a partnership with the County and expansion of educational case management services into County Coordinated Entry Sites (CES) and the number of service providers who support with service delivery and direct services. The increase in services will build upon our successful identification of students experiencing homelessness and enhance access to academic, health, and social-emotional programs and services to meet the needs of the whole child.
- Goal 3 Action 4 District-wide Student Engagement Plan - School Enrollment, Placement and Assessment Centers (SEPA's) provide supports to all families, particularly newly arriving families, to assist with the school enrollment process, access to medical and mental health services and referrals, housing, and linkages to legal services and other district and community resources. The majorities of families served by SEPA's have unduplicated students who will benefit from access to these supports. This Action is principally directed toward low income, foster youth and English learners, all groups that traditionally have lower rates of parent and student engagement. This Action is a confirmed effective use of supplemental funds based on data such as 98% satisfaction rates with content provided by District personnel at parent workshops and feedback and work products from students engaged in student engagement activities. Research also indicates that student and family engagement are critical to helping build school culture and relationships. This Action is being maintained and the current level of service.
- Goal 4 Action 1 Targeted Parental Involvement - This Action is principally directed toward supporting school sites with staffing to increase parent engagement, particularly targeting parents of low income, English learners and foster youth. This action is a confirmed effective use of

supplemental funds by past experience and research, as it supplements the services and practices that schools are providing to families, like newsletters, social activities and family nights. Annually, parent survey results indicate that additional training and workshops are needed to increase parent participation and build parents' capacity to partner with schools. Research shows that low income and English learner parents need access to detailed information provided by their schools regarding the importance of college and career readiness, reclassification, and how to help their children improve their academic achievement. Many school staff need resources to train their families and strategies for improving their outreach. Training arranged by school staff connected with the Parent and Family Center allows for a welcoming environment to be offered, along with the enrichment for families; and it allows families to build stronger relationships with the adults who care for their children. The school-site funding associated with this Action is being maintained through the Student Equity Needs Index, but the funding allocations are reported in this Action.

- Goal 5 Action 1 School Climate and Restorative Justice - Restorative Justice implementation district-wide will be entering its final year indicating full implementation of these practices across the District. Continued professional development with schools and funding of support staff will ensure sustainability of these practices in reducing suspensions and expulsions of students. This Action will continue to benefit unduplicated students, particularly low income students, the most since they are the student groups that are most disproportionately subjected to disciplinary actions. The level of services for this Action are being maintained at the District level, with school-site funds being distributed through the Student Equity Needs Index in Goal 1 Action 5 School Autonomy to allow schools to have greater flexibility in how to implement Restorative Justice practices. This Action continues to be identified as an effective use of supplemental funds through district data on reduced rates of suspension and reduced number of days lost to suspension as well as through feedback from school sites and stakeholders who value the opportunity to build community within schools and to build relationships with families when disruptive behaviors cause disruptions at school sites. Research on Restorative Justice programs indicate promising results in terms of the impact on school climate, student behavior and relationships between students and with staff as well as other outcomes (WestEd 2016).
- Goal 6 Action 4 On-going Major Maintenance - Strike Teams, consisting of various craftworkers, will be expanded to 42 community complexes with dedicated journeymen and gardeners to perform repair and renovation projects based on prioritized needs. This expansion will be directed toward schools with high percentages of unduplicated pupils in order to improve their school environments which should support improvements in attendance and academic outcomes. This Action is confirmed as an effective use of funds because the program has supported the instructional environment in schools identified with high percentages of low income, English Learners, and foster youth, and in those schools that have received support, 99% of principals surveyed recommended that the program continue in the next school year. This Action is not an increased or improved level of service for the 2019-20 school year as the funding and services will be maintained.
- Goal 6 Action 5 Expanded Access to Meals - The District will continue serving Breakfast in the Classroom at schools, as well as hot and cold supper, to ensure access to healthy meals for low income and homeless youth who may face food insecurity. Food Service programs are available to all students at schools, qualifications for reduced/free cost meals are provided to low income students. The District receives files monthly from the Department of Public Social Services (DPSS) and Department of Child and Family Services (DCFS). These files list families with low income levels or who are in a foster situation which directly qualifies them for meals at no charge. In addition, Food Services staff work with Parent Community Services and Local District personnel to send out the message that applying for the meal program does not have a bearing on families immigration status. Also Food Services has added more than another 100 schools to the CEP program which automatically qualifies them for meals at no charge. This is confirmed effective use of funds from past experience and research since tracking of these efforts in the District has seen improved rates of meals consumed by students and research continues to make connections between healthy meal access and student performance. The District continues to communicate with parents to urge their students take advantage of the three meals available at schools daily. Also, there is a No Shaming rule, under which every student who comes to the cafeteria without money or an eligibility is provided a meal with no exception. The district is also starting Farm to Table programs at some schools to provide access to fresh seasonal produce as they would a Farmers' Market. The increased and improved level of services for this Action is due to the focus on increasing community outreach and student participation in the District meal programs.

Actions/Services Contributing to meeting the increased or improved services and identified as **Schoolwide**.

Goal 1: Action 4

- Goal 1 Action 4 Teacher Retention and Support Program (REED) - As described in the Annual Update and the Goals, Actions & Services sections, this program requirement has expired, so additional funds for positions in these schools have been folded into the Student Equity Needs Index. The Beginning Teacher Growth and Development Induction (BTGDI) program will continue to be funded through this Action. Data from 2018-19 end-of-year surveys show that 90% of teachers felt that mentors had a positive impact on their teaching practice and 88% felt mentors had a positive impact on their students' achievement. Of the 575 teacher participant survey respondents, 90% indicated they would continue to teach at their current school during the 2019-20 SY, 9% indicated they planned to teach at another school during the 2019-20 SY, and 1% planned to take another job in education in 2019-20. This program plays a critical role in ensuring the District continues to have highly qualified teachers serving students. This portion of the BTGDI program will continue to prioritize high needs schools as identified through their high percentages of targeted student populations. Research shows that schools with high percentages of targeted student populations tend to have higher turnover and less experienced teachers. The BTGDI program is designed to provide the support and resources to beginning teachers in these schools so they develop the skills to be successful with these students. The level of services for this Action will be maintained.

LCAP Year: **2018-19**

Estimated Supplemental and Concentration Grant Funds:

Percentage to Increase or Improve Services:

\$1,164,261,199

32.60%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2018-19, the LAUSD will budget \$1.16 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. These funds represent a concerted effort to continue and realign current expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to expand early learning interventions and supports for our youngest learners, refocus our secondary ELA interventions, and drive innovation in our neediest schools. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services

are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998)
- **Accelerated Academic Literacy (Goal#2, Action #9):** The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student

- populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- *Counselor (High School Only):* All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
 - *School Libraries/Librarians:* Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
 - *Services for Elementary Schools:* Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
 - *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
 - *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
 - **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action**

#9): Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **School Innovation Fund Program (Goal #1, Action #10):** Invest in the highest need secondary schools in LAUSD which have comprehensive need to support foster youth, homeless youth, math outcomes and school climate outcomes. The resources at these schools are guided by a clear expectation that schools define their root causes, develop and assess school-based strategies, and collaborate

with a student support team focused on addressing the mental health, life and academic needs of students. The coherence-making model is focused on developing a sustainable practice on ongoing inquiry and improvement lead by the school leadership team and supported by District staff.

- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities for academic enrichment in this area of study.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In additional, a student focused plan to inform and engage low-income, English learner and

foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.

- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. 85% of our students qualify as an LCFF unduplicated pupil. Building parent capacity district-wide is essential to supporting the academic achievement of unduplicated pupils in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #9):** Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The

average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

LCAP Year: 2017-18

Estimated Supplemental and Concentration Grant Funds:

Percentage to Increase or Improve Services:

\$1,134,420,996

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF. This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services

are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Libraries/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)

- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- **Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies,

agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.

- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these

students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.

- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus

initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Expenditure Summary

Expenditures by Budget Category					
Budget Category	2018 Annual Update Budgeted	2018 Annual Update Estimated Actual	2017	2018	2019
All Budget Categories	\$5,364,950,681	\$5,133,811,377	\$5,217,738,123	\$5,364,950,681	\$5,203,851,733
1000-1999 Certificated Salaries	2,105,587,978	2,335,298,841	2,157,211,470	2,105,587,978	2,159,329,667
2000-2999 Classified Salaries	1,199,479,001	654,831,670	706,358,748	733,071,056	675,282,049
3000-3999 Employee Benefits	903,332,850	1,309,559,311	1,384,037,036	1,369,740,795	1,319,369,696

RE: Comments on Amended LAUSD LCAP

Dear Katrina, Dale, Michael, Derrick, et al.,

On behalf of Ms. Carrion and Ms. Velasco, we are writing to provide comments on the amended 2019-20 LAUSD LCAP (hereinafter “Amended LCAP”) that was posted late in the day on September 12th. Despite significant improvements in transparency, the amended LCAP is still deficient and must be further amended to comply with legal obligations.

I. The Amended LCAP Continues to Bundle Multiple Discrete Actions/ Services into Mega-Actions that Violate LCFF’s Transparency Requirements

As discussed in our complaint, LAUSD is required to separately identify and justify each specific action in its LCAP.¹ A specific action is not an extraordinarily broad bucket of disparate programs and services; it is a discrete and distinctive action, focused on a specific student population, scope of service, and location.² The Amended LCAP disaggregates the enormous School Autonomy line item into discrete initiatives with associated expenditures and identifies the initiatives by category (school discretionary, districtwide, and Other School Resources), which is very helpful. This level of transparency is not carried through the LCAP as required, however, for the discrete initiatives are, by and large, not separately justified as principally directed and effective in the DIISUP section (*see* Section IV, *infra*) even though they are supported with supplemental and concentration funds and are generally provided on a schoolwide or districtwide basis. Moreover, the discrete initiatives are not set up to be analyzed for effectiveness in the Annual Update, that is, for how well that specific action is contributing toward achieving a specific outcome objective.

¹ See UCP Complaint at pp. 8-10.

² *Id.*

As well, two significant programs that have been combined with School Autonomy in the 2019-20 LCAP remain unaccounted for: (1) Restorative Justice (Action 5.1); and (2) Targeted Parent Engagement (Action 4.1). To the extent these actions are still being carried out, they need to be identified with associated expenditures and justified and evaluated as increased/improved services, even if they are implemented in diverse ways.

As significant a failure as the foregoing, none of the other bundled actions have even taken the step of disaggregating their expenditures, much less do they properly justify all the discrete actions encompassed therein in the DIISUP section –specifically, Action 1.9: A-G Immediate Intervention Plan, Action 2.9: EL Supports, and Action 3.2: Targeted supports to increase student engagement. The continued bundling of administrative LCAP support and other services that are not targeted to English Learners under Action 2.9 – English Learner Supports is particularly troubling, especially because the investments in this action are reduced by 60 percent in the Amended LCAP without explanation or justification.

Please provide a disaggregated line item expenditure for Restorative Justice and Parent Engagement under School Autonomy and unbundle Action 1.9, 2.9, and 3.2 with disaggregated line item expenditures. Justify each discrete action within these mega-actions in the DIISUP section and analyze their effectiveness in the Annual Update.

II. The Amended LCAP Does Not Provide Sufficient School Level Allocation Transparency

As discussed in our complaint, LAUSD has a legal obligation to identify and justify school level allocations.³ The Amended LCAP slightly improves school level allocation transparency, but is still deficient in many ways, as discussed below.

Identifying School-level Allocations: To address this issue for the School Autonomy Action, the Amended LCAP refers to the “School Allocations for Targeted Student Populations” spreadsheet, which is helpful, but incomplete. The spreadsheet only captures \$508 million, but more than \$849 million is allocated under School Autonomy. Moreover, there are a number of additional school level allocations that are not included in the School Autonomy action, such as Action 1.8 Diploma Counselors (available at Title I high schools and 20 middle schools), Action 1.10 School Innovation Funds; Action 3.2 Targeted Student Supports, which appear to include 141 PSA/PSW positions that are not included in the spreadsheet; and Action 6.4 Ongoing Major Maintenance, which serves specific school sites. All school level allocations should be included in the spreadsheet. It would also be helpful to provide the corresponding LCAP actions to the spreadsheet because it is unclear which action certain budget codes are referring to.⁴

Identifying and Justifying Use of School-Level Allocations: The spreadsheet also does not provide information on how individual schools choose to use their discretionary dollars, which are all supplemental and concentration funds. As such, they must be used to increase and improve services for high need students. Although the LCAP refers to the TSP plans for these school-level justifications, not all discretionary funds are captured in the TSP plans – *i.e.*, School

³ See UCP Complaint at pp. 21-24.

⁴ For example, “Transitional Kindergarten Expansion” could refer to “Preschool Expansion,” one of the initiatives under School Autonomy, or to Action 2.6 Early Childhood Expansion/ Transitional Kindergarten Expansion Plan.

Innovation Funds, Local District Allocations to Schools, and Additional Resources for Innovation Focus Schools appear not to be included in TSP plans. Moreover, as discussed in our complaint and previous correspondence, the existing template does not provide space to explain how schoolwide expenditures are principally directed and effective in improving outcomes for high need students and also lacks any kind of reflection or Annual Update section, so there is no space to reflect on the effectiveness of services and plan for continuous improvement. We encourage you to adopt a modified TSP template, similar to the one that we previously sent to you. It is attached here for easy reference. These revised templates should be completed and appended as an update to a properly revised 2019-20 LCAP.

Clarifying Locations for Specific Actions: The Amended LCAP provided some additional information about particular school sites, but many locations remain unidentified. These include:

- **1.8 A-G Diploma Program:** The Annual Update mentions that this action served all Title I high schools and 20 identified middle schools, but the Goals Actions Services (GAS) section notes middle schools as the specific location, without explaining whether the program completely moved to the middle school level (and why) or if it was a mistake to omit Title I high schools as a location for this program.
- **1.9 A-G Intermediate Intervention Plan:** The Annual Update mentions that Middle School Intervention STAR and Middle School Intervention PASS were piloted in 2 middle schools but fails to identify them. The Annual Update mentions that 274 schools utilized Edgenuity Intervention, but fails to identify them
- **2.9 English Learner Supports:** The Annual Update states that 15 high schools and 20 middle schools receive Tier II intervention curriculum in 2019-20, but the specific schools are not identified, nor has the GAS section been changed to reflect these program modifications.
- **6.4 Ongoing major maintenance:** Identify the 667 sites visited by Tiger Teams and the 200 sites served by Strike Teams.

Clarifying “District Student Equity Index”: Action 3.2 Targeted Student Supports states that “[a]ll schools were given additional flexibility through the District’s student equity needs index to purchase additional staffing and resources.” (Amended LCAP, p. 93). It is not clear whether the “District student equity needs index” is the same as SENI or is something more simple like the “Student Equity Index” referenced in the Arts Equity Index calculation. This should be clarified and these school allocations should be added to the spreadsheet.

In summary, please add all school level allocations to the spreadsheet, modify the TSP template, clarify the specific locations for the actions referenced above, and clarify the “District Student Equity Index”.

III. The Amended LCAP Fails to Explain Material Changes to LAUSD’s Specific Actions and Spending Priorities

In several places, the Amended LCAP significantly revises on-going programs and specific actions yet fails to acknowledge or, even where acknowledged, fails to explain the program changes. *E.g.*:

- **Action 1.4 Reed Schools:** The Amended LCAP states that the program has sunset, yet \$2 million in budgeted expenditures remain.
- **Action 1.5 School Autonomy:** The Annual Update mentions that expenditures from a number of additional actions are incorporated into School Autonomy, including \$72 million in School Innovation Funds, yet the expenditures for School Autonomy have decreased by \$30 million. Altogether, that is a net decrease in \$100 million for the School Autonomy action that is not explained.
- **Action 2.1 Foster Youth Support Plan and Family Resource Centers:** The amended LCAP mentions that this action, which has historically focused on foster youth, will now expand provide specialized support services for students who are not foster youth, including students experiencing homelessness and/or involved in the criminal justice system. We understand from sources outside of the LCAP that caseloads are expected to increase by more than double, yet there is not a commensurate increase in investments. A major change like this should also be disclosed and explained in the LCAP.
- **Action 2.9 English Learner Supports:** The Amended LCAP reflects a 60 percent, or nearly \$12 million decrease in investments in English Learners, a high need group with persistent disparities in achievement, without any explanation. This is unacceptable.
- **Action 3.2 Targeted Student Supports:** In contrast, this action reflects a \$4 million increase in spending without any explanation. This lack of transparency is a by-product of the fact that the District has not broken down this bundled mega-action into discrete specific actions. Had it done so, the school community and the public could see what specific actions were receiving more investments.
- **Action 4.1: Targeted Parent Engagement:** The Annual update references the fact that this action has been reallocated to 1.5 but fails to clarify that it is only a partial reallocation.

Please explain these material changes to LAUSD's programs and spending plan in the LCAP.

IV. The Amended LCAP Fails to Justify Its Use of Supplemental and Concentration Funds as Increasing and Improving Services for High Need Students

The Amended LCAP provides more detail in its Demonstration of Increased or Improved Services for Unduplicated Pupils (DIISUP) section, but many actions remain either unaddressed entirely or insufficiently justified, including:

- **Action 1.5 School Autonomy (\$849 million):** The DIISUP states that “[t]his Action is principally directed toward targeted student populations as its allocations and distribution of resources are focused on schools with high percentages of targeted student population students.”⁵ Although this is true for the \$247 million SENI allocation, it is not necessarily true for the remaining \$501 million. Some of the sub-actions under School Autonomy are almost certainly not allocated equitably, including:
 - Across-the-board teachers (\$238.1 million) and campus aides (\$8.7 million) salary increases (“proportionality”), while important and necessary, would be difficult to justify as an increased or improved service for high need students. These expenditures have never previously been identified in an LCAP and have never been justified as principally directed and effective; the Amended LCAP does not even attempt to provide any such justification.
 - Allocations to pilot schools (\$42 million), which do not necessarily have high percentages of high need students. For example, Balboa Elementary School is a low-need school according to the SENI yet receives \$112,686 in additional supplemental and concentration funds because it is a pilot school, even though many highest-need elementary schools do not receive any funding.
 - Local District Salaries/Benefits/ OE (\$24.2 million) and Local District Support (\$7.5 million): These never-before identified expenditures are almost certainly a base expenditure because they focus on the administration of all schools and students. No attempt is made in the LCAP to justify them.
 - Other School Based Resources, including nurses, counselors, librarians, and Assistant Principals, are allocated based on a norm table, which often means that high need schools receive fewer resources. For example, North Hollywood Senior High is a lowest-need school according to SENI but receives greater allocations for counselors, Class Size Reduction teachers, and librarians than Jefferson Senior High, which is a highest-need school. These non-equitably allocated positions account for more than \$100 million in the School Autonomy Action and are not sufficiently justified as increased or improved services.

Even SENI, which is allocated equitably, does not automatically satisfy the requirement to use supplemental and concentration funds to increase and improve services for high need students. Sometimes, lower-need schools get more through the hold harmless

⁵ See Amended LCAP at p. 250.

provision. Since all schools get SENI, this allocation can only be justified in full if lowest-need schools are targeting these funds to serve high need students versus all students. As discussed above, LAUSD and its LCAP does not hold schools accountable for properly spending the supplemental and concentration funds allocated according to SENI because its TSP template is inadequate. As such, LAUSD's LCAP does not meet LCFF's legal requirements for demonstrating that its SENI allocations are increasing or improving services for high-need students.

- **Action 2.9 LCAP Administrative Support (part of a bundled action labeled English Learner Supports):** The DIISUP discusses English Learner instructional courses and supports, but does not identify or justify the LCAP administrative support that is also bundled with this action.
- **Action 2.11 Targeted Instructional Support:** This action is described as an across-the-board class size reduction teacher for every middle school and high school, as well as targeted elementary schools. The DIISUP incorrectly states that it will be folded into School Autonomy and provides no other justification for using equity dollars on across-the-board class size reduction.
- **Action 2.12 Arts Equity Index:** Like SENI, all schools receive an art allocation that is based on some sort of equity index. Since all schools get AEI funds, this allocation appears to be more of an across-the-board service provided to all students; perhaps if schools with greater concentrations of unduplicated pupils receive extra AEI funds, the delta could be justified as a proper S&C use; as is, the District fails to conduct a sufficient analysis to justify the claimed expenditure.
- **Action 3.2 Targeted Student Supports:** The DIISUP discusses the Student Health and Human Services staff that were funded under this action, but does not discuss the clerical and custodial supports or other personnel that are also bundled together here, thereby failing to justify all the personnel components.

In sum, the amended LCAP does not even attempt to justify more than \$500 million in supplemental and concentration funds, much of which likely cannot be justified. Moreover, most of the actions that are discussed in the DIISUP are not properly justified as both “principally directed” and “effective” according to the regulatory standards and guidance from CDE decisions as set forth in the Complaint.

Please separately identify and justify all entity-wide actions supported with supplemental and concentration funds and move expenditures that cannot be justified to base funding.

V. LAUSD Fails to Demonstrate that its MPP is Met in the Amended LCAP

LAUSD must spend \$1.14 billion in investments directed towards high-need pupil goals or, put another way, slightly more than 32% in additional services focused on high-need students over

and above the standard program provided to all students. As discussed above, there is no attempt even to justify more than \$500 million in supplemental and concentration funds.⁶ More fundamentally, LAUSD again undertakes no quantitative or qualitative analysis to show the District is increasing or improving services by the above dollar or percent amounts for high need students over services provided for all students. The DIISUP section in the Amended LCAP repeats word-for-word the same failed language regarding its overall program that the Complaint criticized and that LACOE rejected and directed LAUSD to fix in order to demonstrate it is meeting its Minimum Proportionality Percentage (MPP).

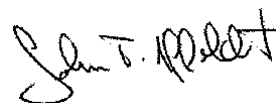

Please increase investments that prioritize the high need students of color to meet the MPP requirement and demonstrate quantitatively or qualitatively that the District is meeting its MPP.

VI. Community Engagement Process

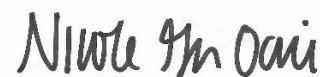

As discussed in prior communications, we maintain that a full community engagement process is required because the LCAP has now undergone substantial changes. The engagement process for the Amended LCAP has been a sham. LAUSD posted its 274-page document (more than twice the length of its original) on its website at the end of the day on September 12th and will only take feedback until September 17th at 5pm. It is nearly impossible for the public to digest such a long document and provide feedback within a few days. Moreover, LAUSD convened the parent committees to provide input on the accessibility of the LCAP on September 12th before releasing the Amended LCAP to the public but did not solicit substantive feedback or tell parents about the online feedback process.

Please correct the remaining deficiencies in the Amended LCAP and let us know if you need any additional support.

Sincerely,

John Affeldt
Public Advocates Inc.
131 Steuart Street, Suite 300
San Francisco, CA 94105

⁶ In addition, the Amended LCAP reveals apparent double counting of actions and services (i.e. Preschool Expansion is part of 1.5 and 2.9; Transition Services for TSP populations, Speech and Pathology Services for Preschool, and EL Master Plan Professional Development are both part of 1.5 and 2.9). This duplication also potentially undermines equity by tens of millions of dollars.

Re: UCP LCAP Complaint; Response to September 6, 2019 Letter

Dear Ms. Ochi,

We appreciate our ongoing dialogue regarding the District's June 19, 2019 LCAP and its amendment ("amended LCAP"). With this letter, we respond to the questions raised in your September 6, 2019 letter. The District plans to make public its amended LCAP on September 12, 2019. We describe below the extensive efforts the District will undertake to ensure that all students, parents, and other stakeholders have an opportunity to provide feedback to the amendment. The Board of Education will vote on approval of the amended LCAP on September 24, 2019.

Regarding the School Autonomy section, the amended LCAP not only enumerates individual expenditures within the School Autonomy action, but also identifies whether each expenditure is a district-wide, school-discretionary, or other school-based expenditure. As to your comments regarding school site allocations, the amended LCAP identifies the subset of schools receiving services for all actions providing services to a specific subset of schools, which are the actions for which such identification is required under the law.

As to the Community Engagement Process, there is no statutory basis to require the District to again engage in the process described in Education Code section 52062, subdivisions (a)-(b), when amending an LCAP after July 1 but before the LCAP is in effect. Further, the full PAC and DELAC were dissolved on July 1, 2019, and new members will not be elected for the 2020-2021 LCAP before the Board of Education's September 24, 2019 vote. District staff have

verified this legal position with the Los Angeles County Office of Education, which agrees that this is the correct interpretation of Education Code section 52062.

Despite the lack of a statutory requirement, the District has been and remains fully committed to transparency and to community engagement not only in drafting its LCAP, but also in amending it. The District has therefore developed a full community engagement process for the amended LCAP that is more robust and provides greater opportunity for parents and stakeholders to provide feedback than would be possible in one public hearing. As noted above, the District will publicly release the draft amended LCAP online on September 12, 2019. The District developed an online, multilingual feedback form to gather input from the public on the amended LCAP. This form has been developed in consultation with the remaining members of both the PAC and DELAC, whose two-year terms have not yet ended, and will be promoted by the District's Parent Community Services Branch. The District has also arranged to make available its local district offices and staff to provide any technical or translation services needed to assist parents or other stakeholders in providing feedback. The District will also ask the remaining members of both the PAC and DELAC to provide feedback on the summary of changes in the amended LCAP, and they will be free to provide feedback on the entire amended LCAP. We believe that this process goes beyond what the law requires and exceeds what you have requested because stakeholder feedback will be generated in writing and in real-time over a number of days.

We respond to your specific questions as follows.

1) When will LAUSD publicly release its amended LCAP?

The amended LCAP will be publicly released on September 12, 2019.

2) After the amended LCAP is released to the public, how will stakeholders have an opportunity to provide feedback?

See the description above of the District's planned community engagement process.

3) Is there a deadline for stakeholder feedback so that it can be incorporated into the amended LCAP in advance of September 24, 2019?

Yes. The last date that District staff can make changes to the amended LCAP before the Board votes on it is September 17, 2019.

4) How will staff communicate to stakeholders about how they have incorporated certain feedback and why they did not incorporate other feedback?

At the request of the Los Angeles County Office of Education, the "Stakeholder Engagement" section of the amended LCAP contains additional information about where and how the District incorporated feedback from stakeholders, and the District will continue to update this section as it incorporates feedback as to the draft amended LCAP.

5) What are the barriers to providing a full community engagement process required by law?

Nicole Ochi
September 11, 2019
Page 3

As noted above, the District has in fact engaged the community as required by law during the 2018-19 school year and is now providing a full community engagement process as to the amended LCAP.

Again, we appreciate our ongoing dialogue and we are committed to continuing the process with you and with all stakeholders.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dale Larson', with a long horizontal flourish extending to the right.

RE: LAUSD LCAP Complaint – Reply August 29, 2019 Response Letter

Dear Dale:

Thank you for your August 29, 2019 response letter.

School Autonomy

We are pleased to hear that the amended LCAP will break down and provide each of the individual expenditures for the School Autonomy action and that the \$340 million of unaccounted for expenditures will be identified and justified, as required by law.¹ In our prior letter, we suggested that the amended LCAP identify whether each individual expenditure is a district-mandated, district-directed, or locally-determined sub-action because it is confusing to put such different actions under the label of “School Autonomy.” However, we did not intend to suggest that disaggregating the School Autonomy action into these categories would be sufficient; to the contrary, as discussed at length in our Complaint, the expenditures in this action must be unbundled for every specific action, and it would be helpful if the amended LCAP indicates whether each of those specific actions and individual expenditures are district-mandated, district-directed, or locally-determined.

School Site Allocations

We are also pleased to hear that our school site allocation examples and template were helpful and look forward to reviewing the amended LCAP for substantial improvements in transparency on school site allocations.

¹ We will await the amended LCAP to determine if our quibble over the term “action” is meaningful, but we maintain that our usage of the term “specific action” in our complaint and subsequent correspondence is consistent with its plain meaning and the statutory and regulatory scheme.
SV: 168971-1

Community Engagement Process

We continue to disagree with your position that a full community engagement process is not required. If LAUSD's amended LCAP complies with the law, then it will be a fundamentally different document than the deficient one presented to the community and adopted by the Board on June 18th. The June 18th LCAP failed, for example, to justify *any* of its entity-wide supplemental and concentration fund expenditures and did not provide any meaningful detail on its \$880 million School Autonomy action or its over \$460 million in school site allocations. You have assured us that these deficiencies will be corrected in the amended LCAP. Therefore, the amended LCAP will be a fundamentally different and new document than the one presented to the community stakeholders—for the first time, stakeholders should be able to understand how LAUSD is investing its supplemental and concentration funds and review the District's justification for those investments. Parents and other community stakeholders deserve an opportunity to review and provide input about these crucial decisions for the first time.

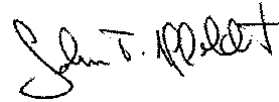

Accordingly, we maintain that the full community engagement process described in Cal. Educ. Code § 52062(a)-(b) is required—i.e., review and comment by the PAC and DELAC, a public hearing to solicit the recommendations and comments of the public in conjunction with the budget, and adoption at a subsequent public meeting together with the adoption of an aligned budget. We understand that the timeline is tight, but if LAUSD plans to “release its amended LCAP publicly well in advance of the Board approval meeting [on September 24th],” then there should be enough time to convene the PAC and DELAC for feedback and response, as well as hold another public meeting. For example, LAUSD could hold a special LCAP hearing on September 17th, similar to the June 11th public meeting that LAUSD convened specifically to obtain feedback on the LCAP and budget, one week prior to the June 18th adoption. Further, we have strongly recommended that you convene a broader public town hall to engage stakeholders in a meaningful dialogue by explaining how the recommendations of the PAC and DELAC impact the amendments to the LCAP, and provide an opportunity for stakeholders to ask questions and provide additional feedback.

To clarify your process, we would appreciate your responses to the following questions:

- 1) When will LAUSD publicly release its amended LCAP?
- 2) After the amended LCAP is released to the public, how will stakeholders have an opportunity to provide feedback?
- 3) Is there a deadline for stakeholder feedback so that it can be incorporated into the amended LCAP in advance of September 24, 2019?
- 4) How will staff communicate to stakeholders about how they have incorporated certain feedback and why they did not incorporate other feedback?
- 5) What are the barriers to providing a full community engagement process required by law?

Thank you for the continued dialogue. We are happy to troubleshoot any issues with the amended LCAP or the community engagement process, so please do not hesitate to reach out.

Sincerely,

Re: UCP LCAP Complaint; Response to August 22, 2019, Letter

Dear Ms. Ochi:

I write in response to your August 22, 2019 letter memorializing our August 16, 2019 meeting. This letter clarifies the District's position in a few areas identified in your letter. As a general matter, you are correct that the District is in the process of amending the LCAP ("amended LCAP") and has not yet completed that process. The District has received requested changes from LACOE and has been working with them to incorporate those changes, as we have in past years. To allow sufficient time for District staff to complete the amended LCAP and for meaningful communication with stakeholders, the District intends to have its Board of Education vote on approval of the amended LCAP at its September 24, 2019 meeting.

School Autonomy

As to the School Autonomy action in the 2019-20 LCAP—Goal 1, Action 5—the amended LCAP will provide additional detail. In response to a request from LACOE, the amended LCAP will break down and provide each of the individual expenditures in that action. This will provide more detail than the four areas identified in your letter (SENI equity-based school autonomy, non-SENI school autonomy via the Per Pupil Funding Model, District-mandated school allocations,

and District-directed positions that school sites may elect not to purchase), and will also address your concerns regarding items that you contend “remain[] to be identified and justified.”¹

Furthermore, it has been the District’s plan to use the next three-year LCAP, starting with the District’s 2020-21 LCAP, as an opportunity to reorganize the School Autonomy action, which the District will do with input from stakeholders.

School Site Allocations

The District appreciates the examples of school site allocation identification and justification you provided. The District’s LCAP team is reviewing those examples as part of the amendment process. The District had also received a request from LACOE for similar information.

Community Engagement Process

The District disagrees with your characterization that the District “had no plan to engage the community in providing input into the amended LCAP beyond a single board meeting for its adoption.” On the contrary, the District noted in the meeting that it planned to release its amended LCAP publicly well in advance of the Board approval meeting, and that it would consider all feedback it receives at that point. The District remains committed to that plan and is working to ensure that stakeholders will have an opportunity to provide feedback on the amended LCAP. This process will be done sufficiently in advance of September 24, 2019 to give staff the opportunity to incorporate feedback as appropriate into the amended LCAP before the Board votes on it.

Please let us know if you have any additional concerns and we will be happy to address them.

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Larson", with a stylized flourish at the end.

Dale Larson

CC: Megan Reilly
Derrick Chau
Julie Hall-Panameño
David Holmquist
Katrina Campbell

¹ As a legal matter, the District disagrees with your usage of the term “action” in your August 22, 2019 letter. The “action” as the term is used with LCAPs refers to, for example, “Goal 1, Action 5: School Autonomy” rather than what you refer to as “the array of actions collected under School Autonomy.” Nevertheless, as noted above, the amended LCAP will provide more detail as to this and other actions.

Dear All,

Thank you for meeting with us last Friday. I am attaching a follow up letter that memorializes our conversation, clarifies our position, and identifies LCAPs that are better examples of transparent school level allocations. We are also reviewing and providing suggested edits to your TSP template and will send that over shortly.

Best,
Nicole

Nicole,

My apologies regarding the meeting details. That was my error. Yes, we're on for Friday, August 16, from 10 am 10 12 noon. Delia Comeau, cc'd here, will contact you in a separate email to iron out the meeting details (location, attendees, building access, etc.)

With regard to document sharing, please send the request through the formal PRA process for tracking purposes. I'll work with the PRA unit to move your request through. If we have documents available to produce in short order, we'll certainly do that.

Have a great weekend.

Hi Katrina and Terrye,

I hope you are well. I am following up on our request for additional information and for a meeting. At this point, the only date that still seems viable is 8/16 – does that work on your end? Everyone will be back from vacation on our end by that date.

We look forward to connecting soon, and we would appreciate your response to the 3 questions posed in my prior email in the interim:

- 1) Please confirm whether you are moving forward with (a) the board-approved 6/18 LCAP currently posted on your website, (b) the 6/28 revised LCAP that was previously posted on your website, or (c) an amended LCAP.
- 2) If you are planning to amend your LCAP, we think it would help both of our teams move forward most expeditiously if you could share the most updated draft in advance of our meeting. In addition, it would be helpful if you could track changes to the 6/18 board-approved LCAP.
- 3) If you are planning to amend your LCAP, we also think it would be helpful for you to share the timeline for doing so, including the date you plan to finalize the amended draft LCAP, the process for sharing and seeking feedback from the PAC and DELAC, and the date of a public hearing and subsequent vote by the Board within the statutory deadlines for LCAP approval.

Thanks,
Nicole

Subject: RE: Request for Direct State Intervention - Referral to LAUSD

Hi Katrina and Terrye,

We are available on the following dates for a meet and confer on the complaint. Given the length and complexity of the complaint, we suggest blocking at least 2 hours for an in-person meeting (with a phone-in option).

Wed, 8/7: anytime

Thur, 8/8: 9-11am; 3-5pm

Friday, 8/16: 10-3pm

To maximize our time together, we think it is important that we are looking at the most up-to-date LCAP. Therefore, we request the following:

- 1) Please confirm whether you are moving forward with (a) the board-approved 6/18 LCAP currently posted on your website, (b) the 6/28 revised LCAP that was previously posted on your website, or (c) an amended LCAP.
- 2) If you are planning to amend your LCAP, we think it would help both of our teams move forward most expeditiously if you could share the most updated draft in advance of our meeting. In addition, it would be helpful if you could track changes to the 6/18 board-approved LCAP.
- 3) If you are planning to amend your LCAP, we also think it would be helpful for you to share the timeline for doing so, including the date you plan to finalize the amended draft LCAP, the process for sharing and seeking feedback from the PAC and DELAC, and the date of a public hearing and subsequent vote by the Board within the statutory deadlines for LCAP approval.

If there is anything that we can provide in advance to improve the efficiency of our meeting, please let us know. As we all know, the first day of school is just around the corner and it would be great if we could resolve this as quickly as possible.

Thanks,
Nicole

Subject: Re: Request for Direct State Intervention - Referral to LAUSD

Hi Katrina,

How about a call at 3:15 this afternoon?

And then I can meet in person (I live in LA) anytime on August 7th, with one of my colleagues on the phone (the others will be on vacation that week).

Let us know if that works.

Thanks,
Nicole

Hi Nicole,

I've been trying to get back to you all afternoon. I'm not available at noon tomorrow, but am available after 2 pm. Will that work? Even if we're not able to speak tomorrow, please send me a few dates for the week of August 5 or thereafter, so that we can get a meeting calendared.

Regards,

Katrina M. Campbell

Hello Nicole,

Thanks for getting back to me. I'm sorry this week didn't work for you as I'm out next week. No matter, we'll still get it calendared. I'll respond in a separate email to coordinate the dates as there may be several emails back and forth. I'll include your team in the separate email to weigh in on the dates.

Thanks much.

Dear Superintendent Beutner,

My name is Nicole Gon Ochi and I represent complainants in the attached complaint. I am writing to see if you would be amenable to sitting down with us and discussing the problems with LAUSD's LCAP and potential solutions. I think we all have the same goal of ensuring that all kids, especially high need kids, get the support that they need to thrive academically, socially, emotionally, and physically. Since the first day of school is right around the corner, we think it would be mutually beneficial to resolve this matter as quickly as possible, with the necessary community engagement, so that students get the services they need from the beginning of the school year.

Please let us know if you are interested in sitting down and discussing this complaint with us. You can reach me at 626-755-8565 or nochi@publicadvocates.org.

Thanks,
Nicole

Los Angeles Unified School District
2019-20 School-level Plan for Use of Targeted Student Population (TSP) Program Funds

Program Budget Codes:

10552 (SENI)
 10553 (SENI - Transitional)
 10397 (TSP Per Pupil School Allocation)

Name of School	LD	Principal

Total Student Enrollment	% of Low-Income Students	% of English Learner Students	% of Foster Youth Students	Total Amount of TSP Funds Allocated to the School	
				10183	\$
				10397	\$
				10400	\$
				10405	\$
				Total:	\$

Directions: Briefly describe, *if applicable*, the services being provided that are aligned to the District's LCAP goals and indicate the amount of TSP funds that support those services. Specify the targeted subgroup(s) as low-income students, English learners, RFEs, and/or foster youth and justify the use of the funds as supporting targeted subgroups effectively.

Title and Description of Actions/Services that address: 100% Graduation <i>Number each specific action separately.</i>	Targeted Student Group(s) or Schoolwide:	Confirmation the action/service is principally directed toward TSP <i>For each schoolwide action, describe how the needs of English Learner, low-income, and/or foster youth students principally informed these budgeted priorities.</i> <i>Budgeted priorities should be based upon the school's analysis of the following disaggregated</i>	Amount of TSP Funds	Confirmation the action/service contributes toward improved outcomes <i>For each schoolwide action, describe why it will be or (if already in place) is contributing to progress on one or more of the following outcome metrics: (1) graduation rate; (2) percentage of students on track for A-G. Describe the metric(s) used to measure effectiveness, the baseline, the prior year's outcome, and the expected outcome.</i>

Commented [N02]: Each of these metrics are taken directly from the original TSP template for this goal and all that follow.

		<i>data of low-income, English learners, RFEPs, and foster youth:</i> <ul style="list-style-type: none"> - Graduation rate - Individual Graduation Plan (IGP) completion rate - Percentage of students on track to graduate 	<i>After implementation: explain any changes in the actions.</i> How does this action contribute to progress towards the goal Metric: Expected outcome (2018-19) Actual outcome (2018-19) Expected outcome (2019-20) Modifications for 19-20: Explanation for change:
--	--	--	--

Commented [N01]: The mandate to analyze disaggregated data on these metrics is part of the original TSP template for this goal and all that follow.

Title and Description of Actions/Services that address: Proficiency for All <i>Number each specific action separately.</i>	Targeted Student Group(s) or Schoolwide:	Confirmation the action/service is principally directed toward TSP <i>For each schoolwide action, describe how the needs of English Learner, low-income, and/or foster youth students principally informed these budgeted priorities.</i> <i>Budgeted priorities should be based upon the school's analysis of the following disaggregated data of low-income, English learners, RFEPs, and foster youth:</i> <ul style="list-style-type: none"> - SBAC English language arts and mathematics proficiency rates - EL reclassification rate - Rate of ELs making annual progress on CELDT - Rate of ELs demonstrating proficiency in English - Decrease in long-term English learners (LTELs) 	Amount of TSP Funds	Confirmation the action/service contributes toward improved outcomes <i>For each schoolwide action, describe why it will be or (if already in place) is contributing to progress on one or more of the following outcome metrics: (1) EL reclassification rate; (2) Percentage of ELs making annual progress on CELDT; and (3) Decrease in LTELs.</i> <i>Describe the metric(s) used to measure effectiveness, the baseline, the prior year's outcome, and the expected outcome.</i> <i>After implementation: explain any changes in the actions.</i> Metric: Expected outcome (2018-19) Actual outcome (2018-19) Expected outcome (2019-20)

Title and Description of Actions/Services that address: 100 % Attendance <i>Number each specific action separately.</i>	Targeted Student Group(s) or Schoolwide:	Confirmation the action/service is principally directed toward TSP <i>For each schoolwide action, describe how the needs of English Learner, low-income, and/or foster youth students principally informed these budgeted priorities.</i> <i>Budgeted priorities should be based upon the school's analysis of the following disaggregated data of low-income, English learners, RFEs, and foster youth:</i> <ul style="list-style-type: none"> - Percentage of students with a 96% (173-180 days) attendance rate - Percent of students missing 16 days or more in a school year 	Amount of TSP Funds	Confirmation the action/service contributes toward improved outcomes <i>For each schoolwide action, describe why it will be or (if already in place) is contributing to progress on one or more of the following outcome metrics: (1) % of students with a 96% attendance rate; (2) % of students missing 16 days or more in a school year.</i> <i>Describe the metric(s) used to measure effectiveness, the baseline, the prior year's outcome, and the expected outcome.</i> <i>After implementation: explain any changes in the actions.</i> Metric: Expected outcome (2018-19) Actual outcome (2018-19) Expected outcome (2019-20) Modifications: Explanation for change:
--	--	---	---------------------	--

Title and Description of Actions/Services that address:	Targeted Student Group(s) or Schoolwide:	Confirmation the action/service is principally directed toward TSP	Amount of TSP Funds	Confirmation the action/service contributes toward improved outcomes
---	--	--	---------------------	--

<p>Parent, Community, and Student Engagement</p> <p><i>Number each specific action separately.</i></p>		<p><i>For each schoolwide action, describe how the needs of English Learner, low-income, and/or foster youth students principally informed these budgeted priorities.</i></p> <p><i>Budgeted priorities should be based upon the school's analysis of the following disaggregated data of low-income, English learners, RFEs, and foster youth:</i></p> <ul style="list-style-type: none"> - <i>Percentage of parent participation on School Experience Survey</i> - <i>The responses from parents and students participating in the survey</i> 		<p><i>For each schoolwide action, describe why it will be or (if already in place) is contributing to progress on one or more of the following outcome metrics: (1) Percentage of schools training parents on academic initiatives by providing a minimum of four workshops annually.</i></p> <p><i>Describe the metric(s) used to measure effectiveness, the baseline, the prior year's outcome, and the expected outcome.</i></p> <p><i>After implementation: explain any changes in the actions.</i></p> <p>Metric: Expected outcome (2018-19) Actual outcome (2018-19) Expected outcome (2019-20)</p> <p>Modifications:</p> <p>Explanation for change:</p>
---	--	---	--	--

Commented [N03]: The TSP template only lists this metric to measure parent, community, and student engagement. We believe the district should identify stronger metrics that diversify the metrics to capture not only parent training, but also student and community training. We also encourage the District to consider the importance of training beyond academic initiatives to school climate and social emotional development.

<p>Title and Description of Actions/Services that address: Parent, Community, and Student Engagement</p> <p><i>Number each specific action separately.</i></p>	<p>Targeted Student Group(s) or Schoolwide:</p>	<p>Confirmation the action/service is principally directed toward TSP</p> <p><i>For each schoolwide action, describe how the needs of English Learner, low-income, and/or foster youth students principally informed these budgeted priorities.</i></p> <p><i>Budgeted priorities should be based upon the school's analysis of the following disaggregated data of low-income, English learners, RFEs, and foster youth:</i></p> <ul style="list-style-type: none"> - <i>Suspension rate</i> - <i>Expulsion rate</i> - <i>Extent to which the school is implementing the Discipline Foundation Policy</i> 	<p>Amount of TSP Funds</p>	<p>Confirmation the action/service contributes toward improved outcomes</p> <p><i>For each schoolwide action, describe why it will be or (if already in place) is contributing to progress on one or more of the following outcome metrics: (1) suspension rate; (2) expulsion rate; (3) extent to which the school is implementing the Discipline Foundation Policy.</i></p> <p><i>Describe the metric(s) used to measure effectiveness, the baseline, the prior year's outcome, and the expected outcome.</i></p> <p><i>After implementation: explain any changes in the actions.</i></p>
---	--	--	-----------------------------------	--

				<div>Metric: Expected outcome (2018-19) Actual outcome (2018-19) Expected outcome (2019-20) Modifications: Explanation for change:</div>
--	--	--	--	--

I have reviewed the Targeted Student Population (TSP) plan and recommend it for implementation.

VIA EMAIL ONLY

RE: LAUSD LCAP Complaint

Dear Katrina, Dale, Michael, Derrick, et al.,

Thank you for taking the time to meet with us on Friday to discuss LAUSD's LCAPs and the pending UCP complaints.

Based on our meeting, it is our understanding that LAUSD will be amending its LCAP to respond to LACOE's comments, as well as issues raised in our UCP complaint. The amended LCAP is not yet completed and, at a minimum, you anticipate seeking board approval of the amended LCAP and corresponding budget changes at either the September 3rd or September 24th board meetings.

Scope of Amendments

We spoke at length on Friday about the school autonomy action and the school site allocations.

School Autonomy: LAUSD indicated that it would be "a little bit challenging" to break up the School Autonomy section but agreed to provide more details and break up the different actions and assign expenditures to those sub-actions. We stated that the District could conceptually continue to present together the array of actions collected under School Autonomy and comply with LCAP requirements as long as Action 1.5 properly identified the specific actions that make up School Autonomy, associated the amount of budgeted expenditures with each specific action, justified each entity-wide specific action as principally directed and effective and structured its future Annual Update/reflection section so as to be able to review the implementation, effectiveness and material changes concerning each specific action under School Autonomy.

In future years, we urge the District to reserve the School Autonomy label only to describe specific actions that truly reflect delegations of funds to local school sites for locally-determined uses to advance high need pupil goals. Those actions within the current School Autonomy action

1.5 that are actually district-mandated spending should be located in other action descriptions. If the District intends to maintain the existing School Autonomy structure in its revised 2019-20 LCAP, we would urge you to categorize the specific actions in categories similar to those that LACOE required last year, specifically:

- SENI equity-based school autonomy
- Non-SENI school autonomy via the Per Pupil Funding Model¹
- District-mandated school allocations: *E.g.*, Nurses, Secondary Counselors, CSR Teachers, Librarians,² Arts Program³
- District-directed positions that school sites may elect not to purchase: *E.g.*, Assistant Principals⁴

The [2019-20 School Allocations for Targeted Student Population](#), which includes all of these programs (plus the \$54.6 million in Transitional Kindergarten Expansion that is squarely located in Goal 2, Action 6) only totals \$508 million, whereas the budget for the School Autonomy action is \$880 million. Therefore, at least \$372 million of expenditures in the School Autonomy action remains to be identified and justified. These expenditures are likely the carryover funds from the \$340 million in Realignment actions and services that were never identified or justified,

¹ The Per Pupil Funding Model is listed as a TSP program that expends \$47 million in supplemental and concentration funds in the list of [LAUSD Investments to Support Targeted Youth](#). We are not clear as to the precise method for allocating these funds nor that method's intersection with LCFF's equity principles and its requirements for use of supplemental and concentration funds. For example, according to the [2019-20 School Allocations for Targeted Student Population](#), lowest need schools like the Ramon C. Cortines School of Visual and Performing Arts, John F. Kennedy High, and Van Nuys Senior High receive millions of dollars in allocations whereas highest need schools, like Dorsey High, North Hollywood Senior High, and Maywood Academy High receive nothing. Hopefully the greater transparency of the revised LCAP can shed light on how these funds are principally directed toward and effective in serving the District's goals for high need students.

² According to the [2019-20 Guide to School Budgeting](#), nurses and secondary school counselors (Budget code 10529) are allocated based on the District's mandated requirements without any flexibility by the school site. Therefore, these investments are not true "school autonomy" actions. Similarly, schools do not appear to have flexibility over librarians and CSR teachers (at least those allocated under Budget Code 10989). See [2019-20 Guide to School Budgeting](#).

³ The June 18th LCAP identifies the Arts Program as an action under Goal 2, Action 12 while also referencing a redesigned arts program under School Autonomy. Similarly, the June 18th LCAP identifies nurse and counselor services in both School Autonomy, action 1.5 and Goal 3, Action 2 (Targeted Supports to Increase Student Engagement at campuses of highest need). The revised LCAP should clarify if these are the same or distinct specific actions and, if the same, should eliminate the duplication and the double-counting toward LAUSD's S&C/MPP obligation. See Complaint at 19, Section II.D.

⁴ See 2019-20 Guide to School Budgeting at 25.

which you agreed to explain in your amended LCAP. We look forward to transparency around these funds for the first time.

School Site Allocations: We disagreed about the level of justification required by school sites, but we agreed to send over some examples. Although no example fully addresses the school allocation issue (Elk Grove comes the closest), we pass on better examples of school site allocation identification and justification by the following districts:

- [Sacramento City Unified](#): For each action that allocates funding by school site, the LCAP identifies the specific schools listed and/or a rationale for the schools that receive the services. (*E.g.*, Actions 1.13-1.16 at 77-84.) For true school autonomy actions, the LCAP specifies that School Site Councils determine the best use of the money and are responsible for ensuring that actions funded with supplemental and concentration dollars are principally directed to support high needs students and are charged with evaluating effectiveness.
- [Elk Grove Unified](#): Similar to the Sacramento City LCAP, the Elk Grove LCAP identifies the specific schools that receive allocations for each action. In addition, Elk Grove has instituted [school site LCAPs](#) that align with District LCAPs.
- [Alameda Unified](#): Alameda differentiates between school level allocations of supplemental and concentration funding and centralized funding. For school level allocation, Alameda provides the amount that each school receives and discloses the per pupil funding amount by school.

Although LAUSD is larger than any of the above referenced districts, it would be possible to identify a list of schools and their allocations by adding and referencing an appendix, similar to the [spreadsheet](#) that has already been created, but corresponding to actions in the LCAP. If the District adds this appendix and modifies its TPS template,⁵ it will radically improve the transparency and accountability of its school level allocations. In addition, we would like to stress that the timing is crucial--schools must understand their anticipated allocations early enough in the process to begin planning in January or February to be able to identify and justify their school level actions in time for a June LCAP adoption.

Although we focused on these two issues, we want to reiterate that bundling is a problem throughout LAUSD's LCAP, and not just in the school autonomy section. *See generally* Complaint Section II.A.-E. Moreover, we remain concerned that LAUSD is completely ignoring its duty to justify its use of supplemental and concentration funds. Even if an amended LCAP breaks out districtwide expenditures on Assistant Principals, for example, as a sub-action for School Autonomy, that by itself will not answer the fundamental question of whether these positions are targeted to effectively increasing and improving services for high need students. As noted above, each specific action that is schoolwide or districtwide and supported with S&C

⁵ We will send you TSP template revision thoughts separately soon.

funds will need to be separately justified as principally directed and effective in the DIISUP section.⁶

Community Engagement Process

On Friday, you indicated the District, at that moment, had no plan to engage the community in providing input into the amended LCAP beyond a single board meeting for its adoption. We cannot stress enough that the very significant revisions you are contemplating based on LACOE's feedback to date and on our Complaint are not the typical county-provoked tweaks to a fully vetted and approved LCAP. The district will be effectively vetting and adopting many aspects of its 2019-20 LCAP for the first time. As such, we believe it essential that LAUSD follow the statutory requirements for review and approval of LCAPs and substantial revisions thereto. Moreover, you heard directly from Ms. Carrion and Ms. Velasco about the importance of meaningful community engagement. Although the timing is tight, we hope that you will make time to conduct a meaningful public amendment process that includes:

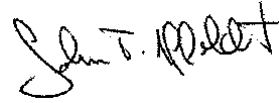

- A community town hall prior to any public hearings before the Board that includes 2018-19 PAC and DELAC members, community organizations, and any other interested stakeholders. As we discussed on Friday, it would be preferable if this town hall was held somewhere other than Beaudry and in locations that are accessible to parents from across the district. One option is to use technology to bring people from multiple local sites together into one conversation. To create a meaningful space for engagement, we recommend the District staff present on the amendments and identify where the PAC and DELAC recommendations impacted the LCAP (by specific action and increased expenditure amount) and explain why other recommendations were not implemented. We further recommend that community stakeholders are allotted significant time to ask questions and provide feedback on the amended LCAP. If you decide to move forward with this idea, please let us know and we are happy to help.
- A public hearing to discuss the LCAP and budget amendments prior to the meeting where the Board votes (i.e., the September 3rd meeting).
- A subsequent public hearing during which the Board approves the amended LCAP and budget (i.e., September 24th meeting).

Our hope is that you will view this as an opportunity to engage in meaningful communication with stakeholders and not as a compliance activity.

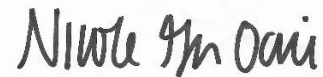

If we can provide any assistance as you amend your LCAP, please let us know and we will do our best to assist.

⁶ See Elk Grove LCAP's DIISUP section at p. 116-155 for an interesting example of how to justify S&C entity-wide actions.

Sincerely,

John Affeldt

No.	Proposed Change	Description	Sum of Amount	Sum of Approval
1	Extended Transitional Kindergarten (ETK)/Pre-school Collaborative Classroom (PCC) Expansion	Expand conversion of existing Pre-school Moderate (PSM) classes into more comprehensive ETK/PCC classes (\$0.31M in FY15-16 and \$10M in FY 16-17)	\$ 10,267,402	\$ 10,267,402
2	Coordinated Professional Development (PD) Framework	Design Professional Development courses to identify & service targeted student population (TSP).	\$ 1,050,220	\$ 1,050,220
3	Pre-school for All (PAL) Expansion	Expand conversion of existing mixed Pre-K classes into more comprehensive PAL classes (\$23.1M in FY14-15, \$51.7M in FY15-16 and \$73.6 in FY16-17)	\$ 148,391,291	\$ 148,391,291
4	Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC)	Embedding Speech & Language Pathology services into existing PAL & PSC classes	\$ 4,714,437	\$ 4,714,437
5	Assistant Principal	All Assistant Principal (Base will only include Principals)	\$ 36,000,000	\$ 36,000,000
6	In the 2015-2016 school year, the More than a Meal Campaign was initiated to bring District wide awareness and support to the schools and parents around the importance of identifying students who are English Language Learners, Foster Youth or come from low income homes through the completion of meal applications or household income forms.	The campaign implementation period is July through October. At which time, a team of Central Office staff work on the campaign part time and a professional service contract is utilized for staff support directly to the schools. It is directly through this campaign work that the targeted student population is identified. Without this work, there would be a strong potential for under identification of the targeted student population (TSP) resulting in unmet student needs.	\$ 300,000	\$ 300,000
7	General Fund support to the Child Development Fund. Funding is targeted towards low income students. Students have to qualify to participate in the program and documentation is kept for each student. Family income is one of the criteria used to determine student eligibility.	State reimbursement rates for the California State Pre-school Program (CSPP) are insufficient to cover the total cost of the program operated in LAUSD. Therefore, the District provides General Fund monies to cover the shortfall. The program provides that enrollment priority be given to low income students.	\$ 35,000,000	\$ 35,000,000
8	Instruction	Access, Equity & Acceleration, Innovation, LD Zdirectors of Instruction (10%), Extended Transitional Kindergarten (ETK) Literacy, Operations Administrators, Operations Coordinators (10%) Restorative Justice, Administrator Coordinator (50%) Chief of Operations (25%) and Local District Art Specialists.	\$ 1,938,595	\$ 1,938,595
9	Transition Services for Targeted Student Population (TSP)	Re-focus Transition Services to concentrate on transitioning TSP	\$ 6,900,000	\$ 6,900,000
10	Student Health & Human Services (SHHS) Administration	Strategy and Strategic Projects focused on increasing attendance and an emphasis on Target Student Population (TSP) especially foster youth. (\$2.5M for FY14-15, \$3.9M for FY15-16 and \$4.1M for FY 16-17)	\$ 10,495,384	\$ 3,773,070
11	Advanced Placement (AP)	Shift the cost of AP Exam Fees for low-income students from base to Targeted Student Population program.	\$ 2,000,000	\$ 2,000,000

No.	Proposed Change	Description	Sum of Amount	Sum of Approval
12	Bilingual Differential	Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration.	\$ 1,000,000	\$ 1,000,000
13	Nursing Services	Focused School Nurses on serving TSP, with an emphasis on foster youth. Specifically trained in the 14-15 school year. (\$16.9M for FY14-15, \$15.6M for FY15-16 and \$17.3M for FY16-17)	\$ 14,000,000	\$ 14,000,000
14	Allocate resources for Operations Tiger Teams	Using a portion of Operations funds, establish Operations Tiger Teams made up of custodial staff to do cleaning and beautification work at schools above 100% on the "duplicated percentage" list. Approximately \$1.5 M in FY 16-17 from Operations will be allocated to this new program.	\$ 1,500,000	\$ 1,500,000
15	Reclassify Academic Decathlon Program	Academic Decathlon coaches will outreach to targeted group. Focus on increased study skills.	\$ 788,813	
16	TSP Class Size Reduction Program (CSR)	Create a TSP CSR program similar to the Integration CSR program that allocates additional norm teachers to Predominately Black, Hispanic, Asian, Other non-Anglo (PHBAO), Desegregated/Receiver, and Magnet schools. Cost shift from base to supplemental/concentration of \$143.3M.	\$ 143,300,000	
17	TSP Special Education Assistant/Trainee	Reassignment of SPED SDP assistants based on TSP instead of SDP Programs	\$ 71,770,790	
18	Student Support & Progress Team (SPPT)	Use of SSPT's to provide intervention & other services to TSP	\$ 76,200,000	
19	Districtwide	Teacher salary raises (14-15 \$129.2; 15-16 \$238.4; 16-17 \$265.7)	\$ 265,700,000	\$ 265,700,000
20	Policy Change: Increase Regular Routine General Maintenance (RRGM) resources to additional targeted schools	RESTRICTED funds are used for repair and maintenance of targeted schools. The policy will be changed to increase the number of targeted schools to which resources are allocated. Going forward, any targeted school with a 3-year rolling average over 100% will receive additional resources. This will result in an increase of approximately \$16.5 million at an additional 300 targeted schools. \$16.5M additional for FY 16-17 and on-going.	\$ 16,500,000	\$ 16,500,000
21	Redesign 2: Breakfast Program: Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).	Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.	\$ 1,620,000	\$ 1,620,000
22	Integration of Special Day Program (SDP) students	Pilot program to integrate TSP SPED students into GE program/classes	\$ 9,340,175	\$ 9,340,175

No.	Proposed Change	Description	Sum of Amount	Sum of Approval
23	Realignment: Campus Aides & General School Program Campus Aides	It is proposed that a formula called Safety Personnel Allocation be used to allocate campus aides. The goal for the Safety Personnel Allocation is to review current allocations and use that information to recommend modifications. The following information will be used in the allocation formula: enrollment, TSP students, API, suspensions, crime statistics, neighborhood crime statistics, safety personnel cost, current safety personnel allocations.	\$ 24,830,000	\$ 10,000,000
24	Realign Summer School Credit Recovery	Using the Student Equity Index, resources would be allocated to high schools based on needs of targeted groups instead of school enrollment.	\$ 916,872	
25	Re-identification 1: Information Technology (IT) Support Model was implemented to increase ITD's visits to school sites. The model gives priority to schools with a higher percentage of targeted students. The support structure dedicates technicians to routine school visits. With increasing dependency on technology at schools, the IT support visits minimize disruption to instruction due to technology related issues and maximizes teaching and learning.	The IT Support Model was implemented to increase the amount of time spent at schools with targeted student population. A grid structure was instituted to strategically place technicians in geographical areas and establish an escalation process by Local District region. Schools receive a pre-scheduled bi-weekly routine visit by a technician regardless of whether there is an immediate problem. The technician's mornings are utilized to perform routine visits and afternoons are reserved for visits to schools with targeted student populations. These technicians are not restricted to addressing computer issues, but can address any technology needs that arise at the site. If the technician is unable to solve a problem, he/she will contact the appropriate higher-level technician to coordinate the appropriate service. The Microcomputer Support Assistants (MCSA's) are already funded by LCFF and this proposal adds the IT Field Services Technicians to be funded by LCFF since both play an essential role in supporting schools. The proposal will simply change the funding of these positions from general fund to LCFF.	\$ 3,000,000	\$ 3,000,000
26	School Libraries/Librarians	Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program.	\$ 8,400,000	\$ 8,400,000
27	Counselor (High School Only)	All High School Counselors. District's High Schools are all Title I schools.	\$ 24,100,000	\$ 24,100,000
28	Government Relation Office Personnel Redesign	Redesign work-time and functions performed by 2 personnel to focus on targeted student population. Shifts approximately \$286,000 of current \$1.1M budget from base to supplemental/concentration.	\$ 286,000	\$ 286,000

**California Department of Education
Official Letter**

June 10, 2015

Dear County and District Superintendents and Charter School Administrators:

**USE OF LOCAL CONTROL FUNDING FORMULA SUPPLEMENTAL AND
CONCENTRATION GRANT FUNDS**

The Local Control Funding Formula (LCFF) adopted in June 2013 offers a dramatically new approach toward funding California schools. It gives power over the vast majority of spending decisions to those in the best position to know the needs and priorities of their districts—local school boards—while also requiring them to get significant input from their communities.

Use of Local Control Funding Formula Supplemental and Concentration Grant Funds for Salary Increases

The California Department of Education (CDE) has been asked under what circumstances it may be permissible for a school district to use supplemental and concentration grant funds apportioned to it pursuant to the LCFF to fund ongoing teacher compensation. Below is a summary of the applicable statutes and regulations and a discussion of the question posed. The Department had previously addressed this issue in a letter sent to the Fresno County Office of Education on April 14, 2015, which may have created some misunderstandings. For clarity, the following supersedes that letter.

Overview of Local Control Funding Formula Legislation

The LCFF was adopted in June 2013 and eliminated the revenue limit funding formula and numerous categorical programs. The formula establishes a target level for state funding based on an equal amount per pupil, with adjustments based on factors described below. The LCFF target represents the amount a district would receive when LCFF is fully funded. Currently, full funding is being phased in over several fiscal years.

The LCFF provides for a “base grant” that provides a school district with a specified amount per unit of average daily attendance based upon the pupils’ grade spans. In addition, the LCFF provides for add-ons to the base grant based on the unduplicated count of pupils enrolled in a district who are low-income, English learners, or foster youth (“unduplicated pupils”) (as defined by California *Education Code* [EC] Section 42238.02[b]). There is a “supplemental grant” add-on of 20 percent of the base funding for each unduplicated pupil. In addition, when the number of unduplicated pupils exceeds 55 percent of a school district’s enrollment, there is a “concentration grant” add-on of an additional 50 percent of the base amount for each unduplicated pupil in excess of 55 percent. The LCFF legislation required the State Board of Education (SBE) to adopt regulations governing the expenditure of supplemental and concentration grant funds. These funds must be expended in accordance with those regulations, as described more fully below. (EC sections 42238.02[e] and [f] and 42238.07 and 5 *California Code of Regulations* [CCR] sections 15494 through 15497.5.)

The Local Control Accountability Plan and Expenditure Regulations

The LCFF legislation requires school districts to adopt a Local Control and Accountability Plan (LCAP). The LCAP is a three-year plan that must be updated annually by July 1. (*EC* sections 52060[a] and [b] and 52061[a].) The Legislature required the SBE to adopt an LCAP and annual update template that districts are required to use. (*EC* sections 52060[a], 52061[a], and 52064.) The SBE-approved LCAP and Annual Update Template (LCAP Template) is set forth in 5 *CCR* Section 15497.5. A district LCAP is required to set forth the district's annual goals and related specific actions and budgeted expenditures for improving its educational program in eight state priority areas and any locally adopted priority areas. (*EC* Section 52060[c] and 5 *CCR* Section 15497.5.) The annual update must include a review of progress on LCAP goals, an assessment of the effectiveness of actions described in the LCAP toward achieving those goals, and a description of changes to the action the district will make as a result of this review. (*EC* Section 52061[a][2].)

The SBE specified requirements related to expenditures of supplemental and concentration grant funds in 5 *CCR* Section 15496. Under subdivision (a) of this regulation, a district is required to provide evidence in its LCAP to demonstrate how the district will use supplemental and concentration grant funds to support unduplicated pupils, and include an explanation of how expenditure of these funds will meet the district's goals for its unduplicated pupils in the state priority areas. Such funding must be used to "increase or improve services for unduplicated pupils as compared to services provided to all pupils in proportion to the amount of funds apportioned based on the number and concentration of unduplicated pupils as required by *EC* Section 42238.07(a)(1)." As required by *EC* Section 42238.07(b), the SBE expenditure regulations identify conditions under which a district may use supplemental and concentration grant funds on a districtwide basis. Under 5 *CCR* Section 15496(b), a district may demonstrate it has increased or improved services for unduplicated pupils by using these grant funds to upgrade the entire educational program of the school district, as follows. When a district has an enrollment of unduplicated pupils of 55 percent or more of the district's total enrollment in the fiscal year for which an LCAP is adopted or in the prior year, districtwide use of funds is permitted. A district making a districtwide expenditure must (1) identify in the LCAP the services that will be funded and provided on a districtwide basis; and (2) describe in the LCAP how such services are principally directed toward and are effective in meeting the district's goals for its unduplicated pupils in the state and local priority areas. When a district's enrollment of unduplicated pupils is less than 55 percent of a district's total enrollment in the fiscal year for which an LCAP is adopted, the district's LCAP must, in addition to the above, describe how the services to be provided districtwide are the "most effective" use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas and provide the basis for this determination, including but not limited to any alternatives considered and any supporting research, experience, or educational theory. (5 *CCR* Section 15496[b][2].)

When a County Superintendent reviews an LCAP for approval, he or she must review any descriptions of districtwide expenditures when determining whether a district has fully demonstrated that it will increase or improve services for unduplicated pupils. (*EC* Section 52070[d][3] and 5 *CCR* Section 15497.)

Use of Supplemental and Concentration Funds for Across-the-Board Salary Increases

A district may use supplemental and concentration funds for a general salary increase in a manner consistent with the expenditure regulations and LCAP Template regulations. (5 *CCR* sections 15496[a] and [b] and 15497.5 [LCAP Template sections 2 and 3].) In order to use supplemental and concentration grant funds for an across-the-board salary increase, or for any other districtwide purpose, a district must demonstrate in its LCAP how this use of the grant funds will increase or improve services for unduplicated pupils as compared to services provided all pupils. This should be in proportion to the

increase in supplemental and concentration funds apportioned on the basis of the number and concentration of unduplicated pupils. (5 CCR sections 15496[a] and [b], 15497, and 15497.5 [LCAP Template sections 2 and 3].)

For example, a district may be able to document in its LCAP that its salaries result in difficulties in recruiting, hiring, or retaining qualified staff which adversely affects the quality of the district's educational program, particularly for unduplicated pupils, and that the salary increase will address these adverse impacts. In this scenario, this district LCAP might specify a goal of increasing academic achievement of its unduplicated pupils and a related area of need for more teachers in the district with experience teaching the district's curriculum. In such a case, if the district has an enrollment of unduplicated pupils of 55 percent or more of the district's total enrollment in the fiscal year for which an LCAP is adopted or in the prior year, the district could then identify, as a corresponding service, a reduction of teacher turnover and the retention of experienced classroom teachers, supported by budgeted expenditures from supplemental and concentration grant funds, and describe in the LCAP how this service is principally directed toward and effective in meeting the district's identified academic achievement goal for its unduplicated pupils. (5 CCR sections 15496, 15497, and 15497.5 [LCAP Template sections 2 and 3].) As noted above, if the district's enrollment of unduplicated pupils is less than 55 percent of a district's total enrollment in the fiscal year for which an LCAP is adopted, the district's LCAP would have to, in addition to the above, describe how the reduction of teacher turnover and the retention of experienced classroom teachers provided districtwide are the "most effective" use of the funds to meet the district's goal for its unduplicated pupils, and provide the basis for this determination, including but not limited to any alternatives considered and any supporting research, experience, or educational theory. This is an example and is not intended to be exhaustive or exclusive.

Targeted Salary Increases

Districts may use supplemental and concentration grant funds to provide more targeted salary increases to increase or improve services for unduplicated pupils provided these meet the same legal requirements described above for expenditure of such funds and related documentation in the LCAP. For example, districts could provide salary increases for employees serving predominantly unduplicated pupils or provide increased compensation for a longer instructional day, particularly at schools serving predominantly unduplicated pupils. The district must appropriately document in its LCAP its basis and strategies for use of supplemental and concentration grant funds in keeping with 5 CCR sections 15496(a) and (b) and 15497.5 (LCAP Template sections 2 and 3).

We hope this information is of assistance in developing, adopting, and reviewing district LCAPs and Annual Updates.

If you have any further questions, please contact Jeff Breshears, Administrator, Local Agency Systems Support, by phone at 916-319-0303 or by e-mail at JBreshears@cde.ca.gov.

Sincerely,

Tom Torlakson

INTRODUCTION

LAUSD has traditionally allocated resources to schools in the form of positions (staff) and lump-sum dollars in various program codes. To improve LAUSD's budgeting process for schools, most General Fund school resources are allocated in one program code only, **13027, General Fund School Program**. Schools use the allocations in Program 13027 to develop budgets that meet the needs of local school instructional and operational programs within the constraints of federal and state laws, court orders and consent decrees, collective bargaining agreements, Personnel Commission Rules, and Human Resources Division rules and policies.

In school year 2013-14, Governor Jerry Brown introduced the new funding formula called the Local Control Funding Formula, otherwise known as the LCFF. Due to the change in school district funding by the State of California, schools receive resources in other program codes such as Programs 10397 and 10552. These program codes are earmarked to be spent on the students identified as English learner, eligible for free and reduced-price meals, and foster youth. These students are also referred to as the **Targeted Student Population** (TSP).

The following sections summarize the policies, restrictions, and flexibilities for budgeting and expending the funds allocated to schools in Program 13027. Principals should consider the funds allocated in this program along with other programs in developing their budgets. As the school year progresses, it is important to monitor and maintain the budget to avoid underspending or overspending. Many useful tools are available on the School Fiscal Services Branch website at <http://achieve.lausd.net/sfs>. Please contact your Fiscal Specialist for assistance in developing and maintaining your school's budgets.

A school budget is an important part of building student achievement. A carefully-considered budget reflects a school's strategies and priorities and maximizes the resources available to students.

The School Fiscal Services Branch is dedicated to supporting schools in building outstanding learning environments and helping all LAUSD children achieve.

WHAT'S NEW?

BUDGET ADJUSTMENT REQUEST PROCESS

The workflow process of a [Budget Adjustment Request](#) has been added in this version of the manual. It shows the steps and approvals necessary to process a budget adjustment request.

BUDGET TO ACTUAL PROCESS

"Budget to Actual" is the process of aligning budgets to actual cost of positions. Effective fiscal year 2018-19, the policy for processing "Budget to Actual" in Programs 10397 (TSP-Per Pupil Schools), 11119 (Dual/Foreign Language/Bilingual), and 13027 (General Fund School Program) has changed. For more details, click [here](#).

COMMUNITY REPRESENTATIVES AND SCHOOL SUPERVISION AIDES

Based on Assembly Bills 2160 and 2261, Community Representatives and School Supervision Aides were converted from unclassified to classified employees effective January 1, 2019. For more details, click [here](#).

K-3 CLASS SIZE AVERAGE AND ENROLLMENT DASHBOARD

Since LAUSD receives a large amount of funds for K-3 Class Size Reduction, the District has developed the K-3 Class Size Average and Enrollment Dashboard to assist schools in monitoring the K-3 class size average to avoid exceeding the State-required class size average of 24. This dashboard is within the Norm Enrollment and Staffing Dashboards. For more information, please see the section on School Resources or click [here](#).

LIBRARY AIDES

Funding for the Library Aides' cost of Health & Welfare and PERS funded out of specific program codes is provided. For more details click [here](#).

SCHOOL RESOURCES IN NEW PROGRAM CODES

Due to a change in the allocation formula of three Targeted Student Population (TSP) program codes, resource allocations in program codes 10183 (Targeted Student Population), 10400 (TSP-Investments), and 10405 (TSP-Parental Engagement) are now in program codes **10552** and **10553**. For more details, click [here](#).

Class Size Reduction Teachers and Teacher Librarians are now allocated in program code **10989**.

SCHOOL RESOURCES THAT END IN SCHOOL YEAR 2018-2019

Resources allocated in the Reed Program 10354 and Student Needs Equity Index (non-TSP) Program 10548 will cease to exist beginning school year 2019-2020.

FINANCIAL RESPONSIBILITIES OF SCHOOL PRINCIPALS

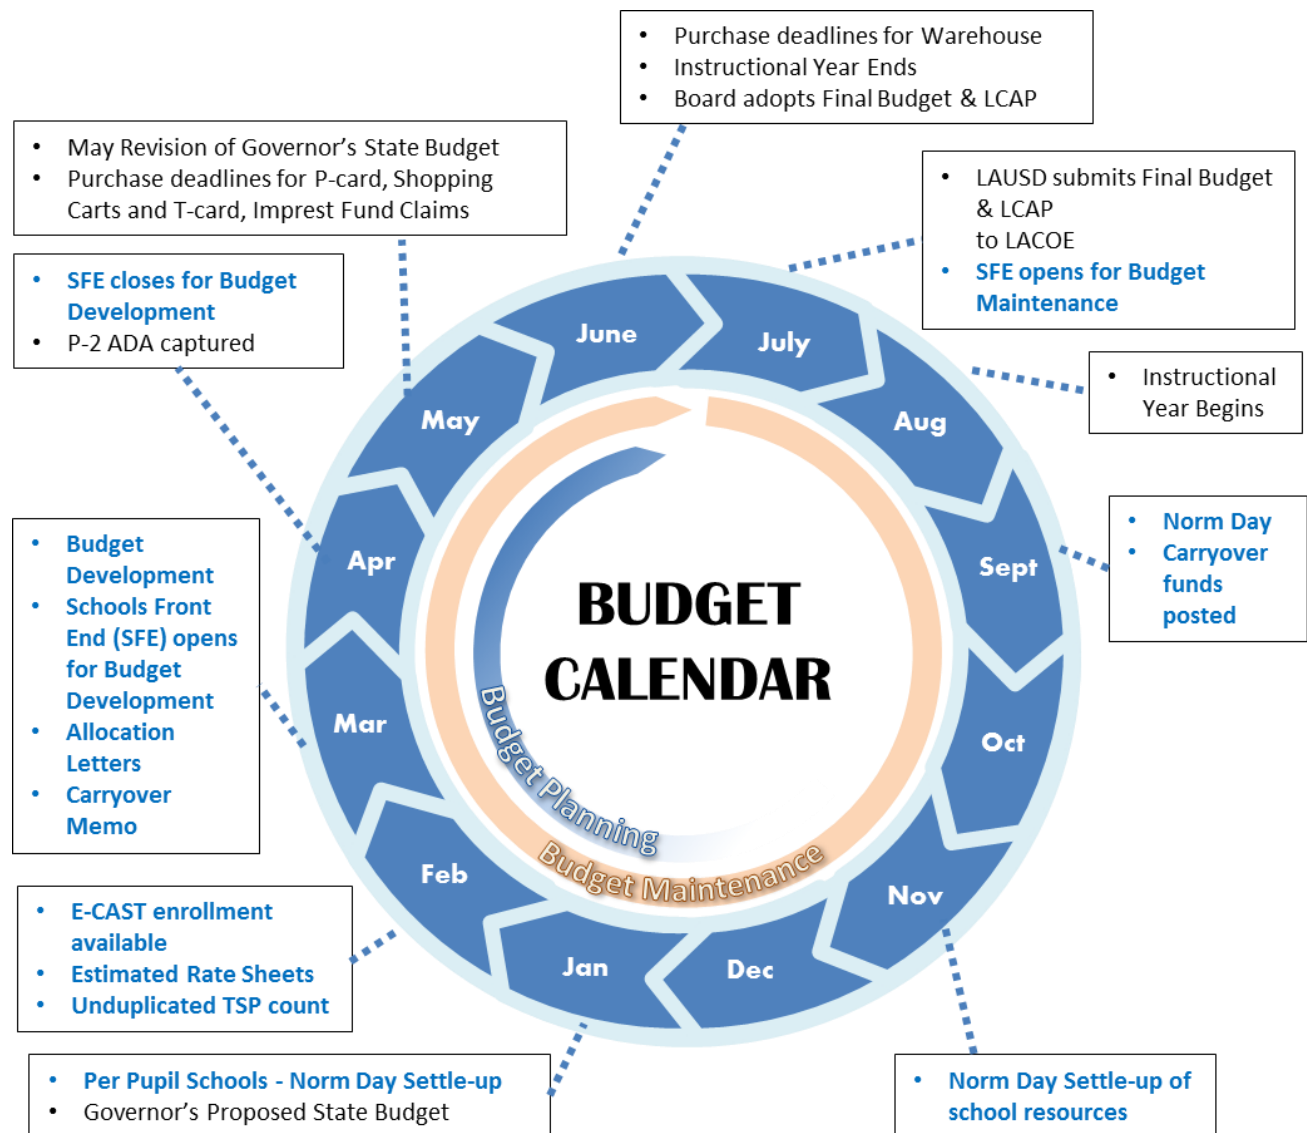

School principals oversee the instructional programs of schools. They are also responsible for making financial decisions and tracking the funds of their school. Below are some financial responsibilities of school principals:

1. Develop school budgets with student support and achievement in mind
2. Engage the school community in the development of school budgets
3. Ensure that enrollment and Average Daily Attendance data reported are accurate
4. Ensure that expenditures do not exceed budgeted amounts
5. Ensure that purchased positions are budgeted based on actual salary, and group and level of incumbent
6. Ensure that payroll time-reported has supporting documentation and should not exceed the budget
7. Ensure that "Goods Receipts" are processed online as soon as goods and/or services are received
8. Ensure that the Imprest Fund is reconciled and balanced every month
9. Meet with the Fiscal Specialist who can provide guidance in school finance

LAUSD's BUDGET CALENDAR

Below is a summarized version of LAUSD's budget calendar. As you probably know, budgeting does not only happen during one specific point in time. Whether it be preparing for next school year's district or school budget, the budgeting process happens all year round.

Note: Items in blue font involve school budgets.

SCHOOL BUDGET TIMELINES

FEBRUARY

- E-CAST enrollment is available
- Estimated Rate Sheets (estimated costs of budget items) is available
- Budget development resources available at <http://achieve.lausd.net/sfs>
- Meeting with school's stakeholders

MARCH

- Carryover memo is issued
- School budget development appointments begin
- School resource allocations become available
- School budgets are implemented in Schools Front End (SFE)

APRIL

- School budget development appointments continue
- Budget development ends and SFE closes for budget planning

MAY - JUNE

- Deadlines to purchase items for the current school year; refer to annual memo issued by Procurement Services Division
- Process "Goods Receipts" online to enable Accounts Payable to pay the vendors
- SFE closes for Budget Maintenance for the current school year

JULY

- SFE opens for Budget Maintenance for the new school year

SEPTEMBER

- Actual carryover funds in school accounts
- Norm Day – fifth Friday of the instructional calendar
- Enrollment and Staffing Dashboards are available

NOVEMBER - JANUARY

- Norm Day Settle-up process; adjustments to Norm-based resources
- School budgets are aligned to actual costs of Norm-based positions in Program 13027

BUDGET DEVELOPMENT

ENGAGING THE SCHOOL COMMUNITY IN THE BUDGET DEVELOPMENT

As transparency is a key goal of the District, school principals are expected to engage their school community in the budget-building process. School principals shall convene their school stakeholders for a collaborative discussion about their school's priorities, the Superintendent's instructional goals and priorities, the school's other strategic documents, and how to best budget the school's unrestricted resources to meet these priorities. The school principal has the final budget decision-making authority for funds in Program 13027 except as defined under Local School Leadership Council (LSLC) Budget Authority and subject to the approval of the Local District Superintendent or designee.

LOCAL SCHOOL LEADERSHIP COUNCIL (LSLC) BUDGET AUTHORITY (ARTICLE XVII, SECTION 2.4 (b) 5 OF THE LAUSD-UTLA COLLECTIVE BARGAINING AGREEMENT)

Schools implementing the LSLC budget authority will have the same authority preserved (neither expanded nor reduced) under Commitment Item 430010 (instructional materials) of Program Code 13027. LSLC budget authority will continue to require LSLC approval to transfer funds out of Commitment Item 430010 (instructional materials). For example, if a school was allocated \$5,000 in Commitment Item 430010 (instructional materials) during budget development, the LSLC has budget authority over the \$5,000. On the other hand, if additional funds are *transferred in* from other commitment items or program codes, the LSLC does not have budget authority over the amount transferred in. For example, \$1,000 is transferred from Commitment Item 430001 (general supplies) to 430010 (instructional materials), the LSLC does not have budget authority over the \$1,000.

BUDGET DEVELOPMENT DOCUMENTS

Below are documents that are necessary during budget development.

1. Employee Roster Report

This document lists positions funded with both *unrestricted* and *restricted* funds as well as *unfunded* positions (positions with zero dollars). Funded positions with corresponding dollar amounts represent norm-generated and districtwide targeted school resource positions based on the Board-approved staffing ratios and recommended staffing patterns for fiscal year 2019-20 and E-CAST enrollment data as of February 2019. Any prior reclassification to a position or any previously funded position outside of the recommended staffing patterns must be funded every fiscal year.

During budget development, principals have the option to make changes to their school's funded or unfunded positions subject to policy and guidelines of the

funding sources, Personnel Commission and Human Resources policies, and Unit D collective bargaining agreement.

2. **Estimated Rates By Budget Item**

Schools may purchase additional resources out of their unrestricted or restricted funds. The Estimated Rate Sheets (shopping list) lists pre-approved budget items and corresponding costs by program code. This document can be accessed online in Schools Front End (SFE) under the "Reports" tab as well as the School Fiscal Services Branch website at <http://achieve.lausd.net/sfs>.

3. **Request For Personnel Action (RPA) Form**

This form indicates the personnel action requested, the position's funding, personnel assignment attributes, and the necessary approvals. This form can be accessed at https://achieve.lausd.net/site/handlers/filedownload.ashx?moduleinstanceid=2466&dataid=2234&FileName=9073_Request%20for%20Personnel%20Action_03%202015.pdf.

At the end of budget development, Budget Services and Financial Planning Division forwards information on unfunded or closed positions to Human Resources and/or Personnel Commission. Filling newly-established, vacant, and limited-funded positions requires submission of the RPA. RPAs are not required for norm-generated positions. See example under Appendix 1 - Forms and Reports.

4. **School Budget Signature Form**

This form shows school resources by program code and includes the signature pages for all required approvals. This form can be found in Schools Front End (SFE) under the "Reports" tab. See example under Appendix 1 - Forms and Reports.

5. **Staffing and Resources Report**

This report summarizes school resources by job ID, budget item description, or commitment item description. The BP1 version of this report in programs 10529, 10552, 11119, and 13027 shows the staffing and resources based on federal and state laws, Collective Bargaining Unit Agreements, Personnel Commission and Human Resources Rules and Policies, court orders, and consent decrees. These are the Norm-based resources. See example under Appendix 1 - Forms and Reports.

SCHOOL RESOURCES

School resources in the General Fund School Programs are to support the instructional program and basic operation of the schools. These resources include core positions such as administrators, teachers, counselors, and clerical staff.

Schools receive other types of resources and services such as:

1. Resources to support the Targeted Student Population (TSP) – TSP students include those who are identified as English learners, eligible to receive free or reduced-price meals, and foster youth.
2. Resources specific to individual school-site needs such as campus aides
3. Centrally-administered resources and services such as school police, pool custodians, and gardeners
4. Federal resources allocated based on student attributes such as English learner or low income - These funds are meant to *supplement, not supplant* the schools' instructional program. The **Program and Budget Handbook** published by the Federal and State Education Programs (FSEP) Branch provides details on how to appropriately spend federal resources to provide supplemental services to students not meeting grade level standards and to those who are English learners.

SCHOOL RESOURCES AT BUDGET DEVELOPMENT

During budget development, the initial allocation of school resources is based on E-CAST (estimated/projected) enrollment. E-CAST enrollment projection is a forecast of school enrollments based on demographic trends and other factors. For more information, visit the E-CAST website at <http://www.laschools.org/new-site/my-school/ecast/>.

Historically, magnet enrollment forecast is created by rolling over the norm day enrollment numbers into E-CAST for budget development allocations. Beginning in 2017-18, forecasts were generated for newly-approved programs, schools with approved expansions/reconfigurations, or schools with known anticipated changes. The forecast for these schools and centers has been determined to be more accurate than norm day counts. This process will continue for the 2019-20 E-CAST.

The following school resources are allocated in **Program Code 13027**:

- Administrators
- Clerical Substitutes
- Clerical Support
- Counselors (*for non-Title I schools with grades 9-12*)
- Custodial Supplies
- Custodians
- Day-to-Day Substitutes for Teachers
- Financial Managers
- General Supplies
- Instructional Materials
- Interscholastic Athletic Program Resources
- Longevity and Salary Differentials for both Certificated and Classified staff
- Physical Education Teacher Incentive Grant (PETIP)
- Psychologists
- Registration Adviser Time
- Teacher Activity Differentials
- Teachers
- Temporary Personnel Funds
- Testing Coordinator Differentials

The following school resources were previously allocated in program 13027 or 10400 but are now allocated in other program codes as indicated below. The positions are budgeted at the incumbents' actual salary. Vacant positions will be budgeted at the same salary step/level as of the capture date in January 2019.

- Assistant Principal, Elementary or Secondary (Program 10552)
- Assistant Principal, Secondary Counseling Services (APSCS) (Program 10552)
- Counselors (*for Title I schools with grades 9-12*, Program 10529)
- Library Media Teachers/Teacher Librarians (Program 10989)
- Library Media Teacher Differential (Program 10989)
- Nurses (Program 10529)

School staffing is based on Board-approved staffing ratios. For non-position resources, the basis of allocation varies on the type of resource.

Below are non-position school resources in **Program Code 13027** and their basis of allocation.

School Resource	Rate/Basis of Allocation
Certificated Day-to-day Substitute (Budget item # 10559)	\$359.17 per day, allocated at 10 days per norm-generated register-carrying teacher position; if the register-carrying teacher is funded with specially-funded programs (e.g. Title I-7S046), the District allocates 6 substitute days in Program 13027 after Norm Day
Clerical Substitutes (Budget item # 27134)	\$2 per unit of current year's estimated Grades K-12 Average Daily Attendance (ADA)
Custodial Supplies (Budget item # 40183)	Allocation is based on various factors which includes enrollment, school type, and campus square footage; allocation per school may vary
Instructional Materials (Budget item # 40267)	\$16 per Grades K-6 general education and Special Day Class students \$20 per Grades 7-8 general education and Special Day Class students \$22 per Grades 9-12 general education and Special Day Class students
General Supplies (Budget item # 40227)	\$17 per Grades K-12 general education and Special Day Class students
Registration Adviser Time (Budget item # 10853)	Allocation is based on various factors which includes enrollment, school type, and student transiency; allocation per school may vary
Teacher Activity Differential (Budget item # 13482)	\$3 per Grades 6-8 general education and Special Day Class students \$4 per Grades 9-12 general education and Special Day Class students
Temporary Personnel (Budget item # 21712)	\$22 per Grades K-5/6 general education and Special Day Class students \$16 per Grades 6-12 general education and Special Day Class students

Student Equity Needs Index (SENI)

A portion of LAUSD's LCFF revenue is earned through identification of students who are either English learner, eligible for free or reduced-price meals (low income), or foster youth. This portion of the LCFF revenue is called the Supplemental and Concentration grants. It is earmarked to provide additional resources for the benefit of these identified students (Targeted Student Population). For school year 2019-2020, the **"Student Equity Needs Index"** (SENI) was developed to identify the neediest schools. The SENI is a result of Board Resolution 037, Equity is Justice 2.0, adopted in school year 2017-18.

The funds are allocated per TSP student based on the SENI score of the school the TSP student attends.

- The funds are allocated continuously, i.e., without cliffs between index quintiles.
- On average, high schools and middle schools receive more funds per TSP student than elementary schools do, recognizing that higher grade levels are more expensive to operate.
- The distribution of per TSP student rates is highly equitable, with an average of a 68% difference between the highest need school's rate and the lower need school's rate across school types (not including the hold harmless allocation.)

School resources that are based on SENI are allocated in program code 10552, TSP-Student Equity Needs Index.

The following school resources are allocated in Program Code 10552:

- Assistant Principals
- Assistant Principals, Secondary Counseling Services
- A lump-sum amount based on the SENI ranking

If the allocation formula in program code 10552 yielded an amount that is less than the 2018-19's total allocations in programs 10183, 10400, and 10405, additional funds in **program code 10553** is provided to make up for the difference. The allocation in program 10553 is one-time for 2019-2020.

Schools should follow the same guidelines under the old program codes 10183, 10400, and 10405 when deciding which resource(s) to establish out of the lump-sum amount. See budget guidelines in section "[Student Equity Needs Index](#)".

SCHOOL RESOURCES AT NORM DAY SETTLE-UP

After Norm Day, school resources are recalculated based on validated Norm Day enrollment, and schools may experience no change, an increase, or a decrease in resources. During this time, new positions can be established, or existing positions closed. Allocations for psychologists and library media teachers are not changed by the Norm Day settle-up process.

Norm Day Enrollment

Norm Day enrollment is the count of students as of the fifth Friday (Norm Day) of the instructional calendar. This is generally the basis of allocation of many school resources. Below is some information with regards to Norm Day enrollment.

- The School Principal is responsible for the accuracy of enrollment data.
- School staff must review the enrollment data for accuracy of the students' grade level, teacher/room assignment, Special Day Program designation, no-show

students, students with no sections, age ineligible, absences of 13 or more from the date of enrollment through Norm Day, etc.

- All schools are expected to be no more than one norm-teaching position over their norm allocation on the Friday preceding Norm Day. Schools must be on norm by Norm Day.
- Only enrolled students with scheduled classes in MiSiS will be counted for Norm Day enrollment purposes. In other words, students must be both enrolled and have scheduled classes. Schools must ensure that every enrolled student's class schedule is entered or recorded into MiSiS. Otherwise, enrolled students without scheduled classes will be excluded from the Norm Day enrollment count.
- All schools must be "on norm" by the scheduled Norm Day. Teacher positions that are not earned based on the Norm Day count will be closed and incumbents will be reassigned.
- Budget Services and Financial Planning Division will review, analyze, and make adjustments to reconcile enrollment and attendance data up to the last capture date to resolve any issues. The review process may take up to approximately three weeks after Norm Day. The preliminary capture code is "N". However, the final capture code may change depending on the results of the validation process. Bulletins for Staffing Recommendations for all school types are available online, from the School Fiscal Services Branch website, or this [link](#).
- Schools may use the **Norm Day Enrollment and Staffing Dashboards** available at <https://focus.lausd.net>. These are tools that track the number of students enrolled as of Norm Day and the number of staff generated based on Norm Day enrollment.
- The **Staffing/Position Simulator** is a Microsoft Excel tool that projects the number of norm-generated and districtwide targeted school resource positions a school is entitled to receive based on the variables entered. In addition to the number of norm-generated teachers, this tool projects the number of administrators, counselors, and clerical positions. This tool helps school administrators estimate the number of staff anticipated to be received based on school type, affiliated charter school status, norm category, and most importantly, enrollment. It also helps schools with budget planning and development. For more information, visit the School Fiscal Services Branch website at <https://achieve.lausd.net/Page/15604>.

BUDGETING UNRESTRICTED SCHOOL RESOURCES

Schools have the flexibility to implement budgets that meet the unique instructional and operational priorities of their school within certain requirements. As school administrators build their budgets, school staff is encouraged to consider all available resources including categorical funds. Flexibilities allowed in certain allocated resources is subject to federal and state laws, collective bargaining agreements, Personnel Commission rules, Human Resources Division rules and policies, court orders, and consent decrees.

General Guidelines

1. During budget development, schools must not modify a position's group/level to capture salary savings. Schools must not swap employees between positions by completing a Request For Personnel Action (RPA). Schools must not swap positions in Program 13027.
2. Norm-based positions in programs 10552 and 13027 that have flexibility cannot be closed and repurchased with Specially-funded or Targeted Student Population (TSP) program dollars.
3. Norm-based positions with incumbents are allocated at actual salary and benefits. Vacant school-purchased positions should be budgeted at the districtwide average cost. The average cost can be obtained from the Fiscal Specialist assigned to each school or from the Estimated Rate Sheets.

During budget development, if the school is aware that an employee is about to retire, that employee's budgeted position level must not be changed.

4. If a school opts to purchase positions above and beyond the norm-based staffing levels, the school is responsible for the cost of said positions' base salary and benefits, benefitted absences, substitutes, longevity, differentials, and increases in salary and benefits. For each register-carrying teacher purchased, schools should set aside funds for a minimum of 10 days of substitute time.
5. Staffing level for schools is determined each school year based on the school's Norm Day enrollment count. Therefore, schools that exercised flexibility in one year and wish to continue the same the following year, must implement the flexibility again.
6. Schools that receive *augmentation* for a specific resource must not exercise flexibility over the same type of resource allocated as part of the norm-generated and districtwide targeted school resources. Augmented resources **must supplement, not supplant** these resources. For example, if a school received an additional teacher as an augmentation to their norm-generated resources, then the school may not exercise flexibility over the norm-generated teacher in program 13027.
7. Continuing for the 2019-20 school year, elementary dual language/bilingual/foreign language immersion programs will be normed separately based on the enrollment count at the dual language center. For E-CAST, Master Planning and Demographics has generated a forecast for each continuing and newly-approved elementary program. The forecast will be the basis of allocations during budget development with changes applied in the fall as a result of the Norm Day settle-up process. Newly-approved elementary dual language programs will have its own cost center and resources effective 2017-18 budget development. Also, continuing for the 2019-20 school year, six auxiliaries (equivalent to 1.0 FTE) will be allocated to each secondary

school with an approved dual language/bilingual/foreign language immersion program. Norm allocations for a dual language/bilingual/foreign language immersion program are funded under **Program 11119** and are part of a school's Norm-generated positions based on Board-approved staffing ratios.

There is no flexibility allowed for allocations in Program 11119.

8. On August 23, 2016, the Los Angeles Board of Education approved health benefits for employees in Units F and G effective school year 2017-18.

The SEIU Agreement provides the opportunity for Unit F employees (Teacher Assistants) and Unit G employees (Community Representatives, Out-of-School Program Helpers, Out-of-School Program Supervisors, Out-of-School Program Workers, and School Supervision Aides) to be eligible for health benefits if they meet certain eligibility requirements. The eligibility is based on the hours worked in the immediate prior school year.

The requirements for benefit eligibility and benefits covered are as follows:

	Eligibility Requirements	Benefits Covered
Unit F	Must have worked at least 800 hours or more in one core assignment in the prior school year	100% of the cost of medical, dental, and vision coverage with no lifetime benefits for the employee only; the employee is responsible for the cost of dependent coverage
Unit G	Must have worked at least 1,000 hours or more in one core assignment in the prior school year	50% of the cost of medical, dental, and vision coverage with no lifetime benefits for the employee only; the employee is responsible for the cost of dependent coverage

The school or office purchasing the position is responsible for the cost of the benefits. For school year 2019-20, the cost of benefits for Unit F employees is \$5,521 and Unit G employees, \$2,761.

If purchasing a Teacher Assistant, the system will not automatically calculate the health and medical benefits. Beginning school year 2017-18, schools are responsible for budgeting the benefits for Teacher Assistants who may only work 3 hours per day in a school year but worked 800 hours or more in the prior school year. If a school did not budget for health and medical benefits but is charged for actual health and medical benefit expenditures, then the school must process a budget adjustment request to fund the benefits. For more information, go to <https://achieve.lausd.net/cms/lib/CA01000043/Centricity/domain/133/benefits%20administration/active/Unit%20F%20and%20G%20Overview%20Page.pdf>.

9. Beginning 2019-2020, schools opting to purchase Community Representatives and School Supervision Aides must budget for the cost of health and welfare and/or PERS, if applicable. See section on [Budget Guidelines For Positions](#).
10. **"Budget to Actual"** is the process of aligning the budget to actual group/level of the incumbents. Beginning 2018-19, the "Budget to Actual" policy in Program 13027 has changed. If the original allocation for positions is less than the actual cost of positions, additional funds will be allocated. If the original allocation for positions is more than the actual cost of positions, the excess funds are returned and will not remain in Program 13027.
11. Since LAUSD receives a large amount of funds for K-3 Class Size Reduction, the District has developed the **K-3 Class Size Average and Enrollment Dashboard**. For fiscal year 2019-2020, this revenue is estimated to be \$112.6 million.

This dashboard is within the Norm Enrollment and Staffing Dashboards and can be accessed through this link <https://focus.lausd.net>. The job aid on how to use this dashboard can be accessed within the dashboard. A tool is also available to help schools review and monitor class enrollments, reorganize as needed, and ensure that the K-3 class size average does not exceed 24 students.

The following are some information about this dashboard and the requirements for K-3 Class Size Average:

- a) **A school site's (campus-wide) average K-3 class enrollment should not be more than 24.** The final average is based on class enrollments for school months within the P-2 period (school month 1 to the school month ending on or before April 15).
- b) If one school site's (campus-wide) average exceeds the required average of 24, LAUSD loses the total revenue for K-3 Class Size Reduction.
- c) An individual classroom may be higher or lower than 24 so long as the average class enrollment of all K-3 classrooms campus-wide is at or below 24.
- d) The averaging includes TK and ETK students.
- e) The averaging excludes students in Special Day Classes and Independent Study.
- f) All students in combination classes, e.g., grades 3-4 class, are included in the calculation of the average.
- g) The required maximum K-3 class size average is not applicable to charter schools.

BUDGET GUIDELINES FOR POSITIONS

CERTIFICATED EMPLOYEES

1. **Assistant Principal, Secondary (Generic) (13100659) or Assistant Principal, Elementary (13100680)**

This resource is allocated in Program 10552.

Schools may budget for these classifications but are not required to purchase these positions.

Flexibility is allowed on this resource.

2. **Assistant Principal, Secondary Counseling Services (APSCS) (12200531)**

This resource is allocated in Program 10552.

To maintain continuity in school leadership teams, schools that currently have an Alternate Staffing Pattern (ASP) request in place, may submit an ASP request for approval for the 2019-2020 school year. Otherwise, schools with an E-CAST enrollment projection that is sufficient to earn an APSCS must budget the APSCS position and cannot repurpose these funds. If a school is unable to recruit qualified candidates after a good faith recruitment effort, they may submit a request for an Alternate Staffing Pattern (ASP) to their Local District Superintendent for consideration. If an ASP is approved by the Local District Superintendent and the Human Resources Division, it will be to convert the APSCS position to an AP, Secondary. Conversion of this position to an Instructional Specialist is no longer a viable option. As part of the ASP, the school must identify an employee at the school site who will oversee the Master Schedule and counseling office. This employee must possess the appropriate Pupil Personnel Services credential.

Flexibility is allowed as indicated in the above paragraph.

3. **Counselors (12200533)**

Mandated counseling requirements must be met. Counseling resources must be budgeted in Program 13027 or Program 10529 prior to utilizing other TSP or categorical supplemental funds because these funds are intended to *supplement and not supplant* these resources. The Staffing and Resources Report (Version – BP1, Program 13027 or 10529) in Schools Front End reflects the minimum requirement to be budgeted in program codes 13027 or 10529 prior to utilizing other school budget accounts.

There is no flexibility allowed for the counselor position in programs 10529 and 13027.

4. Library Media Teacher (Teacher Librarian)

At senior high schools, Teacher Librarian (TL) positions and TL semester differentials are allocated in Program 10989. The ten (10) days of substitute time for the TL will continue to be allocated in program 13027. Schools that do not receive this resource and those opting to supplement their resources may budget for this position at their discretion. Work assigned to employees should be based on their class description. Specially-funded resources may be used to supplement Librarian resources for senior high schools. For a Library Media Teacher that is budgeted in Title I, four days of substitute time must be budgeted in the program. An additional six days of substitute time is allocated in the General Fund School Program 13027. The first four days of substitute time for the Library Media Teacher must be time-reported in Title I.

Schools purchasing this position must also budget either the TL differential with benefits included or the school's proportionate share if supplementing the TL allocation. See the Estimated Rate Sheets for the current year's cost.

There is no flexibility allowed on this resource.

5. Nurses

Mandated health requirements must be met. Once the District's minimum requirements are budgeted in Program 10529, additional categorical supplemental resources may be purchased to supplement, not supplant. Minimum requirements are established by the appropriate support unit. The Staffing and Resources Report reflects the minimum requirement. The allocation of nursing time has been determined based on a student-need norming model. Nurse resources will be adjusted during Norm Day Settle-up to ensure nursing services are aligned to identified student needs. District Nursing Services will have discretion to re-allocate nursing time based on students' health needs. While every effort will be made to minimize changes to in the nursing allocation to schools, student health needs criteria will determine the need for nursing services therefore resulting in changes throughout the school year. These funds should not be used for activities such as health office management or to provide services that can be assigned to trained unlicensed staff.

There is no flexibility allowed on this resource.

District-funded credentialed school nurses are allocated in Program 10529 based on the following criteria:

- Student-based Equity Index and enrollment
- Projected number of new enrollees requiring immunization compliance review and students with grade-level specific immunization mandates (e.g., Kindergarten, Tdap and varicella/6th grade)

- Number of athletic teams on campus [all athletes require clearing of sports physicals, concussion follow up including Return to Play (RTP) protocol, and readmissions following other sports related injuries by credentialed school nurse]
- Projected number of students to receive vision (Grades K, 2, 5, 8), audiometric, and scoliosis (Grades 7, 8) screenings in mandated grade levels. Newly enrolling students in non-mandated grades will also receive these mandated screenings.
- Projected number of students with Individualized Education Plans who require a health assessment by a credentialed school nurse as part of the IEP)
- Projected number of students with medical protocols (daily or as needed, e.g., g-tube feeding, catheterization, medication administration, excluding insulin)
- Projected number of students with diabetic care needs (self-managed or daily monitoring), some of these duties may be fulfilled by Licensed Vocational Nurses (LVNs) with training; volunteer, unlicensed, trained personnel (e.g., office staff) under the indirect supervision of a school nurse

Whenever possible, all schools will receive their full School Nurse allocation. However, in the event there is a nursing staff shortage, schools may not be allocated the entirety of their School Nurse time. Schools may purchase additional nursing time from their budget based on student needs.

6. Principals

The California Education Code defines a school as having a principal.

There is no flexibility allowed on this resource.

7. Psychologists

LAUSD's minimum requirements must be budgeted in Program 13027 before utilizing categorical or TSP supplemental resources, i.e., Programs 7S046, 10552, etc. *Unrestricted* General Fund dollars must be in place for intervention and for identification of students with disabilities before *restricted* resources can be used. Minimum requirements are established by the appropriate support unit. The Staffing and Resources Report in Schools Front End (SFE) reflects the minimum requirement. Psychologists, as a resource, are not adjusted during the Norm Day Settle-up process.

There is no flexibility allowed on this resource.

8. Substitutes, Teacher, Day-to-Day

Schools are allocated 10 days of day-to-day teacher substitute time per *Norm-generated* register-carrying teacher in Program 13027. The 10 days of substitute time for teachers in the Dual/Foreign Language/Bilingual Program (program 11119) and library media teachers in (program 10989) are also allocated in program 13027. It is recommended to set aside funds for a minimum of ten (10) days of substitute time per register-carrying teacher.

- a. If teacher attendance is high, a school may repurpose the substitute time to support other school-site needs. On the other hand, schools with low teacher attendance should set aside funds for teacher absences in excess of the ten days of substitute time for each register-carrying teacher.
- b. For register-carrying teachers that are budgeted in specially-funded programs, e.g. Title I-7S046, four days of substitute time must be budgeted in the same specially-funded program. After Norm Day, six days of substitute time will be allocated in Program 13027. Schools should time-report the first four days of substitute time in the specially-funded program.
- c. If a norm-generated register-carrying teacher is on a paid leave of absence, the cost of the long-term substitute in excess of the ten days of substitute time is funded by the District. However, the cost of a long-term substitute for a vacant teacher position or for a register-carrying teacher on unpaid leave of absence is funded by the position's budget.
- d. Except for the first four substitute days purchased through specially-funded programs (see 8b above), schools must time-report all substitute time, including time for long-term leaves, in Program 13027.
- e. Schools pay for the cost of day-to-day substitutes for Regional Occupational Program (ROP) teachers.

9. Teachers, Register-Carrying

- a. Norm-generated teacher positions must be register-carrying with a class schedule in MiSiS.
- b. The United Teachers of Los Angeles (UTLA) and Los Angeles Unified School District (LAUSD) agreement Article XVIII-Class Size should be adhered to. If LAUSD's financial condition is such that Article XVIII-Class Size cannot be met, the class sizes should not exceed the 2019-20 class size maximums approved by the Board of Education. (See the School Fiscal Services Branch's website for 2019-20 staffing bulletins.)

- c. Schools may convert a vacant secondary teacher position into auxiliary periods after Norm Day. The school must submit a completed "Request For Auxiliary Teacher" form to the school's Instructional Director and Personnel Specialist for approval after Norm Day implementation is completed.
- d. **Special Education Teachers** – Schools that authorize Special Education-funded teachers to either teach general education students or to perform non-teaching or unapproved duties during the school day are not in compliance with policy and may be charged for unapproved staffing expenditures. There are some exceptions for select courses where at least 33% of the students enrolled are students with disabilities. Please refer to BUL-6257.0, High School "A-G" Graduation Requirements and Students With Disabilities issued on May 19, 2014, for additional requirements and procedures.
- e. **Physical Education Teacher Incentive Program (PETIP)** – PETIP is a board resolution to restore physical education at selected schools.

CLASSIFIED EMPLOYEES

In developing school-site budgets, schools should follow the guidelines below for budgeting classified employees.

1. **Building & Grounds Workers, School Facilities Attendants, Plant Managers, and Assistant Plant Managers**

There must be sufficient custodial support to maintain the cleanliness of the campus. All Plant Managers, Assistant Plant Managers, **and** Building & Grounds Workers (BGW) must be budgeted at A-basis. School Facilities Attendants must be budgeted at C-basis. Employees should not work out of their respective classifications. In addition, the position level/title for Plant Managers and Assistant Plant Managers are determined by Personnel Commission and must be adhered to. See Personnel Commission's website for classified employees' class descriptions. Custodial hours for Continuation High Schools, Special Education, or Adult Schools are not allocated in Program 13027. However, if a regular school's campus houses either a charter school, Special Education **or** Continuation High School, the custodial hours consider the enrollment and square footage of these schools.

Approval from Maintenance and Operations is required prior to making any changes to Building & Grounds Worker and School Facilities Attendant positions. To seek approval, send an email to Ramy Ibrahim at ramy.ibrahim@lausd.net or Anthony Durian at anthony.durian@lausd.net with a copy to Douglas Anderson at douglas.anderson@lausd.net.

- a. **Schools are not allowed to make changes to the Plant Manager and Assistant Plant Manager positions.**
- b. If a school decides to implement flexibility over their custodial allocations and does not fully utilize monies provided to fund these custodial positions and supplies, Maintenance & Operations (M&O) will not provide custodial substitutes to cover day-to-day absences or emergency custodial supplies unless the school provides a funding source.
- c. Building & Grounds Workers and Assistant Plant Managers can work as night shift employees. Additional cost to pay for night shift differential will be allocated by Facilities Fiscal Support Services. Plant Managers and School Facilities Attendants are day shift employees. If a school prefers these positions to work the night shift, the school is responsible for the additional cost.
- d. If the school has a 4-hour custodial position, Facilities Fiscal Support Services will find another 4-hour position at a nearby school and assign these two 4-hour positions to one employee with an 8-hour assignment. If the school insists on hiring or keeping a part-time employee, the school will be responsible for an additional 50% of the health and welfare benefit cost since part-time employees are eligible for full benefits.

2. Clerical Staff / Clerical Substitutes

Norm-based clerical staff are allocated as full-time positions, i.e., 1.0, 2.0, etc. There will no longer be any partial clerical FTEs allocated.

Classified positions closed during budget development cannot be reopened for one (1) year.

Clerical substitutes must be time-reported in program code 13027.

3. Community Representatives and School Supervision Aides

Assembly Bills 2160 and 2261 converted these positions from unclassified to classified positions. Below is a summary of each position's attributes:

	Community Representative	School Supervision Aide
Job Code	Community Rep. A – 29105337 Community Rep. C – 29105338	29105360
Proposed Work Schedules (hours/day)	1, 2, 3, 4, 6, and 8 hours	0.75, 1, 2, 3, 3.75, 4, 5, and 6

	Community Representative	School Supervision Aide
Basis	C-basis, full year with either PARS or PERS	C-basis, full year with either PARS or PERS
Eligible for	OT, VA, paid holidays, KC, PN, FMLA, WC	OT, VA, paid holidays, KC, PN, FMLA, WC
Health and Welfare Cost (Budget Item 30224)	6 and 8-hour positions – additional cost of \$2,761 (manual budget adjustment)	-
Health Benefit Eligibility (Unit G)	No change in eligibility; must have worked at least 1,000 hours or more in one core assignment in the prior school year	No change in eligibility; must have worked at least 1,000 hours or more in one core assignment in the prior school year

4. Financial Managers and Senior Financial Managers

Work assigned to these employees should be based on their class description. Schools may not purchase another classification in place of these positions, unless Personnel Commission issues approval prior to closing these positions. Access this link <http://achieve.lausd.net/Page/2135> for classified employees' class descriptions.

Once budget development is completed, the budgeted positions are reviewed, and school-pairing is determined to create full-time equivalent positions. As much as possible, schools that are geographically close to each other are paired together. Changes to budgeted positions must be communicated to Student Body Finance Support Unit at 213-241-2150. This unit is in-charge of supervising both of these positions.

Paired Financial Manager positions must be filled at the same time and must be coordinated with each paired site. Adjustments to allocated positions can only be made during budget development.

5. Modified Consent Decree (MCD) Clerical Position

A clerical staff member, usually an Office Technician, must provide support for the MCD. The requirements are:

- 0.50 FTE for elementary schools with an enrollment of 300 or below, for middle schools with enrollment of 700 or below, and senior high schools with enrollment of 700 or below
- 1.0 FTE for elementary schools with an enrollment of 301 or more, for middle schools with enrollment of 701 or more, and senior high schools with enrollment of 701 or more

- c. School sites sharing one campus must each budget for the legally-required MCD clerical position. For example, if three schools share one campus and each school's MCD clerical requirement is 0.50 FTE, then each school site must have a 0.50 FTE clerical position. Or, the schools may combine the positions and fund 1.0 FTE clerical position and a 0.50 FTE clerical position.

6. Office Technicians and Senior Office Technicians

Schools may repurpose salary savings from converting a Senior Office Technician to Office Technician.

7. School Administrative Assistants

Work assigned to a School Administrative Assistant should be based on the class description. Schools may not purchase another classification in place of a School Administrative Assistant unless Personnel Commission issues approval prior to closure of the School Administrative Assistant position. Use this link <https://achieve.lausd.net/Page/7274> for classified employees' class descriptions.

PURCHASED POSITIONS

If a school purchases a position in addition to the District staffing levels, the cost of the position's salary increase, salary step advancement, differential, increase in fringe benefits, and health and welfare, if any, is the responsibility of the school and should be funded appropriately.

BUDGET GUIDELINES FOR NON-POSITIONS

1. Accelerated Academic Literacy (AAL, Program Code 11448)

Middle and high schools (grades 6 – 9) that are implementing an intensive English Language Arts intervention program can be eligible to receive an auxiliary allocation using AAL funding. To receive this funding, schools must double-block the English core class with the intensive intervention class (same teacher and students), Literacy for Success (middle school) or Strategic Literacy (high school). An evidence-based intensive reading intervention curriculum must be taught in both courses of the double-block. Auxiliary funding will be based on meeting the program requirements and Norm Day enrollment (schools will not be required to submit an AAL Resource Allocation Request form). Special Education classes are not eligible for this funding. For additional information, please see the reference guide on student placement in secondary English Language Arts intervention courses.

2. Additional Support Services (Itinerant Positions)

If a school opts to purchase additional support services, funds should be set aside to fund the intended purchase. The cost of support services can be obtained from the Estimated Rate Sheets. Schools must submit the appropriate itinerant form to the department providing the support services. The forms are available from the School Fiscal Services Branch website at <http://achieve.lausd.net/sfs>.

3. Advances In Salary/Pay Scale Levels

For norm-generated positions in programs 10989, 11119, and 13027, the actual costs will be determined after Human Resources Division and Personnel Commission have processed Norm Day assignments. The positions are adjusted to the actual salary levels at no cost to the school.

During budget development, if a school establishes a new position at less than the districtwide average cost, the school is responsible for funding any changes in position costs. Once the position is filled, the position's budget line should be adjusted to the incumbent's actual cost.

If a school is restructured, actual costs are determined after the restructuring is in effect. The District will recoup any salary savings from restructuring.

4. Differentials for Certificated and Classified Staff

Differentials, such as for degree, longevity, or shift, are part of the certificated and classified employees' salary. Schools receive additional funds for the cost of differentials of Norm-generated positions in programs 10989, 11119 and 13027. However, schools are responsible for the differentials of "purchased" positions, i.e.,

positions established at the administrator's discretion or positions that are not Norm-based.

5. General Supplies

Schools should budget or set aside funds for general supplies based on the school's needs.

6. Instructional Materials

The base allocation requires Local School Leadership Council (LSLC) approval if the base dollars for the instructional materials are transferred to another funding line. See additional information under "[Local School Leadership Council Budget Authority](#)".

7. Interscholastic Athletic Program

Secondary schools participating in the Interscholastic Athletic Program receive an allocation in Program 13027 to pay for athletic differentials. Allocations are made at various times throughout the fiscal year based on the school's athletic program. Schools must spend this allocation for athletic activities only. The rate of pay for the differential is subject to collective bargaining unit agreements. Schools should closely monitor the number of hours worked by Athletic Assistants to avoid overspending. Schools are responsible for funding any additional hours that are time-reported for Athletic Assistants beyond the allocation. School resources received for a specific athletic activity must be used to implement the same athletic activity. Non-implementation of the funded athletic activity will result to a reduction in Program 13027's ending balance. For more information on the activity differentials, see reference guide REF-1802.14, "Time Reporting Instructions for Lump Sum Payment of Differentials."

8. Junior Reserve Officers' Training Corps Teachers (JROTC Instructors and Senior Instructors)

The JROTC program requires two (2) teacher positions that are sponsored by a military service component: one JROTC Instructor and one Senior JROTC Instructor. Schools that choose to host a JROTC program will receive a 0.50 FTE allocation for each position under program 11227, Teachers-JROTC. Schools must use Program 13027 to purchase the other 0.50 FTE of each allocated position.

JROTC instructors are either on a 12-month or 10-month contract with their military service component. JROTC instructors on a 12-month contract are assigned to B-basis with LAUSD while JROTC instructors on a 10-month contract are assigned to C-basis with LAUSD. JROTC instructors are paid as worked employees. Their pay is not annualized. They are permitted to work four hours of Z-time if on an 8-hour schedule

or 3 hours of Z-time if on a 6-hour schedule. The Z-time is restricted to unassigned days per the LAUSD basis calendar at no cost to the school if pre-approved by the JROTC Coordinator and the school principal. Before the start of the school year, the JROTC Office will send their instructors assigned to C or B basis, a calendar which indicates the unassigned days that are eligible for Z-time. Z-time must be time-reported using Program 11227. Any extra time authorized by the school principal should be charged to a school program.

If a school principal decides to end a JROTC program, the school is required to inform the JROTC Coordinator one school year in advance before implementation.

9. National Board Certified (NBC) Teacher Differential

The District will bear the cost of the NBC Teacher differential.

10. Registration Adviser Time, Teacher Activity Differential, Temporary Personnel Time, and Classified Substitute Time

Schools may repurpose pre-registration adviser time, teacher activity differential, and classified substitute time at their discretion. The rate of pay for the differential is subject to collective bargaining unit agreements.

11. Testing Coordinator Differential

After Norm Day, selected schools receive an allocation in Program 13027 for academic testing activities. These funds are to be expended for academic testing activities only. Please note that funds from specially-funded programs, e.g., Title I, may not be used to fund testing differentials.

BUDGET MAINTENANCE

1. Budget Adjustments/Transfers

Schools may transfer any available amount to and from a commitment item within the same program code. [See Budget Adjustment Request Process.](#)

2. Carryover of Account Ending Balances

Each fiscal year, Budget Services and Financial Planning Division issues a memorandum on policies whether account balances of specific program codes carry over to the following fiscal year or not. The carryover policies are determined each fiscal year and are dependent on the financial condition of LAUSD.

Positive and negative ending balances in program 13027 will carry over from 2018-2019 to 2019-2020. Program 13027 will absorb any overdrafts in specific accounts indicated in the annual carryover memorandum.

Positive and negative ending balances in programs 10359 and 10397 will carry over in these same respective program codes from 2018-2019 to 2019-2020. Any positive ending balance in Program 10397 will carry over in pending distribution. Ending balances in 2018-2019 in programs 10400 and 10405 will carry over to 2019-2020's new program code 10552.

The statements above are subject to change. Refer to the carryover memorandum MEM-2464.15, "Carryover Policies for School Account Balances as of June 30, 2019".

3. Monitoring of Expenditures

Schools are expected to spend the current year resources on students who generate those resources. Schools are also expected to spend within their allocated resources, avoid overspending, and fund any overdrafts from appropriate resources. The Fiscal Specialists are always available to assist with monitoring expenditures and available balances.

Overspending in any school resource is not advisable as it will impact a school's budget and the financial condition of LAUSD and may have negative repercussions overall. See above for Carryover of Account Balances.

4. Monitoring of Procured Items

Throughout the school year, schools should process the online receipt of goods ("Goods Receipt") as soon as the goods and/or services have been received. Non-compliance to this requirement may have negative financial impact on the following year's school accounts. For reference, see the memorandum on

Procurement Year-End Closing/Timeline Schedule issued by Procurement Services Division annually.

5. Salary Savings From Unfilled Positions

Salary savings from positions that have been vacant and unfilled may be transferred to other salary or non-salary budget lines. Salary savings may be captured only after the actual cost of positions have been determined as part of the Norm Day settle-up process.

6. Time Reporting

Positions purchased with Program 13027 funds must be time-reported in Program 13027. This may include classified employee substitutes and certificated day-to-day substitutes for register-carrying teachers. **Substitutes for positions funded by Program 11119, Dual/Foreign Language/Bilingual Program, must be time-reported in Program 13027.**

7. Transfer of Teacher Salaries and Benefits at Year End

Most resources allocated to school sites are part of LAUSD's Local Control Funding Formula (LCFF) revenue. A portion of the LCFF funds are revenues based on the Education Protection Act (EPA). The legislation requires that funds from the EPA portion of the LCFF be spent for school-related expenditures only. The EPA funds are held in central office. At the end of each fiscal year, Accounting and Disbursements Division transfers the cost of teacher salaries and benefits from Program 13027 to the EPA account. Although this transfer reduces the schools' expenditures in Program 13027, it is still a part of the schools' total expenditures and are considered in determining Program 13027's ending balance that may carry over to the next fiscal year.

TSP-SETTLEMENT – Program 10359

The School Innovation Funds (SIF) came about as a result of the ACLU vs. LAUSD case regarding LAUSD's use of the LCFF's Supplemental and Concentration Grant funds. Funds are allocated to select schools only and schools were selected through a ranking of schools consisting of multiple factors such as foster youth and homeless counts, Targeted Student Population (TSP) counts, suspension rate, and Smarter Balanced Assessment Consortium (SBAC) Math. Performance. These funds are directed to middle and high schools.

Funds are allocated during fiscal years 2017-18, 2018-19, and 2019-20. After the second year of funding, the third year of allocation will be readjusted to reflect changes in schools' duplicated student counts. The school principal has the sole discretion and oversight on how these funds are utilized. These resources do not require School-site Council approval.

Unused funds as of the end of 2017-18 and 2018-19 will carry over to 2018-19 and 2019-20, respectively. Unused funds as of the end of 2019-20 will be recovered by central office.

Schools were classified into three (3) tiers based on the amount of funds each school received under the settlement agreement. The amounts were calculated using a school's duplicated count of TSP students. Since all schools are high need, the tiers loosely correspond to enrollment.

Plans are required to be able to spend these funds. Each plan requires certain personnel be hired for an Achievement Through Support (ATS) team. Schools in higher tiers will be required to fill an entire team while the tier that receives the lowest amount of funds will only need to fill certain positions on the team. The purpose of the ATS is to improve school climate identified by the settlement and the District. As such, a tiered, integrated team of student support, the ATS, will provide wellness, restorative justice, child welfare and attendance, dropout prevention, intervention, and recovery and trauma-informed supports to schools. These teams will conduct a comprehensive needs assessment and will utilize evidence-based, data driven- approaches to build capacity and tailor multi-tiered systems of support and interventions to address the identified needs of each school community.

School principals provide the primary direction to the ATS team members at the school site. Local District and central office supports provide additional guidance consistent with the resilience curriculum framework and the restorative justice implementation expectations.

*Focus school identified in each Local District

TSP-STUDENT EQUITY NEEDS INDEX, Program 10552

Schools receive an allocation in Program 10552 based on various factors mentioned in the section [School Resources](#). The funds must support the needs of students identified as English learner, reclassified as fluent English proficient (RFEP), low income, and foster youth.

Positions funded with Program 10552 must align to the following goals as described in LAUSD's Local Control and Accountability Plan (LCAP).

1. 100% Attendance
2. 100% Graduation
3. Parent, Community, and Student Engagement
4. Proficiency For All
5. School Safety

Expenditures must directly support increased or improved services to the Targeted Student Population who generated the resource. Parents/guardians, teachers, principals, administrators, other school personnel, local bargaining units, and pupils must be consulted in the development of the LCAP per Education Code 52060 (g). Principals should share the draft TSP budget with stakeholders including all school councils and committees to provide an opportunity for input. The decision on how to use the funds does not require a vote of existing councils and/or committees but there is an expectation that input has been sought. Attestation of this input will be denoted on the Schools Front End Budget Signature page. In addition, because schools must ensure that the expenditures in all the TSP funds are aligned to LAUSD's LCAP goals and meet the needs of one or more of the target populations, schools must annually submit a TSP plan (TSP pages are included in the Single Plan for Student Achievement) to the Local District Director for approval during budget development.

Schools must adhere to the English learner mandates outlined in LAUSD's agreement with the Office For Civil Rights (OCR) and operationalized in the 2012 Master Plan for English learners. These mandates include, but are not limited to, instructional services designed for English learners to become proficient in English and to meet core academic standards, prevention and intervention for Long-term English learners, Designated and Integrated ELD, intervention for students unable to meet reclassification criteria, progress monitoring, and professional development to build teacher capacity. Schools must implement these mandates as indicated by data and fund them using TSP Program 10552. Schools must ensure that support staff, TSP Advisor or other staff funded by TSP, monitor compliance with District and federal mandates. For guidance and assistance, access the Multilingual and Multicultural Education Department (MMED) website at <http://mmed.lausd.net>, contact the Local District EL Program Coordinator, or call the MMED at 213-241-5582.

Schools must adhere to LAUSD policies, state laws, accountability mandates related to truancy and other absence-related interventions, as well as student services and support and delineate programs, responsible personnel, and services within the Safe School Plan (Chapter 5b and 7 for goals). Mandates are outlined in BUL-4926.2.

Performance metrics outlined in the LAUSD's Score Card and LCAP require all schools to monitor and reduce chronic absence rates (91% or lower attendance), increase 96% attendance rates, and increase graduation rates, particularly for the Targeted Student Populations. Applicable services include, but are not limited to, child welfare and attendance services, absence prevention, early intervention, intensive intervention, and data monitoring to increase 96% attendance rates and decrease chronic absence rates (91% or lower attendance). Schools must implement these mandates and may fund Pupil Services and Attendance (PSA) Counselors and Psychiatric Social Workers (PSW) using TSP Program 10552. For guidance and assistance, access the Pupil Services website at <http://achieve.lausd.net/pupilservices>, contact the Local District PSA Field Coordinator, or call Pupil Services at 213-241-3844. Schools should ensure that support staff (PSA Counselor, Secondary Counselor) monitor compliance with District and federal mandates (AB 216, partial credits) for all foster youth.

Below are questions that will help in developing the budget for TSP Program 10552:

1. Is the planned use of funds clearly designed to:
 - a. directly support ELs in acquiring English language development? (e.g., intervention for students not meeting CELDT proficiency over time)
 - b. address the academic needs of EL, low income, or foster youth students who are at-risk of not achieving proficiency in ELA or Math.?
 - c. address EL, low income, or foster youth student engagement issues such as absenteeism or dropping out of school?
 - d. address climate/culture issues such as the suspension or expulsion of EL, low income, or foster youth students?
2. If supplemental materials and/or equipment are being purchased, is it clearly described how the materials and/or equipment will support the academic achievement of at-risk students?
3. If positions are being funded, is it clearly described how the positions will provide direct support to EL, low income, or foster youth students? (e.g., plan intervention, monitor progress in academics)
4. If general supplies are being purchased, is a rationale provided?
5. If clerical and/or custodial overtime is being funded, is a rationale provided?
6. Are all the proposed expenditures on the list of allowable LCAP expenditures?

General Guidelines

1. Core services must be budgeted before purchasing additional resources with the TSP program. These resources include, but are not limited to, norm-generated register-carrying teachers, counselors, and psychologists.
2. If a school closes a norm-generated position, it cannot be re-purchased with TSP program 10552.
3. If a school received an augmentation resource, the school may not exercise flexibility over the same type of resource budgeted in the TSP program.
4. If a school purchases a teacher position with the TSP program, it is the school's responsibility to fund for the position's base salary and benefits, longevity, differentials, benefitted absences, and substitute days. For each teacher position purchased, the school must fund a minimum of ten (10) days of substitute time.
5. Schools must budget *newly-established* or *vacant* positions at the districtwide average cost. Contact your Fiscal Specialist to obtain the districtwide average cost of positions. Once the position is filled, the budget for the position must be updated to align with the incumbent's step or group/level.

TSP-TRANSITIONAL SENI - PROGRAM 10553

If the allocation formula in program code 10552 yielded an amount that is less than the 2018-19's total allocations in programs 10183, 10400, and 10405, additional funds in **program code 10553** is provided to make up for the difference. The allocation in program 10553 is one-time for 2019-2020.

Schools should follow the same guidelines under program 10552 when deciding which resource(s) to establish out of the lump-sum amount. For reference, see the general guidelines above.

SHARED SITES

BACKGROUND

Shared sites or shared cost centers have been established for schools that share a school facility or campus. A shared site has multiple home cost centers, i.e., home cost center and shared cost center(s). The home cost center is coded with the last 2 digits ending in "01", e.g., 1333301. The cost center sharing the campus is coded with the last 2 digits ending in "39", e.g., 1888839. This coding was established to better assist schools with personnel assignment and time-reporting as well as to avoid payroll errors.

BUDGETING SHARED POSITIONS

Positions may be established at a shared cost center, but expenditures will post to the home cost centers where the 2OTHS-L lump sum dollars are budgeted. Any positive time-reporting should be accounted to the home cost centers. Expenditures are not allowed at the shared cost center.

For sharing purposes, shared positions must be created as itinerant positions. After budget development, freeze approval procedures must be followed to establish itinerant positions.

Teachers must be assigned to one attendance-reporting location code. LAUSD's attendance-reporting location codes are Regular Schools, Magnet Schools, and Magnet Centers. Register-carrying teacher and itinerant register-carrying teacher positions cannot be established at the shared cost centers.

Certificated non-register-carrying positions and classified positions may be shared and the cost of the itinerant service must be budgeted as lump-sum dollars in budget line "2OTHS-L" at each home cost center.

A. General Fund – Regular Programs

Program Codes 10397, 10552, 10553, 13027, 13938, 13986, and 14242 may be used to establish itinerant shared positions at the shared cost center. Itinerant positions must be budgeted as lump-sum dollars in budget line "2OTHS-L" at each home cost center.

- Twelve (12) is the maximum number of funding lines per itinerant position.
- Classified positions are allowed - Plant Manager, Assistant Plant Manager, Building & Grounds Worker, Financial Manager, School Facilities Attendant, Office Technician, etc.

- Certificated non-register-carrying positions (non-classroom assignments) are allowed.
- School personnel must ensure that the amount contributed by each home cost center in 2OTHS-L is sufficient before sending the request to the Fiscal Specialist, to establish the requested itinerant position. If the actual cost is not known at the time the itinerant position is established, it is the responsibility of school personnel to adjust the budgeted cost to match the actual salary step/level of the incumbent.
- Schools must provide the Fiscal Specialist a completed Itinerant Position Requisition (IPR) form for the shared itinerant position(s) indicating the funding program and funding percentage for each home cost center.
- The Fiscal Specialist should provide the required document(s) to Position Management Unit in Budget Services and Financial Planning Division to establish the position in the budget system at the shared cost center.

B. General Fund - Specially-funded Programs (SFP)

Federal resources such as Title I funds are allocated to schools with a "County-District-School" (CDS) code. Therefore, expenditures may not exist at shared site location codes. For sharing purposes, Specially-funded positions, **either single-funded with specially-funded programs or multi-funded with SFP and Regular programs**, may be established as itinerant positions.

- Certificated non-register-carrying positions and classified positions (e.g., Categorical Program Adviser, Office Technician, etc.) may be shared. The cost of the itinerant service(s) must be budgeted as lump-sum dollars in budget line "2OTHS-L" at the home cost center.
- School personnel and Fiscal Specialists must ensure that the contribution of each home cost center in 2OTHS-L is budgeted at the Districtwide average cost before sending the request to Budget Services and Financial Planning Division to establish the requested itinerant position.
- Schools must provide the Fiscal Specialist a completed Itinerant Position Requisition (IPR) form for the shared itinerant position(s) indicating the funding program and funding percentage for each home cost center.
- The Fiscal Specialist should provide the required document(s) to Position Management Unit in Budget Services and Financial Planning Division to establish the position in the budget system at the shared cost center.
- School personnel is responsible for maintaining and providing mandated time-reporting documents for audit purposes.

- Certificated and classified positions funded with specially-funded programs cannot be suspended and moved to the shared cost center. These positions must be established as itinerant positions.

C. Other Funds

Expenditures funded by federal resources must be budgeted at the school-site cost center. Resources funded by funds other than the General Fund should not be moved to shared-site cost centers.

D. Non-position Budget Line Items

Non-position budget line items such as instructional materials, general supplies, teacher X-time, teacher Z-time, overtime, and contracts cannot be established at the shared-site cost centers. School-site expenditures must be budgeted at the school-site cost center.

PER PUPIL SCHOOLS

Per Pupil Schools may include traditional schools, Pilot Schools, and Network Partner Schools that receive resources in the General Fund School Program 13027 based on the same staffing ratios and rates for other schools, as detailed in this manual. These schools are eligible to receive an additional allocation in Program 10397 if their calculated revenue exceed their budgeted expenditures.

The following factors impact a Per Pupil School's funding:

1. The state's funded LCFF rates per Average Daily Attendance (ADA) per grade span
2. The District's total funded ADA
3. The individual school's P-2 ADA
4. The school's unduplicated count
5. The school's E-CAST enrollment/Norm Day enrollment
6. Non-school site costs
7. Number of schools participating in the Per Pupil School funding formula

PER PUPIL REVENUE

Calculated revenue for Per Pupil Schools is determined using Per Pupil Revenue Rates developed based on the Local Control Funding Formula (LCFF). Revenues are determined across several categories including Base Grant, Supplemental Grant, Concentration Grant, Targeted Instructional Improvement Block Grant (TIIBG), Transportation, and other funding sources.

Base Grant revenue refers to the LCFF revenue earned by a school's *general education* student population regardless of whether students are identified as high-needs or not.

Supplemental Grant revenue is based on the school's projected unduplicated count of students identified as English learner (EL), low income, and foster youth. These students may also be referred to as "high-need" students or Targeted Student Population (TSP).

Unduplicated refers to the count of these identified students where a student is counted only once even if he or she is identified as both EL and low income.

Concentration Grant revenue is calculated for schools with a high-needs student population of more than 55% of its enrollment. This is calculated by taking a school's unduplicated pupil percentage (UPP) by dividing the unduplicated count by the total enrollment and subtracting 55% from it. If a school has a UPP of 85%, then 30% would be used to determine the school's concentration grant revenue.

Targeted Instructional Improvement Block Grant (TIIBG) and **Transportation** rates are based on the amount of revenue received from the state in 2012-13.

Other funding sources are determined using a school's projected average daily attendance (ADA) in the current fiscal year.

LCFF Rates Per ADA

Grade Span	Base	Supplemental	Concentration	TIIBG	Transportation	Other Funding Sources
K-3	\$8,520	\$472	\$1,132	\$1,122	\$189	\$1,147
4-6	\$7,833	\$437	\$1,074	\$1,122	\$189	\$1,147
7-8	\$8,066	\$454	\$1,173	\$1,122	\$189	\$1,147
9-12	\$9,347	\$541	\$1,373	\$1,122	\$189	\$1,147

The rates above do not apply to Affiliated Charter Schools.

As mentioned above, Base, TIIBG, Transportation, and Other Funding Sources are determined using a school's projected ADA for the immediate prior fiscal year. The section below provides details on how ADA is calculated.

Average Daily Attendance (ADA)

ADA is calculated by dividing the *Student Days of Attendance* by the *Instructional Days* for a given apportionment/reporting period (i.e., P-1, P-2, or Annual).

P-2 refers to the Second Principal Apportionment period which is the basis of school districts' funding from the state. This period is from the beginning of the instructional calendar through the full school month ending on or before April 15.

For purposes of a school's revenue calculation, the P-2 ADA of K-12 students in the general education program, not special day program, is used in the calculation of ADA percentage.

1. *Student Days of Attendance* is the sum of students in attendance for each day in a given apportionment/reporting period. See table below for example.

Day 1	30 students
Day 2	29 students
Day 3	31 students
Total	90 students

Daily attendance is recorded in My Integrated Student Information System (MiSiS).

Each school month, a school's daily attendance records are compiled and summarized by grade span by generating the monthly Statistical Reports in MiSiS. The attendance data used in the calculation of ADA is displayed on the

Statistical Report under 'Days of Actual Attendance'. See sample of a Statistical Report below.

Return from Winter Break
 Legal Holiday
 School Holiday
 Unassigned Day
 Pupil-Free Day

Not in Session

3. *P-2 Average Daily Attendance* is the sum of all attendance divided by the total instructional days from the beginning of instructional year to the school month ending on or before April 15.

Example: P-2 Period = 137 instructional days; student days of attendance = 50,000

$$\text{P-2 ADA} = 50,000 / 137 = \mathbf{364.96 \text{ units of ADA}}$$

Ratio of P-2 ADA to Norm Day Enrollment

This ratio or percentage is calculated by dividing a school's P-2 ADA by the Norm Day enrollment. See example below.

Example: P-2 ADA = 364.96 units; Norm Day enrollment = 430
 % of P-2 ADA to Norm Day Enrollment = $364.96 / 430 = \mathbf{85\%}$

Revenue Calculation

During budget development, a school's ratio of P-2 ADA to enrollment is calculated by dividing the second prior year's P-2 ADA by the same year's Norm Day enrollment. At this point in time, these are the latest actual data available for use to estimate a school's revenue. The calculated ratio is then multiplied by the current fiscal year's *E-CAST enrollment* to arrive at the estimated P-2 ADA. To estimate the school's revenue, the estimated P-2 ADA is multiplied by the revenue rates for each of the grade spans shown in the table of per pupil revenue rates.

At Budget Development

2017-18 P-2 ADA
 ÷ 2017-18 Norm Day Enrollment
 = 2017-18 Ratio of P-2 ADA to Norm Day Enrollment (%)
 × 2019-20 E-CAST Enrollment
 = Estimated 2019-20 P-2 ADA
 × LCFF Rates Per ADA Per Grade Span
 = PRELIMINARY ESTIMATED REVENUE

During Norm Day Settle-up in the Fall, a school's ratio of P-2 ADA to enrollment is calculated by dividing the immediate prior year's P-2 ADA by the same year's Norm Day enrollment. The calculated ratio is then multiplied by the current fiscal year's *Norm Day enrollment* to arrive at the revised estimated P-2 ADA. To estimate the school's revenue, the estimated P-2 ADA is multiplied by the revenue rates for each of the grade spans shown in the revenue rates table.

At Norm Day Settle-Up

2018-19 P-2 ADA
 ÷ 2018-19 Norm Day Enrollment
 = 2018-19 Ratio of P-2 ADA to Norm Day Enrollment (%)
 × 2019-20 Norm Day Enrollment
 = Revised Estimated 2019-20 P-2 ADA
 × LCFF Rates Per ADA Per Grade Span
 = FINAL REVENUE

Norm Day Settle-Up

The actual prior year's P-2 ADA is available as of the budget year's Norm Day. As shown above, the revenue is recalculated using the latest information on P-2 ADA, Norm Day enrollment, and revenue rates.

In addition to recalculating the revenue, a school's projected expenditures are also updated to reflect staffing resources based on the current fiscal year's *Norm Day* enrollment as opposed to *E-CAST* enrollment used at budget development. Schools can view details about their Norm Day enrollment by accessing the Norm Day Enrollment Dashboard at <http://focus.lausd.net>.

The revised revenues and expenditures are compared to the budget development estimates. Increases or decreases in a school's resources will be implemented in TSP-Per Pupil Schools, Program 10397.

For example, if revenues exceed budgeted expenditures at budget development, the funded (partial) amount of the difference is allocated in Program 10397. If budgeted expenditures exceed revenues at Norm Day settle-up, the reduction in budgeted expenditures (allocation) is adjusted in Program 10397 and any available amount in Program 13027.

Positive year-end balance in Program 10397 will carry over in "pending distribution". Funds will be released after Norm Day settle-up.

DETERMINING THE TSP-PER PUPIL SCHOOLS ALLOCATION, PROGRAM 10397

The calculated revenue for each Per Pupil School is compared to the school's total projected unrestricted expenditures. Schools with expenditures that exceed revenues are held harmless. Schools with revenues that exceed expenditures receive an allocation in Program 10397, TSP-Per Pupil Schools. Expenditures in this program **must support the needs of English learners, low income, and foster youth**.

If funds are not available to fully fund the amount of excess revenue over expenditures for all Pilot Schools and Network Partner Schools, the school allocations in Program 10397 will be proportionately reduced to total to the amount of available funds for the Per Pupil Schools program.

As mentioned above, the resources in Program 10397 must support the needs of English learners, low income, and foster youth. Positions, services, and programs funded with Program 10397 must be aligned to the following goals as described in LAUSD's LCAP:

1. 100% Attendance
2. 100% Graduation
3. Parent, Community, and Student Engagement
4. Proficiency For All
5. School Safety

Expenditures in Program 10397 must directly support increased or improved services for English learner, low income, and foster youth. Parents, guardians, principals, administrators, other school personnel, local bargaining units of the school district, and students must be consulted in the development of LAUSD's LCAP per Education Code 52060 (d) (3). Based on this, principals should share the draft TSP-Per Pupil Schools budget with stakeholders including all existing councils and committees to provide opportunities for input. The decision on how to use these funds does not require a vote of existing councils and/or committees but there is an expectation that input has been sought. In addition, because schools must ensure that the expenditures in all the TSP funds are aligned to LAUSD's LCAP goals and meet the needs of one or more of the target populations, schools must annually submit a TSP plan (TSP plan pages are included in the Single Plan for Student Achievement) to the Local District Director during budget development.

Schools must adhere to the English learner mandates outlined in LAUSD's agreement with the Office for Civil Rights (OCR) and operationalized in the 2012 Master Plan for English learners. These mandates include, but are not limited to, instructional services designed for English learners to acquire English proficiency and have access to core instruction, prevention and intervention for Long-Term English learners, Designated and Integrated ELD, intervention for students unable to meet reclassification criteria, progress monitoring, and building teacher capacity.

Schools may purchase an out-of-classroom position, i.e., TSP Program Adviser, to ensure compliance with above-mentioned agreements. Schools must implement these mandates

as appropriate and fund them using TSP-Per Pupil Schools Program 10397. For guidance and assistance, access the Multilingual and Multicultural Education Department (MMED) website at <http://mmed.lausd.net>, contact the LD EL Program Coordinator, or call the MMED department at 213-241-5582.

Schools should ensure that Pupil Personnel staff monitor compliance with District and federal Mandates AB216, AB490 including partial credits, for all foster youth.

Funds in Program 10397 carry over to the next fiscal year.

GUIDING QUESTIONS FOR TSP BUDGET DEVELOPMENT

1. Is the planned use of funds clearly designed to:
 - a. directly support ELs in acquiring English language development? (e.g., intervention for students not meeting CELDT proficiency over time)
 - b. address the academic needs of EL, low income, or foster youth students who are at-risk of not achieving proficiency in ELA or Math.?
 - c. address EL, low income, or foster youth student engagement issues such as absenteeism or dropping out of school?
 - d. address climate/culture issues such as the suspension or expulsion of EL, low income, or foster youth students?
2. If supplemental materials and/or equipment are being purchased, is it clearly described how the materials and/or equipment will support the academic achievement of at-risk students?
3. If positions are being purchased, is it clearly described how the positions will provide direct support to EL, low income, and foster youth students? (e.g., plan intervention, monitor progress in academics)
4. If general supplies are being purchased, is a rationale provided?
5. If clerical and/or custodial overtime is being funded, is a rationale provided?
6. Are all proposed expenditures in the list of allowable LCAP expenditures?

GENERAL GUIDELINES

1. Schools may choose to purchase an Assistant Principal (AP) position. Two schools of the same school type, e.g., both elementary, and the same compensation level may choose to share an Assistant Principal. Each school may purchase a 0.50 FTE

each. Time management status will be 1, positive time-reporting. Each school is responsible for daily time-reporting.

If a school funds an AP, then the AP will be responsible for all activities, services, and mandates related to English learners, low income, and foster youth students.

2. Schools may also choose to purchase a TSP Program Adviser. For this job code, schools must purchase a minimum 0.50 FTE. Schools can combine the TSP Program Adviser with the Categorical Program Adviser in Title I. Each position must be a minimum of 0.50 FTE. This combination will require a multi-funded time-reporting (MFTR) document.

If a school funds a TSP Program Adviser, then the TSP Program Adviser will be responsible for all the activities, services, and mandates related to English learners, low income, and foster youth students.

3. For register-carrying teachers that are budgeted in the TSP-Per Pupil Schools Program 10397, ten (10) days of substitute time must be budgeted in the program.
4. If a school closes a Norm-based position, the position cannot be re-purchased with TSP-Per Pupil Schools Program 10397 funds.
5. Positions with incumbents should be budgeted at the incumbent's actual salary level. Schools should budget newly-established positions at the districtwide average cost. Contact your Fiscal Specialist to obtain the districtwide average cost of positions.

FREQUENTLY ASKED QUESTIONS

1. *Q. Why is the attendance percentage in MyData different from the P-2 ADA to enrollment percentage?*

- A. The percentages referred in the question serve different purposes. Thus, the data used in the calculations differ. The differences are as follows:

MyData's Attendance Percentage	Percentage of P-2 ADA to Enrollment
Uses attendance data of all students enrolled at the school	Uses attendance data of non-SDP students only
Uses cumulative attendance based on calendar months, i.e., August, September, etc.	Uses cumulative attendance based on school months, i.e., month 1, month 2, etc.
Attendance is for the entire school year	Attendance is for the P-2 period only, generally, months 1-8

MyData's Attendance Percentage	Percentage of P-2 ADA to Enrollment
Calculated by dividing student attendance days by student enrollment days	Calculated by dividing the school's P-2 ADA by the Norm Day enrollment

2. Q. *What factors outside of a school's control affect the allocations to Per Pupil Schools?*

A. The following factors affect the amount that Per Pupil Schools receive in Program 10397:

1. The state's funded LCFF rates per Average Daily Attendance (ADA) per grade span
2. The District's total funded ADA
3. The individual school's P-2 ADA
4. The school's unduplicated count
5. The school's E-CAST enrollment/Norm Day enrollment
6. Non-school site costs
7. Number of schools participating in the Per Pupil Schools funding formula

3. Q. *Since the revenue and expenditures are recalculated during Norm Day Settle-up, do you recommend not to spend all the funds received during budget development?*

A. Please keep in mind the various factors that may impact the allocation in Program 10397 as mentioned above. Changes in any or several of the above factors will impact a Per Pupil School's allocation in Program 10397 during the Norm Day Settle-up process. So, we recommend that the initial allocation in Program 10397 not to be fully spent before the Norm Day Settle-up process is completed.

4. Q. *If Norm Day is in September, why can't the settle-up be processed earlier than December?*

A. Unfortunately, we must wait for Norm Day adjustments to be implemented which may include appeals based on Norm Day Enrollment counts.

AFFILIATED CHARTER SCHOOLS

AFFILIATED CHARTER SCHOOLS THAT BEGAN OPERATIONS BEFORE FISCAL YEAR 2013-14

The LCFF legislation included the following language for Affiliated Charter Schools (ACS): “Commencing with the 2013-14 fiscal year, a school district operating one or more affiliated charter schools shall provide each affiliated charter school site with no less than the amount of funding the school site received pursuant to the charter school block grant in the 2012-2013 fiscal year”.

ACSs that began operations prior to fiscal year 2013-14 receive lump-sum dollar allocations equal to the 2012-13 Categorical Block Grant as per the LCFF legislation and are allocated in Charter School Categorical Block Grant (Program 13723) and Charter School In-lieu of EIA (Program 13724).

ACSs that began operations in fiscal year 2013-14 and after do not receive allocations in Programs 13723 and 13724.

The Charter School Categorical Block Grant, Program 13723, includes funding for the following programs:

- Gifted and Talented Education
- English Language Acquisition
- Peer Assistance and Review
- Targeted Instructional Improvement Block Grant (TIIBG) (for Class Size Reduction Teachers)

If an ACS decides to implement one of the instructional programs above, and the funds in Program 13723 is not sufficient to cover the costs, the District will bear the cost of the difference to make the program whole.

New textbook adoption and textbook replacements are funded by the District.

BUDGET DEVELOPMENT

During budget development, class size reduction teacher positions are established in Program 13723 and are based on E-CAST enrollment. It is recommended that schools set aside funds for any changes due to Norm Day enrollment. See next section on Norm Day Settle-up.

NORM DAY SETTLE-UP

Charter School Categorical Block Grant, Program 13723

The number of class size reduction teachers funded by the Charter School Categorical Block Grant, Program 13723, will be recalculated when Norm Day enrollment counts become available. Affiliated Charter Schools may experience:

1. No change in the number of norm-generated class size reduction teacher positions
2. An increase in the number of norm-generated class size reduction teacher positions
 - Positions will be funded by the Charter School Categorical Block Grant, Program 13723
3. A decrease in the number of norm-generated class size reduction teacher positions
 - For existing norm-generated class size reduction teacher positions, a decrease may be implemented in one of two ways:
 - i. If there is growth in norm-generated teacher positions under Program 13027, the program code will be changed from 13723 to 13027.
 - ii. If there is no growth in norm-generated teacher positions under Program 13027, the position in Program 13723 can be closed if it is vacant.

In-Lieu of EIA, Program 13724

Resources in Program 13724 must support the needs of English learner, low income, and foster youth students. Positions, services, and programs must be targeted and aligned to the following three LCAP priorities for at-risk students:

1. Student Achievement
2. Student Engagement
3. Parental Involvement

Expenditures must directly support increased achievement or improved services for English learner, low income, and foster youth students; and provide opportunities for parents/guardians to engage in and support the school's efforts per Education Code 52060 (d) (3). Principals must share this budget information with all existing councils and committees to provide opportunities for input. The decision as to how to use the funds does not require a vote of existing councils and/or committees, but there is an expectation that input has been sought. Schools may list the date(s) that they sought input from their school community and note it on the Schools Front End Budget Signature Page.

Schools must adhere to the English learner mandates outlined in LAUSD's agreement with the Office for Civil Rights (OCR) and operationalized in the 2012 Master Plan for English learners. These mandates include, but are not limited to, instructional services designed for English learners to acquire English proficiency and have access to Core Instruction, prevention and intervention for Long Term English learners, Designated and Integrated ELD, intervention for students unable to meet reclassification criteria, progress monitoring, and

building teacher capacity. Schools must implement these mandates, as appropriate. Schools must ensure that support staff (TSP Advisor or other staff funded by TSP) monitor compliance with District and federal mandates. For guidance and assistance, access the Multicultural Education Department (MMED) website at mmed.lausd.net, contact the LD EL Program Coordinator, or call the MMED at 213-241-5582.

Schools must ensure that Pupil Personnel staff monitor compliance with District and federal mandates (AB216, AB490 including partial credits) for all foster youth.

For a register-carrying teacher funded in Program 13724, In-lieu of EIA, four days of substitute time must be budgeted in the program. Six days of substitute time will be allocated in the General Fund School Program 13027. The first four days of substitute time for the teacher must be time-reported in Program 13724, In-lieu of EIA.

GUIDING QUESTIONS FOR TSP BUDGET DEVELOPMENT

1. Is the planned use of funds clearly designed to:
 - a. directly support ELs in acquiring English language development? (e.g., intervention for students not meeting CELDT proficiency over time)
 - b. address the academic needs of EL, low income, or foster youth students who are at-risk or not achieving proficiency in ELA or Math.?
 - c. address EL, low income, or foster youth student engagement issues such as absenteeism or dropping out of school?
 - d. address climate/culture issues such as the suspension or expulsion of EL, low income, or foster youth students?
2. If supplemental materials and/or equipment are being purchased, is it clearly described how the materials and/or equipment will support the academic achievement of at-risk students?
3. If positions are being funded, is it clearly described how the positions will provide direct support to EL, low income, and foster youth students? (e.g., plan intervention, monitor progress in academics)
4. If general supplies are being purchased, is a rationale provided and is the cost minimal (e.g., no more than 15% of the TSP budget)?
5. If clerical and/or custodial overtime is being funded, is a rationale provided (e.g., Saturday Family Literacy or Language Development) and is the cost minimal (e.g., no more than 10% of the TSP budget)?
6. Are all the proposed expenditures on the list of allowable LCAP expenditures?

GENERAL GUIDELINES

1. Schools may choose to purchase an Assistant Principal (AP) position. Two schools of the same school type, e.g., both elementary, and the same compensation level may choose to share an Assistant Principal. Each school may purchase a 0.50 FTE each. Time management status will be 1, positive time-reporting. Each school is responsible for daily time-reporting.

If a school funds an AP, then the AP will be responsible for all activities, services, and mandates related to English learners, low income, and foster youth students, as well as all duties as outlined in the class description and as authorized by the Administrative Services Credential.

2. Schools may also choose to purchase a TSP Program Adviser. For this job code, schools must purchase a minimum 0.50 FTE. Schools can combine the TSP Program Adviser with the Categorical Program Adviser in Title I. Each position must be a minimum of 0.50 FTE. This combination will require a multi-funded time-reporting (MFTR) document.

If a school funds a TSP Program Adviser, then the TSP Program Adviser will be responsible for all the activities, services, and mandates related to English learners, low income, and foster youth students.

3. If a school closes a position that is allocated in Program 13027, the position cannot be re-purchased with the In-lieu of EIA funds. This is to ensure that TSP program resources *supplement, not supplant*, the District's core program.
4. Positions with incumbents should be budgeted at the incumbent's actual salary level. Schools should budget newly-established positions at the districtwide average cost. Contact your Fiscal Specialist to obtain the districtwide average cost of positions.

FREQUENTLY ASKED QUESTIONS

1. Q. *What resources are Affiliated Charter Schools' responsible for paying out of the Categorical Block Grant, Program 13723?*

- A. ACSs that started operations before 2013-14 are responsible for the cost of GATE testing, English Language Acquisition Program, Peer Assistance and Review, and TIIBG. The District funds the cost of new textbook adoptions and textbook replacements.

2. Q. *How does an ACS fund its teachers?*

- A. During budget development, norm-generated teacher positions are allocated based on the ACSs' projected enrollment. These positions are funded from Program 13027 and Program 13723. At Norm Day settle-up, if Norm Day enrollment is more than the projected enrollment, additional positions may be funded by the school's Program 13723.

The District funds the Class Size Reduction Program in Program 13027 and Program 13723. ACSs that started operations before fiscal year 2013-14 fund their Class Size Reduction teachers with the Charter School Categorical Block Grant, Program 13723.

The Staffing/Position Simulator (Excel document) that is available at the School Fiscal Services Branch website (<http://achieve.lausd.net/sfs>) calculates the number of teacher positions funded with Program 13027 and Program 13723 based on a given enrollment.

3. Q. *Why do ACSs pay for the Class Size Reduction teachers?*

- A. Affiliated Charter Schools that started before fiscal year 2013-14 continue to receive the Charter School Categorical Block Grant in Program Code 13723 at the 2012-13 amounts. The block grant included funds for the Class Size Reduction Program. Therefore, these schools fund their Class Size Reduction teachers using this funding.

4. Q. *What is the budget adjustment protocol for Principals and Fiscal Specialists?*

- A. The Fiscal Specialists review all school budget adjustment requests to ensure that they are accurate and signed by the principal and other required signatories. Verbal approval from the principal is not sufficient and may delay the processing of the request.

5. Q. *What is the fee structure for GATE services provided to ACSs for fiscal year 2019-20?*

A. For fiscal year 2019-20, ACSs are assessed fees for the following GATE services:

Description of Service	Fee Structure	Fee
All Intellectual Ability Assessments (including approved reassessments) Review of all cases for the High Achievement, Specific Academic, Creative and Leadership Ability Categories	This fee structure is per diem. It includes GATE psychologist time, test materials, evaluation, and processing.	\$500 per day
OLSAT Testing (Affiliated Charter Schools only)	Per student	No fee
Talent Assessment – Visual and Performing Arts: assessment includes audition or demonstration, committee evaluation, maintenance of roster and notifications	Per student	\$200.00
Saturday Conservatory of Fine Arts (19-week program): Includes application, enrollment, instruction, instructional materials/activities and administrative oversight/supervision	Per student (new enrollment only)	\$200.00
Professional Development: GATE designated administrators and teachers (includes handouts) a. Group Workshops b. Individual classes/training	a. Per Group b. Per person	a. \$150.00 b. \$50.00

Fee-for-service Payment:

- Services must be paid once rendered.
- Schools will not be billed for students who do not show for registration to the Saturday Conservatory of Fine Arts.
- Schools will not be billed for students who do not show for the visual or performing arts assessment.

6. Q. *Are all Fiscal Specialists trained on Affiliated Charter School (ACS) procedures and protocols?*

A. All Fiscal Specialists are trained on ACS issues and protocols. The protocol is for the assigned Fiscal Specialist to refer any questions regarding ACS to their Fiscal Services Manager even if they know the answer to a question. The Fiscal Services Manager then either responds or forwards the question(s) to central office Budget Services.

7. Q. *A new Affiliated Charter School (ACS) was notified that they will receive the 20-day Actual Advance Apportionment for new charter schools from the Los Angeles County Office of Education (LACOE). The new ACS wants to know if the school will receive the funds directly.*

A. The 20-day Actual Attendance Advance Apportionment is received by the District. Each ACS's resources provided in Program 13027 is inclusive of all resources regardless of when the full state funding is received by the District. Each ACS's state funding is received by the District incrementally each month throughout the fiscal year.

LIST OF AFFILIATED CHARTER SCHOOLS

Below are lists of schools that are operating as affiliated charter schools in the current school year.

Affiliated Charter Schools That Existed In Fiscal Year 2012-13

School Name	Cost Center	School Type
1. Alfred B. Nobel MS	1827201	M
2. Alfred B. Nobel Math/Sci Magnet	1827202	Magnet Ctr-MS
3. Beckford Charter For Enriched Studies	1233501	E
4. Calabash Charter Academy	1270401	E
5. Canyon School	1279501	E
6. Carpenter Community Charter School	1282201	E
7. Castlebay Lane Elementary School	1288101	E
8. Colfax Charter Elementary School	1361401	E
9. Community Magnet Charter Elementary School	1274101	E
10. Dearborn Elementary Charter Academy	1337701	E
11. Dixie Canyon Community Charter School	1343801	E
12. Dr. Theodore Alexander Science Center	1511101	E
13. El Oro Way Charter For Enriched Studies	1354501	E
14. Enadia Technology Enriched Charter	1361001	E
15. Encino Charter Elementary	1361601	E
16. George Ellery Hale Charter Academy	1816901	M
17. Hamlin Charter Academy	1434901	E
18. Haynes Charter For Enriched Studies	1447301	E
19. Hesby Oaks Leadership Charter	1452101	SPAN
20. Justice Street Academy Charter	1469201	E
21. Kenter Canyon School	1469901	E
22. Knollwood Preparatory Academy	1476201	E
23. Lockhurst drive Charter Elementary	1488701	E
24. Marquez Charter School	1516401	E
25. Nestle Avenue Charter	1545201	E
26. Open Charter Magnet School	1588901	E
27. Palisades Charter Elementary	1595901	E
28. Plainview Academic Charter Academy	1609601	E
29. Pomelo Community Charter School	1614001	E
30. Revere Middle School	1835601	M
31. Revere Math/Science Magnet	1835602	Magnet Ctr-MS
32. Riverside Drive Charter School	1631501	E
33. Robert A. Millikan Middle School	1823801	M
34. Millikan Performing Arts Magnet	1823802	Magnet Ctr-MS
35. Serrania Avenue Charter For Enriched Studies	1660601	E
36. Sherman Oaks Elementary Charter School	1669901	E
37. Superior Street Elementary	1700701	E

School Name	Cost Center	School Type
38. Topanga Learn Charter Elementary	1719801	E
39. Topeka Charter School For Advanced Studies	1720101	E
40. Van Gogh Charter	1742201	E
41. Welby Way Elementary Charter	1763701	E
42. Welby Way Gifted/HA Magnet	1763702	Magnet Ctr - E
43. Westwood Charter Elementary	1774001	E
44. Wilbur Charter For Enriched Academics	1777401	E
45. Woodlake Elementary Community Charter	1787701	E
46. Woodland Hills Elementary Charter For Enriched Studies	1789001	E

Affiliated Charter Schools That Began Operations In Fiscal Year 2013-14

School Name	Cost Center	School Type
1. Calvert Charter For Enriched Studies	1271201	E
2. Chatsworth Charter High	1858301	S
3. Grover Cleveland Charter High	1859001	S
4. Cleveland Humanities Magnet	1859002	Magnet Ctr - SH
5. Taft Charter High	1888001	S
6. Taft HS S/HG/HA STEAM Magnet	1888007	Magnet Ctr - SH

Affiliated Charter School That Began Operations In Fiscal Year 2014-15

School Name	Cost Center	School Type
1. Emerson Community Charter	1812301	M

Affiliated Charter Schools That Began Operations In Fiscal Year 2016-17

School Name	Cost Center	School Type
1. Sylmar High School	1887801	S
2. Sylmar SH M/S	1887802	Magnet Ctr - S

Affiliated Charter Schools That Began Operations In Fiscal Year 2018-19

School Name	Cost Center	School Type
1. Reseda Charter High School	1881401	S
2. Reseda Senior High Law/Public Service Magnet	1881408	Magnet Ctr – SH
3. Reseda Senior High Police Academy Magnet	1881402	Magnet Ctr – SH
4. Reseda Senior High Science Magnet	1881403	Magnet Ctr – SH
5. University High School Charter	1888601	S
6. University Senior High Math/Art/Science/Technology Magnet	1888607	Magnet Ctr - SH

School Types:

E – Elementary School

Magnet Ctr E – Magnet Center-Elementary School

M – Middle School

Magnet Ctr MS – Magnet Center-Middle School

S – Senior High School

Magnet Ctr SH – Magnet Center-Senior High School

Span – Grade levels may be a combination of elementary and middle schools or middle and senior high schools

FREQUENTLY ASKED QUESTIONS

CERTIFICATED POSITIONS

1. Q. *Can a norm-generated teacher position be converted to ROC/P or Regional Occupational Contract Teacher?*

A. No. Norm-generated teacher positions may only be converted to auxiliary period after Norm Day when all norm teacher reductions have been implemented.
2. Q. *I have a vacant secondary teacher position that I want to use for auxiliary periods. May I close the position and move the dollars to teacher auxiliary?*

A. With the approval of Human Resources Division, vacant teacher positions may be converted to auxiliary periods after Norm Day. The position's status will be changed to "S" for suspend. The conversion of the vacant teacher position is good only for one school year. The form can be found in the page entitled Request For Auxiliary Teacher Form.
3. Q. *Can we purchase a 0.50 FTE counselor instead of a full position?*

A. Yes. However, staff providing the counseling services must have a pupil services credential.
4. Q. *What program code should schools use for a long-term substitute teacher?*

A. Schools should time-report long-term substitute in program 13027, General Fund School Program.
5. Q. *What is the average cost for a teacher in fiscal year 2019-20?*

A. The average cost of salary and benefits for an elementary teacher (11100731) is \$116,274(27T10) and for a secondary teacher (11100736) is \$112,153 (26T10). These rates do not reflect the 6% salary increase and corresponding benefits.
6. Q. *I would like my school's PSA Counselor to provide secondary counseling services. Can a school purchase a PSA Counselor in-lieu of a Secondary Counselor?*

A. No, there are many factors that needs to be considered such as specialization of credentials and differing salary tables.
7. Q. *I would like the APSCS to perform secondary counseling duties at my school. Can a school purchase an APSCS in-lieu of a Secondary Counselor?*

- A. APSCS and Counselor positions have different job descriptions and are therefore not interchangeable. An APSCS cannot function as a Counselor. Counselors and administrators belong to different bargaining units. Administrative positions must have administrative duties. If they have counseling duties, then they should be counselors.
8. Q. *If a school uses a contract pool teacher as a substitute, and their daily rate is higher than the District's current substitute rate, will the District cover the difference?*
- A. Yes.
9. Q. *How does an Affiliated Charter School identify the number of integration teachers that they need to fund from the Charter School Categorical Block Grant?*
- A. The position simulator from the School Fiscal Services Branch website (<http://achieve.lausd.net/sfs>) calculates the number of General Fund and Targeted Instructional Improvement Block Grant (TIIBG) teachers based on a given enrollment count, and shows the required funding source of the teacher positions. Also, refer to the Board-approved staffing ratios for more information.
10. Q. *If a school purchases a Class Size Reduction teacher using a specially-funded program for the second semester, how many substitute days should the school budget?*
- A. The school should budget 2 days using the specially-funded program. The District will fund 3 days with the General Fund School Program 13027.
11. Q. *Will Magnet Coordinators be included in Program 13027?*
- A. No, Magnet Coordinators will continue to be funded separately at the magnet cost centers in program 11301, TIIBG-Magnet Schs.

CLASSIFIED POSITIONS

1. Q. *Must schools purchase a School Administrative Assistant position?*
- A. Yes, unless you have prior approval from Personnel Commission. Personnel Commission may require the school to submit a job description for a position in-lieu of a School Administrative Assistant.
2. Q. *Can we purchase a 0.50 FTE Modified Consent Decree (MCD) Office Technician instead of a full position?*

A. The MCD Office Technician is a legal requirement. The level of service, 0.50 or 1.0 FTE, must be adhered to. This also applies to each school that shares a school facility or campus.

3. Q. *If a classified employee is out on a workers' compensation leave, what program code should be used to time-report the substitute?*

A. The substitute must be time-reported from the program code of the employee on workers' compensation leave. If the workers' compensation claim is approved, the expenditures for the employee on leave will be moved to a District program code automatically. In effect, the substitute's payroll expenditures will be covered by the funded position of the employee on leave. If the workers' compensation claim is *not* approved, the school will be charged for both the regular employee's and the substitute's salaries and benefits. However, because the workers' compensation claim is not approved, the leave is considered as a long-term leave. Therefore, the District will bear the cost of the long-term leave substitute. The school is responsible for funding the cost of the employee on paid leave.

4. Q. *My school exercised flexibility of funding a Senior Office Technician in-lieu of the norm-generated Office Technician this past year. Does my school have to exercise flexibility year to year to keep the Senior Office Technician position?*

Yes. Flexibility exercised is good for one school year only. If flexibility is desired to continue the following school year, the necessary budget adjustment should be processed taking into consideration possible increases or decreases in costs.

5. Q. *Can I close a classified position during budget development and open it later during the year?*

A. No. Classified positions closed during budget development cannot be reopened for one (1) year.

6. Q. *Which custodial positions are budgeted for night shift differentials?*

A. Building & Grounds Workers and Assistant Plant Managers can work as night shift employees. Additional cost to pay for night differential is allocated by Facilities Fiscal Support Services. Plant Managers and School Facilities Attendants are day shift employees. If a school prefers these positions to work the night shift, the school is responsible for the additional cost or shift differential.

7. Q. *My school has a 4-hour custodial position. Are there any additional costs for this position?*

A. In most cases, Facilities Fiscal Support Services will find another 4-hour position at a nearby school to make it an 8-hour assignment. If the school insists on hiring a

part-time employee, the school will be responsible for the additional 50% of the health and welfare benefit cost since part-time employees are eligible for full benefits. Building and Grounds workers do not have the option to work a part-time shift (less than 8 hours per day). There may be situations where it is impractical to combine two 4-hour positions to create a full 8-hour assignment.

8. Q. *Personnel Commission prescribed that my school budget for a Plant Manager II. Can my school purchase a Plant Manager I instead?*

- A. No. Plant Manager levels are predetermined based on class description for each level prescribed by Personnel Commission using various factors such as enrollment, square footage, and school type. Therefore, you must adhere to the classification that Personnel Commission prescribed for your school.

9. Q. *Can I request for a short-term substitute for a custodial employee?*

- A. For absences of less than 21 days, short-term substitute for Plant Manager, Assistant Plant Manager, Pool Custodian, and School Facilities Attendant positions are not generally available. However, a short-term substitute from the Area Building & Grounds Worker crews may cover for a Plant Manager I at a small elementary school.

Schools that need short-term Building & Grounds Worker substitutes should contact the Maintenance and Operation Area's substitute desk or the Complex Project Manager who will then provide a short-term substitute as available from the M & O Area substitute crew. The school will not be charged. Smaller schools are given priority for substitutes based on the size of their custodial staff.

10. Q. *How do I request a long-term substitute for a Plant Manager, Assistant Plant Manager, or School Facilities Attendant?*

- A. Schools that need a long-term substitute for any of these job classifications should contact their Classified Employment Services Assignment Technician for assistance. Classified Employment Services Assignment Technician will identify and assign a temporary substitute. The school's budget will be charged for the long-term substitute's services but will be reimbursed if the employee on long-term leave is on paid status.

11. Q. *How do I request a long-term substitute for a Building & Grounds Worker?*

- A. Schools that need long-term Building & Grounds Worker substitutes should contact their Classified Employment Services Assignment Technician who will provide a long-term substitute if available. The school's budget will be charged for the long-term substitute's services but will be reimbursed if the employee on long-term leave is on paid status.

12. Q. How do I fill a vacant custodial position?

- A. If the vacancy is an 8-hour position, contact Classified Employment Services Branch and request for a list of eligible employees to fill the vacant position. Schedule interviews to select the best fit for your campus.

If the position is part-time (less than 8-hours), contact your Complex Project Manager who will assist in hiring and coordinate with other sites for possible sharing of employee.

13. Q. How should I report mileage for part-time Building and Grounds Workers on split assignments?

- A. Each school should report mileage in each position's funding program. For Program 13027, funds will be allocated to schools based on actual expenditures.

14. Q. What are the guidelines for establishing a Library Aide position?

- A. In certain instances, funds will be provided to cover the cost of the Library Aide's Health and Welfare and/or PERS benefits. See below.

"Yes" means funds will be provided or expenditures will be reimbursed.

Program	3-hours/day, 5 days/week		6-hours/day, 5 days/week	
	H&W	PERS	H&W	PERS
10552, 10553	Yes*	Yes*	Yes	Yes
13027, 13723, 13724	Yes*	No	Yes	No
13938, 14242	No	No	No	No
7S046	Yes*	No	Yes	No

*If paired, funds to cover half of the cost of both Health & Welfare and PERS will be provided to elementary schools only.

- a. Schools do not have the option to fund two positions with two different position control numbers (PCN) for the same incumbent.

If an elementary school purchases a Library Aide out of Program 10552 or 10553, the funding for the health and welfare will be provided. The cost for PERS will be provided only if the position is purchased in Program 10552 or 10553. Funds will not be provided for positions or any part thereof that are funded by donation and/or filming or non-filming funds.

If the position is multi-funded and depending on the other funding source, the school may be responsible for the remaining portion of the health and welfare, and any increase in PERS.

Secondary schools that opt to purchase a Library Aide must fund the full cost of the position including Health & Welfare and PERS benefits.

- b. Schools with two different incumbents assigned to two 3-hour positions may opt to:
 - increase one of the two 3-hour positions to a 6-hour position and close the remaining 3-hour position. The incumbent in the closed position will be reassigned. Schools must ensure that Article XXII, Section 4.0 (b) of the Unit D contract has been followed prior to determining which individual should be placed in the closed position.
 - keep only one 3-hour position and close the other. The incumbent in the closed position will be reassigned. Please ensure that Article XXII, Section 4.0 (b) of the Unit D contract has been followed prior to determining which individual should be placed in the closed position.
- c. Existing Library Aide positions should not be closed with the intention of establishing a new Library Aide position with the same attributes.
- d. Schools purchasing a 3-hour Library Aide position are responsible for the additional cost of PERS. Depending on the funding source, schools may be responsible for the health and welfare costs.
- e. Remaining 3-hour Library Aide positions, with or without incumbents, will be paired as positions are vacated.

GENERAL QUESTIONS

1. Q. *Which resources do I have flexibility over?*
 - A. See sections on BUDGET GUIDELINES FOR POSITIONS and BUDGET GUIDELINES FOR NON-POSITIONS.
2. Q. *If a school exercises flexibility to purchase a position, will the position be subject to reduction at Norm Day?*
 - A. If a school's enrollment decreases from budget development to Norm Day, the school may be asked to reduce positions accordingly. Therefore, a position purchased under flexibility during budget development could be subject to reduction during Norm Day.
3. Q. *If an incumbent school staff is expected to retire in the coming fiscal year, can a school budget for the position at a lower pay scale level during budget development?*

- A. No. The anticipated retiree's budgeted position level should not be changed during budget development. The position's group and level can be changed only after Norm Day settle-up and budget to actual processes have completed.

4. Q. *How should I report mileage?*

- A. Schools should time-report mileage in Program 13027. Funds to cover the actual cost of mileage will be allocated to schools.

5. Q. *When should schools time-report Teacher Activity Differentials?*

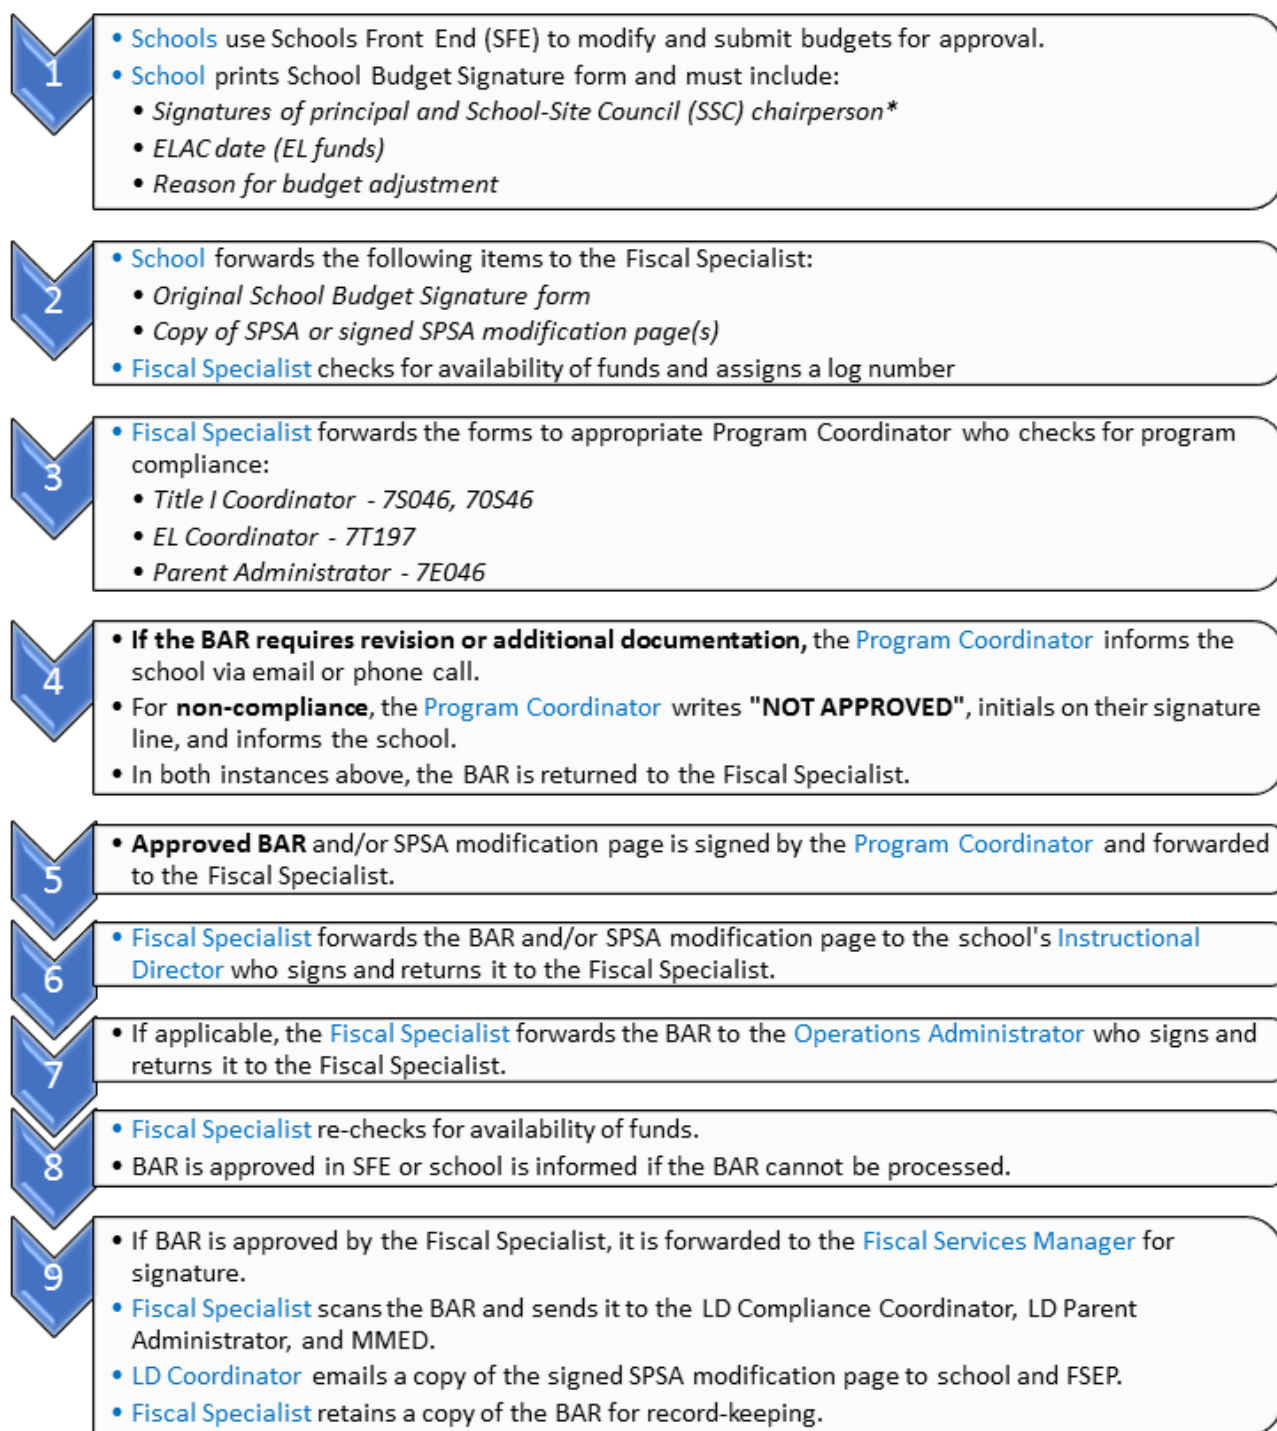

- A. Schools should continue to time-report Teacher Activity Differentials in January and June, or as indicated on reference guide REF-1802.14, "Time Reporting Instructions for Lump Sum Payment of Differentials."

6. Q. *How should schools spend additional funds for clerical, custodial, or food services overtime?*

- A. Schools that receive additional funds for purposes of clerical, custodial, or food services overtime are encouraged to spend it for the same purpose.

BUDGET ADJUSTMENT REQUEST PROCESS

DEFINITION OF TERMINOLOGIES

Item	Description
Affiliated Charter Schools (ACS)	Refers to charter schools that are still dependent on LAUSD on certain processes, i.e., budget allocations, payroll, procurement, accounting, etc.
Allocation	the process of sending funds from central to school accounts
Auxiliary Teacher/Auxiliary Time	a period of instruction in addition to the regular teaching hours
Average Daily Attendance (ADA)	represents the number of days the students were in class divided by the number of instructional days; expressed in units
Budget Adjustment Request (BAR) Form	form used to process transfer of funds from one budget line to another, e.g., from general supplies to instructional materials
Budget Development	For schools, this process happens around March and April of each fiscal year.
Budget Item	refers to items in the budget such as teacher salaries, classified salaries, benefits, instructional materials, general supplies, contracts, capital outlay, etc.
Carryover	refers to the amount of ending balance of an account that is carried from one fiscal year to the next
Certificated Employee	a person who holds a professional education certificate issued by the state superintendent of public instruction and who is employed by a school district or charter school in a position for which such certificate is required by statute
Charter School Block Grant	funding for charter schools that existed before the introduction of the Local Control Funding Formula (LCFF); intended to be spent for the basic operations of a charter school
Charter School Categorical Block Grant (Program 13723)	funding for charter schools that existed before the introduction of the Local Control Funding Formula (LCFF); funds to purchase Class Size Reduction teachers
Charter School In-lieu of EIA (Program 13724)	funding for charter schools that existed before the introduction of the Local Control Funding Formula (LCFF); intended to be spent for the EIA program
Class Size Reduction Program	funding from the state to implement reduction of class size in grades TK-3
Classified Employee	an employee of a school district who is in a position not requiring teaching certification
Differential	additional salary for having a specific degree, school activity such as coaching, etc.

Item	Description
Districtwide Targeted School Resource	Instructional programs recognized as a districtwide resource to support the targeted student population
Duplicated Pupil Percentage	Percentage of duplicated student count to enrollment based on a three-year rolling average
Duplicated Student Count	Duplicated count of pupils who (1) are English learners, (2) meet income or categorical eligibility requirements for free or reduced-price meals under the National School Lunch Program, and (3) are foster youth. "Duplicated count" means that each pupil is counted for each of the criteria met.
Education Protection Act (EPA)	funding that is included in LCFF; intended to be spent for teacher salaries only
Employee Roster Report	a report that lists all funded and unfunded positions/staff at a school site
Estimated Rates (Sheet)	list of various budget items and districtwide average costs for each budget item
Flexibility	the ability of schools to repurpose specific school resources
General Supplies	items that are for use in a school's office or central offices; not used for instructional purposes
Grant	funds received based on an application to the state or the federal government, or a foundation
Instructional Calendar	a calendar that shows the dates and the number of days a school is in session
Instructional Materials	items that are used for teaching purposes
K-3 Class Size Average Dashboard	Dashboard created to assist elementary schools and Local Districts in managing class enrollment and averages in Grades K-3
Longevity Differential	additional salary based on the number of years an employee has worked
Local Control Funding Formula (LCFF)	funding formula introduced by Gov. Jerry Brown in fiscal year 2013-14 that replaced the old funding formula called Revenue Limits
MiSiS	My Integrated Student Information System
Modified Consent Decree	represents the commitment of LAUSD's Board of Education that the District's Special Education program will be in compliance with all applicable federal laws
National Board Certified (NBC) Teachers	National Board Certification provides high-quality professional development for experienced teachers and allows teachers to gauge their skills and knowledge against objective standards of advanced

Item	Description
	practice. Funds received for this program is part of the LCFF.
Non-position	budget items that are not in the form of positions/staff, e.g., instructional materials, general supplies, etc.
Norm-based/Norm-generated	refers to a school resource that was allocated based on norm enrollment count
Norm Day	the fifth Friday of the instructional calendar
Norm Day Settle-up	the process of recalculating the estimated revenues and budgeted expenditures to reflect the most current P-2 ADA and Norm Day enrollment
Norm Enrollment	the count of student enrollment as of Norm Day
Off-norm	Refers to a school resource that is not based on Norm Day enrollment; a school resource in addition to norm-based resources
Other Post-Employment Benefits (OPEB)	costs that the District spends for retirees, i.e., lifetime health benefits
Pilot Schools	schools that were created to be models of educational innovation and to serve as research and development sites for effective urban public schools
Position(s)	budget items that are in the form of personnel/staff
Program Code 10354	Reed Program; ended in school year 2018-2019
Program Code 10359	School Innovation Funds; settlement funds as a result of the ACLU vs. LAUSD case; only select schools receive funds in this program
Program Code 10397	LCFF funds intended for the benefit of the Targeted Student Population (TSP); received by Per Pupil Schools only
Program Code 10529	Title I schools with grades 9-12 receive counselor positions in this program code; nurses are also allocated in this program code
Program Code 10552	Effective school year 2019-20, this program code replaced previous program codes 10183, 10400, and 10405; Norm-based Assistant Principals and Assistant Principals, Student Counseling Services are allocated in this program code
Program Code 10989	Effective school year 2019-20, Class Size Reduction Teachers and Teacher Librarians are allocated in this program code
Program Code 11119	funds intended for the Dual Language Program
Program Code 11227	funds intended for the JROTC Program
Program Code 13027	funds received by all K-12 schools intended for instruction and general school operation only
Program Code 13723	funds for Charter School Categorical Block Grant
Program Code 13724	funds for Charter School In-lieu of EIA

Item	Description
Program Code 11448	funds intended for the Accelerated Academic Literacy (AAL) program
Request For Personnel Action (RPA) Form	a form that indicates a position's funding, personnel assignment attributes, the necessary approvals, and the personnel action requested
Restricted	Refers to resources that carry with it, restrictions on how they should be used
School Budget Signature Form	form used to make changes to a school's budget
School Resource	an allocation received by a school, e.g., staff/positions, instructional materials, general supplies, etc.
SENI	Student Equity Needs Index
Shared Sites	refers to a school campus that is shared by multiple home cost centers, i.e., home cost center and shared cost center(s)
Specially-Funded Program	usually refers to grants
Staffing and Resources Report	a report that shows the current budgets of a school; includes positions and non-position budget items
Staffing/Position Simulator	an Excel worksheet that serves as a tool for determining the number of staff a school generates based on Norm Day enrollment
Statistical Report	a document that shows the number of students and average daily attendance (ADA) as of a specific school month
Student Equity Needs Index	The index where most TSP allocations are based on
Targeted Instructional Improvement Block Grant (TIIBG)	funding was intended for the District's court-ordered and voluntary desegregation programs; this funding is included in the LCFF and is now unrestricted
Targeted Student Population (TSP)	refers to students identified as English learner, eligible for free and reduced-price meals, and foster youth
Unduplicated Student Count	Unduplicated count of pupils who (1) are English learners, (2) meet income or categorical eligibility requirements for free or reduced-price meals under the National School Lunch Program, or (3) are foster youth. "Unduplicated count" means that each pupil is counted only once even if the pupil meets more than one of these criteria.
Unduplicated Pupil Percentage (UPP)	refers to the percent of the total number of students identified as English learner, eligible for free and reduced-price meals, and foster youth over the total enrollment
Unrestricted	Generally, refers to resources that do not have any restriction on how they should be used; an exception is TSP resources

FORMS AND REPORTS

LOS ANGELES UNIFIED SCHOOL DISTRICT
Human Resources Division
Administrative Assignments Unit
REQUEST FOR ALTERNATE STAFFING PATTERN (ASP)

TO: Maria Voigt, Director **Date:** _____

FROM: _____
 Local District Superintendent/Designee

School Requesting Alternate Staffing Pattern:
School name and cost center code _____

Local District _____

Rationale for Request: _____

The administrator or other employee listed below holds a valid Pupil Personnel Services (PPS) credential and will oversee the counseling office in the absence of the APSCS.

Employee Name _____ Employee number _____
 Employee Position _____
 Control Number _____

The Assistant Principal, Secondary Counseling Services position will be converted to:

☒ **Assistant Principal, Secondary (Generic) (0659)**

If an ASP is granted during Budget Development, but the employee identified during this process is no longer at the school effective July 1, 2019, the school is required to identify another employee who meets the credential criteria. If unable to do so, the position will be converted back to an Assistant Principal, Secondary Counseling Services (0531) position.

Identify the Position Control Number to be utilized for this ASP
 (This should be the same PCN of the AP SCS to be converted).

 Name and signature of principal requesting ASP **Date** _____

This bottom portion is to be completed by Local District before submitting to HR:

☐ Approved
☐ Not Approved

 Name and Local District Superintendent signature **Date** _____

Please submit this completed ASP request no later than Friday, March 29, 2019 to maria.voigt@lausd.net in the Administrative Assignments Unit.

The signatures below verify that stakeholders have had the opportunity to provide recommendations during the budget planning process. The signatures do not necessarily indicate approval of the spending plan.

The Board of Education has delegated to the general superintendent and the local district superintendents responsibility for budget and program decisions related to SB1X and Title I schools, which includes schools in corrective action and restructuring. Plans must be approved by the local district superintendent

"Unit D, Collective Bargaining Agreement, Appendix C, 4.0, b

...Criteria: The identification of individual employees within a department or unit for reassignment shall be based upon consideration of seniority (as defined below) and also consideration of the objective operational needs of the department or unit, such as the need to minimize disruption of services, the need to minimize retraining of the remaining employees, and the need to retain employees who possess special skills and/or expertise. It may also be based upon the avoidance of extraordinary personal hardship to an employee.

Employees who have volunteered for reassignment shall be considered first, subject to and consistent with the above considerations. Reassignment selections are not to be used to evade appropriate progressive disciplinary procedures; however, employees whose performance is marginal or below standard shall remain subject to the above reassignment criteria along with all other employees. For purposes of identification for reassignment, "seniority" means length of regular District service within the classification."

"My signature confirms that I have followed the Unit D, Collective Bargaining Agreement criteria set forth above in approving the reassignments resulting from this budget form."

FISCAL SPECIALIST

DEFINITION

Provides service to schools and Local District staffs by performing complex fiscal and operational tasks, and analyzing and interpreting policies, procedures, and records relating to school fiscal management.

TYPICAL DUTIES

Assists schools in developing their budgets based on the appropriate program requirements and District policies.

Performs a variety of analytical tasks related to financial or administrative activities involving some of the following functions:

- Provides technical assistance to schools, Local District administrators, and other staff in the management of a wide variety of school financial activities, including: General and Categorical Fund budget development, implementation, and transfers; position control process; payroll processing, imprest funds, p-cards, requests for personnel actions and procurement procedures.

- Reviews and processes school-based budget adjustment requests and processes requests in accordance with State and District regulations, policies, and principles of sound financial management.

- Analyzes and prepares a variety of special reports, including projections of budget and expenditures for use in managing fiscal resources at school sites.

- Identifies changes in position funding sources and initiates actions to meet program requirements and financial obligations.

- Analyzes and reviews school budgets for staff requirements to ensure compliance with guidelines developed by the District, California Department of Education and the State Controller's Office, and to identify potential deficits and prevent overdrafts.

- Serves as a liaison between schools and central office staff in areas such as accounts payable, attendance and enrollment, payroll, procurement, and other functions within school and District operations.

- Utilizes and provides assistance to school-based personnel with computer-based financial, budget, and administrative systems.

- Reviews and recommends modifications or updates to rules, policies, and procedures in order to recommend or establish and maintain financial controls.

- Confers with District personnel, community groups, and others to obtain and/or impart information related to financial and administrative operations as well as to explain procedures and regulations.

- Trains school personnel, central office staff, and parents in fiscal management and budget policies.

- Navigates and processes transactions and provide on-the-job training in technical systems, including

- SAP transactions and School's Front End for school-based personnel.

- May develop and maintain accounting procedures and reports and provide technical advice and services to school-based and Local District staff.

Performs related duties as assigned.

DISTINGUISHING CHARACTERISTICS AMONG RELATED CLASSES

A Fiscal Specialist provides budgetary and financial services to school and Local District staffs.

A Fiscal Services Manager supervises and participates in budget preparation and modification, expenditure analysis, and budget adjustments for schools, administrative regions, programs, large branches, divisions, Local Districts, or the District, or conducts oversight visits and review of charter schools.

A Senior Financial Manager is responsible for the student body and cafeteria financial functions in a senior high school.

SUPERVISION

General supervision is received from a Fiscal Services Manager, Senior Fiscal Specialist, or other financial or budgetary administrator. Technical supervision is exercised over the fiscal work of school-based and Local District clerical and financial management personnel.

CLASS QUALIFICATIONS

Knowledge of:

- Payroll principles and policies
- District budgetary practices and procedures
- District organizational units and functions
- District rules, procedures, and guides applicable to personnel assignments and compensation
- Applicable rules and regulations of specially funded programs
- Financial data systems used for budgetary records and reports such as SAP-SFE and SAP-COFE
- Microsoft Word and Excel

Ability to:

- Analyze customer problems and respond in a timely manner
- Apply basic budgetary and accounting practices and make valid analyses and comparisons
- Use critical judgment in the evaluation of data and make accurate calculations
- Recognize errors in numerical data
- Prepare and present clear and concise reports
- Operate a computer and peripheral equipment
- Analyze and apply policies and procedures to resolve budgetary problems
- Use oral and written English effectively
- Work effectively with District personnel, parents, students, and community and business representatives

ENTRANCE QUALIFICATIONS

Education:

Graduation from high school or evidence of equivalent educational proficiency at the high school level. Completion of 12 college semester units or equivalent quarter units in accounting, finance, or mathematics is preferable.

Experience:

Two years of full-time experience in the preparation or maintenance of school district budget or accounting records.

or

Three years of experience maintaining a school office by performing and supervising clerical work related to budgeting, student body, time reporting, procurement, imprest fund, and personnel actions.

A bachelor's degree from a recognized college or university, may be substituted for up to one year of the required experience.

Special:

A valid California Driver License and the availability of private transportation, or the ability to use an alternative method of transportation.

This class description is not a complete statement of essential functions, responsibilities, or requirements. Entrance requirements are representative of the minimum level of knowledge, skill, and/or abilities. To the extent permitted by relevant law, management retains the discretion to add or change typical duties of a position at any time, as long as such addition is reasonably related to existing duties.

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Los Angeles Unified School District

CDS Code: 19 64733

Local Control and Accountability Plan (LCAP) Year: 2019-20

LEA contact information: 333 S. Beaudry Ave., Los Angeles, CA 90017, www.lausd.net, (213) 241-1000

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2019-20 LCAP Year

This chart shows the total general purpose revenue Los Angeles Unified School District expects to receive in the coming year from all sources.

The total revenue projected for Los Angeles Unified School District is \$6,974,367,632.00, of which \$5,190,756,817.00 is Local Control Funding Formula (LCFF), \$873,459,191.00 is other state funds, \$142,358,623.00 is local funds, and \$767,793,001.00 is federal funds. Of the \$5,190,756,817.00 in LCFF Funds, \$1,137,257,754.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

LCFF Budget Overview for Parents

This chart provides a quick summary of how much Los Angeles Unified School District plans to spend for 2019-20. It shows how much of the total is tied to planned actions and services in the LCAP.

Los Angeles Unified School District plans to spend \$7,413,632,464.88 for the 2019-20 school year. Of that amount, \$5,190,756,817.00 is tied to actions/services in the LCAP and \$2,222,875,647.88 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

LA Unified has a structural deficit which is a result of on-going expenditures exceeding on-going revenues. The 2019-20 budget incorporates the 2018-19 unassigned ending balance reserve. Differences between this budget overview and the district Standardized Account Code Structure (SACS) district report are due to the exclusion of LA Unified affiliated charter schools from this budget overview.

Increased or Improved Services for High Needs Students in 2019-20

In 2019-20, Los Angeles Unified School District is projecting it will receive \$1,137,257,754.00 based on the enrollment of foster youth, English learner, and low-income students. Los Angeles Unified School District must demonstrate the planned actions and services will increase or improve services for high needs students compared to the services all students receive in proportion to the increased funding it receives for high needs students. In the LCAP, Los Angeles Unified School District plans to spend \$1,140,015,110.00 on actions to meet this requirement.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2018-19

This chart compares what Los Angeles Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Los Angeles Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2018-19, Los Angeles Unified School District's LCAP budgeted \$1,221,361,505.00 for planned actions to increase or improve services for high needs students. Los Angeles Unified School District estimates that it will actually spend \$1,238,493,727.00 for actions to increase or improve services for high needs students in 2018-19.

Local Control Accountability Plan and Annual Update (LCAP) Template

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

The Los Angeles Unified School District (LA Unified) is focused on ensuring all students are prepared for college, career and life. We are a district that serves over 694,096 Pre-K thru Adult Education students, including independent charter and affiliated charter schools. Approximately 85% of these students are either eligible for free and reduced lunch, an English learner or in the foster youth system. Acknowledging the challenges our students confront every day, both academically and emotionally, it is essential we ensure resources are effectively targeted to our neediest students. As such, our objective in developing equitable practices in LA Unified is informed by our diverse population where 157,619 students are learning to speak English proficiently and 73.4% of our student population is Latino, 10.5% is White, 8.2% is African American and 6.3% is Asian/Pacific Islander. LA Unified embraces strategies that foster opportunities and aim to close the opportunity gap for students identified by the Local Control Funding Formula (LCFF). It cannot be done without our approximately 63,576 employees, consisting of teachers, administrators and classified personnel who are instrumental in helping LA Unified achieve the goals and objectives for improving student outcomes. Additional information about the district may be accessed at <https://achieve.lausd.net/facts>.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

LA Unified continues to expand the implementation of multi-tiered systems of support to ensure that all students are ready for college, career and life. In addition to academic, behavioral and social-emotional initiatives, LA Unified is focused on increasing school-based resources and staffing district-wide and ensuring equity in the distribution of those resources. Schools and Local Districts have been provided additional flexibility in the use of supplemental funds because of the diverse needs of school communities and the belief that those closest to students know best how to allocate staffing and resources.

Goal #1 - 100% Graduation: Ten LCAP actions aim to increase graduation rates and ensure students graduate college and career ready.

- Additional funding has been allocated for class size reduction teachers and counselors. Schools have also received increased budget autonomy so that local decision-makers can determine how best to utilize funding to be most aligned with the needs of their students. The Student Equity Needs Index funding has increased and now provides schools with greater autonomy over how those funds may be spent (Goal 1, Action 5).
- Options schools funding has been moved from supplemental to base funding to recognize the student populations these schools serve and to provide these schools with additional flexibility to determine allocations of resources and staffing (Goal 1, Action 6).
- A-G Immediate Intervention continues to expand resources for schools to provide Tier 2 and 3 academic supports for students to improve proficiency levels and to increase graduation rates. Local Districts are also provided additional flexibility in the use of supplemental funds to identify staffing and resources needed to support their schools in improving Tier 2 and 3 strategies for student graduation progress (Goal 1, Action 9).

Goal #2 - Proficiency for All: Twelve LCAP actions concentrate on continuing gains in grade-level academic proficiency for all students, and particularly for student groups that perform below the district average.

- The Foster Youth Support Plan and Family Source Centers will receive increased funding to ensure that the district continues to focus on the success of these students (Goal 2, Action 1).
- The integration of students with disabilities into general education programs has been moved from supplemental to the base funding for special education. This acknowledges the importance of this integration initiative for all students as full inclusion programs are expanded to additional schools in the upcoming school year (Goal 2, Action 8).
- The Division of Instruction continues to focus on improving literacy outcomes for the district. This has included the implementation of the English Learner Master Plan to integrate English Language Development across the Tier 1 curriculum and to support secondary literacy Tier 2 and Tier 3 strategies in middle and high schools (Goal 2, Action 9).

Goal #3 - 100% Attendance: Four LCAP actions are focused on supporting the health, behavior and social-emotional learning of students across the district and with homeless and foster youth.

- Increased funding is allocated for these actions to improve student engagement and supports at campuses with the highest need. These actions include increases in staffing for nurses and counselors.

Goal #4 - Parent, Community and Student Engagement: Two LCAP actions support initiatives to strengthen the partnerships and collaboration between school staff, parents, students and community members to support student success.

- Targeted Parental Involvement funding has been reallocated to School Autonomy in order to provide schools with additional funding flexibility in how these funds are utilized at the school level (Goal 4, Action 1).
- Ongoing parental involvement funding will continue to engage staff and parents in ways to provide input on district progress and initiatives (Goal 4, Action 2).

Goal #5 - Ensure School Safety: These two LCAP actions continue to improve the strategies in schools to foster positive school climates and to ensure that schools are safe spaces that are conducive to learning for all students.

- As the Restorative Justice training has been implemented in all district schools, funding for school climate and restorative justice has been reallocated to the School Autonomy action in order to provide schools with greater flexibility (Goal 5, Action 1).

Goal #6 - Basic Services: Five LCAP actions support schools with maintenance and student nutrition needs in addition to providing administrative support through Local Districts and the Central Office.

- Funding is sustained for maintenance and access to meals (Goal 6, Actions 4 and 5).

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

LA Unified is proud of our community of parents, teachers, counselors, administrators and classified staff who are focused every day on improving student performance. We also greatly appreciate our community and university partners that have advocated for continued improvements to our practices and share in the progress of our students.

1 - Graduation Rate - The LA Unified graduation rate on the California school dashboard continues to show growth year-over-year by increasing to 82.7% in 2018 compared to 81% in 2017. The district's continued focus on developing and implementing Tier 2 and 3 supports in high schools such as credit recovery and graduation counseling is resulting in more students

graduating and meeting a-g coursework requirements.

2 - English Language Arts (ELA) - The increase in ELA performance district-wide (+5.6 points) reflects improvements in multi-tiered systems of support implementation in curriculum and instruction during the 2017-18 school year. The implementation of new Tier 1 ELA curriculum across all elementary schools in addition to the implementation of the new district English Learner and Standard English Learner Master Plan have now provided the resources and instruction that students need to demonstrate proficiency on the state assessments.

3 - Mathematics - District-wide mathematics performance improved +3.3 points, demonstrating that additional professional development and formative assessment strategies are supporting student achievement. Schools are also increasing their use of Smarter Balanced interim assessments to support teacher calibration of student performance expectations.

4 - Suspension Rate - Our LA Unified suspension rate maintained a low level (0.5%) similar to the prior year rate. District schools continue implementation of restorative justice practices through professional development and discipline policies.

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The district's implementation of multi-tiered systems of support continues to focus on the areas of greatest need in the district. While overall district performance on the state dashboard only identifies one area, chronic absenteeism, as "Orange," we recognize that overall student performance in additional dashboard areas remains low (e.g., English Language Arts, mathematics).

1 - Chronic Absenteeism - The district's chronic absenteeism rate was maintained year-over-year at about 10.3%, with most student groups performing at the same level as the prior year. The district continues to develop additional resources and dashboards for schools to track their chronic absenteeism rates during the school year. Schools will also have increased funding and flexibility to add Pupil Services and Attendance (PSA) counselors to engage students and families.

2 - College/Career Readiness - While the overall district performance is "Yellow," we recognize that only 38.2% of students in the cohort were identified as "prepared." Examination of the criteria for being "prepared," LA Unified continues to expand and implement Career Technical Education pathways, as exemplified by our Linked Learning high schools. In addition, the district is improving its tracking systems for identifying students who have completed college coursework.

3 - English Language Arts and Mathematics - Both district-wide distance from standard met scores for ELA (-29.2) and mathematics (-59.4) indicate the majority of students are still not performing at the state-identified proficiency level. Continued investments in lowering class sizes, improving curriculum and instruction for all students, and focusing supports for English Learners and foster youth are intended to result in improvements in performance in these areas.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

1 - Graduation Rate - English learners and foster youth are both at the "red" performance level compared to the district all student "green" performance level. In addition, the following three student groups are at the "orange" performance level: homeless, Native Hawaiian or Pacific Islander, and two or more races. The district continues to implement Tier 2 and 3 strategies to provide greater opportunities for students to reach proficiency and recover course credits during and outside the school day. Counselors continue to receive resources and training in tracking and advising students on their progress and how to ensure foster youth receive their credits earned and are permitted to meet the permitted state minimum graduation requirements. For English learners and Standard English learners, the district continues to identify additional courses that meet a-g course graduation requirements and to implement the English Learner and Standard English Learner Master Plan to support improvements in content area Tier 1 instruction and the incorporation of more integrated English Language Development instruction and culturally responsive instruction in content courses.

2 - Suspension Rate - One student group, American Indian or Alaska Natives, are at the "yellow" performance level compared to the district "blue" performance level. Of note is that only two other student groups, African American and foster youth, are at the "green" performance level. All other student groups are at the "blue" performance level. The district continues to implement restorative justice practices across all schools. The expansion of culturally responsive instruction through the Access, Equity and Acceleration team should increase student engagement and ensure inclusion of all students in classroom instruction.

3 - College/Career - One student group, students with disabilities, is performing at the "red" performance level compared to the all students performance at the "yellow" level. The district is increasing the implementation of full inclusion programs in schools as a Tier 1 strategy, integrating students with disabilities into general education classes. Full inclusion practices require extensive professional development and planning for school site staff members and provide students with disabilities with greater access to a-g courses in high school. The district continues to provide funding and budget flexibility for Local Districts and schools to support students with disabilities in their progress toward graduation. Data systems like progress monitoring dashboards implemented over the past several years continue to provide schools and Local Districts with information to respond to students with disabilities who might need additional supports.

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts.

Schools Identified

Identify the schools within the LEA that have been identified for CSI.

The California Department of Education identified 47 schools as Comprehensive Support and Improvement (CSI) within LA Unified. The following 25 of LA Unified's CSI schools were identified for low-graduation based on the 2-year average rate. Schools with Dashboard Alternative School Status (DASS) are annotated:

- Angelou Community High School
- Belmont High School
- Central High School (DASS)
- Early College Academy
- McAlister High School (DASS)
- Newmark High School (DASS)
- RFK School for the Visual Arts and Humanities
- Monterey High School (DASS)
- Perez Special Education Center (DASS)
- Earhart High School (DASS)
- Evergreen High School (DASS)
- London High School (DASS)
- Rogers High School (DASS)

- Addams High School (DASS)
- Independence High School (DASS)
- Owensmouth High School (DASS)
- Thoreau High School (DASS)
- Wooden High School (DASS)
- Avalon High School (DASS)
- Willenberg Special Education Center (DASS)
- Bernstein High School
- CDS Alonzo (DASS)
- View Park Continuation (DASS)
- Carlson Home Hospital
- City of Angels (DASS)

The following 22 of LA Unified's CSI schools were identified for low performance based on 2018 Dashboard results:

- Kahlo High School (DASS)
- Manual Arts High School
- Boyle Heights STEM
- Holmes Ave Elementary School
- Odyssey High School (DASS)
- Lowman Special Education Center (DASS)
- Panorama High School
- Van Nuys Middle School
- Lokrantz Special Education Center (DASS)
- Miller Career and Transition Center (DASS)
- Mulholland Middle School
- Dymally High School
- Markham Middle School
- Youth Opportunities Unlimited Alternative High School (DASS)
- Audubon Middle School
- Brentwood Science Magnet
- Century Park Elementary School
- Bret Harte Preparatory Middle School
- Augustus Hawkins Community Health Advocates School
- Washington Preparatory High School
- WESM Health/Sports Medicine High School
- Secondary CDS (DASS)

Support for Identified Schools

Describe how the LEA supported the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

LA Unified has built a system of support such that CSI schools are able to effectively complete all the requirements related to their Every Student Succeeds Act (ESSA) status, including conducting a comprehensive needs assessment, engaging stakeholders in planning, selecting evidence-based interventions and identifying resource inequities. Going beyond the requirements of ESSA, LA Unified aligned additional resources to provide supplemental supports and resources to CSI schools to support ongoing improvement and student achievement.

In anticipation of the identification of CSI schools, LA Unified created a CSI Addendum to the online School Plan for Student Achievement (SPSA) to address new plan components, provided trainings for principals and their Local District (LD) support staff, provided ongoing guidance and support to schools as they began their planning process, and aligned additional resources (beyond the State CSI funds) for schools to support improvement efforts. The District's CSI Addendum template was approved by California Department of Education (CDE) staff in January 2019.

Comprehensive Needs Assessment: The LA Unified's SPSA template includes questions to address the requirement that CSI schools complete a comprehensive needs assessment. Schools must not only describe what occurred during their comprehensive needs assessment, who participated, and when it occurred, but also must describe the findings from their needs assessment and the alignment of their findings to strategic actions. Schools analyze a variety of data, including the state indicators on the California School Dashboard.

Resource Inequities Review: LA Unified defined the goal of a Resource Inequities Review as follows: *To ensure that all students have equitable supports and access to various resources such as programs, rigorous curriculum, interventions, effective teachers, etc., such that all students can achieve at high levels.* To achieve this goal, LA Unified regards the Resource Inequities Review process as the application of an equity lens during the comprehensive needs assessment. While schools must respond to four prompts on the CSI Addendum that describe the identified inequities and strategies to address them, LA Unified also provided reflection questions that cover a range of areas where inequities may exist to support school teams as they seek to identify ways in which resources may or may not be used equitably. Each completed CSI section of the SPSA includes a description of the actionable inequities identified, the inequities that will be prioritized at the school site, and the strategies to address the inequities.

Evidence-Based Interventions: To ensure that CSI schools are able to select and implement evidence-based interventions, LA Unified provided guidance and training at multiple levels of the organization and developed an optional bench contract with pre-vetted vendors that support evidence-based interventions. As school teams identify their needs during their resource inequities review and comprehensive needs assessment, they will determine data-based focus areas. Once the focus areas have been identified, school teams have resources to identify and select evidence-based interventions such as evidenceforessa.org, What Works Clearinghouse, LA Unified's Evidence-Based Interventions Bench, and other links to identify interventions, programs or activities that align to student need. As an added layer of support, LD staff (who are among those who provide approval signatures on the plans) have been trained in using those resources and others to support schools in selecting interventions that meet the federal criteria.

Trainings for Principals and Local District Staff and Ongoing Guidance: The CDE released the statewide list of CSI schools on January 31, 2019, and LA Unified completed trainings for all principals of CSI schools by February 27, 2019. The trainings addressed the State's CSI identification criteria, CSI requirements, and the resources and supports to implement the requirements. Each principal received a toolkit to provide background information, communication tools to support efforts to inform and engage stakeholders, and resources to support schools in completing the CSI Addendum. The trainings also provided contact information for various district departments, and schools have been accessing those contacts for additional support and guidance for planning. In addition to the formal principal trainings, LA Unified staff have provided ongoing training to LD support staff to go in further depth on evidence-based interventions, resource inequities reviews and the CSI Addendum to ensure common understandings and to have a continuous line of communication about ongoing areas of need.

Additional Resources: The State will be allocating roughly \$7.6 million to LA Unified to support CSI school improvement efforts. Those funds were allocated directly to CSI schools to support locally-determined improvement efforts based on a base-grant model of \$100,000 plus a per pupil allocation. The only exception is Washington Preparatory High School, which receives School Improvement Grant (SIG) funds in lieu of the State CSI allocation. In partnership with stakeholders (via School Site Council) schools will determine the best use of their improvement funds within the SPSA CSI Addendum based on the comprehensive needs assessment findings. To support ongoing improvement efforts, LA Unified set aside additional local Title I funds for lower-performing schools (including, but not limited to CSI). LA Unified is providing the following additional Tier 2/Tier 3 resources to support student learning opportunities for students attending CSI schools in Summer 2019 or during the 2019-20 school year:

- **Summer Learning:** To create ongoing learning opportunities for at-risk students over the summer, LA UNIFIED offers several programs that CSI schools can implement:
 - **Extended Learning Opportunities, Summer (ELOS):** CSI elementary and middle schools are able to offer a standardized summer program administered by Beyond the Bell. This four-week program includes focused academic intervention in English Language Arts or mathematics for academically at-risk students in grades K-8. The program includes an instructional field trip aligned with leveled-reading texts, opportunities for activity-based projects, social emotional learning lessons and reader's theater.
 - **Summer Reading Program:** For CSI schools with low enrollment, LA Unified offers a summer reading program in lieu of ELOS. The program involves providing high-interest reading materials for students to access over the summer.
 - **Summer Term:** All at-risk students attending any LA Unified high school, including CSI schools can attend a 24-day summer program to recover credits and make progress toward graduation.
 - **Summer Bridge:** CSI comprehensive high schools are all eligible to offer a summer bridge program to support the transition from 8th to 9th grade. The curriculum includes English Language Arts, culturally authentic and responsive pedagogy, STEAM text-based collaborative lessons and activities, and *Naviance* online high school and college readiness curriculum. Students earn five elective credits upon successful completion.
- Additional supports that CSI schools will be eligible to receive during the 2019-20 school year include:
 - **Title I Intervention Program:** All CSI elementary, middle and comprehensive high schools are eligible to participate in the Title I Intervention program. This program is administered by Beyond the Bell. School sites receive a per pupil allocation to offer site-designed interventions to meet student need during the school year, and have flexibility to focus on math, English Language Arts or credit recovery.
 - **Social-Emotional Learning:** LA UNIFIED's Social Emotional Teacher Advisors will identify and support age-appropriate social-emotional learning programs (e.g., Second Step) or develop trainings for CSI schools.

LA Unified may identify additional resources and supports to meet the needs of CSI schools based on an ongoing review of data.

Monitoring and Evaluating Effectiveness

Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Below is a description of how LA Unified will monitor and evaluate the implementation of effectiveness of the CSI plans:

- Local District staff will monitor and support the implementation of CSI plans. The online SPSA now includes a space for LDs to describe the way in which they are providing additional support and monitoring to the CSI schools. The support and monitoring may vary depending on school context and needs and will be described in the Monitoring section of the school's SPSA.
- CSI school teams will formally evaluate school plans alongside Local District support staff annually. School teams will review whether they have met the measurable objectives stated in the plan and reflect on implementation. While the measurable objectives and data points may vary by school, the objectives are aligned to state indicators on the California School Dashboard. Because the SPSA is online, LA Unified can aggregate school-level evaluative data across the system to determine how many CSI schools have met their measurable objectives.
- CSI schools will review the progress of their plan implementation after the first semester alongside district staff.
- LA Unified collects a robust set of data that aligns to the California School Dashboard to support district and school staff in monitoring and evaluating implementation, including, but not limited to:
 - **Attendance-** Schools and district staff can monitor student level attendance and "performance bands" of attendance to determine which students are at-risk of chronic absenteeism and identify trends. Our Focus data system updates attendance daily for frequent monitoring and adjustments.
 - **Suspensions-** Schools and district staff can monitor student level suspensions, including the reason for the suspension. These reports on our MyData platform are updated weekly.
 - **English Language Arts (ELA)-** Schools and district staff can review and analyze Smarter Balanced Assessments (SBA) for ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in ELA, and can analyze scores at least twice a year.
 - **Math-** Schools and district staff can review and analyze SBA ELA performance at the student level, which is available annually. The percentage of students meeting or exceeding standards is available at the student level, and the Distance from Standard is available by grade level. Additionally, schools administer Interim Assessments in math, and can analyze scores at least twice a year.
 - **A-G Progress-** To support schools in monitoring progress toward graduation, schools and district staff have access to reports noting A-G progress, including information about whether the student is on-track to graduate or how many credits they are missing to be considered on-track. Our Focus data system tracks A-G with a D or better, A-G with a C or better, and all academic requirements met for the current and future graduating classes.
 - **At-Risk Reports-** LA Unified collects and provides reports that schools and district staff can use to identify at-risk students based on multiple factors such as attendance, suspensions and academic grades (i.e., marks).
 - **School Experience Survey-** LA Unified administers an annual district-wide survey to students, staff and families. Data reports are provided annually, and include response rates and results at multiple levels, include category, content area, and individual question. Categories include Academics, School Climate, and Social Emotional Learning. Content areas include Academic Focus, Cognitive Engagement, Future Orientation, Bullying, Connectedness, Expectations for Behavior, Opportunities for Participation, Safety, Growth Mindset, Self-Efficacy, Self-Management and Social Awareness.

The MyData system and School Experience Survey data provide longitudinal information, which can help schools and the district see patterns and trends overtime, while the Focus platform generally supports ongoing progress monitoring throughout the year. LA Unified has an ongoing commitment to improve its data system to support schools and district staff in monitoring and strategic planning.

Annual Update

LCAP Year Reviewed: 2018-19

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access

Actions / Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral, mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.</p> <p><u>Academic Interventions</u></p> <ul style="list-style-type: none"> • English Language Arts, English Language Development, and Math Interventions • AVID (Advancement Via Individual Determination) • International Baccalaureate • Dual Language/Bilingual Programs 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Programs & Interventions</u></p> <p>Implementation of various programs and interventions were targeted to support student achievement. The largest expenditure was to support Options Programs (Community Day schools, Continuation schools, Independent Study and Opportunity schools) through \$24.8 million to fund certificated and classified staff across these schools. Arts program central office supports were also funded at \$1.15 million to support district-wide arts programs and to oversee arts itinerant teachers. Summer school credit recovery instructional materials were also funded with \$1.8 million to support high school students in need of additional courses to meet graduation requirements. District science centers were also funded to support the continued implementation of new state science standards by providing instructional materials and resources to schools. Additional enrichment programs such as academic decathlon, afterschool programs, and all city marching band were also funded to support student engagement.</p> <p><u>College and Career Ready</u></p> <p>The Career Technical Education Incentive Grant (CTEIG) supported and expanded our existing Career Technical Education (CTE) pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.</p>	<p>\$14,869,259 - LCFF - 1000-1999 Certificated Salaries \$2,517,905 - LCFF - 2000-2999 Classified Salaries \$8,113,117 - LCFF - 3000-3999 Employee Benefits \$8,264,632 - LCFF - 4000-4999 Books and Supplies \$11,024,471 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,714 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$16,035,498 - LCFF - 1000-1999 Certificated Salaries \$2,826,121 - LCFF - 2000-2999 Classified Salaries \$7,984,326 - LCFF - 3000-3999 Employee Benefits \$1,756,052 - LCFF - 4000-4999 Books and Supplies \$3,719,163 - LCFF - 5000-5999 Services and Other Operating Expenses \$12,687 - LCFF - 6000-6999 Capital Outlay</p>

- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provided opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1-3 funds supported over 411 CTE pathways across the district.

Through this funding, LA Unified has:

- Implemented cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changed the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces, medical simulation labs;
- Developed a continuum of industry sector-aligned Work Based Learning opportunities for students, both in the classroom and in the industry sector workplace;
- Grown the number of CTE-credentialed teachers at LA Unified, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulated CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LA

<p>work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.</p> <p>Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.</p> <p>Through this funding, LAUSD is:</p> <p>Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;</p> <p>Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;</p> <p>Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;</p> <p>Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;</p>	<p>Unified/Los Angeles Community College District AB 288 dual credit MOU. In 2017-18 students earned 5,364 industry-aligned certifications.</p> <p>Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LA Unified to implement Linked Learning at 72 pathways across the District, an increase in 24 pathways over the last three years. This funding:</p> <ul style="list-style-type: none"> • Provided seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders, • Funded the development of interdisciplinary real-world projects aligned with the pathway industry theme, • Provided funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning, • Made teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways, • Funded Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students. • Funded a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools. <p>These courses are aligned with their industry sector and lead to an industry recognized certification or</p>

Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the Districts goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,

Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,

Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high

credential, without a cost to our schools or students, during the LA Unified school day. These innovative options increased awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provided students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LA Unified has 14 gold certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.
- Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

LA Unified Linked Learning high school pathways outperformed non-Linked Learning high schools in graduation rates, a-g on track/completion, SBA English and SBA math while Linked Learning pathways have 16.4% English Learner students compared to 9.5% English Learner students in district non-Linked Learning pathways.

Additional information about LA Unified Linked Learning pathways may be accessed at: <https://achieve.lausd.net/Page/524>.

<p>school pathways,</p> <p>Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.</p> <p>Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.</p> <p>These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.</p> <p>LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:</p> <p>Students in certified Linked Learning pathways completed more college preparatory courses compared with similar peers in traditional high school programs.</p> <p>Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.</p>

Action 4

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed Schools</p> <p><u>Teacher Retention and Support Program (REED)</u></p> <p>Increase Support to Sites with High Turnover and high concentrations of unduplicated students. Supports include staffing, professional development augmentations and recruitment and retention enhancements. Also includes new teacher support and assistance (BTSA).</p> <p>Impact of resources will be assessed by the metrics listed in Goals #1 and Goals #2.</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Low Income</p> <p>Scope of Service: Schoolwide</p> <p>Location: Specific Schools: 37 Reed Schools</p> <p>In Spring 2014, a settlement agreement was reached between the District and Plaintiffs who are represented by American Civil Liberties Union (ACLU), Public Counsel, and Morrison Foerster, as well as UTLA, and Partnership for Los Angeles (PLAS). Although Associated Administrators of Los Angeles (AALA) was not a party to the litigation, AALA also participated in the settlement discussions. The settlement agreement was unanimously approved by the Board of Education, and was subsequently approved the Court as well.</p> <p>The settlement agreement provided for a robust set of administrative and other support at 37 schools, which were selected based on their API 1-3 ranking, high teacher turnover rate, and four of those schools had the highest student dropout rates. These schools have great concentrations of students who are English learners, foster youth and/or from low income families. Eighteen percent of the students at these schools were born outside of the United States (i.e., immigrants). The Reed Investment Schools received the following:</p>	<p>\$21,581,417 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$7,239,969 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$15,811,945 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,318,878 - LCFF - 3000-3999 Employee Benefits</p> <p>\$253,235 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

1. 1 Additional Assistant Principal
2. 1 Additional PSA Counselor, Psychiatric Social Worker or Secondary Counselor
 - For the 2018-19 school year the following were allocated:
 - PSA - 13
 - PSW - 4
 - Guidance Counselors - 20
3. A-Basis for Principal and Reed Assistant Principal
4. 1-4 Mentor Teachers: Reed supports 91 mentors that provide ongoing support to over 370 non-permanent teachers at all 37 Reed sites.
5. 1-2 Special Education Support Providers (for schools with at least 15% of the student population with special needs)
6. Unique Professional Development - Reduction in Force Protection
 - 40 hours of additional paid professional development training provided to all teachers and non-administrative certificated staff at the Reed schools.
 - For the 2018-19 school year, 397 staff members in Reed schools received additional specialized training for a total of 11,751.795 hours.
7. Reed Mentor Professional Development
 - 6 sessions provided for the 2018-19 school year
 - 2018-19 focus: Standard 6.1 through 6.4 of the continuum of mentoring practice.
8. Recruitment and Retention Incentives
9. 1 Saved Position of math or English Language Arts teacher (in event of displacement due to decline in enrollment)
 - For the 2018-19 school year, a total of 14 math or English Language Arts teacher positions were funded by the Reed program to prevent the teacher from being displaced.
10. Extra Conference Periods (for non-permanent teachers)

- As outlined in the final settlement agreement, "every non-permanent teacher receives an additional conference period" in order to provide time to meet with mentor teachers, observe experienced teachers, and plan instruction.

11. Long Term Substitute Funding

12. School Site Support Visits

- 2018-19 - 16 Reed schools visited

- Goal: Review of Reed professional development and implementation
 - Habits of Mind
 - Reed Investment Engagement Strategies
 - Teaching and Learning Framework
 - Teacher Retention Supports (Reed Mentors)
 - School wide PD goals
 - School experience survey

The three year Reed Investment School Program was scheduled to end on June 30, 2017 (after commencing in 2014) pursuant to the original settlement agreement and court order. The District voluntarily extended the program through June 2019, an additional year beyond what was required under the court order. The Reed Investment School Program will discontinue June 2019.

Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>School Autonomy</u></p> <p>Provide additional budget autonomy to schools to support the academic plan on each campus. Schools receive an allocation to provide for local-decision making on how to provide supports to unduplicated students. Funds are distributed utilizing the Districts student equity-based index. Services and positions supported by this resource are to be aligned with the Districts investments and strategies outlined in the District LCAP and a schools single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the Districts LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p>For the 2018-19 school year, the Student Equity Needs Index continued to distribute funding based on the identified needs of school communities. In collaboration with community organizations, the index was revised to include additional indicators of student need including academic indicators, school climate indicators, community indicators (i.e., childhood asthma and gun violence) and new demographic indicators. These indicators align with the new state dashboard. The school rankings were separated by school levels (i.e., elementary, middle and high), with some indicators given greater weight within each school level based on the districts areas of focus in the strategic plan. Specifically, college readiness is prioritized for high schools, school climate and safety are prioritized for middle schools, and math and literacy scores are prioritized for elementary schools.</p> <p>Schools received their allocations and were required to support their decision-making on the use of funds in the schools Targeted Student Population (TSP) Plan to ensure alignment with district goals. A menu of recommended professional development and supports that are aligned with the districts goals were offered to schools. Detailed information about each school TSP Plan is accessible at schooldirectory.lausd.net. Over 80% of these funds were utilized to purchase additional certificated staff including part or full-time additional assistant principals, intervention support coordinators, arts teachers, class size reduction teachers, Psychiatric Social Work counselors and Pupil Services and Attendance counselors.</p> <p>In addition, schools were allocated positions to</p>	<p>\$466,137,200 - LCFF - 1000-1999 Certificated Salaries \$58,799,461 - LCFF - 2000-2999 Classified Salaries \$192,126,369 - LCFF - 3000-3999 Employee Benefits \$8,358,997 - LCFF - 4000-4999 Books and Supplies \$12,608,616 - LCFF - 5000-5999 Services and Other Operating Expenses - Grant Set-Aside \$960,453 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$472,051,024 - LCFF - 1000-1999 Certificated Salaries \$59,133,699 - LCFF - 2000-2999 Classified Salaries \$191,966,226 - LCFF - 3000-3999 Employee Benefits \$36,605,689 - LCFF - 4000-4999 Books and Supplies \$15,156,399 - LCFF - 5000-5999 Services and Other Operating Expenses \$948,453 - LCFF - 6000-6999 Capital Outlay</p>

aligning the services with the Districts LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.

support TSP students such as nurses, counselors, campus aides, clerical staff, assistant principals and class size reduction teachers. Schools utilized these resources to complement their plans to improve their results on the state dashboard.

At the recommendation of the board of education, district staff engaged stakeholder groups during Fall 2018 to review the current implementation of the Student Equity Needs Index and to receive feedback and recommendations on its continued implementation in the 2019-20 school year. Eight stakeholder meetings were held with parent, student and community representatives to provide feedback on the current index and allocations. This provided input on the next steps with the Student Equity Needs Index implementation for the 2019-20 school year.

Additional positions not listed may be approved by the District.

Action 6

Action 8

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: High Schools</p> <p><u>A-G Diploma Program</u></p> <p>The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.</p> <p>Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.</p> <p>The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: High Schools</p> <p>The Division of Instruction describes the implementation of this Action as follows:</p> <p>Tier 2 and 3 students were identified at schools based on their on-track course completion. Each Diploma Counselor was provided with a case load with each students at risk indicators. Diploma Counselors identified the barriers that are keeping students from succeeding academically and attending school regularly. Diploma Counselors provided referrals and link students and their families to district and community services to address their needs. Diploma Counselors met with each individual student, collaborated with the academic counselor to develop a specific plan to get back on track. Diploma Counselors conducted regular check in appointments with students to monitor progress and address ongoing needs including academic, social-emotional, engagement and behavioral struggles. Diploma Counselors collaborated with school site personnel, including counselors, deans, restorative justice advisors, and/or PSWs to support Tier 2 and 3 students. Diploma Counselor tracked and reviewed academic, behavior, attendance, and credit recovery data to monitor progress and calibrate interventions.</p>	<p>\$1,577,190 - LCFF - 1000-1999 Certificated Salaries \$612,916 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$1,447,001 - LCFF - 1000-1999 Certificated Salaries \$373,637 - LCFF - 3000-3999 Employee Benefits</p>

selected with a duplicated percentage of TSP population exceeding 75% TSP students.

- Tier 2 reflects a student who is 3-4 classes off-track
- Tier 3 reflects a student who is 5 or more classes off-track

Action 9

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Grade Spans: Grades 9-12</p> <p><u>A-G Immediate Intervention Plan</u></p> <p>Academic Interventions and Student Supports: The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: Specific Schools: All high schools, select elementary and middle schools; Specific Grade Spans: Grades K-12</p> <p>Local Districts were allocated funds and developed plans to best support the needs of schools in their areas. Local Districts and schools utilized the menu of resources available through the Division of Instruction to improve graduation rates and a-g course completion in schools. The Division of Instruction describes the menu of resources available to support Local District and school plans as follows:</p> <ul style="list-style-type: none"> • Adult Education Partnership: At selected sites, students can retake courses at DACE sites after the school day or on Saturdays. Small class sizes and flexible pacing support success. • Auxiliaries: Provides opportunities within the school day for students retaking failed courses. The number of courses and time frame will depend on room in each schools 	<p>\$3,745,061 - LCFF - 1000-1999 Certificated Salaries \$1,491,189 - LCFF - 3000-3999 Employee Benefits \$8,789,363 - LCFF - 4000-4999 Books and Supplies \$1,028,584 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$8,052,342 - LCFF - 1000-1999 Certificated Salaries \$2,859,174 - LCFF - 3000-3999 Employee Benefits \$1,858,912 - LCFF - 4000-4999 Books and Supplies \$2,640,758 - LCFF - 5000-5999 Services and Other Operating Expenses \$224,296 - LCFF - 2000-2999 Classified Salaries</p>

semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning-Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

master schedule to add auxiliary periods. Credit recovery opportunities may also be offered in a zero period.

- Edgenuity Virtual and Blended Programs: Students can be programmed into either option, depending on need and school resources. In the Blended model, classes are led by a subject-credentialed teacher who provides differentiated teaching and support. The Virtual model class is led by a credentialed teacher who assists students with platform access, time management, study skills supports, etc.
- Independent Study: Students enter into a written agreement/contract stipulating the manner of assignments granted, frequency of assignments, and the time frame to meet with the teacher for additional instructional support. This program provides students in employment or other obligations with another opportunity to retake classes, and reduce the potential for dropping out.
- Performance Assessment Student Support (PASS): These modular programs are designed for students who have previously failed a Math or ELA course required for graduation. PASS courses are self-paced, modular, teacher directed, and administered to small groups outside of the regular school day. They are ideal for students who need personalized teaching to gain mastery of skills and standards.
- Recovery + Intervention = Graduation (RIG): This unique option is a collaborative arrangement between a comprehensive high school and a neighboring continuation school using the pass-through system. Students in RIG remain enrolled in their high school while taking one to two classes at the continuation school during the day or after school.
- Winter Break and Spring Break: Schools can schedule intensive credit recovery programs using a block scheduling model so that students can maximize time to recover needed credits while off track. During these sessions, students can complete a class already started or begin a new course. Typically of five or six days duration, students can take one or two classes during the day.

Schools offer successive Saturday sessions for students needing additional time to complete and pass their class.

Additional school-wide programs targeting high school student success in graduation and the state College/Career indicator on the dashboard included:

- **Algebra I Intervention Pathway Program and Geometry Intervention Program:**

These programs are designed to provide intervention in a timely manner as failure prevention. These intervention resources, available in Schoology, are designed to be personalized and accessible for students and teachers. Materials and resources can be used for direct instruction, project-based learning and assigned for independent practice. Students receive instruction, complete assigned work, and are assessed on a particular learning target from units where they need additional support. The intervention is offered within the Algebra I or Geometry class, before or after school, or through a math tutorial lab class. Students can stop attending once they no longer need the support.

- **Mastery Learning and Grading:** The Division of Instruction provides Mastery Learning and Grading professional development series, that includes salary point classes to interested teachers, administrators and staff. Mastery Learning and Grading is a growth-mindset RTI Tier 1 approach to teaching and learning offering an alternative to traditional instruction and grading. By refocusing classroom grading and assessment on clear learning targets and by implementing research-based instructional practices that honor individual students variables necessary for learning, Mastery Learning and Grading allows more students to succeed academically and take charge of their own learning. Administrators, teachers and staff can be certified through the MLG Salary Point Class or the MLG PD series (six 2 hour, in-person workshops and 8 hours of online learning). Once participants have completed the training, they work on creating Mastery Learning and Grading classroom materials

such as standards-based learning targets, syllabi to communicate MLG practices to students and parents, rubrics to make clear what proficiency in each learning target entails, and tiered assessments of learning targets to provide multiple opportunities for students to reach proficiency. There are two Mastery Learning and Grading Coaches in each local district, one focusing on the Humanities and one that focuses on STEAM.

- **Pre-AP/AP Summer Institute (Advanced Learning Options):** Advanced Learning Options offers a two-day professional learning opportunity, funded with the College Readiness Grant, to discuss course-specific/discipline-specific content, instructional strategies, course organization and methods for promoting increased participation and success of diverse learners in A-G courses, including Advanced Placement (AP) and Honors. Sessions are led by College-Board endorsed subject experts.
- **AP Readiness Program (APR):** Supplemental instructional support for students and teachers is available through the AP Readiness Program at UCLA Center X. All District high school students enrolled in an Advanced Placement course, and their teachers, are invited to participate. There are two strands of AP Readiness: STEM and Humanities. The Humanities strand includes English Language, English Literature, Psychology, Spanish, U.S. Government, U.S. History, and World History. In addition to providing instructional support to students, the APR program offers comprehensive and high level professional development for current and potential teachers of AP courses in STEM and Humanities areas with University professors. Students meet once month at UCLA from September through April, transportation from school sites and materials are provided. Participants in APR are a dedicated community of learners who continue to forge friendly and professional connections throughout LA Unified.
- **AB 288 Concurrent Enrollment:** High schools in each Local District have partnered with local community colleges to

offer college credit courses to high school students with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness.

- **Expository Reading and Writing Course (ERWC)** is a rigorous, rhetorically based, full-year college preparatory English course for high school seniors designed to support college-readiness in English. Training for this course, which enables students to be prepared for college level reading and writing, has been completed. Teacher training is currently being offered.
- **SAT Practice All In Challenge: Local District Khan Academy Workshops:** Teachers will receive training teachers to use PSAT results to create targeted instruction to prepare for the SAT exam. At these workshops, which will be held in each local district, designated high school certificated staff will learn how to: create a teacher/coach Khan Academy account, access the teacher/coach dashboard and coaching tools, link student accounts and monitor student practice and progress. The number of participants from each high school is dependent on 10th grade enrollment and must include the PSAT coordinator.
- **Transition to College Mathematics and Statistics (TCMS):** 34 schools are currently offering this 4th year mathematics course available to ensure college readiness for students who have passed Algebra 2 but have scored at Standard Not Met or Nearly Met. 1,700 students are enrolled in the 58 sections being offered.
- **College Access Teacher Training (CATT) 2017 & 2018:** Over 75 LA Unified educators completed a course at Cal State LA led by Dr. Rebecca Joseph to develop capacity in the area of college advisement. Participants learned best practices from experts in the field of college readiness and developed projects to strengthen the college-going culture at each of their schools. CATT is a rigorous, high quality PD that prepares

teachers and counselors to become college and career advocates in their current positions. Up to seven salary points may be earned upon the completion of the coursework and practicum school-based projects that are due at the end of the program.

- **College Access Network (CAN):** This professional development series, created by the College Counseling Collaborative and known as College Access Network (CAN), comprises 5 full days of college readiness training for school personnel. Following their initial offering during the 2017-18 academic year, all modules were updated to reflect changes in the college access/admission landscape and the revised CAN trainings are in session this year. The series was offered on a flexible schedule; each module was offered three times including on Saturdays to avoid disrupting school schedules.
- **College Palooza:** The district-wide college and career event, held at LA Trade Tech College, took place on March 16th 2019. The event was open to all district staff, educators, families and students. Ranjit Sidhu of the National Council for Community and Education Partnerships (NCCEP) was the keynote speaker. There were 20 workshops for families and 10 for educators in a 3-period schedule. To accommodate groups bused in from secondary schools, there were several sessions tailored for students only and campus tours led by Trade Tech scholars. Also there was a college and community resource fair with admission reps from public and private institutions, with local business and non-profit partners.
- **College Caf:** A series of pre-recorded Power Point presentations is in development. Known as College Caf, the series is designed as a narrated click and play option for parent centers, informal school events, etc. Each episode comprises 15 slides focusing on one specific aspect of college knowledge, for example the CSU system, private college applications, and financial aid. By capturing important need-to-know facts in a short format, College Caf is easily digestible while building postsecondary

empowerment in our families.

- **The Quaglia Institute Parent and Family**

Seminars: In February 2018 Dr. Russ Quaglia presented two evening events at Chatsworth and Huntington Park High Schools: *Inspiring My Child Today for a Bright and Successful Future*. Open to all LA Unified families, the presentations covered ways to engage and encourage students, and gave families practical strategies to communicate better, inspire with purpose, and support their children through the challenges and successes of being a student.

Additional programs were developed for middle and elementary schools to better prepare students prior to enrolling in high school.

- **Middle School Intervention STAR 8:** A new intervention programs for 8th grade Math and ELA has been created. The program consists of 8-day modular curricula, aimed to raise students academic achievement, ready them for a success in A-G courses, and culminate middle school in good standing. Each program provides a wealth of materials that review, reinforce and increase mastery of key standards and skills.
- **Middle School Intervention PASS:** A new PASS program has been created to support 8th grade students in Math and ELA and training for interested school site teachers will be occurring in May, 2019. PASS programs for 8th grade Math and ELA: both are flexible, modular interventions designed for use during the semester. Students can be enrolled into middle school PASS in or outside the school day to receive extra support and differentiated teaching.
- **Edgenuity Intervention Programs for grades K-8:** Licenses have been renewed for the Pathblazer (grades K-6) and My Path (for grades 7 -8). Both interventions have screening features for immediate placement in Math and Reading lessons, with students receiving auto-prescribed content based on mastery. To facilitate effective use of the programs there will be two full-time Specialists continuing to support school

	<p>sites, Quick Start guides, an LA Unified Resource Landing Page, a reporting feature that allows for tracking of student time on task, progress, and grades, a helpline, and tech support. This intervention support helps ready students for success in A-G courses.</p> <ul style="list-style-type: none"> Middle School College and Career Coaches (MSCCC): These educators provide support for at-risk students targeted with early warning indicators (attendance, behavior, and low/failing grades in Math and ELA). As credentialed ELA teachers, they also support all teachers with integrating strategies to increase academic literacy. Coaches serve all Title 1 middle schools in full or half-time positions. They collaborate with stakeholders to ensure data-driven, results-based support services and programs are provided for all at-risk students. College and Career Coaches are primarily responsible for identifying achievement gaps, utilizing multiple data points for early alert data to inform intervention and support, assisting the roll-out of ELA/ELD, integrating instructional technology and providing a bridge of support as at-risk students transition into high school. Middle School College and Career Coaches have participated in Naviance training to support implementation at the middle schools.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified implemented the actions as described during the 2018-19 school year. Some of the highlights of the implementation this year include:

- Support for over 411 Career Technical Education pathways across the district
- Implementation of 72 Linked Learning pathways that provide students with college and career awareness and experiences, including 14 Gold Certified Pathways
- Continued investments in 37 Reed schools to support staffing and additional professional development in these schools serving high concentrations of students who are English learners, foster youth and/or low income
- Utilization of Student Equity Needs Index funds in schools to support decision-making by staff closest to students. Approximately 80.5% of these funds were expended on certificated salaries and benefits, demonstrating that schools utilized these funds for site-based staffing such as teachers, administrators, and counselors to support high needs students.
- Implementation of personalized learning funds in options schools to support completion of A-G coursework through credit recovery, tutoring, technology and social emotional learning supports
- Continued implementation of Diploma Counselors to support Tier II and III students identified at risk of not meeting graduation requirements
- Expansion of available Tier II and III resources for student interventions in content areas identified as high needs for students who are not on track for graduation
- Utilization of School Innovation funds in 50 identified high needs schools to support LCAP targets for student achievement and graduation

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

College and career readiness remain a central focus of all schools in LA Unified. The four year cohort graduation rate continues to increase year-over-year, and the percentage of graduating cohort students completing A-G requirements with a C or better was 47.9% for the 2017-18 school year. In addition, 10.4% of the grading cohort received a qualifying score of 3 or higher on at least 2 Advanced Placement exams. The percentages of students meeting the 11th grade Early Assessment Program (EAP) college readiness level in English Language Arts and mathematics were below the targets. Feedback from leaders at school sites and Local Districts indicated that the investments from this goal continue to result in positive outcomes for students. Investments in staffing are increasing the personalization of supports for students who may not be on track for graduation. Targeted resources such as A-G counselors at the district level as well as school-determined initiatives utilizing the Student Equity Needs Index funds have improved services to students. In response to input from elementary and middle school leaders, the District has increased its monitoring of student progress toward graduation and has begun to direct some resources to elementary and middle schools in an effort to better prepare students for success in high school.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

For Goal 1 Action 9, shifts in allocations from books and supplies were made to staffing in order to provide additional supports to Local Districts and schools in the form of counselors and staffing to monitor student progress toward graduation and to provide supports for credit recovery.

For Goal 1 Action 10, shifts in allocations were due to the timing of informing identified schools of these School Innovation Funds. The timing was after budget development for schools in Spring 2018, so funds that were budgeted for books and supplies were shifted to staff once schools were able to hire for those positions in Fall 2018.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Due to the change in business rules for the state calculation of the graduation rate, the targets for the graduation rate metric have been adjusted to be aligned with attainable district targets. In addition, the metric for the percentage of the graduating cohort completing A-G with a C or better have been adjusted because the original 2018-19 target of 46% was met in the 2017-18 school year (47.9%).

Changes to the Actions in this Goal include:

- Goal 1 Action 1 now includes a percentage of options program funding that is now showing as base funding that was previously identified as supplemental in Goal 1 Action 6.
- In an effort to increase school decision-making autonomy, funding for Goal 1 Action 5 School Autonomy has now included funding from Actions 1.4, 1.10, 4.1, 5.1 as a means of expanding the Student Equity Needs Index.
- Goal 1 Action 9 A-G Immediate Intervention Plan initiatives now incorporate elementary and middle school supports in response to feedback from Local Districts and schools that improved supports for elementary and middle school students would better prepare students for high school and result in fewer students needing remediation in 9th grade.
- Goal 1 Action 10 School Innovation Funds are now integrated with the funding for Goal 1 Action 5 School Autonomy to provide a pool of targeted funds to support school services for high needs students.

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

<p>Increase in resources to expand professional development efforts consistent with the actions below.</p> <p><u>Professional Development</u></p> <p>Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:</p> <ul style="list-style-type: none"> • Standards-Focused Professional Development improving instructional capacity in all content areas. • Alternatives to suspension • Positive Behavior Support Systems • Student placement of EL, SEL, and LTEL students • Long Term English Learners (LTEL) Courses and LTEL Designees. • Common Core State Standards English Language Arts shifts, mathematics and supplemental programs • Response to Instruction and Intervention (RtI) • Effective use of technology in the classroom for teaching and learning • Assessment of student progress • Writing, speaking, and listening standards • Content standards integration • Integration of the Arts • Teacher Growth and Development Cycle • Strategies for students with 	<p><u>Professional Development</u></p> <p>The two primary initiatives funded through this Action included the Beginning Teacher Growth and Development Induction and the STEP UP and Teach paraprofessional teacher training program. Both programs professional development of these staff members supporting the implementation of state standards and the priority topics in the LCAP regarding the Teacher Growth and Development Cycle, the English Learner/Standard English Learner Master Plan, strategies for students with disabilities in General Education settings, and mastery of the California Standards for the Teaching Profession.</p> <p>The Beginning Teacher Growth and Development Induction (BTGDI) is a two-year job-embedded teacher induction program accredited by the California Commission on Teacher Credentialing and supports beginning teachers holding a Preliminary Multiple Subject or Single Subject Credential. BTGDI is committed to accelerating teacher growth and development as professional educators, leading to a California Clear Teaching Credential. The induction journey includes on-going individualized professional development and support, development of an Individualized Learning Plan, mentoring on classroom instruction, and active participation from site administrators. In the 2018-19 school year, 756 teachers were served by mentors and district staff. 320 of those teachers were in the year 1 cohort and 456 were in the year 2 cohort. Of those teachers, 213 were earning their multiple subject credential and 444 were earning their single subject credential. This program plays a critical role in ensuring the district continues to have highly qualified teachers serving students. Additional information about this program may be found at https://achieve.lausd.net/Page/354.</p> <p>The STEP UP and Teach program provides guidance and support to LA Unified paraeducators who desire to become teachers. The different cohorts focus on different high need teaching areas such as special education and multilingual/multicultural (bilingual) education. The program provides mentoring regarding academic pathways, credential requirements and teacher preparation programs. Participants must engage in a Review of Instructional Standards Experience (RISE) designed to provide them with an opportunity to develop their teaching skills with the guidance of a practicing teacher. RISE is aligned with the Teaching and Learning Framework</p>	<p>3000-3999 Employee Benefits \$1,643,327 - LCFF - 4000-4999 Books and Supplies \$30,631 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>3000-3999 Employee Benefits \$25,067 - LCFF - 4000-4999 Books and Supplies \$46,355 - LCFF - 5000-5999 Services and Other Operating Expenses \$17,287 - LCFF - 6000-6999 Capital Outlay</p>

<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Curriculum</u></p>	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>The district continues to adopt curriculum aligned</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$60,651,198 - LCFF - 2000-2999 Classified Salaries \$2,498,410 - LCFF - 3000-3999 Employee Benefits \$95,009,693 - LCFF -</p>	<p>\$0 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$0 - LCFF - 3000-3999 Employee Benefits \$18,472,531 - LCFF - 4000-4999 Books and Supplies</p>

<p>The design and implementation of curriculum is a critical component of the alignment of content and instruction to the Common Core State Standards, as well as development of multiple channels, pathways and models assisting students in completing the standards-aligned content.</p> <ul style="list-style-type: none"> • Online courses-credit recovery and core programs • Supplemental curriculum and materials supporting Common Core State Standards • Content Design lessons • Summer School • Dual Language/Bilingual Programs • Curriculum Maps aligned to Common Core State Standards • Digital curriculum aligned to Common Core State Standards • English Language Development (ELD) Standards Phase-In Plan • Design and provide schools and teachers with Common Core State Standards developed curriculum maps • English Language Development (ELD) Standards Phase-In Plan • Advanced Learning curricula (Advanced Placement, AVID, International Baccalaureate, SpringBoard, Honors courses) • Math curriculum adoption • Design lessons for K-2 • Development of Common Core State Standards Dashboard to support implementation <p>Textbooks & Instructional Materials</p>	<p>with the state content standards in order to support implementation of multi-tiered systems of support in schools. The district has invested in effective Tier 1 curriculum as the state has proceeded with new instructional materials adoptions.</p> <p>Curriculum implementation continued in the 2018-19 schools year for the elementary English Language Arts instructional materials adopted in 2017-18. The district also implemented new high school history/social studies instructional materials in the 2018-19 school year and is planning on purchasing and implementing new elementary history/social studies instructional materials in 2019-20. The district has begun planning for science instructional materials adoptions in the coming school years. District processes for selecting new instructional materials focus on the needs of students in the district, particularly English learners, and require integration with district-wide technology and the learning management system.</p> <p>District-wide investments in this action focused on ensuring appropriate textbooks and instructional materials are available in the following areas:</p> <ul style="list-style-type: none"> • Core instructional programs and online courses-credit recovery • Supplemental curriculum and materials supporting state standards • Summer School • Dual Language/Bilingual Programs • Alignment with the district English Learner and Standard English Learner Master Plan • Advanced Learning curricula (Advanced Placement, AVID, International Baccalaureate, SpringBoard, Honors courses) <p>The budgeted funding classified salaries was moved to fund salary increases for maintenance and operations staff and to provide additional support from school police. Reductions in the books and supplies actual expenditures was due to the fiscal stabilization plan (\$47 million). In addition, reallocation of funds to the Goal 6 Action 3 Central Office included \$12 million to the Instructional Technology Division for projects and \$1.5 million for Career Technical Education supports.</p>	<p>4000-4999 Books and Supplies \$0 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$0 - LCFF - 6000-6999 Capital Outlay</p>

Action 4

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Instruction</u></p> <p>The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a students ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the Districts curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the greatest impact and learning gains by all of our students.</p> <ul style="list-style-type: none"> • Teachers and instructional staff • Implementation of shifts in Mathematics and ELA • Interdisciplinary instruction • English Language Development (ELD) Standards Phase-In Plan • Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative • Contracts to support effective Common Core State Standards instruction • Design lessons • Digital curriculum aligned to the Common Core State Standards via 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p>As noted in previous annual updates, a significant portion of the District's base local control funding formula fund were aimed at supporting the instructional core of the District's programming. As such, school-sites were normed teaching staff and other personnel to carry-out the instructional program while also providing necessary tools to improve the quality of instruction.</p> <p>Instructional practices continue to focus on implementation of multi-tiered systems of support that provide differentiation and personalization for all students. One area of focus district-wide has been in the alignment of instruction with expectations on the state Smarter Balanced English Language Arts and mathematics assessments. School-site implementation of the Smarter Balanced interim assessment blocks has increased district-wide over the past three years, especially as the tools for teachers and administrators to use the results to inform instruction have improved in the Smarter Balanced Digital Library.</p> <p>Dual language programs - the district continued to invest in the expansion of these programs in schools during the 2018-19 school year. The 137 programs across the district include target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic. Schools transitioning to these programs need additional professional development and instructional supports to ensure that effective instruction is implemented in English and in the target language. At the elementary level, students have a minimum of 50% of each instructional day in the target language. At the secondary level, students have a minimum of two periods in a six period day that are taught 100% in the target language. These programs support district goals for academic achievement and support bilingualism and biliteracy as well as sociocultural</p>	<p>\$1,051,238,886 - LCFF - 1000-1999 Certificated Salaries \$601,886,560 - LCFF - 2000-2999 Classified Salaries \$135,478,615 - LCFF - 3000-3999 Employee Benefits \$207,795,137 - LCFF - 4000-4999 Books and Supplies \$4,750,234 - LCFF - 5000-5999 Services and Other Operating Expenses \$155,567 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$1,276,039,076 - LCFF - 1000-1999 Certificated Salaries \$130,111,000 - LCFF - 2000-2999 Classified Salaries \$550,922,450 - LCFF - 3000-3999 Employee Benefits \$32,683,224 - LCFF - 4000-4999 Books and Supplies \$11,774,786 - LCFF - 5000-5999 Services and Other Operating Expenses \$922,152 - LCFF - 6000-6999 Capital Outlay</p>

the Instructional Technology Initiative <ul style="list-style-type: none"> • Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards. • Arts integration 	competence.

Action 5

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Assessment</u></p> <p>Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.</p> <ul style="list-style-type: none"> • Graduation checks • California High School Exit Exam 	<p>For Actions/Services not included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: All</p> <p>Location: All Schools</p> <p><u>Assessment</u></p> <p>For the 2018-19 school year, LA Unified continued implementation of district-wide assessments to inform curriculum and instruction as well as to monitor the performance of student groups and schools. These assessments are closely aligned with the state dashboard indicators and are intended to ensure student readiness for college, career and life. These assessments also align with the districts implementation of multi-tiered systems of support to inform decisions on student Tier 2 and 3 supports. Some examples of these assessments include:</p> <ul style="list-style-type: none"> • Literacy - Elementary schools continue to focus on early literacy success for all students by expanding implementation of the Early Language and Literacy Plan (ELLP) which utilizes the diagnostic assessment Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment as a tool for supporting differentiated instruction for students. Additional professional development and data dialogues were implemented to support ELLP in elementary 	<p>\$810,467 - LCFF - 1000-1999 Certificated Salaries \$4,127,696 - LCFF - 2000-2999 Classified Salaries \$2,251,501 - LCFF - 3000-3999 Employee Benefits \$2,823,303 - LCFF - 5000-5999 Services and Other Operating Expenses \$65,846 - LCFF - 6000-6999 Capital Outlay</p>	<p>\$34,807 - LCFF - 1000-1999 Certificated Salaries \$0 - LCFF - 2000-2999 Classified Salaries \$7,197 - LCFF - 3000-3999 Employee Benefits \$1,255,397 - LCFF - 5000-5999 Services and Other Operating Expenses \$0 - LCFF - 6000-6999 Capital Outlay</p>

- (CaHSEE) assessments
- Algebra EOC (End Of Course assessment)
- Math Placement Assessment
- Literacy intervention assessment
- K-2 assessments in foundational reading and math
- Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS)
- Progress monitoring assessment tools
- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

- schools. At the secondary level, the Division of Instruction identified an appropriate literacy diagnostic assessment to begin being utilized in schools to inform identification of students and their skill levels.
- English Learners - The Multilingual, Multicultural Education Department continued professional development on and analysis of English Language Proficiency Assessment for California (ELPAC) results and how to support integrated English Language development across the content areas. In addition, the Access, Equity and Acceleration team continued to support schools with the implementation of Language Assessment Scales (LAS) Links to identify probable standard English learners and to monitor progress of standard English learners in schools.
 - Mathematics - District-wide implementation of the Smarter Balanced interim assessment blocks and comprehensive assessments continued to increase for English Language arts and mathematics. Recommended interim assessment blocks, including selected response and performance tasks, were identified in Fall and Spring testing windows to allow for calibration of student progress. Local Districts and the Division of Instruction continued professional development in schools on the alignment of classroom assessments with the levels of rigor expected on the Smarter Balanced assessments.
 - Dual Language - These programs continued to utilize language literacy assessments (e.g., IDEL-Spanish Language Literacy, Korean Language Test, Mandarin Language Test) in target languages to monitor student progress and to inform curriculum and instruction.
 - College Readiness - The Advanced Learning Options team continued to support district-wide implementation of the PSAT/NMSQT in October each year for all Grade 10 students as well as Advanced Placement and International Baccalaureate assessments for eligible high school students across the district. New for 2018-19 was the district-wide implementation of in-school SAT

administration for all Grade 11 students in March 2019.

Please note that classified and certificated salaries and benefits were shifted to the Central Office (Goal 6 Action 3) to more accurately represent the work these staff were engaged in to support data use district-wide.

Action 6

sponsored related services.

The District is also committed to increasing positive outcomes for students with disabilities at an accelerated pace. Across the nation, academic outcomes for students in special education are typically below expectations. The critical factor for increasing student outcomes is to provide students with disabilities high-quality instruction in the general education setting.

Listed below are actions items that speak to increasing outcomes for students with disabilities:

- Reduced the number of special day programs that offered a grade span of 2 or more grade levels
- The duration rate of services provided for all students IEP services for all IEP services categories exceeded 90% measured at the end of the 17-18 school year.
- Delivered professional development to various stakeholder groups on myriad of topics, including but not limited to:

1. Inclusion - (Family engagement, quality IEP, staff capacity and engagement, and planning for inclusive student experience)
2. Reclassification of English language learners
3. Building substantially compliant special education systems
4. Supports for students with Dyslexia
5. Academic language development
6. Reading/Mathematics
7. Student Support and Progress Teams (SSPT)
8. Multi-Tiered System of Support (MTSS)
9. Positive Behavior Intervention Supports (PBIS)

Listed below are performance levels for some of the districts Modified Consent Decree Outcomes (Data as of 5/15/19 source: Welligent)

Outcome #	Description	Target	Current

5	Long Term Suspensions	8.6%	.098%
6	Placement of students with SLI and SLD in General Education	73%	87%
14	Parent Participation	75%	84%
10	Timely completion of Assessments with in 60 Days	90%	80%

There were instances where lowering the grade span was not feasible due to low student counts but our</p>	<p>\$6,237,112 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$6,149,979 - LCFF - 2000-2999 Classified Salaries</p> <p>\$9,842,909 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$7,159,552 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,980,373 - LCFF - 2000-2999 Classified Salaries</p> <p>\$7,989,124 - LCFF - 3000-3999 Employee Benefits</p> <p>\$570 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

<p>meeting the Districts core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with 80%-100% unduplicated pupils.</p>	<p>overall expectations for special day classes on core curriculum was to limit the number of grade levels assigned to teachers. These activities were monitored in our ECAST and Norm Day processes.</p> <p>In addition, LAUSD expanded the number of school sites implementing inclusive practices. The pilot has been in effect since 2014-15 growing from 32 schools its first year to 50 schools in SY 18-19. While the pilot has been relatively organic in years past, this year the DSE has provided additional oversight and support through a dedicated team called AEIO (Access, Equity, Inclusion, Outcome).</p> <p>The AEIO team focuses on providing professional development in four performance areas: Family partnership, Quality Individualized Education Program (IEP), Staff capacity and Engagement, and Planning for Inclusive Student Experience. In the Fall on 2018, the Division of Special Education conducted a kick-off meeting for school site leaders and their inclusion teams that set the tone and communicated the suggested deliverables. Each of the new schools were assigned support personnel to help them implement the work.</p>

provide a multi-tiered system of supports for English Learners, Standard English Learners, and struggling readers, inclusive of reclassified fluent English proficient students (RFEPS)

-Provide for EL/SEL Instructional Coaches

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the Districts English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and

1. Implemented adopted Master Plan programs and services under the 2018 Master Plan for ELs and SELs
2. Developed and provided 2018 Master Plan training for teachers, administrators and parents
3. Provided a Master Plan Institute for all EL Designees
4. Promoted the expansion of Two-Way or One-Way Dual Language Education programs
5. Provided professional development on the ELD standards; Designated/Integrated ELD; Dual Language Education; Constructive Conversation Skills (Create, Clarify, Fortify and Negotiate); High Impact Practices (Fostering Academic Interactions, Using Complex Text, Fortifying Complex Output); EL Instruction Approaches (Active Listening, Extended Communications, Oral Summarizing); Academic Conversations and ELPAC Task Types
6. Multi-funded EL Instructional Coaches (149 positions) to support teachers of English learners in planning, implementing, and assessing Integrated and Designated ELD and implementation of adopted High Impact Practices/EL Instructional Approaches. EL instructional coaches engaged teachers of ELs in coaching cycles, modeled, co-taught and provided actionable feedback.

Pre-school for All (PAL)/Pre-school collaborative (PSC): This year continued the embedding of Speech & Language Pathology support into existing PAL & PSC classes supports early identification and language development for english learners. A significant portion of PAL students are low-income and English learner students needing additional speech and language pathology support to prepare them for general education integration in kindergarten and/or in the early primary years.

Accelerated Academic Literacy funding is now allocated to purchase instructional materials and services and fund professional development for schools and teachers that are implementing Tier II and/or Tier III intervention programs administered by the Division of Instruction.

<p>Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth.</p> <ul style="list-style-type: none"> - Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years. - Fellowships, and professional development. - Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low 	<p>The Division of Instruction has purchased licenses and services for the Renaissance Star Reading Assessment, a nationally recognized research-based assessment that measures students reading levels, skills, and their mastery of the state English language arts standards. Beginning in 2019-20, middle and high schools (up to 40) that implement the ELA Tier II intervention program will have access to this assessment to use for universal screening and progress monitoring. Middle schools will be able to assess all students (grades 6-8); high schools will be able to assess all grade 9 and 10 students.</p> <p>In 2018-19, a new Tier II intervention curriculum was implemented in the following high schools: Sotomayor Arts and Sciences Academies, Torres HS-East Los Angeles Performing Arts Magnet, Jordan HS, and Wooden Continuation HS. This intervention program is grounded in a poetry-based programGet Lit/Words Igniteand provides students with more targeted instruction on reading skills (literary analysis), academic vocabulary, speaking and listening skills, writing (poetry, expository, and narrative) and social emotional learning skills. Plans are to expand the program in 2019-20 to 15 more schools.</p> <p>In 2019-20, a new Tier II intervention curriculum will be implemented for 20 middle schools. This program is grounded in the Reading Apprenticeship Framework and will use instructional models that provide multiple opportunities for students to actively collaborate, integrate technology, engage in independent reading, and build their reading, writing, and speaking and listening skills.</p>		
--	---	--	--

income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The

absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology

capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every</p>	<p>For Actions/Services included as contributing to meeting Increased or Improved Services Requirement</p> <p>Students to be Served: English Learners, Foster Youth, Low Income</p> <p>Scope of Service: LEA-wide</p> <p>Location: All Schools</p> <p><u>Targeted Instructional Support</u></p> <p>For the 2018-19 school year. all high school, middle school and sites with grades 4-6 were provided an additional teacher position to assist with class size</p>	<p>\$12,736,848 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,802,364 - LCFF - 3000-3999 Employee Benefits</p>	<p>\$11,427,796 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$5,101,462 - LCFF - 3000-3999 Employee Benefits</p>

comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes.

Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the Districts school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for

reduction and offer additional enrichment courses. Specifically, the positions were used to support class size reductions in physical education and/or to asset in the offering of elective courses, and/or courses activities such as AVID, MESA and Leadership.

Early Language and Literacy Program (ELLP)

This program was expanded to include 520 elementary schools district-wide with its fourth cohort in 2018-19. Over 2,500 teachers have been trained in elementary schools across the district. On-going professional development and monitoring of implementation was provided by the Division of Instruction and Local Districts. Implementation support was the focus for cohort 3 and 4 schools, and differentiated support was provided to cohort 1 and 2 schools that were trained in the 2015-16 and 2016-17 school years. Professional development concentrated on the use of data from the Dynamic Indicators of Basic Literacy Skills (DIBELS) early literacy assessment and differentiation of instruction to meet the specific instructional needs of students. These assessments are administered three times per year to monitor student progress and to inform professional development and teacher instructional planning. This year, the Division of Instruction has increased focus on kindergarteners scoring Above Benchmark on the end-of-year DIBELS assessment because findings show that 90% of kindergarteners who scored at that level maintained Benchmark or above through the end of 3rd grade. Additional information about the Early Language and Literacy Program and more recent data reports may be found on the Division of Instruction Elementary English Language Arts website at: <https://achieve.lausd.net/Page/5223>.

students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

	<p>Every school in the district provided arts classes from highly qualified certificated teachers. The list of programs at every school are listed in the LA Unified Arts Programs 2019 document that may be downloaded at the following website: https://achieve.lausd.net/Page/13308.</p>		
--	--	--	--

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

For 2018-19, LA Unified implemented the actions for this goal with fidelity. Some highlights of the implementation of these actions include:

- Served over 7,000 foster youth through counselors in the Foster Youth Support Plan
- Implemented adopted programs and services under the 2018 Master Plan for English learners and Standard English learners
- Delivered mandatory professional development for all elementary through high school teachers the programs and instruction described in the Master Plan
- Revised secondary literacy intervention program to include a diagnostic assessment to identify students in grades 6-10 that may need additional Tier II intervention
- Implemented new Tier II literacy intervention curriculum in four high schools focused on targeted instruction on reading skills, academic vocabulary, speaking and listening skills, writing and social emotional learning skills, with plans to expand to 15 more schools in 2019-20
- Expanded dual language programs to 137 across the district including target languages in Spanish, Korean, Mandarin, Armenian, French and Arabic
- Expanded 8 California state part-day preschool programs to full day with plans to add three more in the next year
- Increased the number of schools implementing inclusive practices for students with disabilities to 50 schools in 2018-19
- Provided additional teacher position to assist with class size reduction and offer additional enrichment courses in all middle and high schools and sites with grades 4-6
- Continued implementation of the Arts Equity Index to support programming gaps in high needs schools

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

LA Unified demonstrated incremental student performance growth on the English Language Arts and mathematics Smarter Balanced summative assessments in the 2017-18 school year, with both showing increases in the distance from standard met measure and yellow performance levels for both. The focus on implementing standards-aligned curricula in these content areas as well as continued investments in professional development for early literacy and secondary literacy interventions should continue this positive trend. Schools continue to utilize the Smarter Balanced interim assessment blocks to align the rigor of classroom instruction with the expectations of the state assessments. Local Districts and schools have provided feedback on ways to improve reporting on the results of interim assessments, and the District has continued to work with state assessment staff to improve the reporting features. Based on initial feedback from schools implementing Cognitively Guided Instruction (CGI) to improve math performance in the elementary grades, the Division of Instruction began increasing supports for implementing CGI practices in schools during the 2018-19 school year through professional development and partnerships with CGI experts. Feedback from teachers on CGI implementation and professional development indicate the positive impacts on math instruction and alignment with state assessment expectations.

The DIBELS early literacy assessment continues to be a focus of elementary schools as teachers are trained in the use of those results to inform instructional practices through the Early Language and Literacy plan (ELLP). Feedback from Local District and school leaders on the ELLP indicate a continued need to improve school-wide implementation of these practices, so the District will continue to support professional development for school teams and teachers to ensure teachers have the resources and understanding to utilize DIBELS results to differentiate instruction for students.

The performance of English learners continue to be a focus of schools as the 21% reclassification rate was a higher rate than the 2017-18 target of 20%. The percentage of English learners who did not reclassify within five years was 17%, meeting the target of 17% for the 2017-18 school year. The Multilingual, Multicultural Education Department (MMED) continues to implement the English Learner and Standard English Learner Master Plan (accessible at: <https://achieve.lausd.net/Page/14743>) to ensure effective instruction for these students. Based on feedback from Local District English learner administrators and school site coaches, MMED continues to refine its supports and professional development offerings to improve school site implementation of Master Plan elements, particularly integrated English Language Development supports.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

Goal 2 Action 4 Reed Investment Schools will be ending effective June 2019 - funds for these schools will be folded into Goal 2 Action 5 School Autonomy through the Student Equity Needs Index, allowing schools to have greater flexibility in allocating funds for school-determined needs.

Goal 2 Action 8 Supporting Integrating Special Education Students into General Education - this program was expanded from the identified schools in the prior year to additional elementary through high schools in the 2018-19 school year. Recognizing that these inclusive practices are valuable for improving the achievement of students with disabilities, this program will be expanded to more schools in the 2019-20 school year and will be folded into Goal 2 Action 7 Special Education.

LA Unified received approximately \$12 million through the Low Performing Student Block Grant to address the achievement of students who were not meeting academic achievement standards on the state assessments. The district has developed a plan to provide per pupil allocations to schools with four or more identified students in order to allow them to develop a plan for how to serve these students. A menu of recommended services will be provided to all schools to guide their decisions. Schools with three or fewer identified students will receive support from their Local Districts to utilize data from interim assessments to improve interventions and supports.

Goal 3

100% ATTENDANCE

State and/or Local Priorities Addressed by this goal:

State Priorities: 5. Pupil engagement
Local Priorities:

Annual Measurable Outcomes

board member was integral in supporting changes to the District dress code policy. The Unit also convened Student Conferences for Young Women and Young Men of Color to offer strategies to students that will lead to improve student achievement and increased readiness for college.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified continues to implement a variety of actions to strive for 100% attendance across schools. The district has developed data dashboards for school and Local District leaders to monitor student attendance throughout the year, and school and district investments have been made to support programs that recognize students for positive attendance outcomes and to support students and families that have data that indicate challenges with attendance. The comprehensive array of physical, social emotional and mental health service supports and resources continue to be provided to address the needs of the districts most vulnerable low income and foster youth. About 24,700 immunizations and 75,384 medications have been administered by staff, and staff enrolled 2,917 students and family members in no-cost health insurance plans. Wellness Clinics serve as school-based hubs for clinical mental health services, and at mid-year about 1,947 students had received services and 21,704 counseling hours were provided at these Clinics.

The Homeless Youth Program supported PSA counselors in providing training to over 2,000 designated school stie homeless liaisons this year. The LA Unified School Enrollment Placement and Assessment (SEPA) Center provides support to all families and to newly arriving families to assist with the school enrollment process, access to medical and mental health services, housing, linkages to legal services, and other district and community resources. LA Unified also implemented a We Are One campaign to support undocumented students and families.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

For 2017-18, the overall district performance on the metrics for this goal were positive. With 66.9% of students attending school 96% or more (172-180 school days), a measure of positive attendance that the district monitors and provides school leaders with data dashboards to track throughout the school year. Feedback from school and Local District leaders indicate that investments in supports through this Goal will continue to be important to support specific student populations (e.g., foster youth) as well as overall attendance. The district performance on chronic absenteeism rates was orange on the state dashboard, with 10.3% of students in grades K-8 chronically absent which was similar to the rate in 2016-17. Staff attendance rates, another measure of school climate, was 78.0% for staff attending 96% or above, meeting the target for the 2017-18 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Goal 4

PARENT, COMMUNITY AND STUDENT ENGAGEMENT

State and/or Local Priorities Addressed by this goal:

State Priorities: 3. Parent involvement; 6. School climate

Local Priorities:

Annual Measurable Outcomes

Expected		Actual
Percentage of Students Who Feel a Part of Their School (Question on School Experience Survey)	2018-19 All Students 89%	All Students 68.0%
Parent/Caregiver Participation on 2018-19 School Experience Survey	All Parents 64%	All Parents 46.0%
Percentage of Schools Training Parents on Academic Initiatives by Providing a Minimum of Four Workshops Annually	2018-19 All Schools 98%	All Schools 76.4%

The Local District PACE Units provided materials and training to Parent and Family Center Staff to engage parents of students with special needs and other student groups. In addition, PCS provided instructional materials and training to certificated staff who support Parent and Family Center Staff in order for the parent centers to be inclusive of all families, particularly families of students with special needs and English learners and Standard English learner students. PCS provided mandatory training schools that participated in the Parent and Family Center Improvement Program. The parent center staff received training on using bilingual reading materials with parents, strategies for developing parent leadership through conversation, parenting resources, and materials to support a college-going culture. Additionally, participating schools were provided with instructional materials for preschool aged children who can be engaged in instructional activities while family members participate in workshops in the Parent and Family Center.</p>	<p>\$40,488 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$71,774 - LCFF - 2000-2999 Classified Salaries</p> <p>\$57,315 - LCFF - 3000-3999 Employee Benefits</p> <p>\$21,070 - LCFF - 4000-4999 Books and Supplies</p> <p>\$12,034 - LCFF - 5000-5999 Services and Other Operating Expenses</p>	<p>\$55,455 - LCFF - 1000-1999 Certificated Salaries</p> <p>\$71,894 - LCFF - 2000-2999 Classified Salaries</p> <p>\$56,008 - LCFF - 3000-3999 Employee Benefits</p> <p>\$13,917 - LCFF - 4000-4999 Books and Supplies</p> <p>\$10,299 - LCFF - 5000-5999 Services and Other Operating Expenses</p>

PCS and the Local District PACE teams hosted Local District study groups to engage and support parents. The English Learner Advisory Committee (ELAC) Study Group, Local Control and Accountability Plan (LCAP) Study Group and the Title I Study Group were offered quarterly and/or monthly throughout the Local Districts. The ELAC Study Groups focused on supporting the parents of English learners. The LCAP Study Groups focused on seeking input from parents regarding the six LCAP goals. The Title I Study Groups provided parents with training on state, federal and local parent engagement strategies and opportunities to provide input on the Title I mandates. In addition, the Local District PACE units offered Modified Consent Decree Parent Training Sessions at the Local Districts and provided parents of students with special needs with academic and social-emotional support workshops at their school sites. The PACE units led Parent Portal training sessions so parents of students with special needs could access their students Individualized Education Plans online.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

LA Unified values the partnership with parents, community and students and continues to engage these stakeholders in supporting the success of students. For the 2018-19 school year, all schools were required to facilitate four Local Control and Accountability Plan parent workshops and five English Learner Advisory Committee parent workshops. The LCAP workshops addressed graduation requirements (A-G course requirements), attendance best practices, and two instructional workshops that schools could select from a menu on the Parent and Community Services website that included math practices, English Learner Development standards, high frequency words, language development, reading comprehension, supporting home learning for all students, the English Learner Master Plan, and the DIBELS early literacy assessment for grades K-2, college and career readiness in elementary/middle schools, and social-emotional learning and behavior. The ELAC parent workshops included the Master Plan, attendance best practices, comprehensive needs assessment, the single plan for student achievement, and the language census.

This year, the district also engaged Local Districts in convening 41 stakeholder study groups that facilitated parents and community members in reviewing the district Local Control and Accountability Plan and providing feedback to support revisions and development of the 2019-20 LCAP. Two additional meetings were held with community-based organizations in May to capture input from the community on the priorities of the LCAP and the Districts goals. Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were also held from January to June to provide comments to and receive responses from the Superintendent on the LCAP.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

2017-18 results district-wide on parent, community and student engagement metrics showed a continuing need for improvements in parent engagement. The percentage of parents who stated my school provides resources to help me support my child's education was 90.0% in 2017-18, just below the target of 93%. For 2018-19, the School Experience Survey had 83% of high school parents, 85% of middle school parents, and 89% of elementary school parents agreed. Parent response rates on the School Experience Survey were 39% for high schools, 46% for

middle schools, and 53% for elementary schools. While only 68.0% of students felt a part of their school on the School Experience Survey in 2017-18, the 2018-19 results show improvements with 81% of elementary students, 68% of middle school students, and 61% of high school students agreeing with that statement. This difference may have been the result of changing the timeline for completion of the survey in 2017-18. The district continues to provide greater flexibility and supports for schools to achieve the target of having parents trained on academic initiatives with a minimum of four workshops annually.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences between the planned expenditures and estimated actual expenditures are a result of changes in salary/benefit costs, change in staffing availability for particular programs and delayed implementation of particular programs at the school-wide level.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

The funding for Goal 4 Action 1 Targeted Parental Involvement has been reallocated to Goal 1 Action 5 School Autonomy under the Student Equity Needs Index to allow for greater flexibility for schools to utilize these supplemental and concentration funds to support school site needs. The metrics for this goal have not changed.

Goal 5

ENSURE SCHOOL SAFETY

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The Restorative Justice Unit continued the training plan that began in 2014-15 and will lead to district-wide full implementation of Restorative Justice in schools by 2020. Since 2014-15, 783 schools have been trained in Restorative Justice community building circles, empathy and team building, defusing disruptive behavior and repairing the harm and re-entry circles. During the 2018-19 school year, 162 cohort 4 schools were trained in Tier II and II practices as well as repairing the harm and re-entry circles. During this year, 142 cohort 5 were trained in Tier I practices including community building circles, empathy and team building and defusing disruptive behavior. The 65 Restorative Justice teacher advisors supported schools directly in implementation of these practices to improve the culture and climate in classrooms. Six Local District Restorative Justice advisers provided professional development and support to school staff and leaders. Additional information about the Restorative Justice Unit may be found at: <https://achieve.lausd.net/restorativejustice>.

The Los Angeles School Police Department (LASPD) assisted students, teachers, administrators and the community in providing a safe environment for learning in schools. Officers were

assigned to school campuses and patrolled the surrounding areas, and School Safety Officers were also assigned to school campuses and parking enforcement. The LASPD shares jurisdiction and interacted with over 13 municipal and county law enforcement and emergency services agencies during the school year. Campus officers form partnerships with principals, Local District Operations Coordinators, youth relations/crime prevention personnel, students and parents. These dedicated campus police officers engage in student mentoring programs, partake in study sessions with at-risk students, participate in anti-gang lecture/seminars, and ensure for the safety of students. Furthermore, the LASPD has a robust youth services component that includes the Police Explorers and Police Academy Magnet Schools (PAMS). Officers receive training on Restorative Justice, Behavior Safety Emergency Training (B-SET) and Implicit Bias. Officers interact with students on a daily basis during arrival and dismissal, nutrition and lunch as well as the numerous special events with Anger Management Program for Students (AMPS) and Ready and Able for Middle School (RAMs). Additional information about the LASPD may be found at: <https://achieve.lausd.net/laspd>.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

District-wide performance on the metrics for School Safety showed that the district is meeting or nearly meeting most targets. The single student suspension rate (in and out of school) was 0.47% in 2017-18, and the target for 2018-19 is 0.4%. Instructional days lost to suspension remains low at 4,636 for 2017-18, well below the target of 5,667 for that year. Input from school site staff and Local Districts indicates that the expansion of Restorative Justice implementation has contributed to alternative approaches to student discipline practices.

The percentage of students who feel safe at school was 84% in 2017-18, and target for 2017-18 was 80%. For the 2018-19 School Experience survey:

- 90% of high school students felt safe on school grounds during the school day
- 91% of middle school students felt safe on school grounds during the school day
- 92% of elementary school students felt safe on school grounds during the school day

These results may be contrasted with the extent to which students felt safe in the neighborhood around their schools, which ranged from 77% to 79% for students in the same schools. Within schools, the total number of referrals for 2017-18 was 62,878 compared to 56,196 in 2018-19 as of June 1. The expulsion rate remains low at 0.02% in 2017-18 compared to the target of 0.01% in 2017-18 and 2018-19.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was no significant change in the estimated and the actual expenditures aside from the health and welfare benefits of employees. For Goal 5 Action 2, expenditures exceeding the budgeted amounts for school police funding represent changes in salaries, benefits and additional overtime hours for staff. Events and community occurrences throughout the year dictated an additional need for school police presence around school sites.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal, metrics or actions.

Goal 6

BASIC SERVICES

State and/or Local Priorities Addressed by this goal:

State Priorities: 1. Basic

Local Priorities:

Annual Measurable Outcomes

Expected		Actual
Percentage of Teachers that are Appropriately Credentialed for the Students They are Assigned to Teach	2018-19 All Teachers 100%	All Teachers 99.3%
Percentage of Early Education Center and Pre-K through 12 Classroom Teachers who have a final Educator Development and Support: Teacher (EDST) performance evaluation by the end of the school year	2018-19 All Teachers 25%	All Teachers 31%
Percentage of Schools Providing Students with Standards-Based Instructional Materials by Meeting Williams Act Requirements	2018-19 All Schools 100%	All Schools 100%
Percentage of Facilities that are in Good Repair	2018-19 All Facilities 100%	All Facilities 100%
Percentage of children whose eligibility for special education services were determined within 60 days of guidelines	2018-19 88%	99.96%

Students with disabilities receive 2018-19 services specified in their Individualized Education Programs (IEPs)	90%	92.5%

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the California School Dashboard, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All actions for this goal were implemented as described. The Human Resources division continues to increase the diversity of the teaching staff district-wide to reflect the diversity of the students served in schools. The 2018-19 new hire LA Unified teacher cohort includes 46% Hispanic/Latinx, 11% Asian, 9% Black, 3% Filipino compared to the LA County teacher demographics of 32% Hispanic/Latinx, 8% Asian, 8% Black, 2% Filipino. In addition, approximately 31% of teachers were evaluated by a school leader by the end of the 2018-19 school year.

LA Unified continues to provide additional maintenance and operations support to schools, with Tiger Teams comprised primarily of custodians providing additional cleaning and other services over the weekend at approximately 650 sites. Strike Teams, which include various craftworkers, performed repair and renovation projects at approximately 200 schools.

Breakfast in the Classroom was served at 96% of schools, providing an opportunity for every student at sites to eat breakfast at no charge. Hot supper is offered at 508 schools and cold supper meals are served at another 102 sites. All supper meals are served at no charge.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

All targets were met or nearly met consistent with the statutory requirements that govern teacher assignments, instructional material availability and facilities conditions. The Human Resources Division continues to strive for 100% of teachers are appropriately credentialed for the students they are assigned to teach, with 99.3% in 2017-18. For the Districts support for students with disabilities, the percentage of children whose eligibility for special education services were determined within the 60 days in the guidelines was 99.96%, far exceeding the targeted 89% of 2019-20. In addition, 92.5% of students with disabilities received services as specified in their Individualized Education Plans (IEPs) compared to the 2018-19 target of 90%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Material differences are a reflection of the variances in supplies, books, materials and additional staffing needed to carry out basic services requirements. For Goal 6 Action 3, budgeted amounts versus expenditures identified vary due to the volatility of operational costs, such as utility usage and rates, telecom and fleet maintenance, etc.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the California School Dashboard, as applicable. Identify where those changes can be found in the LCAP.

No significant changes were made to this goal or actions.

Stakeholder Engagement

LCAP Year: 2019-20

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

LA Unified utilized multiple channels, outreach strategies, and venues to engage with a diverse array of community stakeholders across the District.

During the Fall and Winter of the 2018-19 school year, the District engaged in extensive stakeholder engagement meetings in communities around the district to receive feedback on current district progress and recommendations on how to improve outcomes for students. This community engagement included 3,000+ families, teachers including representatives from bargaining units, principals, other school site administrators and personnel, classified staff, students and community members participating in 150+ focus groups across the district. Feedback from these groups was categorized into three broad themes of supporting teachers, empowering principals and engaging families and communities. Some examples of specific recommendations included reducing class size, adding counselors, nurses, librarians and support staff to work with teachers, increase dollars targeted toward high need students, matching local district support to communities of schools, building the capacity of school leaders, moving toward greater budget flexibilities, removing barriers for family engagement, and meaningful engagement with parents as partners.

Special priority was made this year to meet with a broader base of parents of the targeted student populations served through the LCAP, and to provide these parents with a deeper understanding of the plan. The District made a conscious effort to expand the timeline of engagement in the prior school year in order to better utilize parent feedback in the development of the LCAP. The District's engagement efforts began in October, with District staff collaborating to present the expenditures, actions and services. A total of 41 meetings were held from October through February by the District with a focus on capturing feedback for the development of the LCAP. Participants included representatives from school site councils and English Learner Advisory Councils across each Local District.

Two additional meetings were held with community based organizations in May to capture input from the community on the priorities of the LCAP and the District's goals. Community-based organizations included various groups representing student and staff stakeholders including Public Counsel, Youth Policy Institute, Partnership for Los Angeles Schools, Leaders for Educational Equity, CHIRLA, Educators for Excellence - Los Angeles, Asian Americans Advancing Justice, Children's Defense Fund - Los Angeles, CARECEN, Advancement Project, UCLA Center X, MALDEF, United Way of Greater Los Angeles. At these engagement sessions, stakeholders were also asked to provide strategies that would strengthen the plan and will help support all students achieve academic success, particularly students who identify as low-income, English learners, and/or foster youth.

Seven Parent Advisory Committee (PAC) Meetings and four District English Learner Advisory Committee (DELAC) Meetings were held from January to June. District personnel provided updates on a number of programs highlighted by the LA Unified's LCAP at the advisory committee meetings. In particular, they focused on key programs funded by new and ongoing investments made in 2018-19 and, in some cases, provided progress updates on targets and strategies established in the 2017-18 LCAP. In addition, the District's parent committees were able to review year-end data from 2017-18 and any available current year data. For the 2018-19 LCAP, the School Experience Survey results also informed school perceptions and needs for students, parents and staff. The annual student School Experience Survey continues to be a main source of student engagement and feedback on the effectiveness of district-wide initiatives and focus areas. The state's release of the California School Dashboard provided context for identifying areas of growth and focus for the parent leadership trainings and the LCAP review process.

To supplement face-to-face meetings, the District updated pertinent websites with additional information, surveys, and LCAP resources: lcff.lausd.net and achieve.lausd.net/budget.

Permissible within the CA Education Code, the LAUSD DELAC is serving in place of the English Learner Parent Advisory Committee (ELPAC). The DELAC is comprised of 48 school English Learner Advisory Committee Chairpersons who are elected from their peers. They serve on staggered two-year terms.

The PAC continued in its fifth year with elected governing officers. In 2018, members on the PAC were elected from each of the six LAUSD regions, with two parents representing English Learners, two representing Low Income students, and two parents At-Large to represent the general interests of other stakeholders, in general. Two guardians representing Foster Youth were also elected from each region across the District. The parents of English Learner, Foster Youth, Low-Income students and the parents At-Large elected their representatives, respectively. In addition to these groups of parents, seven parents were selected by the Board of Education to ensure representation of all affected stakeholder groups. There are 55 members of the PAC serving on staggered two-year terms.

The Superintendent provided written responses to the both the PAC and DELAC comments that were developed throughout the 2018-19 school year and submitted to the Superintendent in

The Board of Education held a public hearing for the LCAP on Tuesday, June 11 and the Board adopted the LCAP on June 18, 2019.

All parent comments and Superintendent responses may be found at www.achieve.lausd.net/lcap.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

The 41 Local District LCAP study groups offered the opportunity for parents and community members to engage in deeper dives into the actual LCAP goals and actions and to provide feedback. Themes from the feedback from these study groups included:

- Continued focus on college and career readiness for all students
- Requests for additional focus on struggling students and closing achievement gaps for low performing student groups
- Recommendations to continue implementation of the English Learner Mastery Plan to improve reclassification rates and English learner performance
- Increase engagement of parents as partners through trainings on topics most relevant to student needs (e.g., technology training)
- Improve services and supports for students with disabilities to ensure their success

The Parent Advisory Committee and District English Learner Advisory Committee comments to the Superintendent had some of the same themes in common with the Local District study groups. The comments spanned all six district LCAP goals. Some of the highlights of these comments included:

- Requests for increasing college readiness supports for middle and high school students, particularly around the use of Naviance and supports for PSAT and SAT preparation
- Recommendations to increase social-emotional learning supports district-wide
- Concern for the performance of special education students and the systems implemented for their success
- Increase the number of counselors in schools to support college and career readiness as well as reduce chronic absenteeism
- Recommendations to continue restorative justice program and supports for effective school implementation
- Support for continued school safety supports and recommendations for building positive relationships between school police and school communities
- Recommendations to have the district monitor and evaluate the effectiveness of programs implemented in the LCAP

The comments above were also echoed by the community organizations in the two meetings held with representatives from those groups. Additional recommendations from the community organizations included:

- Continue funding and implementation of Foster Youth Achievement program
- Provide evaluations on the progress of implementation and effectiveness of district programs
- Continue funding Student Equity Needs Index and seek ways to minimize the impact of changes in school allocations
- Ensure adequate investments for targeted student populations are monitored and transparent

The priorities identified in the recommendations above are included in the District's budget. Investments for English learners, foster youth and low income students are identified in subsequent pages of this document. The LCFF investment priorities reflect this feedback as well as the data analysis of District teams in order to align with target outcomes. Some examples of the impact of this feedback on the LCAP are as follows:

- Goal 1 Action 5 School Autonomy - Expansion of this Action in 2019-20 focuses on providing additional funding and flexibility for schools to determine how best to improve outcomes for students. This includes expansion of the Student Equity Needs Index and maintaining funding levels for all schools in 2019-20. Schools have primarily directed these resources toward increasing staffing to reduce class sizes and to improve support services for students (e.g., counselors, nurses, and librarians/library aides).
- Goal 1 Action 9 A-G Immediate Intervention Plan - Maintenance of this program to support continued improvements in graduation rates and A-G completion in schools. Some funding for this Action was shifted to Local Districts to provide more tailored supports to schools.
- Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers - Continued investment in services for foster youth and site-based supports for high needs students.
- Goal 2 Action 7 Special Education - Expansion of supports for integrating students with disabilities into general education by moving this funding to base funding and expanding the

number of schools receiving supports and training on inclusive practices for general education teachers and administrators.

- Goal 5 Action 1 School Climate and Restorative Justice - Shifting of these funds to Goal 1 Action 5 provides schools with additional flexibility in how to implement Restorative Justice practices.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEAs goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Unchanged Goal

Goal 1

100% GRADUATION

State and/or Local Priorities Addressed by this goal:

State Priorities: 4. Pupil achievement; 5. Pupil engagement; 7. Course access

Local Priorities:

Identified Need:

- To monitor and support high school attainment
- To increase number of students who successfully complete high school college and career ready
- To monitor and reduce drop-out rates for middle and high school students
- To ensure that 12th grade students have access to the financial aid and opportunities to attend universities, community colleges and/or vocational schools

Expected Annual Measurable Outcomes

Programs & Interventions

Targeted to the needs of all students and those students with specific needs such as Special Education, English Learner services or accessing student health, counseling and related services, using a multi-tiered system of supports. These interventions and programs target student academic, socio-behavioral,

The Options Program has been integrated into this action in recognition that options schools serve students through the district's multi-tiered systems of support at a Tier 3 level. In 2018-19, a port of the Options program (\$48 million) was covered by supplemental funding. In 2019-20, the full Options program will be covered by base funding, moving funding from

mental, and related student needs in order to ensure students remain in school, or reenter or complete school. These programs include Special Education, Student Health & Human Services, English Learner services, Adult Education and Early Childhood Education.

Academic Interventions

- English Language Arts, English Language Development, and Math Interventions
- AVID (Advancement Via Individual Determination)
- International Baccalaureate
- Dual Language/Bilingual Programs
- Accelerated Academic Literacy-Tier 3 ELA Intervention
- Academic Literacy supplemental materials
- Long-Term English Learner (LTEL) courses
- Significantly Disproportionate Coordinated Early Intervening Services, or CEIS
- Options Programs
- English Language Development and access to core interventions
- Social-Emotional Programs

Structural & Process Interventions

- Autonomous School models grant school-level flexibility in areas such as budget, instruction, curriculum and others
- School Choice & Portfolio Schools provide student and parent choice in personalized education offerings and targeted interventions/support

College and Career Ready

The Career Technical Education Incentive Grant (CTEIG) supports and expands our existing CTE

Goal 1 Action 6 to this Action.

pathways to ensure students have the opportunity to study in an array of industry sectors, take a sequence of CTE courses and participate in career awareness, exploration and preparation activities.

CTE courses draw students into classrooms and excite them about learning. The CTE Incentive Grant provides opportunities to bring cutting edge, 21st Century technologies and machinery into those classrooms. CTE pathways inspire students to attend school every day (100% Attendance), more fully engage with and internalize their academic work (Proficiency for All), and use the skills, certificates and content they've acquired in our classrooms (100% Graduation) in college and the workplace.

Although all pathways received some funding, pathways with industry sectors demonstrating high-demand, living-wage jobs in Los Angeles county over the next 10 years, based on economic data for the Los Angeles region based on research by the Los Angeles Economic Development Corporation (LAEDC) were funding priorities. The CTEIG Round 1 funds currently support 106 CTE pathways at 65 high schools across the district.

Through this funding, LAUSD is:

- Implementing cutting edge industry-aligned technologies and practices into our CTE classroom instruction, and across our instructional programs at Linked Learning pathways;
- Changing the look of the 21st Century classroom by creating active learning spaces such as simulation labs, STEM/STEAM maker spaces, engineering and architecture labs, theatre and performance spaces;

- Developing a spectrum of industry sector-aligned Work Based Learning opportunities for students in the industry sector workplace;
- Growing the number of CTE-credentialed teachers at LAUSD, allowing for greater offerings of CTE courses across the district, and supported by the new CTEIG Stipend for Single Subject Teachers, recently negotiated with UTLA;
- Articulating CTE courses with college-level career pathways and courses to strengthen our programs and create pipelines to industry-recognized certifications and licenses that lead to living-wage jobs and memorializing these courses in LAUSD/LACCD AB 288 dual credit MOU.

Linked Learning is also a major contributor to the District's goal of 100% graduation. This instructional approach integrates a Career Technical Education sequence of courses with a rigorous academic program, providing meaning and application to core subjects. Linked Learning also provides strong student support services and a continuum of work based learning opportunities for students to gain awareness and exposure to the world of work. Private, state and federal grants, totaling more than \$24 million have been used by LAUSD to implement Linked Learning at 45 pathways across the District. This funding:

- Provides seed funding for a Linked Learning-aligned summer bridge program for incoming 9th graders,
- Funds the development of interdisciplinary real-world projects aligned with the pathway industry theme,

- Provides funding for a student-led, teacher-facilitated middle school College and Career Clubs program aligned with the Common Core and Linked Learning,
- Makes teacher externships available at industry-aligned employers, with the aim of increasing awareness of industry trends, technology, and employment needs, in order to inform the instruction and preparation of students in the high school pathways,
- Funds Linked Learning Coaches and Work Based Learning Coordinators to assist schools in moving towards Linked Learning Pathway Certification, which is demonstrated to maximize student learning outcomes, as well as develop work based learning opportunities for students.
- Funds a Dual Credit and Articulation Coordinator who is working with Linked Learning schools to implement AB 288 courses at our high schools.

These courses are aligned with their industry sector and lead to an industry recognized certification or credential, without a cost to our schools or students, during the LAUSD school day. These innovative options increase awareness and accessibility of college for our high school students so they understand they belong in college. The industry recognized certificates provide students with the opportunity for an entry level, living wage job, so they can fund college and/or work their way up a career ladder.

LAUSD has 8 certified pathways. SRI International conducted research on Linked Learning certified pathways and found:

- Students in certified Linked Learning pathways

completed more college preparatory courses compared with similar peers in traditional high school programs.		
· Certified pathways retained students who otherwise might have left high school prior to senior year and were originally unlikely to pursue the full college preparatory curriculum.

Services and positions supported by this resource are to be aligned with the District's investments and

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

For 2019-20, the funding provided through the student equity needs index has been modified to allow for greater budget flexibility for school sites to support unduplicated students. Whereas past resources were provided to schools in the form of positions, schools now have the budget flexibility to reallocate funds for positions to other positions and/or resources that the school deems necessary. The student equity needs index prioritizes schools based on various community and school indicators. Stakeholder groups were engaged through fall 2019 to provide input on those indicators and the distribution of funding. For the 2019-20 school year, all schools were held harmless with regards to the student equity needs index funding, meaning that no schools received less funding than the 2018-19 school year.

single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

strategies outlined in the District LCAP and a schools single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the Districts LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the Districts LCAP by completing a "TSP Plan" which identifies actions/services and objective LCFF student focused outcomes related to the corresponding planned expenditure.

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery

Examples of funding use at schools sites include:

- Enhances school-climate
 - Nursing Services
 - Counselors (PSA, PSW)
 - Campus aides
 - Clerical
 - Community Representatives
 - Building and Grounds Maintenance
- Supports academic planning and instructional interventions
 - Assistant Principals (Targeted supports provided through a coherent professional development framework to support low-income students, English learners and foster youth)
 - Class Size Reduction positions
 - Elective Teacher Positions
 - Professional Development X-Time and Professional Services
 - Tutoring supports
 - Librarian and Library Aide
 - A-G supports, i.e. credit recovery programs, counselors, etc.

Principals continue to be required to attest that input from stakeholders including school councils and committees was sought to determine the Targeted Student Populations plan for the school. Guidance and allowable expenditures is provided in the 2019-20 Budget Handbook.

Other Actions merged with Goal 1 Action 5 include:

- Goal 2 Action 11 Targeted Instructional Support - funding for elective class size reduction teachers are now part of Goal 1 Action 5
- Goal 4 Action 1 Targeted Parental Involvement - funding for parent engagement at school sites (e.g., parent representatives) are now part of Goal 1 Action 5
- Goal 5 Action 1 School Climate and Restorative Justice - funding to support Restorative Justice implementation (e.g., coordinators or school-site leads) are now part of Goal 1 Action 5

<p>Provide additional counseling resources to support academic and college & career counseling for high school students. Resources will be distributed through a prioritization of school-sites on the District's Student Equity-Based Index.</p> <p>Additional positions not listed may be approved by the District.</p>	<p>programs, counselors, etc.</p> <p>Provide additional counseling resources to support academic and college & career counseling for high school students. Action 6

For Actions/Services not included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from All, Students with Disabilities, or Specific Student Groups)

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

OR

For Actions/Services included as contributing to meeting the Increased or Improved Services Requirement:

Students to be Served:

(Select from English Learners, Foster Youth, and/or Low Income)

English Learners, Foster Youth, Low Income

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

LEA-wide

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Specific Schools: Options Schools

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Options Program

Support at-risk youth with option educational settings. A majority of youth that participate in the Districts options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

The majority of this funding has been moved to Goal 1 Action 1 Programs & Interventions in recognition that options schools are a Tier 3 intervention within the district's multi-tiered systems of support for high school students. The remaining funds are intended for options schools to support their targeted student populations with personalized learning strategies. These funds are allocated on a per pupil basis for schools to submit justifications for how they plan to improve personalized

learning strategies in their schools such as increasing the availability of technology, professional development for teachers on Mastery Learning and Grading strategies, or the implementation of online literacy resources.

A-G Diploma Program

The purpose of the Diploma Program is to reduce the dropout rates in the selected schools by utilizing a three tiered approach: Prevention, intervention and intensive intervention strategies. This is done through; early identification, intensive case management, enrollment in appropriate educational programs and zone of support, parent engagement, and support for transitions.

Key strategies include identifying at-risk students which are students 3 to 5 classes off-track to culminate in 8th grade or graduate with A-G requirements in high school at high TSP school-sites. Specifically staff 1) identify students are provided academic and transitional interventions 2) focus on increasing 9th to 10th grade promotion rates 3) recover students who have dropped out of school by providing multiple pathways and assistance to a high school diploma.

The tiered models concentrates resources on Tiers 2 and 3 which identify culmination status of students that need additional interventions. 20 middle schools are selected with a duplicated percentage of TSP population exceeding 75% TSP students.

- Tier 2 reflects a student who is 3-4 classes off-track
- Tier 3 reflects a student who is 5 or more classes off-track

A-G Immediate Intervention Plan

Academic Interventions and Student Supports:

The academic interventions required for A-G success must address all of the requirements outlined by the A-G requirements. These include the following subjects: A. English, B. History and Social Science, C. Mathematics, D. Science, E. World Languages, F. Visual and Performing Arts and G. College Electives. Scheduling constraints for students that are not making sufficient progress and are behind

several A-G courses, require a significantly different approach to providing academic interventions and supports. The majority of high schools in the LAUSD follow a traditional 6 period 2 semester system and thus have limited capacity to offer during-the-day interventions while allowing students to complete all of their necessary coursework.

- Summer school offerings
- On-line Credit Recovery for A-G Courses
- Mastery-Based-Online Learning- Year Long Intervention
- After-school credit recovery
- Tutorial Services for A-G Coursework
- Tiered interventions for A-G ELA/Math Coursework
- A-G Training for all Teachers
- Parent Engagement and Support

English Learners, Foster Youth, Low Income

Scope of Services:

(Select from LEA-wide, Schoolwide, or Limited to Unduplicated Student Group(s))

LEA-wide

Location(s):

(Select from All Schools, Specific Schools, and/or Specific Grade Spans)

Specific Schools: 30 High Schools, 20 Middle Schools

Actions/Services

2017-18

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

2018-19

Select from New Action, Modified Action, or Unchanged Action:

New Action

School Innovation Funds are provided to a subset of secondary schools to improve outcomes for targeted student populations. These targeted funds must be aligned to District Goals as described in the LCAP, and must be expended on services that support one or more of the following areas:

- Significant increases in investment in high need schools, including academic support and mental health, social and emotional support
- Increasing A-G and AP access and completion for high need students, including A-G Intervention and Recovery

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Funds for Goal 1 Action 10 School Innovation Funds are shifted to Goal 1 Action 5 School Autonomy because these funds are aligned with the objectives for Goal 1 Action 5 to provide school sites with additional funding to support Targeted Student Populations.

- Linked Learning
- School climate initiatives including Restorative Justice
- High school graduation and student recovery from dropout prevention for high need students
- Parent and community engagement, particularly for those from high need communities

Unchanged Goal

Goal 2

PROFICIENCY FOR ALL

State and/or Local Priorities Addressed by this goal:

State Priorities: 2. Implementation of State Standards; 4. Pupil achievement; 7. Course access; 8. Other pupil outcomes

Local Priorities:

Identified Need:

- To increase the percentage of students who score met or exceed on the English Language Arts Smarter Balanced summative assessment
- To increase the percentage of students who score met or exceed on the mathematics Smarter Balanced summative assessment
- To monitor and increase student early literacy rates
- To increase the percentage of English Learners who achieve full English language proficiency
- To increase the number of English Learners demonstrating readiness to participate in a core English Language Arts curriculum
- To decrease the number of Long Term English Learners
- To monitor and support Foster Youth academic attainment
- To monitor and increase the percentage of students with disabilities participating in general education settings

Foster Youth Support Plan and Family Source Centers

Augmentations to counselors, psychiatric social workers, behavior specialists, pupil services & attendance counselor aides, and pupil services & attendance counselors specifically supporting foster youth to provide the following services:

Beginning in the 2019-20 school year, the District will aim to provide local, integrated, specialized support services for targeted student populations, ensuring that students in foster care continue to be served effectively and consistently, while strategically increasing support for students experiencing homelessness and/or involved in the juvenile justice system. This new model of support services personnel will include Pupil Services and Attendance (PSA) Counselors and Psychiatrist Social Workers (PSW), Pupil Services and Attendance Counselor aides, healthy start coordinators and

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (i.e., tutoring)
- Advocate for the educational rights of foster youth
- Promote school stability

Coordinate with Department of Children and Family Services (DCFS) and Department of Probation regarding foster youth school transfers, implement data tracking infrastructure, and identify baseline data necessary to minimize foster youth transfer rate.

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LAUSD support services and other community agencies. PSA Counselors provide parent engagement through classes and outreach to schools and community agencies.

FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc.

FSPP coordinates with the Department of Children and Family Services (DCFS) to offer linkages to support services for Voluntary Family Maintenance youth and families.

navigators, and additional support staff. This integration model will reduce duplication and maximize personalization of support for students and schools. Staff will generally serve in smaller geographic areas. This will reduce the time spent driving and increase time to provide direct support and build relationships with students, families, and staff. In addition, this will allow the increased opportunity to build adult capacity and systems and structures to meet the needs of students.

Staff will continue to receive supervision, training, and support from Student Health and Human Services administrators. Foundational and differentiated training will be provided prior to and throughout the school year. The District is committed to continuing to gather input from students, families, staff and community partners (i.e. Department of Children and Family Services, Probation, etc.) to ensure that best practices are leveraged and expertise is shared across programs as the District works toward implementation in Fall of 2019.

PSA and PSW will continue to support foster youth and provide the following services:

- Conduct a comprehensive academic assessment and subsequently develop an individual success plan for each foster youth
- Provide ongoing intensive case management
- Ensure equitable access to resources (e.g., tutoring, post-secondary opportunities, and career pathways)
- Promote school stability
- Advocate for the educational rights of foster youth
- District-wide initiatives (e.g. Foster Youth Shadow Day, Pathways to College Celebration, etc.)

FamilySource Partnership Program (FSPP) Pupil Services and Attendance (PSA) Counselors will conduct educational assessments to provide support to students and families district-wide through referral and linkage to City of Los Angeles FamilySource Center services, LA Unified support services and other community agencies. PSA Counselors will provide parent engagement through classes and outreach to schools and community agencies. FSPP coordinates with the Los Angeles School Police Department's (LASPD) Arrest Diversion program to link students and families to interventions, such as tutoring, counseling, parenting classes, etc. FSPP coordinates with the DCFS to offer linkages to support services for Voluntary Family Maintenance youth and families.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the state's priorities as identified by the State Board of Education and California Department of Education. Priority topics in the LCAP year and forward include:

- Standards-Focused Professional

2018-19

Select from New Action, Modified Action, or Unchanged Action:

Modified Action

Increase in resources to expand professional development efforts consistent with the actions below.

Professional Development

Professional development of instructional staff will be conducted reflecting the priorities and topics below, which support the implementation of Common Core State Standards, English Language Development (ELD) standards, and the states priorities as identified by the State Board of Education and California Department

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

Development improving instructional capacity in all content areas.

- Alternatives to suspension
- Positive Behavior Support Systems
- Student placement of EL, SEL, and LTEL students
- Long Term English Learners (LTEL) Courses and LTEL Designees.
- Common Core State Standards English Language Arts shifts, mathematics and supplemental programs
- Response to Instruction and Intervention (RtI²)
- Effective use of technology in the classroom for teaching and learning
- Assessment of student progress
- Writing, speaking, and listening standards
- Content standards integration
- Integration of the Arts
- Teacher Growth and Development Cycle
- Strategies for students with disabilities (SWD) in General Education settings.
- Access to the core strategies for English Learners and Standard English Learners
- Implementation of Safe Schools Plans for Student Discipline: Volume
- Student Discipline Training kit
- Dual Language/Bilingual Programs
- Instructional Coaches
- Paraprofessional Teacher Training
- California English Language Development Standards and Strategies
- Restorative Justice Practices

Support completion of the science fellowship. The main focus is engaging students in “Three-Dimensional Learning” that combines scientific and engineering practices, core ideas, and crosscutting concepts. Science Fellows have developed and examined NGSS aligned lessons for language objectives to develop differentiated instruction for the English Learners.

Curriculum

The design and implementation of curriculum is a critical component of the alignment of content and instruction to the Common Core State Standards, as well as development of multiple channels, pathways and models assisting students in completing the standards-aligned content.

- Online courses-credit recovery and core programs
- Supplemental curriculum and materials

The allocated increase in certificated salaries for this Action is for salary raises for District-represented certificated employees that will be implemented in 2019-20. The amount will be shifted to the actual positions and the appropriate Actions once they are implemented.

Instruction

The methods, practices and delivery of instructional content are critical to the engagement and learning of every student. Differentiation, personalization and pacing all impact a student's ability to understand and learn. The elements below provide aspects of the critical elements of good instruction while bringing the District's curricula and content into alignment with the Common Core State Standards. The District will leverage new models, technology and resources for the

greatest impact and learning gains by all of our students.

- Teachers and instructional staff
- Implementation of shifts in Mathematics and ELA
- Interdisciplinary instruction
- English Language Development (ELD) Standards Phase-In Plan
- Use of technology in the classroom to support effective teaching and learning via the Instructional Technology Initiative
- Contracts to support effective Common Core State Standards instruction
- Design lessons
- Digital curriculum aligned to the Common Core State Standards via the Instructional Technology Initiative
- Alignment of Curriculum with Common Core State Standards, English Language Development Standards and California Content Standards.
- Arts integration

Assessment

Academic assessments enable schools and teachers to monitor student attainment of the Common Core State Standards (including foundational literacy skills) for all students, English Language Development for English Learners and access to core for reclassified English proficient students. Assessment results are utilized to modify instructional practice during the school year to meet the need of all students, including students who are struggling (intervention) and students in need of

enrichment (advanced learning). Graduation checks and student placement assessments monitor student progress toward graduating high school college and career ready.

- Graduation checks
- California High School Exit Exam (CaHSEE) assessments
- Algebra EOC (End Of Course assessment)
- Math Placement Assessment
- Literacy intervention assessment
- K-2 assessments in foundational reading and math
- Diagnostic assessments (Significantly Disproportionate Coordinated Early Intervening Services, or CEIS)
- Progress monitoring assessment tools
- English language development assessment tools
- Interim assessments aligned to the Common Core State Standards in ELA and Math
- California English Language Development Test Proficiency and progress
- Technology

the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.

-Provide for EL/SEL Instructional Coaches

- Standard English Learner support program

2019-20

Select from New Action, Modified Action, or Unchanged Action:

Unchanged Action

- A literacy intervention course with an additional language development component. The difference between this program and advanced ELD courses is the amount of time spent on language development, especially oral language development. Advanced ELD has a greater focus on language development and Academic Literacy has a greater focus on literacy skills, although both classes address all four domains of language. This strategy is enhanced at the secondary level to address LTELs.

- Standard English Learner support program (AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. The program incorporates into the curriculum instructional strategies that facilitate the acquisition of standard and academic English in classroom environments that validate, value, and build upon the language and culture of the students.

- Enhance the District's implementation of ELD Standards through the implementation of the District's English Learner Master Plan. This Master Plan was developed to ensure that all ELs in LAUSD attain optimal linguistic and academic success. The plan describes how ELs are identified, the different program options available to them, and how they become proficient in English and have full access to a challenging academic curriculum

-Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school.

(AEMP) - Academic English Mastery Program is a comprehensive, research-based program designed to address the language and literacy needs of African American, Mexican American, Hawaiian American, and American Indian students for whom Standard English is not native. To address the three TSP

Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC): Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the District's Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.

- Fellowships, and professional development.

- Coordinated Professional Development (PD) Framework: Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

Local Control Accountability Plan Support

Administrative support for developing and coordinating the implementation of the Districts Local Control Accountability Plan.

Fiscal support specialists

Staff assigned for coordination of the plan

engages numerous stakeholders, in particular, the targeted student populations of LCFF, to ensure their interests are captured in the strategies and input used to develop and update the plan.

Ensures the plan is in compliance with state requirements and resources are directed to unduplicated pupils accordingly.

Central Office/Local District Supports for school-site school for school climate program implementation.

All actions will remain the same for 2018-19 however the following program will be modified to better serve targeted student populations, especially English learners:

The Accelerated Academic Literacy program will be modified to better serve middle/high school students.

Universal Reading Assessment: The absence of a universal reading assessment in secondary English Language Arts has made it very difficult for schools to effectively determine the literacy needs of students. A universal reading assessment will provide schools with lexile (reading level) data at the beginning of the year, providing schools with data that will specifically help them target the intervention needs of TSP students.

Tier II Intervention Curriculum: In a Multi-Tiered System of Support (MTSS), Tier II intervention services are designed for students that demonstrate the need for extra time, support, and/or practice to be able to successfully access core curriculum.

Tier III Intervention Curriculum: Tier III intervention services are designed for students who are reading far below grade level (three or more grade levels below). If students come into

the secondary schools with this large reading skill deficit, they will continually struggle and fail many classes, which too many times leads to students dropping out. The district currently has over 1500 secondary students using this program in a Tier III structure. The Division of Instruction is looking to replace this reading intervention program and strengthen the districts Tier III intervention services to reach more students that we know are in need of this intensive reading instruction.

Device Carts: Many of our schools who are implementing Tier II and/or Tier III intervention services are using various instructional programs and/or applications that use digital platforms. To assist schools in building their technology capacity to meet the intervention needs of their students, especially their TSP students, the district will provide the schools with a device cart to house computer devices of their choice. This technology is necessary because the digital components of these programs are an intrinsic part of the curriculum and instruction.

Targeted Instructional Support

Reduce class size in secondary schools and provide additional opportunities for enrichment electives, every comprehensive middle, high school and several grades 4 through 6 will receive 1 FTE teacher position. This position may be used to support class size reductions in physical education and/or elective courses, and the addition of enrichment electives and/or courses activities such as AVID, MESA and Leadership. The action provides schools with an

These funds for elective teachers are now incorporated in the Student Equity Needs Index funding in Goal 1 Action 5 School Autonomy.

additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.

Resources are distributed to school-sites through a prioritization methodology utilizing the District's school equity index

Early Language and Literacy Program

In addition to providing elective teachers, the District is implementing the Early Language and Literacy Program (ELLP) model which is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures

Arts Program

Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index.

The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts

programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs.

School Climate and Restorative Justice Program

Promote School Climate and Student Engagement at campuses of highest need, based on unduplicated student concentrations.

And effort to develop and maintain:

The majority of these funds have been moved to be included in the Student Equity Needs Index in Goal 1 Action 5 School Autonomy to allow schools to be able to make decisions on how to reduce suspensions and discipline issues within their schools. Remaining funding is allocated to support Central Office and Local District staffing and professional development costs to continue assisting schools in implementing Restorative Justice practices.

- Holistic, safe and healthy school environments
- Effective positive behavior support and interventions
- Commitment to a District-wide culture of positive and humanistic approach to working with students, staff and parents.

Funds are prioritized utilizing the District's equity index and through the identification of sites with high incidences of conflict and suspensions. The index is described in Section 3a.

Restorative Justice counselors and teacher advisors will be provided to school sites for purposes of building positive practices and school culture to address student behavior and conflict.

On-going Major Maintenance

Targeted maintenance to school sites with greatest need.

Expand the existing program to increase response times for repairs. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a

week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: **2019-20**

Estimated Supplemental and Concentration Grant Funds:

\$1,137,257,754

Percentage to Increase or Improve Services:

32.35%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2019-20, LA Unified will budget \$1.14 billion in supplemental and concentration funds for continued support and increased services for low income, English learners and foster youth. The District is committed to closing the achievement gaps that currently exist for these students. District-wide goals and targets guide the LCAP to strategically align resources and initiatives to support the success of targeted student populations. In addition, the input from the multiple stakeholder groups including the Parent Advisory Committee and the District English Learner Advisory Committee has been used to inform the decisions on initiatives and expenditures for the upcoming school year. The District targets provide guidance to schools as they plan their programs and calibrate the work of the central office and Local Districts to monitor and support school progress during the school year.

To ensure that all students are prepared for success in college, career and life, LA Unified has focused on offering a cohesive delivery of services that is aligned with multi-tiered systems of support (MTSS). Schools have received professional development on implementation of MTSS, and the Central Office and Local Districts have been supporting the identification of diagnostics and the development of interventions. By placing students at the center of the work ahead, District initiatives will focus on empowering principals, supporting teachers and engaging families and communities in the coming year by:

- Reducing class size
- Adding counselors, nurses, librarians and support staff to work with teachers
- Developing personalized pathways for all students
- Improving services for students with disabilities
- Increasing funding targeted toward high-needs students
- Aligning Local District supports to communities of schools
- Reducing operational demands on principals so they can focus on instruction
- Building the capacity of school leaders
- Increasing budget flexibilities
- Providing more complete information to families and organizations about each school
- Developing opportunities for direct family engagement in Local Districts
- Delivering more wraparound services through the "All In for Public Education" campaign

Brief descriptions of the Actions aligned with services for unduplicated pupils are described below:

- Goal 1 Action 3 Adult and Career Education for Targeted Youth - This program offers opportunities for students to enroll in A-G approved courses to return on-track for graduation during the school year and during winter recess, spring recess and on Saturdays. A significant portion of these students are low income, English learners and foster youth needing additional supports. This LEA-wide service aims to improve the graduation rate for these student groups.
- Goal 1 Action 5 School Autonomy - The Student Equity Needs Index distributes funding based on a formula that includes indicators of student and community need. Schools have autonomy to develop a plan to utilize these funds to support district goals, and school leaders are provided guidance through the District Budget Handbook on allowable expenditures

- aligned to support high needs students. Each school must provide justification for how these funds are targeting unduplicated students while aligning services with the District's LCAP and the school's strategic goals. Examples of expenditures for schools include nurses, counselors, class size reduction teachers, and additional professional development.
- Assistant Principals: All Assistant Principal roles are aligned with school strategic goals and the District's LCAP outcomes to support low income, English learner and foster youth students.
 - Counselor (High School Only): All high school counselors are provided additional professional development and resources to support the tracking and support of high needs students toward graduation and college/career readiness.
 - School Librarians: These positions are designed to improve literacy outcomes for students across all schools by providing access to text and additional instructional support to students, particularly unduplicated students who may have less access to literacy materials at home.
 - Nurses: Nurses are supported through this Action in order to provide support to students - particularly unduplicated students - who may be in greater need of health care supports as a means of improving student attendance and engagement in class.
- Goal 1 Action 6 Options Program - The personalized learning funding to Options schools provides the opportunity for schools to increase student on-track graduation rates by offering credit recovery, tutoring after school and on weekends, improved access to technology, and additional social-emotional learning supports. A majority of youth that participate in the District's Options schools are low income and English learners. Investments in personalizing instruction for these schools provide additional Tier 3 supports for students in the district's multi-tiered system of support.
 - Goal 1 Action 7 Realigned After-School Program - The District sought to bring greater cohesiveness between the after-school program and regular school day efforts by implementing social-emotional learning programs, increasing training for staff on the needs of foster youth, English learners and students with disabilities, and offering summer term credit recovery and extended learning opportunities for the summer. The majority of students participating in these programs are unduplicated pupils who benefit from participating in these programs which provide academic enrichment and support for students who may not have access to these resources at home.
 - Goal 1 Action 8 A-G Diploma Program - Diploma Counselors were provided to schools to support Tier II and III students who are identified as being at-risk of not graduating. These counselors provided personalized supports to students by meeting with individual students, collaborating with academic counselors, and monitoring student progress. The majority of these students are unduplicated students who may need additional support and assistance, so they receive access to Diploma Counselors who may advocate to teachers on their behalf and provide individualized tracking and guidance to these students.
 - Goal 1 Action 9 A-G Immediate Intervention Plan - Local Districts were allocated funds and developed plans to improve graduation rates and A-G course completion. The Division of Instruction supported Local Districts and schools by providing a variety of resources for credit recovery and college readiness. The majority of students who participate in credit recovery courses are unduplicated students, particularly English learners and low income students, so this Action funds resources such as online and in-person credit recovery opportunities as well as staffing to support schools with implementation of these opportunities.
 - Goal 2 Action 1 Foster Youth Support Plan and Family Source Centers - This Action provides counselors to support the over 7,000 foster youth across the district with academic support, case management, access to tutoring, and advocacy for student educational rights and school stability. The FamilySource Partnership Program supports students and families with referrals and linkages to support services and community agencies.
 - Goal 2 Action 6 Early Childhood Education/Transitional Kindergarten Expansion Plan - The expansion of early childhood programs from part-day to full-day programs as well as the increase in number of Expanded Transitional Kindergarten (ETK) programs are designed to support low income students with high quality early foundational education in order to place students on the track toward early literacy and academic success.
 - Goal 2 Action 9 English Learner Supports - The funding of English learner instructional coaches across schools with high percentages of English learners will continue supporting the district-wide implementation of the English Learner/Standard English Learner Master Plan. The Division of Instruction will also continue the roll-out of MTSS secondary literacy resources such as the diagnostic assessment and Tier II and III curricula. These resources will particularly benefit English learners and low income students at the secondary level who may be falling behind grade level literacy standards.
 - Goal 2 Action 10 Instructional Technology Support - The Instructional Technology Initiative team will continue to provide models of support to schools serving high numbers of low income students in order to increase one-to-one technology access for students. Supports for direct onsite technical support will continue to be provided to ensure that the instructional program at schools is unimpeded. This Action support schools in implementing one-on-one devices in schools in order to bridge the digital divide that exists between households based on income.
 - Goal 2 Action 12 Arts Program - The Arts Education Branch will continue to implement a targeted Arts program that utilizes the District's Arts Equity Index to provide additional resources to schools with high populations of unduplicated students. The Arts equity index utilizes the LCFF targeted populations of low income, foster youth and English learners to identify high needs schools, in addition to identifying arts programming gaps across schools. The intent is to increase the level of arts programming beyond minimum state requirements and to bring parity to school-sites that may not historically have had access to broad arts curricula and programs.
 - Goal 3 Action 2 Targeted Supports to Increase Student Engagement at Campuses of Highest Need - The District will continue to fund additional Pupil Services & Attendance (PSA) counselors, psychiatric social works and student health and human services support personnel to support schools with high percentages of low income, English learners and foster youth. Student engagement, particularly including low income, English learner and foster youth, will continue to occur district-wide in order to receive authentic feedback from students on district-wide policies and to provide opportunities for students to propose suggestions on new district policies.

- Goal 3 Action 3 Homeless Youth Program - This program will continue to fund PSA counselors and resources for students identified as homeless in order to ensure timely enrollment, advocacy for school stability, and academic and personal resources and community-based referrals.
- Goal 3 Action 4 District-wide Student Engagement Plan - School Enrollment, Placement and Assessment Centers (SEPA)s provide supports to all families, particularly newly arriving families, to assist with the school enrollment process, access to medical and mental health services and referrals, housing, and linkages to legal services and other district and community resources. The majorities of families served by SEPA)s have unduplicated students who will benefit from access to these supports.
- Goal 5 Action 1 School Climate and Restorative Justice - Restorative Justice implementation district-wide will be entering its final year indicating full implementation of these practices across the district. Continued professional development with schools and funding of support staff will ensure sustainability of these practices in reducing suspensions and expulsions of students. This Action will continue to benefit unduplicated students the most since they are the student groups that are most disproportionately subjected to disciplinary actions.
- Goal 6 Action 4 On-going Major Maintenance - Strike Teams, consisting of various craftworkers, will be expanded to 42 community complexes with dedicated journeymen and gardeners to perform repair and renovation projects based on prioritized needs. This expansion will be directed toward schools with high percentages of unduplicated pupils in order to improve their school environments which should support improvements in attendance and academic outcomes.
- Goal 6 Action 5 Expanded Access to Meals - The district will continue serving Breakfast in the Classroom at schools, as well as hot and cold supper, to ensure access to healthy meals for low income and homeless youth who may face food insecurity.

LCAP Year: 2018-19

Estimated Supplemental and Concentration Grant Funds:

\$1,164,261,199

Percentage to Increase or Improve Services:

32.60%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2018-19, the LAUSD will budget \$1.16 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. These funds represent a concerted effort to continue and realign current expenditures as supplemental and concentration funded programs and services.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to expand early learning interventions and supports for our youngest learners, refocus our secondary ELA interventions, and drive innovation in our neediest schools. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that

ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. All new staff are required to complete the "Habits of Mind" professional development series focused on the changing mindsets and creating positive school cultures that are needed to address the needs of low-income, English learners and foster youth. In addition, stipends for teachers and school leadership establish staff stability and continuity for students that have historically had a disproportionate impact on unduplicated pupils. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998)
- **Accelerated Academic Literacy (Goal#2, Action #9):** The Division of Instruction will be using AAL funds to redesign and strengthen a Secondary English Language Arts intervention program in grades 6 – 10. The elements of this proposal—reading assessment, new strategic intervention (Tier II) curriculum (grades 6 -10), new intensive (Tier III) reading intervention program—will support specific LAUSD LCAP goals. The 2015-16 Smarter Balanced Assessment achievement level data shows that three TSP groups, homeless, foster youth, and low-income, are struggling to meet the rigorous grade level standards. There are too many TSP students who are not on the college and career-ready path by the time they reach grade 12. To address this large gap in the TSP population (homeless, foster youth, and low-income), the Division of Instruction is proposing an aggressive and innovative plan to provide schools with the tools and training to fill the literacy gaps that are preventing a large number of the TSP students from succeeding in school.
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.

- *Assistant Principal:* All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- *Counselor (High School Only):* All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
- The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- *School Libraries/Librarians:* Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity index. (Identified in Goal 1, Action #5)
- *Services for Elementary Schools:* Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- *Services for Middle Schools:* Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- *Services for High Schools:* Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.

- **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embeds Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for English learners. A significant portion of PAL participants are low-income students and English learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
- **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post-secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.
- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
- **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Schools rely on fiscal experts to assess which available resources may be utilized to support targeted strategies for English learners, foster youth and low-income students. Through their guidance, fiscal specialists provide school plan support and budget change requests related to supplemental and concentration fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **School Innovation Fund Program (Goal #1, Action #10):** Invest in the highest need secondary schools in LAUSD which have comprehensive need to support foster youth, homeless youth, math outcomes and school climate outcomes. The resources at these

schools are guided by a clear expectation that schools define their root causes, develop and assess school-based strategies, and collaborate with a student support team focused on addressing the mental health, life and academic needs of students. The coherence-making model is focused on developing a sustainable practice on ongoing inquiry and improvement lead by the school leadership team and supported by District staff.

- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.
- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools, which are schools with high concentrations of unduplicated pupils. The intent is to increase the level of arts programming beyond the minimum statutory requirements that brings parity to school-sites throughout the District. Enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs will provide low-income and foster youth students greater opportunities for academic enrichment in this area of study.
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to

assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.

- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. 85% of our students qualify as an LCFF unduplicated pupil. Building parent capacity district-wide is essential to supporting the academic achievement of unduplicated pupils in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #9):** Design Professional Development courses to identify & service targeted student population (TSP). The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous, research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.
- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required

additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

LCAP Year: **2017-18**

Estimated Supplemental and Concentration Grant Funds:

\$1,134,420,996

Percentage to Increase or Improve Services:

32.87%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

For FY 2017-18, the LAUSD has adjusted its supplemental and concentration allocation to comply with the directive provided by the California Department of Education related to LAUSD's targeted special education services. The District will budget \$1.134 billion in supplemental and concentration funds for continued support and increased services for the targeted unduplicated student groups. The adjustment represents a change of \$264 million in supplemental and concentration funding as compared to FY 2016-17. These funds represent a concerted effort to realign current and prior year expenditures as supplemental and concentration funded programs and services.

The District's 2017-18 LCAP identifies various areas in which services are improved or increased for the targeted youth in the LCFF. Specifically, the District is intending to shift base program practices to align more directly with the intended targeted student populations of the LCFF.

This effort required District personnel to redefine programs with practices and positions that directly support low-income, English learner and foster youth students in the areas of professional development, speech and language supports, enhancing the role of assistant principals in secondary schools, transition services and other programs that will better serve our targeted student population.

The LCFF investments continue to be targeted to low-income, English learner and foster youth students in LAUSD, which aim to fulfill the commitment of providing essential resources for the purpose of closing the achievement gaps that currently exist for these youth. It is done through a strategic investment plan aimed at ensuring all of our students are college and career ready, graduating at a higher rate, provided access to high quality curriculum and instruction, attending school every day and supported by effective employees in safe school environments. The District-wide goals that drive LAUSD's LCAP provide a roadmap for targeting resources and improving outcomes through more accountability. The additional supplemental and concentration funds identified in the District's LCAP provide an opportunity to fully integrate and improve services for unduplicated pupils by augmenting personnel, providing enhanced compensation and academic supports to improve their learning environment and drive academic outcomes. These investments are aimed at expanding arts programs, providing librarians and nurses, reducing class sizes with a focus on increasing electives, increasing the restorative justice program, supporting increased school autonomy, and providing intervention and support programs to youth on their path to graduation. The decision to use the funds in this manner is based on the input from multiple stakeholder groups consisting of employee, parent, community and student groups. These funded programs are supported by a number of evidence-based practices that ensure staff is properly serving the targeted youth and aimed at achieving improved academic outcomes.

LAUSD has identified a number of actions and resource allocations intended to support an integrated and coordinated academic support program for unduplicated students in the District. Specifically, district-wide services focus on providing enhanced instructional and operational programs that

ensure students are supported by wrap-around services focused on improving outcomes for unduplicated students. Many of the district-wide services are intended to improve the school climate and student engagement of unduplicated pupils. Furthermore, these district-wide services are enhanced by many of the school-wide resources school-sites will receive to target unduplicated students. Below are all of the services aimed at improving instructional outcomes, supporting school autonomy to best tailor supports for unduplicated students and fully integrate district actions. Through a sustained investment and integration of both district-wide and school-wide use of supplemental and concentration funds, LAUSD offers a cohesive delivery of services to all unduplicated students. This year's LCAP sustains commitments of improved services for unduplicated students while growing particular programs focused on early learning and literacy.

- **Increase Staff levels and Retention efforts for targeted School-Sites (Goal #1, Action #4):** Improve staffing levels at select school-sites with high concentrations of unduplicated pupils. This effort aims at improving student support and academic interventions by ensuring staff acquire relevant training for today's teaching and learning methods. This investment ensures these high need school sites are receiving the instruction continuity students need to be successful in their academic career.
- **Early Language and Literacy Program (Goal #2, Action #11):** The ELLP model is data-driven and builds the capacity of educators to provide a multi-tiered system of supports designed to accelerate student language development and literacy achievement. Students receive targeted instruction in the California content standards, with an emphasis on foundational reading skills and oral language development, to support their growing independence in using and understanding language and the written code. This is accomplished through teachers collaborating to provide skills-based instruction within flexible, small student groupings. Foundational skills instruction is personalized for students based on student need, such as English learners, for acceleration and intervention, as determined by multiple measures. The strategy is essential to accelerating progress for the District, when over 25% of the District's students are identified as English learners. Several research studies have demonstrated that early cognitive and linguistic development predict later achievement—even much later. Various measures administered at the preschool and kindergarten levels reveal that patterns of preschool learning are closely linked with reading achievement in the primary grades (Scarborough, 1998). Young children who demonstrate oral language proficiency and early abilities in processing print do better in learning to read in first, second, and third grades (Scarborough, 2001). This means that learning achieved during these early years is likely to be sustained throughout the primary-school years and is an important basis for successful early performance in school. Success in literacy learning during the primary grades is even more indicative of later literacy achievement. Seventy-four percent of children who perform poorly in reading in third grade continue to do so into high school, further underlining the importance of preparing children to enter school ready to learn (Fletcher & Lyon, 1998).
- **Support School Autonomy (Goal #1, Action #5):** Services and positions supported by this resource are to be aligned with the District's investments and strategies outlined in the District LCAP and a school's single plan for student achievement (SPSA) to ensure there is a focus on the outcomes the District has determined for these students. School-level decision making allows school-sites to locally determine the needed resources and staff that are necessary to support the unduplicated students at their school-site while fulfilling the strategic commitments outlined in the District's LCAP. Each school must provide a justification for how the funds are targeting unduplicated pupils while aligning the services with the District's LCAP and school's strategic goals.
- **Assistant Principal:** All Assistant Principal supported through enhanced professional development and focused on improving targeted student populations. The targeted role will be to support the instructional strategies that best support low-income, English learners and foster youth students. Circumstances in which a student with disabilities who is low-income, English learner or Foster youth may require the participation of the Assistant Principal. (Identified in Goal 1, Action #5)
- **Counselor (High School Only):** All High School Counselors are provided additional professional development and directives to support targeted student populations. (Identified in Goal 1, Action #5)
 - The professional development for both assistant principals and counselors will focus on integrated strategies that enhance the responsibilities of these two positions to provide more direct services to English learner and foster youth students at a school-site. Current practices have not been fully integrated and require additional attention to ensure collaborative efforts are taking place to foster better outcomes for these targeted students.
- **School Libraries/Librarians:** Shift percentage of the \$6M budget for General School Program-Teachers (Library Media), from base to Targeted Student Population program. These positions are limited and are provided to schools ranking high on the District's student equity

index. (Identified in Goal 1, Action #5)

- **Services for Elementary Schools:** Elementary school-sites with high concentrations of unduplicated students will receive administrative support for school leaders to assist in improving school activities and instructional intervention planning, which enhances the quality of education youth receive at the school-site. These administrative support positions are limited and are provided to schools ranking high on the District's student equity index. In addition, the district provides for a redesigned arts program, which will focus on school communities that have a high percentage of unduplicated youth but currently attend a school with a low offering of arts curriculum and courses. This investment is consistent with the LCAP's priority of offering broad course access and improving the academic outcomes of students via an enriched offering of arts courses and additional administrative support at elementary school-sites.
- **Services for Middle Schools:** Provide for targeted middle school supports with high concentrations of unduplicated students via the distribution of librarian positions and class size reduction for math, and English language arts. By increasing these services for targeted schools, unduplicated pupils receive the additional benefit of library services, which enhances literacy, language and research skills for the targeted students. For the 2017-18 school year, expanding the availability of elective course offerings in middle schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The intended outcome is increased proficiency in reading and mathematics as is delineated in the District's LCAP.
- **Services for High Schools:** Invest in LAUSD's high school student population to ensure they are college and career ready. In particular, our unduplicated student population benefit from targeted allocations focused on 9th grade math and English language arts class size reduction as well as provide for optional education settings for youth seeking an alternative to the traditional high school. In addition, this allocation supports programs Adult Education offers to secondary students for the purposes of credit recovery. Credit recovery provides educational services and individualized support that increases student retention and graduation rates. In 2014-15, there were 15,809 high school students enrolled in adult education courses. The campuses offering credit recovery courses have high concentrations of unduplicated students. For the 2017-18 school year, expanding the availability of elective course offerings in high schools, such as arts and physical education, will be central to supporting the whole scholar and integrating other efforts the District has incorporated in the LCAP. The supplemental resources identified for this program will improve college and career readiness for students in these areas to achieve the 100% graduation and Proficiency for All Goals, as indicated in the District's LCAP.
- **Targeted English Learner Supports and LCAP Administrative Supports (Goal #2, Action #9):** Focus resources aimed at supporting English learner and re-designated fluent English proficient students. A focus on accelerated academic literacy, early literacy and language development as well as instructional coaching is supported by this investment. This effort provides early intervention for unduplicated youth by implementing a new early education program for four year-olds, with highest priority given to schools with the largest shares of high-needs students. In addition, targeted LCAP administrative support is provided to ensure meaningful engagement and planning is performed throughout LAUSD.
 - **Speech and Language Pathology (SLP) Services for Pre-school for All (PAL)/Pre-school collaborative (PSC) (Goal #2, Action #9):** Embedding Speech & Language Pathology services into existing PAL & PSC classes to support early identification and language supports for english learners. A significant portion of PAL participants are low-income students and english learner students needing additional speech and language pathology services to prepare them for full general education integration in kindergarten or in the early primary years.
 - **Enhanced Transition Services for Targeted Student Population (TSP) (Goal #2, Action #9):** Transition services will be provided using a multi-tiered support process to ensure that the TSP groups receive additional instruction and programs to support the communication, decision-making and self-advocacy skills these students will need during and after high school. The District Office of Transition Services (DOTS) will partner with Multilingual and Multicultural Education Department (MMED) and Pupil Services to provide professional development to DOTS staff in strategies designed to address the needs of EL, Low Income and Foster Youth. To address the three TSP: In Tier 1, low-income students with disabilities receive transition services consisting of specific lessons and assessments, including lessons on financial literacy to address the needs of low income students. In Tier 2: DOTS will partner with MMED to support transition activities with students who are English Learners. Parent trainings will now include community resource information for all TSP groups, including free clinics, free or low cost training options, and other transition supports to help their children be college and career ready. Tier 3: DOTS will provide students identified as foster youth with targeted lessons, activities and supports

that identify, network and coordinate community resources. These services could include collaborative support with outside agencies, agency visits, self-advocacy instruction, and independent living skills and will be given a higher weight for selection to participate in our collaborative programs with the Department of Rehabilitation. These students will benefit from working in their communities, developing relationships with mentors and gaining a greater opportunity for post- secondary employment. Beginning in 2016-17, transition teachers used the foster youth transition tool kit to plan activities and instruction for this program.

- **Bilingual Differential (Goal #2, Action #9):** Shift budget for Teacher Assistants/Paraprofessionals and school-based classified employees that are receiving the bilingual differential from base to supplemental/concentration. Culturally and linguistically responsive teaching is a strategy to better serve and target English learner development and engagement in schools. Providing a bilingual differential to attract teachers with competencies in multiple languages strengthens the delivery of protocols outlined for culturally responsive learning.
 - **Fiscal Specialist (Goal #2, Action #9):** Apportion funds to fiscal specialists who assist schools in appropriately allocating TSP funds. Assist with plan support and budget change requests related to S&C fund usage.
- **Expanded Transitional Kindergarten (Goal #2, Action #6):** Building on the focus of early language and literacy work, early access to kinder preparation programs is essential to identifying and supporting students to eliminate the kinder readiness gap for students in low-income areas throughout the District. The District, through the ETK program, provides quality preschool seats for low-income children who are the primary targeted students of the program, who turn 5 after December 2. This is a program that provides structured and unstructured opportunities for children to build socialization and communication skills with other children and with adults. It focuses on student engagement and academic skill development by cultivating at a very young age, personal qualities that improve children's resilience, confidence and persistence to a task and setting a strong language and literacy foundation for our youngest students.
- **Foster Youth Achievement Program (Goal #2, Action #1):** Invest in a targeted Foster Youth Achievement Program, which provides a number of support services to over 7000 LCFF defined foster youth in LAUSD. A designated foster youth counselor works with an assigned number of youth who assess a student's health, life and academic well-being. This process ensures they are receiving the wrap around services needed to support their academic career in LAUSD and achieve the intended targets established in the District's LCAP. In addition, staff has redesigned work-time and functions performed by 2 personnel in the Office of Government relations to focus their advocacy on behalf of targeted student population.
- **Support integrating Special Education students into General Education - Grade-Span Support (Goal #2, Action #8):** The Individualized Education Program services provided to unduplicated pupils are effective in meeting the District's core goals of integrating those pupils in the core educational programs of the District. These investments are intended to address grade-span modifications at schools with high enrollment of unduplicated students and students with disabilities. Grade span adjustments and extra time for personnel, are district-wide expenditures aimed at modifying the instructional environment for unduplicated pupils who are students with disabilities. These additional resources are invested for additional teachers and assistants to provide more classes to address K-5 classes. These investments go beyond what is required through the IEP and represent a qualitatively improvement investment for students with disabilities, and are offered predominantly at schools with **80%-100% unduplicated** pupils.
- **Enhance Graduation Efforts and School Climate Efforts (Goal #1, Actions #8 & #9; Goal #3, Action #3; Goal #5, Action #1):** Bolster the District efforts to improve school climate and student engagement at schools with the highest concentration of unduplicated students. The programs aim to provide additional services afterschool, support A-G intervention efforts to increase graduation rates, improve campus safety by ensuring campus aides are present during high priority hours, increased counseling supports which range from academic to mental health and build improving community, student and staff communication through the development of a targeted Restorative Justice Program. Restorative justice programming is offered at targeted school sites based on suspension rates and unduplicated student concentrations. Improving the school community environment and fostering positive relationships amongst students, parents, and staff contributes to successful academic outcomes of the targeted youth. Additionally, the District established a homeless youth support program supported by the acquisition of a new data system for tracking homeless youth in the District. Homeless youth have many of the same risk factors as foster youth, although they are identified as low-income students, they will be receiving catered services to prevent dropouts and improve academic outcomes.
- **Graduation and Credit Recovery Efforts (Goal #1, Action #3):** The adult education program in LAUSD provides additional supports to high

schools by offering credit recovery courses and G.E.D. programs to high school students off-track to graduate. A significant portion of these students is low-income, English learners and foster youth needing additional intervention. This LEA-wide service aims to improve the graduation rate for these student subgroups.

- **Options Program (Goal #1, Action #6)**Support at-risk youth with option educational settings. A majority of youth that participate in the District's options program are low-income and English learners. By providing an optional educational setting that takes into consideration a number of life-needs, the program increases the likelihood of these students graduating from LAUSD.
- **After-School Programs (Goal #1, Action #7)**Support the realignment of after-school services to better serve at-risk and unduplicated youth in the District. The District's prior program was redesigned to provide a more rigorous and structured learning environment to ensure targeted (low-income, English learner and Foster Youth) students are receiving proper academic support and intervention immediately after school.
- **Expand Arts Programs (Goal #2, Action #12)**Establish a targeted Arts program that utilizes the District's Arts equity index to determine areas of need. The LCFF targeted populations of Low-Income, Foster Youth and English Learners students are used to populate the arts equity index. The arts equity index has identified arts programming gaps in high need schools. The intent is to increase the level of arts programming beyond the minimum statutory requirements. The effort brings parity to school-sites throughout the District while enhancing access to the arts in areas of the District that have historically not had access to a broad offering of arts curriculum and programs
- **Improve School Environments and Student Engagement (Goal #3, Actions #2 & #4)**Utilizing the equity index, schools are identified to receive additional clerical, building and grounds, psychiatric social workers, pupil services and attendance counselors and other personnel to assist in the engagement of students and families. In addition, a student focused plan to inform and engage low-income, English learner and foster youth students will be centralized to bring together voices from across the District. For the LCAP, students will engage in a dialogue and workshops that explore areas of that require student focus and input. Specifically, uplifting student voice will be central to informing the District's LCAP for students who identify as low-income, English learner or foster youth.
- **Elective CSR teachers for High School, Middle Schools and Grades 4-5 (Goal #2, Action #11):** Provide schools with an additional CSR Elective teacher aimed at providing additional enrichment opportunities for students while reducing class size in various math, ELA and P.E. classes. Ensuring students have engaging physical education courses has a direct health impact on low-income students who face barriers to participating in outdoor activities.
- **Expand Site Assigned Maintenance Program (Goal #6, Action 4):** Expand the existing program to increase response times for repairs at schools identified as high need on the District's Student Equity Index. Specifically, this ensures schools with high concentrations of TSP students receive priority for improving a school's functional environment. A creation of 7 maintenance Tiger teams will be established; one for each Maintenance and Operations Field office. Each team will be comprised of an Electrician, Plumber, Carpenter, Painter and Maintenance Worker. The teams will spend a week at each selected elementary school and two weeks at each selected secondary school to perform repair and small renovation projects. The team will report to the Complex Project Manager who will work with site administrators to develop and prioritize the project list for each site. Using the dedicated Tiger Team for the execution of repair and small projects will provide for clean and maintained campuses, which produce the welcoming environments our students seek everyday. School pride and student engagement are seen as a positive indicators for improving student attendance and instructional outcomes. By targeting maintenance efforts utilizing our school equity index, we are ensuring these resources benefit unduplicated pupils in the District by improving their school sentiment, attendance and instructional outcomes.
- **Build Capacity and Support for Parents (Goal #4, Action #1):** Schools with the highest concentration of unduplicated students will receive parental engagement resources to support school leaders in building school communities with strong parental engagement. Building parent capacity is essential to supporting the academic achievement of youth in LAUSD. This investment is intended to educate parents on the key academic initiatives of the district and develop informed parent leadership. Parents acquire the skills to assist their children on homework or support a teacher's instructional efforts in the classroom.
- **Coordinated Professional Development (PD) Framework (Goal #2, Action #10):** Design Professional Development courses to identify & service targeted student population (TSP). (Identified in Goal #2, Action #10) The Division of Special Education is committed to providing high quality, effective professional development for teachers, para-educators, parents, school support staff, and administrators. Professional development is delivered through a variety of forums including in-person workshops, classroom-based coaching and support, online training modules, and salary point classes. These opportunities are designed to ensure that staff members are trained sufficiently to provide rigorous,

research-based instruction to all students in order to prepare them to be career-ready, college prepared, and/or life-ready. While the focus initiatives support our EL, low income and foster youth with disabilities, the District will add components to the proposal process that identify and target EL, Foster Youth and/or low income. The revised Professional Development Proposal Form will allow us to filter and prioritize the implementation of professional development that support the EL, foster youth and/or low income population with approval.

- **IT Support Technicians (Goal #2, Action #10):** Identified as instructional technology support in Goal 2, Action 10, the information technology division has developed IT Support teams to assist our high need schools. The ongoing roll-out of instructional technology devices throughout the District has created additional needs to address connectivity and product use at school-sites. Specifically, high needs schools which were the targeted and initial recipients of 1-1 technology programs, have requested additional support to ensure devices are used effectively. Tech support will be allocated based on the TSP count of students.
- **Redesign 2: Breakfast Program (Goal #6, Action #5):** Food Services will provide nutritious, balanced, MyPlate and USDA compliant meals during Breakfast in the Classroom at the especially needy target schools (621). Food Services will provide or offer nutrition education and recipes to students and parents on a quarterly basis at the especially needy schools (621).: Because Breakfast in the Classroom required additional work on the teachers and other school based employees, the District pays an incentive to each school to get their participation. The average school incentive yearly is \$2,535. The yearly amount for School Year 2015-16 was \$1,617,227. This is an amount that the District has to pay in order to make certain students eat at the targeted especially needy schools.

Expenditure Summary

Expenditures by Budget Category			
Budget Category	2018 Annual Update Budgeted	2018 Annual Update Estimated Actual	2019

Los Angeles, CA 90017

James Cross
President

Dear Dr. Vladovic:

Monte E. Perez
Vice President

In accordance with the provisions of Education Code (EC) Section 52070(c), the Los Angeles County Superintendent of Schools is recommending (an) amendment(s) to the following sections of the Los Angeles Unified School District's Local Control and Accountability Plan (LCAP) for fiscal year 2019-20. The District's governing board is required to consider the County recommendation(s) in a public meeting within 15 days upon receipt of this Superintendent's letter.

Douglas R. Boyd

Betty Forrester

Alex Johnson

Ellen Rosenberg

Thomas A. Saenz

REQUIRED INFORMATION MISSING:

Amendments are recommended as follows:

1. The District's LCAP Budget Overview for Parents section be amended to identify the Projected General Fund Revenue and Budgeted Expenditures for 2019-20 and Expenditures for Unduplicated Pupils in the 2018-19 LCAP as required, pursuant to EC Section 52064.1.
2. The District's LCAP Budget Overview for Parents section be amended to describe any General Fund Budget Expenditures specified for the LCAP Year, not included in the LCAP, pursuant to EC Section 52064.1.
3. The District's Annual Update section be amended as required by the State Board Approved Template, pursuant to EC Section 52070 (d)(l), to:
 - include all information from each goal from the prior year LCAP.
 - review the progress toward the expected annual outcome(s) based on, at a minimum, the required metrics, pursuant to EC Section 52060.
 - include a description of actual actions/services.
 - include estimated actual annual expenditures to implement actions and services.

- describe the overall implementation of actions/services to achieve Goals 1-3.
 - describe the overall effectiveness of actions/services to achieve goals.
 - explain material differences between budgeted and estimated actual expenditures for goals.
 - describe any changes made to the goal, expected outcomes, metrics or actions and services for goals, and identify where those changes can be found in the LCAP.
4. The District's LCAP Stakeholder Engagement section be amended as required by the State Board Approved Template, pursuant to EC Section 52070 (d)(1), to:
- describe the process the district used to consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, community, and pupils in the development of the LCAP and Annual Update.
 - describe the process the superintendent of the school district used to consult with its special education local plan area administrator or administrators to determine that specific actions for individuals with exceptional needs are included in the local control and accountability plan or annual update to the local control and accountability plan, and are consistent with strategies included in the annual assurances support plan for the education of individuals with exceptional needs.
 - describe the process the district used to consult with the Parent Advisory Committee and the English Learner Parent Advisory Committee to inform the development of the LCAP and the annual review and analysis for the LCAP year.
 - describe the impact the stakeholder involvement had on the development of the LCAP and Annual Update.
5. The District's LCAP Goals, Actions and Services section be amended to include a description of the needs that led to establishing each goal as required by the State Board Approved Template, pursuant to EC Section 52070 (d)(1).
6. The District's LCAP Expected Annual Measurable Outcomes section be amended to adhere to the State Board Approved template and use the following required metric(s) to measure progress in state priorities:
- The percentage of English learner pupils who make progress toward English proficiency as measured by the English Language Proficiency Assessments for California or any subsequent assessment of English proficiency, as certified by the state board, pursuant to EC Section 52060(d)(4)(C).
7. The District's LCAP Planned Actions/Services section be amended as required by the State Board Approved Template, pursuant to EC Section 52070 (d)(1), to:
- identify actions/services as new, modified or unchanged.
 - provide evidence to demonstrate how supplemental and concentration funding apportioned on the basis of the number and concentration of unduplicated pupils is used to support such pupils.

8. The District's LCAP Increased or Improved Services for Unduplicated Pupils section be amended as required by the State Board Approved Template, pursuant to EC Section 52070 (d)(1), to:
- describe how services provided for unduplicated students are increased or improved by at least the percentage calculated compared to services provided for all students in the LCAP year, pursuant to 5CCR 15496(a).
 - describe how each action/service, identified as contributing to the increased or improved services requirement, that is provided on a districtwide or schoolwide basis, is principally directed to and effective in meeting the District's goals for unduplicated pupils in the state and any local priority areas, pursuant to 5 CCR 15496(b)(3)(B).

It is important that the District's governing board take necessary action to approve an amended LCAP. The District is required to submit the amended LCAP no later than October 8, 2019.

We wish to express our appreciation to the District's governing board and staff for their cooperation and response to this request within the statutory timeline. If you have questions regarding your District's LCAP, please call Jeanne Keith at (562) 922-6354.

Sincerely,

Arturo Valdez
